- No. 83... **MONTREAL HARBOR DUES**:—Return to Address, Copies of instructions given to Collectors of Customs in Ontario, to collect Montreal Harbor Dues on all freight landed at the Port of Montreal; also a statement of the rate of Dues so levied, and the principle on which they are computed. [*Not printed.*]
- No. 84... **BRITISH MERCHANT SHIPPING**:—Return to Address, All Papers and correspondence had with Her Majesty's Government in relation to the Legislation which was under the consideration of the Imperial Parliament in relation to British Merchant Shipping from 1871 to the end of 1874, in connection with the so-called Plimsoll movement; also in connection with the proposed Legislative measure in relation to merchant shipping at present proposed by Her Majesty's Government; also, all papers, Minutes of Council and despatches had between the Government of Canada and Her Majesty's Government, protesting against any Legislation being had by the Imperial Government which would affect Canadian shipping. [*Not printed.*]
- No. 85... **CANADIAN PACIFIC RAILWAY, EASTERN TERMINUS**:—Return to Address, Correspondence between the Canadian Government and the Government of the Province of Quebec, on the subject of Railway connections between the Eastern terminus of the Canada Pacific Railway, and the Province of Quebec. [*Not printed.*]
- No. 86... **LUNenburg, N.S.**:—Return and two further Returns to Address, Copies of all letters in connection with appointments to, and resignations or dismissals from office, and the appointment of successors in the County of Lunenburg, Nova Scotia, since the 1st October, 1873. [*Not printed.*]
- No. 87... **PENITENTIARIES**:—Seventh Annual Report of the Directors of Penitentiaries of the Dominion of Canada, for the year 1874.
- No. 88... **BRITISH COLUMBIA, CROWN LANDS**:—Copies of Orders in Council relative to Acts of the Legislature of British Columbia. 1. "An Act to amend and consolidate the Laws affecting Crown Lands in British Columbia;" and 2. "An Act to make provision for the better administration of Justice, and as to their disallowance." [*Not printed.*]
- No. 89... **BRITISH COLUMBIA STEAMSHIP CO.**:—Return to Address, All correspondence or letters (if any) between the Government and the "British Columbia Steamship Company," relative to a subsidy for carrying the Mails between San Francisco and Victoria. [*Not printed.*]
- No. 90... **IMMIGRANTS, MONTREAL**:—Return to Address, Any papers showing the number and condition of Immigrants now in the City of Montreal without employment. [*Not printed.*]
- No. 91... **GRAVING DOCK, QUEBEC**:—Return to Address, Copies of all papers, documents, letters and correspondence, having reference to the selection of the site for the construction of a Graving Dock in the Port of Quebec. [*Not printed.*]
- No. 92... **RIDEAU CANAL**:—Return to Address, Statement of Leases of Water Power made by the Department of Public Works between the Dominion Dam at the Whitefish and Kingston Mills on the Rideau Canal, both inclusive; date of lease or leases; time such lease or leases expire; quantity of power rented and approximate power used during past year under each lease; with copy of reports and papers, if any, submitted by the Superintendent Engineer of the Rideau Canal during the past twelve months to the Department of Public Works on this subject. [*Not printed.*]
- No. 93... **GREAT WESTERN RAILWAY CO.**:—Copies of correspondence and accounts *in re* duties refunded to the Great Western Railway Company. [*Not printed.*]
- No. 94... **MILITIA SERVICE EXPENSES**:—Return to Address, Statement of all sums of money expended in 1870-'71-'72-'73 and '74, for the Militia Service, including the Mounted Police, either for payment of men, expenses attending camps, or for clothing, ammunition, drill sheds, or other incidental or ordinary expenses of the Department in Ottawa. [*Not printed.*]
- No. 95... **POSTMASTERS (INSTRUCTIONS)**:—Return to Address, Instructions issued to the Postmaster in cities, towns and villages, by the Postmaster General, under authority of section 42 of the Act 31 Vict., cap. 10, with reference to dutiable goods brought into the Dominion through the post office. [*Not printed.*]

REPORT
OF THE
DEPARTMENT OF THE INTERIOR,
FOR THE
YEAR ENDED 30TH JUNE, 1874.

*To His Excellency the Right Honorable Sir FREDERIC TEMPLE, Earl of
Dufferin, Governor General of Canada, etc., etc., etc.*

MAY IT PLEASE YOUR EXCELLENCY:

I have the honor to submit to Your Excellency to be laid before Parliament in conformity with the law, the Report of the Department of the Interior for the year ended June 30th, 1874.

The Department was established under the provisions of the 36th Vic., cap. 4, and dates from the 1st July, 1873, when that Act came into force. The present report covers, therefore, the operations of the Department during the first year of its existence.

The subjects placed by the Act under the control and management of the Minister of the Interior as head of the Department are the following:

- 1st. The affairs of the North-West Territories.
- 2nd. The lands and affairs of the Indians of Canada.
- 3rd. The Ordnance and Admiralty Lands, and all other public lands not under the control of the Department of Public Works, or of those of Militia and Defence, and Marine and Fisheries.
- 4th. The Crown Lands in Manitoba and North-West Territories, styled by 35th Vic., cap. 23 "Dominion Lands," and,
- 5th. The Geological Survey of Canada.

Prior to the 1st July, 1873, the management of the North-West Territories and the lands and affairs of the Indians devolved upon the Department (abolished by the Act above cited) of the Secretary of State for the Provinces, to which

Department the Geological Survey was also attached. On the other hand, the Dominion Lands and the Ordnance and Admiralty Lands were under the control of the Secretary of State for Canada.

My predecessor, the Honorable Alexander Campbell, was the first Minister of the Interior, and continued to hold that office until the change of Government in November, 1873.

ORGANIZATION.

Each of the five branches of the Department above enumerated come under the general supervision of the head of the Department and his deputy.

Three of them, viz., the Indian, the Ordnance Lands, and the Dominion Lands Branches, have each their separate staff of officers under the immediate control of the Chief Officer of the branch. In addition to the staff at the seat of Government the Indian and Dominion Lands Branches have also each of them a numerous outside service, confined in the case of the latter to the Province of Manitoba and the North-West Territories, but extending in the case of the former over every Province of the Dominion.

The staff of the Geological Survey has its headquarters at Montreal, where it has been continuously since its first organization, and where it now possesses a very valuable museum and suitable apparatus for purposes connected with the survey.

The work of organizing the Department and of initiating a system of conducting the business of the five distinct and important services, for the first time brought together, had been in a large measure accomplished before I came into office; and I bear willing testimony to the satisfactory manner in which this necessary labor was carried out by the Deputy Head of the Department. The changes required in the mode of conducting the business in the Ordnance Lands and Dominion Lands Branches were comparatively trifling. In the Indian Branch it was different. The method of conducting the business in that branch was somewhat obsolete, the papers and records were in a state of confusion (the older ones being quite inaccessible when required), and, as a natural consequence, there was a heavy accumulation of arrears of work. Prompt measures were, however, taken to classify and arrange the papers and records and to introduce a simple and more efficient system of registering and filing papers, and of transacting business generally. The arrears of work in the branch were also taken in hand as rapidly as the current business would allow, and, before the close of the first year of the operations of the new Department, a large proportion of these arrears had been finally disposed of.

It is characteristic of at least four of the branches which make up the Department of the Interior that they are rapidly growing in importance. The enormous extension of the area of the Dominion within the last few years has necessarily added proportionately to the work thrown upon the staff of the Geological Sur-

vey, while the accession of some 55,000 red men, for the most part utterly uncivilized, has added still more seriously to the labors and responsibilities of the Indian Branch.

Again, the Dominion Lands Branch, specially charged as it is with the duty of surveying and allotting to settlers the rich and boundless prairies of the west, has in the few years of its existence grown up with a marvellous rapidity, and is plainly destined in the near future to assume still more formidable proportions.

The administration of the affairs of the North-West must also, it is clear, as population pours into the country and settlements are made, bring up for solution new questions of more than ordinary complexity and gravity.

The Ordnance and Admiralty Lands Branch is the one branch of the Department which does not possess this characteristic of rapid growth. Here the work, though it has increased somewhat of late years, cannot continue to extend.

I.—NORTH-WEST TERRITORIES.

Two Acts passed during the recent session of Parliament claim special notice in connection with Indian affairs in the Territories, viz., 37 Vic., cap. 7, and 37 Vic., cap. 22. The former prohibits the importation into or manufacture in the North-West Territories of all intoxicating liquors, and enforces such prohibition by the most stringent provisions. The latter authorizes the establishment of a Mounted Police force in the Territories, and clothes the officers thereof with ample powers to carry out the provisions of the liquor law.

The united operations of these acts has already done much towards the suppression of the liquor traffic in the Territories, and their provisions, if vigorously enforced, must ere long stamp it out altogether.

The satisfactory results of those acts, taken in connection with the friendly communications which officers of the Government held last September with the Indians and Metis at Qu'Appelle, have tended largely to secure the sympathy and good will of the native tribes and of the half-breeds, and to establish the *prestige* of the Canadian Government in the North-West.

MESSENGERS IN ADVANCE OF POLICE.

Fears had been expressed by some, who spoke with a knowledge of Indian character, that the entrance into the Territories of the Mounted Police might arouse the suspicions of the Indians, and possibly result in bloodshed and serious trouble.

Pains, however, had been taken at the suggestion of the North-West Council, who shared the fears above mentioned, to communicate beforehand with the Indian tribes through whose territories the force was to pass, and explain to them, by means of trustworthy persons having their confidence, the nature and objects of the movement. As a result, the force has everywhere been welcomed by the Indians as their friends and benefactors.

NORTH-WEST COUNCIL.

During the course of the year His Honor the Lieutenant-Governor of the North-West Territories has from time to time transmitted, for the consideration of the Governor General in Council, acts, resolutions and minutes passed by the Council of the North-West on matters connected with the government of the territories.

These acts and resolutions have received consideration. Some of the resolutions have been approved and acted upon with advantage to the Territories, and a few of the acts have also been approved.

MAGISTRATES.

A few ordinary magistrates have been appointed in the Territories, but they have not been able to effect much in the way of punishing offenders. The North-West Council have consequently strongly urged upon the Government the necessity of appointing stipendiary magistrates at certain important points in the Territories, and it is probable the time has now come, since the Mounted Police force is fairly stationed in the country, when this suggestion may be acted upon.

Such a measure, it may reasonably be hoped, will go far to establish law and order, and to increase the security of life and property in these distant territories.

To have appointed stipendiary magistrates in the Territories, when there was no force there competent to carry out their decision, could hardly have had any other result than to make the administration of justice contemptible in the eyes of the Indians and of others hunting and trading in the North-West.

INTERNATIONAL BOUNDARY LINE.

This seems the proper place to mention the despatch, communicated by your Excellency to this Department from the Secretary of State for the Colonies, covering a report from Captain Cameron, R.A., to the Foreign Office, announcing the completion of the field work of the North American Boundary Commission.

The commission under Captain Cameron was appointed in conjunction with commissioners named by the United States Government to determine, in accordance with the Second Article of the Convention of London of the 20th of October, 1818, the international boundary line between Canada and the United States, from the most north-west point of the Lake of the Woods due south to the parallel of (49) forty-nine of north latitude, and thence westward to the Stoney or Rocky Mountains.

Captain Cameron states that the whole of the international boundary line, with the exception of about nineteen miles at the western end, has been cleared of trees. As the line for this length of nineteen miles traverses impracticable ground in the Rocky Mountain ranges, it was considered sufficient to mark only two points, namely, the passage of Belly River and the crossing of Lake Waterloo. Along the south of the Province of Manitoba iron pillars have been placed at two mile intervals. West of the Province the line is indicated by cairns, generally about three miles apart;

east of the Province to the Lake of the Woods, and thence northward to the north-west angle of said lake, iron pillars will be placed along the line on such available sites as the swampy character of the country will admit of.

The Chief Astronomer on the Commission and his assistants, with six of the Royal Engineers, are now engaged at the seat of government in completing the maps and office work, generally, in connection with the survey.

Frequent difficulties and disputes, which might have led to grave international complications, have within the last two or three years occurred in consequence of the uncertainty of the international boundary line in this region; and, in the interests of peace as well as on other grounds, the authoritative determination of this missing link in our international boundary line cannot but be a source of satisfaction to the Imperial and Dominion Governments, who have agreed to share equally the cost of this national undertaking.

II.—INDIAN AFFAIRS.

The number of small bands into which most of the Indian tribes of the Dominion of Canada are divided, and the distance which some of the bands must necessarily be from any officer of the Department, render it difficult to procure satisfactory information as to their actual condition. In the older Provinces, however, more might be accomplished in this respect. The local superintendents and agents should carefully observe the movements of those under their supervision, and report every sign of material, mental and moral improvement or retrogression. The adoption of this course would, no doubt, tend to mitigate some of the evils under which the Indians labor by bringing them prominently into notice; and, on the other hand, it would furnish examples of achievements in certain quarters which might help to guide and encourage others elsewhere who are less successfully, yet faithfully, striving to elevate the Indian race.

With this object in view circulars were sent out from the Department in August last to the Indian superintendents and agents, with such queries as would elicit the desired information. Something has been gained, as the papers accompanying this report will show. In future it is to be hoped that these reports will be still more complete, as I am satisfied that the attainment of full and accurate knowledge of the real state of our Indian population will be attended with the best results.

INDIVIDUAL PROPERTY.

It is gratifying to observe that the Indians on several of the reserves are beginning to acquire individual property. They are making small clearances on their allotments, raising patches of grain and vegetables, and procuring farm stock. But the progress is slow. Habits formed by a people generations back are difficult to overcome. The system of living with the rude savage is from hand to mouth. He has no inducement to acquire property, because it would only further expose him to

the attacks of his enemies. He is active on the war-path or in the chase; but when danger is over, revenge satisfied, or his immediate wants appeased, he relapses into his accustomed indolence. It may be said that this *inertia* is the chief legacy which he bequeaths to his children. The great difficulty with the Indian is that he cannot all at once rid himself of this inheritance. Even under the most favorable circumstances time must be given him to understand the motives and acquire the habits of the white man, who labors to accumulate wealth in order that he may have the means of support in sickness or old age, or of giving his offspring a start in life. But when these motives come to be understood and acted upon by the Indian, the evidence of which is the possession of considerable property acquired by his own industry and thrift, it shows that he may safely be entrusted with the rights of full citizenship. To grant enfranchisement to the intelligent and well-behaved Indians would probably train them to still further self-reliance, and encourage their brethren who are lagging behind to make greater exertions to overtake the Anglo-Saxon in the race of progress. Accompanied with enfranchisement, they should obtain, probably, at first an allotment of their proper share of the reserve to which they belong; then, after four or five years continued good behavior, the fee simple of said share; and, perhaps, eventually, after a still longer probationary period, they might receive some proportion of the invested capital funds of their band.

EDUCATION.

Education is gradually extending among the Indian population, but in some quarters, especially in the Lower Provinces, little is being done. The ordinary day school is the principal agency employed, and the assistance given through the Department is mostly in the character of grants in aid. For young children this agency is doubtless necessary; but from the tenor of my remarks in the preceding paragraph it may readily be observed that regard it as highly important that the Indian youth, where practicable, should be afforded an industrial school training. They require not merely the elements of an English education, but also to be taught and trained in some useful industrial pursuit.

On my recent visit to the Mohawk Institute near Brantford, Ontario, which is supported by the New England Company for the benefit of the Six Nations, I was confirmed in this impression. The beneficial effects of that excellent institution are very apparent on the Tuscarora Reserve; and I believe that similar schools in other parts of that Province, and in British Columbia, are accomplishing a like good result.

EFFORTS OF RELIGIOUS DENOMINATIONS.

Though this Department is very properly not charged with any care of the religious concerns of the Indians, yet I might fail in my duty did I withhold commendation from the efforts put forth by the English, Wesleyan and Roman Catholic churches to civilize, by means of christianity, the aborigines of the Dominion. During my tour last summer in the North-West I had occasion to visit the St. Peter's reserve on the

Red River, and was pleased to observe around the mission, under the charge of the Venerable Archdeacon Cowley, nearly all the indications of as high Christian civilization as may be seen in many rural districts of the older Provinces. The happy effect also of the Wesleyan mission near Edmonton on the Saskatchewan, presided over for many years by the Rev. Mr. McDougall, is well-known throughout the Dominion; and the self-denying labors of the Roman Catholic missionaries to the Indians in the North-West Territories, in British Columbia and other Provinces, have long been a matter of history. The Presbyterian mission at Prince Albert, one of the Hudson Bay Company's Posts, has been bereaved of the Rev. Mr. Nesbitt, both he and his wife having last autumn fallen in the missionary service; probably, however, their place will be supplied, and the Presbyterian and other churches, which are supporting missionaries in distant parts of the world, will ere long consider the claims of the Indians, who number somewhere about 85,000 of the population of our own country.

INDIAN BOARDS.

The Indian Boards established in Manitoba and British Columbia have not, I regret to say, been a success. This has arisen mainly from the fact that the Lieutenant Governors of those Provinces regarded the principle on which the Boards were constituted as placing them in a somewhat anomalous position. It may therefore be a matter for consideration at an early day whether an organization similar to that which exists in Ontario, with superintendents and agents, should not be adopted in British Columbia and in the North-West. The distance from Ottawa may, perhaps, be urged as an objection to this arrangement; but the Pacific Railway Telegraph will within a year or two connect the Capital with most of the principal points in the western half of the Dominion, consequently the aid of Indian Boards will not be so much required. These, to be efficient, should be composed of men qualified to advise by reason of the knowledge which they possess, through communication with the Indians, and perhaps actual visitation of them on their camping grounds. But the sittings of a Board so composed could be seldom held, owing to the long and tedious journeys which, at least some of its members would have to take to the place of meeting; therefore upon the whole, it appears to me that it would be more satisfactory for each commissioner or superintendent to have the superintendence of a special district and to advise directly with the Department.

TREATIES.

On the 3rd of October, 1873, a treaty was concluded at the North-West Angle of the Lake of the Woods with the Salteaux tribe of Ojibbeway Indians inhabiting the country between Ontario and Manitoba. The negotiations were somewhat tedious, though ably conducted by the Hon. Alexander Morris, Lieutenant-Governor of Manitoba and of the North-West Territories, assisted by Messrs. J. A. N. Provencher and S. J. Dawson. This delay arose from the length of time the Indians require to deliber-

ate in council, the difficulty being in this case probably increased by questions connected with the failure of previous efforts at negotiation, and with the constant summer travel which had been going on through the territory referred to ever since the opening of the Dawson route—a privilege for which the Indians evidently thought the Dominion ought to pay liberally. They consequently demanded indemnity for the past, and pressed for higher annuities than had been granted under Treaties one and two. Under the circumstances of the case it was deemed prudent partially to accede to their demands.

By this treaty about 55,000 square miles of territory were opened up for safe travel, settlement, and railway operations. It may be said, however, to have had one drawback, which seemingly could not be avoided. The high terms which it conceded have in some degree tended to cause discontent among the Indians less favored under former treaties, as also to raise the expectations of all those bands whose lands remain to be surrendered.

A copy of the Treaty, which is No. 3 in the order of negotiation in the North-West Territories, together with Lieut.-Governor Morris's despatch transmitting the same, is appended.

It may be remarked, in connection with the above-named treaty, that S. J. Dawson, Esq., and Mr. Robert Pither, agent at Fort Francis, were appointed in July last to carry out its stipulations that the reserves thereunder should be selected by officers of the Government after conference with the Indians. This duty, except in the case of two or three scattered bands, they successfully accomplished during the autumn. The reserves will be surveyed as soon as arrangements for that purpose can be conveniently made.

Though not within the financial year for which this report is prepared, it may not be out of place to mention that another treaty was concluded on the 15th of last September. The place of meeting was at the Qu'Appelle Lakes, and the Indians treated with were a portion of the Salteaux and Cree tribes, as also a few others of mixed breeds. About 75,000 square miles of territory were surrendered, on terms similar to those contained in the treaty of the previous year, much of which land, north of the Qu'Appelle River, is valuable for farming purposes.

It has been deemed advisable to include a copy of this last treaty, No. 4, with the papers accompanying this report.

The boundaries of the tract ceded by the said treaty, as well as by the other treaties, will be best understood by referring to the accompanying map.

In the negotiations last referred to, as Your Excellency is aware, I had the honor of taking a part, and the information which I acquired at Qu'Appelle and Manitoba will greatly aid me in discharging the responsible duties of my department. In this connection I cannot speak too highly of the tact displayed by the commissioners associated with me on that occasion, namely, His Honor Lieut.-Governor Morris and W. J. Christie, Esq., of Brockville, the latter formerly for many years a resident of the

North-West Territories. Nor can I omit to mention the valuable services of Lieut. Colonel Smith, who commanded our escort, and of his brother officers; likewise to compliment the men on their successful march and general good behavior. The kindness and hospitality shown by the Hudson Bay Company's officers at the several posts which the Commissioners' party visited contributed much to their comfort. To the Chief Commissioner of the Company, Mr. Graham, for his letter of advice, and to the officers in question and their families, our acknowledgements are due.

THE SIOUX.

During my visit to the North-West I met several of the chiefs and head men of that portion of the Sioux tribe who fled to British territory after the Indian massacre in 1862. I was pleased to observe numbers of them working in the harvest fields of the settlers near Portage La Prairie; and on enquiry found that, generally speaking, they had conducted themselves as a peaceable and honest people. Lieut.-Governor Morris and myself strongly urged them to remove to the reserve which the Government had assigned them near the confluence of the Little Saskatchewan with the Assiniboine. They were evidently fully sensible of their position as exiles, and seemed to feel that having no territorial rights in the country they had been kindly dealt with in being assigned a reserve. They, however, begged for a little assistance in seed grain and agricultural implements, and they were promised, provided they settled on their reserve without delay, that they would receive some aid of this kind.

BRITISH COLUMBIA LAND QUESTION.

The position of the Indian land question in British Columbia has from the first organization of the Department been felt to be a great obstacle in the way of the satisfactory administration of Indian affairs in that Province.

The Indians of British Columbia complain that the quantity of land which the Local Government propose to assign them as reserves is utterly inadequate to their necessities; and they further allege that, where land matters are concerned, their rights are ignored and their claims subordinated to those of the white settlers. The result of this state of things is that there is a universal and growing feeling of dissatisfaction among the Indian population of the Province, and a corresponding uneasiness and alarm among the white settlers.

The satisfactory adjustment of this important question involves, as will be seen, the united action of the Dominion and Local Governments; and to the attainment of this end the efforts of the Department have been directed for the past two years, heretofore, unfortunately, without any satisfactory result. To understand rightly the positions which the Dominion and Local Governments occupy relative to each other and to the Indian, as regards this question, it is to be remembered:

- 1st. That under the general provisions of section 146 of the British North

America Act of 1867 all the public lands in the Province of British Columbia are under the control of the Local Government.

2nd. That by the thirteenth article of the terms of admission of British Columbia into the union it is provided, "that the charge of the Indians and the trustee-ship and management of the lands reserved for their use and benefit should be assumed by the Dominion Government, and a policy as liberal as that hitherto pursued by the British Columbia Government should be continued by the Dominion Government after the union.

And it is further provided, "to carry out such policy, tracts of land, of such extent as it has been the practice of the British Columbia Government to appropriate for that purpose, shall from time to time be conveyed from the Local to the Dominion Government in trust, for the use and benefit of the Indians, on application of the the Dominion Government; and in case of disagreement between the two Governments respecting the quantity of such tracts of land to be granted, the matter shall be referred for the decision of the Secretary of State for the Colonies."

Shortly after the admission of British Columbia into the Union the Local Government transmitted to the Government of the Dominion a schedule of the Indian reserves in that Province. The areas thus set apart for the Indian in no case exceed the proportion of ten acres for each Indian family interested in them. In March, 1873, the Government of the Dominion passed an Order in Council recommending that eighty acres of land should be assigned by the Local Government to every Indian family of five persons in the Province. This recommendation was made in accordance with the general policy previously pursued towards the Indians in Old Canada, where eighty acres to each family of five was the usual allowance. In Manitoba and the North-West that allowance has been more than doubled. To this recommendation the Government of British Columbia declined to accede, alleging that the amount of land thus proposed to be given to the Indians was greatly in excess of what had been found sufficient by the Local Government; and stating that they were not prepared to go beyond twenty acres to each family of five persons, that being a larger amount than has been previously granted to the Indians of that Province, and more, therefore, as they contended, than they were bound, under the terms of the union above referred to, to convey to the Dominion Government for the use of the Indians.

This concession on the part of the Local Government of twenty acres to each Indian family of five persons (inadequate as it would have been considered by the Indians) was subsequently declared by them to apply to those cases only where the Indians, at the time of the union with Canada, were not provided with reserves, and not to apply to the old reserves, however much these latter might fall below the average of twenty acres to a family.

It may be proper to state in this connection; that since the Government of the

Dominion became charged with the management of Indian affairs in British Columbia they have acted with great liberality towards the Indians of that Province. During the last two years no less a sum than \$54,000 has been voted by the Dominion Parliament for their benefit, and before the expiration of the current financial year, it is probable that the greater part of this large sum will have been expended for Indian purposes in that Province. This liberality of the Dominion Parliament stands in marked contrast with the policy previously pursued towards the Indians by the Local Government, whose entire annual expenditure on behalf of the Indians, prior to the admission of British Columbia into the union, did not exceed at most a few hundred dollars. Pending the result of the correspondence now going on between the Dominion and Local Governments on this question, it is not necessary, perhaps, to discuss it further in this report. I shall, therefore, content myself with expressing the hope that before many months some satisfactory solution of this grave and complicated question will have been arrived at.

It may here be stated that early last year the large sum of \$6,000 was appropriated by the Government of the Dominion, for the purpose of making a survey of the Indian reserves in British Columbia, with a view to their being allotted among the Indians living upon them. This work was undertaken at the urgent request of the Indian Commissioner, Doctor Powell, and to meet the wishes of the Indians who were most anxious to have their holdings on the reserves marked out and assigned to them. Two surveying parties were accordingly organized and equipped at considerable expense during the summer, and some progress had been made in the surveys when, owing to some difficulty arising out of the position the Local Government has assumed on the Indian land question, the Commissioner found himself reluctantly compelled to arrest the surveys. Dr. Powell, while so doing, expresses his great regret that this step should have been necessary, feeling that it was calculated further to aggravate the discontent of the Indians, and to keep up disputes of long standing between the Indians and the white settlers in regard to their respective land claims. So soon as any definite conclusion is arrived at as to the quantity of land to be allotted, the surveys of the reserves will be at once resumed where it is deemed desirable.

DEPUTY SUPERINTENDENT GENERAL'S REPORT.

The report of the Deputy Superintendent General shows in detail the ordinary working of the machinery for the administration of Indian affairs, and the results of the year's operations. It embraces a great deal of information, which has been arranged with care.

III.—ORDNANCE LANDS.

The report of the Commissioner of Ordnance Lands, prepared in his usual clear and concise style, contains all that need be said respecting this branch of the Department. It is gratifying to observe that the receipts from sales exceed those of any previous year.

Several valuable properties once held for military purposes, but now transferred to this Department, remain to be disposed of. Notable among these are the ordnance lands at Amherstburg, St. John's and Chambly. They will be brought into the market as soon as may be deemed expedient, keeping in view the interests of the country and of the public service.

IV.—DOMINION LANDS

The increasing importance of the operations under this branch will naturally direct attention to the report of the Surveyor General. The full and satisfactory manner in which he treats of the several subjects more immediately under his supervision, is well calculated to supply the eager public desire for information respecting all that pertains to the settlement of the North-West.

Colonel Dennis has very properly brought up his report to the close of the calendar year. It is very desirable that there should be no break in presenting a summary of each season's operations before Parliament. Not only is the latest information on the progress of settlement in the North-West important, in view of the large expenditure that is being incurred in opening up the country, and of the legislation necessary to regulate the affairs of so extensive a territory; but also as an encouragement to the intending immigrant.

SURVEYS.

Under this head I may remark, in addition to the particulars given by the Surveyor General, that but little was done last season to extend the block line surveys. It was deemed advisable not to incur any further heavy expenditure of this kind, until the route of the Pacific Railway to and across the Province of Manitoba should be determined. Next summer, however, it will probably be necessary to prosecute this work vigorously.

With respect to the special survey of meridians and bases in the North-West Territories, I regret the unavoidable delay at its commencement; but I fully join in the expectation of the Surveyor General, that next year the Department will receive from the officer in charge, Lindsay Russell, Esq., an interesting progress report. The well-known skill, energy, and resource of that gentleman is a reasonable guarantee to the country that the survey will be pushed to a successful completion.

SETTLEMENT.

It is gratifying to observe that the homestead entries in 1874 largely exceed in number those of the previous year. The quantity of land sold is also encouraging, and had it not been for the grasshopper visitation the entries and sales would undoubtedly have been much more numerous.

It seems to be the general impression in the West that these destructive insects last year culminated one of their periods, and that a long time may elapse

before they again appear in such force. As the country becomes settled, however, they will probably gradually decrease in number every periodic return.

LAND OFFICES.

The distance of the Lands Office at Winnipeg from some of the most fertile townships in Manitoba, coupled with the great expense of travelling in that Province, rendered it highly desirable that greater facilities should be afforded intending settlers to make their entries. The Department, therefore, last spring, established branch offices at Westbourne and Dufferin which have contributed greatly to the convenience of applicants for lands.

While in Manitoba last summer I gave much earnest attention to the affairs, in the Lands Office at Winnipeg. In the interest of the public service I deemed it my duty to report one clerk for dismissal. I have, however, much pleasure in expressing my full confidence in the then acting agent, Mr. D. Codd. But the system of conducting the business in the office, though by him much improved in practice, had been continued pretty much the same in form since the Agency was established. Mr. Codd, however, felt that he had not the power to introduce reform as he was only *acting* agent. I instructed him to assign each clerk his particular duties, and to adopt a more strict system of checks than had previously obtained in the office. Mr. Codd has since been appointed agent, and will now be enabled to exercise proper authority over his subordinates. Already as a consequence of the division of labor adopted, the staff has been reduced in number; and the careful checking of entries, together with the additional authority which the officer in charge has acquired by his appointment as agent, will, I feel confident, tend to remove some of the abuses which had crept into the office under the administration of his predecessor.

DISPUTED CLAIMS.

The legal and the equitable bearing of certain reputed claims to lands in Manitoba have been under careful consideration. Some of them have been disposed of, and it is hoped that an adjustment of the remainder of all such questions will be effected at an early day. Pending a decision on some of these claims, it was found impracticable to proceed with the allotment of the half-breed lands. The delay may have been inexplicable to persons interested in such lands; but it has arisen from a desire on the part of the Government to do justice to all parties.

V.—GEOLOGICAL SURVEY.

The Director of the Geological Survey publishes annually a very full and interesting report of the explorations and researches of himself and staff, which is separately laid before Parliament. It affords me pleasure, however, to remark that under the careful management of Mr. A. R. Selwyn, F.R.S., the present laborious and competent Director, the survey is performing a most valuable work for this Dominion.

I would also add that Members of the Senate and House of Commons visiting Montreal, and also scientific men from any of the Provinces, would do well to call at the Museum of the Geological Survey, where they will find, apart from other interesting objects, a collection of upwards of 7,000 specimens of Canadian minerals, rocks and fossils, carefully arranged, with a view to illustrate the economic and scientific geology of the Dominion. There is probably no place in the Dominion where a better idea can be obtained of the rich mineral resources of Canada; nor where an hour can be more profitably spent by any person whose tastes lead him to contemplate the wonderful works of the Great Creator in the geologic ages of the past.

All of which is respectfully submitted.

D. LAIRD,
Minister of the Interior.

Department of the Interior,
January 20th, 1875.

Lieut.-Governor Morris to the Honorable Minister of the Interior.

GOVERNMENT HOUSE,

FORT GARRY, October 14th, 1875.

SIR,—I have the honor to enclose copy of a treaty made by myself, Mr. Provencher, Indian Agent, and S. J. Dawson, Esq., Commissioners of Indian Affairs, acting on behalf of Her Majesty, of the one part, and the Salteaux tribe of Ojibbeway Indians on the other, at the North-West Angle of the Lake of the Woods, on the 3rd of October, for the relinquishment of the Indian title to the tract of land therein described, and embracing 55,000 square miles. In the first place, the holding of the negotiation of the treaty had been appointed by you to take place at the North-west Angle before you requested me to take part therein, and Mr. Dawson had obtained the consent of the Indians to meet there on the 10th of September, but they afterwards changed their minds, and refused to meet me unless I came to Fort Francis. I refused to do this, as I felt that the yielding to the demand of the Indians in this respect, would operate injuriously to the success of the treaty, and the results proved the correctness of the opinion I had formed. I therefore sent a special agent (M. Pierre Levailler) to warn them that I would meet them as arranged at the North-west Angle on the 25th, or not at all this year, to which they eventually agreed.

I left here for the Angle on the 23rd September, and arrived there on the 25th, when I was joined by Messrs. Provencher and Dawson, the last named of whom I was glad to find had been associated with the Commissioners in consequence of the resignation of Mr. Lindsay Russell, thereby giving us the benefit as well of his knowledge of the country to be dealt with, as of the several bands of Indians therein. Mr. Pither, of Fort Francis, was also in attendance, and Mr. Provencher was accompanied by Mr. St. John of his department.

On arriving, the Indians, who were already there, came up to the house I occupied in procession, headed by braves bearing a banner and a Union Jack, and accompanied by others beating drums. They asked leave to perform a dance in my honor, after which they presented to me the pipe of peace. They were then supplied with provisions and returned to their camp. As the Indians had not all arrived, and for other reasons, the 26th, 27th and 28th were passed without any progress, but on the 29th I sent them word that they must meet the Commissioners next morning. Accordingly, on the 30th, they met us in a tent, the use of which I had obtained from the military authorities. I explained to them the object of the meeting, but as they informed me that they were not ready to confer with us, I adjourned the meeting until next day. On the 1st October they again assembled. The principal cause of the delay was divisions and jealousies among themselves. The nation had not met for many years, and some of them had never before been assembled together. They were very jealous of each other, and dreaded any of the chiefs having individual communications with me, to prevent which they had guards on the approaches to my house and Mr. Dawson's tent. On the 2nd October they again assembled, when I again explained the object of the meeting, through McPherson, an intelligent half-breed trader, whose services I secured. M. Chatelan, the Government Interpreter, was also present. They had selected three spokesmen, and had also an Indian reporter, whose duty was to commit to memory all that was said. They had also secured the services of M. Joseph Nolin, of Pointe du Chêne, to take notes in French of the negotiations, a copy of which notes I obtained from him and herewith enclose. The spokesman informed me they would not treat as to the land until we settled with them as to the Dawson route, with regard to which they alleged Mr. Dawson had made promises which had not been kept, and that they had not been paid for the wood used in building the steamers, nor for the use of the route

itself. Mr. Dawson explained that he had paid them for cutting wood, but had always asserted a common right to the use of wood and the water way. He asked them what promise had not been kept, and pointed out that the Government had twice before endeavored to treat with them for a settlement of all matters. He referred them to me as to the general question of the use of the route. They were unable to name any promises which had not been kept. Thereupon I told them I came on behalf of the Queen and the Government of the Dominion of Canada to treat with them with regard to the lands and all other matters, but that they refused to hear what I had to say; had closed my mouth; and as we would not treat except for the settlement of all matters past and future I could not speak unless they asked me to do so. They conferred among themselves, and seeing that we were quite firm, the spokesman came forward and said that they would not close my mouth, after which they would make their demands. The Commissioners had had a conference and agreed, as they found there was no hope of a treaty for a less sum, to offer \$5 per head, a present of \$10, and reserves of farming and other lands not exceeding one square mile per family of five, or in that proportion, sums within the limit of our instructions, though I had private advices if possible not to give the maximum sum named, as the Government had been under a misapprehension as to amounts given to the bands in the United States. The chiefs heard my proposal, and the meeting adjourned until next day. On the 3rd October the chiefs again assembled and made a counter proposition, of which I enclose a copy, being the demand they have urged since 1869. I also enclose an estimate I had made of the money value of the demand, amounting to \$125,000 per annum. On behalf of the Commissioners I at once peremptorily refused the demand. The spokesmen returned to the chiefs, who were arranged on benches, the people sitting on the ground behind them, and on their return they informed me that the chiefs, warriors and braves were of one mind, that they would make a treaty only if we acceded to their demand. I told them if so the conference was over, that I would return and report that they had refused to make a reasonable treaty, that hereafter I would treat with those bands who were willing to treat, but that I would advise them to return to the Council and reconsider their determination before next morning, when, if not, I should certainly leave. This brought matters to a crisis. The chief of the Lac Seul band came forward to speak. The others tried to prevent him, but he was secured in a hearing. He stated that he represented four hundred people in the north; that they wished a treaty; that they wished a school-master to be sent them to teach their children the knowledge of the white man; that they had begun to cultivate the soil and were growing potatoes and Indian corn, but wished other grain for seed and some agricultural implements and cattle. This chief spoke under evident apprehension as to the course he was taking in resisting the other Indians, and displayed much good sense and moral courage. He was followed by the Chief "Blackstone," who urged the other chiefs to return to the Council and consider my proposals, stating that he was ready to treat, though he did not agree to my proposals nor to those made to me. I then told them that I had known all along they were not united as they had said; that they ought not to allow a few chiefs to prevent a treaty, and that I wished to treat with them as a nation and not with separate bands, as they would otherwise compel me to do; and therefore urged them to return to their council, promising to remain another day to give them time for consideration. They spent the night in Council, and next morning having received a message from M. Charles Nolin, a French half-breed, that they were becoming more amenable to reason, I requested the Honorable James McKay (who went to the Angle three times to promote this treaty,) Charles Nolin and Pierre Levailler to go down to the Indian Council, and as men of their own blood, give them friendly advice. They accordingly did so, and were received by the Indians, and in about half an hour afterwards were followed by Messrs. Provencher and St. John, who also took part in the interview with the council of chiefs. The chiefs were summoned to the conference by the sound of a bangle and again met us, when they told me that the determination to adhere to their demands had been so strong a bond that they did not think it could be broken, but that they had now determined to see if I would give them anything more.

The Commissioners had had a conference, and agreed previously to offer a

small sum for ammunition and twine for nets, yearly—a few agricultural implements and seeds, for any band actually farming or commencing to farm, and to increase the money payment by \$2 per head if it should be found necessary in order to secure a treaty, maintaining the permanent annuity at the sum fixed. The Indians on the other hand had determined on asking \$15, with some other demands. In fixing the \$10 the Commissioners had done so as a sum likely to be accepted in view of \$3 per head having been paid the Indians the first year the Dawson route was used, and that they had received nothing since. In reply to the Indians, I told them I was glad that they had reconsidered their decision, and that as they had done so, being desirous of inducing them to practice agriculture and to have the means of getting food if their fishing and hunting failed, we would give them certain implements, cattle, and grain, once for all, and the extra \$2 per head of a money payment. This proposal was received favorably, but the spokesman again came forward and said that they had some questions to ask before accepting my proposal. They wanted suits of clothing every year for all the bands, and \$50 for every chief annually. This I declined, but told them that there were some presents of clothing and food which would be given them this year at the close of treaty. They then asked free passes forever over the Canada Pacific Railway, which I refused. They then asked that no “fire-water” should be sold on their reserves, and I promised that a regulation to this effect should be introduced into the treaty. They then asked that they should not be sent to war, and I told them the Queen was not in the habit of employing the Indians in warfare. They asked that they should have power to put turbulent men off their reserves, and I told them the law would be enforced against such men. They asked what reserves would be given them, and were informed by Mr. Provencher that reserves of farming and other lands would be given them as previously stated, and that any land actually in cultivation by them would be respected. They asked if the mines would be theirs; I said if they were found on their reserves it would be to their benefit, but not otherwise. They asked if an Indian found a mine would he be paid for it, I told them he could sell his information if he could find a purchaser like any other person. They explained that some of the children had married in the States, and they wished them to return and live among them, and wanted them included in the treaty. I told them the treaty was not for American Indians, but any *bona fide British Indians* of the class they mentioned who should *within two years* be found *resident* on British soil would be recognized.

They said there were some ten to twenty families of half breeds who were recognized as Indians, and lived with them, and they wished them included. I said the treaty was not for whites, but I would recommend that those families should be permitted the option of taking either status as Indians or whites, but that they could not take both. They asked that Mr. Charles Nolin should be employed as an Indian Agent, and I stated that I would submit his name to the Government with favorable mention of his services on that occasion. They asked that the chiefs and head men, as in other treaties, should get an official suit of clothing, a flag, and a medal, which I promised. Mawedopiniias produced one of the medals given to the Red River Chiefs, said it was not silver, and they were ashamed to wear it, as it turned black, and then, with an air of great contempt, struck it with his knife. I stated that I would mention what he had said, and the manner in which he had spoken. They also stated that the Hudson Bay Company had staked out ground at Fort Francis, on part of the land they claimed to have used, and to be entitled to, and I promised that enquiry would be made into the matter. They apologised for the number of questions put me, which occupied a space of some hours, and then the principal spokesman, Mawedopiniias, came forward and drew off his gloves, and spoke as follows: “Now you see me stand before you all. “What has been done here to-day, has been done openly before the Great Spirit, and before the nation, and I hope that I may never hear any one say that this treaty “has been done secretly. And now, in closing this council, I take off my glove, and “in giving you my hand, I deliver over my birthright, and lands, and in taking your

"hand I hold fast all the promises you have made, and I hope they will last as long as the sun goes round, and the water flows, as you have said." To which I replied as follows: "I accept your hand, and with it the lands, and will keep all my promises, in the firm belief that the treaty now to be signed will bind the red man and the white man together as friends forever." The conference then adjourned for an hour to enable the text of the treaty to be completed, in accordance with the understanding arrived at. At the expiration of that period the conference was resumed, and after the reading of the treaty, and an explanation of it in Indian by the Hon. James McKay, it was signed by the Commissioners and by the several Chiefs, the first signature being that of a very aged hereditary chief. The next day the Indians were paid by Messrs. Fether and Graham, of the Department of Public Works; the latter of whom kindly offered his services, as Mr. Provencher had to leave to keep another appointment. The negotiation was a very difficult and trying one, and required on the part of the Commissioners, great patience and firmness. On the whole I am of opinion that the issue is a happy one. With the exception of two bands in the Shebandowan District, whose adhesion was secured in advance, and the signatures of whose Chiefs Mr. Dawson left to secure the Indian title has been extinguished over the vast tract of country comprising 55,000 square miles lying between the upper boundary of the Lake Superior treaty, and that of the treaty made by Mr. Commissioner Simpson at Manitoba Post, and embracing within its bounds the Dawson route, the route of the Canada Pacific Railway, and an extensive lumber and mineral region. It is fortunate, too, that the arrangement has been effected; as the Indians along the lakes and rivers were dissatisfied at the use of the waters, which they considered theirs, having been taken without compensation, so much so indeed that I believe if the treaty had not been made, the Government would have been compelled to place a force on the line next year.

Before closing this despatch, I have much pleasure in bearing testimony to the hearty co-operation and efficient aid the Commissioners received from the *Metis* who were present at the Angle, and who, with one accord, whether of French or English origin, used the influence which their relationships to the Indians gave them, to impress them with the necessity of their entering into the treaty. I must also express my obligations to the detachment of troops under the command of Captain Macdonald, assigned me as an escort, for their soldierly bearing and excellent conduct while at the Angle. Their presence was of great value, and had the effect of deterring traders from bringing articles of illicit trade for sale to the Indians; and moreover exercised a moral influence which contributed most materially to the success of the negotiations. I have further to add, that it was found impossible, owing to the extent of the country treated for, and the want of knowledge of the circumstances of each band, to define the reserves to be granted to the Indians. It was therefore agreed that the Reserves should be hereafter selected by officers of the Government, who should confer with the several bands, and pay due respect to lands actually cultivated by them. A provision was also introduced to the effect that any of the reserves, or any interest in them, might hereafter be sold for the benefit of the Indians by the Government with their consent. I would suggest that instructions should be given to Mr. Dawson to select the reserves with all convenient speed; and, to prevent complication, I would further suggest that no patents should be issued, or licenses granted, for mineral or timber lands, or other lands, until the question of the reserves has been first adjusted.

I have the honor to be, Sir,

Your obedient servant,

(Signed,) ALEXANDER MORRIS,
Lieut.-Governor.

TREATY No. 3.

(Copy—Treaty 132—Indian Office.)

ARTICLES OF A TREATY made and concluded this third day of October, in the year of Our Lord One thousand eight hundred and seventy-three, between HER MOST GRACIOUS MAJESTY THE QUEEN, of Great Britain and Ireland, by Her Commissioners, the Honorable ALEXANDER MORRIS, Lieutenant-Governor of the Province of Manitoba and the North-west Territories; JOSEPH ALBERT NORBERT PROVENCHER, and SIMON JAMES DAWSON, of the one part; and the Saulteaux Tribe of the OJIBBEWAY INDIANS, inhabitants of the country within the limits hereinafter defined and described by their Chiefs, chosen and named as hereinafter mentioned, of the other part :—

WHEREAS, the Indians inhabiting the said country have, pursuant to an appointment made by the said Commissioners, been convened at a meeting at the North-West Angle of the Lake of the Woods, to deliberate upon certain matters of interest to Her Most Gracious Majesty, of the one part, and the said Indians of the other;

AND WHEREAS, the said Indians have been notified and informed by Her Majesty's said Commissioners that it is the desire of Her Majesty to open up for settlement, immigration, and such other purposes as to Her Majesty may seem meet, a tract of country bounded and described as hereinafter mentioned, and to obtain the consent thereto of Her Indian subjects inhabiting the said tract, and to make a Treaty and arrange with them, so that there may be peace and good will between them and Her Majesty, and that they may know and be assured of what allowance they are to count upon and receive from Her Majesty's bounty and benevolence :—

And whereas, the Indians of the said Tract, duly convened in Council as aforesaid, and being requested by Her Majesty's said Commissioners to name certain Chiefs and headmen, who should be authorized on their behalf to conduct such negotiations and sign any Treaty to be founded thereon, and to become responsible to Her Majesty for their faithful performance of their respective Bands of such obligations as shall be assumed by them, the said Indians have thereupon named the following persons for that purpose, that is to say :—Kee-tak-pay-pi-nais (Rainy River), Kitihi-gay-kake (Rainy River), Note-na-qua-hung (North-West Angle), Mawe-do-pe-nais (Rainy River), Pow-wa-sang (North-West Angle), Canda-com-igo-wi-ninie (North-West Angle), Pa-pa-ska-gin (Rainy River), May-no-wah-tau-ways-kung (North-West Angle), Kitchi-ne-ka-be-han (Rainy River), Sah-katch-eway (Lake Seul), Muka-day-wah-sin (Kettle Falls), Me-kie-sies (Rainy Lake, Fort Francis), Oos-con-na-geist (Rainy Lake), Wah-shis-kince (Eagle Lake), Rah-kie-y-ash (Flower Lake), Go-bay (Rainy Lake), Ka-me-ti-ash (White Fish Lake), Nee-sho-tal (Rainy River), Kee-jee-go-kay (Rainy River), Sha-sha-gance (Shoal Lake), Shah-win-na-bi-nais (Shoal Lake), Ay-ash-a-wash (Buffalo Point), Pay-ah-bee-wash (White Fish Bay), Rah-tay-tay-pa-ocutch (Lake of the Woods.)

And thereupon, in open council, the different Bands having presented the men of their choice to the said Commissioners as the Chiefs and headmen for the purposes aforesaid, of the respective Bands of Indians inhabiting the said district hereinafter described;

And whereas the said Commissioners then and there received and acknowledged the persons so presented as Chiefs and headmen for the purposes aforesaid of the respective Bands of Indians inhabiting the said district hereinafter described;

And whereas the said Commissioners have proceeded to negotiate a treaty with the said Indians, and the same has been finally agreed upon and concluded as follows, that is to say :—

The Saulteaux Tribe of the Ojibbeway Indians, and all other the Indians inhabiting the district hereinafter described and defined, do hereby cede, release, surrender and yield up to the Government of the Dominion of Canada, for Her Majesty the Queen and

Her successors forever, all their rights, titles and privileges whatsoever to the lands included within the following limits, that is to say:—

Commencing at a point on the Pigeon River route where the International boundary line between the territories of Great Britain and the United States intersects the height of land separating the waters running to Lake Superior from those flowing to Lake Winnipeg; thence northerly, westerly and easterly, along the height of land aforesaid following its sinuosities, whatever their course may be, to the point at which the said height of land meets the summit of the water-shed from which the streams flow to Lake Nepigon; thence northerly and westerly, or whatever may be its course along the ridge separating the waters of the Nepigon and the Winnipeg to the height of land dividing the waters of the Albany and the Winnipeg; thence westerly and north-westerly along the height of land dividing the waters flowing to Hudson's Bay by the Albany or other rivers from those running to English River and the Winnipeg to a point on the said height of land bearing north forty-five degrees east from Fort Alexander at the mouth of the Winnipeg; thence south forty-five degrees west to Fort Alexander at the mouth of the Winnipeg; thence southerly along the eastern bank of the Winnipeg to the mouth of the White Mouth River; thence southerly by the line described as in that part forming the eastern boundary of the tract surrendered by the Chippewa and Swampy Cree Tribes of Indians, to Her Majesty on the third of August, one thousand eight hundred and seventy-one, namely, by White Mouth River to White Mouth Lake and thence on a line, having the general bearing of White Mouth River to the forty-ninth parallel of north latitude, thence by the forty-ninth parallel of north latitude to the Lake of the Woods and from thence by the International boundary line to the place of beginning.

The tract comprised within the lines above described embracing an area of fifty-five thousand square miles be the same, more or less.

To have and to hold the same to Her Majesty the Queen and Her successors forever.

And Her Majesty the Queen hereby agrees and undertakes to lay aside Reserves for farming lands, due respect being had to lands at present cultivated by the said Indians, and also to lay aside and reserve for the benefit of the said Indians, to be administered and dealt with for them by Her Majesty's Government of the Dominion of Canada, in such a manner as shall seem best, other Reserves of land in the said territory hereby ceded, which said Reserves shall be selected and set aside where it shall be deemed most convenient and advantageous for each Band or Bands of Indians, by the officers of the said Government appointed for that purpose, and such selection shall be so made after conference with the Indians: Provided, however, that such Reserve, whether for farming or other purposes, shall in nowise exceed in all one square mile for each family of five, or in that proportion for larger or smaller families, and such selection shall be made if possible during the course of next summer, or as soon thereafter as may be found practicable, it being understood, however, that if at the time of any such selection of any Reserves as aforesaid, there are any settlers within the bounds of the lands reserved by any Band, Her Majesty reserves the right to deal with such settlers as shall deem just, so as not to diminish the extent of land allotted to Indians, and provided also that the aforesaid Reserves of lands or any interest or right therein or appurtenant thereto, may be sold, leased or otherwise disposed of by the said Government for the use and benefit of the said Indians, with the consent of the Indians entitled thereto first had and obtained.

And with a view to show the satisfaction of Her Majesty with the behaviour and good conduct of Her Indians, she hereby, through her Commissioners, makes them a present of twelve dollars for each man, woman and child belonging to the Bands here represented, in extinguishment of all claims heretofore preferred.

And further, Her Majesty agrees to maintain schools for instruction in such Reserves hereby made as to Her Government of Her Dominion of Canada may seem advisable, whenever the Indians of the Reserve shall desire it.

Her Majesty further agrees with her said Indians, that within the boundary of

Indian Reserves, until otherwise determined by the Government of the Dominion of Canada, no intoxicating liquor shall be allowed to be introduced or sold, and all laws now in force, or hereafter to be enacted to preserve Her Indian subjects inhabiting the Reserves, or living elsewhere within her North-West Territories, from the evil influence of the use of intoxicating liquors shall be strictly enforced.

Her Majesty further agrees with Her said Indians, that they, the said Indians, shall have right to pursue their avocations of hunting and fishing throughout the tract surrendered as hereinbefore described, subject to such regulations as may from time to time be made by Her Government of Her Dominion of Canada, and saving and excepting such tracts as may from time to time be required or taken up for settlement, mining, lumbering or other purposes, by her said Government of the Dominion of Canada, or by any of the subjects thereof duly authorized therefor by the said Government.

It is further agreed between Her Majesty and Her said Indians that such sections of the Reserves above indicated as may at any time be required for public works or buildings, of what nature soever, may be appropriated for that purpose by Her Majesty's Government of the Dominion of Canada, due compensation being made for the value of any improvements thereon.

And further, that Her Majesty's Commissioners shall, as soon as possible, after the execution of this Treaty, cause to be taken an accurate census of all the Indians inhabiting the tract above described, distributing them in families, and shall in every year ensuing the date hereof at some period in each year, to be duly notified to the Indians, and at a place or places to be appointed for that purpose within the territory ceded, pay to each Indian person the sum of five dollars per head yearly.

It is further agreed between Her Majesty and the said Indians, that the sum of fifteen hundred dollars per annum shall be yearly and every year expended by Her Majesty in the purchase of ammunition, and twine for nets, for the use of the said Indians.

It is further agreed between Her Majesty and the said Indians that the following articles shall be supplied to any Band of the said Indians who are now actually cultivating the soil, or who shall hereafter commence to cultivate the land, that is to say—two hoes for every family actually cultivating; also one spade per family as aforesaid; one plough for every ten families as aforesaid; five harrows for every twenty families as aforesaid; one scythe for every family as aforesaid; and also one axe and one cross-cut saw, one hand saw, one pit saw, the necessary files, one grindstone, one augur for each Band; and also for each Chief for the use of his Band, one chest of ordinary carpenter's tools; also for each Band, enough of wheat, barley, potatoes and oats to plant the land actually broken up for cultivation by such Band; also for each Band, one yoke of oxen, one bull and four cows; all the aforesaid articles to be given once for all for the encouragement of the practice of agriculture among the Indians.

It is FURTHER AGREED between Her Majesty and the said Indians, that each Chief, duly recognized as such, shall receive an annual salary of twenty-five dollars per annum, and each subordinate officer, not exceeding three for each Band, shall receive fifteen dollars per annum; and each such chief and subordinate officer as aforesaid shall also receive, once in every three years, a suitable suit of clothing; and each Chief shall receive, in recognition of the closing of the Treaty, a suitable flag and medal.

And the undersigned Chiefs, on their own behalf and on behalf of all other Indians inhabiting the tract within ceded, do hereby solemnly promise and engage to strictly observe this treaty, and also to conduct and behave themselves as good and loyal subjects of Her Majesty the Queen. They promise and engage that they will, in all respects, obey and abide by the law; that they will maintain peace and good order between each other, and also between themselves and other tribes of Indians, and between themselves and others of Her Majesty's subjects, whether Indians or whites, now inhabiting or hereafter to inhabit any part of the said ceded tract; and that they will not molest the person or property of any inhabitant of such ceded tract, or the property of Her Majesty the Queen, or interfere with or trouble

any person passing or travelling through the said tract or any part thereof; and that they will aid and assist the officers of Her Majesty in bringing to justice and punishment any Indian offending against the stipulations of this treaty, or infringing the laws in force in the country so ceded.

IN WITNESS WHEREOF, Her Majesty's said Commissioners and the said Indian Chiefs have hereunto subscribed and set their hands, at the North-West Angle of the Lake of the Woods, this day and year herein first above-named.

[L.S.]

Signed by the Chiefs within named in presence of the following witnesses, the same having been first read and explained by the Honorable James McKay:—

WE having had communication of the Treaty, certified copy whereof is hereto annexed, but not having been present at the Councils held at the North-West Angle of the Lake of the Woods, between Her Majesty's Commissioners and the several Indian Chiefs and others therein named, at which the articles of the said Treaty were agreed upon, hereby, for ourselves and the several Bands of Indians which we represent, in consideration of the provisions of the said Treaty being extended to us and the said Bands which we represent, transfer, surrender and relinquish to Her Majesty the Queen, Her Heirs and Successors, to and for the use of Her Government of Her Dominion of Canada, all our right, title and privilege whatsoever, which we, the said Chiefs, and the said Bands which we represent, have held, or enjoy, of, in and to the territory described and fully set out in the said articles of Treaty, and every part thereof, to have and to hold the same unto and to the use of Her said Majesty the Queen, Her Heirs and Successors forever.

AND WE HEREBY AGREE to accept the several provisions, payments and Reserves of the said Treaty as therein stated, and solemnly promise and engage to abide by, carry out and fulfil all the stipulations, obligations, and conditions therein contained, on the part of the said Chiefs and Indians therein named to be observed and performed, and in all things to conform to the articles of the said Treaty, as if we ourselves, and the Bands which we represent had been originally contracting parties thereto, and had been present and attached our signatures to the said Treaty.

IN WITNESS WHEREOF, Her Majesty's said Commissioners and the said Indian Chiefs have hereunto subscribed and set their hands, this Thirteenth day of October, in the year of Our Lord One thousand eight hundred and seventy-three.

Signed by S. J. Dawson, Esq., one of Her Majesty's said Commissioners, for and on behalf, and with the authority and consent of the Honorable Alexander Morris, Lieutenant-Governor of Manitoba and the North-West Territories, and J. A. N. Provencher, Esq., the remaining two Commissioners, and himself, and by the Chiefs within named on behalf of themselves and the several Bands which they represent, the same, and the annexed certified copy of articles of Treaty having been first read and explained in presence of the following witnesses:—

LAC SEUL, 9th June, 1874.

We, the Chiefs and Councillors of Lac Seul, Seul, Trout and Sturgeon Lakes subscribe and set our marks, that we and our followers will abide by the articles of the treaty made and concluded with the Indians at the North-West Angle of the Lake of the Woods on the third day of October, in the year of Our Lord One thousand eight hundred and seventy-three, between Her Most Gracious Majesty the Queen of Great Britain and Ireland, by Her Commissioners, Hon. Alex. Morris, Lieut.-Governor of Manitoba and the North-West Territories, Joseph Albert N. Provencher, and Simon J. Dawson, of the one part; and the Saulteaux tribes of Ojibwas Indians, inhabitants of the country as defined by the Treaty aforesaid.

In witness whereof, Her Majesty's Indian Agent and the Chiefs and Councillors have hereto set their hands at Lac Seul, on the 9th day of June, 1874.

TREATY No. 4.

ARTICLES OF A TREATY made and concluded this fifteenth day of September, in the year of Our Lord One thousand eight hundred and seventy four, between HER MOST GRACIOUS MAJESTY THE QUEEN of Great Britain and Ireland, by Her Commissioners, the Honorable ALEXANDER MORRIS, Lieutenant-Governor of the Province of Manitoba and the North-West Territories; the Honorable DAVID LAIRD, Minister of the Interior, and WILLIAM JOSEPH CHRISTIE ESQ., of Brockville, Ontario, of the one part; and the Cree, Saulteaux and other Indians, inhabitants of the territory within the limits hereinafter defined and described, by their Chiefs and headmen, chosen and named as hereinafter mentioned, of the other part:—

WHEREAS, the Indians inhabiting the said territory have, pursuant to an appointment made by the said Commissioners, been convened at a meeting at Qu'Appelle Lakes, to deliberate upon certain matters of interest to Her Most Gracious Majesty of the one part, and the said Indians of the other:

AND WHEREAS, the said Indians have been notified and informed, by Her Majesty's said Commissioners, that it is the desire of Her Majesty to open up for settlement, immigration, trade, and such other purposes as to Her Majesty may seem meet, a tract of country bounded and described as hereinafter mentioned; and to obtain the consent thereto of Her Indian subjects inhabiting the said tract; and to make a treaty and arrange with them so that there may be peace and good-will between them and Her Majesty, and between them and Her Majesty's other subjects; and that Her Indian people may know and be assured of what allowance they are to count upon and receive from Her Majesty's bounty and benevolence;

And whereas, the Indians of the said tract, duly convened in Councils as aforesaid, and being requested by Her Majesty's said Commissioners to name certain Chiefs and headmen who should be authorized on their behalf to conduct such negotiations, and sign any treaty to be founded thereon, and to become responsible to Her Majesty for their faithful performance by their respective Bands of such obligations as shall be assumed by them, the said Indians have thereupon named the following persons for that purpose, that is to say: Ka-ki-shi-way, or "Loud Voice" (Qu Appelle River), Pis-qua or "the Plain" (Leech Lake), Kea-wez-ance or "the Little Boy" (Leech Lake), Ka-kee-na-wup, or "One that sits like an Eagle," (Upper Qu'Appelle Lakes), Kus-kee-tew-mus-coo-mus-qua or "Little Black Bear" (Cypress Hills), Ka-ne-on-us-ka-tew or "One that walks on four claws" (Little Touchwood Hills), Can-ah-ha-cha-pew or "Making ready the Bow," (South side of the south branch of the Saskatchewan), Ku-si-can-ah-chuck or "Day Star" (South side of the south branch of the Saskatchewan), Ka-wa-ca-toose or "The Poor Man" (Touchwood Hills and Qu'Appelle Lakes), Ka-ku-wis-ta-haw or "Him that lies round" (Towards the Cypress Hills), Cha-ca-chas (Qu'Appelle River), Wah-

pii-moose-too-siis or "the White Calf" or "Pus-coos," (Qu Appelle River,) Gabriel Cote or Mee-may, or "The Pigeon" (Fort Pelly);—

And thereupon in open council the different Bands having presented the men of their choice to the said Commissioners as the Chiefs and headmen for the purpose aforesaid of the respective Bands of Indians inhabiting the said district hereinafter described;

And, whereas, the said Commissioners have proceeded to negotiate a Treaty with the said Indians, and the same has been finally agreed upon and concluded as follows, that is to say:—

The Cree and Saulteaux tribes of Indians, and all other the Indians inhabiting the district hereinafter described and defined, do hereby cede, release, surrender and yield up to the Government of the Dominion of Canada for Her Majesty the Queen and Her successors for ever, all their rights, titles and privileges whatsoever to the lands included within the following limits, that is to say:—

Commencing at a point on the United States' frontier due south of the north-western point of the Moose Mountains, thence due north to said point of said mountains, thence in a north-easterly course to a point two miles due west of Fort Ellice, thence in a line parallel with, and two miles westward from, the Assiniboine River to the mouth of the Shell River, thence parallel to the said river, and two miles distant therefrom, to its source, thence in a straight line to a point on the western shore of Lake Winnipigoosis due west from the most northern extremity of Waterhen Lake, thence east to the centre of Lake Winnipigoosis, thence northwardly through the middle of the said lake (including Birch Island) to the mouth of Red Deer River, thence westwardly and south-westwardly along and including the said Red Deer River and its lakes, Red Deer and Etoimami to the source of its western branch, thence in a straight line to the source of the northern branch of the Qu'Appelle, thence along and including said streams to the Forks near Long Lake, thence along and including the valley of the west branch of the Qu'Appelle to the south Saskatchewan, thence along and including said river to the mouth of Maple Creek, thence southwardly along said creek to a point opposite the western extremity of the Cypress Hills; thence due south to the International Boundary, thence east along the said boundary to the place of commencement. Also all their rights, titles and privileges whatsoever to all other lands wheresoever situated within Her Majesty's North-West Territories, or any of them, TO HAVE AND TO HOLD the same to Her Majesty the Queen and Her successors for ever.

And Her Majesty the Queen hereby agrees, through the said Commissioners to assign reserves for said Indians, such Reserves to be selected by officers of Her Majesty's Government of the Dominion of Canada appointed for that purpose, after conference with each Band of the Indians, and to be of sufficient area to allow one square mile for each family of five, or in that proportion for larger or smaller families.

PROVIDED, however, that it be understood that if, at the time of the selection of any reserves as aforesaid there are any settlers within the bounds of the lands reserved for any band, Her Majesty retains the right to deal with such settlers as she shall deem just, so as not to diminish the extent of land allotted to the Indians; and provided further that the aforesaid Reserves of land, or any part thereof, or any interest or right therein, or appurtenant thereto, may be sold, leased or otherwise disposed of by the said Government for the use and benefit of the said Indians, with the consent of the Indians entitled thereto first had and obtained; but in no wise shall the said Indians, or any of them, be entitled to sell or otherwise alienate any of the lands allotted to them as Reserves.

In view of the satisfaction with which the Queen views the ready response which Her Majesty's Indian subjects have accorded to the invitation of Her said Commissioners to meet them on this occasion, and also in token of their general good conduct and behavior, she hereby through Her Commissioners, makes the Indians of the Bands here represented, a present:—For each Chief, of twenty-five dollars in cash, a coat, and a Queen's silver medal; for each head-man, not exceeding four in each Band,

fifteen dollars in cash, and a coat; and for every other man, woman and child, twelve dollars in cash; and for those here assembled some powder, shot, blankets, calicoes, strouds, and other articles.

As soon as possible after the execution of this Treaty, Her Majesty shall cause a census to be taken of all the Indians inhabiting the tract hereinbefore described, and shall next year, and annually afterwards, forever, cause to be paid, in cash, at some suitable season to be duly notified to the Indians, and at a place or places to be appointed for that purpose within the Territory ceded: each Chief, twenty-five dollars; each headman, not exceeding four to a Band, fifteen dollars; and to every other Indian, man, woman and child, five dollars per head; such payments to be made to the heads of families for those belonging thereto, unless for some special reason, it be found objectionable.

Her Majesty also agrees that each Chief, and each head-man, not to exceed four in each Band, once in every three years during the term of their office, shall receive a suitable suit of clothing, and that yearly and every year, she will cause to be distributed among the different Bands included in the limits of this Treaty, powder, shot, ball and twine, in all to the value of seven hundred and fifty dollars; and each Chief shall receive hereafter, in recognition of the closing of the Treaty, a suitable flag.

It is further agreed between her Majesty and the said Indians that the following articles shall be supplied to any Band thereof who are now actually cultivating the soil, or who shall hereafter settle on their Reserves and commence to break up the land, that is to say—two hoes, one spade, one scythe, and one axe for every family so actually cultivating; and enough seed, wheat, barley oats and potatoes to plant such lands as they have broken up; also one plough and two harrows for every ten families so cultivating as aforesaid; and also to each Chief, for the use of his Band, as aforesaid, one yoke of oxen, one bull, four cows, a chest of ordinary carpenter's tools, five hand-saws, five augers, one cross-cut saw, one pit saw, the necessary files, and one grind-stone; all the aforesaid articles to be given once for all, for the encouragement of the practice of agriculture among the Indians.

FURTHER, Her Majesty agrees to maintain a school in the Reserve, allotted to each Band, as soon as they settle on said Reserve, and are prepared for a teacher.

Further, Her Majesty agrees that within the boundary of the Indian Reserves, until otherwise determined by the Government of the Dominion of Canada, no intoxicating liquor shall be allowed to be introduced or sold; and all laws now in force, or hereafter to be enacted to preserve Her Indian subjects inhabiting the Reserves, or living elsewhere within the North-West Territories, from the evil effects of intoxicating liquors shall be strictly enforced.

And further, Her Majesty agrees that her said Indians shall have right to pursue their avocations of hunting, trapping and fishing throughout the tract surrendered, subject to such regulations as may from time to time be made by the Government of the country acting under the authority of Her Majesty, and saving and excepting such tracts as may be required or taken up from time to time for settlement, mining, or other purposes under grant, or other right given by Her Majesty's said Government.

It is further agreed between Her Majesty and Her said Indian subjects that such sections of the Reserve above indicated as may at any time be required for public works or buildings, of whatever nature, may be appropriated for that purpose by Her Majesty's Government of the Dominion of Canada, due compensation being made to the Indians for the value of any improvements thereon, and an equivalent in land or money for the area of the Reserve so appropriated.

And the undersigned Chiefs and headmen on their own behalf, and on behalf of all other Indians inhabiting the tract within ceded, do hereby solemnly promise and engage to strictly observe this Treaty, and also to conduct and behave themselves as good and loyal subjects of Her Majesty the Queen.

They promise and engage that they will, in all respects, obey and abide by the law; that they will maintain peace and good order between each other, and between themselves and other Tribes of Indians, and between themselves and others of Her

Majesty's subjects, whether Indians, half-breeds or whites, now inhabiting, or hereafter to inhabit, any part of the said ceded tract; and that they will not molest the person or property of any inhabitant of such ceded tract, or the property of Her Majesty the Queen, or interfere with or trouble any person passing or travelling through the said tract or any part thereof; and that they will assist the officers of Her Majesty in bringing to justice and punishment any Indian offending against the stipulations of this treaty, or infringing the laws in force in the country so ceded.

IN WITNESS WHEREOF, Her Majesty's said Commissioners, and the said Indian Chiefs and headmen, have hereunto subscribed and set their hands at Qu'Appelle, this day and year herein first-above written.

METIS OF QU'APPELLE.

From the Lieutenant-Governor of the North-West to the Honorable the Secretary of State.

GOVERNMENT HOUSE,
FORT GARRY, MANITOBA,
October 17th, 1874.

SIR,—I have the honor to enclose you a copy of an address from the Metis of Lakes Qu'Appelle, which was presented to me on the thirteenth of September last by the Honorable Pascal Breland. I also enclose copy of my reply thereto, bearing date the 16th of September.

For convenience, I also enclose translations from the French of the address and reply.

Before replying, I had the opportunity of consulting with the Minister of the Interior. The request of the Metis, with regard to the lands occupied by them, and as to the Catholic mission who have a church and residence there, seemed reasonable, and I felt at liberty to reply in a manner to relieve their minds of anxiety as to their holdings, having been authorized by a despatch from the Minister of the Interior to communicate similar information to Bishop Grandin with regard to the Metis in the

Saskatchewan District. I trust that the tenor of my reply, with regard to this and the other questions treated of in the address in question, will receive approval. I was gratified to receive from the Metis their assurances of respect, and, as they themselves phrased it, "of their perfect submission to the Government," as at one period a feeling of uneasiness and dissatisfaction prevailed amongst the Metis of the region in question, but which I believe is now happily allayed. I would suggest that steps should be taken to secure the laying off of the Indian reserves early next season so as open the land for occupation in the vicinity of the Qu'Appelle settlement.

I have the honor to be, Sir,

Your obedient servant,

(Signed,) ALEXANDER MORRIS,
Lieutenant-Governor North West Territories.

(Translation.)

LAKE QU'APPELLE, September 11th, 1874.

To His Excellency Governor Alexander Morris.

YOUR EXCELLENCY,—The Half-breeds of the Lakes Qu'Appelle and environs, offer you to-day their homage, and submit to you the following petitions, which they present in their name and in the name of all their brethren scattered over the prairies. And beseech you to give them a favorable hearing, and to remember them in the various arrangements that the Government may make with the Indians.

They ask you, 1st, That the Government allow to the Half-breeds the right of keeping the lands which they have taken or which they may take along the River Qu'Appelle.

The right of fishing in all the lakes of the above mentioned river. The right of hunting freely in the prairies west and south-west of the lakes Qu'Appelle without being arbitrarily hindered by the Indians but only in virtue of the regulations that the Indians, in concert with the Half-breeds and the Government, shall establish hereafter for the good of all. The right of trading at the Lakes and environs of the Lakes Qu'Appelle.

They ask, 2nd, That the Roman Catholic Mission may have the free and tranquil enjoyment of its possessions, and participate in all the privileges and rights of the Half-breeds.

They ask, 3rd, That the Government, in concert with the Indians and the Half-breeds, do make with regard to winter quarters and Buffalo hunting laws which will be of great use to all, such as to prevent wintering too far out in the prairies, and to compel every one to start together for the chase, &c., &c.

Moreover, that the Government establish an authority composed of persons who have the confidence of the people of the place, and charged to manage the affairs of the country, make its laws, see that they are put in force, and judge differences.

In all these demands the half-breeds have no intention of depriving the Indians of their rights, but merely claim the recognition and respect of their own, and are disposed to live with the Indians, as with brothers and with friends.

Hoping that these demands will be favourably received, they beg Your Excellency to accept the assurance of their profound respect for you, and of their perfect submission to your Government.

The half-breeds of Lake Qu'Appelle.

REPLY.

To Augustin Brabant, Baptiste Davis, and others, Half-breeds, of the Lakes Qu'Appelle and environs.

GENTLEMEN,—I have the honor to acknowledge your address, dated September 11th, presenting me your respects, and submitting to me certain petitions with regard to various matters.

I thank you for your expressions of satisfaction towards the Government of our Queen, whose servant I am, and for the respect you have expressed for myself.

With regard to your petitions to keep the lands that you have taken along the river, I shall present it before the Privy Council of Canada in Ottawa, and I have communicated your wishes to the Minister of the Interior who is here with me.

I can, however, assure you that I am confident the government will, with great pleasure, respect the rights of the Half-breeds to the lands which they have cleared and cultivated, because it has always been the custom to regard the rights of actual possessors of lands. The same remark applies to the possessors of the Roman Catholic Mission, and I think that the zeal of these devoted men who follow the Half-breeds and Indians in the vast lands of our North-west should be recognized by giving them a certain portion of land suitable for their object.

With regard to the lands which the Half-breeds wish to take in future, I would remark that as we have just made a Treaty with the Indians, it will be necessary to make the Reserves for them as soon as possible, with a view of leaving the other lands open to be taken up by the settlers.

With regard to the chase, you have the same rights that the other subjects of the Queen have, and I shall be happy to put before the North-west Council, charged as that Council is with the government of these Territories, your views on the chase, so as to see if it be necessary to make some good laws and provisions for the regulation of buffalo hunting. This subject is of great importance to the Half-breeds, the Indians and to the whole country, and I believe that the North-West Council will be ready to give the matter their most serious consideration. It is the wish of the government to establish its authority every where in these vast territories of the Queen, and I would be glad, if the Council and Government in Ottawa are able to find competent persons, having your confidence, and capable of executing the laws that the Parliament of Ottawa has a right to make from time to time, or those that the North-West Council, in the exercise of their powers as a Local Legislature may exact but I do not think that the Privy Council will be willing to give the power of making laws to such small communities as the Half-breeds and others in these remote territories. I am very glad to know your dispositions towards the Indians, and I hope that the treaty which the Queen's Commissioners have just had the good fortune to make with them will greatly tend to propagate a spirit of contentment amongst the Half-breeds and Indians.

With the best disposition towards you, and wishing you all prosperity,

I have the honor to be,

your obedient servant,

(Signed,)

ALEXANDER MORRIS.

Fort Qu'Appelle, Sept. 16th 1874.

REPORT

OF THE

DEPUTY SUPERINTENDENT GENERAL

OF

INDIAN AFFAIRS.

REPORT

OF THE

DEPUTY SUPERINTENDENT GENERAL

OF

INDIAN AFFAIRS.

DEPARTMENT OF THE INTERIOR,
INDIAN BRANCH,

OTTAWA, January 28th, 1875.

SIR,—In consequence of the demise in April last of my predecessor, Mr. Deputy Superintendent General Spragge, the duty has devolved upon me, as his successor in office, of preparing the Departmental Report on Indian Affairs for the year ended the 30th June, 1874, which I have now the honor of submitting.

The usual tabular statements, arranged in alphabetical order, are appended, showing the staff at head-quarters, their respective positions and salaries; the allowances and payments made to officers and others on the outside staff; also the condition of the various tribal accounts on the 30th June last; the expenditure made from, and the amount placed at the credit of each such account during the year ended on that date; the quantity of land sold during the year and the quantity remaining unsold.

A return is likewise added showing the state of the various schools established for the benefit of the Indians, and another detailing, so far as can be ascertained, the population of each Indian band or tribe; this last return is, as regards British Columbia and the North West Territories, to some extent conjectural, but so far as the older Provinces are concerned, it will be found generally correct.

In compliance with the valuable suggestion made by yourself, a schedule descriptive of the position and area of the Indian reserves in the several Provinces, is appended to this report. This schedule supplies in a convenient form very valuable information, which previously could only be had after much labour.

With a view to obtain more accurate and complete statistics than the Department had heretofore possessed in Indian matters, at your desire, the various Indian Superintendents and Agents were directed to furnish annual reports containing information upon various matters, interesting alike to the Department and to the public generally which reports will be found herewith, arranged in numerical order.

In recounting the principal incidents which have marked the history of Indian affairs within the Dominion during the past year, each Province is treated of separately.

ONTARIO.

Indian matters in this Province have progressed satisfactorily during the year, though nothing has occurred of such importance as to distinguish it from former years.

It was thought desirable in the interest of the Indians concerned to appoint one visiting superintendent and two new agents at the undermentioned posts.

1st. Mr. William Livingston, Indian Commissioner of Delaware, was appointed Local Agent to the Chippewas and Munsees, residing in the Township of Carradoc, and to the Oneidas in the Township of Delaware.

These bands had previously come under the Sarnia Superintendency, but owing to their remoteness from that point, it was deemed advisable to appoint a local agent.

2nd. Mr. Chas. Skene was appointed Visiting Superintendent at Parry Sound, with a district extending from Penetanguishene northward to French River, including Lake Nipissing, and eastward to the Ottawa.

This section had, up to the time of Mr. Skene's appointment, been under the charge of the Visiting Superintendent of the Indians on Manitoulin Island and the north shore of Lake Huron; but, as in the case last described, the extent of the district over which that officer's supervision was required, and the impossibility of his giving the necessary attention to Indian interests within such a wide compass, rendered it desirable to divide the Superintendency.

3rd. Mr. J. B. Cowan was appointed Indian Lands' Agent at Gananoque. Mr. Cowan's duties embrace protecting from trespass the Islands in the St. Lawrence between Kingston and Brockville, belonging to the Mississaguas of Alnwick. Had such an appointment been made years ago it would doubtless have resulted in the preservation of much valuable timber on the Islands, and thus have greatly enhanced their value.

With regard to the subject of the education of Indian children in Ontario, it is gratifying to observe from the reports furnished that the attendance at the schools continues good, and in some instances there is an increase when compared with that of last year. In this connection it is sad to have to record the total destruction by fire of the substantial buildings at Garden River Indian Reserve, erected for the purposes of an industrial school and an infirmary, with funds supplied by the united contributions of a number of benevolent persons in England and elsewhere. This catastrophe happened very soon after the completion of the structures. It is gratifying, however, to observe that the promoters of this worthy object, undeterred by the calamity from their noble efforts to advance the welfare of the Indians, in a remarkably short space of time after the occurrence above mentioned, proceeded to erect similar buildings for the same purposes in the neighborhood of Sault Ste. Marie. These buildings are nearly completed, and the school is already in operation. The Department contributed \$1,000 towards the expense of building, and has undertaken to pay annually \$60 per head toward the education and maintenance of not more than twenty of the pupils in attendance at the school, and \$75 per head towards the support at the infirmary of aged Indians, not to exceed eight in number, and to be selected by the Superintendent General. The balance of the income towards the maintenance of the institution comes from Great Britain and elsewhere. The object of the industrial school is not only to instruct the children in the ordinary branches of education, but also, as the name indicates, to give them each a knowledge of a trade, and thus enable them to procure their own subsistence upon leaving the establishment. The children are boarded and clothed while at the institution. A similar establishment is in operation at Mount Elgin, on the Carradoc Reserve, in the County of Middlesex, for the benefit of Indians generally, under the auspices of the Wesleyan Methodist Society, and another in Brantford maintained by the New England Company, in the interests of the Six Nation Indians. The former of these institutions receives from Indian Funds, towards its support, a subsidy similar to that

granted to the institution near Sault Ste. Marie. The Brantford institution is supported by the New England Company independently of aid from Indian Funds. The efforts made by both of these societies to promote the civilization and education of the Indians are certainly deserving of high commendation. Both the school at Brantford and that at Mount Elgin appear to be in a satisfactory condition, and we acknowledge with thankfulness the direct benefit derived therefrom by those of the rising generation of Indians privileged to attend them, and the indirect advantage which will doubtless be conferred thereby upon the older members of the band. As indicative of the increasing interest taken in education by the Indians at large, it may be noted that the Chippewas, of the Saugeen Peninsula, this spring expressed a desire to have an industrial school for Indians established in that locality. This movement on the part of the Saugeen Indians has not as yet resulted in anything, but it is hoped that with the large amount of revenue derived from capital standing to their credit, they will not hesitate to devote a liberal proportion towards securing to their children the blessings of education and of instruction in avocations calculated to enable them when arrived at years of maturity to support themselves in a creditable manner.

A new school-house has been recently completed on the Sarnia Reserve, at an expense of \$1,500, a sum which the Chippewas, much to their credit, agreed to contribute from their own funds. These Indians have also erected, at their own expense, a mission-house for the Wesleyan Minister stationed on the reserve. The school is under the care of the Wesleyan Methodist Society.

A grant of \$50 per annum has been made from Indian funds in aid of each of the Indian day schools established among the Six Nations by the New England Company, and by the several denominations.

Adverting to the reserves belonging to the Six Nations, it is gratifying to notice the increased interest taken and the advancement made by this people in agriculture, and it is hoped that the measures this year adopted by the Department to put a stop to the illegal practice of Indians stripping the reserves of timber, and selling it for their private benefit, will have the effect of causing many other members of the tribe to resort to agriculture as a means of support. The results of the efforts of the Department have been most satisfactory, the pillaging of timber having been almost entirely suppressed, and the Indians, it is hoped, secured from further injury in this respect. Orders were given at the same time for the removal from the Six Nation Reserves of all intruders thereon, and steps have been taken by the Local Superintendent and Council of Chiefs to carry these orders into effect.

The year's transactions in connection with land and timber in this Province, show an increase in receipts of about \$24,000 over those of the preceding year. In timber, however, but little has been done, owing to the lumber market being so glutted.

The increasing demand for mineral lands in the vicinity of Garden River rendered it advisable to advance the price from \$1.00 to \$1.50 per acre for this class of lands.

QUEBEC.

In connection with the Indians of this Province, the principal business of the office consists in distributing their income among such bands as have any, relieving distress by means of grants from the annual Parliamentary appropriation, protecting as far as possible the different reserves from spoliation, encouraging education, and preventing the sale of intoxicating liquors to the Indians. The Indians of Quebec have, with the exception of the Montagnais of Point Bleu, and the Amalacites of Viger, no lands for sale. Three of the bands, viz., at St. Regis, Caughnawaga, and St. Francis, Yamaska, derive a revenue from lands leased to white people. The Department, through its agents, collects the rent, and divides it every spring and fall among the members of each band, share and share alike. The Algonquins of the River Desert, receive also a revenue from capital acquired by sales of timber, and from a small number of rented farms on their reserve in the Township of Maniwaki. The Indians last mentioned surrendered during the year three lots fronting on the

River Desert, with a view to the same being divided by survey into village lots, and leased for their benefit. This it is proposed to do at an early date, when it is expected that their present income will be thereby considerably increased.

The remaining Indian bands on the Lower St. Lawrence, and elsewhere in the Province, have no revenue, but are assisted in the spring and autumn out of grants from the Parliamentary appropriation towards their support. The amount hitherto voted, though in former years it was probably sufficient to meet the cases of distress among these Indians, is found to be now quite inadequate for that purpose, owing to the scarcity of game, and the restrictions as to fishing under the present law—the two sources which have hitherto furnished the Indians with their chief means of support. It is hoped that the Parliamentary appropriation will be increased to such an extent as will enable the Department to relieve the pressing wants of these poor Indians in a more liberal manner than it heretofore has been in its power to do.

Turning to the Saguenay District, the Agent of the Montagnais band at Lac St. Jean, in the County of Chicoutimi, who had hitherto resided at some distance, was ordered to take up his residence on the reserve, whereon a house has been built for him, in which accommodation is provided for a school (now in operation.) It is hoped the Indians will be induced by the precept and example of the agent, who is a practical farmer, to resort to agriculture as a means of procuring a livelihood. To further this object a yoke of oxen has been purchased for them, and money for seed, grain, &c., is provided every spring.

With regard to the lands in the Township of Viger,—surrendered several years since by the Amalacite Indians, to be sold for their benefit,—as the Department had no regularly appointed agent there, and one was required to collect moneys already due, to dispose of unsold land, and to attend to the interests generally of those Indians, it was decided to appoint as agent there Mr. George Deschenes, of St. Epiphane; and an effort is being made to collect these Indians (who have been scattered in various directions since the surrender of their lands) and to concentrate them on a location in the Township of Whitworth, County of Temiscouata, which it is proposed to purchase for them, with some of their own money, from the Quebec Government.

Mr. J. E. R. Pinsonneault has been appointed at Caughnawaga in the place of Mr. Edward N. De Lorimier, resigned. The residence of the present agent is on the reserve, while the former resided some miles distant therefrom. The change will, it is trusted, conduce to the welfare of the Iroquois band. The proximity of this reserve to Montreal, and the number of people of all descriptions from the country in rear of it, who are obliged to pass through it in order to cross the river at this point, renders the presence of a trustworthy agent highly necessary. The collection of the rents from the tenants of the Indian lands, the distribution of their moneys among the Indians, and supervision of the affairs in general of the band, comprise the agent's duties. Steps were taken in the spring to repair the roads leading to and through the reserve. This was done at the cost of the Indians, being paid for by the Department from their funds. This much needed work was effected economically and satisfactorily, in accordance with arrangements made by Mr. Penner, an officer of the Department, who was sent to the locality for that purpose.

In consequence of trespasses committed by white men upon the reserve of the Huron band at Lorette, measures were adopted to protect it from intrusion, and with this object a proclamation was issued by the Governor General extending thereto the 18th to 22nd sections of the Act 31 Vic., cap. 42, and a local agent and two forest bailiffs were appointed.

The attempt has been made by purchasing nets for them to induce the Micmacs of Restigouche to engage in seine fishing, but poor success has as yet attended the effort; the Indians evidently have an objection to this style of fishing, preferring to hire a man to do it on shares for them, to doing it themselves.

As regards the subject of education, I have to report that none of the Indian schools on the several reserves in Quebec have been suspended, and the attendance thereat appears to be not less than in previous years.

The establishment of a new school at Lac St. Jean has already been noticed.

Aid has been promised towards the support of a school which the Roman Catholic Church proposes establishing on the Temiscamingue Reserve, Upper Ottawa.

NOVA SCOTIA.

Another Indian District has been added to the seven into which this Province had previously been divided. District No. 6 which formerly embraced the Counties of Richmond and Cape Breton, being found too extensive to be supervised by one agent, was divided; and the Rev. Mr. McIsaac appointed to the new district thus created. This district comprises the County of Cape Breton, but Mr. McIsaac having shortly after his appointment left that county, the Rev. Mr. McGillivray has been appointed to succeed him.

Considerable trouble had been caused by the intrusion of squatters upon the reserves at Whycocomah, Middle River and Malagawatch, and so determined were they to hold on to the lands occupied by them that the Department was obliged to adopt the most stringent legal measures to effect their removal. Mr. J. B. Macdonald, the Indian agent for the locality, has displayed commendable zeal and energy in the successful performance of this unpleasant and somewhat dangerous duty.

A school for the Indians has been established at Whycocomah, in a tenement vacated by one of the intruders. This is the only school for the benefit of the Indian youth in the Province of Nova Scotia. The importance of education has been frequently pressed by the Department upon the notice of the local agents, and it is hoped that they will be able at an early day to induce the Indians to take an interest in this important matter.

As the land reserved for the Indians near the harbor of Pictou is devoid of timber, and the Indians were suffering from the want of fuel, measures were initiated for the purchase of a lot containing 89 acres of wood land at Fisher's Grant, in the county of Pictou. This purchase has recently been fully effected.

The duties of the Indian agents of this Province consist, in distributing among the Indians the aid sent them every spring and autumn, in protecting their reserves from trespass, and the timber from spoliation, in seeing that the sick receive proper medical attendance, and in looking generally after the affairs and wants of the Indians.

A statement of the amounts sent to each agent for distribution will be found in tabular form attached to this report, as well as details of expenses paid on account of medical services &c., to Indians within the Province.

NEW BRUNSWICK.

This Province is divided into two Indian Superintendencies; Mr. Fisher, stationed at Fredericton, being in charge of Indian affairs for the south and west, and Mr. Sargeant, resident at Chatham, having supervision of Indian matters in the northern and eastern counties of the Province.

Owing to the extensive pillaging of timber from the reserve on the Tobique River, which had been carried on for some years, and the seeming impossibility of putting a stop to it, Mr. Superintendent Fisher was instructed to submit to the Indians owning the reserve a proposal to allow the Department to sell the timber for them, and thus to obtain the highest possible value for it, instead of its being appropriated by trespassers, the Indians receiving nothing in return. The Indians, however, declined to accede to the request of the Department. This action on their part would seem to indicate that they are being tampered with by parties who have been in the habit of stealing the wood. The Indians would prefer disposing of it for a trifling sum received in hand, rather than allow the Department to dispose of the timber for them. Too ready is an unscrupulous speculator to take advantage of the shortsighted Indian in this respect. However, orders were given to the agent to seize and confiscate all timber cut on the reserve by parties other than Indians; and under these orders a considerable quantity was last spring seized, and sold for the benefit of the Indians.

In New Brunswick, as in Nova Scotia, there is an apparent lack of interest manifested by the Indians in regard to the education of their children, though within Mr. Fisher's Superintendency a movement in that direction has lately been made by some few of the bands, and it is trusted it may result in the establishment of one or more schools, and that others will follow in due course.

The moneys provided and disbursed on Indian Service in this Province will be found duly detailed in the accompanying tabular statements.

PRINCE EDWARD ISLAND.

This Province has but a small Indian population, who for the most part reside on Lennox Island, situated in Richmond Bay, on the north side of the Province.

The said Island was purchased in the year 1870, for the benefit of the Indians, by the "Aborigines Protection Society" of London, England. It contains about 1,300 acres, of which a fair proportion is available for agricultural purposes.

There is also a small reserve of 189 acres situated in Township 39, granted by the Provincial Government in 1859 to trustees for the benefit of the Indians, in lieu of 204 acres of land on the Morell River, which had been appropriated by the late Honorable Chas. Worrell, to some eight Indian families and their descendants; this latter having been taken possession of by certain white settlers, the Government called upon the settlers to pay for the same, and in lieu thereof gave the grant above alluded to for the benefit of the Indians in exchange for the said 204 acres.

A complaint is made on the part of the Indians that the land thus assigned them is less in quantity, and ninety-nine acres thereof inferior in quality to that left them by Mr. Worrell.

It is claimed on behalf of the Indians that as good and sufficient land should be granted to them as was taken from them.

MANITOBA AND THE NORTH-WEST TERRITORIES.

On the 20th August, 1873 a Commission was issued under authority of an Order in Council of the 16th June previous, appointing a Board of Indian Commissioners for Manitoba and the North-West Territories, to consist of His Honor the Lieutenant-Governor, the Indian Commissioner for the time being, and the Chief Officer for the time being of the Dominion Lands Granting Department at Winnipeg. The duties of the said Board are to suggest the general principles upon which the Indians in that portion of the Dominion are to be dealt with, to arrange all negotiations and treaties with any Indian Tribes with whom it may be deemed advisable to treat, and to report from time to time the basis upon which the general policy in Indian Affairs in those parts should be settled.

Mr. Lindsay Russell, the gentleman who was at the time the Commission was issued the Chief Land Granting Officer at Winnipeg, finding it impossible to discharge simultaneously his important duties as Land Granting Officer and Indian Commissioner, felt constrained to decline the latter, and under these circumstances Mr. S. J. Dawson, of the Public Works Department, was appointed in Mr. Russell's place to act as Commissioner, with the two others, in negotiating a treaty with the Saulteaux Indians of Rainy Lake.

The three Commissioners met the Saulteaux Indians by appointment at the north-west angle of the Lake of the Woods about the end of September, and after a conference which extended over several days, succeeded in effecting a treaty with the said Indians on the 3rd October, 1873. (A copy of the treaty accompanies this Report).

In the protection of the Indians of the North-West from injury and imposition at the hands of unprincipled traders, and in the prevention of the spread of intemperance among them, the establishment of the mounted police force under the provisions of the Act 36 Vic., cap. 35, will doubtless have a good effect; as will also the Act passed last Session to restrain the importation or manufacture of intoxicating liquors into or in the North-West Territories, and also the Act 37 Vic., cap. 21,

extending the Indian Acts generally to the Province of Manitoba; the provisions of this Act are of the most stringent character, and if faithfully carried out will go far towards stamping out in the North-West the liquor traffic, the curse of the Red man.

In order to give the Indians, and also others interested in the matter, the earliest notification of the stringent measures adopted by Parliament for the suppression of the liquor traffic in the Territories, the Acts above referred to were printed in pamphlet form, with a proclamation of His Excellency the Governor General on the subject, and the same was distributed generally among the Indians in Manitoba and the North-West.

The adoption of these measures, as regards the North-West Territories, was rendered imperatively necessary in the interests of law and order generally from the fact that bands of desperadoes from the United States had established themselves in fortified posts, at various points between the junction of the Bow and Belly Rivers and Fort Edmonton, for the purpose of trading with the Indians. In these transactions, liquor, adulterated with strychnine and other poisonous drugs, was freely sold or given, and as a consequence the Indians were greatly demoralized and imposed upon, and the meetings were not unfrequently attended with scenes of bloodshed and often with loss of life.

On one occasion, indeed, at Cypress Hills, these outlaws, in the spring of 1873, massacred a number of Assiniboine Indians (estimated at 26) for a real or alleged theft of horses.

The policy to be pursued with the Sioux Indians, who had come into British Territory from across the line, was a subject of some anxiety; after careful consideration by the Government it was decided to offer the said Indians a reserve at the confluence of the Saskatchewan and Assiniboine Rivers, and it is hoped that these Indians will ere long be induced to settle down either on this reserve or on some other in that locality. These Indians, it may be remarked, are industrious, and evince a special aptitude for agricultural pursuits. They are very much appreciated by settlers for the help they render them at harvest time.

The subject of the education of Indians in the North-West has received the careful consideration of the Government. In addition to the grants of \$300, \$350 and \$300 per annum respectively, made last year to the three schools at St. Peter's Reserve, Fairford River and Fort Alexander, grants of \$300 per annum were sanctioned to each of the three Wesleyan Methodist schools proposed to be brought into operation at Berens River, Norway House and Nelson, on the condition that each school so aided should have an attendance of at least twenty-five pupils. Similar grants are authorized to three Roman Catholic schools on like terms.

BRITISH COLUMBIA.

The difficulties and embarrassments in the administration of Indian matters which have arisen out of the unsatisfactory position of the Indian *Land* question in this Province, will naturally be referred to in the report of the Superintendent General.

With regard to the education of the Indian youth in this Province, three schools established with this object have been brought prominently under the notice of the Government, towards which grants corresponding to the respective attendance and the character of each have been made.

These institutions consist of —

1st. The industrial school at St. Mary's under the care of the Roman Catholic Church, whereat forty-two children are boarded; the boys receiving instruction in farming, and the girls in housewifery, needle work, etc.

2nd. A similar but still larger institution at Metlakatla, under the supervision of Mr. Duncan, (a man whose earnest labours on behalf of the Indians of British Columbia are above all praise), supported by the Church Mission Society of London, having an attendance of 304 children.

3rd. A day school at Nanaimo with fifty pupils, under the superintendence of the Wesleyan Methodist Society.

The grants made to these several institutions are \$350, \$500 and \$250 per annum respectively.

There has also been authorized the payment of \$300 per annum to each of such seven other schools as may already or hereafter be established, in accordance with the wishes of the Indians and approval of the Indian Commissioner; and having each an attendance of not less than thirty pupils.

The extension to British Columbia of laws already in force for the government of Indians in the older Provinces of the Dominion, and the passage last session of a stringent law to put a stop to the liquor traffic amongst Indians of this as well as of the other Provinces, are notable circumstances connected with the year's transactions.

There is also to be recorded the appointment, under Order in Council of the 9th February 1874, of a Board of Indian Commissioners for the Province, consisting of the Lieut.-Governor, the Indian Commissioner, Lieut.-Colonel Powell, and Mr. James Lenihan. The duties of the said Board to consist *inter alia* in suggesting the general principles under which the Indians of British Columbia should be dealt with, and reporting from time to time the basis upon which the question of the general policy in Indian affairs should be settled.

GENERAL REMARKS.

Before drawing this report to a conclusion I beg to make the following statement respecting the general work of this branch of the Department:—

During the past two or three years the business of this office has been greatly augmented, and is still increasing, in consequence principally of the additional labor attendant upon the administration of Indian affairs in Manitoba, the North-West Territories and British Columbia.

Under the direction of the Deputy of the Minister a large amount of time and labor has been expended, and to a great extent after the usual office hours, by the officers of this branch, in disposing of heavy arrears of business which had accumulated before its connection with the Department of the Interior. Much has also been done in rearranging the old papers and records which were found in a state of great disorder, and also in introducing a more perfect system of registering and filing papers received.

It is satisfactory to have to add that not only have the arrears of business been almost entirely disposed of, but, in consequence of the improved system introduced, the work of the branch is conducted with much more ease and regularity, and (it is believed) with much more satisfaction to the public.

The accounts of this office, prior to its becoming a branch of the Department of the Interior, on the creation of that Department in July 1873, were from a variety of causes not managed as systematically as they should have been, and no audit of the accounts had taken place for several years.

Since that date, however, quarterly statements, with supporting vouchers embracing all transactions on Indian account, have been regularly laid before the Auditor General at the end of each quarter; and the books are kept with strict regularity and precision; and while the system which prevailed before July 1873, has not been materially changed, the efforts of the Department have been successfully directed towards effecting such simplification of that system as is consistent with thorough correctness.

It is right to add that the present very satisfactory state in which the Indian accounts are kept is mainly the result of the intelligence and efficiency of Mr. Robert Sinclair, the officer who was appointed accountant of the Indian Branch shortly before the establishment of the Department of the Interior.

I have the honor to be, Sir,

Your obedient, humble servant,

L. VANKOUGHNET,

Deputy Superintendent General Indian Affairs.

The Honorable David Laird.

Minister of the Interior.

Circular addressed to Visiting Superintendents and Agents.

August 28th, 1874.

SIR,—I have to request that you will transmit, as early as practicable, a succinct Report, for the year ended the 30th June, 1874, on Indian matters coming under your supervision, specially referring to the following subjects, so far as the same may be applicable to your District :—

1. Present number of the band, stating increase or decrease since last census and causes.
2. Aggregate amount of real and personal property owned by the band.
3. Description and number of habitations.
4. Area of reserve.
 Quantity of land under cultivation.
 Do do pasture.
 Do do wood.
5. Name of sub-agent, bailiff, or other official acting under you, or in your absence.
6. Quantity and description of produce raised.
7. Description of agricultural implements used.
8. Description and number of live stock.
9. Quantity of timber and wood cut, and sold under license by Indians.
10. Quantity of fish taken, and amount realized from sale thereof.
11. Number and description of fur-bearing animals killed, and amount realized from sale of fur.
12. Amount of money sent by the Department, and amount distributed.
13. Quantity of seed-grain distributed, and manner in which proportioned.
14. Advancement of band in wealth and civilization.
15. Moral status of the band.
16. Number of children in band.
 Do do who have attended school.
17. Number of schools.
 Do Indian teachers.
18. Under the supervision of what denominations and societies the schools are.
19. Branches of education taught.

And such other matters in connection with the different bands as may seem to you of general interest.

It is proposed that your Report, in whole or in part, shall be included in an Appendix to the Annual Report on Indian Affairs to the 30th June, 1874.

I am, Sir,

Your obedient servant,

E. A. MEREDITH,
Deputy of the Minister of the Interior.

No. 2.

INDIAN OFFICE,
BRANTFORD, ONTARIO, January 22nd, 1875.

SIR,—I have now the honor to transmit my replies to your circular* of the 28th August last.

I have to express regret in not sending this report earlier, but I had unfortunately overlooked the circular; and lately domestic anxiety caused me to postpone it. I trust, however, it may yet be in good time, and prove satisfactory.

I hope, ere another year, to have accurate *details* as to the lands and personal property of the Indians here.

I have the honor to be, Sir,

Your obedient servant,

J. T. GILKISON,

Visiting Superintendent and Commissioner.

The Honorable

The Superintendent General of Indian Affairs,
Ottawa.

The Six Nations and the Mississagua Indians of the Credit are in occupation of lands in the Townships of Tuscarora, Onondaga and Oneida, in the counties of Brant and Haldimand, Province of Ontario, comprising about 52,000 acres of excellent land, which for the most part is uncleared. Of these lands the Mississaguas hold, under license of occupation from the Six Nations, 6,000 acres off the south-east corner of the reservation.

1. The Six Nations population, 2,992; increase since last year, 15; natural increase during the past eleven years, 392, or an average of about 35 each year.

The Mississagua population, 215; increase since last year, 2; natural increase of 10 in eleven years.

2. The real property, estimated value \$1,300,000; personal property, \$160,000; total, \$1,460,000.

3. Frame and log dwellings, from the hut to the two-story house, probably 500 in number.

4. About 52,000 acres, one-fourth of which in pasture and cultivated, the remainder more or less timbered.

5. Mr. Henry Andrews, Clerk.

6. A variety of produce raised, such as fall and spring wheat, oats, Indian corn, potatoes, &c., in fair proportions.

7. All the usual farming implements are owned and used by the Indians, including reapers, mowers and thrashing machines.

8. A considerable number of horses, cows, oxen, some sheep, and pigs and poultry.

9. 2,017 cords of firewood cut and sold by Indians under license, for their own benefit, such license being issued by the Visiting Superintendent on report of a Committee of Council.

10. A few fish are caught on the Grand River for home use.

11. None of consequence.

12. \$44,394.78 divided among the Six Nations, equal to about \$15 a head; and \$4,543.84 among the Mississaguas, equal to about \$21 per head.

13. No seed grain distributed; they provide it themselves.

14. Both the Six Nations and the Mississaguas are gradually increasing their comforts and means.

15. Morality, through the influence of education and religion is improving, though a want of chastity prevails to some extent.

16. The children number 1,504, of whom 547 attend school.

17. Thirteen schools are on the reserve, and an "Institute" near Brantford; and of the teachers, eight are of Indian origin.

*See page 12.

18. The "Institute" and nine of the schools are maintained by the New England Company of London, England; two under the Wesleyan Conference, and two by the voluntary efforts of Indians.

19. The ordinary branches of an English education are taught, and in the "Institute" the boys are also taught practical farming, and the girls household work and other work of a domestic nature.

In the absence of full statistics, which have never yet been taken, except under the General Dominion Census, I have answered in somewhat general terms, conveying the fact that the Indian people in this Superintendency are in a progressive state, and that year after year is tending to develop an improved condition.

The Six Nations have a flourishing Agricultural Society, with annual shows, while the cause of temperance is fostered by several native societies.

Of the Six Nations, the larger portion are members of the Church of England, having five missionaries; some are Methodists and Baptists, with a Missionary to each; a few Plymouth Brethren and Universalists, and about 800 Pagans, who worship the Great Spirit in the manner of their fathers. Their speakers inculcate moral precepts.

The Mississagua band are all of the Wesleyan Church, and have a Missionary.

The Six Nations have an excellent large frame building for a Council House; and several members have opened stores on the reserve, one of which would do credit to a town.

Three medical gentlemen are attending physicians, and the health of the people is good.

During the past two years the Six Nations have expended upon roads and bridges over \$3,000, besides the usual statute labor, which is very well executed, a good deal of zeal being shown to have better roads.

J. T. GILKISON,
Visiting Superintendent and Commissioner.

Indian Office,
Brantford, Ontario.

RETURN for the Year ended 30th June, 1874.

15

Name of Band.	Area of Reserve.	Quantity of Land under Cultivation.	Quantity of Land in Pasture.	Quantity of Land in Wood.	Aggregate value of Personal Property.	Number and description of Habitations.	Amount of Money Distributed.	Name of Bailiff or Sub-Agent.	Moral Status.

Sarnia, 2nd February, 1875.

ROBT. MACKENZIE,
Visiting Superintendent and Commissioner.

No. 4.

DELAWARE, ONTARIO,
January 30th, 1875.

The Honorable

The Minister of the Interior, Ottawa.

SIR,—In compliance with the telegram received by me last evening, I have the honor herewith to transmit a report according to printed circular* of 28th August last, regretting that for the reasons assigned in said report, I have not given it earlier attention; and that even now it should be so meagre and incomplete.

As I become more accustomed to the duties incident to my new position, however, I trust in the future to make fuller and more satisfactory returns.

I have the honor to be, Sir,

Your obedient servant,

W. LIVINGSTON,
Indian Agent and Commissioner.

REPORT.

THE CHIPPEWAS, MUNSEES AND ONEIDA INDIANS OF THE THAMES.

The Local Agent of the above mentioned bands, begs to state that although he has had the honor of acting as a Commissioner for the protection of Indian property for the last twelve years, it was only a year ago, last September, that he was appointed and put in full charge of these bands, which up to that time had been under the superintendency of V. S. Mackenzie, of Sarnia; and the comparative shortness of the time, and the difficulty of procuring reliable data from or about Indians must plead his apology for the delay in furnishing, and the consequent incompleteness of his return.

1.	Number of Chippewas,	30th June, 1874.....	429	} Decrease 10
	do do	do 1873.....	439	
	do Munsees,	do 1874.....	129	} do 5
	do do	do 1873.....	134	
	do Oneidas,	do 1874.....	609	

A slight increase for the last, making the increase or decrease of the whole so trifling as to call for no comment.

2.	Area of the Chippewa Reserve.....	Acres.
	do Oneida do	15,360
		5,022

The Munsees live upon a part of the Chippewa Reserve. Cannot speak as to personal property: while some have a good deal, others, the bulk of them, indeed, have very little.

3. Habitations: While some have good brick houses, the generality of them live in tolerably comfortable log and frame houses—mostly log.

4. Area given in No. 2,

I cannot say what quantity of these reserves are under cultivation, pasture, and still in a primitive state respectively.

5. Mr. Benj. Bolton has taken the place of Cawthorp, who has removed to Strathroy.

6. Not much produce for their facilities.

7. They are procuring and making a greater use of agricultural implements.

8. Have not been able to ascertain about live stock.

9. About sixty acres under timber license.

10. They fish a little in the season; but consume all they catch.

11. No fur-bearing animals of any account now to be found.

12. The Chippewas receive annually from the Government, in the shape of annuities, payable half-yearly, from \$2,500 to \$3,000.

The Munsees about sixty dollars, half-yearly, being interest on timber sold.

13. No seed grain distributed.

14. The several bands are slowly but surely advancing in civilization, if not in wealth.

15. Moral status hopeful and comparatively good—less intemperance than formerly.

16. See census and school returns,

17. Besides the Mount Elgin Institute, there are four schools among the Chippewas, one among the Munsees, and two or three among the Oneidas, each school being taught by native teachers of the bands respectively.

18. The missionaries of the Church of England, and those of the Wesleyan Methodists share in the supervision of these schools.

19. The branches taught are those elementary ones which are taught in the public schools of the Province, viz., reading, writing, arithmetic, grammar, geography.

All of which is respectfully submitted,

W. LIVINGSTON,
Indian Agent and Commissioner.

Delaware,
30th January, 1875.

No. 5.

INDIAN OFFICE,
TORONTO, ONT., 19th January, 1875.

SIR,—I have the honor to enclose herewith a statistical report on Indian matters within my Superintendency for the year ending 30th June, 1874, showing the produce from farms, fishing, and hunting; also, the number of horses, cattle, &c., the property of each Band.

THE MOHAWKS OF THE BAY OF QUINTE.

These Indians are steadily increasing in number, and are as a band, as much advanced in civilization as any other in this Superintendency.

They are members of the Church of England, and have two very fine stone churches; one of them quite handsomely finished.

There are three school-houses, one brick and two frame; the branches of education taught being the same as in the Public Schools of the Province. One of these institutions is taught by an Indian woman, and the other two by White men. They are supported partly by the New England Company, and partly from Indian funds; and also by assessment on the White settlers, who are lessees of lands on the Reserve.

MISSISSAGUAS OF ALNWICK.

These Indians show a decrease of four since last year. There have been the same number of births as deaths; the decrease arises from two persons having been dismissed for immoral conduct, and two lost by emigration.

My first impression when I went amongst these Indians was that they were more immoral and dishonest than any I had previously met with, and I have since no reason for changing my opinion concerning them.

They have for many years been in the habit of allowing the neighboring settlers to work their lands on shares, which has had the effect here, as elsewhere, of impoverishing the land, as everything is carried away, and nothing returned to the soil in the shape of manure; and, moreover, it has afforded the White settlers the opportunity of robbing the Reserve of much valuable timber. So thoughtless are some of the Indians in this respect that they have often given up their farms for two

or three years, simply to receive as a remuneration the use of a team to convey them to the wild lands, where they are in the habit of going to make their baskets.

I am glad to report, however, that the Missionary states that they are making some improvement in habits of civilization and industry. During the harvest the young men have gone out to work more than formerly. Some of them are cultivating their farms more extensively. Temperance meetings are held, and Church attended more frequently than heretofore.

There is one school on this Reserve, which is taught by a white woman, and supported by the Wesleyan Missionary Society.

CHIPPEWAS OF RICE LAKE.

This Band numbers the same as last year, there having been five births and five deaths.

I believe this is a very unhealthy situation, the miasma arising from the wild rice beds produces fevers; and, from whatever cause, there are more pulmonary diseases among these than are found among Indians generally.

These Indians are more honest, and less immoral, than some of the other Bands. They support themselves mostly by farming; the women making baskets and bark-work, of which a large quantity is manufactured.

I have not heard any complaints of poverty at any of my visits.

They have one good church, a school-house, and other buildings, the property of the Band.

CHIPPEWAS OF MUD LAKE.

The census of this Band is the same as last year. There were, however, seven births and four deaths, the difference being made up by emigration.

They have one school, one teacher, and a resident missionary; the whole of which is supported by the New England Company.

The moral status of the Band is generally good and improving, and progress in civilization very fair, and better than most Indian Bands in the Superintendency. They have an excellent teacher and missionary, who keep a strict supervision over them, both socially and morally.

These Indians live by farming, hunting and fishing, and the women and children supplement the whole by basket-making; they having sold during the last year nearly \$900 worth.

CHIPPEWAS OF SCUGOG.

These Indians stand in number forty-three, being two less than last year.

They have neither school-teacher nor missionary.

I scarcely know how they live. They farm but little; although they have a quantity of land cleared of wood, yet they do not cultivate more than about twenty acres, and that in the most wretched manner. Many of them do not even chop their own firewood, but employ white men, and pay them for their labor by giving them one half of the wood chopped.

They are the most debauched and depraved Indians in this Superintendency. They are surrounded by some very unscrupulous White settlers, who have been in the habit of supplying them with spirituous liquors for the purpose of getting the timber on their Reserve.

Their wretched and destitute condition fills one with intense pity. I have thought over their case a great deal, and the best thing I can suggest, is their removal to some place where they would be less influenced by avaricious White men—such a place as Mud Lake—where they would be comparatively free from this influence, and under the supervision and control of one of the best missionaries in the District. I have ascertained that there would be no objection raised to their going there.

I think they might be persuaded to move, if some inducements were held out, such as a sum of money to each individual, and assistance towards building houses,

&c. I would most respectfully urge this matter upon the attention of the Department.

CHIPPEWAS OF SNAKE ISLAND.

This Band shows an increase in number since last year of six. They reside partly on Snake Island, and partly on Georgina Island. The portion residing on the former island do not farm as much as those on the latter; but they are in the habit of working for the farmers and lumbermen near them. There seems to be no want; and there certainly is no complaining amongst them.

Their moral status seems to be about the average; and in habits of civilization they are improving.

Their Reserve consisting of unsurveyed islands, its area and value can hardly be estimated.

They are principally members of the Wesleyan Methodist Church, whose missionaries visit the Indians periodically.

CHIPPEWAS OF RAMA.

The census of this Band shows an increase of two since last year. There have been thirteen births, nine deaths, three emigrations, and one expelled for immoral conduct.

They have one school, taught by a female teacher; also a resident Missionary, who is supported by the Wesleyan Missionary Society.

This Band has not made as much progress in civilization as it ought to have done. Intemperance is the besetting sin of these Indians, as well as of so many others, and is the prolific source of idleness and profligacy. It is hoped, however, that a change has taken place. Some of them, of late, have become "Good Templars," and if they can be led to form temperate habits they would soon become self-respecting, and good members of society.

Some of the members of this Band are good farmers, and support their families respectably; others devote the greater portion of their time to hunting, and during the last season have realized between \$2,000 and \$3,000 thereby.

CHIPPEWAS OF BEAUSOLIEL.

A natural increase of five has been shown in the census of this Band since last year. The greater portion of them are located on Christian Island in Georgian Bay; but a few of them have emigrated to Manitoulin Island.

These Indians cultivate a considerable quantity of land, and also fish and hunt a great deal; and during the summer they earn a good deal of money by loading lumber barges. They seem to obtain a good livelihood, and the majority are well-behaved.

When visiting them I have been much pleased with their frank and manly bearing, a striking contrast to many of their brethren, who live surrounded by (so-called) civilized White people. During the past season they have cured and sold 212 barrels of fish, valued at \$1,484; and sold upwards of \$1,000 worth of furs.

The statistics of the portion of the Band residing on Manitoulin Island are not included in the accompanying schedule (except the column for the census, and that for money received from the Department for distribution), and will most probably be found in Mr. Superintendent Phipps' Report.

There are also on this Island thirty-seven Indians of the Odawah and Pottawattamie Tribes, who do not participate in any annuity. They are of industrious habits, and seem to prosper quite as well as their neighbors, who receive semi-annual payments.

CHIPPEWAS OF NAWASH.

These Indians occupy their Reserve at Cape Croker or Nawash.

The census shows an increase in their numbers of eight during the last year. They obtain their subsistence chiefly from farming and fishing, and have, with but few exceptions, given up hunting altogether.

The increase in number has been caused by the admission into the Band of several families from the Saugeen Band.

There are three schools on this Reserve; two taught by Indians, and one by a White girl; but they are not producing the good results I could wish to report, owing to the inefficiency of the teachers generally, and one of them in particular; but owing to the fact that these schools are almost entirely supported from the funds of the Indians, they are unwilling to have their actions interfered with in the matter.

About two-thirds of this Band are Protestants; and the remainder Roman Catholics.

There is a missionary resident on the Reserve, who is supplied by the Wesleyan Missionary Society.

The Indians seem to be religious people, and attend very regularly to their respective churches, especially the women.

This Band is evidently improving in most respects. In agriculture they are commencing to use more of the superior kinds of implements, and likewise exercise more care in their preservation. They pursue a better system of agriculture than formerly, carefully ploughing the land in the fall in order to have it ready for spring sowing. They have a first-class threshing machine, and have of their own motion built a house to protect it from the weather when not in use.

They have also made several miles of excellent roads through their Reserve.

There are several families of foreign Indians, who have been permitted to reside on the Reserve, principally Odawahs, from the shores of Lake Michigan, United States; they receive no annuity, but subsist principally by farming and fishing.

CHIPPEWAS OF SAUGEEN.

A decrease of eight is shown in census, arising from emigration.

There are two schools on the Reserve; one taught by a white woman, and paid by Wesleyan Methodist Missionary Society; and the other by an Indian woman, who is paid from Indian funds.

There is one resident missionary on the Reserve who is kept at the expense of the Wesleyan Missionary Society. They have also a fine church.

The remarks made in regard to the Cape Croker Indians, will apply to this Band in almost every particular. Hunting is only followed by a very limited number; the entire value of the furs taken amounting to only \$500. They obtain their living by farming and fishing.

There are residing on the Reserve several Indian families, making altogether upwards of 100 individuals, principally from Green Bay, Lake Michigan, United States; they do not receive any annuity, but live by farming and fishing.

There are about 2,900 Indians within my Superintendency, 2,700 of whom participate in the half-yearly distribution.

The total amount of money sent to me by the Department for the year 1874, was \$43,071.64, which was distributed among the different Bands as annuities, pensions and salaries.

Respectfully submitted.

I have the honor to be, Sir,

Your obedient servant,

WM. PLUMMER,

Visiting Superintendent and Commissioner.

WM. PLUMMER,
Visiting Superintendent and Commissioner.

No. 6.

INDIAN OFFICE,
MANITOWANING, September, 12th, 1874.

SIR,—I have the honor to forward reports upon the Indian lands and settlements within this Superintendency, and, in doing so, I beg to state that I have followed, as far as practicable, the instructions contained in the circular* from the Department, of the 28th August last.

Some of the statistics called for, such as the number and description of fur-bearing animals killed, and the amount realized from the sale of furs, I am unable to furnish, but will endeavor to do so in next year's report.

I may here mention that I obtained information as to the cutting of timber on the various reserves from intelligent Indians who are sent to obtain information when required.

The number of acres of land under cultivation by the Indians is difficult to obtain, their ideas of size being so vague; it varies from two to ten acres per family, the average being about five acres upon this island. The Beaver meadows, where they cut their wild hay, are not included in this average.

The recent Act of the Dominion Parliament (37 Vic., cap. 21) will greatly aid in stopping the illicit sale of liquor to Indians, and will be highly beneficial in many respects.

With regard to the progress of these Indians towards civilization, intercourse with them develops the fact that they are not without many of the finer feelings, which show that the moral and religious training they receive is bearing fruit.

Theft is almost unknown among them, and they are invariably kind to the sick and widows, cultivating their land for them when unable to do so themselves.

While education is dispelling from their minds the mists of superstition, it is also to be hoped that it will have the effect of reclaiming the rising generation from their wandering habits.

In contrasting the condition of the Indians living on the main land with those dwelling on this island, the advantage in moral status, education and progress towards civilization is greatly in favor of the island Indians, who, to a great extent, have the benefit of schools and religious teaching—of all which advantages the main land Indians are almost entirely deprived. (I refer only to those main land Indians embraced in my report.)

The Indians generally seem happy and contented; the only exception I am sorry to have to observe is that of some of the main land Bands who are discontented with the annuity they receive, believing that, under the Robinson Treaty, they are entitled to an increase.

I have, &c.,

J. C. PHIPPS,

Visiting Superintendent.

WIKWEMIKONG.

Wikwemikong, the most populous Indian settlement in this Superintendency, is situated on the unceded portion of Manitoulin Island; and is occupied principally by Ottawas, with a few Chippewas and Pottawattamies. The village contains a population of 712 souls, all of whom are Catholics. There are two churches, a substantial stone residence for the missionaries, a residence for the lady teachers, two school houses—one for boys, the other for girls. The average attendance of the boys at school is 85; girls, 65. They are taught the rudiments of a plain education, and the boys are instructed in mechanical trades, and the girls in sewing, spinning, weaving and knitting.

These Indians possess considerable industry, and each year enlarge their clearings. Some years since they raised only corn and potatoes, they now grow peas and spring wheat. Their style of agriculture is susceptible of great improvement, and they are

*See page 12.

very inadequately supplied with agricultural implements; yet they raise excellent crops and have abundance to supply their wants.

With the exception of the band of Taiyahwenene, and some few Indians of the Spanish River Band, who reside there, and receive annuity under the Robinson Treaty, the Indians, generally, do not receive any money payments from the Department. Assistance is rendered toward the support of their schools, and they have the benefit of medical attendance and are supplied with medicines. The aggregate value of their personal property is \$18,220.

They maintain themselves by agriculture and fishing; are peaceful and orderly; are attentive to their religious duties, and are making considerable progress both morally and socially.

Population.					Buildings.		Live Stock.

	Bush.	Bush.	Bush.	Bush.	Bush.	Tons.					Lbs.
1,500	4,500	7,900	540	165	65	600	31	4	67	22	579 60,000

Wood cut under license by Indians, 423½ cords of soft wood for steamboat use, value, \$847 00.

These Indians possess an aptitude for mechanical employments, and, although there are but few, if any, who would rank as first-class workmen, almost all can handle an axe and saw, and are competent to do rough carpentering and house-building.

There are in this village thirty-two carpenters and boat builders, nineteen coopers, four blacksmiths and five shoemakers.

There are eight looms and twenty-eight spinning wheels in operation, and a quantity of coarse flannel and cloth suitable for clothing is manufactured. The number of sheep raised increases every year, the wool being spun into yarn by the women.

Great credit is due to their missionaries who are untiring in their efforts to promote the welfare of the Indians under their charge.

SUCKER CREEK.

Sucker Creek is situated five miles north of Little Current. The Reserve contains 2,241 acres; the land is of good quality. The census of the Band amounts to sixty-nine, an increase of nine over the previous year. The amount divided amongst them during the past year has been \$112.80, being interest on land sales on this island.

The proximity of this settlement to Little Current, where the Indians have been able to obtain whiskey, has prevented any marked improvement in the moral character of the majority of them; there are, however, exceptions, and some are intelligent and well-conducted.

The school at Little Current, which has been aided by the Department, is too far off to be of much benefit to these Indians, and when the census was taken was closed.

The Indians work for the storekeepers at Little Current, boating wood, and occasionally hire on board steamers; they make sugar in the spring, fish in the fall, and during the summer cultivate small gardens. The quantity of land under cultivation is fifteen acres; there are seven houses, four barns and stables. The crops raised were forty-five bushels of corn and 613 bushels of potatoes. They own one cow, two horses, three oxen, three pigs, also one boat. Value of personal property, \$531.

MICHIGUEDINONG.

This village is situated at the head of West or Honora Bay, and is occupied by Chippewa Indians, the Band of Chief Paimoquonaishkung; they are Catholics, and have recently built a substantial church, the workmanship on which is of a highly creditable character. They have also a school house, which it is intended to have in operation this coming winter, the sum of \$150 per annum having been granted for this purpose by the Department.

The Reserve contains 8,056 acres; the land is of excellent quality; the Indians are generally industrious and raise large crops of corn, potatoes and other produce, and are abundantly supplied with provisions for winter use. The houses are log, are substantially built, and many of them comfortably furnished. The village is laid out with some regard to regularity, and has a comely and prosperous appearance.

This Band receives annuity under the Robinson Treaty, also interest on the timber dues on their Maganettawan Reserve, and interest on land sales on this Island. The amount distributed among them during the past year by the Department is \$506.15. They maintain themselves by agriculture and fishing principally; a few hunt during the winter on the main land.

The aggregate value of the personal property of the Band is \$3,562; the value of fish sold is \$852.

They are under the charge of the missionaries at Wikwemikong, who occasionally visit their village, but have no clergyman resident among them.

This is one of the most prosperous and well conducted Bands on the Island, and the establishment of a school in their village cannot fail to be of material benefit to them both morally and socially.

SHESHEGUANING.

This settlement is situated on a small bay (which forms a commodious harbor for boats) opposite the western end of Barrie Island. The Indians are Chippewas, and compose the Band of Chief Edowishkosh. The land in the neighborhood is unsurveyed; it produces excellent crops, and this Band have always a large amount of corn and potatoes to dispose of. The fisheries in their neighborhood are excellent, and between agriculture and fishing they are quite prosperous. The population has slightly declined, being seven less than last year, caused by emigration to Cockburn Island. They are Catholics, possess a church and school-house, and are occasionally visited by the missionaries from Wikwemikong. The sum of \$232.20 has been received from the Department and divided among them during the past year. The value of their personal property is \$3,162. The value of the fish caught for sale during the year is \$1,082. There are fifty children of an age to go to school, and the only instruction they receive is when occasionally visited for short periods by the missionary from Wikwemikong. The Band is progressing steadily in wealth and civilization, but would be greatly benefitted by the establishment of a school among them. The buildings are of a substantial and comfortable character, and the village is regularly laid out and very beautifully situated.

SHEGUIANDAH.

Sheguiandah is a Protestant Indian settlement situated eight miles south of Little Current, and occupied by the band of Chief Maisequoseggai, and a portion of that of Chief Paiboursey.

The Reserve contains 5,106 acres of excellent land, a very small portion of which (about 70 acres) is in cultivation.

The Indians are Chippewas, and are not as prosperous as the other Bands on this Island. Last spring they were on the verge of starvation when aid was afforded by the Department, who furnished them with provisions while getting out rails to fence their Reserve. They are nomadic in their habits, and lack steadiness and industry in

the cultivation of their lands; their backwood condition is also in a measure attributable to their proximity to the village of Sheguiandah, and the facility with which whiskey could be obtained. This has, to a great extent, been put a stop to, and an improvement in the cultivation of their crops is observable this season. They are, however, badly off for cattle and agricultural implements, and are very poor—their personal property amounting to only \$1,024.

They have a church (used also as a school-house) built by the Church Society of the Diocese of Toronto; they are regular in their attendance at church. The number of children attending school is 40; average attendance, boys, 32 days; girls, 30 days—for the year. The children also attend Sunday school.

The amount of money received from the Department, and distributed among the bands during the past year, has been \$347.95, viz., \$140.60 annuity under the Robinson treaty, and \$207.35 interest on land sales.

The Rev. Rowland Hill, Church of England Missionary, holds divine service in the church every Sunday, and takes a great interest in the moral and social welfare of the Indians under his charge.

There have been five births, and five deaths during the year.

OBIDGEWONG.

A small settlement containing seven families of Pagan Indians, a portion of a band who left Maganong at the head of Mudge Bay, about fifteen years since. They have been frequently visited by the missionaries without success. They are peaceable and tolerably industrious, and have a reputation for great honesty. They live in wigwams, but intend building houses this fall. They have about fifteen acres of land under cultivation; they raise only corn and potatoes; they fish for their own use only, and hunt occasionally for bears, which are numerous in the vicinity of their settlement. They are included in the census and return from Michiguedinong where land was set apart for them.

COCKBURN ISLAND.

The village is situated on the western side of the Island, and is settled by Indians who have migrated from Sheshegwaning, and contains a population of thirty-three souls—an increase of ten over last year, caused principally by immigration. There are seven houses and two barns; they own of live stock, five cows, two horses and one hog; the crops raised last year were 89 bushels of corn and 463 bushels of potatoes.

They have about twenty-five acres of land under cultivation. The soil is sandy, but the Indians say they raise good crops, and have always abundance of provisions for winter and some for sale in the spring.

The fisheries surrounding the Island are excellent; the quantity caught for sale during the year was 213 half-barrels, value \$406.

The Indians are Catholics, but say that they have not been visited by any missionary during the past year.

They have no school.

This Island is heavily timbered with hard wood, but no use is made of the wood at present; there is also some valuable pine. The amount of money distributed among them by the Department during the year is \$38.85, being interest on land sales on the Manitoulin Island. Value of personal property owned by the Band, \$981.

The Indians are intelligent and fairly industrious, and, except when whiskey is introduced among them, are peaceable and orderly. They left Sheshewganing some years since owing to a misunderstanding with the Band at that place.

Small settlements such as this are to be deprecated, as the children miss the benefits of religious and moral training which would be accessible at some of the larger settlements.

WIKWEMIKONGSING.

Wikwemikongsing, situated on the unceded part of the Manitoulin Island, about seven miles south of Wikwemikong, contains twenty-nine men, thirty-five women, thirty-eight boys, and twenty-eight girls—in all, 130 souls. There are one church, twenty-three houses, seventeen barns and stables. The live stock owned is nineteen horses, eight oxen, eleven cows, thirteen sheep, eight pigs. They own seventeen boats, 147 nets, and four ploughs. There are eight carpenters and boat builders, and six coopers; they have one spinning-wheel; they raised, during the past year, 600 bushels of corn, 1,700 bushels of potatoes, and seventy-five tons of hay. Land under cultivation, 150 acres.

The Indians are Catholics, and are frequently visited by the missionaries from Wikwemikong. They are principally Ottawas, with a few Chippewas. They receive no money from the Department. The value of their personal property is \$3,272. The value of fish taken for sale is \$400. The quantity of sugar made is 10,000 lbs., value, \$700. They have no regularly established school; but the children receive instruction when visited by the missionaries.

These Indians are progressing in wealth and civilization; are attentive to their religious duties; orderly and well behaved, and are fairly prosperous. The rising generation would be greatly benefitted by the establishment of a school amongst them.

ATCHITAWAGAMING, OR SOUTH BAY EAST.

This settlement contains sixteen dwelling houses, one church, and seven barns and stables.

The population amounts to ninety-five, which is now being increased by the Indians from South Bay West, who number thirty-four, and are removing to the East side of the Bay, their lands having been sold to white settlers. They are principally Ottawas, with some Chippewas and Pottawattamies. In religion they are mostly Catholics; some few, however, are still Pagans. The missionaries from Wikwemikong occasionally visit them, and hold service in the church, and also instruct the children.

As a rule these Indians do not receive pay from the Department. Some members of the Beausoliel Band reside here who receive pay.

They maintain themselves by agriculture and fishing. The crops raised are corn, potatoes, peas, oats and wheat. Some of them occasionally visit the main land to hunt.

They are peaceable and orderly, except when whiskey is given them.

The establishment of a school amongst them would greatly promote their moral welfare, and be highly beneficial to the rising generation.

The Indians from South Bay West participate in the interest on land sales on this Island.

SPANISH RIVER BAND.

This Band numbers 420 members, an increase of twenty-eight since last census, principally by births.

The aggregate value of the personal property of this Band is \$6,974.

Part of this Band live at Birch Lake, about forty miles up Spanish River; another portion at Sagamouk, near LaCloche, and some on the Manitoulin Island at Wikwemikong, Michiquedinong, and Obidgewong.

THE BIRCH LAKE INDIANS,

whose chief is Louis Espagnol, live entirely by hunting, and raise no produce except a few potatoes. They come to the lake shore about the end of June to dispose of their furs. They remain for about two months, and then return inland. Some are Catholics; but they are mostly Pagans.

That part of the Band living at Sagamouk are nearly all Pagans (only six being Catholics).

Their gardens are on the Spanish River, about two miles from the village. The land is good, and they raise good crops of corn and potatoes. They occasionally hunt. They make sugar in the spring, and they fish in the fall.

They have fourteen dwelling houses at Sagamouk. They do not own any live stock, and have no agricultural implements except hoes.

The Indians belonging to this Band, who are living at Wikwemikong and Michiquedinong, are more advanced than those living on the north shore. Dwelling amongst the Ottawas, who possess more knowledge of agriculture than the Chippewas, they have gradually acquired the habits of their neighbors, and have made great progress in agriculture, and are also accumulating property in the form of live stock. They possess good clearings; some iron ploughs and oxen, and many of their houses are comfortably furnished.

The moral and social status of this portion of the Band is far higher than those living on the north shore, and their advance towards civilization and wealth is satisfactory.

WHITE FISH RIVER INDIANS.

This band are Chippewas, and are sixty-two in number, a decrease of three since last year's census, by deaths and emigration. Twenty-six of these Indians are settled at Sheguianhdah, and sixteen on other parts of the Manitoulin Island, twenty only residing on the Reserve; and for these, land has been set apart on the Manitoulin Island.

The settlement is on the eastern side of the Cloche Peninsular, and contains five houses and one barn. The land is fertile, and excellent crops of corn and potatoes are raised.

These Indians are mostly Protestants.

The return of population, crops, &c., is included with the Sheguindah Indians, where the majority of the Band reside.

TAHGAIWENINI.

This Band, for whose use Reserve No. 11 was set aside by the treaty with the Hon. W. B. Robinson, now live on the unceded part of the Manitoulin Island. They number 151, an increase of 10 since last census, by births principally.

They are Catholics; are attentive to their religious duties, and are making considerable progress towards civilization, and increasing in wealth yearly.

The quantity of land under cultivation is 175 acres. Value of personal property, \$3,930. Amount of money received from the Department, and distributed amongst them during the past year, was \$135.85, being annuity under the Robinson Treaty.

They are Chippewas. They maintain themselves by agriculture and fishing.

MISSISSAGUA BAND.

These Indians are all hunters. They spend most of their time inland, only coming out to their Reserve for two or three months in each year.

They are mostly Pagans. They maintain themselves by hunting, and pay no attention to agriculture. They live in wigwams.

The number of the Band is 116, a decrease of two from last census by death.

The amount of money received from the Department and distributed amongst them during the past year, is \$63.65, for annuity under the Robinson Treaty; and \$44.39 for interest on timber dues on their Reserve.

Adults.		Youths.		Children.		Total.
Male.	Female.	Male.	Female.	Male.	Female.	
25	29	11	4	28	19	116

SERPENT RIVER BAND.

The Reserve is situated at the mouth of Serpent River, and is unsurveyed.

The Indians raise only a small quantity of corn and potatoes; they maintain themselves by hunting and fishing.

As is the case with most of the mainland Bands, Paganism prevails to a great extent amongst them. The amount of money received from the Department and distributed during the year to this Band, is \$63.65, annuity under the Robinson Treaty, and \$55.49 interest on timber dues.

Their dwellings are substantial log-houses, and the Indians, both male and female, are comfortably clad. The value of their personal property is \$935.

These hunters possess a fine physique; but from hardships and exposure appear old at forty years. They suffer from scurvy, and diseases of the eye are common amongst them.

Male.	Female.	Male.	Female.	Male.	Female.											
18	17	10	5	12	11	73	9	7	Bush. 60	Bush. 393	7	1	2	1	16	31

JAHQUAHKUMMICK AND BAND.

These Indians, for whom the Thessalon River Reserve was set apart, have for many years resided in the neighborhood of the Bruce Mines. Some find employment at the mines; others hunt or fish, and many chop cord-wood during the winter. The Band are principally Catholics, but many are still Pagans.

Owing to intermarriage with the whites, about twenty half-breeds claim to belong to this Band.

Their moral status will not compare favorably with some of the Indians settled upon the Manitoulin Island.

The Reserve is a valuable one, containing a large quantity of excellent land, and some good pine timber. Several families, principally half-breeds, have squatted upon it, and are desirous of purchasing the land they occupy.

The amount received from the Department, and divided amongst the Band during the year, is \$151.05, annuity under the Robinson Treaty, and \$108.80 interest on timber dues.

The census is as follows:—

Adults.		Youths.		Children.		Total.
Male.	Female.	Male.	Female.	Male.	Female.	
23	36	19	17	39	29	163

An increase of six since last year, by births.

WHITE FISH LAKE.

This settlement is occupied by Chief Shamouquom and Band, numbering 143 souls, an increase of nine over last year by births.

The Band maintain themselves by hunting. They come to the lake shore about the end of June each year, and usually visit the Hudson Bay Company's post at Lacloche, to dispose of their furs and obtain supplies, returning inland after a short stay. They are an orderly and well behaved Band, but have had no opportunities for religious and moral training, and are mostly Pagans.

The value of their personal property is \$1,336.

The amount received from the Department and divided amongst them is \$127.30, being their share of the annuity under the Robinson treaty for the past year.

Adults.		Youths.		Children.		Total.	Cora.	Potatoes.	Beans.	Canoes.	Nota.
Male.	Female.	Male.	Female.	Male.	Female.						
29	34	7	3	28	42	143	Bush. 89	Bush. 375	Bush. 3	43	46

ONEWEIGONCE AND BAND.

These Indians are located at Grumbling Point near the eastern entrance to Collins' Inlet. They number fifty-seven, a decrease of two from last year.

They live principally by hunting; they fish for their own use, and occasionally work at the saw-mill in Collins' Inlet.

The sum of \$56.05 has been received from the Department and distributed amongst them during the past year; and assistance to the extent of \$120 was granted in 1873 towards building four houses at Grumbling Point, two of which are nearly completed.

Some of these Indians live in wigwams on the Beaverstone River, at the northern part of the Reserve; and one family (the most intelligent and prosperous) live at Wikwemikong.

The Band have six dwelling-houses and one barn and stable. The crop raised last year was 18 bushels corn, 140 bushels potatoes, and six bushels beans. They own three horses, one ox, six pigs, one sheep, three boats, three canoes, thirty-four nets.

More than three-fourths of the above was raised by the family living at Wikwemikong; 100 half-barrels of fish was caught by this family, value \$200.

The census of the Band is as follows:—

Adults.		Youths.		Children.		Total.
Male.	Female.	Male.	Female.	Male.	Female.	
11	12	4	8	8	14	57

Those members of the Band living on the reserve cannot be considered to have made much progress towards civilization, and their children are being brought up in ignorance; an occasional visit from one of the Catholic missionaries being all the opportunity afforded them of receiving instruction.

J. C. PHIPPS,
Visiting Superintendent.

No. 7.

PARRY SOUND, ONT.,
7th September, 1874.

SIR,—I have the honor to enclose answers to your circular* of 28th August, 1874. I have thought it best to make out a separate report for each Band, as I could thus better refer to individuals, but I have also sent in a general summary.

I have, to the best of my ability, answered all the questions; but I fear that many of the answers will be found not such as could be wished; yet I believe them to be correct.

And it must be considered that these Indians live in such a wild, barren country that access to it is as yet difficult: so they do not see much of the improvements and habits of the whites; and in general those whites they do see, are not such as they could learn much good from.

I have the honor to be, Sir,
Your obedient servant,
C. SKENE,
Visiting Superintendent.

E. A. Meredith, Esq.,
Deputy of the Minister of the Interior,
Ottawa.

OJIBWEA NATION—FROM PENETANGUISHENE TO LAKE NIPISSING.

1. Present number, 503—decrease, 14; cause, generally death.
2. In general the personal property is too small to put a value on it. Any exceptions are noticed in the returns of the separate Bands.
3. Habitations, about 90—chiefly log-houses and shanties.
4. Area, about 220 square miles. About 800 acres under cultivation. No pasture. Hay made of beaver grass. Remainder of Reserve in bush.
5. No sub-agent.
6. Impossible to say quantity of produce. Oats, potatoes and Indian corn—in two cases a little wheat and oats.
7. Agricultural implements,—hoes and spades; in two cases the plough is used.
8. Live stock:—About 7 horses, and 50 head of cattle, and a very few pigs.
9. No timber cut for sale by the Indians.
10. Fish:—Impossible to say: quantity only killed for home consumption.
11. Fur-bearing animals:—Cannot say number; chiefly mink, marten, muskrat, beaver, otter, foxes, bears, wolves.
12. \$1,230.19 received from the Department. Same amount distributed.
13. No grain distributed.
14. A few are well advanced in wealth and civilization, and upon the whole, there is an advance.
15. Moral status, in general, good.
16. 277 children—10 attending school.
- 17, 18, 19. No school. It will be seen that only 10 children are attending school, and these attend a school established three months ago by the settlers on South River, Lake Nipissing, and find board near the school. Situated as the bands are, it would be a difficult matter to get up schools near them.

*See page 12.

WAICKAMAKAI'S BAND—HENVY'S INLET.

1. Present number, 143; deceased 11; cause, several deaths, and a few removals.
 2. Personal property :—So little it would be hard to put a value upon it.
 3. About 20 log houses and board shanties.
 4. About 35 square miles in area. About 200 acres under cultivation. No pasture. Remainder in bush.
 5. No sub-agent.
 6. Produce :—Potatoes and Indian corn; impossible to say the quantity.
 7. Hoes and spades only agricultural implements.
 8. No live stock.
 10. Fish :—Only killed for home use.
 11. Fur-bearing animals :—Principally mink, marten and muskrat; a few beaver and otters.
 12. \$149.39 received from the Department. Same amount distributed.
 13. No seed-grain distributed.
 14. In wealth, increase nil; in civilization, some advancement.
 15. Moral status good.
 16. 79 children; none attending school.
 - 17, 18, 19.—No schools.
- A good many of this Band are industrious and willing to work; particularly two who are settled, not on their own Reserve, but upon another Reserve on French River.
- A good many of this Band work at saw-mills, and in lumber shanties at the upper end of Georgian Bay.

COCHAI'S BAND, LAKE NIPISSING.

1. Present number, 126; increase, 1; cause, birth.
 2. Personal property too small to put a value upon it.
 3. Log shanties—about 25.
 4. About 100 square miles in area. About 200 acres under cultivation. No pasture. Beaver hay made for live stock. Remainder under bush.
 5. No sub-agent.
 6. Impossible to guess quantity of produce—chiefly corn and potatoes; but the Chief Cochai, and another Indian Commandant, have each about 30 acres under cultivation, upon which they raise also some wheat, oats and hay.
 7. Cochai and Commandant use a plough; the others, hoes and spades.
 8. Seven horses and about 30 head of cattle.
 9. No timber cut for sale.
 10. Fish caught only for home consumption.
 11. Fur-bearing animals: principally mink, marten, muskrat, beaver, otters, foxes, and bears.
 12. \$221.26 received: \$121.26 by Robinson Treaty, and \$100 interest: all distributed.
 13. No seed-gain distributed.
 14. In general no great advance in wealth and civilization.
 15. Good moral status.
 16. 82 children; 10 attend school at South River.
 - 17, 18, 19. No schools. The few settlers at South River have established a school there; and the Indians are glad to avail themselves of this chance of getting some education for their children: they find difficulty in boarding them near the school.
- The Chief Cochai and Commandant are the only ones who do anything to speak of in the way of farming. They have horses, and use an old plough; and I think it would be well if a new plough were given to them. The other Indians sometimes work for Dokis; and occasionally at the fort.

DOKIS' BAND, LAKE NIPISSING.

1. Present number, 49; increase, 17; cause, births, and 17 returned who had been absent.
 2. In general the personal property is too small to put a value upon it; but the Chief Dokis has a considerable amount, and does a good business as a trader and storekeeper.
 3. Dokis has an excellent house; cost him about \$2,000. The Band have about seven log-houses.
 4. Area about 35 square miles; but the Band, with the exception of one family, does not live upon it, but on the reserve, North shore, Lake Nipissing, where they cultivate about 100 acres. No pasture. Some beaver meadows. Almost the whole in bush.
 5. No sub agent.
 6. Produce :—Impossible to name the quantity—only potatoes and Indian corn.
 7. Hoes and spades only agricultural implements.
 8. Dokis has five horses, and about ten head of cattle.
 9. No timber cut for sale.
 10. Fish only killed for home use.
 11. Fur-bearing animals: principally mink, muskrat, marten, beaver and otter.
 12. \$31.05 received from the Department. Same amount distributed.
 13. No seed-grain distributed.
 14. Considerable advance in wealth and civilization
 15. Good moral status.
 16. 29 children; none attending school.
 - 17, 18, 19. No schools.
- Dokis, the Chief, does a considerable business, both in his store and in trading with the more northern tribes; and in this manner employs a good many of his Band.

SHAWANAGA AND SANDY ISLAND INDIANS

1. Present number of band, 165; decrease 16; cause, several deaths, and a few removals.
 2. So little personal property it would be hard to put a value on it.
 3. The Chief has a frame house, the others log and board shanties, numbering about fifteen.
 4. Area about 20 square miles altogether. Under cultivation about 200 acres. No pasture; Beaver hay is made for the cattle in winter. Remainder of Reserve in bush.
 5. No sub-agent.
 6. Impossible to name the quantity of produce raised: entirely potatoes and Indian corn.
 7. Hoes and spades the only agricultural implements.
 8. About fifteen head of cattle.
 9. No timber cut for sale.
 10. Fish, only killed for home use.
 11. Fur-bearing animals: principally mink, marten, muskrat; a few beavers and otters.
 12. \$138.40 by Robinson treaty; same amount distributed.
 13. No seed grain distributed.
 14. In wealth, increase nil; in civilization there is some advancement, particularly the Chief, who is far in advance and well educated.
 15. Good moral status.
 16. Eighty-two children; none attending school.
 - 17, 18, 19. No schools.
- A good many of this Band residing at Shawanaga are industrious and willing to work; but in such a remote place work cannot always be had. During the open

season many of them work loading lessels at Parry Sound; but that is only occasional, and a few of them are more permanently employed at the saw-mills at the upper end of Georgian Bay.

N. B.—In the number of this Band, 52 of Parry Island are included, as they share in the Robinson treaty, but the other remarks do not apply to them.

From what I have seen of the Chief, Solomon James, I think that a yoke of oxen and a plough would be well bestowed on this Band, as I think he would get them to use them, and thus perhaps induce them to cultivate more ground.

PARRY ISLAND INDIANS.

1. Present number of Band, 72; decrease, 5; cause, deaths.
2. So little personal property it would be hard to put a value on it.
3. Habitations, about 20 shanties; principally of board, but some log.
4. About 27 square miles in area; about 80 acres under cultivation. No pasture; some beaver hay is made; remainder in bush.
5. No sub-agent.
6. Impossible to say the quantity of produce raised; entirely potatoes and Indian corn.
7. Hoes and spades the only agricultural implements; a plough was given to them, but was soon broken and not repaired.
8. One yoke of oxen was given to them, but I do not find they used them.
9. No timber cut for sale.
10. Impossible to say quantity of fish taken; very little sold.
11. In fur-bearing animals, not much done; principally marten, mink and muskrat.
12. \$650.00 received; same amount distributed. This does not include what was distributed last fall, nor their share of the Robinson treaty at Shawanaga.
13. No seed grain distributed.
14. In wealth *nil*; and I fear I can say little more in civilization.
15. Moral status indifferent.
17. Twenty-nine children, none attending school.
- 17, 18, 19. No schools.

I regret I cannot say much in favor of the Parry Island Indians. It seems to me they will not work; work and high wages are to be had on the Island, lumbering, and also in the open season loading vessels at Parry Sound, but none of them engage. I point this out frequently to them when they come to me wanting an advance; but I am sorry to say with no effect.

CHARLES SKENE,
Visiting Superintendent.

No. 8.

INDIAN LANDS AGENCY,
SAULT STE. MARIE, ONT., Sept. 26th, 1874.

SIR,—I have the honor to enclose herewith, a statement embodying the information asked for by you in your circular * of 28th August, 1874.

This return refers only to those Indians living on the Garden River Indian Reserve. There are quite a number of Indians belonging to the Bands of Augustin and Nubenaigooching, who reside between the Sault Ste. Marie and Mamainse; a return of these I am unable to give without incurring a very considerable expense, which I did not feel justified in doing without special instructions. The number of the two Bands is 647. The area of the Indian Reserve, Garden River, so far as I can ascertain is 22,000 acres. That of Batchewana Indian Reserve I have no means of giving.

Some have ploughs, but the implements chiefly used are hoes and spades. There is a considerable quantity of fish taken, most of which is used as food.

Very few of the Indians on this reserve are hunters; the number of fur-bearing animals killed is therefore very small.

* See page 12.

The amount of money sent by the Indian Department to me for distribution is as follows:—

Received.....	\$1,050 19
Distributed.....	\$1,025 25
Balance in my hands.....	24 95
	<hr/> 1,050 19

No seed grain has been distributed to these Bands.

The Indians on this Reserve have certainly improved in their houses since the starting of the saw-mill there by Messrs. McCrae, Craig & Co. They have now their gardens fenced, and other little improvements are visible.

There are three schools on the Reserve; one conducted by the Church of England, which receives \$200 per annum from the Indian Department, and \$100 per annum from the Church Society. The number of children attending this school is 54. The school conducted by the Wesleyan Missionary Society, and paid by them, Miss Knott, the teacher, reports to have six Indian scholars. The Catholic school receives no pay from the Indian Department, though, I am informed that repeated applications have been made. Parents report 25 children going to that school. I would, therefore, respectfully suggest that the Department take the matter of an allowance to this school into consideration

STATEMENT OF BUILDINGS, LIVE STOCK, PRODUCE, CULTIVATED LAND, ETC.

Houses, 77 value.....	\$11,285 00
Outbuildings, 35 "	1,565 00
Horses.....	68

I have the honor to be, Sir,

Your most obedient servant,

WILLIAM VAN ABBOTT,
Indian Agent.

The Honourable
The Minister of the Interior,
Ottawa.

Nos. 9-10.

CAUGHNAWAGA AND LAKE OF TWO MOUNTAINS, P. Q.,

23rd November, 1874.

SIR,—I have the honor to send you, herein, the report on Indian matters coming under my supervision of the Indians of Caughnawaga and Lake of Two Mountains, separately for the year ending 30th June, 1874, according to your circular* of the 28th August last.

I have the honor to be, Sir,
Your obedient servant,
J. E. R. PINSONNEAULT,
Indian Agent.

The Honorable
The Minister of Interior,
Ottawa.

REPORT ON THE CAUGHNAWAGA INDIANS FOR THE YEAR ENDING 30TH JUNE, 1874.

1. Number of the Band, 1,557; but eighty-two of this number are half-breeds whom the Band will not recognize.
3. Number of habitations:—263 houses, 80 barns, 95 stables, and 36 other buildings.
4. Area, 30,000 acres.
5. No sub-agent.
6. Produce:—4,050 bushels oats; 490 bushels barley; 188 bushels wheat; 220 bushels peas; 115 bushels buckwheat; 550 bushels Indian corn; 4,570 bushels potatoes; 2,300 bushels apples; 120,000 bundles hay.
7. Ploughs, harrows, hoes, mowing machines, scythes, horse-rakes, other rakes, vehicles of various kinds.
8. 359 horses; 416 cattle; 15 sheep; 313 pigs.
12. \$1,300 distributed.
13. No seed grain distributed.
14. This Band is making improvements in agriculture; their goods are increasing; and civilization advancing.
15. Sufficiently moral.
16. Children under 15, 519; children attending school, 145.
17. Number of schools, 1; teachers, 2.
18. Under the Roman Catholic Denomination.
19. Branches taught: reading, writing, grammar, arithmetic, geography.

REPORT ON THE LAKE OF TWO MOUNTAIN INDIANS FOR THE YEAR ENDING 30TH JUNE, 1874.

1. Number of the Band, 547. The augmentation of 32 arises from some families having returned from voyaging.
3. Number of habitations: 110 houses, 19 barns, 38 stables, and 15 other buildings.
4. Area 16,000 acres.
5. No sub-agent.
6. Produce: 1,600 bushels oats; 200 bushels peas; 305 bushels wheat; 400 bushels Indian corn; 40 bushels buckwheat; 1,300 bushels potatoes; 45,600 bundles hay.
7. Ploughs, harrows, hoes, scythes, rakes, vehicles of various kinds.
8. 65 horses, 120 horned cattle, 9 sheep, 110 pigs.
12. \$325 distributed.
13. No seed-grain distributed.

*See page 12.

14. This Band is making ameliorations in agriculture; their goods are increasing, and civilization advancing.

15. They are sufficiently moral.

16. Children under 15, 167; children attending school, 114.

17. Number of schools, 2. Teachers: 1 friar, 1 instructress.

18. 54 attend the Roman Catholic School; 60 attend the Wesleyan Methodist School.

19. Branches taught: reading, writing, arithmetic, grammar, geography.

No. 11.

ST. REGIS AGENCY,

31st October, 1874.

SIR,—I have the honor to acknowledge the receipt of your circular * of the 28th August last, in which certain questions are asked regarding the Indians of St. Regis. I beg respectfully to return the following replies to the various questions that have submitted to me:—

1. Population 904; no change in number.

2. Estimated value of real estate occupied by Indians, \$15,000; personal property, consisting of cattle, farming implements, grain, &c., \$20,500.

3. Houses built principally of square logs and blocks.

4. The area of Reserve comprises about 24,250 acres; of which 3,750 acres are occupied by the Indians. The remaining portion of 20,500 acres consists of the Township of Dundee, and certain Islands that are leased. Of the 3,750 acres occupied by the Indians, there are 1,270 acres under cultivation; 910 acres under pasture, and 900 acres under wood, principally second growth.

5. No sub-agent.

6. During last season the Indians raised wheat, 894 bushels; peas, 1,248 bushels; potatoes, 416 bushels; corn, 1,363 bushels; buckwheat, 57 bushels; barley, 40 bushels; beans, 50 bushels; apples, 152 bushels; total value, \$6,760.

7. Double wagons, 22; ploughs, 18; harrows, 11; cultivators, 4; mowing machines, 3; thrashing machines, 3; sleighs, 25.

9. No timber cut for sale.

10. No fish taken for sale.

11. 4,543 muskrats at 20c each, \$908.60; 43 minks at \$4 each, \$172; total \$1,080.60.

12. \$3,471.69 received from the Department; same amount distributed.

13. No seed grain distributed.

14. Those engaged in farming are bettering their condition very much. Others composing fully one-half of the Band make their living by lumbering, rafting and hunting, and are not very prosperous.

15. The moral status of those engaged in farming is higher than that of those who are otherwise engaged; the former are, generally speaking, sober, quiet and peaceable; while of the latter a few are sometimes given to intemperance, and are therefore at times unruly.

16. Children under 21, 471; number who have attended school, 35.

17. There is but one school. There is no Indian teacher.

18. The school is entirely supported by the Indian Department, and is therefore non-denominational. This teacher, and, I believe, all the pupils are Roman Catholics.

19. Reading, writing and arithmetic, are the branches taught.

I beg to remark that I have spared no pains to obtain as full and accurate answers as I could to the various questions submitted to me.

I have the honor to be, sir,
Your obedient servant.

WALTER COLQUHOUN
Indian Agent.

E. A. Meredith, Esq.,
Deputy of the Minister of the Interior,
Ottawa.

No. 12.

PIERREVILLE, P. Q.,
28th January, 1875.

SIR,—In compliance with your circular* of the 28th August last, which I have but lately been in a position to answer, owing to the fact that a number of the Indians from whom I had to get statistics and information, were then absent from the village. I now have the honor to submit the following report on the affairs of the Abenakis Indians of this place for the year ended 30th June, 1874.

Taking the questions of your circular in their numeric order, I will answer them as follows:—

1st. The present number of the Band is two hundred and sixty-six. No increase or decrease having taken place since the last census; deaths and emigration being about compensated by births, and the return of those who were then away. Several are in the habit of travelling and wandering about more or less during the summer time; many of them may be seen under their wigwams at Saratoga, White Mountains, and other pleasure resorts, selling baskets, walking sticks and other goods. Occasionally some will remain away for two or three years, or more, but very seldom do they completely abandon the village.

2nd. To the best of my knowledge I should value to some fifty thousand dollars the real and personal property owned by the Band.

3rd. Their village is composed of forty-eight dwelling-houses, being forty-seven ordinary wooden houses of some 25 x 30 feet, and one brick house. They also own two Churches; one of stone—the Roman Catholic—built some sixty years ago, and the other of brick—the Protestant one—built some ten years past.

4th. The Reserve is of an irregular form, and comprises islands, &c., so that I could not state the exact area of the same. I will call it about two thousand acres, of which two hundred are in a state of cultivation; three hundred used as pasture land in its natural state, with hardly any cultivation; and fifteen hundred acres of wood, bush and wild land.

5th. I employ no sub-agent or bailiff.

6th. The annual produce is as follows:—357 bushels oats; 47 bushels peas; 47 bushels buckwheat; 1,672 bushels potatoes; 127 bushels corn; 22 bushels beans; 12 bushels onions, and 9,500 bundles of hay.

7th. Their agricultural implements are 2 ploughs; 3 harrows; 14 scythes; 41 rakes and forks; 83 hoes, and 28 shovels.

8th. Live stock:—8 horses; 32 cows; 14 heifers and yearlings; 77 pigs; 175 hens.

9th. No timber cut for sale.

10th. No trade in fish.

11th. They have killed 1,322 beavers; 81 otters; 973 minks; 475 martens; 1 fisher; 8 lynx; 7,081 muskrats; 9 bears, and 22 moose, by which \$8,500 was realized; and by the sale of Indian goods, baskets, &c., \$7,412.

12th. From June, 1873, to June, 1874, \$808.30 has been sent from the Department and distributed to the Indians.

*See page 12.

13th. Amount in aid of agriculture has been distributed in money in proportion to the quantity of farming land owned by each.

14th. These Indians are generally poor and improvident; and as they are kept by law in a kind of guardianship or tutelage, they enjoy very little credit, it being well known that if they are not willing to pay their debts it will be very difficult to force them to do it. They are now civilized and have long been so; but they still retain, in some respects, habits which are not generally those of the whiteman and passions which seem to be inherent in their nature. As a rule they are very intelligent, but lazy and addicted to liquor. They hardly know the advantages of domestic economy, and are reluctant to work at anything else but hunting, preparing hides, and making Indian wares. Very few of them, not to say none, consent to become agriculturists; the care of planting potatoes and hoeing corn being left to women and children. It is great need alone which leads them to seek other employment than those I have just referred to. Besides, those who would be inclined to regular farming say that they would not benefit by it, as the law now is, being exposed not to get any profit for their labour should they be without children.

True it is a sandy soil, and another part marshy, not advantageous for cultivation, but should they wish to till the land they would find many acres of good soil which still remains untouched.

Thus of the 1,500 acres I classify under wood, bush, and wild land, at least the half is of no use whatever to them, nay, it is a burden, as the tribe has to provide for the roads, ditches and other public works running across their lands; from the rest they take fuel for winter.

All the young generation up to 35 years know how to read and write, and three or four of them are considered good business men.

15th. They are generally religious, moral and peaceful, except when under the influence of liquor, and unfortunately they are provided with liquor by some neighboring settlers. But I hope that the prosecutions I have of late encouraged under the new Dominion Act, against those who furnish them whiskey, will have the good effect of checking that great cause of disturbance.

16 to 19. There are two schools, the Roman Catholic and the Protestant one, both held by Indian teachers. The Roman Catholic Parish Priest and the Protestant Minister, who both are missionaries for the tribe, are considered by right supervisors for their respective schools. These schools are ordinary grammar schools, where children are taught how to read and write, arithmetic, geography, French and English grammar, and catechism.

I may be permitted to remind you that the Reserve belonging to those Indians was formerly of much larger area than what it is now; but they have conceded whole tracts of it under the then existing seigniorial tenure to French Canadian farmers, who now pay rent for the same to Government to an aggregate amount of \$234.70. Some of those conceded lands have since been abandoned, and others are in arrears to a certain amount. Some of those lots are not very valuable, and there might be some risk of not recovering all the costs on every lot if sold at Sheriff sale, still I would like to receive instructions on this matter.

I have the honor to be, sir,
Your most obedient servant,
H. VASSAL,
Indian Agent.

To the Honorable
The Minister of the Interior,
Ottawa.

No. 13.

No Report from Geo. Deschenes, Agent.

No. 14.

MONTAGNAIS RESERVE,
LAKE ST. JOHN, P. Q., September, 1874.

HONORABLE SIR,—I have the honor to submit the annual report of the officers of the Montagnais Indians of the Lake St. John Reserve, for the year ending 30th June, 1874.

The population of the Montagnais and other Indians, according to the census of December, 1873, was 283. There appears a decrease of seventy-two. The cause of this diminution is that many of the families have left the Reserve during the course of the year, and a good many have died. The suffering of all kinds which they have endured has engendered much sickness among them.

Their real estate and personal property, is, according to my valuation, about \$46,000.

The number of houses is ten, all built of wood. The great fire of 1870 burnt some, which the owners have not rebuilt for want of means.

The extent of the reserve is three miles in width, by from one to two miles in depth; about 64 acres are under cultivation; 40 to 50 acres in pasture, and the remainder under wood, of which the fires of 1870 destroyed nearly one-half.

There is no sub-agent.

The crops of last year were injured by the frost, and the incessant rain of the autumn. I cannot state positively the number of bushels harvested. The grains sown were wheat, peas and barley, and potatoes. The crops of this year are very promising.

The farming implements consist solely of one plough, three harrows, twelve hoes, and some axes, and one cart.

The Hudson Bay Company alone have a store on the reserve; many other traders deal with them outside.

No license has been given for the cutting of wood on the Reserve. The Montagnais have gathered some piles for their own use.

Fish, which they take in great quantities, are only used as food, and not for traffic.

It is impossible for me to give an exact account of the furred animals killed. I shall be able to give this information in my next report.

The money received from the Department amounts to \$568.79. The whole was disbursed in the purchase of:—

One pair of oxen,
One pair of wheels,
Hoes, Seed Grain,
Flour,
Clothing, &c., &c.

Wealth is unknown among them; they are all poor, and have little aptitude for agriculture. Civilization progresses very slowly among them, yet we can observe a slight improvement.

Their behaviour is usually good. They are of a kind and obliging disposition, and obedient. If left to themselves they are lazy, without energy, and inclined to strong drink.

There is no school this year, but the Department intends to establish one next year.

I have the honor to be, Hon. Sir,
Your obedient servant,

L. E. OTIS,
Indian Agent.

The Honorable
The Minister of the Interior.

No. 15.

No Report.

No. 16.

BEAR RIVER, N. S., DISTRICT No. 1,
September 26th, 1874.

SIR,—I enclose you the yearly report. I regret it has consumed so much time to collect the information you required. I had no record of it, so it was necessary to see nearly every Indian that either hunts or engages in fishing, which was a great deal of work. I have tried to get correct information.

I have the honor to be, Sir,
Your humble servant,
JOHN HARLOW,
Indian Agent.

Report for the year ending 30th June, 1874, on the following matters in my superintendency:—

1. Number of band at present, 363; increase since last census, one.
2. Amount of personal property owned by band, \$10,000.
3. Habitations: 35 small houses, 15 wigwams.
4. Area of reserve..... 3,000 acres.
Under cultivation..... 100 do
" pasture..... 400 do
" wood..... 2,500 do
6. Produce: 40 tons hay; 1,500 bushels potatoes; 200 bushels oats, barley and buckwheat.
7. Agricultural implements: ploughs, harrows, forks, shovels, hoes, &c.
8. Live stock: 4 yoke of oxen; 4 cows; 1 horse; 2 heifers.
9. Wood and timber cut and sold: 50 cords wood; 50 thousand feet lumber.
10. Fish taken, and amount realized from sale thereof: 1,500 porpoises, yielding two gallons oil each; value per gallon, \$1—\$3,000.
11. Fur-bearing animals killed, and amount realized from sale thereof:—

400 Mink,	value \$3 00 each.....	\$1,200 00
600 Beaver,	" 2 50 "	1,500 00
80 Otter,	" 5 00 "	400 00
1000 Muskrat,	" 25 "	250 00
125 Wild Cat,	" 1 00 "	125 00
93 Foxes,	" 2 00 "	186 00
60 Bears,	" 6 00 "	360 00
160 Coons,	" 75 "	120 00
		\$4,141 00
12. Money received from Department and distributed: \$239.40; \$142.52 among destitute; \$96.88 to purchase seed and implements.
13. Seed grain, &c., distributed: 80½ bushels potatoes; 6 bushels barley; 4 bushels buckwheat; 100 bushels oats.
14. Gradual improvement in wealth and civilization.
15. Moral status good as can be expected.
16. Children, 70: attend school, 8.
17. Under supervision of Catholics.
18. Reading, writing, spelling and arithmetic.

JOHN HARLOW,
Indian Agent.

No. 17.

No Report from Rev. P. M. Holden, Agent, District No. 2.

No. 18.

No Report from Rev. P. Danaher, Agent, District No. 3.

No. 19.

DISTRICT No. 4, N. S.,
Pictou, 30th June, 1874.

SIR,—In answer to a circular* from the Indian Office, dated August 28th, 1874, I beg leave to submit to you the following report on the condition of the Indians of my district.

1. The number of Indians settled in District No. 4, which includes the whole of the County of Pictou, may be put down at about 200. I find an actual increase of four since I took the census last year. It is, however, difficult to ascertain, owing to their migrating dispositions, their precise number.

2. The Indians of this district own but little personal property. Five small boats, one net, a small quantity of other fishing gear, 30 guns, as many dogs, some cooping tools, and a few rude house utensils, would be a full inventory of their effects.

3. Twelve small houses, one large barn, one church, comprise all the buildings belonging to the tribe. They have some wigwams which vary in number and quality, according to time and circumstances.

4. The area of the reserve is about 90 acres. The Indians of Merigonish had this year about 10 acres under cultivation. There are 60 acres of the reserve under wood.

5. I have no sub-agent.

6. The produce raised by the Indians of this district is confined to wheat and potatoes. Of the former, they raise perhaps about 120 bushels. It would indeed be difficult to tell the number of potatoes they grow, as they use them early in the season, the quantity not being sufficient to supply them for two months.

7. Their farming implements consist of a few hoes and spades.

8. They own no live stock.

9. There is no timber or wood sold under license by the Indians of my district.

10. The quantity of fish taken by the Indians is considerable, but as they invariably sell their fish fresh, every morning as it is taken, I have no means of arriving at a correct estimate of the quantity caught, or of the amount realized.

11. There are no fur-bearing animals now killed by the Indians, with the exception of a few muskrats.

12. The amount of money sent for distribution by the Department varies each year. During the year included in this report I received and distributed \$371.

13. There was no seed received for distribution. The money allotted for farming purposes was given to the chief and his captains, and they made the appropriation under my supervision. All monies designed for provisions or blankets I applied myself.

14, 15. I do not perceive any notable progress in civilization among the tribe, if I except a very perceptible improvement in sobriety, and a slight improvement in industry.

16. We have no schools, for the good reason that we have no school-houses. I would on this point humbly suggest to the Department that, if we cannot hope to receive a special Government grant to aid us in the erection of at least two school-houses, we be authorized to appropriate a part of the money allotted for farming for school purposes.

All of which I most respectfully submit.

R. MACDONALD, P. P.,
Indian Agent.

The Superintendent General of Indian Affairs,
Ottawa.

No. 20.

ANTIGONISHE, N. S., DISTRICT No. 5,
24th November, 1874.

SIR,—In reply to your circular * of 28th of August last, I beg to report as follows:—

1. Number of the band, 158; increase 2.
2. Personal property about \$2,000.
3. Habitations principally wigwams or camps. A few families dwell in log and frame houses, and others are preparing to build houses on their respective lots.
4. Area of Reserve, 700 acres. Land under cultivation, 200 acres; land under pasturage, 150 acres; land under wood, 350 acres.
5. No sub-agent.
6. Produce—potatoes and oats.
7. Potatoe hoes are the only agricultural implements used by this tribe. They hire men and teams to prepare the ground for seed.
8. They have no live stock.
9. There is no timber cut or sold under license.
- 12, 13. Amount received from the Department for distribution, \$357.12. In order to encourage the Indians to pursue with greater energy the tilling of the soil, the amount distributed in money, blankets and seed grain is in excess of the amount received from the Department.
14. As to the wealth and advancement of these Indians I cannot speak in very flattering terms. Wealth they do not possess, not even competence; nor is there any great advancement observable, except that many of them are more inclined to cultivate the soil, and to depend more upon the products of the same for a livelihood than formerly; and many of them are desirous of building and dwelling in frame-houses, and I doubt not they will eventually become much more attached to their new life and civilized pursuits when they are made sensible of the advantages of a civilized and industrious life, as compared with their original, wild and reckless mode of living. Hunting in this part of the country has become a thing of the past, as fur is very scarce, the forests yearly becoming thinned and cleared. Fishing and cooping are the only two branches of industry formerly pursued by them with success, which at present yields any remuneration for their labors.
15. As to the habits of these Indians, I have to state that while many of them, in fact the majority of them are sober and industrious, many are very dissipated and reckless. The former I have encouraged by a more liberal supply or portion of the grant, while I have refused almost invariably to aid those who led an intemperate and reckless life.
17. There are no schools established in this district.

I have the honor to be, Sir,

Your obedient servant,

JOHN J. MCKINNON, JUN.

Indian Agent.

The Honorable

The Minister of the Interior,
Ottawa.

No. 21.

No Report from Rev. J. McDougall, Agent, District No. 6.

No. 22.

PORT HOOD, N. S., DISTRICT NO. 7,
2nd October, 1874.

SIR,—I have the honor, as Indian Agent for District No. 7, N. S., to report on Indian Affairs within my district generally, but particularly since the date of my last report, which was made in January of the present year, up to the 30th June last.

The present number of the Band of Indians, who are Micmacs, within my district, are about 245. At the last census the number was 207; increase, 38.

The increase is through natural causes; and the fact that after ten squatters on the Reserves were ejected by me, as agent, in May last, many of the Micmacs who were for some years away returned to their territories.

The quantity of land in possession of the Indians in my agency is about 3,200 acres, and at the estimated value of \$4 per acre is worth \$12,800.

Some of the said Indians own cattle and horses, and live in houses, and own considerable other personal property; but the greater number live in wigwams, and are poor, but excellent laborers, and are able to make a living out of the price of their handicraft as coopers, &c., and their hunting and fishing, particularly the latter.

There is about one-sixth of the Reserves under cultivation, one-twelfth under pasture, and the rest under wood.

The Sheriffs of Inverness and Victoria act occasionally as my agents; and occasionally to enforce the law by executing my writs.

The Indians who live in houses raise large quantities of potatoes, corn, cabbage, turnips, some oats and buckwheat, &c., yearly. They use ploughs, carts, sleds, hoes, forks, rakes, axes, &c.

In the fall and spring of each year, I receive cheques for seed-grain and blanket money, respectively, from the Department; the sums varying from \$100 to \$150. The full amount of such cheques I distribute in cash, share and share alike, to each head of a family, except a few dollars I distributed at times among sick and very poor wandering Indians. The receiving of the money in hand by the heads of families, in order to make their own purchases, pleases them better than if I procured seed and blankets and distributed them among them; and I have yet failed to discover one instance in which any of them misused the quota given him or her.

The moral status of the Micmacs under my charge is on the whole good, although there are a few among them demoralized to a certain extent.

On the first Monday of July last, the first Indian school was opened at Whyecomah, in my district. From twenty to thirty Indian pupils are in constant attendance; and the school is taught by a man about forty-five years of age, of good character, a Cape Bretonian of Scotch descent. This is the only Indian school within my Agency as yet. The Department pays the teacher's salary, and the school is under no supervision as yet but that of the teacher and myself, and the general public, to whom it is open for visitation. The pupils are, as a matter of course, only in the elementary branches.

After three years struggle with the squatters on the said Reserves, I succeeded in removing them all in May last, as above mentioned, with but little violence from them (or some of them), although much threatened for that period; and with none whatever to them from me, or the officers acting under me.

I have the honor to be, Sir,

Your obedient servant,

J. B. McDONALD,
Indian Agent.

The Honorable
The Minister of the Interior.

No. 23.

GRAND NARROWS, CAPE BRETON, N. S., DISTRICT NO. 8,
13th November, 1874.

SIR,—Having been appointed Indian Agent for the County of Cape Breton on the 28th August last, and having been ignorant of said appointment until the 16th September following, my report on Indian affairs, coming under my supervision in the County of Cape Breton, must, of necessity, be a short one.

Number of Indians, 234.

Cannot report increase or decrease.

All Indians coming under my supervision are, as a general rule, very industrious, sober, quiet and religious people.

They have a tract of land (mostly uncultivated) located in the County of Cape Breton, the length of which is three English miles. From this tract, however, they produce their potatoes and oats.

Few have houses or barns, while the most of them have only camps to protect them from the snowy darts of winter.

I am very sorry to report the non-existence of schools among the Indians coming under my supervision.

The amount of money sent by the Department for the fall supply was \$100; \$67 of which has been distributed to date.

All of which is respectfully submitted.

I have the honor to be, Sir,

Your obedient servant,

ALEX. F. MCGILLIVRAY,

Indian Agent.

E. A. Meredith, Esq.,
Deputy of the Minister
of the Interior,
Ottawa.

No. 24.

CHATHAM HEAD, N. B.,
2nd November, 1874.

SIR,—In response to circular * of 28th August last, I beg to send the following report:—

The population of my district is 903; increase, 2.

An estimate cannot be formed of their personal property; it is of little value at any rate. They have no real estate, the Government holding all the reserves for the benefit and uses of the Tribe.

They live in habitations principally built of deals got from the neighboring mills; and in the summer season live in shanties built of slabs, &c., convenient to the place where they may be employed for the time. I can form no idea of the number of habitations, as they keep moving from place to place.

To ascertain the area of the Reserves it would be necessary to employ a surveyor, as there have been numbers of white people who have settled on the lands since the reserves were laid off.

The greater part of the Reserves are wilderness lands, they having but small patches under cultivation on the banks of the rivers, raising small quantities of potatoes and oats, which in most cases they dispose of as they are gathered. It would be impossible to form an estimate of the quantity.

I have no sub-agent, but engage some reliable person in each county to give their aid in case of sickness, poverty, or death.

They have no live stock, but in one or two instances where they have procured a horse of little value, and perhaps a cow or steer

* See page 12.

There is no timber or wood sold under license by any of the Tribe.

They take few fish but what they catch to use themselves, and occasionally hawk small quantities of trout or smelt about town.

Amount of cash received in October, 1873, was \$765, which was distributed at various times through the different counties.

Amount received in April last for seed purposes was \$459, which was distributed in proportion to the members belonging to each Band.

I cannot say that there is any improvement in wealth; they are all civilized and quiet people, but sometimes suffer from the use of spirituous liquors which unprincipled dealers give them; and it is impossible to get information from the Indians to convict.

All the Bands are under the supervision of the Roman Catholic Church.

They have opportunities of becoming better off, having employment in plenty if willing to work; but they have no thought but the present, hence their present state.

I am, Sir,
Your most obedient servant,
CHARLES SARGEANT,
Visiting Superintendent.

No. 25.

FREDERICTON, N. B., February 3rd., 1875.

SIR,—I have the honor to inform you that in accordance with your circular* of 28th August last, I enclose herewith a report upon Indian affairs connected with my Superintendency, for the year ended the 30th June last; and my reasons for furnishing the Department with so short a report are stated in my letter of 29th October last.

In Indians in the several Bands, stated in the census return which I furnished the Department with, to the 30th June, 1874, number 509. Increase since last census twenty-four.

The causes of increase are natural, and although there has been some mortality, the Indian population has most certainly increased.

Area of the different Reserves—

Below Little Falls, Madawaska County.....	722 acres.
Tobique and St. John's, Victoria County.....	17,673 "
Woodstock, Carleton County.....	260 "
Kingshead, York County.....	460 "
St. Mary's, opposite Fredericton, York County. (Not in reserve list).....	about 2 "
St. Croix, Charlotte County.....	100 "
Brother Islands, Kennebecasis, St. John County	15 "

Total area in acres.....19,172

Respecting the largest Reserve within my superintendency, situate on the Tobique and St. John rivers, Victoria County, several lots have been sold long since by the Government of New Brunswick previous to Confederation and partly paid for, and one lot more was sold and partly paid for since that period by the same.

I have also sold, within a year, several lots which were paid for in full to me, and have received instalments upon a few more; likewise a number of other lots are occupied by white settlers. Notwithstanding the above sales, &c., there still remains a large quantity of excellent land, particularly on the upper side of the Tobique River, amply sufficient for all the Indians who reside on that Reserve, and many more.

The gentlemen who very kindly act for me during my absence in the different localities are as follows:

* See page 12
19

John J. Hodgson Esq., merchant, Little Falls, Madawaska County; Benjamin Beveridge, Jun., Esq., merchant, Andover, Victoria County; Edward J. Smith, Esq., merchant, Woodstock, Carleton County; Rev. Joseph Michaud, City of St. John, St. John County; William J. Rose, Esq., J.P., St. Stephens, Charlotte County; Rev. Edmund Doyle, St. George, Charlotte County.

The Indians not yet having given their concurrence to the Indian Department to permit any person lumbering on the Reserves, I have no return to make beyond the return for trespass during the past year upon the Tobique Reserve, which has already been forwarded to your Department.

I have received from the Indian Department, including a small amount which was forwarded for special relief in July last, the sum of twelve hundred and seventy-six dollars (\$1,276.) The expenditure of part of which necessarily extended beyond the 30th June, 1874, as will more fully appear upon reference to the accounts which will shortly be forwarded showing the expenditure of the full amount up to that period.

The Indians within my Superintendency, as a body, cultivate the soil to a very limited extent. Agriculture is carried on in a small way on the reserves at Little Falls, Tobique, Woodstock and Kingshead, and probably to a smaller extent in some if not all of the other localities, and the *seed money* is generally distributed among all the Indians irrespective of the purpose intended, this course meeting with the approbation of the Indian Chiefs and Indian people at large.

I cannot perceive much advance in wealth, as the Indians as a body are poor, many of them very much so. Their chief mode of living consists in hunting, fishing, farming and attending to the work of their trade or calling, and laboring at or near the Reserves in various ways.

Hunting is not carried on as largely as formerly in consequence of the great distance of travel to the hunting grounds, and the occupation of the same (in common with the Indians) by the Whites and others.

Fishing is also carried on to a very limited extent, particularly the catching of salmon, in consequence of the fishing laws prohibiting them from spearing, regarding which the Indians complain much, as formerly it was a source of profit and a valuable means of subsistence, but now, in consequence of the law disallowing spearing, and not having been accustomed to netting, having inherited the mode of spearing and always being accustomed to it, and prejudiced against any other form of fishing, and also being unable to procure nets, they feel and know that they are deprived of an important source of living; and I would suggest, if possible, that a change be made in some way more advantageous to the Indians.

The Indians in and around St. George, in the County of Charlotte, hunt porpoise, but to what extent I am not prepared to furnish you with particulars in this report.

As to civilization, the more they mix up with the whites by marriages and otherwise, that must increase, and they are, as a natural consequence, gradually progressing and becoming more civilized.

I am not prepared to state whether they are improving in their morals or not. A great deal of allowance ought to be made for their want of education, but I think they will compare favorably with their more civilized brethren, taking everything into consideration. The too free use of ardent spirits among many of them has its immoral tendency. They belong almost universally to the Roman Catholic Church, and the ministers of that body, in some districts, visit them occasionally, thereby affording them spiritual instruction and consolation. In localities near a church of that religion they are often seen frequenting the church, and seem to pay due regard to their devotions and proper respect for the house of God.

The children belonging to the various Bands (as stated in the census returns) number 160.

There are no schools as yet established among them in any of the Reserves or places of abode. I have been urging some of the Bands, whose schools might, from their number, &c., be established, to do so; but to the present time nothing practical has been done, except in the case of two Indian children having been educated in a

public White school at Little Falls, Malawaska County, by an excellent young man, named Augure Bernier; but hope that the day is not far distant when one or more schools will be placed within the reach of some of the Bands, and filled or nearly so with Indian children.

I have the honor to be, Sir,
Your obedient servant,
WILLIAM FISHER,

The Honorable
the Minister of the Interior,
Ottawa.

No. 26.

CHARLOTTE TOWN, P. E. I.
5th January, 1875.

SIR,—I beg leave to forward herewith, my report in reply to your circular* despatch of the 23th August, 1874, and your subsequent despatch of the 21st October, No. 3778, and trust it will be deemed, under the circumstances, satisfactory, having bestowed all due care in its preparation.

I have the honor to be, Sir,
Your obedient servant,
T. STEWART,
Visiting Superintendent of Indians.

The Honorable
the Minister of the Interior,
Ottawa.

1. Present number of the Band, as nearly as can be ascertained, 302; numbers by the census of 1861, 305; numbers by the census of 1871, 323. In the absence of any register of births and deaths, the question of increase or decrease must necessarily remain open.

2. No real property other than what is held in trust by the "Aborigines Protection Society of London, Great Britain," to wit., Lennox Island, and the tract on Township No. 39, held in trust for eight families, particularly named. Personal property owned by the Band, not embracing live stock, consists of six small fishing boats, fifteen to seventeen feet keel; nineteen canoes; and six other craft (Doreys) for oyster fishing, twelve to fifteen feet in length; valuation by Indians, \$646.

3. There are ten frame buildings including a priest's house attached to the chapel, varying in size from 22x18 feet, and 12 feet posts, to 15x13 feet, 10 feet posts; and one solitary log-house, in so dilapidated a condition from age as to be abandoned by its inmates (an aged couple) on the approach of winter. Old fashioned camps, and structures of an improved character, form the rest of the habitation, numbering about fifty-six, embracing the different Indian localities throughout Prince Edward Island.

4. Lennox Island Reserve, by actual survey, is estimated to contain 1,320 acres, including detached pieces of *barrens*, bog and peat, which may be estimated 333 acres, leaving 987 acres available for cultivation. In addition to this Reserve there is also, or should be, a tract of 204 acres of land on lot or Township No. 39, conveyed by the Local Government of Prince Edward Island in 1859, to the then Indian Commissioners and their successors in office. This tract was to be an exchange for an equal quantity of good land on the adjoining Township, which had been bestowed upon eight Indian families, particularly named, and their descendants, by the former proprietor, the late Hon. Charles Worrell, of which land these Indians had been despoiled by the arts of designing White persons, who subsequently atoned to the Government, and paid the Government price for the land. On the occasion of the survey of this

* See Page 12.

tract in April last for the first time, it was discovered that one half of it was totally unfit for any practical purpose. The Local Government, it is expected, will substitute good land for the bad.

There are under cultivation about sixty acres.

No land strictly under pasture, except what is included in the above sixty acres, or what has been had on the marshes, which, when properly fenced, will be no longer accessible to the cattle. About 927 acres under wood.

5. Peter Francis, sen., and Jos. Francis, Indians, were in 1872 nominated by the Local Committee for the management of Lennox Island, as overseers or wood rangers, to restrain White persons from trafficking with the settlers in the purchase and removal of fire-wood from the island; and Mr. William Ellis has been engaged as an extra overseer mainly to aid the Commissioner in his efforts to render the marshes as profitable as possible to the settlers.

6. On Lennox Island there was raised as follows: 40 bushels wheat; 30 bushels oats; 400 bushels potatoes; 3 bushels turnips; 1½ bushels Indian corn; 1 bushel peas; 1 bushel carrots; half-bushel cucumbers. On the Reserve or Township No. 39, about 150 bushels potatoes.

7. Agricultural implements in use have been confined, up to the present, to ploughs, harrows, and a cart.

8. The live stock on Lennox Island consists of a horse, two cows, a young bull and one hog, belonging to one of the settlers, Martin Francis; and of two cows and two calves belonging to another settler, Peter Francis; also of two yoke of oxen and two cows, with their calves, held in trust as Government property.

9. No timber or wood allowed to be cut on Lennox Island beyond what may be necessary for the use of the settlers, as firewood or fencing; or for clearing the land with the view of cultivation, by the direction of the Local Committee.

10. The only fish taken by the Lennox Island settlers has been about from ten to twelve barrels of herrings, between two of the settlers in the spring, and a limited quantity of cod fish taken by a few of the other settlers.

11. Number and description of fur-bearing animals killed is limited to a few foxes, muskrats, minks, and an occasional marten.

12. \$300 were expended in December, 1873, in the purchase of blankets; and \$133.59 for sundries, as detailed in despatch of 1st June.

13. No seed grain distributed hitherto, but money advanced for the purchase of grain to such of the settlers, according as their land was prepared for the purpose, and then from \$2 to \$4 each.

14. Little or no progress in wealth and civilization could reasonably be looked for among a people isolated and depending solely on their own native industry for subsistence for themselves and their families, living in fact from hand to mouth. Now that their position has been altered, and that they are to share or participate in the glory of Canadian policy, the treatment of the Indians, the most ardent aspirations, if not anticipations, may be indulged with reference to the future progress of these people.

15. Their moral status may be considered as fair.

16. Number of children in Band, ninety-nine.

17. Number of children attending school, forty.

18. Undenominational, or a Government school.

19. Branches taught: reading, writing, arithmetic, grammar, geography, and dictation.

T. STEWART,
Visiting Superintendent of Indians.

No. 27.

(Translation—No. 3084.)

INDIAN COMMISSIONER'S OFFICE.

WINNIPEG, 31st December, 1873.

SIR,—I have the honor to enclose you the following report on the administration of Indian affairs in the Province of Manitoba and the North-West Territories, during the year ending to-day.

On my arrival here, in the beginning of June last, the different Chiefs of Bands in the vicinity of Fort Garry hastened to visit me to express their satisfaction at the arrival of a Resident Commissioner, and moreover to represent their wants and grievances.

As has been frequently advised by all who are engaged with Indian affairs in this part of the Dominion, there is no doubt that serious misunderstandings exist in the locality of the treaties concluded in 1871.

The sum of money to be paid by the Government was clearly fixed; and those who received it, though maintaining that it was too little, yet understood till last autumn that it could not be augmented. But in spite of this the representative of the Canadian Government, at that period, made them many promises, still undetermined as to details, and of which those interested now claim the fulfilment, with a persistence the greater as their expectation has lasted two years.

They do not perfectly agree as to the nature of these promises, and some Chiefs have announced the most exaggerated pretensions on this subject. They think that the Government has undertaken to furnish them first-class residences; clothes of a superior quality, and provisions of their own choice for them and their families; but putting aside what is impossible and absurd in these different rumors, it is undoubted that by an interpretation put by the Indians on the words of the Commissioners, that they who were present at the treaties Nos. 1 and 2, were led to expect many more benefits than were expressed in those two treaties; and in the meantime they almost accuse the representatives of Canada of obtaining their consent under false pretences.

We can easily understand how such charges, however ill-founded, may raise difficulties in the future.

All these Indians are in communication with each other, and the dissatisfaction of any, whether with or without reason, cannot fail to exercise an influence on the minds of others.

Up to the present time, it is true, we have not had occasion to realize these doubts, but it is none the less important in the interest of the tranquility of the future, to prevent all pretexts at defiance on the part of the Tribes with whom the Government may find it advisable to conclude new treaties.

In consequence of this dissatisfaction, and these difficulties, the payments were made, only after much discussion, which in some cases continued for many days, and solely on the formal promise that all the obligations actually agreed upon would be fulfilled.

At the time of the annual payment, the Indians raised some other questions, to which I wish to draw your attention, and of which the settlement cannot be delayed without serious inconvenience.

The legal position of the Indians in the North-West Territories has not yet been defined, and the consequence is that many half-breeds will be now on the pay-lists, unless I am authorized to have their names expunged.

Although the Act organizing the Department of the Secretary of State, and which defines the status of the Indians, does not apply to this part of Canada, I venture to believe, that in acting according to its spirit, without any special legislation, or any formal instructions, I should follow it in this matter.

According to Vic. 31: Cap. 42; Cls. 15., it is enacted what persons may be considered Indians, and consequently admitted to take their position accorded by the Government among the different Tribes.

1st. All full-blooded Indians reputed as belonging to the nation, tribe, or particular people of Indians interested in these lands, or immovable properties, and their descendants.

2nd. All persons residing among those Indians, of whom their parents, from either side, were descended from Indians, or reputed Indians belonging to the nation, tribe, or particular people of Indians interested in real estate, or their descendants.

3rd. All women legally married to persons comprised in the above classes, the issue of such marriages and their descendants.

According to this interpretation of the law, many hundreds of half-breeds were put on the list of Indians since the payment of 1871, and their number has increased each year.

These half-breeds live with the Indians; have the very same habits, and actually form part of the Tribe, in accordance with the Act above mentioned. Their position would be quite regular if they had not afterwards shared in the lands specially set apart for half-breeds; and if they did not exact a constant increase of payments in a proportion which it is impossible to determine beforehand.

The delay in the distribution of the lands conceded to the half-breeds has raised amongst them a great party, who heretofore believed it better to content themselves with what they had but which was actual and certain.

In the meantime, whilst this land question is in view of prompt settlement, it is possible that this difficulty will disappear, by the fact of some of those interested hastening to claim in their quality of half-breeds, rights conferred on them superior to the Indians. All the half-breeds who desire to participate in the concession of 1,400,000 acres will be immediately erased from the list of Indians, and every precaution will be taken that the new lists be made to protect the interests of the Government in this matter.

At first sight it appears singular that persons who represent themselves as Indians and who participate in the advantages accorded to that condition, should afterwards claim from their origin as half-breeds, and again reap advantages conferred on this class. This double participation in the land and in public grants can only be an abuse of the law; but I doubt if under present legislation it can be prevented.

The Act establishing and constituting the Government of Manitoba, and which grants an extent of 1,400,000 acres to the children of half-breeds, is a measure for their protection, and they cannot be deprived of the benefit of this law by any negligence or mistakes of their parents, as the chief object of that law was to protect them against such errors or negligence.

Many Indians who really belong to the Bands, who were parties to Treaties Nos. 1 and 2, were absent at the time that various payments were made before this year; and they now come forward to claim the arrears to which they have a right, namely, twelve dollars per head. After acquiring all the information in my power, I found I could not refuse, generally, to pay these arrears, and consequently the estimates have been considerably exceeded, as they were based on the number of persons paid last year at three dollars per head.

I am persuaded that the Indians were promised, in 1871, that these arrearages would be faithfully maintained, and that they could draw them at any time according to their convenience.

The inconvenience arising from such a practice is too evident to make it necessary to insist on its being remedied. If an Indian can come in ten or fifteen years and claim arrears we can never know beforehand the amount to be paid, and the Government may be drawn into an expense much more considerable than they had calculated on.

We have had the experience of the three last years to make us perceive how far these expenses may lead. The first year, the payments made to Indians, comprised in the Treaties Nos. 1 and 2, amounted to \$8,913; the second year it was \$16,905; this year, \$14,169; estimate for 1874, \$18,780. The estimates made for 1872 were exceeded by \$8,403, and those of 1873 by \$3,297.

The best means to prevent the two difficulties above mentioned, relating to the

half-breeds and the arrears, will be to pay by Bands instead of to individuals. In making a treaty with a Tribe we may retain a total sum to be divided each year amongst the different members of the Tribe according to a census which might be made one year previously.

If the Chiefs desire to introduce new families into their Bands they have perfect liberty to do so, but at the same time they must understand that the amount payable to each person will be diminished in proportion to these additions. Their true interests would lead them to prevent all augmentations not mentioned; at the same time that the intervention of the Government would prevent any unjust exclusion. In this case the arrears owing to the absent might, without inconvenience, remain in the hands of the Agent or Commissioner till they are claimed by those interested, or be paid to their parents or attorneys.

This annual census should be taken by the Commissioner, or his representative, and the chiefs of the tribe. By these means all disputes will be avoided, and we would not have to give merely approximate estimates, as is the case under the present system.

The principle of payments to Bands instead of individuals should be applied to Reserves. If we give a fixed space to each head of a family, separately, as the population tends to increase considerably, so long as the Chiefs are not themselves interested in preventing an undue intrusion we shall never be able to determine the extent to be given for each Reserve.

Moreover, if we grant a considerable extent, a square mile for instance to each family, as is mentioned in Treaty No. 3, as each family will be able to demand a lot of equal value, it will follow that these claims will comprise all the most desirable properties, and will render impossible whatever intentions the Government may have in paying the Indians for the relinquishment of their rights.

On the other hand, in making a cession *en bloc*, we preserve the property intact, which thus belongs to the whole Band. A portion will afterwards be divided into lots, according to circumstances, and such families as may desire it shall be put in possession of one of these lots. The rest of the Reserve shall remain undivided to satisfy new demands, or be converted into a common for pasturage, firewood, building, wood and hay. The clearances shall be made according to regulations drawn up conjointly by the Commissioner or Agent and the Chiefs of the Tribe.

The last treaty concluded at the Lake of the Woods, on the 3rd October last, raised new discussions in the direction of preceding conventions. Already the Indians who were parties to the two first treaties, begin to find that the conditions then made will not suffice for their requirements, and are not equivalent to the rights and privileges which they relinquished in favor of the Government. They consider the territory which they occupy as very superior to the region of the Lake of the Woods, and moreover the Indians who inhabit that part of the country have received for the same cession more extended Reserves and a much larger sum than the first payment to this people.

There was necessarily much difficulty in making the Indians of this Province accept their annuities, and getting them to consent to further delays in the settlement of the difficulties resulting from the interpretation of the first treaties.

As I told them before, as above, it was necessary, as soon as possible, to arrive at a thorough understanding on all points under discussion; and under these circumstances it would be more advantageous, in a double sense, namely in the interest of the Indians and the Government, as well as for the proper administration of the affairs of the Department, and to make new treaties on a more definite basis, after giving them sufficient enlightenment to avoid all causes of misunderstanding and dissatisfaction in the future.

The experience of the last three years may largely and advantageously be turned to account in these new conventions, and it will be easy to arrive at an arrangement naturally advantageous to all parties interested.

If a new Treaty be made next summer with the Tribes who inhabit this Province, it will be possible, with regard to some Bands, to adopt the principle of temporary

annuities. The Bands of St. Peter, Fort Alexander, Pembina and Fairford are already sufficiently civilized to warrant us in believing that in fifteen or twenty years, if not sooner, they will be able to do without assistance from Government. The other bands are too nomadic to permit us to modify the system already adopted in regard to them. It will be necessary still to maintain the system of perpetual annuities with the Indians of the Portage and those of the West, leaving it to be modified afterwards if the opportunity should offer.

Mr. St. John suggests, in the annexed report, that the Government should at once determine what they propose to give to the Indians, and that they make known their decision to them without going through the usual formalities of a contract liberally agreed to between two parties equally interested. This course will be much the most expeditious, and will considerably simplify the administration of affairs of this Department. It will curtail all those long discussions which seldom terminate in a perfect understanding.

The only objection to this system which presents itself is that it is opposed to the procedure adopted by every Government which has found itself in the same position, and has to dispose of allowances of this nature.

The Indians of this Continent have always been considered, if not as proprietors, at least as occupants of the soil. It was always understood that they had rights as owners, and that the Crown would first have to extinguish those rights to afterwards assume full possession of the land. From this point of view there is a double right and a double interest which cannot be settled without the free consent of those interested.

It is as an act of indemnity for these rights, resulting from possession, that the Government pays the annuities to the Indians, and in return these latter limit their rights exclusively to the concessions preserved to them.

Their right in the Reserve is precisely of the same nature as that which they had before the treaty over the whole territory, a right of undivided possession without the power of selling or ceding it in any manner whatever. It requires special legislation to clothe them with the rights of full property, being that which usually accompanies the act of emancipation.

There are two modes wherein the Government may treat the Indian nations who inhabit this territory. Treaties may be made with them simply with a view to the extinction of their rights, by agreeing to pay them a sum, and afterwards abandon them to themselves. On the other side, they may be instructed, civilized and led to a mode of life more in conformity with the new position of this country, and accordingly make them good, industrious and useful citizens.

Under the first system the Indians will remain in their condition of ignorance and inferiority, and as soon as the facilities for hunting and fishing disappear, they will become mendicants, or be obliged to seek refuge in localities inaccessible to immigration or cultivation.

Under the second system, on the contrary, they will learn sufficient for themselves, and to enable them to pass from a state of tutelage, and to do without assistance from the Government.

The best means to break them of their roving habits, to elevate and assure their position, is to attach them to agriculture.

But we shall not succeed in this except by carefulness, supervision and continued encouragements. It will be necessary at the same time, to provide them animals, implements and tools, and such seed grain as they may require; but above all to be sure that these articles will be used for the purpose intended.

It is impossible to decide beforehand on the nature and quality of the articles to be given them, as well as to determine what persons should receive them.

Each application should be examined separately, to avoid all error and useless expense.

In establishing permanent regulations, we shall have to run the risk of acting in the wrong direction, and of dispensing articles of no utility, leaving those who may receive them as destitute as before.

But this constant observation and supervision can only be had through the medium of a Local Agent living among, or in the vicinity of the Indians, to whom their interests should be entrusted, who could always be in communication with them, understanding in all their details the position and capacity of each member of the Tribe, and able to settle each particular claim with a full knowledge of the facts.

At frequent renewals of payments, it was a question whether to pay the Indians their annuities in goods, instead of giving them the money, and there is no doubt that this practice would be much more profitable. The Indians do not know the value of money, and do not know how to use it.

Generally they use it for objects the most futile, if not really reprehensible. Goods on the contrary would not fail to be used to good advantage by them and their families. But we cannot determine beforehand the details of the articles to be given to each person or each family. This would bring to the new system the greater part of its advantages. And if each head of a family be permitted to make choice of such articles as will best suit him, up to the sum to which he has a right, it will result in an increase of work, and an occupying of their time which the Commissioner and his office assistants could not endure.

The Indians generally have confidence in the new plan. They understand that a change is absolutely necessary for them, to alter their mode of existence. The chase and the arrow no longer bring them the advantages of former times. Emigration is coming in crowds, land is becoming more and more scarce, and if they do not hasten to seize the conditions offered to them, they run the risk of seeing their children obliged to leave the country or dying of hunger.

But they do not sufficiently comprehend the conditions of the new existence which is imposed on them. They have not sufficient means, nor notions of the practice of industry and economy, to operate with success the necessary transition if we abandon them to their own resources, whilst with a little support and aid on the part of the Government we may hope for the most satisfactory results.

They are very susceptible of instruction, if they would devote to it the necessary time and care.

Hitherto some Bands have made astonishing progress, particularly if we consider the means at their command. One-half at least of the Bands of St. Peter, Pembina, Fort Alexander and Fairford are in the meantime addicted to agriculture. When we consider how difficult and crude were these beginnings, what obstacles they must have had to surmount, we have good reason to believe that any available aid and encouragement will be amply recompensed.

The tools and implements of husbandry distributed during the summer were well employed, and we have not had to chronicle a solitary case of sale, or giving away on the part of any person to whom these articles were confided.

We have experienced a good deal of inconvenience from the Reserves not having been yet surveyed, and consequently we could not oblige the Indians to betake themselves to the parts assigned to them, because they do not know their extent nor their exact position. The Fort Garry Band has remained nearly all summer in the immediate vicinity of that city, to the great detriment of the inhabitants, who were often witnesses to scenes of disorder, as much to be regretted as it was (in like manner) impossible to prevent them. At the same time this Bureau found itself obliged to supply a large quantity of provisions, which was not desirable, but without which the depredations would have been still more considerable.

The band of the Portage should have been once more paid at the *Portage* itself, from which they did not depart till the approach of Autumn in spite of the complaints of the inhabitants, who, narrowly missed, more than once, taking the law into their own hands, to put an end to the forced exactions to which they were subjected, and which the authorities were powerless to prevent.

All the Reserves have in the meantime been surveyed, and we have reason to believe that the difficulties which I have just mentioned will not again arise, or, at least, will be much diminished.

Many inhabitants of the St. Peter and Pembina Reserves have made repeated

representations to us on the subject of cutting wood on lands which they think form part of the Reserves. From the most exact information, we showed them that these complaints were without foundation, and that this wood was cut on private property, or what had at least always been considered as such.

Many Indians had acquired properties within the actual limits of the Reserves, before the treaties. They had cleared and improved them and always thought they had the power to dispose of them, in virtue of a right of absolute property. Many of these lands were sold to whites, or to half-breeds, and it is this matter which now makes conflicting claims, which should be settled as soon as possible by a treaty or by special legislation, or by an Order in Council.

All property held by Indians within the limits of the Reserve may remain in the hands of the possessor, who would have full power, with right to dispose of it in favor of another member of the same Band, but not in favor of persons who were strangers to the Tribe.

In regard to those who, at the same time, possess properties outside of the Reserves, they should have permission to dispose of them in favor of Whites, but only for the purpose of giving to reside on the Reserve assigned to the Band of which they are members.

All transfers of property should only be made with the consent of the Government, or of an officer duly authorized by the Government for that purpose. This measure is absolutely necessary to prevent fraud, and to ensure the payment of a fair consideration.

According to instructions received from your Department, a Reserve was also surveyed at the west of Lake Manitoba, for the Sioux Band who now reside in the vicinity of the Portage. In consequence of some misunderstanding of which it is impossible to find a satisfactory explanation, these Indians refused or neglected to repair to the Reserve last autumn, despite all our efforts to remove them from positions where their presence was most annoying.

Nevertheless they have lately repeatedly promised to accept the concessions which the Government accorded them, and to go and occupy them as soon as the season would permit.

All these Reserves appear to have been selected with much care, and all the reports demonstrate that they possess all the requisite advantages in a triple respect, of agriculture, the chase and fishing.

The Indians with which this office has to do, have generally manifested a desire to have schools established among them.

They understand the importance of giving to their children that instruction which will bring them nearer to the condition of the people about them. Schools have been already established at St. Peter, Fort Alexander, Pembina, and Fairford. Some of these establishments were temporarily discontinued, but the first step has been taken, and this suspension will not be of long duration.

At the commencement we must not expect that the attendance and punctuality of the children will be perfect. The yet nomadic life of the parents, the necessity of their departing four or five months in the year, from the Reserve, to hunt and fish; the distance they have to go to reach the school-house; the need of the necessary clothes to protect them from the extreme rigor of winter, are some of the reasons which retard the progress of instruction; but, according as the families attach themselves to agriculture, as the population becomes more dense, these obstacles in thus diminishing, will soon disappear altogether.

Indian affairs in this part of Canada, are in the meantime partly under the direction of the Council of Administration of the North West Territories; of the Bureau of Indian Affairs; of the Bureau of Lands; and of the Indian Commissioner. Each of these authorities acts independently of the others; not obliged to inform them of their acts, much less to submit them to their control. This diversity of action has had the effect of creating delays and embarrassments which a more regular administration would have prevented.

Whatever system may be adopted by the Government in this matter, it is

desirable that the responsibility should be better apportioned; but above all that they should be better defined; and in the meantime unity of action should be more assured, in the different Bureaus charged by the Government in this important branch of the administration.

I cannot close this communication without expressing to you the great satisfaction I have experienced in my relations with Mr. St. John, Assistant Commissioner and Agent for the Province of Manitoba. His experience, and his knowledge of Indian affairs, and the zeal with which he performs all the duties assigned to him, render his service very precious, both to the Government and myself.

I have, &c.,

J. A. N. PROVENCHER,
Indian Commissioner.

The Honorable
The Minister of the Interior,
Ottawa.

No. 28.

(No. 3,084—I. B.)

INDIAN OFFICE, WINNIPEG,
22nd October, 1873.

SIR,—I have the honor to submit the following report of my summer visits to the Indians for the purpose of paying them their annuities, &c.

My first visit was made to the Indians whose reservation is on the Western borders of the Province, known as the Portage Band. These people were content to accept their annuity for this year, but they told me that they would not do so again, unless some re-arrangement of the treaty was made. I was not in a position to make them any promises, but informed them that, if possible, the commissioner or other officer having more ample authority than I at present possessed, would meet them next summer.

These Indians are somewhat unlike the other Bands, being almost exclusively plain hunters, and although peaceful in their way of living, are more independent of the White man than are others in the Province, and are more apt to cause annoyance by petty depredations about the settlement. It is most desirable that their reservation should be defined, and in a manner laid off, and that some efforts should be made to induce them to settle. Last year I told them that I would not again pay them at the Portage, but as the time of payment came round I found that the Reserve was not laid off, and the Indians did not know where to assemble, so they came into the Portage as usual, and the complaints of the settlers arose immediately afterwards. The Indians of this Band are divided amongst themselves on the subject of a Chief. A large party of them have settled near White Mud River, and allege that they were not represented at the time of the Treaty; that they have their own Chief, their own habitations and lands on the borders of the lake, and they persistently refuse to have anything in common with Orzahwaguan's Band. Their names are on the same pay-sheets, but that, they say, is our doing, not their own. Another party in the Band desire to secede, taking for their Chief the grandson of him who was in times past the Chief of the whole Band. I have not as yet thought it wise to give them any encouragement, in the belief that their wish will be gratified.

In the case of the White Mud River Indians, I have told them that men occupying houses would not be ejected, and that the Government would be informed of their position with a view to protecting them in the occupancy of such land as they really possess.

I have to inform you that the Portage Band have not accepted the dresses, medals, &c., originally sent up for them.

The medals were at once repudiated on being shown to them, and there seems to be a difficulty about the Chief and headmen receiving dresses without some such present being made to the other Indians of the Bands.

On returning from the Portage I visited the Indians in the Parish of St. Peters. Due notice of my coming had been given, but on my arrival at the place appointed I found only a limited number of Indians present.

The Chief, Henry Prince, who acted as spokesman, detained me some time while he enumerated his grievances, which consisted of the non-performances by the Government of certain promises which he alleged had been made by Lieutenant Governor Archibald and Mr. Commissioner Simpson. I offered such explanations as were necessary, but he declined to receive his annuity unless I would give him a written undertaking to deliver certain articles which he claimed had been promised. Finding that he was resolute in his determination, I offered to pay any other Indian who might choose to come forward, but that timidity which Indians appear to feel in the presence of one another, prevented any one accepting my invitation. Eventually I was compelled to return without paying the Band; but I learnt on my way from the place of rendezvous that many Indians wished to receive their pay, but were afraid to take any steps in the matter. I had no sooner returned to Winnipeg, than numbers of these Indians arrived asking for their pay. I believe that the principal difficulties which we have experienced, have arisen with this Band, or have grown out of the instigation of Henry Prince; and this is the more annoying when we know that the Indians of this band are greatly divided amongst themselves, on the ground of any allegiance to Henry Prince. The Band is composed of Christian Indians and Pagans, and again divided between Swampy Crees and Saulteaux.

The Christian Indians do not appear to desire Henry Prince as their Chief; and, as you are aware, there have been several deputations of Pagan Indians asking that Imgekahpow, whom they state is the proper descendant of Pugwis, should be made their Chief. This Band is so large and disunited, that it would be well to recommend some sub-division at the time of the next payment.

My third visit was to Pembina, where I paid the three Bands whose reservations are on the Roseau River.

These Indians made several requests as to annual clothing for their chiefs, occasional clothing for themselves, and provision for their families. They wished also to have the implements and tools promised to them, which they said they are ready to use, and they murmured at the non-fulfilment of the promise that their annual payment should be made in goods. These Bands have made some little progress towards cultivating the ground, and I believe, that with some re-arrangement of the terms of the Treaty, of which I will presently speak, the greater part of the Indians of Manitoba would be converted into actual settlers like those of the Missions in the Western part of Canada.

After completing the payment of the Roseau Bands, I proceeded to meet the Indians of Treaty No. 2, at Manitoba House. Owing to some misunderstanding as to the date at which they were to assemble, they had been waiting for some time. During this time, however, one or two of the settlers and traders had advanced them provisions for their subsistence.

You will observe in the pay-sheets that there is one Band more than at the former payments. This arises from a mistake in formerly classifying the Waterhen River Indians with the Crane River Indians. They are separate and distinct Bands, and it appears that last year Mr. Commissioner Simpson separated the two, giving Waterhen River Indians their own Chief. At the same time he gave the Crane River Indians permission to change the place of their reservation to the border of the Ebb and Flow Lake, near Manitoba House. Here they have consequently gone, but I told them that such a change was intended to be made only with the sanction of the Government, and that until the matter had been represented, and the necessary permission given, they must consider the question in abeyance. As the change will not affect any one, and as a number of the Indians have already established themselves at this place, it is to be hoped that the Department will give the necessary authority. When the annuity had been paid, I distributed a number of spades, hoes, scythes, &c., which the Department had authorized me to purchase, and I bought such animals as I knew had been promised by Mr. Simpson. In some instances I refused to give

the animals asked for at present, on the ground that the conditions under which they were to be given were not yet fulfilled. The Indians, through one of the Chiefs, expressed their gratitude and great pleasure at receiving the implements.

They had commenced cultivating the land, they told me, but had been compelled to use bent sticks for hoes, and had been unable to use the ploughs I had given them in the spring, because there were no fittings to them, and these they could not by any means supply. They said that they had built or were preparing to build byres for the cattle, given or to be given to them, and reminded me that Mr. Simpson had promised that when they showed a positive intention to commence building houses, sheds, &c., some tools should be sent out to them.

I have since, acting under your instructions, made a second journey to Lake Manitoba, and have left for earliest possible shipment across the lake, the tools which I selected, the account for which has already been delivered.

Some of the Bands of treaty No. 2 desire to receive their next payment in goods.

I regret to inform you that drunkenness among the Indians during the times of payment is rapidly increasing. During the first year we saw but little of it, last year it was bad, and this year it was worse. The Indians when sober admit the curse which liquor is to them, frankly confessing at the same time that they will, nevertheless buy it, if we do not protect them by keeping it out of their reach. The scenes in the neighborhood of the camps were distressing and humiliating, and several fatal results have already followed the sale of whiskey to these people. While the payments are made as heretofore, altogether in cash and at one time, the Indians being assembled for the purpose, it is impossible with any means likely to be afforded to our office to prevent the sale of intoxicating liquor. While paying the Roseau Indians I applied to Mr. Bradley, the Deputy Collector of Customs, who is a Justice of the Peace, to assist me in detecting and bringing to punishment some of those who were selling liquor to the Indians. He succeeded in catching two men, *flagrante delicto*, but as the local law on the subject was in some measure contradictory, he telegraphed to the Attorney General for instructions how to act. No answer to the telegram was received while I remained, but Mr. Bradley promised to put you in possession of all the facts, names of witnesses, &c.

There are a few points in connection with the several Bands under the two treaties, Nos. 1 and 2, to which I would beg leave to call attention.

Although the demands of the Indians have been of late somewhat more moderate than formerly, they are not content with the terms of the Treaty, and are unanimous in the belief that they have been deceived and promised more than they have received.

In one instance I thought it advisable to explain how this difference between the Indians and the Commissioner arose; but while they accepted the explanation as justifying the position I assumed, they said there could be no satisfaction about the matter until I or some one else was authorized to re-arrange the bargain.

This, it should be remembered, was prior to the negotiation of the Treaty at the North-west angle of Lake of the Woods, and looking to the extraordinary disparity between the terms granted in treaties No. 1 and 2, and that at the North-west angle I do not entertain the least hope of being able to satisfy the Indians of the former Treaties under the altered conditions of affairs. Not an item granted to the Indians eastward of the Province will be forgotten by the others, nor will the latter omit to point out, as Lieutenant-Governor Archibalds printed despatch has already told them, that they are giving up valuable prairie lands, while the Indians of the east are surrendering rock and muskey.

Their knowledge of the printed correspondence from Manitoba on Indian affairs is not imaginary on my part. The Blue book containing this correspondence and the speeches of Members of Parliament on Indian Affairs have been shown to me by Indians of this Province. They could not read what was therein written, but there are not wanting persons in Manitoba and its neighborhood who will interpret it for them according as the views of the interpreter may lean.

Should the Government decide that it will be necessary to re-open Treaties Nos. 1

and 2, for as they deal with one, so they must deal with the other, I would respectfully recommend that no discussion on the subject of a new Treaty should be permitted, but that whatever is to be said should be merely an announcement of the Government's benevolence and liberality, and now made to the Indians assembled for the purpose of hearing it, with the object of its being written down in their presence and for their satisfaction and assurance, we now know better than do the Indians themselves what should be given to them and what should not.

You will doubtless remember that in a letter from the Department it was stated that goods for the Indians in lieu of payment would be sent for next season. The Indians will be glad of this, but it will be necessary, notwithstanding, to ask for a per centage of the annuity moneys in cash as without it, we shall in some cases be unable to pay the Indian, without compelling him to take that which he does not want.

While on this subject, I would call your attention to the fact, that the sums of money entrusted to me for the payment of the several Bands were insufficient. The amounts furnished had been calculated from the number of Indians paid last year, such number being multiplied by three, viz., three dollars per head; and without any margin being left for increase of numbers, or men arriving from hunting or trapping, who, this year, would claim four payments. It would not have been easy, even had it been desirable, to explain to an Indian the mysteries of appropriations and parliamentary votes, yet something must be done for, or said to, men who demand, from the person appointed to pay them, a sum of money secured by Treaty and sometime overdue.

I managed as best I could without going into more explanations than were necessary, but in one case was obliged to borrow money from a trader to satisfy Indians unprovided for.

In the requisition for next year, it will be necessary to provide not only for a per centage of increase, but also for the back payments of those who have not yet appeared to take their annuity.

I have the honor to be, Sir,

Your obedient servant,

MOLYNEUX ST. JOHN,

Indian Agent.

Colonel J. A. Provencher,
Indian Commissioner.

No. 29.

BRITISH COLUMBIA,

INDIAN OFFICE,

VICTORIA, February 4th, 1875.

SIR,—I have the honor to submit the following report on Indian Affairs in the Province of British Columbia, for the year ending 30th June, 1874.

Official visitations have been made during the past year to the Indians of Semiahmo, Similkameen, Kootenay, Kamloops, Okanagan, Nicola, Bonaparte, Clinton, Lytton; all the Tribes in the valley of the Lower Fraser, the east and west coasts of Vancouver Island, and many other places, for detailed accounts of which I have the honor to refer to the various reports transmitted immediately after the completion of the visits named.

No visits have been paid to the Indians on the Coast of the Mainland north of Bella Bella, nor to the numerous Tribes living on the Skeena and Stickeen Rivers; the great distance to be travelled over, the limited facilities of communication, and the urgent calls upon my time at the headquarters in Victoria, rendering it impossible to inspect more than a portion of the Province during each season at all practicable for travel.

I may add that at all points the condition of the Indians, their numerous grievances and prospects were fully ascertained, and the opportunity embraced of extending to them friendly aid and counsel, and assuring them of justice and the protecting care the Government. Those visits have, without exception, been received with the

utmost satisfaction, and great confidence expressed by the various Chiefs in the presence of their people, in the ability and intention of the Government to deal fairly and justly with them.

Population: No general census has yet been taken of the Indians of British Columbia; and pending the appointment of agents in the different districts of the Province it is difficult, if not quite impossible, to do so. Accurate and reliable returns have been made by the gentlemen who have been engaged in surveying some of the Reserves in the Province, and the estimated numbers as ascertained by myself at each visitation from native authority, may be taken as pretty generally correct. The total population given by me in my first report (1872) namely, 28,500, was based upon the average given by various gentlemen acquainted with the Tribes.

Some of the Nationalities, such as the Shuswap, I found to be greater than the number stated at the time, so that a precise and correct census, when taken, may indicate some five or six thousand in excess of the first estimate.

Habitation: The dwellings or habitations of the Coast and Interior Indians, are very different, the latter resembling those of the other Provinces of the Dominion. The former, called Rancherias, are collected in villages of twelve or fifteen houses each, with accommodation for ten or fifteen families in every house. These houses are built with boards split from the cedar by means of wedges: the roofs are flat with large timbers usually carved in the interior as supports; they are generally placed upon the beach with a small opening in the centre or one side, as the only place for ingress or egress. The coast Indians have different localities for summer and winter residences, and when they have not sufficient lumber for both quarters they remove the roof-boards to the place they wish to occupy, the support or frame being large and permanent wherever placed.

Of course these houses containing so many people, huddled together with no attention whatever to cleanliness, become depots of abomination and filth, and account for the decimation of the Tribe upon the approach of any epidemic or disease, such as small pox, &c.

It has always been the custom of intelligent missionaries to discourage this mode of living among the Indians; and wherever this has been effected, as among the Cowichans, and some other Nationalities of the Mainland, the condition and prospects of the natives have been wonderfully improved. In such instances the Indians are found not only to have adopted the manners, customs and necessities of the Whites, but often indulge in their luxuries.

Reserves of land: The Indian Reserves of British Columbia have for some time been, and are at the present time in a most unsatisfactory condition both to White settlers and Indians. To the former from the fact of being so small and insufficient in many instances as to occasion constant disputes as to their limits; and to the latter, because the Indian, who is now beginning to understand the value of land, looks with envy on the large possessions of the Whites, and with discontent upon the small areas allowed to himself, as the primitive and original possessor of all, and to which his rights have been ignored by past Colonial Governments.

I have also forwarded to you the statement kindly given me by Sir James Douglass, the first Governor in this Province to deal with this subject, showing that no basis of acreage had ever been established in respect to determining the quantity of land to be reserved for each Tribe, but on the other hand "to leave the extent and selection of lands entirely optional with the Indians who were immediately interested in the Reserves, the surveying officers having instructions to meet their wishes in every particular, and to include in each Reserve the permanent village sites, the fishing stations and burial grounds, cultivated land, and all the favorite resorts of the Tribes," and in short to include "every piece of ground to which they had acquired an equitable title through continuous occupation, tillage or other investment of their labor."

This system was highly satisfactory to the Indians during the Government of Mr. Douglass; but since that time his successors have, from time to time, at the request of White settlers, who in some localities were envious of the fine tracts given

to the Indians, cut them down or reserved other lands not so valuable as those originally laid aside for them. In this way they have become generally discontented, especially in the interior of the Province, where the system of leasing large pastoral tracts to White settlers at a nominal rate has very much curtailed their means of gaining subsistence, by having sufficient grazing lands for their numerous bands of horses and cattle.

Some time after union the charge and trusteeship of Indian lands were assumed by the Federal Government, and the natives looked for a far more liberal treatment in regard to the quantity of land to be allowed them than the terms of confederation would seem to have justified.

On this ground, and owing to the scarcity of arable land in some localities, the request of the Dominion Government to grant eighty acres of average land to each Indian family was declined, and after much correspondence it was finally conceded and approved "that, throughout the Province, Indian Reserves shall not exceed a quantity of twenty acres of land for each head of a family."

The Indians in possession of Reserves having very generally expressed a wish to have the same apportioned to them upon the basis agreed upon, and with a view to putting an end to disputes among themselves as to their agrarian rights, I commenced at once, under your authority, the survey of and allotment of all existing Reserves. Subsequently, and upon my first application for lands to display the deficiency in Reserves surveyed, I was informed by the Honorable Provincial Secretary that the basis of twenty acres agreed upon, referred only to future reservations of land, and that existing Reserves were to remain as at present.

As many of these lands do not contain two acres to each family of the Tribe interested, and, pending instructions from yourself, most reluctantly I have, for the time, been obliged to terminate the prosecution of further surveys which had otherwise been so satisfactory and popular with the Indians concerned.

I greatly trust that this unfortunate interpretation of our agreement will be of temporary duration, and that this vexed question, upon which depends the contentment of more than 30,000 aborigines, and the peace of the whole Province will be finally settled to the satisfaction of all concerned.

To make any discrimination between Tribes by restricting those Indians for whom Reserves have already been made to the quantity set aside for them, and granting a larger or different acreage to those at present unprovided for, is to provoke envious and jealous feelings quite foreign to the intention or aim of either Government, and I therefore indulge in the hope of a speedy removal of this the greatest obstruction to the peaceful administration of Indian affairs in this Province.

Agriculture: In agriculture considerable advance has been made by those Bands who received their seeds and implements early enough to plant their ground last spring. At Cowichan, on Vancouver Island, on the Lower Fraser, and many parts of the interior, large quantities of potatoes, turnips, carrots and other vegetables were successfully grown and stored for winter use, no doubt proving a boon in addition to their often slender supply of dried fish and venison.

On the Lower Fraser some fine samples of wheat, potatoes, onions, carrots and apples were exhibited and gained honorable mention at the Provincial Agricultural Exhibition held at Victoria in the autumn.

I am assured of more flattering results from many of the interior Tribes next year, who have just now received their presents of agricultural implements, from the previous want of which they have hitherto been able to effect comparatively little in the way of cultivating the soil.

As an instance of what the Indian will do with only slight assistance, I may add that about sixty acres of grain were grown on the Kamloop's Reserve last season, and a much larger quantity will be put in the ground during the coming year.

In former years, although these Indians have the finest Reserve in the Province, they had no land under cultivation; and the first encouragement they had was a present of a plough from the late Governor Seymour, since which time they have been steadily progressing.

On the west coast of Vancouver Island the Abt Indians, prior to my visit, had made no attempt to grow crops of any kind, but since a few spades, hoes, etc., etc., were distributed among them, they have commenced clearing available patches of land, with a view to cultivation and planting in the spring; and I have no doubt will show next year the good effects of a little judicious encouragement in this way.

These Indians labor under a great disadvantage in having very little prairie land, as is the case in other parts of the Province, and their gardens and other plots will have to be redeemed from the dense and heavily timbered forests.

The north-west Coast of the Mainland and Queen Charlotte's Island present great difficulties to agricultural pursuits, the country bordering on the coast being rocky and dense with northern pines.

The natives, however, grow considerable quantities of potatoes in their old village sites, and along the banks of the various rivers and streams, where the soil is alluvial and partially clear.

In these localities, however, the sea and rivers teem with fish, and other numerous resources so accessible at all seasons; and from which a plentiful supply of strong and wholesome food is at any time procured with facility.

In Cowichan (Vancouver Island) and on the Lower Fraser the Indians are beginning to purchase and breed horses and cattle; whilst many Tribes of the interior already count their stock by the thousand, their great trouble being, as I have previously stated, the scarcity of grazing lands allowed them.

For this reason, east of the Cascade Range, the allowance of twenty acres to each family is totally inadequate without the *necessary addition* of pastoral tracts set apart for the common use of each Tribe.

At Kamloops, for instance, the Tribe consists of a 100 families; their horses and cattle numbered, at the time of my visit in June, 830 head, giving rather less than two and a half acres for each animal to feed upon during summer, and from which to obtain a store of hay for winter use; and no land whatever for their needful agricultural purposes.

The Songes Reserve: From the proximity of this camp to the City of Victoria, it is one of the most valuable Reserves in the Province; for the same reason it is the most valueless as a means of benefitting the Indians, it being, as I have previously reported, nothing more nor less than a most disreputable rendezvous.

I would earnestly recommend the purchase of a more suitable location; and an agreement with the Indians for their removal thereto.

The sale of this Reserve will enable me to accomplish this without any difficulty or extra expense to the Government, should the same be in accordance with your own views.

Surveys have already been carried on during the past year, and the amount allowed therefor by the order in Council of 1st March, 1874, of \$6,000, has been expended.

The following Indian Reserves have been divided into twenty acre allotments; and should the present land difficulty be settled with the Local Government, making basis agreed upon applicable alike to all Indians, these Reserves are ready for apportionment, viz.: Tsowossan, Musqueam, Coquitlan, Katzie, Langley, Chatecum, Whonock, on the Mainland; Tetaihit, Tsaiicum, Panquotsin, Chawhelp, Cowichan, Halalt, Penelahut, Chemainus, Nanaimo, on Vancouver Island.

A large portion of this land is, however, of poor quality; and the quantity insufficient to give each family the proposed acreage, without extensive additions.

Fish and Furs: Fish is the great staple product of all the Coast Indians, and owing to the numerous lakes and rivers with which British Columbia is most bountifully supplied, affords the chief means of subsistence to almost all of the interior Tribes. All kinds of fish are found in great abundance in the Northern Pacific waters, but the salmon, of which there are some six varieties, is the most constant and appreciated article of diet. The fish is now forming one of the most important exports of this Province. The dog-fish is caught in large quantities for the oil contained in the liver, which not only forms a common article of barter between Indians themselves,

but is sold to and exported as one of the chief products of the country by the Whites.

The export of fish, fish-oil, and furs, (the two latter being almost solely obtained by Indians) for the fiscal year ended June, 1874, were:—

	1874.	July 20th, 1870. to June 30th, 1871.
Fish	\$69,665 00	
Fish Oil.....	44,453 00	27,638 00
Furs.....	307,625 00	200,407 00
Total	\$421,743 00	\$428,045 00

The export of cranberries varies according to favorable seasons: this year being only \$2,011.00.

The fur-bearing animals include bears, beavers, land and sea otters, fur and hair seals, martens, minks, raccoons, fishers, wolverines, wolves, foxes, lynx, ermines, skunks and pumas.

Agricultural implements: A list of implements, tools, seeds, &c., furnished to different Bands of Indians during the past year, is hereto appended.

Schools: Very few Indian schools, comparatively, have been established and successfully continued in British Columbia. Under your authority as conveyed in the Order in Council of 7th April, 1874, grants were given to the following establishments:—

St. Mary's Industrial School, R. C.....	\$350 00
Metlakatlah do A. M.....	500 00
do grant to aid in building school.....	200 00
Wesleyan Mission School, Nanaimo.....	250 00

Reports of which have been already forwarded to the Department.

Up to the period of submitting this statement, aid has been given to five other schools, reports from which I have the honor to append hereto. No doubt the various Mission Societies already established in the Province will take measures to increase the number of schools, and take advantage of the material assistance afforded by the Government in granting a sum of money to every school which can show a certain average attendance of Indian pupils. On account of the migratory character of the Indian, great difficulty has been found in retaining an average attendance of thirty, the number required by a school to entitle it to the annual grant of \$250.

I am of opinion that with the exception of schools of the industrial class a rigid restriction to the average referred to, would often exclude any of the day-schools from participation in the grant; and were the daily average attendance fixed at fifteen, a greater number of schools would soon be commenced, and of course much larger benefits secured in promoting education among the natives.

Many of the missionaries are most enthusiastic in their endeavors to ameliorate the condition of the natives, and are highly deserving of substantial encouragement in their good work.

Medical Attendance and Medicines: During the period in which I have had the honor of superintending the Indian Affairs of this Province, medical attendance and medicines have been freely furnished to poor and destitute natives; and much benefit and relief has thereby been extended to them. Indians generally are subject to phthisis, pneumonia, all kinds of strumous diseases, syphilis, &c., &c. From the extensive prevalence of these ailments, and from the fact that large numbers of the Northern Indians visit Victoria for the purpose of work and trade, many are so debilitated as to be unable to withstand the fatigue and exposure incident to a return to their houses. Many of the women who have been victims of disgraceful concubinage and prostitution are left deserted here, miserable objects of disease and distress.

The establishment of a small hospital and dispensary in Victoria, and one or

two other centres of Indian population in the Province would be of very great benefit in alleviating the urgent want of these unfortunates, and would prove, I am convinced, the most economical and effectual mode of securing to them some humane and desirable system of treatment.

Medicines and medical comforts have been supplied to the various missions and outlying settlers for Indian purposes, whenever applied for, and much satisfaction and relief has resulted therefrom.

Illicit Liquor Traffic: A great blow has been given to the abominable whiskey traffic, by the operation of the recent Federal liquor law. Some well-known and extensive vendors have been mulcted in the utmost penalty prescribed by the law; and the procuring of large quantities of Indian liquor in Victoria, as heretofore with facility, has received a wholesome check; and the example has proved most beneficial in restraining other evil doers.

Since this has occurred, information has reached me of a new and startling innovation in respect to the Indian whiskey traffic, which seemingly challenges the most thorough and exhaustive means of preventing it. I cannot do better than to quote the letter which conveys a graphic description of the means of obtaining liquor now employed by the Northern Indians in American territory, and that their knowledge had been communicated to the natives of Queen Charlotte's Island, and some other Tribes of this Province; and that in a short time every Indian on the coast will learn their simple and primitive process of distillation.

(Copy.)

" VICTORIA, V. I., February 3rd, 1875.

" Col. I. W. Powell,

" Commissioner of Indian Affairs, &c.

" DEAR SIR,—During a recent visit to Alaska, I learned that the Indians in that Territory were extensively engaged in the manufacture of whiskey, and that the Tribes bordering on British Columbia had communicated a knowledge of its manufacture to the Indians on Queen Charlotte's Island, and some other Tribes in this Province. There is no doubt but in a short time every Indian on the coast will learn how to make it.

" It is generally distilled from molasses and potatoes, but in the absence of molasses they use sugar, and, during the summer months, salmonberries, raspberries, blackberries and any other sweet berry to be found.

" A gallon of molasses will yield five bottles of whiskey, and it is sold by the Indians to the Whites around Sitka at from \$1.00 to \$2.00 per bottle.

" The apparatus used by them for distillation is very simple. It generally consists of a coal oil can and a piece of kelp coiled as a worm, and can be improvised with no expense and upon short notice.

" I herewith hand you a sample of the article manufactured by the Sitka Indians, it weighs five under proof, and as a stimulant is very creditable to the Indians, and much superior to the article heretofore supplied to them by the traders.

" So far the Indians seem to be much more intent upon selling to the Whites than drinking it themselves, and they find it a very profitable business, as all other liquor is excluded from the Territory. Indeed it is very questionable policy applied to the Territory by the United States Government, which led to its manufacture by the Indians.

" The soldiers stationed in Sitka, being unable to procure liquor, commenced to make it for themselves, and taught the secret to the natives.

" This certainly presents a new and interesting "liquor" question to the Government. Whether it can prevent a knowledge of its mode of manufacture spreading in this Province remains to be seen; but it behoves it to act promptly in the premises if it wishes to accomplish anything.

" I have the honor to be, Sir,

" Your obedient servant,

" (Signed,)

H. GASTON."

I have communicated the contents of Mr. Gaston's letter (whose statements may be relied upon) to Mr. Dupont, the officer representing the Inland Revenue Department of this Province, who, I have no doubt, will recommend the employment of the Dominion Government steamer as a revenue cruiser, or such other means as may seem to him most expedient.

So far as this Department is concerned, much will no doubt be effected by its more thorough organization, in the appointment of a few sub-agents and some simple system of Indian Police, which will bring distant Tribes more within the reach and better control of the Government.

No doubt, however, exists, should the anticipations of Mr. Gaston prove correct as to the general and indiscriminate manufacture of spirits by Indians themselves, that it will revive the important question, which has been heretofore debated with much force and argument in political circles, as to whether it might not be prudent to legalize the traffic, under certain restrictions, since its suppression would seem so difficult, if not impossible.

The present Act is excellent in many ways, though it still falls short of reaching with proper severity all whom it is intended to punish in this the chief place of distribution.

Firstly, it does not provide for *hard labor* with imprisonment; and I have reason to believe there is a certain class of persons who adopt this easy mode of gaining admission to jail, where they are not only furnished with really good food, without work, but are allowed a certain amount of luxury, such as tobacco, &c.

Secondly, there are those who are unable to pay the fines, and who, having served repeated terms of incarceration, are callous to this mode of punishment.

The old law provided for the occasional whipping of young offenders, in lieu of other penalties; and I have no doubt the insertion of a clause providing for the infliction of a similar penalty in *any* case, at the discretion of the convicting Justice, would prove most effective in punishing the extensive class known as "bottle sellers," who figure daily, and without fear, at our police courts.

Finally, with the sole exception of the land difficulty above referred to, I have the honor to report peace and contentment prevailing among the Indians of the Province.

Should an amicable and agreeable adjustment of this question be consummated during the coming year, the adoption of the recommendations submitted to you, in respect to the more thorough organization of the Department would, I am sure, be followed by satisfaction to the Government, and the establishment of the most friendly feeling between White settlers and the various Indian tribes of British Columbia.

I have the honor to be, Sir,

Your obedient servant,

I. W. POWELL,

Indian Commissioner.

The Honorable

The Minister of the Interior,
Ottawa.

REPORT
OF THE
ORDNANCE AND ADMIRALTY LANDS.

Summary of documents submitted in explanation of the Report of the Ordnance and Admiralty Lands Branch of the Department of the Interior 18th January, 1875.

1. Report of the Commissioner of Ordnance and Admiralty Lands, from 30th June, 1873, to 30th June, 1874.
 2. A. Showing localities whereat, severally, the income of \$215,504.42 had been received.
 3. C. Showing localities wherefrom above amount had been received.
 4. E. Showing amount of arrears due and of instalments owing, but not yet actually due, \$104,105.02.
-

ANNUAL REPORT FOR 1874.

DEPARTMENT OF THE INTERIOR,
ORDNANCE AND ADMIRALTY LANDS BRANCH,
OTTAWA, 18th Jan. 1875.

SIR,—I have the honor to submit, for your information, the usual annual report on the transactions of this branch of the Department from the 30th June, 1873, to the 30th June, 1874.

The preceding report to the 30th June, 1873, presented to Parliament by the Hon. R. W. Scott, Secretary of State, and which was handsomely pronounced by that gentleman to have been "prepared with great care and accuracy," contains the details necessary for the proper understanding of all the preceding operations of this branch since 1856, and enables me to restrict this report simply to the transactions of the past fiscal year.

The circumstances of the times offered little opportunity for new sales. One large sale, however, was made at Kingston in August, 1873, producing \$21,059. The sale at Montreal, adverted to in my report of last year, was completed in June, 1874, realizing, principal and interest, \$164,473.97. The returns for the fiscal year, arising from rents, interest equivalent to rents, and products of sale, amounted to \$215,504.42. The statement hereto annexed shows the localities at which those amounts have been received and on what account—it is lettered A. A further statement lettered C, shows from what ordnance localities, in detail, the above sum of \$215,504.42, has been received.

Another statement lettered B shows the arrears due to the Department, and the amount of instalments owing, but not yet due, equal to \$104,105.03. This amount is perfectly reliable. The system pursued, of selling by payment in ten annual instalments, and in small building lots, has had the excellent effect of attracting into the market the middle or artizan classes; men who buy not for speculative purposes, but to build, and who, under adverse circumstances, rely on the consideration of a Government whose policy is not so much to make money, as to encourage the growth of a contented and prosperous population, the true source of all revenue. In this confidence, these men offer handsome prices, pay down their first instalment cheerfully at the place of sale, build at once, make themselves homes, enhancing thereby the security, and rarely make default in payment. Where they do, each case is carefully and kindly considered. Every possible indulgence is given to the worthy—the unworthy and hopeless, have to relinquish their lots, forfeiting the first instalment as a compensation for expenses. These lots, when put up again, almost invariably bring an advanced price. It may be truly said that the Department never loses any thing. The public interest gains greatly. Witness Prescott, where a barren waste now produces a happy population, sitting by their own firesides, under Letters Patent; and Kingston, where similar treatment is rapidly producing like results.

To this course of treatment may be ascribed, generally, the fact that these Ordnance Lands which, in 1856, were regarded as little better than a bankrupt estate, with an uncertain and unpaid income of \$15,000 per annum, have, for the past seventeen years, averaged above \$50,000 per annum, with a benefit to the country beyond all price.

In my report for last year it was shown in detail that the receipts derived from Ordnance Lands, from the 31st

December, 1857, to the 30th June, 1873, amounted to,	\$621,636 93
Receipts from 30th June, 1873, to 30th June, 1874	215,504 42
Debts outstanding, but reliable	104,105 03
Income received from June 30th to December 31st, 1874,	29,443 74

\$970,690 12

Looking to amounts accrued and accruing up to the present moment of time, it may be safely said that the Ordnance Lands sold have thus far produced very close upon \$1,000,000, leaving other valuable property still open for sale.

These Ordnance Lands have from the first always defrayed their own expenses. In this particular, they have cost the country nothing. The total expenses for the last seventeen years, it would be unsafe to give from this office, as many items of account do not appear on the books, but it can be at any time furnished by the Finance Department. The expenses of the fiscal year terminating 30th June, 1874, amounts to \$2,269.05.

Extensive lands available for sale remain unsold at Amherstburg, Fort Erie, Niagara, Toronto, St. Johns, Chambly, Three Rivers, and Kingston, with small lots in other localities.

As stated more at length in my report for 1873, above referred to, the general superintendence of sales of lands belonging to the late Bank of Upper Canada, devolved on the Honorable the Minister of the Interior, by effect of Orders in Council of the 29th October, 1870, and the 10th July, 1873. The duties have been discharged by this branch of the Department since. The sales made to the 31st December, 1874, amount to \$123,561.51.

I have the honor to be, Sir,

Your obedient servant,

WILLIAM F. COFFIN,

Commissioner of Ordnance and Admiralty Lands.

To the Honorable
the Minister of the Interior.

DEPARTMENT OF THE INTERIOR,
DOMINION LANDS BRANCH,

Ottawa, 31st December, 1874

To the Honorable DAVID LAIRD,
Minister of the Interior.

SIR,—I have the honor to report to you on the operations of this Branch since the 30th June, 1873.

In doing so I would remark, that, with your permission, it is proposed that the annual reports from this office shall, in all cases, bring up the work to the preceding 31st December. This will be more convenient than to adopt the end of the preceding financial year, in view of the fact, that, as a rule, all operations in Manitoba and the North West Territories in the way of surveys and settlement of the land, are effected between the 1st April and the 1st December in each year.

GENERAL BUSINESS.

This has greatly increased, the correspondence in the period named showing—

Letters received.....	3,482
do sent.....	4,150

Total 7,632

The letters sent, together with subject reports, cover some 5,661 folios.

The above is distinct from the correspondence conducted at the Winnipeg Office, at which the letters sent number	1,476
do received	3,713

Total 5,189

1,042 assignments, out of 1,672 (including re-assignments) received to date, have been registered under the provisions contained in section 16 of the Act of last Session amending the Dominion Lands Act.

2,059 applications under section 32, and subsequent amendment of the Manitoba Act, have been received and filed, of which, 614 have been examined and recommended for patent.

The amount of Draughting effected has taken large proportions.

The number of Township Maps of which certified copies have been prepared to meet the various anticipated requirements, for the Registry Offices in Manitoba, for office plans here, for the Lands Office in Winnipeg, and for the Hudson Bay Company, (the last, of course, at the expense of the Company) amount to 2,000, besides these, Parish Plans, some twenty-three in number, involving a mass of detailed information in each case, have been entered on, and are nearly completed.

A large amount of work has also been done for the Indian and Ordnance Lands branches.

The compiling and publishing of Maps to show the lands available for settlement, has also received attention.

These consist of:—

1. A map of Manitoba, exhibiting the surveys up to the 1st January of last year, 1,500 copies of which were struck off and the greater portion distributed, thus meeting a want much felt at the time.

2. A map bearing even date with, and accompanying this report, shewing all the townships so far surveyed. Two printings in colours of this map have been published, that is to say:—

1. Shewing the Province as divided into Land Districts, and distinguishing the townships set apart for Half Breeds under the Manitoba Act.

2. Simply shewing the county or electoral divisions in the Province.

A map has also been prepared and published, in compliance with your request, embracing the territory between Lake Superior and the Rocky Mountains, from the best and latest authorities, shewing, printed in colours, the several tracts of country surrendered by the Indians to the Crown under the four treaties which have been made with them, together with the Indian population, in each case, party to the treaty.

The examination and verification of the plans, field notes, and accounts of surveys, have involved a great amount of labour.

This will be readily understood when it is stated, that, of the large extent of work performed, as set forth in the Schedules, not one of the returns of surveys remains to be examined.

The accounts, upwards of 4,000 in number, connected with the surveys, have also been closed or brought up to date, leaving none in arrear.

SURVEYS.

The townships subdivided number 193, of which 106 are outside of the Province of Manitoba, lying, as a rule, westerly, in the direction of Fort Ellice.

The total number of townships subdivided to date amounts to 440, representing approximately, including the area of the Settlement Belt, 9,695,156 acres, of which area, 6,572,238 acres lie within the Province.

The townships proposed to be subdivided during the coming year are set forth in Schedule. Those referred to as in Manitoba, it is desirable Appendix F. should be subdivided with a view to uniform and systematic settlement.

The extension of block lines laid down is shewn in Schedule, D. It is suggested that authority be given to extend the block surveys so as to embrace the country in the vicinity of the line surveyed for the Canada Pacific Railway, which, Appendices B, C, D, and E. as a necessary preliminary in connection with the land grant, would facilitate the action of the Government in placing the line under contract.

That portion of the territory between the Lake of the Woods and Fort Pelly, along the line, might be laid out in blocks of four townships each, during the next season.

Two parties are now engaged on this description of survey, one, under Mr. Alexander L. Russell, who is charged with the duty of defining and marking the 49th parallel, east of the Lake of the Woods, as a first base, connecting the same with the surveys already existing west of the Lake of the Woods; the other, under Mr. J. L. Reid, of Bowmanville, who will block out the country, south of the said base, to the Rainy River.

Numerous applications having been made for lands in the valley of the Rainy River, in which locality exists a large area possessing excellent soil and abundant timber, your instructions to extend the Dominion Lands surveys into that region have been acted on.

Settlement in this valley will be greatly stimulated by the facility with which lumber may be obtained at Fort Francis, at which point Mr. S. H. Fowler has erected an excellent saw-mill, with planing machine and shingle machine attached, and, in connection with which, the owner announces his intention to establish a flour mill immediately on grain being raised in the settlement.

The only other block survey at present in progress is one under Mr. Pearce, D.L.S., who is employed in completing the third base between the present termination thereof at the tenth range east of the Meridian, and the westerly end of that portion of the said base extending westerly from the Lake of the Woods, to which the same was completed last year, that is to say, at the point between sections 1 and 2, in township 9, in the 18th range east of the Meridian.

A number of the tracts reserved for Indians under the late treaties have also been surveyed and marked. These will be found detailed in Schedule. Appendix G. Others are now being laid out, for instance, those at Fairford House, at Waterhen River, and at Elm Point, all upon or in the vicinity of Lake Manitoba.

Steps have been taken also to comply with your orders in relation to surveying the lands reserved for Indians on the Rainy River, and on the shores and islands of the Lake of the Woods, under treaty number 3, effected at the North-West Angle of that lake on the 3rd day of October, 1873.

I am glad to be able to report the survey, in detail, of all holdings in the several parishes on the Red River and on the Assiniboine, as completed, and there need not therefore be any longer delay in the issue of patents, generally, for this class of claims, except in case of doubtful titles requiring to be previously adjudicated upon.

Your instructions relative to the survey of the timber limits of Messrs. Fuller & Co., at the Lake of the Woods, of Mr. Fowler, in the vicinity of Rainy River and Lake, and of Dr. Bown, consisting of Big Black Island, in Lake Winnipeg, were duly carried out. Mr. D. L. S. Kennedy was intrusted with the former, and Mr. Duncan Sinclair, D. L. S., with the latter.

It is understood that the several surveys have been completed, or nearly so, but the reports of the surveyors have not as yet been received.

The lands reserved to the Hudson Bay Company under the Deed of Surrender, at their several posts in the Lac-la-Pluie District, were also surveyed by Mr. D. L. S. Miles, during last season.

This was done on your approval of the application of the Chief Commissioner of the Company to have the reserves laid out by this Branch, but at the Company's expense.

The decision arrived at by the Government as set forth by Order in Council dated the 6th day of September, 1873, conceding the land covered by the Hay and Common privilege in the "Outer Two Miles," to the owners of front lots in those parishes in which the said privilege was granted by the laws of Assiniboia, with certain exceptions, involved the necessity of the survey and subdivision of the said "Outer Two Miles" to correspond with the river front lots.

A force of surveyors was accordingly detailed to this service in May last, under the direction of Mr. Whitchee, one of the Inspectors of Surveys, and I have pleasure in reporting that the work is now nearly completed, and the maps thereof are in course of preparation in the Surveys office, Winnipeg.

SPECIAL SURVEY.

A special survey of meridians and bases in the North-West Territories having been approved by the Honorable the Privy Council, effect has been given to your instructions relative thereto.

The service has been placed in charge of Lindsay Russell, Esq., Assistant Surveyor General, whose ability and energy render him peculiarly well fitted to push the survey to a successful conclusion.

Many valuable results will be obtained from this work.

It involves the laying down of a series of meridians and bases, in accordance with the system of survey adopted for the North-West Territories by the Dominion Lands Act, northerly and westerly, through a belt of country extending from the present termination of the fifth base, at Fort Ellice: generally following, as nearly as may be, the proposed route laid down for the Canada Pacific Railway.

The objects to be gained are threefold.

1. To establish a practical ground work for the extension of township surveys at any point along the line of railway, where required, thus tending to systematic settlement in the development of the country.
2. To contribute towards the construction of the railway by facilitating the location of the land grant along the line.
3. To obtain a knowledge of the character and resources in the way of soil, timber, and minerals, as also of the *flora* and *fauna* of the territories covered by the survey.

To the above may be added, the possibility, as the character of the country to be passed over will be favorable to that end, that data of value may be obtained for estimating the length of a degree of the Meridian in that region.

This will be understood when it is stated that the work will extend over some twelve degrees of latitude, and that all possible precision will be aimed at in prosecuting the service.

With this view, in addition to the laying down of the actual lines of the meridians and bases, which will be effected by a separate party under Mr. Russell's supervision, the measurements for which will be made with a 66 feet steel chain, followed by a check measurement, using a steel chain of irregular length, made to coincide with the 66 feet chain only once in a mile, the position of the bases and meridians in the series will be definitely checked from time to time by means of a continuous triangulation to be carried on simultaneously, under Mr. Russell's personal direction, over the most favourable belt of country that can be found for the purpose.

This triangulation will extend northerly from the 49th parallel as lately fixed by the International Boundary Commission, and westerly from the Principal Meridian, and will only terminate (unless the country north of the Saskatchewan should prove too heavily wooded) at the extreme northerly point expected to be reached by the survey, that is to say, the McKenzie River, not far from the outlet of Lake Athabasca.

A proper outfit of instruments for this service, astronomical as well as surveying, was obtained by Mr. Russell when in England last spring. Of these instruments, the Altazimuth and the Base Measuring apparatus, both designed for the survey by him, are worthy of special remark.

The altazimuth was made by Messrs. Troughton & Simms. Its vertical and horizontal circles of eighteen and sixteen and a half inches diameter, are, respectively, divided into 5 minute spaces, and read, the former by four, the latter by two, micrometer microscopes, giving seconds of arc and fractions thereof. It is fitted with a 3.5 inch telescope with object glass of $3\frac{1}{4}$ inches aperture, the eye end provided—besides the usual system of wires—with micrometric moveable threads capable of being changed in position so as to measure differences either of azimuth or altitude.

For referring the position of the instrument to the vertical, there are six levels. Two of these are provided with arrangements for overcoming the inconvenience attendant on the expansion and contraction of the ether in the tubes at varying temperatures, and to counteract the errors arising therefrom.

This instrument was designed on a principle intended to make it serve not only in measuring altitudes or azimuths, but also for the purposes of the Astronomic Transit Instrument.

In determining, astronomically, with portable instruments, the positions of points on the earth's surface, it has hitherto been necessary in using the best methods, to have separate instruments to ascertain each of the two geographic co-ordinates, latitude and longitude. For the first, altitude instruments, such as the altazimuth, zenith telescope, zenith sector, &c., have been used, for the latter, the portable astronomic transit.

The ordinary altazimuth can be used as a transit, but, from its construction, lacks the stability of level, and the fixity in azimuth, necessary for the very precise determination of time required in ascertaining the differences of longitude.

To meet these difficulties, the present instrument, instead of turning on the usual vertical central axis, revolves on accurately turned steel wheels which roll on the outer edge of a cast iron bed circle.

In addition to that obtained by a strong central collar clamp, steadiness in azimuth is further secured by application of a spring jaw clamp, of vice like action, to each of the wheels, thus making, at will, the upper or moveable part of the instrument one with the bed circle.

This construction has also an advantage in compactness and consequent less disturbance of position from unequal expansions of parts when subjected to varying temperatures.

The requirements of the survey made it necessary to have some Base Measuring apparatus that would occupy an intermediate position, in point of relative accuracy and time consumed in working, between the rapid but rough measurement of the ordinary chain, and the base apparatus usually employed in primary triangulations,—which latter, although giving fine results, is complicated and requires much time in its application.

Mr. Russell's apparatus consists of well seasoned deal rods successively connected with each other by metal fittings working on the contact principle, the particular application of which principle is as follows: Each joint consists of an accurately turned hard metal cylinder with its axis horizontal and transverse to the line of measurement; on this cylinder, which is at the end of one rod, rests the rectangular inverted V, or claw of metal fitting, at the end of the next rod. The line bisecting the rectangular claw will always pass through the centre of the supporting cylinder at any relative inclination of the two rods, the distances, therefore, from dot to dot at the centres of these cylinders, with the temperature not considered—are constant for all inclinations of the rods. The objectionable feature of any measuring apparatus working on the contact principle is that of wear of touching surfaces and consequent alteration of length. This is to a considerable degree obviated, in the present arrangement, by a provision for turning the cylinder round, at equal intervals of use, to distribute the wear and ensure, as nearly as possible, its occurring symmetrically. It is evident that the cylinder might be decreased in size until nearly cut through, and yet, if its section continued to be a true circle, the distance from central dot to central dot remain the same.

Effects of temperature are approximately taken into account by adopting the mean of several standard coefficients of expansion for deal. It is hoped that circumstances may admit of employing the more correct method of determining experimentally the expansions for both temperature and humidity of the particular rods used, and applying corresponding corrections to measures made with them.

In an interesting report on deal measuring rods lately written by the Warden of the Standards of England, he shews that experiments made with them in measuring an important base in the Ordnance trigonometric survey of Britain cannot be deemed so conclusive as was then thought, against their use. That, in the case in question, their expansion from humidity was, in a distance of 5 miles, about 4 inches only, instead of about two feet as first deduced.

In using these rods on the survey now in question, their length will be frequently checked by referring them to a Standard steel bar by means of a micrometric comparator, having due regard to atmospheric conditions at time of making such comparisons.

The results obtained during the last season by this apparatus are such as to justify the belief that one mile in a day, over reasonably level country, may be measured with remarkable accuracy.

For instance—Two bases were measured, one of 60 chains, the other, a base of verification, of 66c. 25lks. The difference of a double measurement, in each case, was in the former, three tenths, and in the latter, two tenths of an inch.

The suggestion of Sandford Fleming, Esq., to that effect, having received your approval, a levelling party was placed under Mr. Russell's orders for the purpose of obtaining a section throughout on the line of survey.

This party, under Mr. H. B. Smith, C. E., was employed during the last season, as explained in Mr. Russell's report, in obtaining a section on the Principal Meridian, connecting his levels at Pembina with the survey of the Red River made by United States Engineers, and, north of the River Assiniboine, with the surveys effected for the Canada Pacific Railway, and in surveying the River Assiniboine from its confluence with the Red River, up to the Parish of High Bluff, and also connecting the said river, through Long Lake and country intervening, with the waters of Lake Manitoba.

Appendix H. A report of Mr. Smith's operations will be found appended hereto.

It will be seen that special facilities exist for opening up a navigable communication between Winnipeg and Lake Manitoba on the route indicated in the report.

Mr. Smith's proposal is to cut a channel for a river from the south end of Lake Manitoba through the Long Lake, discharging into the Assiniboine in the Parish of Baie St. Paul. The channel mentioned to be of such a size and so protected as to permit of the passage of steamers, and, at the same time, regulated in such manner as to discharge into the River Assiniboine such a volume of water as would, in connection with one lock in the Parish of St. James, suffice to render the River also navigable for steamers throughout the season. The distance between the River Assiniboine and Lake Manitoba, on the route surveyed, is some 26 miles, the fall from Lake to River being only 12.77 feet, with a nearly level country through which there would be no rock cutting required.

The project would, however, involve the placing a dam across the present outlet of the Lake at the Partridge Crop River, to prevent the flow of any water down it excepting when the lake should be above a certain level.

I am not prepared to say whether any private rights would be interfered with by the operation of such a dam. Should there be none of consequence, the immense advantages of the work in the way of stimulation to settlement, and to the trade and commerce of the Province and Territory which would result from carrying out the scheme proposed, recommend it to the favor of the Government.

Such a work would necessarily be dealt with by the Department of Public Works, and the original report, plan, and section of Mr. Smith have accordingly been transferred to that Department.

Mr. Russell's report of operations will be found appended hereto, by which it will be seen that the delay in the receipt of the instruments from the makers in London has interfered with the progress which it was hoped to effect during the past season.

The service has been well commenced, however, and you will no doubt receive next year from the gentleman in charge, an interesting progress report.

DISPOSAL OF LANDS.

The population of Manitoba has been largely added to during the past year. The element so added, with the exception of the Menonites, has been supplied principally from Ontario.

The settlements set forth in Schedule appear to have proved the most attractive to new comers. The city of Winnipeg has also greatly increased, the population being estimated, at present, to be between four and five thousand souls. This would shew that it had increased nearly seven-fold in the last three years.

Judging by the Homesteads entered, allowing an average of five persons to a family, and estimating the addition to Winnipeg at 1,500, some 8,380 souls must have been added to the population of the Province during the year.

The Menonites, of whom between thirteen and fourteen hundred souls found a home in the Province during the past season, have settled down quietly, adapting themselves to the new order of things in the most remarkable manner. These people are natives of Russia who have been obliged to leave that country in consequence of their refusal to perform Military Service, the latter being inconsistent with their peculiar religious tenets.

They are specially well adapted, from their industry and thrift, from their peaceable and orderly character and from the fact of the climate and country in the Province being congenial to them, to settle in Manitoba, to the population of which they will prove a valuable addition.

A further special feature in their habits is worthy of remark as proving them to be well suited to settle in a prairie country. This consists in the fact that they are able to provide their own fuel and building material from earth and straw or grass, prepared in a certain way.

It is understood that they intend to introduce into the Province the cultivation of the silk worm and manufacture of silk, to which they have been accustomed in their own country.

The result of their efforts in this direction will be looked for with interest.

It is hoped that the Province may attract a large share of the remaining Menonites who, it is understood, propose to emigrate from Russia during the coming year.

They are a class worthy of every reasonable encouragement at the hands of the Government.

The homesteads entered in the Province to the present time number 2,537, of which 283 were entered in 1872, 878 in 1873, and 1,376 in 1874; representing 405,920 acres.

It will be seen therefore that the entries during last year amount to more than the aggregate of those of the preceding three years.

The amendment of the Dominion Lands Act during the last session, by which a person entering for a homestead may, at the same time, enter for an adjoining quarter-section as a reserve in connection with his homestead, of which reserve he is let into immediate possession, and for which he will receive a patent on completion of the conditions of his homestead entry, has been considered a great boon by the settlers, and has been very generally taken advantage of.

The entries of this class made, since the act was amended last spring, number 636, representing 101,760 acres.

The total amount of Dominion lands sold, to the date of this report, is 50,133 acres, of which 17,504 acres were disposed of during the past year.

The total of lands entered by Military Bounty Warrant, to date, is 118,240 acres, of which 38,000 have been entered since June 30th, 1873.

The following is a statement of the monies received to this date in connection with Dominion Lands, that is to say :

Homestead entry fees	\$25,370 00
Land sales	50,133 00
Timber dues and Limit bonuses.....	2,860 00
Sale of Maps in Winnipeg Office.....	50 60
Total	\$78,422 60

PATENTS.

The number of patents issued to date is as follows :

In 1873	420
" 1874	577

Making a total of..... 977

of which only 94 remain for distribution to the owners, the latter having been already severally notified that the deeds lie in this office subject to their order.

Of the above patents, one is for a homestead, 290 are sales, 682 for Military Bounty lands, two for Hudson's Bay Company lands, and two are for lands claimed under the Manitoba Act.

So far the settling on lands in Manitoba has been attended with serious expense to the new-comer; the time actually occupied in travelling, the amount of money requisite to pay fares and living by the way, and the high prices of labour, lumber, and supplies of every kind in the Province, having proved a great obstacle in the way of its development.

When we see, however, what has been accomplished in such a short time in the face of all the disadvantages mentioned, it is fair to assume, that, with railway

communication completed, especially west of Lake Superior through our own territory, we may fairly look for a rate of progress in the settlement of that country, of which a parallel will only be found in the history of some of the most favoured of the Western States.

As a further evidence of the increasing interest being taken abroad, as well as in the older Provinces of the Dominion, in the Prairie Province, enquiries for maps and for information about the lands are constantly being received. To meet this demand a concise description of the soil, timber, leading features, &c. of each township, so far as surveyed, in Manitoba and the North-West Territories, has been prepared by condensing the reports of the surveyors.

The descriptions so prepared are submitted herewith, and it is proposed to strike Appendix "K." off separately, in the shape of a small pamphlet, a number of copies prefaced by an explanatory page, and accompanied by a small map shewing the general position of the townships described.

It may be observed that this paper includes similar descriptions of a certain number of townships which formed the appendix to a previous report of this branch.

It has been thought well however to republish these, together with those of the large number of townships which have been surveyed since, in order that, as a whole, they may be more valuable and convenient for reference.

HALF BREED LANDS.

The allotment of these lands has necessarily been delayed, owing to the following causes.

1. Claims were preferred to lands within certain townships set apart for the Half Breeds which were of such a character as to prevent a division of the lands until such claims had been disposed of.

2. The tracts originally recommended for division among the Half Breeds extended to within two miles of the rivers Red and Assiniboine. Against this proposal the front settlers in the old parishes protested, claiming the full title in the "Outer Two Miles" under the rights of Hay and Common, which, it was alleged, had been conferred upon them by the Council of Assiniboia. Both of the above questions, however, having now been finally decided, there will no longer be any unnecessary delay in proceeding with the allotment of the land.

In conclusion, I beg to be allowed to bear testimony to the zeal and trustworthiness exhibited by Mr. Codd, the Agent of Dominion Lands, and to the faithful and efficient discharge of their duties by Messrs. Whitcher and Hart, Inspectors of Surveys, as well as to the value of the regular staff of clerks, both in this office and in Manitoba.

I have the honor to be, Sir,

Your obedient servant,

J. S. DENNIS,

Surveyor General.

APPENDICES

TO THE

REPORT OF THE SURVEYOR GENERAL

OF

DOMINION LANDS.

A.

MR. LINDSAY RUSSELL'S REPORT.

DEPARTMENT OF THE INTERIOR,
DOMINION LANDS OFFICE.

OTTAWA Jan. 20th, 1875.

To the Surveyor-General of Dominion Lands,
Ottawa,

SIR,—I have the honor to submit the following report of the special survey, in the North-West Territory, for the past season, of which, under your instructions, dated July 20th 1874, I have been in charge.

The objects of the survey, as therein set forth, are, that it shall form an accurate basis throughout that territory by which to extend over it, as the occupation of the country may require, the Dominion Lands system of township survey; to obtain, by careful observation, knowledge of the climate, soil, and resources of the region traversed, and to furnish information as to geographic position and topography, much needed for the accurate mapping of that portion of the Dominion.

The proposed direction of the survey is, that it should pass through that portion of the North-West extending from Manitoba to Peace River, intersected by great water communications and the probable line of future railway across the continent.

This having been indicated, and the force at my disposal defined, the methods of carrying out the objects of the survey were left to my own professional judgment.

The commencement of work in the field was delayed, until late in the season, through the impossibility of procuring in time the outfit of instruments, ordered from Messrs. Troughton & Simms, of England, for the survey.

Although the order was placed in their hands immediately on receipt of your letter stating that the survey had been authorized, and instructing me to prepare accordingly; and though I visited their works constantly, urging our immediate need, they were unable to complete the instruments earlier. Prior work for the British parties going out to observe the transit of Venus, and large orders for instruments by the Japanese Government, occupied to its fullest capacity the force of their establishment.

I need hardly say that it was so desirable to have our instruments from the best makers in England—perhaps in the world—that I deemed it better to wait than go to others.

Towards the end of July a portion of our instrumental outfit arrived at Ottawa, sufficient to enable me to instruct Mr. A. L. Russell, D. L. S., my first assistant, to commence the field work by connecting, by careful survey, the iron boundary at the intersection of the principal or Winnipeg meridian and the fourth base line, with the Astronomic Station at Pembina, whose longitude had been telegraphically determined.

This he did in the following manner. Starting from the fourth base he made a check survey of the Winnipeg meridian, with careful double chaining and repeated azimuthal observations throughout, down to the 49th parallel or International Boundary.

Thence he measured along that parallel eastward, by thrice chaining each mile, the distance between the Winnipeg meridian and the Astronomic Station above mentioned. Careful comparison of the steel chains used by him, with standard, was made at the end of every mile.

On the 29th August, I left Ottawa with the remainder of the party, and sufficient instrumental outfit to do the principal part of the work of triangulation westward from Mr. A. L. Russell's point, the iron boundary before mentioned.

We were delayed on our journey to Manitoba by the necessity of going down the Red River by steamer, on account of our instruments, chronometers, base apparatus, &c., that could not go by stage waggon.

These steamers are governed by circumstances as to time of sailing, and have not stated days of departure. We unfortunately arrived at such time as to lose altogether four days, waiting for a steamer. This, with a slow passage down at low water, prevented our fairly getting to work at our base of triangulation until September 18th.

A few days after this Mr. A. L. Russell and his division of the party joined me. Having completed the part of the survey already described. I instructed him to proceed westward to the vicinity of the White Mud River, there to carry on a section of the triangulation.

The leveller, Mr. H. B. Smith, C. E., had hitherto—besides making some useful connections of the water levels below the rapids at St. Andrews on the Red River, the mouth of the Assiniboine, and the Red River at Pembina—been engaged in getting a profile along the lines surveyed by Mr. A. L. Russell.

Considering that the country, over which our triangulation would for the rest of the current season extend, had been fully examined and levelled by the Engineers of the Pacific Railway Survey, I judged it desirable to turn our levelling party to more profitable account than that of verifying facts already well obtained. I therefore instructed him, instead of carrying his line of levels westward, in our track, to take them up the course of the River Assiniboine, and at same time to make such observations of the nature of the stream, and the obstructions to its navigation, as would enable him to report upon its value for that purpose, and approximately the ameliorations it might require.

I also directed him to make an examination, and obtain a profile between the River Assiniboine and the south end of Lake Manitoba, by the way of Long Lake, sounding the latter, and thence following the lowest intervening ground he could find, with a view to possible future connection by canal of the navigation of Lake Manitoba with that of the Assiniboine.

Mr. Hermon, P.L.S., had, a previous season, reported to me that during the course of a survey in the vicinity he had seen the possibility of such a connection, from the existence of ground of a low level throughout, between Long Lake and Lake Manitoba, exceedingly favorable to a canalling project.

Mr. Hermon's judgment proved quite correct. Mr. Smith found a practicable line for the connection of navigation, and the relative level of the waters to be such as to admit of turning those of Lake Manitoba into the Assiniboine, to regulate its depth, and for the creation of water power, both objects of great importance in the locality concerned.

Mr. Smith's report on this, and his examination of the Assiniboine, are appended. I have much pleasure in drawing your attention to the creditable manner in which, with limited means at his disposal, he did the work assigned to him.

Returning to the main occupation of the survey—the carrying of a series of triangles from the Winnipeg meridian westward—this was continued by both sections of the party until winter had set in and the weather became sufficiently severe to interfere with accurate observation of the angles.

On the 10th November, the work immediately under my own charge had reached Mr. A. L. Russell's section, and closed with it. I then moved the whole party down to the vicinity of Sturgeon Creek, and, availing myself of the finer days, ran the triangulation from the Winnipeg meridian into Winnipeg, tying in its geographical position by stations on Fort Garry, St. John's Cathedral, and the Iron Township boundary in rear of the town.

This closed our work of this nature for the winter, making the total distance covered by the survey, from the Astronomic Station at Pembina to the western termination of A. L. Russell's triangulation, and including that between the meridian and Fort Garry, a hundred and sixty miles.

Having received, on my return to Winnipeg, your telegraphic instructions that the force of the party was to be employed during winter, under direction of Mr. A. L. Russell, in laying out meridians and bases for townships east of the Lake of the Woods and along Rainy River, I proceeded to make the necessary arrangements for placing supplies in depots in these localities.

This was effected with some difficulty; no one was passing over the Lake of the Woods road east of its first thirty miles; therefore the road had to be broken along it, and over the ice on the Lake of the Woods, the rest of the 150 miles that supplies were drawn. The absence of any forage the entire way was also unfavorable.

Food for the party for the winter having been thus placed in centre of their work, and having provided them with an outfit of camp equipage suited for the season—snow-shoes, dogs and dog sleds for transport—I despatched them on the 8th December to the Lake of the Woods, starting myself the same day on my return to Ottawa.

Having thus given an outline of the manner in which the party was occupied in the field, I shall proceed to give some details of the method of survey, the processes and instruments employed.

The 49th parallel of latitude, as established by the International Boundary Commission, being the datum line across the continent to which our system of bases and meridians has to be referred throughout, it was necessary that the present survey should be connected with some fixed point upon it.

It was also requisite for the accurate laying down of the geographic position of important places, and features of the country to be traversed, that the absolute longitude of the commencement of the survey should be obtained.

For the purposes of the British section of the International Boundary Commission, and those of the Dominion Lands Surveys, in 1872, Capt. Anderson, R. E., Chief Astronomer to the British Commission, at Pembina, in co-operation with myself at Chicago, determined, by the electro-telegraphic method, the difference of longitude between the Observatory at Chicago, and his astronomic station at the former place. This, with the known relative position of Chicago and Greenwich, will give, by reference to the Pembina station, the necessary connection of all our future surveys with Greenwich.

Hence the adoption of the Astronomic Station on the 49th parallel at Pembina as the point of departure of the present survey.

The accuracy of position, relatively to the 49th parallel, of our bases, can always be checked by carefully observed astronomical latitudes, therefore the actual measurement on meridians, of northing or southing, does not require to be made with as minute precision as that along the bases in the east and west direction, on which no direct astronomic observation gives a check of any value.

Until telegraph lines are constructed, throughout the country traversed, the accuracy of differences of longitude will depend solely on that of survey measurement.

For this reason it was necessary to employ the method of triangulation in carrying the survey westward. On the check survey of the Winnipeg meridian careful double chaining was deemed sufficient. The interval of ten miles between the meridian and Pembina station was not triangulated, the circumstances being so favorable to accurate chaining, and the distance so short, that thrice measurement by that means was considered sufficiently accurate; the probable error bearing a small ratio to that of the absolute longitude of the point of reference.

I have reason to believe, from the close inter-agreement of the different measures of each mile, that the longitude of the Winnipeg meridian from the Pembina Astronomic Station is determined to a couple of feet, or as closely as measurement with the ordinary chain will admit. The evenness of the ground—perfectly level prairie—was in the utmost degree favorable to accuracy.

As the computation of the triangles and of astronomic observations is yet in progress, I am unable to show for the whole of the work, by closing results, the comparative accuracy of the triangulation, but the following differences were obtained for the portion calculated.

From the initial base, by a chain of twenty-eight triangles, whose sides would average about two miles, to the first base of verification, the length of the latter by calculation differed from that obtained by direct measurement an inch and a half, or as the base of verification was about $69\frac{1}{2}$ chains long, a closing error of about $\frac{1}{38000}$.

The double measures of these bases with our base apparatus had compared as

follows—difference of first and second measurement of initial base, three-tenths of an inch; the same between first and second measure of base of verification, two-tenths of an inch.

The azimuth of the base of verification mentioned, deduced from the initial base through one side of the above chain of triangles, differed from that obtained by the other side four seconds of arc. In the next series, of twenty-two triangles, the azimuths similarly carried forward from the beginning to a common side at the end of the chain differed a second and a quarter.

In measuring horizontal angles on the prairies, the cause of error most beyond control, is that of unsteadiness of image produced by irregular refraction. This occurs to so great an extent as to produce frequently an apparent lateral displacement of the station under observation, of many seconds.

In such cases there is no other resource than to wait for more favorable atmospheric conditions. Hence a good deal of lost time in observing. For two or three weeks in the fall our progress was similarly hindered by large prairie fires in our vicinity, their smoke making it impossible to see any distance.

It is a question whether the difficulty of lateral refraction might not be considerably lessened by observing, from the top of a framed staging, at a height of 20 or 30 feet from the ground. Some experiments shall be made at the outset of next season's work, to ascertain whether the advantage in this direction, and in the increased range of sight to be gained on prairie by very moderate elevation of the observer, would warrant the cost of transport of portable frame-work for the purpose.

The station signals used are similar to jointed flag-staffs, and are capped by bright tin cones, with a brush below; they are stayed by three rope guys, an iron pin in the foot of the mast being stepped into the station mark, an oak post with central hole in head driven down till even with surface of the ground.

The angles are taken with ten-inch theodolites, by which five seconds can be read. To obtain greater precision, by taking the mean of many observations, a number of series of direction readings is taken at each station.

A series consists of the successive readings, from that on the station adopted as zero, round on each station concerned, through 360 degrees back to the zero station. The difference between the first and the last direction reading on this station being the closing error of that series.

To eliminate the instrumental errors of collimation, inclination of horizontal to vertical axis, and to decrease those arising from errors in graduation and from play in clamps and tangent screws, these series are arranged as follows, premising by way of explanation:—

That "Face Right" and "Face Left" are positions of the verniers and telescope axis differing 180 degrees, or a semi-revolution in azimuth.

That "Forward Motion" indicates that the instrument is revolved in azimuth with a motion from left to right, in the same direction as the hands of a watch. "Backward Motion," the reverse.

That for both motions, in bringing the observed object in coincidence with telescope wires, the tangent screw shall always be turned so that the motion shall continue onward in same direction.

That Positions 1, 2, 3 mean respectively, that the position of the fixed or graduated limb of the instrument is so shifted for each that if A be the line of graduation directed to the zero station in position 1, then will the lines A + 120, A + 240, come successively opposite that station in positions 2 and 3.

The arrangement is then:—

1st Series, Position 1, Face Right, Forward Motion	
2nd " " " Backward "	
3rd " " " Face Left Forward "	
4th " " " Backward "	

and so on, for each of the two other positions, giving twelve series in all, and for each position eight vernier readings; therefore, twenty-four for any one direction, and forty-eight for any angle

The azimuth of the sides of the triangles are checked at intervals by referring them to circumpolar stars, the method of observation being similar to that already stated for horizontal angles of the triangulation, with the addition of noting level readings and chronometer times.

A reference mark is used, consisting of a box about 9 inches cube, firmly mounted on a stand, and placed at such a distance as to be seen clearly through the telescope without altering its stellar focus. The fronting face of the box has in it a vertical slit of about a quarter of an inch opening; inside is a lamp, and between it and the slit is a ground or white painted glass pane, preventing irradiation and producing sharp definition of the edges of the slit to ensure precision when bisecting it with the telescope wire.

The scheme for azimuthal observations stands thus :

POSITION 1.

Face Right.

Forward Motion,—	Mark, _____,	Level Reading,	Circle Reading.
“	Star, Chronometer Time,	“	“
Backward Motion,—	Star, “	“	“
“	Mark, _____,	“	“

Face Left.

Forward Motion,—	Mark, _____,	Level Reading,	Circle Reading.
“	Star, Chronometer Time,	“	“
Backward Motion,—	Star, “	“	“
“	Mark, _____,	“	“

and so on for each of the other two positions.

When taking the measures of a horizontal angle, the result of reversing the instrument, the inclination of its vertical axis being considered constant, is to reduce the angle to its projection on a plane passing through the instrument at right angles to its vertical axis of rotation, and therefore there is a further correction to reduce it to its projection on the plane of the horizon. This is obtained by level readings.

In prairie country the stations to be observed are usually so nearly on the same level that, with ordinary care in keeping the rotation axis of the instrument vertical, this correction is inappreciable. The level readings require to be noted only when stations differ much in elevation, and that there is risk of change of inclination, or when one of the objects is a star, as in the scheme for azimuthal observations above.

These azimuths are also checked by comparison with a meridian mark established by observing transits of circumpolar and southern stars.

To obtain the latitude of Astronomic Stations the following methods are employed:—

1st. Zenith distances of Polaris, and other standard polar stars are observed in reversed positions of the altazimuth, with the chronometer times of observation; also, an equal number of measures of circum-meridian zenith distances of standard southern stars, the mean of whose altitudes corresponds to that of the polar stars.

2nd. The latitude is deduced from the observed interval of time between the east and west transits of stars across the prime vertical.

3rd. Direct measurement, by means of a micrometer screw, of the differences of the meridian zenith distance of pairs of stars north and south of the zenith, Talbot's method.

The special construction of the altazimuth used admitting of the equally careful application of all these methods, they become in a measure, from the difference of principle or procedure involved in each, independent checks on one another.

Method No. 3 has the advantages over the others of rapidity of observation, simplicity of construction of instrument it requires, and freedom from the errors

involved in graduation, or change of form of graduated circles; but, in the present condition of star catalogues, has the drawback, that to comply with the restriction, of nearly equal altitude of the north and south star in each pair—the cases of such coincidence occurring rarely among the fewer standard (best determined) stars, it is necessary to have recourse to the more numerous class, those whose positions are less accurately known.

In the first method, by increasing the number of points at which the measuring circle is read—*i.e.*, the number of reading microscopes,—and by being careful to select stars so that the averages of altitudes north and south shall not differ widely, the errors arising from undetected irregularities of graduation and from change of form can be rendered inappreciable. In this method, the condition of equality of altitude north and south is so modified that there is no difficulty in finding for any latitude suitable standard stars.

The second method is of the three the least convenient of application in the field; but is specially valuable as a check on either of the other two, on account of the, to some extent, independent data from which by it the latitude is deduced. It can be more successfully carried out in an observatory, where the stability of the instrument used can be better ensured, where the small changes from fixity of position occur more slowly and are more uniformly proportionate to the intervals of time during which they take place. Satisfactory results can, however, be obtained in the field, with a properly constructed instrument, carefully placed and used in such wise as not to depend for too long an interval, without reference to stars, on its stability in azimuth.

Common to all three methods, and entering directly in the results of all to its full amount, is any error arising from irregularity of action of levels, usually caused by alteration of curvature of the tubes due to their exposure, in course of observations, to changes of temperature. Attention to certain points in mounting them, and enveloping them, as much as their use will permit, in non-conducting material, tend to prevent those rapid changes which have worst effect.

For the first method, the following is the process of observation:—

The altazimuth having been carefully adjusted and levelled, so that the outstanding instrumental deviations shall enter as exceedingly small factors, the telescope and vertical circle are firmly clamped at, approximately, the altitude of the polar star to be observed. The azimuthal motion is also clamped, and the star having been brought into a suitable position in the telescope field, the four circle microscopes are read and noted, also the three levels of the microscope bearer. A series of several measures is then made between the star and the middle fixed horizontal wire of the diaphragm, by means of the moveable wire of the telescope micrometer, the chronometer time being noted with each measure; then the readings of circle levels and microscopes are repeated in order the reverse of that at the first readings.

The mean between the readings before observing, and those last taken is the adopted circle reading, to which is referred each one of the intervening series of micrometric measures of the increments of zenith distance.

The instrument is then reversed, and the same course pursued, with the difference that a double set of micrometric measures and three readings of microscopes and levels are made.

Then the instrument is returned to original position, and first series repeated, giving finally an equal number of zenith distances in the two positions—face right and face left.

For the accurate interpolation of the changes of refraction throughout the observations, the thermometric temperature and height of barometer are read at beginning and end of each position. To eliminate the effect of errors in the adopted declinations or right ascensions of the circumpolar stars, the observations on them are repeated when they are at diametrically opposed points of their diurnal path.

The southern stars are observed in a similar manner, near and on the meridian, in reversed positions of the instrument, with the slight difference that,—the rapidity of their motion requiring change of azimuth of the telescope to keep them in its

field of view during the series of micrometric measures,—it is necessary to read the levels at every measure to obviate the effect of any change of inclination that might be consequent on the movement in azimuth.

The mean of the results, obtained by the foregoing method, of observation of alternate northern and southern stars, gives a latitude free from the effects of flexure, or other constant known, or unknown, causes of error.

For the application on this survey of the third or Talcott's method,—which is similar to the first in principle, but different in the process involved,—an additional very sensitive level is connected directly with the telescope of the altazimuth, somewhat in the manner of the level attached to the zenith telescope, which is the instrument usually employed in this method.

The following is the course of the observations and their record. The telescope having been clamped at the mean of the meridian altitudes of the pair of stars to be observed, it is set in azimuth for the star which culminates first, as the star crosses the meridian it is, by an onward motion of the micrometer screw, bisected by the moveable wire. The telescope level is instantly read and noted, and next the micrometer reading.

The instrument is then turned 180 degrees in azimuth and the same process repeated with the other star of the pair.

As the instrument is very closely placed in the plane of the meridian, the chronometer time of bisection is noted only when the observer has failed to make it exactly at transit, and that it therefore requires reduction to the meridian.

When the stars used have been observed a number of times at standard observatories, results from them, on account of the greater certainty of their declination, have more than usual weight, it then becomes worth while to repeat the micrometric measures on them, noting the chronometer times as in the method of circum-meridian zenith distances; but this seldom happens with the available pairs of stars, generally of lesser magnitude, among which class the fortuitous concurrence of equality of altitude, and shortness of interval between transit of each, with certainty of position is rare.

The second method, that of obtaining the latitude by observing the transits of stars across the east and west verticals, is carried out as follows:—

From the catalogues are selected two groups of stars whose declinations are about a degree less than the latitude, and so disposed that the stars of each come closely one after another, and with such interval between the groups as will admit of their being observed in the following manner:

The meridian reading of the azimuth circle of the instrument having been checked by reference to the previously established meridian mark, its upper or moveable part is clamped at the reading which places the central wire of its telescope in the plane of the prime vertical, then the chronometer times of the transits of the stars of the first group over the several wires are noted for their passage across the east vertical. The axis level is carefully read for each star,—it remains on the axis during the course of the observations.

Reference to the meridian mark is again made in case of any small azimuthal change of position of the stand. The instrument is reversed, the ends of the telescope axis being revolved through exactly 180 degrees of azimuth, and again clamped in the plane of the prime vertical, then the times of transit of the first group of stars over the west vertical are similarly recorded. This gives for that group of stars a series of observations in each of the positions—face north and face south—of the instrument.

In this latter position the east transits of the second group of stars are observed, and then by reversal back to the original face north position, the west transits of the same group.

This proceeding eliminates from the result of these observations any effect of collimation or wire interval.

Meteorological observations were not made, for the reason that our outfit for that purpose was not complete at time of starting to the field; further, it was not judged

of any profit to make partial observations, as the work would lie for the short part of the current season comparatively near to one of the fully equipped government meteorological stations—connected with the Magnetic Observatory at Toronto—by which full returns would be made.

The systematic record of observations of this nature, during the survey, will begin with the commencement of next season's field work.

For analogous reasons I shall not enter into any description of the climate and resources of the country traversed at this the outset of the survey. Many previous official reports have given in ample detail its characteristic features, and the now widely spread experiences of travellers and residents have borne witness so fully to the wonderful healthfulness of the climate and exceeding fertility of the soil of Manitoba, that to add further testimony would be needless reiteration.

It remains for me to say something of our transport and supply.

Immediately after arriving at Ottawa last summer, I made arrangements for the purchasing and forwarding to Manitoba of the principal supplies required for the survey. It was necessary to provide not only for the current season but also to have in Manitoba a sufficient quantity to send thence westward for the next year.

In fall when weather became cold, and therefore provisions less subject to damage in transit, I had forwarded to Fort Ellice the staple supplies for the ensuing year. This was excellently attended to by Mr. Graham, our commissariat officer, who personally inspected the repacking and salting of every barrel of survey bacon, and saw it safely stored for the winter in the warehouse obligingly placed at our disposal by the Hudson Bay Company.

For transport in the field some horses were bought, some hired, the latter being those required for a comparatively short time. Three of the former were killed by a stroke of lightning in one of the violent thunder storms that pass over the prairie region. The balance of them I caused to be sold, as they had been broken down during the course of the survey, particularly the last few weeks of it, when the grass was poor and covered by several inches of snow. Grain being difficult to procure, they were worked with little or none, and were without shelter at night in the temperatures of twenty and thirty degrees below zero. They were totally unfit to keep for the service of another season.

In this connection I may remark that though the native horses can live out all winter in the snow and provide for themselves, if they have nothing else to do, they must, to keep them in effective order when worked on the prairies, have at the least, in spring and fall, while grass is poor, a fair supply of grain.

Those who, on the score that these horses have been born to the climate and conditions, treat them otherwise, practice a false economy.

In closing I have to commend the zealous attention to their duties shewn by those who were my assistants in this service.

I have the honor to be, Sir,

Your obedient servant,

LINDSAY RUSSELL,
Assistant Surveyor-General.

SCHEDULE B.

SHewing Surveyors employed, together with amount of Subdivision work performed between 30th June, 1873, and 31st December, 1874.

SCHEDULE G.
SHEWING Indian Reserves Surveyed.

Band.	Locality.	Under which Treaty re-served.	Area.	By whom Surveyed.	Remarks.
			Acres.		
Chief Henry Prince and band	St. Peters, Manitoba....	No. 1.....	39,250	D.L.S., A.H. Vaughan	The area given is exclusive of Parish Lands.
Roseau River Band	Mouth of Roseau River, Manitoba	" 1.....	13,554	do F. A. Martin.....	Situate in townships 2 & 3, in 2nd range east.
Winnipeg River band	Mouth Winnipeg River, N.-W. Territories ...	" 1.....	23,250	do J. W. Harris ...	The area includes certain lands settled on.
Chief Yellow Quill and band.....	Riv. Assiniboine, above Prairie Portage.....	" 1.....	34,063	do C. J. Bonchette & do M. McFadden...	{ In townships 8 and 9, in 7 & 8 ranges west.
Chief Francois and band	Crane River, N.-W. Territories	" 2.....	10,865	do W. Wagner.....	
Sioux Indians (refugees from the United States).	A Reserve was by instruction laid out by D.L.S. Wagner for these Indians at the confluence of the Rivers Assiniboine and Little Saskatchewan; but, on an application subsequently made by the band to have the same changed, in consequence of scarcity of timber on the land, a new site is about to be surveyed further up the Assiniboine River.				

H.

DOMINION LANDS OFFICE,

WINNIPEG, MANITOBA,

November 30th, 1874.

SIR,—In accordance with your instructions dated September 24th, I have made the required preliminary exploration of the River Assiniboine, and have now the honor to report as follows :

PARISH OF ST. JAMES.

One mile from mouth of river, upwards, the depth is good, from 9 to 12ft. Banks of stiff clay and very steep, 28 to 30ft. Bed of river, stiff clay. Current mild, from one to two miles per hour. Half a mile beyond Colony Creek, rapids begin. There are no less than four rapids in parish of a very serious nature. The aggregate fall of these in four miles is 13.24ft. The whole four present the same characteristics—bars of boulders and gravel shoals running right across stream from side to side, leaving no passage for any vessel larger than a canoe.

The boulders are from 2 to 4ft. diameter, and are for the most part of a silicious nature, though a few are compact limestone. The bed they lie on is argillaceous, though a thick coating of gravel protects it from the force of the current, which in some places reaches as high as four miles per hour. Banks throughout are steep, ranging from 25 to 10ft. high, and of a stiff clay nature. Little or no timber is to be found in the parish.

On the whole, this parish may be set down as unfit in its present state for any kind of navigation. In the spring floods, however, the level rises 16ft. The ordinary summer level during the months of June, July, and August is 3ft. above present level.

PARISH OF ST. CHARLES.

In the length of this parish two rapids occur, very serious ones, as they totally obstruct navigation. They are similar to the rapids in St. James, with the exception of the boulders, which are in these much larger. A few stretches of deep water occur.

Current in general, is mild, though, in some places, it increases to three miles per hour. In general the river presents a much better appearance than it does in St. James.

Navigation for 2ft. draught might be obtained throughout. Banks of stiff clay and from 10 to 12ft. high. In a few places good timber of elm and cotton wood may be obtained. Average rate of inclination of river's surface in this parish is 1.34ft. per mile.

PARISH OF HEADINGLEY.

In this parish there are no rapids. The main obstructions are sand shoals and isolated boulders. These boulders are very dangerous, as many of them are covered with a foot of water. Banks are from 10 to 12ft. high, and composed of sand and clay in mechanical combination, clay predominating.

Some good timber may be found on both sides, consisting of elm, oak, and poplar, but not in large quantities. A 2ft. 6in. or even a 3ft. passage might be made, under good guidance, throughout this parish. Average rate of inclination of river's surface throughout this parish, 0.80ft. per mile.

PARISH OF ST. FRANCOIS-XAVIER.

Navigation, throughout the whole length of this parish, is impossible, sand shoals and sand banks 18in. and 2ft. above the river's level occur in every direction. It is impossible to find a single mile of the river in this parish free from these obstructions.

At every bend the convex bank shoals out gradually into the stream, leaving only a narrow passage of from 50 to 100ft. on the opposite side. Occasionally a half mile stretch of deep water may be found, but this is the exception, not the rule.

The sand banks and shoals above mentioned, show evident signs of constantly changing. In many places they shew a sharp fractured contour, as if large pieces were frequently broken off by the force of the stream.

The banks are from 10 to 12ft. high, and composed of sand and clay, sand predominating.

The current is rapid, averaging $2\frac{1}{2}$ miles per hour. Good timber may be found in great abundance on both sides. A passage of 18in. to 2ft. might be found throughout this parish. Average rate of inclination of river's surface is 0.70ft. per mile.

PARISH OF BAIE ST. PAUL.

This parish is rather worse than the preceding one. From beginning to end the river is one continuous series of sand and gravel shoals. Any part of the river that is free from these is very much obstructed with snags and submerged boulders from 1 to 2ft. diameter. As a rule the current is mild.

Banks of clay and sand, from 10 to 14ft. high, and well wooded with elm, ash, cotton-wood, and bastard maple. Bed of river is mainly pure sharp sand, but, in all probability, underlined by a layer of clay. The deepest channel throughout may be taken at 18in. Average rate of inclination of river's surface is one foot to one mile.

PARISH OF POPLAR POINT.

The river in this parish has several stretches of deep water, with gentle currents. However, many sand shoals and banks occur, leaving but little room for navigation. It is possible a channel of 2ft. might be found throughout. In general, the current is mild. Banks of clay and sand mixed, and from 10 to 12ft. high. Bed of river, of pure sand, which, by its ribbed nature, shows its constant instability. Average rate of inclination of river's surface throughout this parish, 1.18ft. in a mile.

PARISH OF HIGH BLUFF.

The river in this parish is totally impassable. From beginning to end, it is one continuous series of shoals and shallows. Banks 10 to 12ft. high, of a clayey nature and well wooded. Current, alternately swift and mild; bed of river, sand. Average rate of inclination of river's surface, 1.18ft. per mile.

The River Assiniboine, in its present state, seems to be unfit for any navigation on a more extensive scale than canoeing. As a river naturally navigable at all seasons of the year, it never could exist. The grade is much too great, being, on an average, 13in. to a mile. This grade, on a hard gravelly bottom, with firm banks and regular channel, would only produce a rapid current of about three miles per hour, but in the Assiniboine River, its effects are of an entirely different nature.

Inasmuch as the banks are of a soft yielding nature and, in many places of pure sand, the action of the water in passing down this steep grade tends continually to carry away their particles and distribute them over the bed of the stream. Hence the formation of sand banks and shoals.

According to the accounts of old settlers, the river seems, some 40 or 50 years ago, to have been much narrower and deeper. The constant slips of different parts of the bank, and their present appearance, confirm these accounts. Every year in the spring floods large portions are carried off. Great slides take place, when often masses of earth many tons in weight are precipitated into mid-stream. It must be borne in mind that the river is very seldom as low as at present, (Oct. and Nov.) Old settlers tell me that, as a general rule, during the months of April and May the

River is 10ft. deeper, and that a channel of 3ft. may be relied on all through June, July and August. Since this is the case, steamboats such as navigate the Red River, could, with light loads, navigate the Assiniboine during some months of the year with but little difficulty. Indeed, I am informed that the steamboat "International" went up as far as Portage La Prairie, last spring.

Owing to the yielding nature of the banks, the instability of the bed of the river, its crooked course, and the rapid changes of current due to its grade, I am of opinion that the only method of effectually deepening this river is to let into its channel such a volume of water as would keep the level continually up to that of June, July, and August. Dredging would not succeed, as, no sooner would a channel be made than it would be filled up. Dams and locks, or a thorough "canalization" of the river would succeed, but at an enormous outlay of money and at great inconvenience to the shipping passing up or down.

Such a volume of water can be obtained from Lake Manitoba. By reference to the accompanying plan and profile, the general nature of the country over which the water will have to be carried may be seen. I propose that the Assiniboine River be deepened as follows. Let a regulating weir be run across the head of Partridge Crop River, the only outlet of Lake Manitoba (see section.) Let the level of the lake, by means of this weir be kept at a level never lower than 150-90ft., or 2ft. higher than the level of November 17th, (this increased level will be the average summer level of the lake.) Then let a ship channel be cut through the marsh, creek, and prairie, and Long Lake to river, (as shewn on plan by red lines) the depth of which will be 7ft., and breadth of bottom 100ft., with side slopes of 2 to 1, and an average grade of 6½ in. per mile. Such a channel would have a velocity of 2-21ft. per second, and a hydraulic mean depth of 6-09ft.; while it would discharge into the River Assiniboine 1760 cubic feet of water per second.

The river on Oct. 15th was discharging a volume equal to 733 cubic feet per second, so that this volume of 1,760 cubic feet would raise the level from 3ft. to 3ft. 6in. This proposed artificial river will thus not only have the effect of deepening the river and the lake, but also of affording free communication for large steamers between the two.

By means of a regulating weir at the head of proposed river, the discharge could be kept up to the full amount of 1760 cubic feet per second, or reduced to any required volume to suit the changeable state of the river. The surplus waters of the lake could then flow over the regulating weir at the head of Partridge Crop River.

The carrying out of this scheme will entail no danger on the surrounding country. The worst that can happen will be the drying up of the proposed river by the breakage of the Partridge Crop Dam, or a temporary small flood in the Assiniboine by the breakage of the regulating weir at the head of the proposed river. The river being kept artificially at a level 3ft. higher than the present level will be productive of no more harm than is done by the elevation it stands at during the summer months.

The country to be cut through seems to be naturally fitted for this project. The route shewn on plan is so low that a large piece of embankment will be required.

There are no signs of any rock formation. Settlers who have dug wells in the immediate neighbourhood have gone down as far as 20ft. without finding stone of any kind. As far as one can tell without actual borings, the necessary excavations can be made without any difficulty. The dredging in the creek and Long Lake may be easily performed. Piers and defences will be required in Lake Manitoba. Two parallel piers running out 150ft. into the lake, with a breakwater in front, will answer every purpose. A little dredging will be required in the lake at this particular point, as the beach shoals very gradually.

In the Assiniboine River it might be advisable to place a weir dam and lock at some point in the parish of St. James, inasmuch as the rapids in this parish will, at all times, hinder navigation somewhat.

The improvements suggested above may be effected at a cost of \$878,000, distributed as follows:

Excavation in marsh.....	315,400	c. y. @ 25 cents.....	\$78,850
Dredging in creek.....	295,700	" "	73,925
Excavation in prairie	1,056,000	" "	264,000
" "	498,000	" "	124,500
Embankment, Long Lake...	558,500	" "	139,625
Dredging in " ...	131,000	" "	32,750
Excavation in bank	123,000	" "	30,750
2 Piers, in Lake Manitoba, 150ft. long			10,000
1 " " 200 "			6,000
Regulating weir, Partridge Crop River.....			10,000
" " and guard lock in New River			14,000
Weir and lock in Assiniboine River			14,000
			<hr/>
			798,400
Add for contingencies, 10 per cent			80,000
			<hr/>

Total cost..... \$878,400

In conclusion, I beg to remind you that this is merely an interim report and estimate. So, also, the plan and profile.

I have the honor to be,

Sir,

Your obedient servant,

Signed, HENRY B. SMITH,
Member of the Institute of Engineers in Scotland.

SCHEDULE I,

Of Instruments for use on "Special Survey" in North-West Territory.

-
- 1 12-in. Altazimuth.
 - 2 10-in. Theodolites.
 - 2 6-in. Transits.
 - 1 5-in. Reflecting Circle.
 - 2 Box Sextants.
 - 2 Prismatic Compasses.
 - 2 Exploring Compasses.
 - 6 Pocket Compasses.
 - 2 Levels and 2 Levelling Rods.
 - 3 Field Telescopes.
 - 1 Box Chronometer.
 - 2 Pocket Chronometers.
 - 1 Mercurial Barometer.
 - 3 Aneroid "
 - 2 Sets Maximum and Minimum Thermometers.
 - 2 " Wet and Dry Bulb "
 - 1 Set Base Measuring Apparatus with Stands, Clinometers, &c.
 - 1 Standard Steel measure for do and Micrometric Comparator Bar.
 - 6 Brazed Link Steel Chains.
 - 3 Steel Tapes.
 - 50 Trigonometric Station Poles with iron joint fittings and guys.
-

SCHEDULE K.

DESCRIPTIVE EXTRACTS FROM SURVEYORS' REPORTS OF TOWNSHIP SURVEYS IN THE PROVINCE OF MANITOBA AND NORTH-WEST TERRITORY.

This appendix contains extracts from the Reports of the Township Surveys in the Province of Manitoba and part of the North-West Territory adjoining, describing the nature of the surface, the kind and quality of the soil and timber, and the supply of water afforded by lakes, streams, and springs, and to be obtained by digging, with such other information respecting the fitness of the several townships for agricultural or lumbering operations as would aid the intending settler in selecting a suitable location.

The accompanying small map shews the position of the respective townships.

RANGE I—EAST OF THE PRINCIPAL MERIDIAN.

Township No. 1.—The soil consists of the best clay loam, and is very fertile, beautifully undulating. The only timber grows on the banks of the Rivière aux Marais. It is very limited in quantity. The surface is dry, but water can be easily obtained by digging a moderate depth.

Township No. 2.—Has a very good soil, and is well adapted for farming purposes.

There is no running water in the township, but many parts of the north-western sections are low and marshy during the spring months. No timber is available nearer than the Red River, which is five or six miles distant from the centre of the township.

Township No. 3.—The soil all over this township is first class; it is of the very best kind for the production of all kinds of grain.

In this township there is no timber fit for building or other purposes; a plentiful supply of good water can readily be found.

Township No. 4.—The soil throughout this township is of the very best quality, and can favorably compare with the finest in the Province. There is, however, no timber which can be utilized.

Good water can be found in several places.

Township No. 5.—Is high dry land with a very rich soil. It is open prairie, with the exception of one poplar grove, in section No. 33, three-fourths of a mile long by one-fourth broad, and a few small patches of willows. The Rivière aux Gratiass runs in a south-eastern direction through the township.

Township No. 6.—The soil of this township cannot be surpassed for richness. Its surface is beautifully diversified with dry prairie, suitable for cultivation, and moist prairie producing a heavy growth of wild grass.

The Rivière aux Gratiass is the only stream in this township.

With the exception of a few willows in the south-west angle, and a small part of the poplar grove, which extends southward into Township No. 5, in the same range, it is entirely destitute of timber.

Township No. 7.—Is a beautiful plain, with a rich and productive soil, but totally devoid of timber and running water.

Township No. 8.—Has exceedingly fertile soil. A fine belt of oak and poplar timber fringes the Rivière Sale, a river so called from the smell, taste and appearance of its waters.

Township No. 9.—Is all prairie, with the exception of a few small bluffs of poplar and willow.

The land is high and of good quality.

During the time of survey the whole township was devastated by fire, which destroyed nearly all the wood growing upon it.

There is no running water in the township; the nearest water is that of Rivière Sale and Red River.

Township No. 10—Is excellent dry rolling prairie, with the exception of about one fourth of it, which is hay land. This portion of it is low rich bottom land, and produces a rank growth of hay. The dry land is excellent soil, having a rich black loam with subsoil of clay.

This township is lightly timbered with clumps of poplar and willow.

Township No. 11—Is a level prairie with a few willow bushes. The Sturgeon Creek running through it from west to east, and about the middle from north to south, gives to this township a great advantage.

The soil is in general of first-class, and very well adapted for agricultural purposes.

Township No. 12—Is a rolling prairie with a good many depressions thereon, forming meadows, part of which have been cut. Some of these meadows are covered with a most luxuriant growth of grass reaching upwards of five feet.

In places where these meadows had been cut the second crop was found to be eighteen inches high. Two crops of hay may be procured in one season with ease.

A prominent ridge runs from the north-west to the south-east containing lime, marl and gravel. There is no running stream or natural spring of water in this township, but wells have been dug by the hay-makers, of which one contained some water in a depth of eight feet, at dry season, leading to the conclusion that a supply of water will never fail when properly looked for.

At the places where the wells have been dug the section of the ground was two to four feet of black mould, and under it blue or yellow clay.

On the higher prairie the surface soil has a depth of from six inches to one foot, with clay under it, except in those places where the gravel predominates.

There is not much wood in this township, the whole may be estimated at about three hundred and fifty to four hundred acres, consisting of young poplar and scrubby oak.

Township No. 13.—Three-fourths of this township comes under the head of "First Class." The soil is a rich loam, in some places mixed with gravel. The remaining one-fourth rates second or third class, being covered by boulders and marshes, some of which are very extensive.

No valuable timber is to be found, the chief being poplar with a few scattered scrubby oak.

Wild fruit, such as plums, cherries, strawberries and raspberries, and hazel nuts, are very plentiful.

Township No. 14.—This township is partially covered with poplar bluffs. The north sections have the largest quantity. The fire having run over the greater part of them, young poplar is growing rapidly among the burnt timber. The western portion of the township is stony and gravelly, with scattering stunted oaks.

There is some excellent hay land in the south-eastern part. The soil is generally a fine clay loam; and water may be obtained at a moderate depth from the surface. Narrow ridges of stone and gravel are to be found throughout the township. Taken altogether, this township is well adapted for agricultural purposes.

Township No. 15.—The surface of this township is principally wooded, the best timber extends in a strip about a mile wide, from the north boundary of section thirty-five into section eleven. The remainder is more broken and principally dense thicket of poplar saplings, with very bad and frequently occurring windfalls.

The southern and eastern tiers of sections are excellent land, but the remainder is alternate marshes and ridges.

Township No. 16.—The greater part is covered with heavy poplar timber. The soil is generally a light loam with clay bottom, except in the north-west part where it is mixed with limestone and gravel. Water can be obtained by digging from fifteen to twenty-five feet in any part of the township. There is a small lake of fresh and good water in the north-east corner, and a little prairie in the south-west.

Township No. 17.—A large portion is well wooded, principally with poplar, and the soil is of an excellent quality for settlement. There is a small lake—four miles long—in the centre of the township, and a few small ponds in the southerly part.

RANGE II—EAST.

Township No. 1.—The general character is a beautiful rolling prairie, sheltered from the north-west winds by Rivière aux Marais timber belt, and from the east winds by the Red River belt. It is wooded only on the borders of the Rivière aux Marais. The timber consists principally of oak and basswood, with scrub. The oak and basswood are of sufficient growth to be suitable for building, but there is only enough for the use of the sections in which it grows. Water is found in the bed of the Rivière aux Marais, and there is a small lake in sections eleven and fourteen. Good water may, however, be readily obtained by sinking a moderate depth.

Township No. 2.—Is fine open prairie, with rich soil. The banks of the Rivière aux Marais are timbered with poplar, oak, ash and elm. Water can be obtained by digging wells.

Township No. 3.—The soil is a fine clay loam. A considerable part of the centre of the township is open prairie. The east and south parts are covered with scrub, willow brush and poplar. The Rivière au Roseau traverses the south part of the township.

Township No. 4.—There is a fine ravine running through the eastern part on the banks of which are clumps of oak, with a few poplar. The west side is chiefly prairie; the south side is covered with poplar, poplar brush and willow. The soil is a heavy clay loam. The township is interspersed with hay land.

Township No. 5.—The soil of this township is very rich, and covered with thickets of poplars and willows, with beautiful tracts of open prairie between.

There is sufficient wood in this section for all immediate purposes, including building timber, which is abundant along the east side of the Red River.

There is only one small stream, and this was dry in the month of July, except in holes here and there; but water was easily obtained by digging in the bed of the stream.

Township No. 6.—Is all good land, being partly high dry prairie, and level low marsh or hay land.

Township No. 7.—Has a considerable part of its surface wet and marshy. The greatest part is, however, dry and fit for agricultural purposes. It contains no timber of any kind.

Township No. 8.—The soil of this township is excellent for both sowing and grazing purposes, but it is defective in two very essential things—wood and water. What little wood there is, is small, and the water in the river is impregnated with salt.

Township No. 9.—Is low, wet prairie land; about one-half of it is covered with small poplar and willow.

Sections 31, 32, 33, in the north end, and 1, 2, 3, 4 in the south end, as well as the extreme western tier of quarter sections, are dry prairie of good quality, and fit for cultivation.

Large quantities of hay are cut yearly upon this township.

Township No. 10.—About three-fourths of this township is bush land. The poplar timber is generally small; but will be valuable for fencing and firewood, although none of it will be suitable for building purposes.

The soil, where timbered, inclines to sand and white clay, but the greater portion of it is first-class land.

The remaining portion of the township is good hay land, and produces an excellent growth of hay.

Township No. 11.—Is wholly deficient in timber, there being only a few swamp willow and some dying poplar in Section 27, but till lately that tract was quite a luxuriant poplar bluff.

The supply of water is plentiful. Sturgeon Creek waters the south-west corner, and there is a small pond or large spring of most excellent water between Sections 20 and 21. There is also a spring in the ravine in Section 22.

The entire township will make valuable agricultural land.

A rocky or stony ridge traverses this township from north to south.

Stone is quarried in the 34th section and brought to Winnipeg for building—it is a soft greyish limestone.

Township No. 12.—Is for the most part an open prairie, there being but three or four groves of poplar, a few oak, and some swamp willow found on it; and it is quite likely that the fires which passed over it in the early part of October, 1871, have killed the greater portion of the trees, so that the future inhabitants of the township will have to obtain their supplies of firewood and fencing from other lands.

With the exception of some small areas of salty land, where a very scanty herbage grows, the entire township may be classed as superior agricultural land.

Township No. 13.—The south-easterly portion—about two-thirds of the township is chiefly open prairie of the very best description. The soil is composed of black vegetable mould, from eight to twelve inches deep, with a subsoil of clay and gravelly loam, and cannot be surpassed for richness. The north-west part is principally barren, the soil a gravelly loam, and somewhat stony in places. It is thickly covered with bluffs of poplar and clumps of large willows and alders.

Township No. 14.—Is for the most part level prairie. An extensive marsh lies in the easterly part of the township, through which flows Jack Fish Creek.

On the south-west there is a good deal of poplar, a large portion of which is fit for building purposes. There are some small islands of poplar on some of the prairie land. The soil is generally loam mixed with clay.

Township No. 15.—The surface is generally undulating, except in the extreme east, where the land is low and flat, with a large marsh and bog in the south-east corner, on the edge of which there is a large extent of hay land. This township is well wooded. The timber is principally poplar of large growth, good for building purposes. The soil is chiefly a rich loam mixed with clay. It is well supplied with water from living springs and small streams, and water can be obtained by digging from twelve to fifteen feet in any part of the township.

Township No. 16.—The surface is rolling prairie in the easterly and southerly parts, with a large quantity of good building timber, chiefly poplar, in the northwest, with some spruce and oak of good quality. It is well supplied with good water from springs and small streams. The soil is a deep, rich loam, with clay bottom.

Township No. 17.—A large portion is well wooded, principally poplar. The soil is of excellent quality.

Township No. 18.—Is well timbered mostly with poplar. There is, however, a small quantity of spruce. The soil is of good quality and well watered. There are two small lakes in the northerly part of the township.

RANGE III—EAST.

Township No. 1.—The surface is dry, level prairie. The Michel or Joe River flows through the south-westerly part, on the banks of which there is some good hay land. The soil is a sandy loam of the best description. The only timber consists of a few small islands of poplar in the south-westerly portion.

Township No. 2.—Is generally low and drained by the Rivière au Roseau, a fine stream having an average width of one chain, and a depth varying from eighteen inches to four feet, frequently even ten feet.

That portion of the township to the north of said river has a very rich soil, heavily covered with undergrowth of willow, poplar, oak, &c. The sections adjoining the river are in general very desirable locations for intending settlers, being well timbered with oak, poplar, elm, basswood, &c.

The greater portion of the township to the south of the river is low, with a luxuriant growth of grass well adapted for stock raising.

No timber except on those sections along the river.

The soil is clay loam, and exhibits indications of being wet during the early part of the season.

Township No. 3.—Is of excellent quality for agricultural purposes. It is quite dry, and gradually slopes towards the Rivière au Roscau. The soil is black loam, and the subsoil blue clay.

Large sized oak, elm and ash fringes the banks of the Rivière au Roscau, the water of which is fresh and clear.

The general surface of the township is level prairie. The east and north-east portions are open. The remainder is densely covered with small poplars and willows from five to seven feet in height.

Township No. 4.—May be considered first-class agricultural land. The soil is black loam on a blue clay subsoil.

The south-west sections are covered with a thick growth of scrub, poplar, and oak. The Wetweather Creek in the south-west part of the township contained in several places on the 2nd July, good, clear, fresh water. Good water can be obtained in nearly any part by digging.

Township No. 5.—Is not well adapted for agricultural purposes. Low marshy ground stripped of all kinds of timber, cover one-half thereof.

The Rivière aux Marais or Marsh River, runs through the western sections numbered 7, 18, 19, 30 and 31, which, with the adjacent sections 20, 17, 32, 29 and 8, may be said to be of a very good soil.

Oak, elm and poplar timber are to be found along the river.

Township No. 6.—Generally an excellent soil for agricultural purposes. The sections numbered 25, 36, 26, 35, 27, 34, 23, 29, 32, 30, 19, 18 and 17 are covered with timber consisting of oak, ash, elm and poplar, the last predominating. Several small groves of oak and poplar are to be found in a few other sections. Rat River flows from the south-east to the north-west of this township.

The surface is very level, and contains generally fine rolling prairie land.

Township No. 7.—Is well suited for agricultural purposes. It is wooded, in the south and along the bank of Rat River.

Township No. 8.—Is suitable for farming. Timber scarce.

Township No. 9.—Is apparently good land, to form an opinion, however, was difficult on account of late fires which had entirely destroyed every trace of vegetation, and in many cases consumed the surface soil itself.

Township No. 11.—The land is of the best quality, with few exceptions, level, and well adapted for meadows. It could be easily drained into the Red River.

There is a considerable quantity of timber.

Township No. 12.—Is fine rolling prairie well suited for cultivation. Salt appears in the soil in many places.

There is a considerable quantity of timber.

Township No. 13.—(North-east part.)—This portion of the township is almost surrounded by bogs, but the land is sufficiently high and dry for agricultural purposes. The soil is dark and rather a stiff clay.

The belt of meadow land running about three-fourths of the distance round it, and parts of sections twenty-five and twenty-six produce large quantities of hay.

The western part is heavily timbered with oak and poplar, but a considerable portion of it has been lately damaged by fire. The southern part is thickly covered with the same kind of timber, though of much later growth,—the central willow bush interspersed with bluffs of poplar.

Township No. 14.—The part surveyed is on the west side of the township, and is nearly all fine rolling prairie.

The soil is a good rich loam mixed with clay.

Township No. 15.—The surface is generally level and low prairie, with a great marsh in the centre. The soil is, however, very rich, being a strong clay mixed with loam. There is a large quantity of the best quality of hay land.

Very little large timber, but groves of small poplar with some scattering oak.

Township No. 16.—In the north-east part, there is a large area of woods, containing a quantity of good building timber, mostly poplar, with a few oaks of medium size, the rest of the township is hay land, low prairie and deep marsh. The soil is generally good, being a rich loam, with a good supply of water from streams and springs.

Township No. 17.—A large portion is good land, slightly undulating, and a part of it well wooded. In the northern portion there is a large windfall and about three sections of fine prairie in the south-west corner. It is well adapted for settlement.

Township No. 18.—Contains a large quantity of excellent land, well wooded, and slightly undulating. The north-west part is quite marshy and drained by a brook of considerable size.

RANGE IV—EAST.

Township No. 1. The western and principal portion is level prairie with a soil of rich sandy loam, dotted with small hay meadows. Proceeding eastward, a rise in the prairie occurs of about thirty-five feet, and to the east of this ridge the land is generally of an inferior quality, sandy and gravelly, with scattered boulders and occasional groves of poplar and willow. The eastern section is drained by a coulee, which runs in a north-westerly direction and debouches into the Rivière au Roseau.

Township No. 2.—The soil in the east half of this township is light but well adapted for the growth of light grains. Granite stones are numerous. In the west half, the soil is good clay and good clay loam.

The water supply is confined principally to the north-east quarter of the township, and consists of two or three streams, which retain water the greater part of the season.

In the west half there is no timber of any kind. The east half has many large groves of a new growth of poplars and willows.

Township No. 3.—Is of the very best quality for agricultural purposes, having a deep black loam soil with a blue clay sub-soil.

In general, and especially along Mosquito Creek, the timber is of the larger class of poplar and balm of Gilead. Along the Rivière au Roseau, there is a fringe of large sized oak, elm, ash, basswood, maple, balm of Gilead and poplar.

This township is well watered, having Mosquito Creek in the north-east, and the Rivière au Roseaux crossing it in the south.

Township No. 4.—The west part of this township is excellent farming land, good deep soil; a few scattered clumps of poplar.

The centre section is only fit for hay, being low and flat, and in wet seasons is covered with water from six to fifteen inches, being the overflow of Mosquito Creek and Rat River.

Mosquito Creek, coming in on the south, averages on the prairie about sixty links in width, about four feet deep, and of the purest water.

Township No. 5.—Is generally well adapted for agricultural purposes.

The surface of this township, though level in parts, is considerably broken. The west branch of Rat River crosses the township from the south to the north, and its east branch runs through sections numbered 24, 25, 36, 35 and 34. Water is excellent in both streams. Some rafts of timber have already been made on the west branch, and taken down in the spring season. Oak, elm, ash and poplar are to be found along the banks of both streams, extending on either side from five to twenty chains. The timber is of good quality for building timber.

Township No. 6.—This township is well adapted for agricultural purposes, the ground undulating gently, excepting in the vicinity of Rat River, where several ravines with small elevations are to be met with. The main river, towards the south of this township, receives the waters of two streams, the larger of which is called the western branch, and the smaller the eastern branch. On the banks of both these streams belts of timber are to be found consisting of oak, ash, elm and poplar.

Township No. 7.—A large part of this township is covered by marshes, interspersed with high ridges of prairie. Timber is very scarce throughout the whole township. Notwithstanding these disadvantages, about one half of the township is good farming land.

Township No. 8.—Excellent land, and well adapted for farming.

Township No. 9.—A large portion of this township consists of deep marsh, quite unfit for cultivation. The remainder is flat, the land nowhere of really good quality; on the whole the north-eastern part is the best.

Towards the south and east the land is flat, with black soil and generally clumps of willow and poplar.

Large quantities of coarse hay are cut on these lands. The south-western part is pretty good land; to form an opinion, however, was difficult, by reason of the late fires which had entirely destroyed every trace of vegetation, and in many cases consumed the surface soil itself.

Township No. 10.—The soil is generally good, although to the south and west there is a quantity of marsh.

There are no streams, and no timber of any value, except for firewood. There is a good deal of hay land. At the time of survey, the great fire, which had recently passed over the whole district, had destroyed all grasses, and left the open country a blackened waste, it was therefore difficult to judge of the quality of the land.

Townships Nos. 11 & 12.—The land in these townships is of the best quality, with few exceptions. There is a considerable quantity of timber.

Township No. 13.—With the exception of the bogs on the west side, which cover parts of Sections 18, 19, 20, 30 and 31, this township is level, with a deep light loam soil, producing, where cultivated, heavy crops of wheat of very superior quality. There are numerous groves of willow, poplar and hazel scattered over the township, none of very large extent, and although thickly, they are not heavily timbered. The lands not thus occupied are chiefly covered with willow, oak and hazel scrub, there being but little prairie.

Several enclosures have been made in the township, and large quantities of wheat raised by persons living on the Red River.

Township No. 14.—Is generally level and dry, with the exception of parts of Sections 2, 3, 10 and 11, and a large morass extending from the centre of Section 6 to the centre of Section 17, which make excellent hay lands. The soil is very suitable for farming purposes, especially that portion which is covered with short oak and hazel, being a dark friable loam.

Township No. 15.—Contains a soil of very good quality, and is timbered with large poplar, oak and willow. It is well watered by the Nipon Sipi or Notley Creek.

Township No. 16.—With the exception of the eastern tier of sections, is nearly all wooded with poplar of a large size and best quality. There are a few hay marshes interspersed. The soil is of very good quality. There are no rivers or creeks in it.

Township No. 17.—Is bounded on the east by Lake Winnipeg. The land is of good quality, well wooded and watered.

Township No. 18.—Is also bounded on the east by Lake Winnipeg. The land is of good quality, slightly undulating and well wooded.

RANGE V—EAST.

Township No. 2.—Is of first-class character, as it consists of rolling prairie. Numerous poplar bluffs with considerable good meadow land in the eastern portion. There are boulders throughout the township. The Rivière au Roseau flows through the north-east part.

Township No. 3.—Contains a great deal of willow and poplar brush. The timber is principally poplar and bluffs of tamarac and spruce, which afford good building timber. The west branch of Rat Creek runs across the north-east corner of the township, supplying clear and good water. The Rivière au Roseau crosses the south-west corner. On its banks there is a good supply of oak and poplar fit for building purposes. The land in the southern part is high and dry and well adapted for agricultural purposes. There are large openings in the woods producing very good grass for hay and pasturage.

Township Nos. 4 and 5.—Are generally well timbered, and contain very inferior soil. The timber consists generally of poplar and willow. The soil is chiefly sandy, gravelly and stony. Considerable portions are covered with drift consisting of large granite, limestone and other boulders. The west branch of Rat Creek flows through the south-western portion of township four, and the east branch through the north-east corner thereof, and across the south-westerly quarter of township five.

Township No. 6.—Contains no timber, and is not well adapted to agricultural purposes.

Township No. 7.—Is chiefly level prairie, with a heavy clay soil, undulating slightly on the western side through sections 17, 19, 20 and 30. There is a considerable tract of wet land which produces, where not too much flooded, an abundance of tall rank grass. There is but little wood in the township, and that is of inferior growth, and much damaged by fire; it is composed chiefly of poplar and willow, with some tamarac on Sections Nos. 6 and 8.

Township No. 8.—The northern part of this township, extending from the north boundary nearly to the road which leads from Winnipeg to Oak Point, is either bog or level wet land, broken occasionally by low dry willow or poplar ridges. In the south-west corner there is also a quantity of low flooded land, which renders some four or five sections unfit for farming. From the west boundary of the township at its intersection with the Winnipeg and Oak Point Road, there is a belt of good clay loam prairie land, running along the north side of the above mentioned road to the east boundary, and running along the south of the road about one-third of the distance across the township, at which point it widens out and extends to the south boundary of the township.

Township No. 9.—The surface of this township is generally level prairie, interspersed with islands of poplar, with a fair quantity of low rich bottom land, good for hay, which, with a small amount of drainage, could be made first-class farming land.

The Rivière La Seine runs through the south part of the township from east to west, the banks of which descend abruptly, averaging about ten feet in height, and are generally wooded with poplar and small oak. The water is fresh and good, and the soil a deep rich loam well mixed with clay.

Township No. 10.—A great part of this township is open and level prairie, with a large portion of hay land which lies principally to the south. There are some groves of poplar timber in the south-eastern part of the township. The soil is a deep rich loam well mixed with clay.

Township No. 11.—This is a first-class township for farming purposes, furnishing fine pasture lands with soil of the richest quality.

About one-sixth of the area of the township is taken up by marshy meadow land, very valuable for its hay. This marshy land has a considerable fall and outlet to the north-east and north-west, the water emptying into "Cook's Creek." Though springs are numerous there are no creeks or running water in the township.

Strawberries, raspberries, cherries, plums and currants, are the principal wild fruits.

Township No. 12.—The soil is of first-class quality excepting in the centre of the township, where it is inferior. The timber consist of large poplar, from twelve to eighteen inches in diameter, and spruce and tamarack in the swamps of similar dimensions.

Township No. 13.—It is well adapted for cultivation. Though there are numerous swamps they are neither deep nor large in extent.

The prevailing timber is poplar and is not of any great size, excepting along the banks of "Cook's Creek." A large part of the township is covered with scrub. The creek is supplied by springs along its course, and is consequently never dry in summer nor much frozen in winter. The water is pure and good.

Large quantities of hay are cut from the swamp land each year.

Township No. 14.—Very good farming land. Sections 25 and 36 are heavily timbered with poplar. There are a few swamps but they are not extensive.

The soil is good and deep, and water can be obtained by sinking wells to no great depth.

RANGE VI—EAST.

Township No. 2.—Is mostly high land, chiefly prairie, interspersed with fine groves of poplar timber. The soil is a dark loam, but is somewhat lighter on the ridges. The Rivière au Roseau, a fine stream of good clear water, fringed with a narrow belt of elm, oak and poplar timber of good size, flows through the township. The whole of it is adapted for farming. Rich soil upon the prairie, and a sufficient supply of timber for fuel and farming purposes.

Township No. 3.—Is generally low and level. The southern part is wet, with heavy clay soil, producing grass fit for pasturage, and the northern fairly wooded with tamarack and spruce, and there are large openings in the woods affording fine hay and pasturage. The soil is chiefly a coarse, stony gravel. The west branch of Rat Creek flows across the centre of the township, supplying good clear water. The bed of the stream is gravelly and its banks are skirted by willow brush.

Township No. 4.—The first and second tiers of sections are well wooded with tamarack, poplar and spruce. The soil is chiefly a light clay loam, except in the south-west, where it is stony and gravelly, and chiefly covered with young dead poplar and willow. The east branch of Rat Creek runs diagonally across the township. On both sides of this stream there are some fine bottom lands, parts of which are well wooded with poplar.

Township No. 5.—Is a flat level surface, totally unfit for farming purposes, the land alternating from a marsh to a coarse, sandy, stony soil. The woods which cover its surface are of a very inferior kind. In a few places, however, a few good trees can be found large enough to be used in the construction of buildings. In general the timber consists of aspen and elm, spruce and tamarack.

Water, pure and good, can be readily found all over the township, either on the ground or by digging.

Township No. 6.—Is nearly all bush. At one time it has been very heavily timbered with large poplar, but the only large timber which has escaped the fire consists of groves of tamarack, fit for building purposes. The chief part of the bush is small poplar and willow underbrush. The land is of poor quality with rolling surface, the sections bordering on the base line being low and swampy. The extreme western tier of sections is covered with large boulders and quite unfit for settlement. The soil is light and generally mixed with sand and gravel.

Township No. 7.—The two northern tiers of this township are chiefly level prairie. The southern part is undulating and intersected by gullies or ravines which effectually drain it of all surface water. The beds of these gullies when drained off in summer produce heavy crops of hay of superior quality.

The soil is a deep clay loam, easily worked, and well adapted for agricultural purposes. The timber is chiefly young poplar of vigorous growth, though, as is frequently the case, it has been much injured by fire. On parts of Sections 4, 8, 11 and 14 there are some tamaracks of good size.

Township No. 8.—The portion subdivided is a level prairie with a deep strong clay soil. The only woods are a few small bluffs of poplar and willow.

The northern part of the township is composed of marsh and burnt swamp of no value.

The Rivière La Seine, which comes in at the north, will average about one hundred links wide, and from eight to ten feet deep, without any perceptible current. It becomes lost in a great marsh.

Township No. 9.—Is chiefly level prairie with a large portion of hay land on the south part. On the south side of the Rivière La Seine there is a large marsh, totally unfit for cultivation, a part of which could not be surveyed.

The Rivière La Seine runs through the south-west corner of the township, the water in which is fresh and good.

The soil is generally a rich deep clay loam.

Township No. 10.—Has generally a low level surface with a large quantity of hay land.

The soil is for the most part a deep rich clay loam. There is scarcely any wood with the exception of some groves of poplar on the north-west corner, in which most of the timber is dead, owing to fire having run through them.

Township No. 11.—The soil is a rich clay loam on the westerly two-thirds; the easterly third has a gravelly loam on the top of the ridges, in some places stony, and a rich loam at their foot. Over one-sixth of the area is taken up by marshy meadow, most of which would be unfit for cultivation; it is valuable for the hay it produces. The largest portion of this marshy land lies on the western side, and appears to be a good deal higher than the bottom of "Cook's Creek," into which it drains; most of it could be drained at very little cost. Several sections are all poplar.

Water can be found by digging at no great depth.

Township No. 12.—Rolling land, traversed by numerous ridges and marshes, mostly bearing north-west and south-east. Some of these marshes are very extensive and miry, though very valuable for their hay. Nearly half of the township is covered by poplar bush. There are several small creeks in the township, one of which is called "Cook's Creek." This being a spring creek, furnishes water during the whole year.

Township No. 13.—Is not well adapted to farming, excepting sections numbered 19 and 30. The swamps are large, numerous, and impassable, except in midsummer or during the winter season. The remaining portions of the townships are heavily wooded with poplar and a few scattered oak and spruce.

The soil, however, along the banks of the "Devil's Creek" is good, as is shewn by the heavy growth of underbrush amongst the poplars. Fires have, at some former time, run over the principal part of the township, leaving extensive and heavy wind-falls.

Township No. 14.—This township is traversed by numerous roads, which are used for lumbering purpose.

The best of the timber has been cut off, though there is still considerable quantities fit for building and fencing purposes.

Were a channel cut through the swamps to the "Devil's Creek," it would, by draining them, make good farming land, the soil being dark loam and very deep.

Township No. 15.—This is one of the most favorable townships in this section of the country for the purpose of settlement, the land throughout is rolling and covered for the most part with poplar, spruce and tamarack of the best quality. There are also good oak and ash. It is dotted with numerous small, good hay marshes. The soil is a good black loam with a substratum of white clay.

Township No. 16.—Is bounded on the north by Lake Winnipeg and an extensive marsh. The sections which are surveyed are wooded with large timber of the best quality. The land is undulating and the soil is a black loam, white clay and sand.

RANGE VII—EAST.

Township Nos. 5 and 6.—The soil and timber are light. About one-third of township five is fit for settlement.

Township No. 7.—All the eastern part is covered by a very bad marsh (two miles in width), called "The Devil's Swamp." The soil of the rest of the township is of second-class quality, excepting two miles of the westerly part which is superior. The Rivière La Seine traverses the township from north to south, furnishing abundance of good, pure water and is generally wooded on both sides, and in some places building timber is met with.

Township No. 8.—The westerly part comprises part of the flourishing settlement of "Oak Point." The remainder of the township is wooded with poplar, spruce and willow. The northerly part contains building timber, elsewhere the timber is fit for firewood only. The Dawson Road crosses this township. The soil is generally sandy. The south-easterly part is all marsh.

Township No. 9.—The soil and timber in the easterly part are of inferior quality. The westerly part is well adapted for settlement, and the timber and water are of good quality. The English River flows across the south-westerly part of the township.

Township No. 10.—The western part is well adapted for settlement. The timber being so near the adjoining prairie makes the wood sections very valuable. The principal kinds of timber are spruce, juniper and poplar. The surface is undulating, and water in all the brooks is good.

Township Nos. 11 and 12.—The land is second-class quality and very level. The timber is poplar, willow, juniper and spruce. All the creeks supply good water.

Township No. 13.—The easterly part is an open marsh; the westerly part is heavily timbered with poplar, spruce and some oak and elm. Most of the land is fit for settlement.

Township No. 14.—The westerly part is covered with small pitch pine and burnt woods. The soil is sand and gravel and unfit for any agricultural purpose. The remainder of the township is burnt woods, with a second growth of spruce and poplar. The soil is good, with some good hay marshes and swamps.

Township No. 15.—The soil is generally of inferior quality being sandy or swampy, with burnt woods, except on the Broken Head River, which flows through the north-easterly part of the township, where the land is of an excellent quality, thickly wooded with fine oak, pine, poplar and ash.

Township No. 16.—For the greater part consists of an elevated sandy ridge running from north to south, wooded with timber of small size and a dense brush. The south-west quarter of the township forms part of Broken Head, Indian Reserve.

Township No. 17.—Lies on the easterly shore of Lake Winnipeg, and with the exception of the land on the shore of the lake, is generally swampy, covered with spruce and tamarack.

RANGE VIII—EAST.

Township No. 5.—About one-third is swampy, and the remainder light and sandy soil. There is a large quantity of timber, viz.: cypress, pitch pine, spruce and tamarack, fit for building purposes, and some excellent cedar in the eastern part of the township.

Township No. 6.—Is nearly all covered with a second growth of small pine, tamarack and poplar. In the north-east part there are some groves of spruce and tamarack fit for lumber. The soil is mostly light, dry and sandy, with a few swamps. The Rivière La Seine, which flows through the township, is large enough to carry down timber if it was cleared from brush.

Township No. 7.—The whole is nearly unfit for cultivation, being composed of swamps and stony land, but is well wooded.

Township No. 8.—Though wooded has little useful timber, excepting in section eighteen and nineteen, which contain groves of spruce fit for building timber. The soil is not fit for agricultural purposes, being either swampy or sandy. The Dawson Road crosses this township.

Township No. 9.—The soil and timber are of an inferior quality. The timber being generally small, and the land swampy and sandy.

Township No. 10.—Is chiefly low, flooded swamps, with excellent groves of spruce and tamarack suitable for building purposes. The easterly part is traversed by a stream.

Township No. 11.—Is unfit for settlement. The principal timber is spruce and juniper. The Broken Head River flows through the eastern part of the township. On its banks there are fine groves of hardwood.

Township No. 12.—Is also generally unfit for settlement, excepting a few sections on the Broken Head River, where oak, elm, birch and ash are to be found. The timber in the remainder of the township being spruce, juniper and poplar.

Township No. 13.—The land is chiefly of an inferior quality, excepting on the banks of the Broken Head River, where it is rich and loamy. The remainder of the township is composed of principally spruce swamps and bay land, with a large extent of heavy poplar.

Township No. 14.—Is similar to the foregoing township.

Township No. 15.—Is one large muskeg with small tamaracks and willows, except a narrow strip along the Broken Head River, from two to five chains in depth, where the soil is good, and contains some good sized spruce, elm and poplar.

Township No. 16.—The easterly part is all muskeg. The remainder is tamarack and spruce swamps. The trees average from six to seven inches in diameter.

Township No. 17.—The easterly part is muskeg with tamarack and willows. The remainder is timbered with pine, tamarack, spruce, birch, poplar and willow. The surface is rolling. The soil of the westerly part is of good quality. There is no difficulty in obtaining water in any part of the township.

BLOCK OUTLINE SURVEY OF TOWNSHIPS 7, 8 AND 9, IN RANGES 18, 19, 20 AND 21 EAST, AND TRAVERSE OF THE SHORES OF SHOAL LAKE AND LAKE OF THE WOODS.

With the exception of a few comparatively unimportant patches the whole country presents the same rocky, rugged appearance as the north shore of Lake Superior—bare granite knolls and occasional belts of slate, covered with fallen timber, the remains of a once magnificent forest, are the principal characteristics. From a prominent point, however, on the third base line, between Ranges 18 and 19 east, a level country, with green timber, was discernable, stretching westward as far as the eye could reach.

Excepting on a few islands in Shoal Lake, and two small pine groves at the south-west end of Peninsula Point, and one at Pine Portage, between Shoal Lake and Lake of the Woods, there is no marketable timber, almost the entire country having been swept by fire.

The height of the rocky coast of the lakes varies from twenty to fifty feet, and in some places is one hundred, except the south-west bay of Shoal Lake, where the shore is low. The difference of level between Shoal Lake and Lake of the Woods is only three feet in two rapids of eighteen inches each.

The rocks are principally granite and slate with carbonate of copper and iron pyrites.

RANGE 1—WEST OF THE PRINCIPAL MERIDIAN.

Township No. 2.—This township is level prairie; soil, black loam, and is all fit for settlement.

Township No. 3.—This township is open, level prairie, with a stiff, heavy clay soil. In the south-west portion of the township the soil is a light clay loam, and the land is higher, and has a gentle slope to the south.

The lake, on the south-west part, is a fine body of water abounding in wild fowl.

Township No. 4.—Is all prairie. The north half being high and dry with clay loam. The south half is somewhat lower and wet in the spring. There are no streams or lakes in the township, and the surface water which accumulates in the spring is completely evaporated by July.

Township No. 5.—Is clear open prairie, with a fine clay loam soil. It is well fitted for agricultural purposes.

Towards the south it is very level and free from bush, but towards the north it is somewhat rough and rolling. There is no timber of any description in the whole township.

Township No. 6.—Is well suited for settlement. The soil is in most places a clay loam. In the vicinity of the 'Rivière aux Gratiass,' the banks of which are some eighteen or twenty feet high, it is a stiff, heavy clay.

This township is entirely destitute of timber.

Township No. 7.—This township is watered and drained by the east branch of the Rivière aux Gratiass, which takes its rise partly in this township and partly in the adjacent one on the west.

A large proportion of the land is high No. 1 prairie. On the west of the Rivière aux Gratiass the township skirts and takes in a part of the Great Hay Marsh, which divides the Rivière aux lles de Bois from the Rivière aux Gratiass.

This township is entirely destitute of timber.

Township No. 8.—Twenty sections of this township are sufficiently dry for cultivation, and the balance good hay land.

The River Sale runs through section thirty-six, and touches the north-east angle of section thirty-five.

This stream has running water in it all through the summer. Its banks are tolerably well wooded.

Township No. 9.—Is suitable for grazing purposes. That portion contiguous to the River Sale is wooded and watered, and is well adapted to crop raising.

Township No. 10.—The land is a little undulating. It is made up of dry land, fit for immediate cultivation, and moist hay land. The whole may be easily drained. The soil is very rich, being an alluvial deposit, overlying a porous clay or marl.

There is no waste land in this township. Water can easily be obtained in many places, by digging a few feet. There is no timber.

Township No. 11.—This township is all open level prairie, with the land gently sloping to the south and south-east.

The soil is dark clay loam, very deep and rich, and well adapted to farming purposes.

No stones are to be seen, and no timber grows on the part surveyed. The township is very dry, there being scarcely any wet land, and very little hay land. There are no running streams of water, but there is no difficulty in getting water by digging. The water is good and free from any brackish taste.

Township No. 12.—This township is nearly all open prairie, gently sloping to the south. There is no timber in it except a few small poplar groves, on sections 23, 24, 25 and 36, but the timber is very small.

There are a few hay swamps, the one on and near the northerly limit of the township is large and good.

There are no running streams of water, but water can be had by digging, at no great depth.

The soil is very rich, being dark clay loam, and is well adapted for agricultural purposes.

Township No. 13.—The south and west parts of this township are prairie. The north is well wooded with poplar. Fire has run through the principal portion of the bush. The land is generally of good quality where the groves of wood occur. It is slightly stony.

The prairie is full of hay marshes, but in places dry ridges are to be found.

On section 1 a ridge of limestone exists about half a mile in circumference; here a lime kiln has been built, which burns a large quantity of first-class lime.

Township No. 14.—Consists of groves of poplar, and glades of prairie. The prairie and bush are about equally divided. A large portion of the latter has been killed by fire.

The soil is dry and of average quality; a gravel ridge extends along the northern tier of sections, the soil in which is light and sandy.

At the foot of the ridge the soil is stony. From about one mile south of the ridge to the Base Line the soil is of good quality.

Good water can be obtained by digging wells.

Township No. 15.—About two-thirds of this township are good land for settlement. Scattered groves of small poplar woods occur fit for fencing and fuel, but none of sufficient size to be of value for building.

In the vicinity of Shoal Lake a few stony ridges are to be met with. The lake mentioned is of slightly brackish water, but not known to be unwholesome.

Township No. 16.—The greater part of this township is suited for settlement. The northern portions are more or less thickly wooded with poplar. The smallness of the trees met with restricts their use, for the present, to fencing and fuel.

Stony patches or ridges occur in a few places.

Township No. 17.—Is suitable for settlement, having, with the exception of a few stony ridges, a good soil for cultivation, and is well supplied with wood for fencing and fuel.

The surface is undulating; in some of the low grounds hay marshes occur.

RANGE II—WEST.

Township No. 2.—This township is prairie. Soil good. Surface water to be had in gullies.

Township No. 3.—This township is all prairie. In the north-eastern and north-western portions it is low and flat, with a heavy clay soil, which forms excellent hay land. The west part of the township is high, with a rich clay loam, and is well watered. In the east part of the township there is a fine body of water, with good high land surrounding it.

Township No. 4.—This township is wholly prairie. The northern tier of sections is low and flat, the remainder is rolling land with rich clay loam.

There is no running water in the township.

Township No. 5.—Is prairie land, well adapted for agricultural purposes. The land throughout is very level. There being no gullies to drain the surface water it gathers in low places which make good hay land.

There is no timber in this township for fencing, building, or fuel.

The land is clear of stones.

Township No. 6.—Is a clear open prairie of very good quality, and well adapted for agricultural purposes. The soil is a black mould with a clay or loamy clay subsoil. There is no timber in the township, the nearest bush being some three miles to the westward.

Township No. 7.—About two-thirds of this township is occupied by the great hay marsh, over which the waters of the Rivière aux Iles de Bois must pass in spring to reach and be discharged by the Rivière aux Gratias, which may be said to take its rise in this marsh.

There are but few spots which are not solid prairie soil, and oxen have been driven with heavy loads in every direction over the marsh without difficulty.

The soil is very rich, and produces a fine clean growth of grass from two to five feet in height at full growth.

If a channel were cut for the water from where the Rivière aux Iles de Bois enters the marsh to the Rivière aux Gratias, these lands would become sufficiently dry for all purposes.

In the south-west angle of this township, there is one block of about eight square miles of beautiful high rolling prairie with an excellent sandy loam soil.

Township No. 8.—The surface of this township is generally very level, and a large portion is dry during the summer months. In the spring the greater part of the township is covered with water. Large tracts of the surface have a hard and cracked appearance when dry.

About nine square miles are included in the hay marsh. The rest, with few exceptions, is dry prairie.

There is a stream in this township.

Township No. 9.—The soil of this township is very good, consisting of a considerable depth of rich mould, underlaid by a strong clay subsoil. The land is generally dry. The only marshes of any consequence are in the southern part of the township, and they are surrounded by good hay land.

The chief timber is oak, elm and poplar. It is of poor quality, being short and scrubby. The greater part of the woods is on the River Sale, running through the northerly part of the township in a south-easterly direction. The water in the stream is fresh and good.

Township No. 10.—The soil is excellent, being an alluvial deposit, overlaying a subsoil of clay, valuable for growing either grass or grain.

A branch of the River Sale flows through one corner of the township, watering twelve quarter sections. The water is good. There is oak and poplar along the river, but not in sufficient quantities to supply the whole township.

Township No. 11.—The soil in this township is well adapted for agriculture, it being for the most part clay loam. The land gently slopes to the north and north-east.

There are a few poplar groves, but these are not of any extent, and the timber is very small.

There are also a few hay swamps yielding good grass. On sections 19 and part of 20 there is a large gravel ridge, which will be of great value for road making, as there are no other gravel ridges near it. The ridge is deep, and the gravel is of good quality. There are no streams; but water can be easily found by digging.

Township No. 12.—The soil in this township is dark clay loam, very rich, and well adapted for agriculture. The surface is very uniform gently sloping to the south and south-east.

A few hay swamps are to be found but of no great size. There is an entire absence of timber, and no running water.

Township No. 13.—This is a prairie township; the soil is good, and dotted with hay marshes. There are a few groves of poplar on sections 21, 20 and 19. Section 31 is half covered with wood.

Township No. 14.—This township is well fitted for settlement. The land is of the best quality, and along the western portion of the township is covered with large poplars suitable for building purposes. A fine ridge crosses the two northern tier of sections, elevated about twenty feet above the surrounding country to the south, and sloping gradually to the north. Anywhere along the ridge a good supply of water can be obtained a few feet from the surface.

Township No. 15.—On the south side of Shoal Lake is all fit for settlement, being good land, partially wooded with a growth of poplar serviceable for fencing and fuel, and some oak of a size suitable for building. A few good hay marshes are found in this township.

Township No. 16.—Is a broken township on the west shore of Shoal Lake, of about one-third the full area. It is well fitted for settlement, has a rich soil, a supply of wood of small growth, and excellent hay marshes along the lake shore.

Township No. 17.—Adjoins the western shore of Shoal Lake, is adapted for settlement, has a black loam soil, is mixed wood and prairie. There are extensive hay meadows along the borders of the lake.

RANGE III—WEST.

Township No. 2.—This township is level prairie. Soil, black loam.

Township No. 3.—Is entirely open prairie, all which, with the exception of a small muskeg on the west side, is excellent, arable land, free from stones. A small creek of good water crosses the township and there are a few water-runs.

Township No. 4.—Consists of open fertile prairie. The northern part is level, the centre low, and the southern portion good and undulating. In addition to the few water-runs, which were found quite dry, a small creek of good water winds its course through the northern portion of the township. These water-runs, though dry during the summer season, are full of water in the spring and autumn. Water can be obtained by digging from three to four feet.

Township No. 5.—About one quarter of this township is swamp; good hay ground, but much too low for cultivation. The central and western parts are good level prairie. The soil is black loam.

Township No. 6.—Is good level prairie with a soil of black loam. There is no running water in this township, and but two small islands of oak timber, one in sections sixteen and twenty-one, and one in the north-east corner of section eighteen.

In a gully running along the line between sections twenty and twenty-one, and seventeen and sixteen are pools of good water which remain throughout the season.

There is a good hay swamp extending across the south of the township, where a number of the settlers from Township 6, Range 4 west, get their winter's supply.

Township No. 7.—About two-thirds of this township is occupied by the great hay marsh lying between and dividing the River aux Iles de Bois from the Rivière aux Grattias. It produces excellent hay about its margin, but the central parts, and particularly the west side of the township, are overgrown with black rushes.

The remaining part of this township is excellent high prairie, especially that block extending the whole length of the southern boundary of about ten square miles.

Except a few isolated clumps of willows, there is no timber in the township.

Township No. 8.—Only a small portion of this township is covered by the great hay marsh. Of the remaining thirty-two sections about twenty-nine are high, slightly undulating prairie, and the remainder excellent hay land.

There can be no better land than the dry portion of this township, and the hay land, with the exception of some places in the great hay marsh, is good solid prairie soil.

There is neither wood nor water in this township.

Township No. 9.—This township consists of level open prairies with here and there a few small marshes and some patches of scattering willows and small poplars. The soil is generally black loam.

Township No. 10.—This township consists partly of low rich bottom prairie, with heavy hay grass, and partly of dry level prairie.

The township is traversed near the north boundary by a dry channel from three to four chains in width, having clay banks rising from six to eight feet above the bed. The bed (which consists of about eighteen inches of black mud) is grown up with tall grass. Clean, fine sand underlies the mud; good clear water being found in this sand at about a depth of three feet. This dry channel is timbered on both banks with oak and poplar, the latter timber, however, prevails.

Township No. 11.—This township is better adapted for grazing than for agricultural purposes, water and shelter for stock being both convenient.

The upper portion of it is traversed by the River Sale, and a creek running parallel with it. The land between these is covered with thick underbrush and some oak and elm, although the greater portion of the latter has been already cut. South of these streams the country is much intersected by wet sloughs and hay swamp with occasional poplar islands.

Township No. 12.—This is a small fractional township of dry prairie.

Township No. 13.—About three-fourths of this township is good arable prairie, well adapted for settlement. It is near the leading line of road along the north bank of the River Assiniboine, and close to it are the extensive meadows of Long Lake.

Plenty of good fencing and building timber may be found along the ridges which cross the northern part of the township. North of these ridges the land becomes gravelly and stony, and is fit only for grazing purposes.

Township No. 14.—Is of inferior soil throughout, but more especially along the east and south limits, where there is a heavy gravel ridge like the beach of an ancient lake. For some distance north of this ridge the land is low and swampy, in addition to being gravelly and stony.

There are plenty of good fencing poles throughout the township, and some good building timber along the east side.

Township No. 15.—The land is chiefly rich loam, broken only by a few swamps. About one-tenth part is open prairie. The remainder is covered partly by good green timber and partly by young bushes of poplar and willows. The best timber (some of which may be used for erecting buildings,) stands in the northern part of the township. The southern part is thickly wooded with small poplar.

Township No. 16.—Is all good farming land, undulating prairie, with scattered groves of poplar of moderate size.

Adjoins the western shore of Shoal Lake.

Township No. 17.—Is well suited for settlement; has an undulating surface, good soil, and a fair supply of timber for fuel, fencing and such building as would require pieces of no great size.

Has no streams, but water can be obtained by digging.

RANGE IV—West.

Township No. 2.—This township is level prairie; soil, black loam. Two small islands of oak and black ash woods lie near the centre.

Township No. 3.—Is almost entirely open prairie well adapted for hay and grazing purposes. A belt of splendid heavy timber consisting of elm, oak and poplar lies in the north-western portion. Two creeks of excellent water traverse the wooded portion.

There are a number of water-runs in other parts. By digging to the depth of three or four feet, abundance of water can be obtained.

Township No. 4.—Is altogether open prairie, one of the finest townships in the Province. The surface is alternately level and undulating, and the soil a rich loam with clay subsoil. There are a great number of water-runs, which are dry during the summer, but a good supply of water can be obtained by digging to the depth of three or four feet.

Township No. 5.—Is good land, with the exception of some 1,500 acres in the north-easterly portion of the township, which is swampy.

Through the centre runs a lasting stream of good water, along the banks of which there is some fine timber, such as oak, ash, maple and elm.

Township No. 6.—Every lot in this township is fit for settlement. The soil is a very deep black mould overlying white clay. The Boyne River flows across the north-westerly part of the township; the banks are about twelve feet high and the current about three miles per hour. A belt of good oak timber, intermixed with elm, poplar and basswood, averaging twelve inches diameter, extends along either bank of the river, having a width of from 10 to 20 chains. Another belt of oak timber, of the same quality and width extends in a south-easterly direction from Section 28 to Section 12. All the sections containing wood, as well as some of the adjacent prairie lots, have been taken up and more or less improvements made thereon. Very fine crops of wheat, barley and oats were raised here during the past season.

Township No. 7.—About twenty-six square miles of this township are beautiful undulating prairie, with sandy loam soil.

Wood is within a short distance of every part of the township.

Along the eastern margin is the Great Marsh, covering about seven sections. The marsh is here very wet and boggy, and overgrown with rushes. In summer cattle roam at liberty over the greater part of it, but it is not safe for loaded carts, especially near the mouth of the Rivière aux Îles des Bois.

Township No. 8.—The surface of this township is generally level, or slightly rolling. The soil is sandy loam, which allows the surface water to disappear early in the spring. Nearly all the township is suitable for cultivation, and sufficient wood for fuel and fencing is everywhere convenient.

Township No. 9.—This township consists partly of prairie land and partly of poplar bush. A large portion of the prairie land is of a low marshy character, covered with coarse rank grass, and having in places scattering willows and small poplar and oak groves. The poplar timber (which is found at the south-west corner of the township) is very small, and has been much destroyed by fire. The high land consists of a black loam.

Township No. 10.—A large portion of this township consists of low bottom prairie with tall rich grass and low wet marshes. The high prairie is generally of a fair quality, and has, in places, scattering willows and small poplars.

The township is traversed by a dry channel (near the north boundary) from three to four chains in width, having banks from six to eight feet high. The bed of this channel consists of black mud about eighteen inches deep, and is grown up with tall grass. Clean fine sand underlies the mud, in which good clear water can be obtained. This dry channel is timbered on both banks with oak, poplar, and elm; the timber, however, has been destroyed in some places by fire.

Township No. 11.—This ranks as a second-rate township. The northern half is covered with poplar, willow and underbrush; on the third mile south there is a heavy belt of poplar and oak. South of this the country is more open, and on the Third Correction Line, a large wet marsh exists, covered with long thick reeds.

Some good timber is still standing on the northern half; it is being rapidly destroyed year after year by fire.

Township No. 12.—(*South-Half.*)—This township is covered with thick poplar and underbrush, some heavy oak and elm occurring on the banks of the River Sale and Mill Creek. A few hay meadows of no great extent are interspersed.

The timber, particularly on the northern portion of the township, has been much thinned for fencing, although a great deal is still standing which is fit for rails.

The land in this half of the township is of second-rate quality.

Township No. 13.—A very attractive township for settlement; the soil is excellent in quality, being a rich clay loam. Along the ridge in the northern part of the township is plenty of timber for fencing, fuel and building purposes. "Long Lake" affords an abundant supply of good water, and the meadow lands in the vicinity are extensive and good.

Township No. 14.—Is better adapted for grazing and stock-raising than to farming. The south and east portions are stony and gravelly; the north and west are free from stones, and have a slightly deeper soil, while here and there there are many fine prairie glades.

The timber is mostly small poplar, and fit only for fencing purposes.

Township No. 15.—Is bounded on the north-west by Lake St. Francis an arm of Lake Manitoba. A large marsh lies in the westerly part of the township. The easterly part is generally level prairie with some excellent building timber of poplar and oak. Two roads, one to White Horse Plains and the other to Poplar Point, traverse this township.

Township No. 16.—Lies to the east of Lake Manitoba and contains the French Half-Breed Settlement, known as the Indian Mission. The easterly part is wooded with poplar, oak and willow, some of which are good for building purposes. The north-easterly part of the township is marshy.

Township No. 17.—The southerly part as well as the easterly boundary is wooded. The remainder of the township is prairie, broken by swamps and hay grounds. The soil is a rich loam but stony.

RANGE V—WEST.

Township No. 2.—This township is chiefly prairie: soil, black loam. A belt of very fine oak, say thirty chains in width, runs through the southerly tier of sections in which are laid off twenty-six wood lots.

Township No. 3.—A belt of timber passes through this township. With this exception it is all prairie land.

Township No. 4.—Is prairie. There is no timber, but timber for settlement purposes could be brought from the slopes of the Pembina Mountains, which traverse the western townships of the block in which this township is situated.

Township No. 5.—The surface of this township is level. There are a few small patches of hay land and a few dry gullies. The soil is a very rich black loam. Tobacco Creek passes through the northern part of the township, running from west to east. The water is fresh.

The scattered trees and clumps along Tobacco Creek form the only timber to be found.

Township No. 6.—The surface of this township is generally level, with a slight inclination towards the Boyne River for about a mile and a half on either side of the river.

The soil is a black loam.

The township is well watered by the River Boyne passing through the centre, running from west to east.

The water is good and fresh.

The township is well wooded by a belt of mixed oak, elm and basswood, stretching through it on each side of the Boyne, with a width of from five to twenty chains.

Township No. 7.—The soil in this township is generally too sandy for good agricultural land.

The timber consists mainly of poplar, the best of which has, in most cases, been killed by fire. In places, however, some good oak and poplar wood are to be found.

Township No. 8.—The timber in this township is chiefly poplar, willow and scattered oak. The greater part of this timber is fit for building, fencing, &c.; a considerable quantity has been destroyed by fire.

Water is found in several places, but with the exception of that supplied by Elm Creek, it is generally very bad.

The soil is light and sandy.

There are some very good hay marshes.

Township No. 9.—One-half of this township is suitable for farming purposes, that is all the prairie (marshes excepted), and that portion of the woodland, for a depth of about a mile, which borders on the prairie. The soil here varies from clay to sand, and is generally of a slightly inferior quality. The other parts of the township, comprising the whole of the westerly and south-westerly sections are of no value, having for the most part a very light sandy soil.

Poplar timber covers about two-thirds of the township, of this, only that part which lies near the prairie is of any value, the remainder is very thick, scrubby poplar, mostly dead and only about ten feet high.

The land is slightly rolling, with a gradual descent towards the north and north-east. Good water can be found in any of the marshes by digging from one to three feet.

Township No. 10.—With the exception of the hay marshes this township is composed of good agricultural land, especially in the northerly sections, where the soil is of a very superior quality.

The hay marshes are too wet for cultivation, but they are valuable for hay, of which they produce a large quantity each year. The timber is chiefly poplar, of good quality and in quantities only sufficient for the use of settlers.

The greater part of the township is almost level prairie. The soil is a black loamy clay, full of vegetable and mineral deposits.

Running water is not plentiful within the township, but where it can be found it is of good quality.

Township No. 11.—Is well adapted for settlement. The soil throughout being of the best quality; also the timber supply along the banks of the two rivers which traverse the township. The water of these rivers is not of the best quality, but excellent water can be obtained by digging to the depth of six feet.

Township No. 12.—(Fractional.)—Fractional township number twelve is excellent for agricultural purposes.

Township No. 13.—The southern portion of this township is excellent farming land, but towards the north it becomes stony and gravelly. The timber along "Stony Ridge," is small poplar and oak, affording abundance of good fencing material. The stones are of the boulder character; these will prove useful for building purposes.

The north-west quarter of the township is very good for agricultural purposes.

Township No. 14.—Is only suited for grazing and stock raising. The surface is very stony, and the water for the most part alkaline. There are extensive meadows along the margin of the great marsh.

Township No. 15.—Is a small fractional township lying to the south-east of Lake Manitoba. On the shores of the Lake, the land is wet and marshy. The dry lands are good prairie, bordered by hay lands.

Township No. 18.—This is also a fractional township east of Lake Manitoba. The greater part of which is an extensive marsh with lagoons and lakes. The rest of the township is good, dry land well adapted for settlement, a mellow, rich soil with few stones. The easterly tiers of sections are wooded with oak and poplar.

Township No. 19.—Is on the easterly shore of Lake Manitoba. There is an extensive marsh on the shore of the lake. The easterly half is of splendid soil and is very well wooded with oak and poplar, with extensive prairies. There are several small lakes affording a good supply of water.

Township No. 20.—The northern part is mostly wooded, part of which has been destroyed by fire. The southern part comprises hay swamps and small bogs and ponds all connected with "Swan-Creek."

RANGE VI—WEST.

Township No. 2.—One half of this township is prairie. Soil, black sandy loam. The remainder is covered with good oak timber, averaging eight inches in size. Six wood lots have been laid off in Section 15.

There is good water in a gully which runs across this township.

Township No. 3.—Prairie and woodland. The greater portion of the township is rather stony.

Township No. 4.—Prairie and woodland. The eastern part of this township is well adapted for settlement. An abundance of oak is to be found on the slopes of the Pembina Mountains.

Township No. 5.—The surface of this township is level. In the south-west part, at the foot of the Pembina Mountains, it is low and wet. The soil is a dark loam.

The township is well watered by "Tobacco Creek" which flows through it from west to east. The south-western part is well wooded with basswood, oak and elm.

Township No. 6.—The surface of this township is level, or slightly inclined towards the Rivière aux Iles de Bois. The soil in the eastern part is a dark loam, in the western it is of a sandy nature. The "Rivière aux Iles de Bois" passes through this township, flowing from west to east.

A belt of timber consisting of oak, elm, and basswood, extends along the river on each side, varying from five to ten chains in width. There are also some poplars in the northern and western parts, but the growth is small.

There is a large amount of willow brush in the western part.

Township No. 9.—Is not good either for agricultural or lumbering purposes. The soil being of a very boggy nature with the exception of the sand hills and is liable to heavy floods in the spring.

Township No. 10.—Is composed of ridges of light, sandy soil, alternating with low lands which are flooded in the spring.

The hills are covered with small poplar, light brush and scrubby oak. The low lands are well timbered with oak, black ash and basswood, and are well watered.

Township No. 11.—This is a fractional township bounded by the parishes of Portage LaPrairie and High Bluff. It is well adapted for settlement being exceedingly good soil, but the two westerly tiers of sections require draining. The timber is large poplar, oak and elm. It is watered by a large creek.

Township No. 12.—This township is almost entirely an open prairie. The soil is most excellent; the surface gently undulates, and owing to the proximity of large blocks of heavy bush along the Assiniboine, it is a desirable location to settle on.

Township No. 13.—This may be justly considered a most desirable locality for settlement.

There are numerous wooded groves toward the north part of the township, and the soil is everywhere most excellent for farming purposes.

Abundance of good water can be had at a depth of from six to eight feet in the low grounds, and from twelve to twenty feet in the high grounds.

Township No. 19.—Is a small fractional township to the east of Lake Manitoba, containing about three thousand acres and is all occupied.

Township No. 20.—This township is also to the east of Lake Manitoba; it is wooded with poplars, oak, elm and ash fit for building timber. The surface is level and the soil is a good black loam.

RANGE VII — WEST.

Township No. 2.—About three-fourths of this township are undulating prairie. Soil, black loam.

On the remainder there is poplar wood of average size—say eight inches. Sixty (60) timber lots have been laid off in the southern part. Pembina River runs through sections 4 and 5. The south-west corner is much broken by steep hills and deep gullies.

Township No. 3.—Consists partly of prairie, and partly of timbered lands. The south-east portion is for the most part prairie, the rest is covered with poplar and bush, mixed in some places with oak. Sections 34, 35 and 36 are intersected by a spur of the Pembina Mountains. They are unfit for settlement, as the surface is broken by deep ravines, with banks 100 feet high. At the bottoms of the ravines there are creeks containing excellent water, all running in a south-easterly direction.

The north westerly part of the township contains good land, well timbered with poplar and oak, but the prairie portion in the south-east of the township is of inferior quality.

There are many marshes where wild hay and water can be procured.

Township No. 4.—Is heavily timbered with oak and poplar. There are also some elm, ash, maple, and white birch. There is not one section of prairie land in the township, but there are some clearings made by recent fires.

The Pembina Mountains intersect it almost diagonally, and the surface is so much broken by ravines as to render one-third of the area unfit for settlement.

The rest of the township is well suited for farming. There are numerous creeks of good water running down the sides of these mountains. No fixed rocks are visible, but boulders may be met with occasionally.

Township No. 5.—The soil and timber are generally of an inferior quality and the surface is very much broken. It is traversed by several branches of Tobacco Creek, the water of which is of an excellent quality.

Township No. 6.—About sixty per cent of this township is fit for agricultural purposes. The Pembina Mountains traverse the southern and western portions, and the River Aux Iles de Bois and its tributaries flow through the northerly part of the township, affording a supply of good water. The soil is however rather sandy. The timber, which is mostly poplar and oak, is not of heavy growth, except on the banks of the streams.

Township No. 8.—The soil throughout this township is a sandy clay and, except in a portion of the south-west quarter, it is of second-class, and in some places it is scarcely that. In the north-west quarter the soil is sandy loam partly first class. In this quarter the best timber is to be found, being principally poplar in some places mixed with oak, suitable for building timber and saw-logs, while over a good portion of the west half and in many portions of the eastern half there are extensive tracts of timber suitable for fuel and fencing. The surface of nearly the whole township is level.

Township No. 9 and 10.—Are low and marshy. The soil being of a sandy and worthless nature and the timber small and fit only for fuel and fencing. These townships are quite unfit for settlement.

Township No. 11.—Is a very small fractional township containing about one section of dry land. The remainder is marshy with reeds and rushes.

Township No. 12.—Is all excellent rolling prairie. The soil is a fine, rich, black loam, with a slight mixture of sand. The sub-soil is clay.

This township, though well suited for farming, is without timber of any value, there being only a few clumps of poplar, willow and small oak.

Township No. 13.—Is all land of a kind suited for settlement; has a rich soil and undulating surface.

There is hardly any wood in the township.

Township No. 14.—This township borders on Lake Manitoba. It consists of very fine prairie, land well watered by several streams which discharge into the lake.

There is very little timber in this township.

RANGE VIII—WEST.

Township No. 2.—The western side of this township is rough prairie, the eastern side contains oak timber and willow bush. Soil, second rate. Nearly one half of the township is covered with brush. There is no water except a small spring creek in south-east corner.

Township No. 3.—Consists partly of prairie and partly of timbered land. The surface is undulating, and the soil is what is usually denominated "drift." There are some groves and ridges of oak, but the prevailing timber is poplar.

There is an abundant supply of water at all seasons.

Township No. 4.—This township is situated to the west of the Pembina Mountain. It has a good soil and is well suited for settlement.

There is a sufficient supply of water, but that on the surface is neither pure nor good.

The northern part of the township is heavily timbered with oak and poplar. Fire has destroyed a great deal of this timber. The south-west part is nearly all open prairie.

There are a number of marshes which afford a supply of hay, sufficient for the wants of the early settler.

There appear to be no fixed rocks and but few boulders throughout the whole township.

Township No. 5.—The land is rolling and hilly, and for the most part thickly timbered; on the eastern side the timber is of excellent quality. Through the centre there is a belt about one mile wide lying north and south, covered with dense scrub, dry hazel and willow, with bluffs of poplar. The soil is good in the southern portion, but to the north it is of inferior quality, it is however well supplied with water which is very good and fresh.

Township No. 6.—The soil is of very inferior quality, and its surface so broken by ravines that it could not be cultivated. A branch of the River aux Iles de Bois, crosses the township, and there are several smaller streams, the water of all which is excellent and never failing. The timber consists of poplar, oak, elm, white birch, ash and basswood. On the south east quarter of section fourteen, I found a small quantity of fossil limestone.

Township No. 8.—The easterly part is timbered with poplar of good size, suitable for rails and fire wood, the westerly part is covered with a thick growth of willows, the greater part is wet. The soil is a black clay loam, which with proper draining will become very productive.

Township No. 9.—The River Assiniboine traverses this township; it is from three to four feet in depth. The soil is sandy and in places pure red sand, altogether unfit for cultivation. The timber along the margin of the river is good, consisting of fine oak, poplar, white birch and cotton wood.

Township No. 10.—The soil and timber are the same as in the foregoing township.

Township No. 11.—The north-east and north-west portions are in general well adapted for farming. The soil is of a dark loamy nature, and well timbered with poplar and oak sufficiently large for building purposes. The north-east portion is open prairie occupied by settlers. The south-east and south-west portions are timbered with small poplar, thick willows and heavy windfalls. The soil being light and sandy. Rat Creek traverses the north-westerly part of the township.

Township No. 12.—Well adapted for farming. The land slopes gradually towards the south, and several sloughs intersect it, draining the surface water into "Rat Creek,"

which runs from the south-west to the north-east part of the township. Excepting in the south-west part, the soil is a rich loam, under which, at various depths, lies a hard blue clay. The eastern part of the township is bare of all bush, except in the south on Rat Creek, where a few willows are to be found. The western portion is studded with groves of poplar and willows.

Township No. 13.—Is composed of prairie. There is only one grove of small oak woods. This lies between sections thirty-five and thirty-six.

The land on the east of Rat Creek is dry rolling prairie of excellent quality, that on the west is low and marshy, with the exception of a small strip of dry prairie about ten chains wide, lying along the "White Mud Road."

Township No. 14.—Borders on Lake Manitoba, and is composed of beautiful prairie land with very little timber. There is a considerable track of marshy or low land on the borders of Lake Manitoba, and several sloughs or creeks running into the lake from the south.

Township No. 16 and 17.—Are small fractional townships on the west shore of Lake Manitoba, chiefly timbered with poplar. The soil is good.

RANGE IX—WEST.

Township No. 2.—The western side of this township is level prairie. Soil, black loam.

Pembina River runs through the eastern side of the township, and averages one chain in width. The valley of the river on an average is one and a half miles wide.

The alluvial deposits, common in such places, have been carried off by the floods in this section of the country leaving in many places only a subsoil of clay mixed with shale. Good oak and poplar timber is found in places.

Township No. 3.—Is in part timbered and part prairie, the prevailing timber being poplar and oak. The surface in many places is broken. It is well watered and easy of access at all seasons of the year. There are a few boulders scattered over the surface, but no fixed rock. About one half is well suited for settlement. The Pembina River flows through the south-westerly part of the township.

Township No. 4.—Is composed partly of timber land and partly undulating prairie, covered in many places with willows and brush. The prevailing timber is oak and poplar sufficiently large to supply building timber and fuel. There are several muskegs in the northerly portion which will afford a supply of hay. It is well watered by creeks flowing westerly to the Pembina River. A good road passing diagonally across the township, it is easy of access at all seasons of the year. The soil is a rich, dark alluvial deposit.

Township No. 5.—The surface is rolling. One quarter of the township is covered with poplar, balm of Gilead, and oak, and about one third of the remainder is sparsely covered with poplar, burned timber, windfalls, &c.

The quality of the land is excellent. The soil, a very black loam, has an average depth of two feet.

Good fresh water can be easily obtained in almost every part of the township by digging to the depth of four feet in the low-ground. In the vicinity of the lakes never failing springs of cold fresh water are to be found. At least thirty of the thirty-six sections will make most excellent farms.

Township No. 6.—The surface is rolling and hilly, and covered with small groves of poplar, willow and scrub. There are several small lakes and creeks in it. The soil is generally of second-class quality.

Township No. 8.—Is well adapted for agricultural purposes, as the soil is excellent and the water good. The surface is level and covered with hazel, briar and other scrub where not heavily timbered with poplar and oak. There are good hay lands along the River Aux Iles de Bois.

Township No. 9.—Is rolling land, timbered with small poplar, grey willow and thick underwood. The River Assiniboine traverses the centre of the township. The soil is of inferior quality, a sandy loam with clay subsoil.

Township No. 10.—Is level covered a few years ago with a fine growth of medium poplar, but now is a dense windfall grown up with all kinds of brush. The soil is a rich sandy loam.

Township No. 11.—The soil of this township being chiefly black clay loam, is well adapted for agricultural purposes. The surface is undulating, having a few small swamps, which, if drained, would produce good hay; it also contains several small streams. The remainder is covered with bush of small size, chiefly poplar and birch.

Township No. 12.—The greater part of this township is open, and a good deal prairie. In the southerly part of it there are a few poplar groves, but the timber is small in size, scarcely any of it being fit for building purposes. A good deal of it could be used for fencing. In the west there are many willows and thick bush. In this township there are a few good hay swamps.

The soil, with the exception of that in a few sections, is very good, being chiefly black clay loam, and is well fitted for agriculture.

Water can be easily obtained, except in the northeastern part of the township, where it is necessary to dig for it.

Township No. 13.—The White Mud River runs through the northern quarter of the township, and is bordered on its banks, at the south side, with oak chiefly, and on its northern side with oak and poplar forest, interspersed with willow.

The soil of the north side of the White Mud River is of a light loamy character, most of it is covered with timber or brush. The south side, excepting about a half mile back, is wet, and without drainage can only be used in a very dry season.

Township No. 14.—This township is well suited for agricultural purposes.

The timber is chiefly small poplar, through which frequent fires have passed. It is in general valuable only for roofing houses and firewood; but towards the north there is some fit for lumber.

Township No. 15.—Lies on the western shore of Lake Manitoba. A deep marsh with reeds and rushes borders the lake. The remainder of the township is timbered with poplar and willows. The soil appears to be mixed with shale and gravel. Along The Big Grass Marsh there is a large quantity of good hay lands.

Township No. 16.—The soil although shallow is of very good quality, especially on the lake shore where there is some excellent hay-land. Along the southern and part of the western outlines, first class poplar is to be found in good quantity. The greater part of the rest of the township is covered with dead poplar, interwoven with willow brush, together with occasional bluffs of green poplar. In the west there are numerous very bad muskegs.

Township No. 17.—Is similar to the preceding township in soil and timber.

Township No. 18.—Lies on the westerly shore of Lake Manitoba. The soil and timber are the same as in the two preceding townships.

Townships No. 19 and 20 are fractional townships on the westerly shore of Lake Manitoba. The soil and timber are similar to the foregoing townships.

RANGE X. WEST.

Township No. 2.—This township is slightly undulating prairie. Soil, black loam; excellent farming land. There are several good hay swamps in this township, but with the exception of the swamps, there is no water.

Township No. 3.—Is almost entirely open prairie, the surface undulating; and there are some muskegs. The Pembina River flows through the north-easterly part. There is some timber on its banks, but the southern and western portions of the townships are entirely destitute of timber. The International Boundary Survey road passes about two miles to the south, and affords easy access to the lands.

Township No. 4.—The surface is very uneven, broken by numerous ravines. The Pembina River traverses it. The valley is about one mile and a quarter wide. The river is from forty links to three chains in width; the depth varying from two to ten feet, and the banks are very steep. The surface for the greater part of the township is covered with timber and brush; there are very few sections of open prairie.

Township No. 5.—With the exception of Sections 6, 7 and 18, the land in which is rough and broken, this township is excellent for farming purposes.

A belt of poplar timber of good quality runs along the south, east and north boundaries of the township. The central and western portions are chiefly covered with dense oak and willow scrub. In the north-east corner there is a small brook of good fresh water with several fine cold springs in its banks, and in the south-west a deep ravine with a creek which has its head about four miles from the Pembina River. In Sections 2 and 29 there are two small lakes, the water in which is salt and stagnant.

Water can be obtained at any place in the township at a depth of from eight to twenty feet.

Township No. 6.—The north-west portion of this township is quite hilly, too much so for cultivation, excepting very small portions, adjacent to muskegs, which are very numerous. The remaining portion of the township is well adapted to farming. The land is rolling and the soil excellent. There is excellent water, and a fair quantity of wood. This is almost entirely poplar.

There are a great number of hay flats growing an excellent quality of hay. Nearly every section has one or more of these.

Township No. 8.—The surface is rolling with deep ravines along the water courses. the soil is excellent, and there is plenty of good water. The timber (poplar) is scarce, and part of it has been killed by fire.

Township No. 9.—Consists of rolling land timbered with small grey willow and underwood, with numerous small muskegs and much windfall. The timber is small, and altogether the township presents few attractions to the settler either for agricultural or grazing purposes. The soil is a light sandy loam with clay subsoil. The River Assiniboine traverses the township.

Township No. 10.—The soil is sandy loam, with clay subsoil, which may be rated as third-class. The north-east portion is covered with small poplar and thick underwood of hazel and other bushes. The south-west portion is prairie, with a growth of brushwood.

Township No. 11.—Is on the whole well adapted for settlement. The land is only of second-class quality, but the facilities of wood and water counter-balance in a great measure this drawback. The main trail of the Saskatchewan runs through it. The surface is generally level with small ridges. In the south-west quarter the wood is especially abundant, and in some places of large growth. The water is good but hard, and is procurable in nearly every spot by sinking a moderate depth. There are no ledges of rock, but granite boulders may be seen here and there.

Township No. 12.—The soil and timber are the same as in the foregoing township.

Township No. 13.—The north half is a large floating bog. The south half although wet in the spring is dry in the summer. The timber is mostly poplar with a few oaks and elms. The water in Squirrel Creek, which flows through the south-western part, is very good, and the land on its banks is fertile.

Township No. 14.—This township offers great inducements to the settler. Its soil is in most places a very rich and deep black mould, resting on a marl subsoil.

There is plenty of timber for fencing and fuel. For building purposes, good poplar and oak timber may be obtained along the banks of the White Mud River.

Township No. 15.—The western part is broken by the big grass marsh. The remainder is land of second-class quality, near the marsh being alternate ridges of gravel and long narrow muskegs. To the eastward it is better, but, however, not first-class for farming purposes. Near the north-east corner there is some fine poplar timber.

Township No. 16.—The surface, soil and timber are the same as in the foregoing township.

Township No. 17.—Like the other townships in the vicinity, is composed of bluffs of green poplar and small patches of hay land and of poplar woods which were burnt over some few years ago. To the west is the big grass marsh, along the edge of which is a large quantity of excellent hay land. The soil, though perhaps not superior arable land, would be well adapted for pasturage.

Township No. 18.—Is covered with a dense marsh, broken in places by large muskegs. The soil is shallow. There is a good quantity of poplar timber.

Township No. 19.—Is thickly wooded chiefly with poplar and some spruce and willows with thick underbrush. The land lies low and wet in places, with frequent marshes. The timber would be useful for fuel and fencing. The township is not adapted for agricultural purposes.

Township No. 20.—This township lies to the west of Lake Manitoba, and for two or three miles inland the timber is excellent; further to the west it consists more of good green bluffs, and the land, (which having been burnt over a few years ago) is now covered with dry poplar, brush and windfall. The soil is of a fair quality.

RANGE XI WEST.

Township No. 2.—This township consists of rolling prairie; excellent land. Soil, black loam. Water none, except that on the surface.

Township No. 3.—This township is well suited for settlement. It is nearly all rolling prairie, and the soil is in most places very fine. It grows in nearly every section good grass and hay. In most of the sloughs good water may be had by digging.

Settlers can be supplied with wood from the two adjacent townships in the same block.

Township No. 4.—Is principally woodland. There is a belt of poplar and oak timber along the base line, about four miles long and from one to three miles wide. Portions of this have been destroyed by fire. The oak is of poor quality.

The surface of the ground is broken in some places, and in others undulating. The soil is good.

Township No. 5.—The north and east parts of this township consist of poplar woods of good quality. The rest is a brushy prairie suitable for cultivation, excepting the valley of the Pembina River, the land in which is for the most part of a slaty formation. Swan Lake, an expansion of the Pembina River, lies in the southern part of the township. It is about six miles in length by one in breadth. Its banks are about fifty feet high, and are of slaty formation. The hill tops are in most cases sandy, and the level parts sandy loam. Several fresh-water springs may be found in the interior of the township.

Township No. 6.—Contains but little land fit for cultivation; hills, morasses, and alkaline lakes being its characteristic features. There is a small second growth of poplar and cherry growing in old windfalls.

A stream flows through the south-easterly portion of the township.

Township No. 7.—Is broken by several ravines and hills from fifty to seventy-five feet in height. It is not well watered. The soil for the most part is good, particularly in the valleys; on the tops of the hills it is somewhat gravelly. There is a large quantity of burnt poplar standing and fallen, likewise green poplar in islands, but scarcely large enough for fencing, with stunted oak and hazel and other brush.

Township No. 8.—The River Assiniboine and Cypress River traverse the township. The former averaging about eight chains in width, and varying in depth from two to eight feet, the current in many places being very swift and in others gradual. The latter is about two chains wide, four feet deep, swift current affording some good mill sites. There is considerable quantity of oak, poplar, willows and scrub along the west side of the township which is stunted and valuable only for firewood. Along the Assiniboine it is of better quality being larger. The soil is good excepting along the western side, where there are sand hills.

Townships Nos. 9 and 10.—The general features of these townships are rolling sand hills with muskegs intervening, totally unfit for farming. The timber is unsuitable for manufacturing purposes.

Township No. 11.—Consists for the most part of land unavailable for cultivation, being low and marshy. The south-east part is a vast swamp abounding with heavy poplar, elm &c., some of which is two feet in diameter. A branch of White Mud

River traverses this township. It is generally well timbered excepting in the north-eastern sections. The most desirable lands are in the vicinity of the Saskatchewan road which crosses the township.

Township No. 12.—Is composed principally of low table land abounding with marshes. That portion of the township to the east of White Mud Creek, which passes through it in a north-easterly direction, comprises for the most part the only desirable lands for cultivation. The northern half abounds with poplar and willow, the former at times in extensive groves and of considerable dimensions. Poplar clumps with scrub are found in the southern part of the township.

Township No. 13.—The soil of this township is mostly sandy loam. Towards the south it is too wet and low to be of much use unless drained. The surface is gently undulating.

The township is well timbered, and along Pine Creek offers some good locations for settlement. Good water can be obtained by digging from six to twelve feet down. The subsoil contains quick sand.

Township No. 14.—Is well suited for settlement. The soil is excellent. Water is abundant and good. Timber is plentiful, and distributed in belts and groves all through the township.

The White Mud River passes along the northern part of the township. A chain of small lakes, the water of which is good, stretch along the southern part.

Township No. 15.—Is well adapted for agricultural purposes, having excellent hay land. Portions of the ground are covered with clumps of willow bushes and poplars.

Township No. 16.—The northern part of this township is mostly prairie—the southern part alternate clumps of willow, poplars and patches of prairie. Soil good for agricultural purpose. About half of this township in a marsh, and if drained would produce an immense quantity of hay land.

Township No. 17.—The easterly half lies in Big Grass Marsh. The southern part is beautiful prairie. The northerly is traversed by the Big Grass River whose banks are lined with thick oak, elm and maple, &c., providing a considerable quantity of wood for fuel and other purposes, and making the township a desirable location for the intended settler.

Township No. 18.—Is principally covered with poplar and thick willow brush. The Big Grass River intersects the north-west corner, which is good, but the rest of the township cannot be recommended for settlement. The north-east part comprises some bad muskegs.

Township No. 19.—Contains some large muskegs and a great many small ones, but the greater part is covered with fine spruce and poplar timber, much of which is large enough for sawlogs. The soil is fair quality, and at the edge of the muskegs there is an amount of good hay land.

RANGE XII—WEST.

Township No. 2.—This township consists of a rolling prairie, having good soil. Crystal River, a small stream of the purest water, which flows through a large gully, crosses the township in a south-easterly direction. There is some good timber in the northerly portion of the township, and also in some places in the gully.

Township No. 3.—Offers great advantages to the settler. It consists partly of woodland and partly of prairie. The soil is good, water is abundant and excellent, and timber plentiful and of good quality. Hay and grass can also be obtained in abundance.

Pembina River and its tributary brook pass through this township.

Township No. 4.—Is partly woodland and partly prairie. It is abundantly supplied with good water and timber. The latter consists for the most part of small oak and poplar. On the banks of the Pembina River, which passes through this township, are some very fine large sized elms.

The immediate valley of the Pembina River is from half a mile to a mile in width. The soil here is excellent.

Township No. 5.—This township is nearly all covered with brush, generally growing among fallen timber. The soil in most parts is good, excepting on the hills where it is slaty. The lakes are in most cases shallow, some being little more than marshes, fast filling up and becoming solid. There is some poplar fit for building and fencing. The most of the swamps afford good hay. Cypress River runs through the north-east part of the township.

Township No. 6.—The north-east portion of this township is for the most part rolling prairie. The remainder is covered with brush and fallen timber. The soil in the valleys is a fine black loam, slightly inclined to be sandy; on the hill tops it is either sandy or of a clay slate nature.

Cypress River runs through the south-western part of this township. The water is of good quality.

Township No. 7.—The land is generally undulating, and the soil good, with the exception of the northern tier of sections where the sand hills begin. It is not well wooded. There are only some small clumps of good poplar, and few oak and elm, and on the sand hills a growth of stunted spruce. The Cypress River runs through the township. Its water is excellent. There are some limestone boulders in the southern part but no fixed rock. There are some good hay meadows.

Township No. 8.—Is quite unfit for cultivation, with the exception of the valley of the Assiniboine, being composed of sand hills covered with poplar, spruce, elm and cottonwood. The timber in the valley is good, but the spruce which grows on the sand hills is worthless being limbed down to the stump. The land in the valley of the Assiniboine is a very rich loam. There are some good mill sites on the Cypress River which flows through the south-east part of the township. There is no water to be found on the sand hills.

Township No. 9 and 10.—Are unfit for agricultural purposes, being all sand-hills and swamps intervening. The timber is useless for manufacturing purposes.

Township No. 11.—An abundant supply of good water and suitable timber for building timber as well as the quality of the soil in parts and its proximity to the great Saskatchewan trail will all conduce to the early settlement of the township. The best land is in the centre.

Township No. 12.—Almost the entire surface consists of low wet swamps, useless for settlement purposes until drained. There are, however, a few good quarter sections along the left bank of Pine River which flows across the township. The timber consists chiefly of poplar, and the lower parts are thickly grown over with willow and other scrub.

Township No. 13.—The soil is generally very good, being of a sandy loamy character. The entire surface is covered with dense scrub with poplar in some parts.

Good water can be obtained in abundance, both by digging and from small creeks. The south-west is low and swampy. Several belts of low lands stretch in different directions through the township.

Township No. 14.—This township is well adapted for settlement. The soil is a rich loam, mostly dry and arable.

The White Mud River flows across the township from west to east. The water is excellent in quality.

Timber is abundant—suitable for building and fencing purposes.

Townships Nos. 15 and 16.—Are generally well adapted for agricultural purposes. In the centre of township number sixteen there is a large belt of heavy poplar timber, and in the south-west corner of the township number fifteen there is a considerable quantity of wood land.

Township No. 17.—Is well watered by a small river, and the soil is of the best quality. There is scarcely enough of wood, but a thrifty young growth, at present from six to ten feet in height, will, if protected from the ravages of fire, in a few years make ample provisions for fuel and farming purposes.

Township No. 18.—The soil of this township is good, more especially in the southern part, and it contains plenty of wood for the needs of the farmer. It is traversed by Big Grass River which supplies excellent water.

Township No. 19.—Is mostly wooded with poplar. In the south-east corner there are bluffs of good spruce sufficient for the wants of the settler. The soil is good, and there is an ample quantity of hay land and plenty of good water.

RANGE XIII—WEST.

Township No. 2.—Is rolling prairie land with good soil. No water is to be found excepting in swamps and gullies and by digging. Some timber grows in the north and north-east parts of the township.

Township No. 3.—The surface of this township is rough and broken, particularly in the neighborhood of "Rock Lake," which is situated about 300 feet below the level of the surrounding prairie. The ground for about half a mile on all sides, slopes towards the lake, and is very much broken by knolls and gullies. The soil on the south side of the lake, on the high lands, is sandy, and in the valleys is of a loamy nature. The soil to the north of the lake is in most places a sandy loam. The water in the lake is of considerable depth and quite fresh and good.

The Pembina River flows eastward from the lake; it is about one chain and fifty links wide, and about four feet deep in summer, very crooked, and with a slow current. A large quantity of oak grows along the northern shore of the lake, and on the southern shore a quantity of poplar.

In the northern part of the township oak and poplar is to be found in large quantities.

Township No. 4.—The surface of this township is in most places broken with knolls and ponds.

In the north-eastern part it is very low, and in the spring and fall of the year is generally flooded.

The soil is a dark loam, except on the tops of the knolls, where it is gravelly.

There are no streams in the township, but there are a great number of lakes, most of which are impregnated with salt, so much so that the water cannot be used.

There is not much large timber, though small poplars, stunted oak and willows abound, particularly around the largest lake, which is situated in the south-western part of the township.

There is no stone nor indications of minerals of any kind.

Township No. 5.—The northern part of this township is a series of broken hills, covered chiefly with brush, scrub-oak and poplar. Alkaline lakes are to be found in Sections 33, 34, 25, 36, 29 and 31. The southern part is made up of patches of brush and prairie.

Two deep gullies, with standing pools of good spring water, run across the township.

The soil on the hills is rather gravelly, but good black loam may be found in the lowlands.

Township No. 6.—Is rolling land; the southern part very hilly. Cypress River runs through the north-east corner. A large creek runs through the centre of the township and empties into a swamp at the north, which has an area of some 1,200 acres. A very large spring of good water rises near this creek in section 29. There is some good timber along the banks of the Cypress River and the above-mentioned creek, and also in the south-east corner of the township.

The soil is good, with the exception of that on the hill tops, which is very gravelly.

Township No. 7.—The soil of the most northerly section is of poor quality, being a light yellow sand, drifted into small irregular hills, with patches of small scrubby poplar and occasional spruce and small thick scrub. Further south the land improves in quality; a belt running across the centre of the township, comprising about one-third of its area, is first-rate black loam. The southerly part is about one-half swamp, but the dry land between the swamp is of good quality. The Cypress Creek—a never failing stream of good water running in a north-easterly direction—crosses the south-east corner.

Township No. 8.—The soil, excepting in the valley of the Assiniboine, is very poor, consisting of light sand divided into small irregular hills covered with a small growth of bushes and scrubby spruce, oak and poplar. The soil and timber on the Assiniboine River, which runs across the northern part, are of good quality. The depth of the river is between three and six feet with a current of about three miles per hour.

Township No 11.—The surface is very hilly and cut up by numerous gullies. Pine Creek, a stream about 25 links wide, crosses the township. The soil throughout is very sandy, and not above second class quality. In the north-east part there is a large quantity of tall poplar, averaging about seven inches in diameter.

Township No. 12.—The surface is very hilly and the soil only of second-class quality. The easterly two-thirds is timbered with heavy poplar, some birch and balsam of Gilead. The western part has a good many openings of sandy land, with scrub, and in some places nothing but a scanty growth of grass. There are numerous muskegs. Pine Creek crosses the south-easterly part of the township, running through a low swampy valley.

Township No. 13.—Is, excepting in the marshes, chiefly covered with good timber. The surface is broken by hills, and the soil is not very well adapted for agricultural purposes. Numerous small creeks are to be found running chiefly through the marshes.

Township No. 14.—Is very well adapted for agricultural purposes. The soil in the valley of White Mud River, which crosses the township diagonally from west to east, is very rich, and timber can be found in sufficient quantity to meet the wants of the settler.

Township No. 15.—The soil is generally a light sandy loam.

The land is in most places level. A few gravel ridges run in a north-westerly direction across it.

On sections 6, 7 and 18 there are a considerable quantity of large poplars. The timber in the rest of the township is suitable for fencing and fuel.

The White Mud River passes through Section 6. It contains an abundant supply of excellent water.

Township No. 16.—The soil is generally of an inferior quality, being light sandy loam. In many places in the north-west quarter of the township the soil does not exceed six inches in depth, the subsoil being composed of gravel and boulders.

The timber is of very little value except for fuel. Fencing and building timber can be procured at the Riding Mountains, some 15 miles distant.

Township No. 17.—The soil is of light sandy loam. The land, excepting two small gravel ridges, which run in a north-westerly direction across it, is level. The marshes produce good hay.

Township No. 18.—Contains very little good farming land. The soil, with the exception of that on the marshy land, is principally light sandy loam.

This township being very low and level, is flooded with the water from the Riding Mountain.

Nearly one-third of this township is marsh or hay land, and in the spring more than one-half of it is covered with water.

The timber has been all killed by fire, and consequently is of no value except for fuel.

Township No. 19.—Is, except the two tiers of sections next the south line, unfit for settlement. The soil is gravel even in the marshes, and the lumber chiefly poplar.

Township No. 20.—The soil is stony and gravelly; and there are many groves of large size poplar, spruce, and red pine, and a young growth of the same timber spread through the township. Owing to the numerous marshes and gravelly nature of the soil, it is not well adapted for settlement.

RANGE XIV—WEST.

Township No. 2.—Is chiefly good rolling prairie. A ravine about sixty feet in

depth runs through the western part of the township, in which pools of standing water are to be found.

There is some good timber in the north-east.

Township No. 3.—The soil of this township is a dark loam, somewhat inclined to be sandy. On the top of the knolls it becomes gravelly.

Oak, elm, poplar, and basswood are abundant along the shores of the lake, and in the valley of the river. There is likewise a large quantity of timber in the southern part of the township.

The Pembina River, which empties into the lake, is a crooked, sluggish stream. It averages about one and a half chains in width, and about four feet in depth in summer.

On the north side of the timber, along the Pembina River, there is a fine strip of rich hay land, running from the marsh at the end of the lake to the west boundary of the township.

Township No. 4.—The surface of this township is rolling or broken. The soil in most places is good, being of a dark loamy nature. It produces a good growth of grass.

There are no streams in the township, and few ponds or springs, but what there are, are fresh.

There is little or no timber, the greater part being prairie, with occasional clumps of willow. No stone or indication of minerals.

Township No. 5.—This township is rough rolling land. Hay swamps are numerous. The water is nearly all alkaline, and the soil gravelly. At the north and centre there are hills covered with thrifty oak and poplar. The southern part is chiefly brushy prairie.

Township No. 6.—Is principally composed of good rolling prairie. About one-sixth is irreclaimable swamp, the remainder fit for farming purposes. Some good timber is to be found in the south-west part of the township. The lowlands have a black loam soil, and the uplands a gravelly soil.

Township No. 7.—In the south-east quarters about one-half the land is good black loam; the remainder very wet swamps. In the south-west quarter the swamps are less frequent. The westerly part of it being good, dry, level prairie. About one-half of the north-east quarter is covered with poplar timber of a poor quality, and a good many muskegs. The remainder is covered with thick scrub. The Assiniboine River flows through the north-westerly part. It is a little over three chains in width, runs about three miles an hour, and the depth is about four feet. Near the banks of the river there is poplar of good size and quality.

Township No. 8.—The soil is generally very poor, being a light yellow sand, which is drifted into irregular hills varying from twenty-five to one hundred feet in height. The larger hills have no vegetation, while the smaller ones are covered with a scant growth of grass and stunted poplar and spruce. The Assiniboine river flows through the eastern part of the township. The soil in its valley is very good, and the north-easterly sections are well timbered.

Township No. 11.—The easterly part is hilly and the soil very sandy, covered with scrub and scrubby poplar and oak. The remainder is level prairie, with a few small gullies. The soil is sandy but of good quality. There are two small streams in the township. A much frequented road to Fort Ellice and the west, crosses the township.

Township No. 12.—About one-third of the eastern part of the township is covered with scrub and small dead poplar. The remainder is undulating prairie, with patches of small brush. There is no water, excepting in the swamps, which are dry during the greater part of the summer months. The soil is light and rather sandy but of good quality, and can be easily cultivated.

Townships Nos. 13 and 14.—The soil is of an inferior quality. The surface partly prairie and partly timbered with poplar and oak, in some places of good quality. There are many swamps but no streams.

Township No. 15.—Is excellent farming land, with the exception of that portion

lying east of the Beautiful Plain Ridge and sections 6, 7 and 18, where the soil is a light sandy loam.

The White Mud River, with several other small streams passing eastward through this township, give an unlimited supply of excellent water.

The marshy land along the streams produces a rank growth of hay.

Large ash, oak, elm and maple are found skirting the banks of the White Mud River. This, with a few groves of poplar, is the only timber in this township available for building purposes.

Township No. 16.—West of the Beautiful Plain Ridge; this township is all excellent farming land, and owing to its proximity to the Riding Mountain, where fencing and building timber can be procured, is well suited for immediate settlement.

This township is nearly all covered with willow and small poplar, the most of which has been destroyed by fire.

Township No. 17.—The westerly half of this township contains some excellent farming land. It is nearly all covered with rose and willow bushes and small poplar. The eastern portion of the township is intersected with small gravel ridges.

The soil is a light and sandy loam.

This portion of the township has no timber of any value, except for fuel.

A large marsh is formed near the centre of the township by the spreading out of the waters of two large streams flowing eastward from the Riding Mountains. Those streams supply an abundance of excellent water.

Portions of the marshy land produce an excellent growth of hay.

Building timber can be obtained at a distance of about two miles.

Township No. 18.—Nearly one-fourth of this township is marsh or hay land. The soil is a light sandy loam. Excepting a few gravel ridges, in the west half of the township, the land is very low and level. About one-half the township is flooded in the spring, the waters of several streams from the Riding Mountains passing through it.

A large portion of the marshy land produces a rank growth of hay.

The timber, except that in sections 6, 7 and 18, has been destroyed by fire.

Township No. 19.—The surface consists almost entirely of marshes and muskegs, excepting the tier of section adjoining the southern line. The hay in these marshes is of excellent quality and in great abundance. There are groves of good poplar scattered through the township, and also a few patches of very poor oak. The soil is chiefly gravelly, which, with the marshes, renders it almost altogether unfit for agricultural purposes.

Township No. 20.—One-half of the surface consists of swamps, the bottoms of which are gravelly and stony, the depth varying from two to six feet. The remaining portion is covered with willow brush and poplar timber of inferior quality. The township is unfit for settlement.

RANGE XV—WEST.

Township No. 11.—The soil in the north and west parts is of first-class quality—a rich black clay loam. The southwesterly portion is a succession of sharp sand-hills, which are quite worthless for cultivation. There are a few ponds in which the water is good. In the south-westerly portion there is some good timber, though the chief timber in the bluffs is poplar.

Township No. 12.—The soil in the whole of this township is first-class—a rich black clay loam. There are a few good hay swamps. There is very little timber. Willow creek flows diagonally across the township. The water in the streams and ponds is very good.

Township No. 13.—The surface is beautiful rolling prairie, with groves of poplar. The soil is of good quality. Two branches of White Mud River traverse the township, and good water is easily found by digging from four to fifteen feet.

Township No. 14.—Is well watered by White Mud River and its branches. The soil is generally of a rich sandy nature. About one-half is well wooded with poplar and other kinds of wood of small growth.

Township No. 15.—The soil is of a sandy loam traversed from north to south by high sand ridges covered with short grass, high willow, rose bush, hazel and a few scattered clumps of poplar. There are several creeks which are dry during the summer. The main cart-trail to the Saskatchewan country crosses the centre of the township.

Township No. 16.—The soil is a rich black loam, with a substratum of clay. The north-westerly part is situated at the eastern base of the Riding or Dauphine Mountains, and is heavily wooded with large maple and poplar, fit for building purposes, with large gray willow, tamarack and stunted oak, and a dense undergrowth of bushes. It is well watered by many small brooks, and some large patches of good hay lands are to be found in the bottoms.

Township No. 17.—The two eastern tiers of sections are low—generally wet—covered with a dense thicket of alder and willow, the soil being rich and deep. In the third tier of sections the Riding Mountains begin to rise at steep incline for about half a mile, on the crest of which is a plateau, generally rising towards the west for about one mile and a half, where another steep incline occurs. The western part is intersected by tortuous and rugged ravines averaging from 400 to 600 feet deep; at the bottom of which run rapid and never-failing streams of good water. The soil on the mountains is very thin, not averaging more than four inches in depth, being of a fine, rich, vegetable mould. The subsoil is shale and gravel. The plateaus have a rolling surface, and are thickly timbered with valuable poplar, ash and oak. The township is, on the whole, better suited for lumbering than agricultural purposes.

Township No. 18.—The soil, timber and surface are similar to those in the last mentioned township.

Township No. 19.—Is well wooded with cotton-wood, birch, spruce and willow. The south-westerly part (being the base of the Riding Mountains) is rough and broken, cut up by many ravines, some of which are from 200 to 300 feet in depth. Good water can be had from many small streams. In the westerly part the soil is very shallow; more easterly, a sandy soil prevails.

Township No. 20.—The soil is a sandy loam, with few gravel ridges, and there are many streams of good water. It is well wooded with poplar, cotton-wood, spruce, elm and oak, also willow in abundance.

RANGE XVI—WEST.

Township No. 11.—The greater part is rolling prairie, with poplar and oak timber. The soil is sandy, and of inferior quality. There are no streams.

Township No. 12.—The soil is first-class; the surface rolling prairie, with much hay land and some swamps, but no streams.

Township No. 13.—Is clear rolling prairie, with one small bluff of stunted oak in the centre. The soil is a rich loam. There are no running streams, but water can be had in almost any section of the township.

Township No. 14.—The surface is rolling and the most part of it clear prairie, except on the western side, where it is very well wooded with small poplar, cherry and willow, none large enough for building purposes. The soil throughout is good. The White Mud River runs through the north-east sections. Its water is excellent, and water can be had in any of the sections by digging from three to six feet.

Township No. 20.—Is altogether unfit for settlement, being composed of deep ravines, muskegs and low land, with very shallow soil. The whole of the township is forest, the timber being birch, elm, poplar, oak, spruce, maple, alder, hazel and juniper. It is well watered by small brooks.

Township No. 21.—Is well wooded with spruce, white birch, elm, oak, ash, cotton-wood and tamarack, much of which is large enough for building purposes. The soil for the most part is good, and there are numerous small streams, two or three of which are well adapted for lumbering and mill purposes.

RANGE XVII—WEST.

Township No. 11.—Is rolling prairie, with a few gullies. Surface water can be had in some of the gullies but not running water. Good water can be got by sinking from six to twelve feet. The soil is a good dark loam.

Township No. 12.—The surface, soil and timber are the same as the foregoing township.

Township No. 13.—The quality of the soil is only second-class, the surface undulating; the bottoms mostly swampy, and the tops of the hills gravelly, and in several places strewn with large boulders of granite. The slopes of the hills are generally a rich black soil, but not of great extent. There is very little water, and it is of bad quality. There is not much timber available for building purposes, most of it being either scrub and crooked, or dead. A road to Fort Ellice crosses this township.

Township No. 14.—The surface is undulating, the bottoms being swampy and the tops of the hills gravelly and stony; the soil on the slopes is tolerably good. There are many small shallow lakes and ponds in the western part, the water of most of them being very bitter, but a few are to be found with good fresh water. About one-third of the area is timbered with poplar, balm of Gilead and a few oaks. The remainder is covered with scrub and grey willow, and reeds and bull-rushes in the swamps.

Township No. 15.—A belt of good heavy poplar timber runs diagonally across the township from south-west to north-east, occupying one-half of its area. It is intermixed with swamps, lakes and patches of scrub. The remainder, with the exception of a strip on the west side, is covered with scrub and gray willow, with numerous swamps and small lakes which are very shallow and muddy. The soil is of an inferior quality.

Township No. 16.—The north-east quarter contains a quantity of second-class poplar timber, the remainder is covered with dense scrub and gray willow. The surface is undulating—the soil in the low lands being good black loam, except in the muskegs, which are pretty frequent—that on the uplands is rather sandy. There are several lakes, the water of which is bitter, but good water may be obtained in the muskegs and most of the swamps by digging about two feet deep. There is one small brook in the southern part of the township.

Township No. 17.—Is chiefly timbered with very small poplar, spruce, grey willow and tamarack, of little use except for fire-wood. The soil is of a middling quality. The surface is rolling and somewhat rough. There are many muskegs and small lakes with some fine living springs.

Township No. 18.—This closely re-embles the preceding township, with the exception that it is rather more thickly timbered.

RANGE XVIII—WEST.

Township No. 11.—Is undulating prairie, excepting some clumps of scrub trees in the south-westerly parts. There are no running streams, but good water in pools in the water courses in the southern part. The soil is rather red and gravelly, except in the southern part, where it is inclined to be a black loam. There are some small patches of hay meadow.

Township No. 12.—The surface is broken prairie, with a hard and gravelly soil, except in the north-east quarter, which is covered with scrub and small poplar, and contains more black loam. It is not well watered.

Township No. 13.—The surface is rolling prairie, with hazel, cherry and dog-wood bushes, small poplar and willow. The soil is good. The Saskatchewan road crosses the north-east corner of the township.

Township No. 14.—The surface is generally rolling, and for the most part the soil is of excellent quality. There are no running streams, but water is readily found

by digging from three to ten feet deep. A small portion is prairie, the remainder is covered with small and scrubby poplar and willows, but no timber of any kind large enough for building is to be found.

The middle trail to trailing posts crosses this township diagonally.

Township No. 15.—Is well wooded and watered. The Little Saskatchewan River winding from its northern to its southern limit in a lovely valley. There are several beautiful small lakes; the waters for the most part are good, although some few are alkaline. Also abundance of good hay land. The Saskatchewan trail crosses the centre of the township.

RANGE XIX—WEST.

Township No. 11.—The soil is a good dark loam. There is no timber, brush or scrub in the township, nor any surface water, but it can be obtained by sinking about ten feet.

Township No. 12.—Is prairie, with islands of poplar and scrub. The soil is a good dark loam. Water is scarce, (though there are a few ponds) yet it can be easily obtained by sinking about eight feet; the timber is large enough for fencing purposes.

Township No. 13.—The surface is undulating. The soil good. The timber inferior, and swamps numerous, but small. The Little Saskatchewan River runs in a south-westerly direction across the north-western part of the township. The current is very rapid; its width is about one chain, and depth about three feet, and its valley about one mile wide.

Township No. 14.—The surface is undulating; the soil good, about one-third is covered with scrub and a few small poplar bluffs. Swamps and small alkaline lakes are numerous. The Little Saskatchewan flows in a southerly direction through the eastern part. It has a rapid current, and is well adapted for mill sites. The valley of the river is about one mile in width, enclosed by hills nearly 100 feet high.

Township No. 15.—The surface, soil and timber are the same as the preceding township. There are two alkaline lakes in this township.

Township No. 16.—The surface of the southern half is undulating, the soil good, with frequent small poplar bluffs, lakes and swamps. The Little Saskatchewan River crosses the northerly part. Its valley is swampy and liable to floods. To the north of the river the land is rough and hilly; about one-fourth of it is timbered with small poplar. The remainder is covered with thick scrub and fallen timber. The Rapid River runs through the north-east corner. Until it enters the valley of the Little Saskatchewan it flows through a deep, narrow ravine, and has numerous mill sites.

Township No. 17.—Is well timbered with poplar, white birch, grey willow and a few spruce, averaging from four to fifteen inches in diameter. The soil is good loam, with a sub-soil of clay. There are numerous lakes and muskegs. Whirlpool River flows through the easterly part, affording good mill sites. The water is fresh and of good quality.

RANGE XX—WEST.

Township No. 11.—The surface is undulating prairie, the soil a rich dark loam. There is no timber of any value, although there are some small patches of poplar along the banks of the Rapid River, which flows through the township, and affords some good mill sites.

Township No. 12.—The surface is undulating, and covered for the greater part with dense clumps of poplar, hazel and willow. The soil is a rich, deep, dark loam, stony in places. There are a few ponds of alkaline water. The only good water is in the Little Saskatchewan River, which flows through the north-westerly part, and has some good mill sites.

Township No. 13.—The surface is undulating prairie, sloping gradually towards the Little Saskatchewan River, which crosses the township diagonally, and contains some good mill sites. The soil is very good.

Township No. 14.—The surface is undulating prairie, and the soil good. There are few small bluffs of poplar. Alkaline lakes are numerous. Good water may be had by sinking a few feet. There are some fresh water ponds and numerous small meadows. It is a fair township for settlement.

Township No. 15.—Is first-class rolling prairie, well watered with small lakes, and has a considerable quantity of poplar on the south-east corner.

Township No. 16.—The surface, soil, and timber are the same as the preceding township, but it is not well watered except in the northerly part, which is traversed by the Little Saskatchewan River.

RANGE XXI—WEST.

Township No. 11.—The general surface is very hilly and broken by the valleys of the Assiniboine and Little Saskatchewan Rivers, which traverse the township. The soil in the bottoms is of a rich quality, but a good deal of the uplands is stony. The River Assiniboine is on an average three chains wide, in some places deep and in others too shallow for large boats. The current is very slow. The valley in some places is about three miles wide. The Little Saskatchewan is about one chain in width, with a very strong current, affording some good mill sites. The banks are very steep, and many places over 100 feet high. The only timber is along the banks of the rivers, and the greater part of that is small.

Township No. 12.—The general surface of the northern and western parts is level prairie. The south-eastern part is broken by the Little Saskatchewan River, which presents many good mill sites, as its current is very rapid, and it has a large supply of water. The soil on the banks of the river is very stony, but in the northern part of the township it is good deep loam. There is a little timber along the banks of the river.

Townships Nos. 13 and 14.—The soil is first-class. About one-third of each township is timbered with poplar. The residue is prairie and is well watered by ponds and marsh springs.

Townships Nos. 15 and 16.—The surface is undulating prairie, the soil rather gravelly. Small patches of brush are very frequent, and there are several clumps of dry poplar and willow. Swamps are numerous, but small. The main cart trail to Fort Ellice crosses the northern part of the township. There is a pond of good water in section thirty-four.

RANGE XXII—WEST.

Township No. 11.—The surface is generally prairie. The northern part is broken by deep ravines; in the middle there is a level flat, about one mile in width; and the southern part is a broken, stony prairie. The soil is very good, being a black loam, especially on the level flat, where it is deep and rich. It is well watered, nearly all the ravines containing water in springs and swamps. There is some very good poplar in the western sections, and some elm, oak, and ash on the banks of the Assiniboine River, which flows through the south-east corner of the township.

Township No. 12.—The surface is generally prairie, broken by deep ravines. The timber is dead and green poplar, a small quantity of which may be used for fencing, which is situated in the bottoms of the ravines. The soil is a good dark loam. Oak River, a stream about ten feet wide and one foot deep, traverses the township; but the water is dead, standing in ponds along the bed of the stream. Water may be had in any of the ravines by sinking from eight to ten feet.

Townships Nos. 13 and 14.—Are well wooded and watered. The timber is poplar, large enough for building purposes. The greater part of the surface is rolling prairie, the timber being scattered over it in small clumps. The soil is excellent. A creek runs diagonally across the township.

Township No. 15.—Is principally prairie, with good soil, although gravelly in places. In some places there are small islands of poplar. There are numerous and good hay swamps. Oak River flows through the south-westerly part of the township, in a stony valley.

Township No. 16.—The soil is of good quality, being a dark, sandy loam. The surface is principally undulating prairie, with patches of willow, brush, and small swamps; there is also a considerable quantity of good poplar along the eastern shore of Salt Lake, which lies in the middle of the township. Its waters are very bitter and salt. Springs of pure water abound on the north-east shore of the lake. There is a dry bed of an alkaline lake in the northerly part, which is covered to the depth of about two inches with a deposit of salts of soda.

RANGE XXIII—WEST.

Township No. 11.—Is rolling prairie, broken by several ravines, from 50 to 100 feet deep. In most of the ravines good water can be had in ponds. The soil is a dark loam. There are a few islands of poplar in the northern part of the township, but the supply is very small.

Township No. 12.—The surface is rolling, partly prairie and partly woods. The soil is good. Good water can be obtained anywhere by digging a little depth.

Townships Nos. 13, 14, and 15.—The surface is undulating prairie, with small bluffs of poplar. The soil is good and there are many ponds; and good fresh water may also be had by sinking wells. Oak River crosses the north-east corner of township No. 14.

Township No. 16.—The soil is a black, sandy loam, gravelly in places. The surface is undulating, principally prairie, with numerous small clumps of brush and islands of poplar. Shoal and Raven Lakes, lie on the westerly part. The water of these lakes is good. A road to Riding Mountain House crosses the north-west corner of the township.

RANGE XXIV—WEST.

Township No. 11.—Two ridges, about 20 chains in width and 50 feet in height, traverse the township from north to south. The soil on the ridges is hard and gravelly, but elsewhere it is generally of the finest quality. It has no running water. Two beautiful small lakes, surrounded by woods, lie in the southerly part, but the water being salt is useless for domestic purposes. Excellent water can, however, be found in several parts by digging from four to eight feet deep. The absence of wood is the greatest objection to this township being good for settlement.

Township No. 12.—The surface is generally rolling prairie, almost without wood, excepting a few scattered groves of poplar and willows, chiefly in the north-east part. The scarcity of wood is the greatest obstacle of the settlement of this township. The soil is a deep, dry loam, free from stones, and is in every respect well adapted for agricultural purposes.

Townships Nos. 13, 14, 15 and 16.—The soil is principally a rich, dark clay loam, with occasional gravel hills, the summits of which are thickly strewn with boulders. There are several lakes of good water, and numerous islands of timber and underwood. These townships are well adapted for settlement.

RANGE XXV—WEST.

Township No. 12.—Is situated on the east side of the Assiniboine River. It has a rolling surface, and the west side is broken by deep ravines running towards the river. In these ravines there are poplar and birch not exceeding five inches in diameter. In the valley of the river there are some elm, oak and poplar, with a few ash, not exceeding one foot in diameter. The soil in the valley is a rich loam; elsewhere it is slaty, with patches of loam. It has a rolling surface, generally prairie.

Township No. 13.—The soil is fair, and the township fit for settlement, being watered by Arrowhead River and other small streams. There are numerous high gravelly and stony hills.

Township No. 14.—The surface is undulating prairie, the soil good, and a fine creek of good water flows through it. There are numerous bluffs of scrub, but not much good timber.

Township No. 15.—There is a considerable quantity of poplar timber and scrub in the northern half. The southern half is chiefly prairie. The soil is dark, sandy loam, of good quality. A dry ravine, about seventy feet deep, lies at the eastern, and another about eighty feet deep, in the western part of the township.

Township No. 16.—The soil is a dark sandy loam; the surface undulating, principally prairie, but having numerous patches of brush, small swamps, and clumps of poplar and high willow. A road to Fort Ellice crosses the northern part of the township.

RANGE XXVI—WEST.

Townships Nos. 13 and 14.—The soil is generally a good loam, the surface rolling prairie. Good water is scarce. There are a few small patches of poplar.

Townships Nos. 15 and 16.—The soil is sandy loam, of good quality. Islands of inferior poplar are numerous, as well as small patches of willow brush. The rest of the township is undulating prairie. Township fifteen is traversed by two ravines, one ninety, and the other fifty feet deep.

Township No. 20.—The soil and timber are the same as in the preceding township. There is a lake about three and a half miles long, and half a mile wide, in the middle of the township.

REPORT

OF THE

SECRETARY OF STATE

OF

CANADA,

FOR THE

YEAR ENDING ON THE 31st DECEMBER, 1874.

PRINTED BY ORDER OF PARLIAMENT.

OTTAWA:
PRINTED BY MACLEAN, ROGER & CO., WELLINGTON STREET.
1875.

REPORT
OF THE
SECRETARY OF STATE,
FOR THE
YEAR ENDING ON THE 31ST DECEMBER, 1874.

To His Excellency the Right Honourable Sir FREDERIC TEMPLE, Earl of Dufferin, Governor General of Canada, &c., &c., &c.

MAY IT PLEASE YOUR EXCELLENCY:—

I have the honour to submit to Your Excellency, the following Report of the business and transactions connected with this Department, for the year ending 31st December, 1874.

In the Correspondence Branch, the number of letters received during the year has been 1,600; if this number be multiplied by four, it will fairly represent the average of reports, &c., and renewed applications on each.

During the same period of time, 3,884 letters were sent from this Department.

At my request, statements of the operations of the three other branches of the Department have been prepared, and I have caused them to be hereto appended, for Your Excellency's information.

The whole respectfully submitted.

R. W. SCOTT,

Secretary of State.

APPENDIX A.

DEPARTMENT OF THE SECRETARY OF STATE, REGISTRAR'S BRANCH,

OTTAWA, 15th Jan., 1875.

The Hon. the Secretary of State,
&c., &c., &c.,
Ottawa.

SIR,—In compliance with your request, I have the honor to submit for your information a statement of the work done in the Registrar's Branch of the Department of the Secretary of State, from the 1st January, 1874, to the 31st December, 1874.

I have the honor to be, Sir,
Your most obedient servant,

L. A. CATELLIER,
Deputy Registrar General of Canada.

A CONDENSED STATEMENT showing the work done in the Registrar's Branch of the Department of the Secretary of State, from the 1st January, 1874, to 31st December, 1874.

An Annual Return of all Bonds and securities recorded in this Department under 31st Vict., cap. 37, is prepared for the Parliament of Canada under section 15 of the same Act; and

A Quarterly Return of all the Indian and Ordnance Lands Sales is also sent to the Registrars of each County.

I. A. CATELLIER,
Deputy Registrar General of Canada.

Department of the Secretary of State,
Registrar's Branch,
Ottawa, 15th January, 1875.

APPENDIX B.

To the Hon. R. W. Scott,
Secretary of State of Canada,
&c., &c., &c.

The undersigned has the honour to submit the following Report respecting the printing services performed under his superintendence during the financial year, which ended on the 30th June last, and the six months which have since elapsed :—

THE CANADA GAZETTE.

The cost of the *Canada Gazette* for the financial year, was :—

Service.	Amount.	Total Amount.
	\$ cts.	\$ cts.
For Paper	1,142 17	
Printing and distribution.....	2,416 40	
Translation.....	119 45	
		3,678 02

The Revenue derived from it during the same period, was :—

Source of Revenue.	Amount.	Total Amount.
	\$ cts.	\$ cts.
From Subscriptions	242 20	
Advertisements	931 43	
Casual sales	9 80	
		1,183 43

The numbers distributed in the last week in June, were :—

Gratis to Official Persons, &c.....	1,045
To Subscribers and Advertisers.....	77
Total	1,122

For the six months ending this day, the cost has been :—

Service.	Amount.	Total Amount.
	\$ cts.	\$ cts.
For Paper	548 71	
Printing and distribution	1,139 00	
Translation	50 65	
		1,738 36

And the Revenue :—

Source of Revenue.	Amount.	Total Amount.
	\$ cts.	\$ cts.
From Subscriptions	230 85	
Advertisements	317 67	
Casual sales	3 75	
		552 27

* The numbers issued on the 26th December, inst., were :—

Gratis to Official Persons, &c..... 1,053

To Subscribers and Advertisers..... 93

Total..... 1,146

It will be seen, that the loss on the publication is in about the same proportion as in previous years. If the various departments were charged for the notices inserted on their requisition, a handsome surplus would be shown, if not realized, as in the case of other charges for services performed by one department for another; but the utility of that method of swelling the amount seems to me to be doubtful. An increase of the rates of advertising, to a parity with those charged by leading newspapers would very much reduce, or altogether extinguish, the deficit. The publication of the advertisements in cases of insolvency would yield a handsome revenue, which has been transferred to the several *Provincial Gazettes*; and a considerable amount would be derived from the enforcement of the law compelling Insurance Companies to publish annual statements.

THE STATUTES.

The edition of the Statutes of 1874 (37 Victoria), was the same as in previous years, viz. :—22,000; of which 17,500 were English and 4,500 French. Of these, 15,463 vols. English and 3,105 vols. French, have been distributed gratuitously; and 197 English, and three French, sold.

It gives me satisfaction to note in the history of the work of the year, that two suggestions made in previous reports have been approved by His Excellency the Governor General, in Council, and are being acted on.

A volume containing the criminal laws and Acts relating to criminal procedure, is now going through the press, to be issued for the use of Justices of the Peace, in the Provinces most recently added to the Dominion, and those appointed in the original four Provinces since the volume of 1869 (containing the greater part of these Acts), was issued. In future years, a volume containing the Public Acts alone, will first be issued, and this only will be distributed to Justices of the Peace throughout the country; while the Statutes at large (including local and private Acts) will be issued later to the principal judicial and executive officers of the Dominion and several Provinces. A much earlier delivery of the laws, which they are called upon to administer, will thus be ensured to all charged with that duty, and a considerable saving in expense effected. It is also proposed to publish a certain number of each Act, in separate sheets, as is done in England. There is a constant, though not very large demand for these single Acts, which it is generally difficult, and often impossible to supply. Frequent applications are also made to me, for the purchase of Parliamentary documents, by persons laboring under the mistaken impression that they pass through my hands; and I submit it as a matter for consideration, if a certain number of surplus copies of these might not, with advantage, be issued to me for sale at cost price along with the Statutes.

The Government would thus be re-imbursed some small part of the cost of printing them, and their distribution to people really requiring them for use, who cannot always obtain them now, would be ensured, while possibly a reduction in some degree of the gratis distribution (which often gives important documents to people unwilling or unable to study them with advantage), might be effected.

The cost of the volume for 1874, has been:—

Service.	Amount.	Total Amount.
	\$ cts.	\$ cts.
For Paper (1,826 reams, 16 quires, 17 sheets).....	5,882 41	
Printing	1,956 98	
Binding	3,252 57	
Distribution	1,021 50	
		12,113 46

The average cost per volume was, therefore, about 55½ cents, as against 51 cents for the smaller volume of last year; and the cost per sheet is about 1½ cents, as against 2 4-5 cents for the large volume of 1869.

DEPARTMENTAL PRINTING, BINDING, &c.

I append tables showing the cost of Departmental Printing, Binding, &c., during the year ending 30th June last, as compared with that of the same services in 1872-3; also a table showing the cost of the same services for the half year ending this day.

I have also appended a memorandum respecting certain confidential and other work, not done upon requisition through this office, but the accounts for which, have been sent in for audit by me. This raises the total amount of work done under the superintendence or audit of this office, to nearly \$70,000; if the work done on

the volume of Criminal Law (including the reading of proof) be added, to considerably more than that sum. And besides this work of audit and superintendence, I am called on at times to supply estimates for work which is either not executed, or not brought into my audit. Not unfrequently, also, I have been called on to audit advertising accounts, or furnish estimates of the cost of advertising for the several departments.

The number of requisitions issued to the printers during the last twelve months, has been 2,269; and those upon the Stationery Office for materials for the work also 2,269; and those upon the binder, 450; making in all nearly 5,000.

The contracts of Mr. I. B. Taylor, for the printing and binding of the departments, the printing of the Statutes, and the printing and distribution of the *Canada Gazette*; that of Mr. A. Mortimer (transferred by leave of His Excellency the Governor General in Council, from Messrs. Hunter, Rose & Co.), for binding the Statutes; and that of Messrs. Barber for printing paper, expired on the 30th September last. Tenders for new contracts were invited by advertisement in the beginning of April last, and were received from sixteen persons on or before the 12th May, when they were opened.

As a result of this competition, new contracts have been entered into for the several services (similar in terms to those with Messrs. Taylor, Mortimer and Barber) with the following parties, viz.:—

For departmental printing, &c., printing the Statutes, and printing and despatching the *Canada Gazette*,—Messrs. MacLean, Roger & Co., Ottawa.

For departmental binding and binding the Statutes:—Mr. A. Mortimer, Ottawa.

For printing paper,—Mr. James Barber, Georgetown, Ont.

The list of prices and specifications accompanying the contracts will be found subjoined. The work under the new contracts began on the 1st October last. Up to this time, the new contractors have done their work in a generally satisfactory manner.

All which is respectfully submitted.

B. CHAMBERLIN,
Queen's Printer.

Ottawa, 31st December, 1874.

PRINTING CONTRACTS.

AWARDED TO MESSRS. MACLEAN, ROGER & CO., OTTAWA.

PRINTING OF THE "CANADA GAZETTE."

	Schedule.	\$ cts.
Composition.....	New matter, per M. ems, solid measure	0 20
	Reinserting old matter, per M. ems, solid measure	0 05
	Corrections, per hour	0 15
Presswork	Per token of 250 impressions of 8 pages foolscap, or one side of quadruple cap	0 20
	Per token of 250 impressions of 4 pages foolscap, or one side double cap.....	0 20
Folding &c.....	Folding, gathering and refolding for mail or delivery, per 100 sheets of 16 pages of quadruple cap.....	0 07½
	Wrapping in manilla wrappers securely fastened, tying in bundles for Post Office, mailing or delivering, including printing of addresses; per single number	0 00½

SPECIFICATION.

Bourgeois type will be used, except for tables requiring smaller type, and the form of the present *Canada Gazette* adhered to.

The contractor will be responsible for any error or deviation from copy; will read proofs and furnish correct revises when required, without charge; will be bound to follow a certain order in the precedence and arrangement of advertisements, which will be indicated to him.

Double composition will be allowed on tabular statements consisting of rule and figure-work.

The press-work will be done with good book ink, not liable to spread or off-set, and subject to the approval of the Queen's Printer. The price for press-work to include the cost of cutting paper into sections when necessary.

The folding must be square and neat, and the numbers and parcels carefully addressed and fastened. A complete classified list of persons receiving the *Gazette* will be made and kept by the contractor under instructions from time to time furnished by the Queen's Printer; and he will be held responsible for the loss of any number through insufficient address or fastening.

The contractor must be in a position to complete the *Gazette*, whatever may be its size, and have it delivered or posted on the day of its issue.

Two-and-a-half per cent. will be allowed for waste on the number of sheets of the *Gazette* ordered to be printed.

The contractor will furnish safe storage for at least two months' supply of *Gazette* paper, for which he will be responsible to the Government.

PRINTING OF THE STATUTES, ORDERS IN COUNCIL, &c.

	Schedule.	\$ cts.
Composition	Per page of plain matter, Small Pica body, with Minion notes, measuring together 2,126 ems	0 50
	Per page of Small Pica catalogue work :—titles, tariffs, tables and indices	0 50
	Per page of Bourgeois rule and figure work, measuring 2,800 ems	0 50
Presswork	Per token of 250 impressions of 16 pages royal 8vo.....	0 20
	do do 8 do	0 20

SPECIFICATION.

The term "Statutes" will include such Impérial Acts as may be printed and bound with those of the Dominion; and the term "Orders in Council" will include all Imperial Orders, Treaties or Proclamations similarly ordered to be printed and bound up with Canadian Statutes or Orders in Council.

Composition will include correction of proofs and the delivery of two correct revises of each form. The contractor will be responsible for the exact accuracy of the laws as compared with copy; any mistake will render him liable to reprint the sheet at his expense.

Presswork must be done with No. 1 book ink, subject to the approval of the Queen's Printer, in signatures of 16 pages, or full sheets of royal when possible, and will include drying after coming from the press, and glazing between glazing boards under powerful pressure; likewise the delivery of the sheets in good order, counted and marked by five hundreds, to the binder.

The Statutes must be delivered by the printer at the rate of at least six sheets, or ninety-six pages per week from the date of delivery of copy therefor.

The contractor will be required to provide safe storage room for the law paper, and will be responsible therefor while in his keeping.

Two per cent. will be allowed for waste and proofs on the number of sheets ordered to be printed.

	do do pasting covers, per 100 pamphlets.....	0 80
	Cloth lining corners, per 100 copies.....	0 20
	Cutting paper, per 100 cuts.....	0 01
	Packing and labelling, per package.....	0 05

SPECIFICATION.

The contractor will furnish correct proofs of each order, as may be required, without extra charge.

The ink used in circulars, blank-book headings, and other work on hard dry papers must be equal to No. 1 book ink.

Gathering and stitching to be reckoned by full sheets, unless the number of pages renders cutting into sections unavoidable.

No extra charge will be allowed for opening envelopes or folded paper, and replacing in boxes or packages, as the case may be.

On jobs of 300 sheets and under, 4 per cent.; over 300 to 500, 3 per cent.; over 500 to 1,000, 2½ per cent.; and over 1,000, 1½ per cent. will be allowed for proofs and waste.

All job or pamphlet printing must be glazed before delivery.

All jobs to be delivered to the Queen's Printer, the bindery, or elsewhere, as directed from time to time, clean and in good condition, within reasonable time after the order is received. No charge for counting and packing will be allowed unless specially ordered.

The contractor must be prepared to deliver work at short notice, as may be frequently required.

He will be expected to use the newest styles of type, and keep the work up to the standard of first-class workmanship.

CONTRACTS FOR BINDING,

AWARDED TO MR. A. MORTIMER, OTTAWA.

BINDING OF THE LAWS.

Schedule and Specification.	\$ cts.
In cases, cloth sides, law-sheep backs, bronzed titles on enamelled paper, as per sample :—	
Per volume of 400 pages and under.....	0 15
do 400 to 600 pages.....	0 16
do over 600 pages.....	0 18
In half-law calf, paper sides, gold titles, as per sample :—	
Per volume of 400 pages and under.....	0 55
do 400 to 600 pages.....	0 60
do over 600 pages.....	0 60
In full law calf, gold titles, as per sample :—	
Per volume of 400 pages and under.....	0 80
do 400 to 600 pages.....	0 85
do over 600 pages.....	0 95
Extra lettering on side titles, as per sample :—per title	0 15
Folding and gathering of reserve copies, per 1,000 sheets.....	0 50

SPECIFICATION.

The contractor will be responsible for the safety of the sheets from the moment they pass into his hands from the printer's.

The contractor will be responsible for the correct gathering and verification of the signatures. He must furnish the usual end-papers.

Each volume must be solidly pressed, the sewing carefully fastened, and the whole work neat and workmanlike. The board must be equal to that in sample volumes, and subject to approval; and the Statutes bound or in sheets, delivered free to the Government stores or packing-rooms.

The bound volumes must be delivered at the rate of at least two thousand per week from the date of the delivery of the last sheet by the printer.

1½ sheet Foolscap to be classed as Demy. Double Foolscap to be classed as Royal. Other unclassified papers to be reckoned as of the size next larger, in total superficies, which is classed.									

SPECIFICATION.

Paper for all books to be furnished from the Government Stationery Office, with six (6) sheets additional for each book, in styles Nos. 1 to 16, both inclusive; two (2) sheets each for Nos. 17 to 20, both inclusive; and one (1) sheet for No. 21, for end papers and vouchers.

All books in styles from Nos. 1 to 16, containing three quires, to have elastic backs; those under 3 quires below demy size, to have open or closed backs as may be ordered. All books in styles 17 to 20, inclusive, to have common open or closed backs as may be ordered. All books in styles from Nos. 1 to 16, inclusive, to have marble paper covers inside, with strong cloth joint linings. All books may have three (3) labels or titles included in the prices of styles Nos. 1 to 16; those in styles Nos. 17 and 18, to have one (1) title; those in styles Nos. 19, 20 and 21, may have a printed paper label on side. The maximum per label to be 20 letters, or 60 letters per book in styles Nos. 1 to 16, inclusive.

The contractor is to provide all materials, other than the paper above-mentioned, of the best quality, with first-class hard boards; all work to be finished to any pattern given, in the best manner.

The contractor, or some competent person for him, to attend at any office of the several Departments, on notice given him for that purpose, to take patterns and receive such instructions as may be required, as to work to be done, or to do the work in such Department.

He shall also furnish proofs of ruling when required. No extra charge to be in any case allowed the contractor, unless the necessity for it be pointed out and admitted before the work is done.

The rates in the above schedule are intended to apply to single volumes or small orders only; the contractor will make the following reductions on large numbers, viz. Nos. 1 to 6, both inclusive, on orders over 12 up to 25, $2\frac{1}{2}$ per cent; over 25 up to 50, 5 per cent; over 50 up to 100 $7\frac{1}{2}$ per cent; over 100, ten per cent.

Nos. 7 to 16, both inclusive, on orders over 20 up to 50, $2\frac{1}{2}$ per cent; over 50 up to 100, 5 per cent; over 100 up to 150, $7\frac{1}{2}$ per cent; over 150 up to 200, 10 per cent; over 200, $12\frac{1}{2}$ per cent.

Nos. 17 to 21, both inclusive (including cheque books), on orders over 100 up to 250, $2\frac{1}{2}$ per cent; over 250 up to 500, 5 per cent; over 500 up to 1,000, $7\frac{1}{2}$ per cent over 1,000, 10 per cent.

SPECIFICATION.

The prices to cover all ordinary back lettering, including names of Departments at bottom, where required. No extra charge to be in any case allowed, unless the necessity for it be pointed out and admitted before the work is done. The contractor to furnish all materials except paper for interleaving. All work to be done in the best materials of the respective sorts, with first-class hard boards. Gilding to be done with the best deep gold only, and the workmanship to be of the best description.

In the event of any doubt arising at any time, as to how any particular job of work is to be done, in any respect, the contractor is to obtain the necessary information for his guidance from that one of the Departments for which the work is being done, or re-execute the work if rejected.

The contractor will make the following reductions on large orders:—On orders over 50 and up to 150, $2\frac{1}{2}$ per cent; over 150 and up to 300, 5 per cent; over 300 and up to 600, $7\frac{1}{2}$ per cent; over 600 up to 1000, ; over 1000, 10 per cent.

CONTRACT FOR PRINTING PAPER.

AWARDED TO MR. JAMES BARBER, GEORGETOWN.

Schedule and Specification.	\$	cts.
Per Ream of 500 sheets, No. 1, Double Royal, for the laws; to weigh 52 lbs. per Ream	6	15
do do do Royal, to weigh 26 lbs. per Ream	3	10
do do No. 2, Gazette paper, Double Quadruple foolscap, to weigh 64 lbs. per Ream of 500 sheets	6	95
Per Ream of 500 sheets, No. 2, Gazette paper, Quadruple Cap., to weigh 32 lbs. per Ream	3	50
Per Ream of 500 sheets, No. 1, Double Demy, 50 lbs. per Ream	6	00

SPECIFICATION.

The contractor will be required to deliver the paper, as may be ordered, from time to time, at his own expense to the person appointed to take charge thereof at the seat of Government.

The quality of the paper must be equal to the samples to be seen at the office of the Secretary of State.

The contractor will be required to give good and sufficient security in the sum of five thousand dollars, by bond of a guarantee company approved by the Government, for the fulfilment of his contract.

APPENDIX C.

DEPARTMENT OF THE SECRETARY OF STATE,
STATIONERY OFFICE BRANCH,
OTTAWA, 13th January, 1875.

The Honorable

The Secretary of State, Ottawa.

SIR,—I have the honor to submit the accompanying statements of the transactions of this office for the year from 1st July, 1873 to 30th June, 1874, and from 1st July to 31st December last.

The aggregate business of the year 1873-74 may be briefly stated thus:—

Value of goods in stock at 1st July, 1873 (verified)....	\$13,501 24
“ “ received during the year.....	48,389 35
Profit on the year's transactions.....	1,031 38
Total.....	62,921 97
Goods issued on demand to Departments.....	23,227 06
“ “ to order of Queen's printer for Departments (six months only).....	9,920 40
Goods charged to outside service.....	16,353 42
“ in stock at 30th June, 1874, carried forward.....	13,421 09
Total.....	62,921 97

The business of the past six months aggregated in the same way, are:—

Goods in stock at 1st July, 1874, as above.....	13,421 09
“ received to 31st December.....	25,219 97
Total.....	38,641 06
Goods issued on demand to Departments.....	6,804 66
“ “ to order of Queen's printer	10,737 51
“ “ charged to outside service.....	6,140 95
“ in stock at 31st December, 1874.....	14,957 94
Total.....	38,641 06

The demands on the office have been considerably greater during the year ending 30th June, than in any former corresponding period:—

	Amount.	Increase.
The total issue amounting to	\$49,500 88	\$11,559 81
The amount for 1872-73 being.....	37,941 07	6,305 11
And for 1871-72.....	31,635 96	

For the past six months, however, the demands have not been so great:—

The amount being	\$23,683 12
And for the same period in 1873.....	25,547 75
Showing a decrease of.....	\$21,864 63

It should be noticed here that a proper comparison of the demands of the individual Departments cannot be made with those of former years, owing to the change in the system effected at 1st January 1874, by which the whole of the papers, &c., required for printing, ruling, and binding of books, forms, &c., are charged to the Queen's Printer, instead of as formerly, to the several Departments. The whole of the printing papers used for Departmental work were at the same date transferred to this office, and are therefore included in the sums placed to debit of the Queen's Printer in the statement of issues. These sums, \$9,920.40 and \$10,737.51, in the respective two half years, placed in the column for Outside Service in the accounts—are re-chargeable to the various Departments by the Queen's Printer.

Regarding the work of the office as a source of supply, there is little to remark beyond what has been previously reported. Some difficulty is still occasionally experienced in supplying sudden, or extra large demands, but this has not been felt so much during the past year as formerly; partly from the greater ease in procuring goods from England, and partly that the increased capital appropriated to the office since 1st July has enabled us to carry a somewhat larger stock. The average value of which, as reported at the end of each month in 1873-74, is \$14,019.73, shewing the entire capital to have been turned over 3.54, or a little over three and a half times during the year—the average of the past six months is \$15,880.60.

The value of the waste paper collected from the Departments and sold by contract amounts to \$607.27 for the year—and to \$453.96 for the past half year, the sums having been deposited to credit of the Receiver General on this account. There has also been deposited to his credit refunds amounting to \$88.17 for goods supplied by order and subsequently paid for. Respectfully submitted.

I have the honor to be, Sir,

Your most obedient servant,

JAMES YOUNG.

GOVERNMENT STATIONERY OFFICE.

REPORT OF THE LIBRARIAN

ON THE

STATE OF THE LIBRARY OF PARLIAMENT.

To the Honorable the Senate and House of Commons of Canada, in Parliament assembled.

The Report of the Librarian of Parliament, respectfully sheweth :—

That, since the last Annual Report, numerous additions have been made to the Library. But owing to the frequent and increasing demands for the latest and most authoritative information upon legal questions, and upon the principal topics of the day,—and the absence of any other public Library in this part of the Dominion,—it is evident that it will become necessary, before long, to increase the collection very materially, in its more prominent and important sections. At present the Library is much in arrear, in comparison with the leading Public Libraries in the adjoining States, in meeting the requirements of educated readers. But any considerable enlargement must necessarily be deferred until the collection is placed in apartments which will admit of its continuous growth and expansion.

The prospect of a speedy removal to our new premises is daily becoming more encouraging. The interior decoration of the building is now in hand, and there is a reasonable ground for anticipating that it will be ready for occupation before the expiration of another year.

In view of this transfer, the attention of Parliament is respectfully called to the fact, that by the Statute of 1871, the Library of Parliament was formally severed from its previous connection with the establishment of The Senate and the House of Commons, and constituted an independent department of the Civil Service. Nevertheless, so long as the Books are deposited in rooms which appertain to the Main Building, the administrative officers of the two Houses have agreed to provide for the cleaning, heating and furnishing of these apartments. But, upon the removal of the Library to its permanent *locale*, other arrangements must be entered into for the fulfilment of such services, and due provision made to defray all contingent expenses in connection therewith.

Valuable donations of books continue to be received, especially from foreign Libraries. And the Librarian is happy to state that, through the exertions of the Honorable Senator *Brown*, during his recent official mission to *Washington*, Congressional Documents, issued since the year 1868, and hitherto unobtainable by direct application to the Officers of Congress, have been supplied, and a valuable collection of American official publications has been received from the *United States Government*.

A supplementary Catalogue of the Books procured during the past year is ready for distribution to Members. And Lists of all donations received, and of Books deposited under the Copyright Law, within the same period, are herewith submitted.

The number of volumes in the Library last season, was computed at 72,550. The subsequent additions are about 2,536 volumes; making a total of 75,086.

All of which is respectfully submitted.

(Signed,)

ALPHEUS TODD.

Librarian.

Library of Parliament,
4th February, 1875.

LIST OF DONATIONS RECEIVED SINCE 26TH MARCH, 1874.

From Her Majesty's Secretary of State for Foreign Affairs, through the Governor General:

French version of the British Case and Counter-Case, with Appendices, and Proceedings before the Arbitration Tribunal of *Geneva*, under the Treaty of *Washington*, 1871, 8 vols., folio.

MESSAGE.

DUFFERIN.

The Governor General transmits for the information of the Senate and House of Commons copies of a correspondence which has taken place with the Right Honorable the Secretary of State for the Colonies, relating to the commutation of the sentence of death passed on Ambroise Lepine, for the murder of Thomas Scott, at Fort Garry.

Government House,
8th February, 1875.

CANADA.

opy 7. —No. 305.)

GOVERNMENT HOUSE,
OTTAWA, 10th December, 1875.

MY LORD,—

I have the honor of forwarding to Your Lordship a very important Order in Council, which my Ministers have desired me to transmit, with the request that Your Lordship would be pleased to give it your most earnest consideration.

2. The purport of the document is to move Your Lordship and the Imperial Government to undertake the settlement of what is known here as the "Amnesty question."

3. The reasons for which my Ministers are desirous of seeking Your Lordship's assistance are founded on the fact of the circumstances out of which the "Amnesty question" has grown, having occurred at a time anterior to the assumption by Canada of the Government of the North-West. They are further impelled to adopt this course by the obvious embarrassments attending the settlement of a controversy, whose aspects are alleged to have been already modified by the intervention of Imperial authority, and which are so seriously complicated by the vehement international antagonism which they have excited in this country. Under these circumstances my advisers are of opinion that a dispassionate review of the whole question emanating from so impartial a source as Her Majesty's Government would tend more to tranquilize the public mind, and secure a loyal acquiescence in whatever decision may be arrived at, than would be the case were they themselves to undertake the settlement of the dispute.

4. Your Lordship is so well acquainted with the history of the troubles which were occasioned by the somewhat precipitate attempt made in the year 1869 to incorporate the present Province of Manitoba with the Dominion, before the conditions of the proposed union had been explained to its inhabitants, that I need not do more than recapitulate the special incidents which directly bear upon the subject under consideration. It will be sufficient to remind your Lordship that on the news of these disturbances reaching Ottawa, emissaries were despatched to Fort Garry in the persons of the Vicar-General Thibault, Colonel de Salaberry, and Mr. Donald Smith, with the view of calming the agitation which had arisen, and of giving ample assurances to those whom it might concern, that both the Imperial and the Canadian Governments were anxious to secure to the people of the North West every right, privilege, and immunity to which they might be entitled. Each of these personages was furnished with

Dec. 4th, 1874

copies of a Proclamation, drawn up under the instructions of the Imperial Government by Lord Lisgar, couched in the most conciliatory language, and concluding with the following paragraph:

"And I do lastly inform you that in case of your immediate and peace-
"able obedience and dispersion, I shall order that no legal proceedings
"be taken against any parties implicated in these unfortunate breaches of
"the law.

"JOHN YOUNG."

5. At the time this instrument was placed in the hands of these gentlemen, no blood had been shed, nor any very heinous crime committed; but on arriving at their destination, their papers were seized by the insurgents, and they were precluded either on this or on some other account from issuing the Proclamation in question. There can be little doubt, however, that its purport must have been known to Riel and his partizans before the murder of Scott was perpetrated—an event which took place some time after these three gentlemen had arrived at Fort Garry.

Left Rome
Jan. 13th,
1870; ar-
rived at
Ottawa
Feb. 9th.

6. Subsequently, by an invitation of the Canadian Government conveyed to him when at Rome through Monsieur Langevin, Minister of Public Works, Archbishop Taché returned to Canada, with the view of placing his services at the disposal of the Dominion Government. On his arrival at Ottawa, he was provided with another copy of the Governor General's Proclamation, as well as with an official letter of instructions from the Secretary of State, Mr. Howe, of which I subjoin a copy:—

DEPARTMENT OF SECRETARY OF STATE FOR THE PROVINCES,
OTTAWA, 16th February, 1870

The Very Reverend the Bishop of St. Boniface

MY LORD.—I am commanded by His Excellency, the Governor General, to acknowledge and thank you for the promptitude with which you placed your services at the disposal of this Government, and undertook a winter voyage and journey, that you might, by your presence and influence, aid in the repression of the unlooked-for disturbances which had broken out in the North-West.

I have the honor to enclose for your information:—

1. A copy of the instructions given to the Honorable Wm. McDougall on the 28th September last;
2. A copy of a further letter of instructions addressed to Mr. McDougall on the 7th November;
3. Copy of a letter of instructions to The Very Reverend Vicar General Thibault on the 4th December;
4. Copy of a Proclamation issued by His Excellency, The Governor General, addressed to the inhabitants of the North-West Territories by the express desire of the Queen;

5. Copy of a letter addressed to the Secretary of State, by Donald A. Smith, Esq., of Montreal, on the 24th November;

6. Copy of a letter of instructions addressed by me to Mr. Smith, on 10th December last;

7. A semi-official letter, addressed by the Minister of Justice, on the 3rd January, 1870, to Mr. Smith; also,

8. Copy of the Commission issued to Mr. Smith, on the 17th of January, 1870.

Copies of the Proclamation, issued by Mr. McDougall, at or near Pembina, and of the Commission, issued to Colonel Dennis, having been printed in the Canadian papers, and widely circulated at the Red River, are, it is assumed, quite within your reach, and are not furnished; but it is important that you should know that the proceedings by which the lives and properties of the people of Rupert's Land were jeopardized for a time, were at once disavowed, and condemned by the Government of this Dominion, as you will readily discover in the despatch addressed by me to Mr. McDougall, on the 24th of December, a copy of which is enclosed.

Your Lordship will perceive, in these papers, the policy which it was, and is, the desire of the Canadian Government to establish in the North-West. The people of Canada have no interest in the erection of institutions in Rupert's Land which public opinion condemns; nor would they wish to see a fine race of people trained to discontent and insubordination, by the pressure of an unwise system of government, to which British subjects are unaccustomed or averse. They looked hopefully forward to the period when institutions, moulded upon those which the other Provinces enjoy, may be established, and, in the meantime, would deeply regret if the civil and religious liberties of the whole population were not adequately protected by such temporary arrangements as it may be prudent at present to make.

A convention has been called, and is now sitting at Fort Garry, to collect the views of the people, as to the powers which they may consider it wise for Parliament to confer, and the Local Legislature to assume. When the proceedings of that conference have been received by the Privy Council, you may expect to hear from me again; and, in the meantime, should they be communicated to you on the way, His Excellency will be glad to be favoured with any observations that you may have leisure to make.

You are aware that The Very Reverend The Vicar-General Thibault, and Messrs. Donald A. Smith and Charles de Salaberry, are already in Rupert's Land, charged with a Commission from Government. Enclosed are letters to those gentlemen, of which you will oblige me by taking charge; and I am commanded to express the desire of His Excellency that you will co-operate with them in their well-directed efforts to secure a peaceful solution of the difficulties in the North-West Territories, which have caused His Excellency much anxiety, but which, by your joint endeavours, it is hoped may be speedily removed.

I have, &c.,

JOSEPH HOWA.

7. At the same time his Lordship also received a letter from Lord Lisgar to the following effect:

Governor General Sir John Young to Bishop Taché.

OTTAWA, Feb. 16th, 1870.

MY DEAR LORD BISHOP,—I am anxious to express to you before you set out, the deep sense of obligation which I feel is due to you for giving up your residence at Rome, leaving the great and interesting affairs in which you were engaged there, and undertaking at this inclement season the long voyage across the Atlantic and a long journey across this continent, for the purpose of rendering service to Her Majesty's Government, and engaging in a mission in the cause of peace and civilization. Lord Granville was anxious to avail himself of your valuable assistance from the outset, and I am heartily glad that you have proved willing to afford it so promptly and generously. You are fully in possession of the views of my Government; and the Imperial Government, as I informed you, is earnest in the desire to see the North-West Territory united to the Dominion on equitable conditions. I need not attempt to furnish you with any instructions for your guidance, beyond those contained in the telegraphic message sent me by Lord Granville on the part of the British Cabinet, in the Proclamation which I drew up in accordance with that message, and in the letters which I addressed to Governor McTavish, your Vicar-General, and Mr. Smith. In this last letter I wrote: "All who have complaints to make or wishes to express, to address themselves to me as Her Majesty's Representative, and you may state, with the utmost confidence, that the Imperial Government has no intention of acting otherwise or permitting others to act otherwise than in perfect good faith towards the inhabitants of the Red River District and of the North-West."

"The people may rely that respect and attention will be extended to the different religious persuasions, that title to every description of property will be carefully guarded, and that all the franchises which have subsisted, or which the people may prove themselves qualified to exercise, shall be duly continued or liberally conferred."

"In declaring the desire and determination of Her Majesty's Cabinet, you may safely use the terms of the ancient formula, that right shall be done in all cases."

I wish you, my dear Lord Bishop, a safe journey, and success in your benevolent mission.

Believe me, with all respect,

Faithfully yours,

(Signed,)

JOHN YOUNG.

Right Rev. Bishop Taché.

To this was added a private letter from Sir John Macdonald, which will be found at page 19 of the Canadian Blue Book, and which, towards its conclusion, contained the following paragraph:

"Should the question arise as to the consumption of any stores or goods belonging to the Hudson Bay Company by the insurgents, you are

"authorized to inform the leaders that if the Company's Government is restored, not only will there be a general amnesty granted, but in case the Company should claim the payment for such stores, that the Canadian Government will stand between the insurgents and all harm."

8. At the time these communications were made to Archbishop Taché no news had arrived of Riel's proceedings in regard to Scott. In the meantime a convention of forty of the representative inhabitants of the North West had been organized for the purpose of hearing what Messrs. Donald Smith, Thibault and De Salaberry, had been commissioned to say on behalf of the Canadian Government, and in consequence of the representations made by Mr. Smith, the convention determined to select and send to Ottawa three delegates, for the purpose of communicating the demands of the people in the North West to the Dominion authorities, and of effecting a settlement of the terms upon which they were to enter Confederation. After this business was concluded, the Convention proceeded to the erection of the so-called Provisional Government, of which Riel was named the President. These occurrences took place on the 10th of February.

See Mr. Donald Smith's narrative, p. 154, par. 1, Imp. B. Book.

9. On the 4th March, Scott was shot.

10. On the 9th March, Archbishop Taché arrived at Red River, and in a letter of June 9th, 1870, he informed the Secretary of State, Mr. Howe, that he had promised, in the name of the Imperial and Provincial Governments, both to the insurgents generally, and to Riel and Lepine in particular, a full amnesty for every breach of the law of which they had been guilty, including the murder of Scott. On receipt of this communication Mr. Howe replied to Archbishop Taché in the following terms:—

Honorable Joseph Howe to Archbishop Taché.

"OTTAWA, 4th July, 1870.

"MY LORD,—Your letter of the 9th June, which reached me yesterday, has been laid before the Privy Council, and has received their consideration.

"Your Lordship states that personally you felt no hesitation in giving in the name of the Canadian Government, an assurance of a complete amnesty.

"Your Lordship has no doubt read the debate and explanations which took place in Parliament during the discussion of the Manitoba Bill. The question of amnesty was brought forward, and the answers and explanations given by the Ministers in the House of Commons were that the Canadian Government had no power to grant such an amnesty, and that the exercise of the prerogative of mercy rested solely with Her Majesty the Queen.

"The Rev. Father Richot and Mr. Scott must, on their arrival, have informed your Lordship that, in the repeated interviews which they had with Sir John A. Macdonald and Sir George E. Cartier, they were distinctly informed that the Government of the Dominion had no power as a Government to grant an amnesty; and I would add that this Government is not in a position to interfere with the free action of Her Majesty in the exercise of the Royal clemency.

"Her Majesty's Imperial Ministers can alone advise the Queen on such an important matter when called upon to do so. No doubt can be entertained that Her Majesty, advised by her Ministers, will on a calm review of all the circumstances discharge the duty of this high responsibility in a temperate and judicial spirit.

"The foregoing explanations are given to Your Lordship in order that it may be well understood that the responsibility of the assurance given by Your Lordship of a complete amnesty, cannot in any way attach itself to the Canadian Government.

"The conversations to which Your Lordship alludes as having taken place between Your Lordship and some Members of the Canadian Cabinet, when Your Lordship was in Ottawa about the middle of the month of February last, must necessarily have taken place with reference to the proclamation issued by His Excellency the Governor General, on the 6th December last, by command of Her Majesty, in which His Excellency announced that in case of their immediate and peaceable dispersion, he would order that no legal proceedings be taken against any parties implicated in these unfortunate breaches of the law at Red River.

"Though I have felt it my duty to be thus explicit in dealing with the principal subject of your letter, I trust I need not assure you that your zealous and valuable exertions to calm the public mind in the North West are duly appreciated here, and I am confident that when you regard the obstructions which have been interposed to the adoption of a liberal and enlightened policy for Manitoba, you will not be disposed to relax your exertions until that policy is formally established.

"I have, &c.,

"(Signed), JOSEPH HOWE.

"Right Reverend,
"The Bishop of St. Boniface,
"Red River."

11. Such are the circumstances out of which has arisen the "Amnesty question,"—a controversy which for these last three years has agitated the Dominion and embarrassed its successive Governments; Archbishop Taché contending that both the Imperial and Colonial Governments were bound by the promises of immunity he gave to Riel and his associates; while the late Governor General, Her Majesty's Government, and the present and late Canadian Administrations, have declined to recognize the force of any such obligation.

12. Last session, at the instance of those who may be supposed to coincide with the Bishop's view of the case, a select committee of the House of Commons was appointed to enquire into "the causes which retarded the granting of the amnesty announced in the proclamation of the Governor General of Canada, and also whether and to what extent other promises of amnesty have ever been made." A copy of the evidence taken by the committee, together with their report, I transmit by this mail. Although these documents supply the best materials for the elucidation of the two points above referred to, it may be convenient that I should subjoin a short summary of the merits of the case as it presents

itself to my understanding, though without pretending to exhaust the argument on either side.

13. A full and complete amnesty to Riel and the authors of Scott's death appears to be claimed on five several grounds.

First,—Archbishop Taché claims an amnesty on the plea that he went to Red River as a plenipotentiary, empowered both by the Imperial and the Dominion Governments to secure the tranquility of the country by the issue of such assurances of immunity to those engaged in the recent disturbances as he should deem fit. In support of this view he finds himself, as he himself states, pages 33-4 of the Canada Blue Book: First, as regards the Imperial Government, on Lord Lisgar's letter and proclamation, and Secondly, as regards the Local Government, on the paragraph I have already quoted in Sir John Macdonald's communication of the 16th February, 1870. I confess I do not think that his Lordship's argument can be sustained. In the first place, the Archbishop's claim to such extensive powers is certainly invalid. The nature of his position is clearly defined in Mr. Howe's official dispatch of the 16th February, 1870. The instructions already conveyed to Messrs. Thibault, de Salaberry and Smith, are communicated to him as additional guides for his conduct, and he is further invited to associate himself, and to act conjointly with these persons. There are, therefore, no grounds for regarding the mission or powers of the Bishop as differing either in character or extent from those entrusted to the gentlemen who had preceded him; and there is certainly no intimation in his instructions that he was authorized to promulgate a pardon in the Queen's name for a capital felony,—still less can it be contended that he was empowered to expunge, on his own mere motion, a principal term from a Royal Proclamation. Mr. Smith and his colleagues had been already furnished with Lord Lisgar's Proclamation, but so far from considering that document as conveying a warrant of immunity to Riel, Mr. Smith expressly states that after the murder of Scott he refused to speak with him. On a reference, moreover, to the wording of the only sentence in Lord Lisgar's Proclamation which proffers grace to the insurgents, it becomes self-evident that it had in contemplation those minor political offences of which news had reached the ears of the Government when the document was framed.

14. That this was its intention becomes even more apparent when we read the sentence in Sir John Macdonald's letter, to which the Bishop next appeals. In that communication Sir John Macdonald says,—“Should the question arise as to the consumption of any stores or goods belonging to the Hudson Bay Company by the insurgents, you are authorized to inform the leaders that if the Company's Government is restored, not only will there be a general amnesty granted, but in case the Company should claim the payment for such stores, that the Canadian Government will stand between the insurgents and all harm.” It would seem impossible to expand the permission thus conveyed to the Bishop by Sir John, to promise the rebels protection from the monetary demands of the Hudson Bay Company, into an authority to condone such a savage murder as that of Scott's. But even were this point to be conceded, there would still remain an insurmountable difficulty in the way of proving Monseigneur Taché's case. The terms of pardon, both in Lord Lisgar's Proclamation and Sir John's letter, were made conditional, in the one, “on the immedi-

Book, last
par.

"ate and peaceable obedience and dispersion of the insurgents," and in the other, "on the restoration of the Company's Government."

15. But none of these requirements were complied with. Scott was put to death some weeks after the arrival of Messrs. de Salaberry, Thibault, and Smith, to whom the proclamation had been originally confided, and by whom its contents, at all events, must have been communicated to Riel before the accomplishment of that tragedy; and though immediately after the Bishop's advent, and at his instance, one half of the English prisoners were released, the rest were kept in prison for more than a week longer; Riel and his associates still remained in arms, continued to prey upon the goods within their reach, and persisted in the exercise of their illegal authority. It is true many considerations may be adduced to mitigate the culpability of the latter portion of these proceedings; but be that as it may, they manifestly barred the effect of the conditional promises of forgiveness which the Bishop, even from his own point of view, was alone authorized to announce.

16. I understand His Lordship further to plead that the ultimate negotiations, which secured to the North-West the constitutional rights they enjoy under the Manitoba Act, directly flowed from the assurances of a complete amnesty which he promulgated; but although it would be difficult to exaggerate either the purity of the motives by which this Prelate was actuated in all that he did and said, or to over-estimate the self-sacrificing patriotism which induced him to tear himself from the attractions of Rome, in order to encounter the hardships of a winter journey, for the sake of his fellow countrymen in Red River, or to deny that his exhortations and remonstrances had an immediate and beneficial effect in restraining Riel and his companions, and in superinducing a feeling of security in Winnipeg, it must still be remembered that the people of the North-West had chosen their delegates, and had consented to treat with the Canadian Government some weeks before the Bishop had appeared upon the scene. In conclusion, it is to be noted that immediately Mr. Howe, the Secretary of State, received the information of the promise made by His Lordship to Riel and Lepine, he at once warned him that he had done so on his own responsibility, and without the authority of the Canadian Government.

17. The Archbishop refers to a private letter of Sir George Cartier's as having neutralized the language of Mr. Howe's official communication; but to doctrine of this description I cannot subscribe. In the first place, I do not think the letter in question bears the interpretation put upon it by the Archbishop; and even if it did, it must be held that no private communication made by a single member of an Administration without the cognizance of his colleagues, can override an official despatch written in their name and on their behalf by the head of the Department specially responsible for the conduct of the business in hand. Were such a view to prevail, every Government, and the Crown itself, would be at the mercy of any inconsiderate, rash or treacherous member of a ministry.

18. The view taken by Sir John Macdonald, who was Premier at the time that the Archbishop left for the North-West, of His Lordship's powers and of the nature of his mission, is set forth, in the honourable gentleman's evidence at page 100 of the Canadian Blue Book, and I need not say is entirely confirmatory of the conceptions I have derived from the written instructions the Archbishop received and the correspondence which took place with him.

See Mr. D.
Smith's
narrative,
page 154
Imperial
B. Book.

Page 34,
Can. Blue
Book.

Page 38,
Can. Blue
Book.

Page 100,
Can. Blue
Book.

19. Under these circumstances, I am of opinion that the Crown is not committed to the pardon of the murderers of Scott, upon the ground that the Archbishop was in any sense authorized to make a promise to that effect.

20. The next plea urged by those who demand a full and complete amnesty, is based upon the occurrences which took place during the visit of Judge Black and Messrs. Ritchot and Scott to Ottawa, in April, 1870, as delegates from the people of the North-West, and on the alleged purport of the conversations which took place between Archbishop Taché, Lord Lisgar, and Sir George Cartier, at Niagara. With respect to the transactions of this date, we have unfortunately no public correspondence or other official intercommunications in which they have been recorded, and so far as regards the individual statements of the personages concerned, there is unhappily a direct conflict of assertion.

21. On the one hand, Abbé Ritchot and the Archbishop state positively that an amnesty to Riel was explicitly promised both by Lord Lisgar, Sir Clinton Murdoch, Sir John Macdonald, and Sir George Cartier. On the other hand, this statement is denied in the most emphatic manner by each and all of these gentlemen. The Abbé Ritchot's affidavit, in which a history of his interviews with the Governor General and other members of the Administration is set forth with considerable particularity, will be found at page seventy-two of the Canadian Blue Book. The denial of the correctness of the Abbé Ritchot's asseverations is conveyed, first, in a despatch to Lord Kimberley from Lord Lisgar, dated 25th April, 1872, and in a letter from the same nobleman to Sir George Cartier, dated the 21st February, 1873, page 104 of the Blue Book; in a letter from Sir Clinton Murdoch to Mr Herbert, dated 5th March, 1873, on page 104, and again in another letter of the 6th March of the same year; in a letter from Sir George Cartier to Sir John Macdonald, dated 8th February, 1873; and in Sir John Macdonald's evidence, page 107. But a still more significant light is thrown upon what occurred, by a despatch from Sir Clinton Murdoch to Sir Frederick Rogers, dated 28th April, 1870, page 193 of the Blue Book. This communication was contemporary with the event recorded. The statement made was not a reply to any leading question, nor evoked by any special reference. It was simply a narrative drawn up for the information of the Under Secretary of State for the Colonies, as to the purport of Sir Clinton Murdoch's conversation with his interlocutor, the Abbé Ritchot, immediately after the interview had occurred. In the fifth paragraph of that document, page 193 of the Blue Book, Sir Clinton Murdoch says:—"The 19th condition would secure an indemnity to Riel and his abettors for the execution of Scott, and to all others for the plunder of the Hudson Bay Company's stores, and for other damages committed during the disturbances; concessions which this Government could not venture even if it had the power to grant, while the condition which, though not contained in the terms, was conveyed to Judge Black and the other delegates in writing, that whatever was agreed to here must be subject to confirmation by the Provisional Government, would have involved a recognition of the authority of Riel and his associates."

* * * * *

"Under these circumstances there was no choice but to reject these terms."

22. Of course, it is a very invidious office to pronounce an opinion as

to the respective accuracy of statements so conflicting, emanating from such eminent personages, and adduced, I have no doubt, by every individual concerned in the most perfect good faith; but when it is remembered that Lord Lisgar had not even the power to make the promise which he is alleged to have given, and that he and Sir Clinton Murdoch and Sir John Macdonald are so perfectly in accord as to what passed, one can only conclude that the Abbé Ritchot, through the unfortunate circumstance of these conversations having been conducted in a language with which he was not familiar, must have derived a totally wrong impression of what had been said.

23. This view of the case is in a great measure confirmed by the evidence of Mr. Sulte, page 181 of the Blue Book, in which he states that one day Father Ritchot said to him in reference to his recent interview with Lord Lisgar,—“As I do not understand English very well, I am not “satisfied with what His Excellency said to me at our interview.” From this it may be gathered that the reverend gentleman has shown some precipitancy in consigning to an affidavit so elaborate a record of a conversation of which he himself admits he carried away an imperfect apprehension.

24. Cognate to this branch of the inquiry are the allegations advanced by Archbishop Taché as to his interview with Lord Lisgar at Niagara, 23rd July, 1870. The Archbishop does not appear to maintain that upon this occasion Lord Lisgar made him any specific promise, but he says that His Excellency, being unwilling to enter into any discussion upon Red River affairs, referred him to Sir George Cartier, and that Sir George Cartier then repeated those assurances, as on Lord Lisgar's behalf, to which the Archbishop attaches so much importance. As the facts connected with this incident are fully set forth in the Archbishop's statement on page 40 of the Blue Book, I need not further refer to them.

25. With regard, however, to Sir George Cartier's general attitude, language, and correspondence, in reference to the whole of this subject, I am ready to admit that there appears to have been a certain amount of ambiguity and want of explicitness in his utterances, which undoubtedly encouraged the Archbishop, Father Ritchot and others, to entertain larger expectations in respect to the extent of the suggested amnesty than he was justified in exciting.

26. I do not for a moment imagine that Sir George Cartier intended to mislead these gentlemen, but he evidently himself leant to the opinion that the clemency of the Crown might be extended with advantage to Riel and his associates; and his naturally sanguine temperament led him to anticipate that as the public excitement calmed down, and years went by, he would have sufficient influence to obtain immunity for those in whose behalf the Archbishop and Abbé Ritchot were interesting themselves. As a consequence, the tenor of his language implied that if only matters were peaceably settled in Red River, and the population quietly submitted to the new order of things, a settlement would ultimately be arrived at satisfactory to all parties. But though this forecast of events was in his mind, and coloured his thoughts and language, it does not appear from the evidence, that he ever made any specific promise in respect of the murderers of Scott. On the contrary, he was always very careful to state that the power of granting a pardon

to them did not reside with the Canadian Government, but with the Queen and Her Imperial advisers. As Sir John Macdonald observes, he and the Abbé Ritchot and the Archbishop appear to have been moving "in different planes." Both make use of the word "amnesty," but Sir George always referred to an "amnesty" as applicable to the general body of insurgents, and to political offences, whereas the Archbishop and the Abbé were solely preoccupied with the thought of securing an "amnesty" for Riel and his fellows. Be this, however, as it may, to my apprehension it cannot be for a moment contended that Sir George Cartier's casual conversations and private letters can bind the Imperial Government.

27. The third plea on account of which a full and plenary amnesty is demanded is that the authorities who ordered Scott's execution were a *de facto* Government, duly constituted by the will of the community, and that it was consequently a legitimate proceeding, and only reprehensible as an error of judgment. I think it but fair, in reference to those who hold this opinion, to call your Lordship's attention to the fact that the Convention which erected the so-called Provisional Government and placed Riel at its head, was composed of a number of French and English delegates, fairly elected from the population at large; that persons of very great respectability were members of it, and took part in its proceedings; that Mr Donald Smith, the Canadian Commissioner, and the person who was instructed to take up the Government of the North West on behalf of the Hudson Bay Company in the event of Governor McTavish being precluded by ill-health from exercising his functions, appeared before it as the exponent of the views of the Canadian Government; and that the delegates it chose were subsequently recognized as duly authorized to treat with the Dominion Executive on behalf of the North West community. An attempt has been made to show that these delegates really held their appointment from Riel, and were to be considered as commissioned by his Government. This, however, was not so; they were selected, and the terms they were instructed to demand were settled, before the election of Riel to the so-called Presidency. On the other hand, it is to be noted that when the proposal to constitute a Provisional Government was mooted in the Convention, a certain portion of the English Deputies declined to take part in the proceedings, until they had ascertained whether or no Governor McTavish, the legal ruler of the territory, still considered himself vested with authority. A deputation accordingly was appointed to wait upon him in his sick chamber, for this gentleman had unfortunately during many previous weeks been suffering from the mortal disease of which he soon after died. In reply to their inquiries, Governor McTavish told them that he considered his jurisdiction had been abolished by the Proclamation of Mr. McDougall, that he was "a dead man," and that they had, therefore, better construct a Government of their own to maintain the peace of the country. Returning to their colleagues, the deputation announced to the Convention what Governor McTavish had said, and, as a result, Riel and his colleagues were nominated to their respective offices. But though these proceedings thus received a certain sanction at the hands of the representatives of the population of the North West, it does not appear to me to affect Riel's culpability with respect to Scott. In the first place, as has been very clearly laid down by the Chief Justice of Manitoba, in his

charge to the jury on the Lepine trial, it is not possible for any lawful executive authority to spring into existence within Her Majesty's Dominions, unless it emanate from Herself. Without, however, laying too much stress upon the purely legal aspect of this part of the question, it is very evident that the killing of Scott was not an exercise of jurisdiction known to any form of law, but an inhuman slaughter of an innocent man, aggravated by circumstances of extraordinary brutality. In company with a certain number of other Englishmen, Scott had started from a place called Portage la Prairie, with the view apparently of endeavouring to rescue a number of persons who up to this time Riel had been holding prisoners in Fort Garry, but at the entreaty of those who were anxious to prevent the outburst of Civil War, the party were induced to give up their project and to return home. Scott and his companions were captured as they were passing back to their own part of the country. The utmost alleged against Scott is that he used violent language in prison, and that he had alluded to an intention of capturing Riel and retaining him as a hostage for the release of the prisoners already referred to; but even these allegations were not proved, nor, had they been proved ten times over, could they have rendered him liable to serious punishment. Even the decencies of an ordinary drum head court martial were disregarded. The trial, if it can be so termed, was conducted in the absence of the accused, who was confronted with no witnesses, nor furnished with any indictment, nor allowed to plead for his life. The further details of the tragedy are so horrible, if the statements in the evidence can be relied on, that I will not shock your Lordship by repeating them; suffice it to say, that all the special pleading in the world will not prove the killing of Scott to be anything else than a cruel, wicked, and unnecessary crime; nor, had the origin of Riel's authority been even less questionable, would it have invested him with the right of taking away the life of a fellow-citizen in so reckless and arbitrary a manner. I have, therefore, no hesitation in concluding that any claim for the extension of an amnesty to Riel founded on the assumption that the murder of Scott was a judicial execution by a legitimately constituted authority, must be disallowed.

28. A fourth consideration occasionally urged, though not with any very great persistence, by the apologists of Riel, is that when Sir Garnet Wolseley's forces had taken possession of the Territory of Red River, a man of the name of Goulet, one of those who had been concerned in the murder of Scott, was pursued by certain persons, of whom two belonged to a Canadian regiment, until he was frightened into the river and drowned in his attempt to swim across it. How far the foregoing is an accurate account of this transaction I know not. If a murderous assault of this description can be brought home in a court of justice to any individuals, they ought, of course, to be dealt with in due course of law; but it is idle to allege such a circumstance as exonerating the authors of another deed of blood.

29. There is a further plea which has been sometimes urged, not indeed as of itself sufficient to command an amnesty, but as communicating a cumulative force to those already mentioned, namely, the transmission of money to Riel from the Government of the day on condition of his leaving the country, and his subsequent resignation of his seat for Provencher in order to make room for Sir George Cartier; but with

transactions of this nature the Imperial Government cannot be expected to concern itself.

30. I therefore pass on to the fifth consideration, which is adduced as a reason why the Imperial Government should concede an amnesty to the murderers of Scott; and to the plea which I am about to exhibit, I must ask your Lordship to give your earnest attention, as it appears to me to involve the consideration of a semi-legal question of very great moment, the ultimate decision of which will not only affect the case of Riel, but also that of the prisoner Lepine, now left for execution in Winnipeg gaol.

31. In the year 1871 a rumour prevailed in the Province of Manitoba—at that time incorporated with the Dominion, and under the jurisdiction of Her Majesty's Lieutenant Governor, the Honourable Mr. Archibald—that a considerable body of Fenians were gathered along its southern frontier, and were prepared to make a very formidable irruption over the border. In order to understand the gravity of the situation, it must be remembered that the leader of this movement was a man of the name of O'Donoghue, who had been associated with Riel in his insurrectionary movement. A very considerable probability consequently existed that O'Donoghue and his people might be acting in concert with the French leaders of the previous revolt. Mr. Archibald was alone, cut off by distance from the advice and countenance of the central authorities, and thrown entirely upon his own resources. He had no military forces worth speaking of with which to confront the invaders, and he was administering a Province inhabited by distinct nationalities and distracted by differences of religious faith. Only a few months before, a considerable proportion of its population had been arrayed in arms against the Queen's authority and their fellow-subjects. Under these circumstances it can be readily understood that a person in Mr. Archibald's situation would feel it his primary duty to sacrifice every other interest to the defence of the Province over which he presided, and to the safety of the population for whose welfare he was responsible. Acting upon these considerations Governor Archibald determined to appeal to the loyalty of the French Metis and their leaders; but these last were no others than Riel, Lepine, &c., the very men for whose apprehension writs had been issued on a capital charge. Notwithstanding the anomaly of such a procedure, Mr. Archibald concluded to enter into relations with these persons. The account of what he did and the reasons which guided his conduct are set forth in a very perspicuous manner in a narrative which will be found at page 139 of the Blue Book.

Page 139,
Can. Blue
Book.

32. From the statements therein contained it will be observed that the Lieutenant Governor reviewed the troops which had been collected under the command of Riel, Lepine and their companions, that he accepted their services, that he promised them at least a temporary immunity from molestation on account of the crime of which they were accused, that he shook hands with them, that he received a letter signed by them, and that through his Secretary he addressed to them an official reply, complimenting them on the loyalty they had shown and the assistance they had rendered. He further states that he has convinced himself—though Sir John Macdonald appears to have had misgivings on this point—that this exhibition of fidelity was genuine and *bona fide*, and that it largely contributed to the preservation of Her Majesty's Dominions from insult and invasion. In short, he is satisfied, to use his own lan-

Page 147,
Can. Blue
Book.

guage, that "if the Dominion has at this moment a Province to defend and not one to conquer, they owe it to the policy of forbearance. If "I had driven the French half-breeds into the hands of the enemy, "O'Donoghue would have been joined by all the population between the "Assineboine and the frontier, Fort Garry would have passed into the "hands of an armed mob, and the English settlers to the north of the "Assineboine would have suffered horrors it makes me shudder to contemplate."

33. Of course I am not prepared to say whether or no the Lieutenant Governor's appreciation of the necessities of his situation, and of the consequences of a different line of action, are correct or not; but if such be the deliberate opinion of an undoubtedly able, prudent and conscientious man,—of a person whose successful administration of Manitoba has been rewarded by promotion to a more important post, I do not think it is competent for us to go behind it, or to act upon a different assumption

34. The legal, or rather constitutional, question then arises, to what extent is the Crown of England committed by the acts and declarations of its Lieutenant?—those acts and declarations never having been disavowed or repudiated by the central authority of the Dominion, or by the representative of the Home Government. Although my experience in such matters does not enable me to speak with any great authority, I confess I should have difficulty in convincing myself that after the Governor of a Province has put arms into the hands of a subject, and has invited him to risk his life—for that, of course, is the implied contingency, in defence of Her Majesty's crown and dignity, and for the protection of her territory,—with a full knowledge at the time that the individual in question was amenable to the law for crimes previously committed,—the Executive is any longer in a position to pursue the person thus dealt with as a felon. The acceptance of the service might be held, I imagine, to bar the prosecution of the offender; for, undesirable as it may be that a great criminal should go unpunished, it would be still more pernicious that the Government of the country should show a want of fidelity to its engagements, or exhibit a narrow spirit in its interpretation of them. It is in this apprehension that I have ventured to call especial attention to this last of the pleas for "amnesty."

35. I must ask your Lordship to remember that in the foregoing brief observations, I have attempted to deal with but a few of the facts and incidents displayed in the evidence; neither do I pretend to have reproduced with anything approaching completeness the various arguments which either have been or may be adduced in support of the conflicting views of the contending parties. But my shortcomings in this respect will be more than supplied by the materials collected in the accompanying Blue Book, where each individual in any way implicated in these transactions has had an opportunity of explaining his conduct and enforcing his opinions. My only object has been to save your Lordship trouble by a preliminary coordination of the elements of the controversy. In order, however, that the defence may not lack all the assistance to which it may be legitimately entitled, I have thought it right to enclose two very able papers marked A and B, which have been framed for the purpose of embodying within a short compass the views of those who have convinced themselves that the

various circumstances referred to require the issue of an amnesty.

36. I have further the honor to append a petition addressed to me by the Catholic Archbishop and Bishops of the Province of Quebec, drawn up in the same sense. Vide
Enclosure
No. 2.

37. Perhaps my duty as regards the matter in hand will not be altogether completed unless I transmit to your Lordship some idea of the general view taken of this question by the population at large. With regard to the French section of Her Majesty's subjects, I may say that although there are probably few of them who do not regard the death of Scott as a regrettable event, they are united to a man in the opinion that the part played by Riel in the North West was that of a brave and spirited patriot; that it is principally to him and to those who acted with him that Manitoba owes her present privileges of self-government and her parity of rank and standing with her sister Provinces. They are equally convinced that the Government of Canada and of Her Majesty are bound by the promises of the Archbishop, and that the government Riel established at Red River was authoritative and legitimate; nor do I think will they ever be persuaded that the language held by Sir George Cartier did not imply a direct and explicit assurance of immunity to the murderers of Scott, on their submission to the new order of things established under the auspices of the Manitoba Act, and by the advent of Lieutenant Governor Archibald at Fort Garry.

38. On the other hand, a considerable portion of the people of Ontario resent the notion that a Catholic Archbishop should have usurped a plenary power of pardon in respect of men who had so cruelly put to death an innocent fellow countryman of their own. They regard Riel as a disloyal rebel, as well as a murderer, and they would look upon the escape either of him or of Lepine from punishment as an almost intolerable miscarriage of justice. At the same time the larger proportion of them feel that various circumstances have occurred to complicate the situation, and to render the Capital Sentence impossible of execution, and even amongst the more extreme section of those who are animated by sentiments of intense sympathy for Scott, there is to be observed, as far as I can judge from the newspapers, a moderation and reasonableness which does them considerable credit.

39. It only remains for me to add that even should it be decided that the obligations imposed upon us by the procedure of Lieutenant Governor Archibald are less compromising than I am inclined to consider them, and that the Crown is quite untrammelled in its action, I still think that the various circumstances I have referred to in this despatch, require the capital sentence of Lepine to be commuted by the clemency of Her Majesty into a much milder punishment. This commutation, when the proper time arrives, I propose to order on my own responsibility, under the powers accorded to me by my instructions.

40. On the other hand, I feel very strongly that it would shock the public sense of justice were Riel to be visited with a lesser penalty than his associate. In the estimation of all those who consider the killing of Scott a crime, Riel is held to be the principal culprit, and, as a matter of fact, whatever promises were made by Lieutenant Governor Archibald to Riel were also extended to Lepine. If, therefore, the latter is required to undergo a term of imprisonment, it appears to me that the Executive will

be precluded from exercising any clemency towards Riel, until he shall have surrendered himself to justice, and, on conviction, have submitted to a similiar penalty.

I have, &c.,

(Signed), DUFFERIN.

The Right Honorable
The Earl of Carnarvon,
&c., &c., &c.

ENCLOSURE No. 1.

COPY of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council, on the 4th day of December, 1874.

The Committee of Council have had under consideration the questions which arose from the troubles in our North-West territories in 1869 and 1870, prior to the annexation of that country to the Dominion, which have disturbed the public mind so much from that time to the present. It is exceedingly desirable to reach a permanent settlement as soon as possible, which will set at rest the existing agitation concerning the granting or withholding of an amnesty for the offences committed in that country during the insurrection.

The difficulties which stood in the way of the Dominion Government endeavoring to close the controversy by using its utmost authority to punish or pardon, and in June, 1873, asking the interposition of Imperial authority to deal with a question upon which there is so serious a division of opinion in Canada, still exist, if indeed they have not been aggravated by subsequent events.

During the last session of the Dominion Parliament, the House of Commons appointed a select committee to inquire into the causes of the insurrection, and also to what extent promises were made to the actors therein of a full amnesty for the political offences there committed by any persons holding official positions.

The publication of the report of this committee has placed the public in possession of all the evidence that could be collected bearing upon the question of amnesty, as well as the correspondence of the insurgents and their friends with the Government, and the relations of Riel and his chief associates with the Local and Dominion Governments subsequent to the quelling of the insurrection.

The Government of the Dominion, in a minute of Council dated June 4th, 1873, requested Your Excellency to bring the matter before Her Majesty's Government, in order that such course might be taken as might be consistent with the interests of justice and best for the quiet of the country.

The Right Honorable Lord Kimberley, Secretary of State for the Colonies, in his despatch of July 24th, 1873, in reply to the minute referred

to, expressed the willingness of Her Majesty's Government to take upon themselves the responsibility of dealing with the question of amnesty.

The reasons which then made a reference of the question to Her Majesty's Government desirable, have been intensified by later events. The Committee of Council therefore respectfully request that Your Excellency may be pleased to bring the subject again under the notice of the Imperial Government, and convey the desire of this Government that they will now deal with the whole matter in such a way as existing circumstances may seem to justify. The Committee also recommend that Your Excellency may forward with this minute a copy of the Report of the Select Committee of the House of Commons, for the information of Her Majesty's Government.

(Certified),

WM. HIMSWORTH,
CLERK PRIVY COUNCIL.

ENCLOSURE No. 2.

A Son Excellence le Comte de DUFFERIN, Gouverneur-Général, etc.,
etc., etc.

L'honorable requête des soussignés, Archevêque et Evêques Catholiques de la Province de Québec, représente humblement à votre Excellence,—

Qu'ils ont appris avec chagrin l'état de trouble où se trouve maintenant la Province de Manitoba, et qu'ils craignent que cet état ne s'aggrave si l'on n'y apporte un prompt remède.

Que ce remède ne peut être qu'une amnistie pleine et entière en faveur de tous les habitants de la dite Province, pour tout crime ou délit commis à l'occasion des troubles politiques qui ont eu lieu antérieurement à la mise en force de l'Acte dit de Manitoba.

Qu'on ne peut se dissimuler que cette amnistie n'ait été promise de la manière la plus formelle par le Gouvernement, en 1870, lorsqu'il députa Monseigneur A. Taché, Archevêque de St. Boniface, auprès de son peuple pour l'engager à se soumettre au nouvel ordre de choses réglé par le Gouvernement Impérial.

Qu'il est certain que ce digne Prélat, que l'on avait prié instamment de venir pour cela de Rome, eût refusé de se charger d'une pareille mission s'il eût pu prévoir qu'on mettrait en doute la validité des promesses qu'on l'avait chargé de faire ou que du moins il eût exigé qu'on lui donnât un document qui le mit à l'abri de la responsabilité dont il allait se charger vis-à-vis de son peuple.

Que les soussignés ressentent vivement la situation compromettante où se trouve leur digne collègue par suite de l'inexécution des promesses que le Gouvernement lui avait faites, et que, si on ne s'empresse de la faire cesser, il serait difficile de conserver entre le Gouvernement et les chefs de l'Eglise Catholique en Canada, cette confiance mutuelle qui a contribué efficacement jusqu'à ce jour à faire régner la paix et la bonne harmonie dans la Puissance.

Que la dite amnistie ayant été promise sans limites doit être accordée comme telle pour mettre fin à l'irritation causée par le résultat du procès Lépine, non-seulement dans la dite Province de Manitoba, mais encore dans les autres parties de la Puissance, qu'elle est nécessaire pour mettre fin à des discussions dangereuses qui troublent la paix et retardent la prospérité générale.

C'est pourquoi les soussignés prient Votre Excellence de vouloir bien prendre leur requête en considération, et user de la juste influence dont Elle jouit auprès du Gouvernement Impérial, pour obtenir que l'amnistie promise soit proclamée au plus tôt et qu'il soit mis fin à l'agitation et à l'inquiétude qui règne à ce sujet parmi les loyaux sujets de Sa Majesté, dans la Puissance du Canada.

ENCLOSURE A.

MEMORANDUM ON REPORT OF THE SELECT COMMITTEE TO ENQUIRE INTO THE CAUSES OF THE DIFFICULTIES IN THE NORTH-WEST TERRITORY IN 1869-70

The evidence taken before the Select Committee to enquire into the causes of the difficulties in the North-West Territory in 1869-70, contains important revelations.

The principal, and it may be said the sole point of interest in that enquiry, was to ascertain whether or not a general amnesty had been promised to the parties implicated in those difficulties — by whom, and under what authority it was promised.

The troubles in the North-West broke out unexpectedly. They are mainly attributable to the hasty and inconsiderate manner in which surveys were entered upon by Dominion officials, of lands which the *half-breeds* considered theirs; to the fact that a transfer was made by the Hudson Bay Company, and a Lieutenant-Governor appointed, without any notice to or consideration for the people of the territory. The opposition, which might easily have been satisfied by slight guarantee, became intensified by the haughty conduct of Mr. McDougall, which brought about an open and armed resistance to the Dominion authorities.

On the first intimation of those troubles, the Dominion Government summoned Archbishop Taché, then at Rome, who, on his arrival, was requested by Sir John Young, then Governor-General, on behalf of the Imperial authorities, and by the Canadian Government, to proceed to the North-West, and use every effort to pacify the country. His instructions were most general in their character, and his course of action left almost entirely to his own judgment and discretion.

On the 16th of February, 1870, the Governor General wrote to the Archbishop:—
 “ Lord Granville was anxious to avail himself of your valuable assistance from the out-set, and I am heartily glad that you have proved willing to afford it so promptly and so generously. You are fully in possession of the views of my Government; and the Imperial Government, as I informed you, is earnest in the desire to see the North-West Territory united to the Dominion on equitable conditions.” — “ I need not attempt to furnish you with any instructions for your guidance, beyond those contained in the telegraphic message sent to me by Lord Granville on the part of the British Cabinet, in the Proclamation (that of the 6th December, 1869) which I drew up in accordance with that message, and in the letters which I addressed to Governor McTavish, your Vicar-General, and Mr. Smith.”
 “ In declaring the desire and determination of Her Majesty's Cabinet, you may safely use the terms of the old formula: *that right shall be done in all cases.*”

The proclamation referred to contained the following passage: “ And I do lastly inform you that in case of your immediate and peaceable obedience and dispersion, I shall order that no legal proceedings be taken against any parties implicated in these unfortunate breaches of the law.”

On the same day, 16th February, Sir John A. Macdonald wrote to Archbishop Taché: “ Should the question arise as to the consumption of the stores or goods belonging to the Hudson Bay Company by the insurgents, you are authorized to inform the leaders that if the Company's Government is restored, *not only will there be a general amnesty granted*, but in case the Company should claim the payment for such stores, that the Canadian Government will stand between the insurgents and all harm.”

The Archbishop was furnished with a copy of the proclamation and left, having acquired the conviction from conversations with Sir John A. Macdonald, that whatever might take place, he was authorized to publish the proclamation or not, as he thought proper, according to circumstances, and that it would cover everything done to the day of its publication. Sir John A. Macdonald, giving a different interpretation

to the proclamation, admits that he did not tell the Archbishop to issue the proclamation if other crimes were committed in the interval between his departure and his reaching the territory.

Archbishop Taché arrived in the territory on the 9th of March, 1870, five days after the death of Scott. The excitement was great and "*he was speedily convinced that the situation was extremely perilous,*" and that every possible precaution should be taken to conciliate all interests at stake.

On the 11th of March, 1870, the Archbishop met Riel, Lepine, O'Donoghue and others, and promised them an amnesty in the name of the Governor General, in accordance with his proclamation, and assured them it would apply to everything done till then, being satisfied that unless such promise was made they would resist the Canadian party, and that the country would certainly be ruined.

On the 9th of June following, Archbishop Taché, seeing the uneasiness of the people, owing to their ignorance as to the granting of a complete amnesty, the plans suggested to resist the troops, and in order to avert the danger to which they in the North-West were exposed, gave his word of honor, in the name of the Canadian Government, that a complete and entire amnesty (if not already bestowed) would be granted before the arrival of the troops. He immediately wrote to Mr. Howe, the then Secretary of State, to inform him of what he had done. On the fourth of July Mr. Howe acknowledged the letter of Archbishop Taché, and reminded him that in the debate on the Manitoba Bill Ministers had declared that Canada had no power to grant an amnesty; and that the exercise of the prerogative of mercy rested solely with Her Majesty; that Father Ritchot and Mr. Scott had been distinctly informed that the Dominion Government had no power as a Government to grant an amnesty, and, "I would add," says Mr. Howe, "that the Government is not in a position to interfere with the free action of Her Majesty in the exercise of the royal clemency."

"Her Majesty's Imperial Ministers can alone advise the Queen on such an important matter, when called upon to do so. No doubt can be entertained that Her Majesty, advised by Her Ministers, will on a calm review of all the circumstances discharge the duty of this high responsibility in a temperate and judicial spirit."

"The foregoing explanations are given to Your Lordship in order that it may be well understood that the responsibility of the assurance given by Your Lordship of a complete amnesty, cannot in any way attach itself to the Canadian Government."

"The conversation to which Your Lordship alludes as having taken place between Your Lordship and some Members of the Canadian Cabinet, when Your Lordship was in Ottawa about the middle of the month of February last, must necessarily have taken place with reference to the proclamation issued by His Excellency the Governor General, on the 6th December last, by command of Her Majesty, in which His Excellency announced that in case of their immediate and peaceable dispersion, he would order that no legal proceedings be taken against any parties implicated in these unfortunate breaches of the law at Red River."

"Though I have felt it my duty to be thus explicit in dealing with the principal subject of your letter, I trust I need not assure you that your zealous and valuable exertions to calm the public mind in the North-West are duly appreciated here, and I am confident that when you regard the obstructions which have been interposed to the adoption of a liberal and enlightened policy for Manitoba, you will not be disposed to relax your exertions until that policy is formally established."

On the 5th of July, Sir George Cartier wrote to Bishop Taché a long letter marked strictly private and confidential, in which he gives as a reason for not answering his letters, that he was afraid the answer might be intercepted and that he has trusted to good Father Ritchot to tell him in person what he did not like to put on paper.

He speaks of the delicate question of amnesty, that happily for the people of Red River, the question of amnesty rests with Her Majesty, and not with the Canadian Government. He refers to the petition of Father Ritchot to the Queen, and of the interviews Father Ritchot had with Sir John Young. Then he adds, "but it is, I repeat, fortunate that it is Her Majesty, aided by the advice of Her Ministers, who

"will have to decide this question. Her Majesty has already by proclamation of the 6th of December last, which she caused to be issued by Sir John Young, so to *“speak promised an amnesty.”*

After recommending that a hearty welcome be offered to Mr. Archibald, who was going to the North-West as Lieutenant-Governor, and to the military expedition, he adds, "The Queen will perhaps wait for the result before making known Her clemency;" and again, "if it should happen that opposition were offered on the arrival of the troops and of the new Governor, those taking part in it would incur the risk of finding themselves excluded from the amnesty Her Majesty may have in view; and which she will sooner or later make known."

This was written while Sir George Cartier acted as leader of the Government, during the illness of Sir John A. Macdonald, and for the evident purpose of showing that the letter of the 4th of July was to quiet the fears of some of his colleagues, and for no other purpose.

Archbishop Taché further states, that in a subsequent interview, in July, 1870, Sir George assured him that the amnesty would be proclaimed, that nothing had been changed, and that the proclamation was expected any day.

The Archbishop also states that on several occasions he wrote to Sir George Cartier and to Sir John A. Macdonald, strongly asserting that an amnesty had been promised, without it being denied by them.

It will be observed that the letter of the 4th of July contains no disallowance, either on the part of the Governor General or of his Cabinet, of the action of the Archbishop; no repudiation of the promises made; no request to inform the parties to whom they were made that they need not reckon on those promises; and no revocation of his authority. On the contrary he is told that *his zealous and valuable exertions to calm the public mind in the North-West are duly appreciated, and he is invited not to relax those exertions until a liberal and enlightened policy is formally established.* In fact, while the Government endeavor to throw on their agent the responsibility of the course of action he has taken, they nevertheless approve of what he has done; invite him to persist, and they continue him in his confidential and delicate mission. This approval is made more apparent by comparing Mr. Howe's letter, which was official, with that of Sir George Cartier's of the 5th of July, which was *strictly private and confidential.* The first one for the public, and the other for Monseigneur Taché alone. No person can rise from a perusal of those two letters without being satisfied that the conduct of the Archbishop was fully approved of by the Government, who shrunk from a public expression of their approval.

That Archbishop Taché, acting under the instructions received at Ottawa, when he was entrusted with the proclamation of the Governor General, of the 5th December, for publication on his arrival in the territory, and under the letter Sir John A. Macdonald handed to him, both of which documents contained a direct promise of amnesty, did promise an amnesty, is not contested. But it is contended that the authority to promise an amnesty did not extend to acts subsequent to the 16th of February, 1870, the date of the instructions, and could only cover offences similar to those mentioned in the proclamation, and could not apply to such a crime as the murder of Scott.

The instructions to Archbishop Taché were to publish the proclamation, if he thought proper, when he reached the territory. The proclamation of amnesty contained in Sir John A. Macdonald's letter was also to be made when the Archbishop arrived at Red River. It is hardly necessary to say, that a proclamation takes effect not from the day it is prepared or dated, but from the day of its publication; and a promise from the day it is made, unless another date be specified. Now, it has been shewn that no restriction was imposed upon Archbishop Taché, who was to exercise *his own discretion* to quiet public excitement.

It might perhaps be said, that the Archbishop finding on his arrival at Red River, that the condition of things was materially changed, should not have promised amnesty, but referred to the Imperial and Canadian authorities for further instructions. This, however, does not affect the question, whether or not, he acted within

the scope of his authority, but merely whether he used a wise discretion in acting as he did.

Both by the proclamation and by Sir John A. Macdonald's letter, a distinct promise of amnesty was made. The Archbishop was authorized to make that promise known when he arrived at Red River. He has done so; and whether it was wise or not, is a question to be decided by the necessity of the case. It is worthy of remark, that later on, as will be soon hereafter, Lieutenant-Governor Archibald, when placed in the same difficulty, took a similar course. That the promises so made by the Archbishop, and which procured the immediate release of the prisoners and the acceptance of the terms of the Manitoba Act, prevented civil war, and caused the recognition of the Canadian Government in the territory, are binding on those who gave the authority to make them, could not admit of a doubt, even if his course of action had not subsequently been approved by the subsequent action of the Government, as shown by the letters of the 4th and 5th July, 1870.

The next important portion of the evidence to be found in the report relates to the promises made to the North-West delegates.

Father Ritchot, Judge Black, and Mr. Alfred Scott were appointed at a meeting of delegates from the North-West people, and also by the Provisional Government, a deputation to discuss with the Canadian Government the terms of union. They were the bearers of the conditions on which the people of the North-West were willing to join the Confederation. These conditions, prepared and adopted at the meeting and by the Provisional Government, were called their "Bill of Rights," the 19th Article of which required a guarantee, "that none should be held liable or responsible with regard to the movement, or of any action which led to these negotiations."

From the 23rd of April to the 6th of May, 1870, the negotiations were carried on by the delegates, on the one hand, and on the other by Sir John A. Macdonald, and by Sir George Cartier, specially appointed to represent the Dominion Government. From the 6th of May to September, 1870, Sir John A. Macdonald being ill, was unable to attend to business; and the negotiations were carried on and completed by Sir George Cartier alone—Sir George being the most influential member, and virtually the leader of the Government during Sir John A. Macdonald's illness.

Father Ritchot contends that he and the other two members of the delegation were acknowledged and treated with as delegates from the Provisional Government, which is denied by Sir John A. Macdonald, who says they were received as delegates from the people of the North-West; but that it was known that they were also the delegates of the Provisional Government and bearers of the "Bill of Rights" prepared by the latter, is not contested. Nor is it contested that several articles of the Bill of Rights, including Article 19, were discussed.

Of the three delegates, Father Ritchot alone gave his evidence. Judge Black went to reside in Europe immediately after the negotiations were closed, and Alfred Scott is now dead.

Father Ritchot repeatedly asserts that, although during the negotiations the Canadian Ministers said that the granting of the amnesty, of which he and the other delegates made a *sine quâ non* of any arrangement, did not rest with Canada, they would find means to arrange the matter; that they were in a position to assure them that an amnesty would be granted immediately after the passing of the Manitoba Act, that they might trust to their word for it, that there would be no difficulty whatever about the amnesty, all which is as strongly denied by Sir John A. Macdonald.

However, on the 18th May, 1870, the negotiations being over, Father Ritchot writes to Sir George E. Cartier, and after drawing his attention to three different subjects, one of which is thus alluded to: "The questions raised by the 19th clause of 'our instructions are of the highest importance, I trust, Sir, and the past is my warrant for the future, that you will be able to secure us, before our departure, all the guarantees promised by Sir John and you in relation to these highly important questions.'"

The 19th article or clause referred to, it will be remembered, had mainly refer-

ence to the amnesty. On the next day, 19th of May, Sir George, before answering this letter, took Father Ritchot and Mr. Alfred Scott, two of the delegates, to Sir John Young, the then Governor General, and a long conference took place on the subject of amnesty. On the 23rd May Sir George Cartier, answering the letter of Father Ritchot of the 18th, alludes to the question of amnesty. On the 23rd May, Sir George Cartier, answering the letter of Father Ritchot of the 18th, alludes to the question of amnesty and to the interview with the Governor General, as follows:

"I desire to call your attention to the interview you had with His Excellency the Governor General the 19th instant, at which I was present, and at which His Excellency was pleased to state the liberal policy which the Government proposed to follow in relation to the persons for whom you interest yourself, is correct, and which ought to be adopted."

This letter, it will be observed, not only does not deny the emphatic assertion of Father Ritchot, that Sir John A. Macdonald and Sir George E. Cartier had promised him guarantees in reference to the amnesty, but impliedly admits that such promises were made, and that the Governor General approved of their action.

The postscript authorizing Father Ritchot to use the letter in any explanation he may have to give, was, no doubt, intended to enable Father Ritchot to satisfy the people of the North-West, that their demands, including the amnesty, had been acquiesced in; otherwise the postscript could have no meaning.

Immediately after this, Sir George E. Cartier requested Father Ritchot, through Mr. J. C. Taché Deputy Minister of Agriculture, to sign a petition to the Queen, prepared at the instance of Sir George himself, and praying for an immediate amnesty.

Father Ritchot further says that in a subsequent interview Sir George Cartier told him that he had obtained all he wished for, that the amnesty would be proclaimed before the arrival of the Lieutenant-Governor in the Territory, and that *Sir George requested him "to tell Riel and his people that they had nothing to fear."*

From the moment Father Ritchot left Ottawa on the first day of June, he has not ceased to assume and assert, in his letters to Sir George Cartier, in his interviews with Riel and others, and with Archbishop Taché, in a second petition to the Queen, which he and Alfred Scott signed in May, 1872, as well as in the affidavits (p. 83), which he gave on the 19th November, 1873, that the amnesty had been promised and would be granted.

The statements of Father Ritchot are corroborated by the letters of Sir George Cartier, by his memorandum of the 8th of June, 1870 (p.p. 171 to 178), by the evidence of the Hon. Joseph Royal, who says Sir George Cartier told him that "the amnesty was settled upon"—to tell Riel of it (p.p. 129 and 130); by that of the Hon. M. A. Girard, to whom Sir George said "be sure that the amnesty will come before long,—tell your people to remain quiet and keep order" (p. 179); by that of Major Futvoye, who heard Sir George say to Father Ritchot, "I guarantee that you will have everything you have asked," and that he (Sir George) frequently told him (Mr. Futvoye) that he had promised "the delegates that a general amnesty should be granted for all past offences;" also by that of Benjamin Sulte, who says that in his presence Sir George Cartier "repeatedly assured Father Ritchot that the people would not be troubled in reference to what had taken place." Major Futvoye was the Deputy and Mr. Sulte the Private Secretary of Sir George Cartier.

Apart from this direct evidence, the enquiry made by the Committee has disclosed a series of facts of the highest interest, in their bearing on the question of amnesty.

Mr. Archibald was appointed Lieutenant-Governor of Manitoba, and was in the Province, in the beginning of September, 1870, some eight days after the arrival of the troops. Although he declares that he received no instructions as regards the amnesty, he never seems to have entertained any doubt that it was either promised by the Dominion Government, or implied in the Treaty.

This is shown by Mr. Royal's evidence, and by a letter which Mr. Archibald addressed to Mr. Smith, on the 20th of December, 1873, in which he says, "There is no

"doubt that a very short time would have been needed to bring about a better state of things, and then he and his friends (Riel and his friends) could have claimed an amnesty, which, *whether it was promised or not*, was implied in the Treaty; but which, whether promised or not, no Government could venture to give till the passions of the moment had cleared away a little, and left them free to act in the *true interest of the Dominion*."

These views are those that he took from the outset; for he says that on his arrival at Red River, September, 1870, he told the people and the Archbishop, that he had no instructions; and that he also stated to the Archbishop, that *his own impression was, that under all the circumstances of the case, the logical conclusion seemed to be, that there must be an amnesty*.

In October, 1871, the Province was menaced with a formidable Fenian invasion. Governor Archibald thought the situation so grave, that to repel this invasion required the united action of the whole population. He applied to Father Ritchot to secure the assistance of the French half-breeds. A correspondence took place, in which Father Ritchot represented that Riel's influence was necessary to direct his compatriots, but that he was in such a position, that he could not act openly, unless he received the assurance that he would be sheltered from any legal proceedings, *at least for the present*.

To this request, Governor Archibald replied—

"You speak of the difficulties which might impede any action of Mr. Riel, in coming forward to use his influence with his fellow-citizens, to rally to the support of the Crown, in the present emergency."

"Should Mr. Riel come forward, as suggested, he need be under no apprehension that his liberty will be interfered with in any way. To use your own language, *pour la circonstance actuelle*."

Riel came forward as requested, and organized two or three hundred half-breeds. He, together with Lepine and Parenteau, wrote to the Governor that they had organized several companies, and others were being organized, and that so long as their services were required, he might rely upon them.

On the 8th of October, the Governor crossed the river to meet them. He shook hands with Riel, Lepine and others, and returned them his thanks, through his secretary, Mr. Buchanan, for their loyalty and prompt action, by a letter of the 8th October, addressed to Riel, Lepine and Parenteau. In his evidence, Governor Archibald explains, as follows, the reasons which justifies his course of action:

"I believe (he says), that the action of the half-breeds, at the time of the Fenian raid, was attributable to the negotiations with their leaders which I have described; and if the half-breeds had taken a different course, I do not believe the Province would now be *in our possession*. I think I communicated those circumstances to the Government at Ottawa.".....

"But I did not receive any communication from that Government as to the mode of action adopted or to be adopted."

In these difficult circumstances he was left without other instructions than those he had received at Ottawa from Sir George Cartier, who said to him:—"You must exercise your best judgment, and do what you can to preserve the public peace; we have implicit faith in your discretion and good sense."

In a confidential letter of the 9th October, 1871, Governor Archibald reported without delay to Sir John A. Macdonald the promise he had made—"that *pour la circonstance actuelle* the leaders of 1869 and 1870 would not be arrested."

This letter was acknowledged on the 18th October by Sir John A. Macdonald, who did not express a word of disapprobation at the course pursued or the promises made to the leaders.

Governor Archibald, later on, after he had ample time for reflection, says:—

"On looking back, I see nothing in the course I took that gives me any doubt as to its correctness. I would take it again under the like circumstances. If the Dominion have at this moment a Province to defend, and not one to conquer, they owe it to the policy of forbearance."

These several acts of the Lieutenant-Governor, in soliciting the aid of Riel and others at a time of great danger for the safety of the country; his associating with them, and thanking them for their services, to say nothing of the direct promise to free them from the present from arrest, constitute, under the circumstances, and according to every rule of public and international law, an absolute and unconditional promise of amnesty for all the offences of which Riel and his companions might then have been charged with. The words *pour la circonstance actuelle*, used by the Governor, can in no wise limit the extent of this mercy, for pardon on the one day cannot mean trial on the next day for the same offence.

The Dominion Government, under whose authority the Lieutenant Governor was acting, could only have been relieved from the consequences of the obligations implied in his dealing with the leaders of 1869 and 1870, by an immediate disallowance of his acts and repeal of his authority. Far from this being done, his course was approved by a promotion to the important office of Lieutenant-Governor of Nova Scotia, which position he now holds.

Subsequent events show to what extent the Dominion Government felt the responsibility of the obligations which either of their own promises or the acts of the agents imposed upon them, for within a month of the occurrences just alluded to, and when all apprehensions of danger from a Fenian invasion were over, Sir George E. Cartier and Sir John A. Macdonald are found pressing Archbishop Taché to use his influence in getting Riel to leave the country *for awhile*. "If you can succeed in keeping him out of the way, I will make his case mine, and I will carry the point," says Sir John A. Macdonald. He agrees to pay money to keep him out of the country, and sends a draft of \$1000 to Archbishop Taché, with instructions to pay the money periodically, and spread it over a year to prevent waste, and the embarrassment caused by his presence in the country from recurring.

On his way home, Archbishop Taché was informed by a letter from Sir George, that it would be advisable that Lepine should also leave the country, and the money furnished by Sir John be divided between him and Riel.

After reaching Red River the Archbishop found that the sum furnished was insufficient. He applied to Lieutenant-Governor Archibald, who called on Mr. Smith, and the latter, at the request of the Lieutenant-Governor, advanced, out of the funds of the Hudson Bay Company, a sum of £600 0s. 0d. sterling, to be repaid by the Dominion Government. Part of this sum, and of the \$1000 furnished by Sir John, was handed to Riel and Lepine, who left the country accompanied by one or two men of the Dominion Police, sent by Plainval, the Chief of Police, to protect them from danger.

Archbishop Taché says the reason assigned both by Sir John A. Macdonald and Sir George E. Cartier for their request to send Riel out of the country, was to prevent the excitement which his presence in Manitoba would make during the elections.

Sir John A. Macdonald says his reason for sending Riel away, was the fear of a renewed Fenian invasion, and the information the Government had that both Riel and Lepine, although professing to act against the Fenian movement, were really in concert with its bodies. If the Government had such information, the proper place the police should have taken Riel and Lepine to was the common gaol, where they might have atoned for past offences and prevented from doing further mischief, instead of accompanying them to the frontier, where they would meet their confederates and mature with impunity their treasonable projects. Governor Archibald emphatically denies that there was any danger of a second Fenian invasion, and states that he satisfied himself of the loyalty of Riel, about which he had doubts. His reason for desiring them away was the fear that if an attempt was made to arrest them, the whites, who looked upon them as *patriots and leaders*, might rise to rescue them, and thereby endanger the peace of the country. Mr. Smith seems also to have shared that opinion.

Be that as it may, the fact remains that the First Minister of the Dominion has used Civil Service money for the purpose of secreting from justice and preventing the trial of one who was accused of treason and murder. If this was not done in part fulfilment of an engagement on behalf of the Government to pardon the offence of

which Riel was accused, then it was a deliberate conspiracy to bar the course of public justice; it was simply an act of compounding, and, along with this aggravated circumstance, that it was not the felon who paid the accuser to secure impunity, but the accuser, the public prosecutor, who furnished, out of the public chest, the funds required for that purpose. This would be such a monstrous proceeding, that it cannot be supposed to have been entertained for an instance by one who, in addition to being First Minister, held the office of Minister of Justice. The transaction just alluded to furnishes another and perhaps stronger evidence than all the others which have been adduced, that the Government felt bound to secure the amnesty to Riel and others, and that they sought, by these means, to fulfil in spirit these engagements, which later, at a more convenient time, they expected to be able to carry to their full extent.

It will perhaps be contended that the promise of amnesty, made by the Canadian authorities, are of no value, since they had no right to grant it. The answer to that is, that the Dominion Government, or their representatives, did not promise to grant an amnesty, but to secure it. This promise implies, that they would use every means in their power to obtain it. After representing the whole case to the Imperial Government, and showing that these promises were made in pursuance of instructions received from the Colonial Secretary, to use every means to restore order and peace in the North-West Territory; and that those promises were considered by the confidential agents who made them, as the only mode of fulfilling their mission; and that the course they have thought necessary to adopt under a sense of the gravest responsibility, has saved that immense territory from the horrors of a civil and Indian war, and has preserved it to the British Crown; it is not to be supposed that when these representations shall have been made, coupled with an earnest appeal for amnesty, which is now desired by the bulk of those most interested in the peace, welfare and prosperity of that important part of the Dominion, that promises made under such circumstances, and with such results, will be discarded; but whether they are or not, the Canadian Government will then, and not till then, be able to claim to have discharged its obligations towards those who made such promises on its behalf, as well as to those to whom they were made.

ENCLOSURE B.

NORTH-WEST QUESTION.

In order to consider in its true light the question of amnesty to Riel and the other leaders implicated in the North-West troubles during the years 1869 and 1870, as it now stands, we have not to examine whether Riel and his confederates committed acts which call for the condemnation of every loyal subject, but whether, according to the law of nations, those parties are entitled to a general amnesty for all the deeds by them perpetrated during those troubles, as insurgents and rebels to the authority of the Queen.

To that end, many things and facts have to be taken into consideration :—

During the rebellion, at the time when the insurgents were under arms and in possession of Fort Garry, and controlled and were ruling the country, Archbishop Taché, who was engaged in Rome at the Œcumenical Council, was called, and induced to proceed to the North-West as envoy and plenipotentiary of Her Majesty's Government, and there to do all in his power to bring the insurgents to submission. For that purpose, he was vested with the powers and authority contained in the letter of the then Governor General of Canada, Sir John Young, dated the 16th February, 1870, of which follows an extract :—

"You are fully in possession of the views of my Government, and the Imperial Government, as I informed you, is earnest in the desire to see the North-West Territory united to the Dominion on equitable conditions. I need not attempt to furnish you with any instructions for your guidance, beyond those contained in the telegraphic message sent me by Lord Granville, on the part of the British Cabinet, in the Proclamation" (dated 6th December, 1869) "which I drew up in accordance with that message, &c."

In the above mentioned Proclamation, after other recitals, Sir John Young, addressing the people of the North-West Territory, says :—"And I do lastly inform you in the case of your immediate and peaceable obedience and dispersion, I shall order that no legal proceedings be taken against any parties implicated in these unfortunate breaches of the law."

His Lordship was furthermore given a letter from Sir John A. Macdonald, Prime Minister and Minister of Justice, dated the 16th February, 1870, of which the following is an extract :—

"Should the question arise as to the consumption of any stores of goods belonging to the Hudson Bay Company by the insurgents, you are authorized to inform the leaders that, if the Company's Government is restored, not only will there be a general amnesty granted, but in case the Company should claim the payment for such stores, that the Canadian Government will stand between the Insurgents and all harm."

Empowered by these credentials, and by the verbal instructions given him both by the Governor General and by Sir John A. Macdonald and Sir Geo. E. Cartier, in the name of the Canadian Government, the Archbishop left for the North-West, where he arrived in the first days of March, a few days after the death of Scott. He immediately communicated to the leaders of the insurgents his credentials, namely, Sir John Young's letter and proclamation, and Sir John's letter dated the 16th February. They were then in possession of the whole territory, and had organized what they called a Provisional Government and Legislature, through a popular election in the various French and English parishes in the territory.

After having remonstrated with them, His Lordship, in the name of the Governor General of Canada, made them several promises if they would lay down arms and submit to the Canadian authority, and more particularly promised a general amnesty to all parties implicated in the insurrection, for what they had done as insurgents up to that time, including the shooting of Scott.

Relying on a promise thus made by a man of such a standing as Archbishop Taché, on the authority of the credentials he exhibited to them, and on the verbal

instructions he told them he had received on leaving Ottawa, the insurgents determined to submit to Canadian authority, declaring at the same time they had never intended to break their allegiance to the Crown, but that they would not be forced into the Canadian Confederation without being consulted and without being granted the same rights and privileges as were enjoyed by other portions of the Dominion. His Lordship answered that the Government of Canada were ready to consider their propositions, and that they had only to send delegates to Ottawa to agree upon the terms of their entering the Union; and he stated to them that if they did so *they would be amnestied from the first to the last, and he promised so in the name of Her Majesty.*

The insurgents yielded to his entreaties, and sent delegates to Ottawa with written instructions, wherein the granting of a general amnesty, as promised by Archbishop Taché, envoy and representative of the Government of Canada, was made the *sine qua non*.

The delegates were received as the delegates of the people of the North-West, and had several interviews with Sir John A. Macdonald and Sir Geo. E. Cartier, who had been specially authorized by the Government to confer with them on the subject of their mission. They communicated to those Ministers the instructions given to them by those who had sent them. After several interviews, an agreement was made, and resolutions adopted which were embodied in the Manitoba Act.

Delegates Ritchot and Scott state in their evidence that, as a general amnesty was the *sine qua non* of the understanding, it was promised both by Sir John and Sir George.

After the Manitoba Act was passed, the delegates returned home and stated to the leaders that a general amnesty had been agreed to as promised by Archbishop Taché, and would be granted.

Before leaving, Father Ritchot, one of the delegates, fearing that the leaders of the insurgents would yet entertain doubts as to the execution of the promise of amnesty, wrote to Sir George E. Cartier a letter in which he said:—"The questions raised by the 19th clause of our instructions" (that clause was the one relating to the granting of the amnesty) "are of the highest importance; I trust, sir, and the past is my warrant for the future, that you will be able to secure us, before our departure, all the guarantees promised by Sir John and you in relation to those highly important questions."

On receiving that letter, Sir George E. Cartier went to Messrs. Ritchot and Scott, two of the delegates, and took them to His Excellency the Governor General, where the question was discussed, and the next day he sent the following answer to Mr. Ritchot's letter:—"I desire to call your attention to the interview you had with His Excellency the Governor General, at which I was present, and in which His Excellency was pleased to state that the *liberal policy* which the Government proposed to follow in relation to the persons for whom you interest yourself is correct, and is that which ought to be adopted."

At an interview with Sir George, before their departure, the delegates Ritchot and Scott (Mr. Black had left for Scotland), asked him who was to govern the country until the arrival of the Canadian authorities. He told them that Riel should do it.

When these two delegates reached Fort Garry, they reported to Riel and his friends, the leaders of the insurgents, what had been done; they told them that the condition of a general amnesty had been agreed to, as promised by Archbishop Taché, and that it would be proclaimed under Her Majesty's own signature, within the strict delays necessary to get it from England. They added that up to the arrival of the Canadian authorities, Riel and his Provisional Government should "keep power and maintain order." The insurgents, confident in those declarations, kept possession of Fort Garry up to the arrival of the troops sent by the Canadian Government, and then immediately dispersed and laid down arms as agreed to.

It is maintained by certain people that, notwithstanding all the above and other evidence to be found in the Blue Book, there is no proof that an amnesty has been promised to all parties having taken part in the North-West insurrection, for all the

deeds perpetrated by them as insurgents. Let us examine by comparing the evidence, the value of such an opinion.

On the one hand, we have the following authorities :

1°. Archbishop Taché states he said to Sir John A. Macdonald, before leaving for the North-West: "This is all very well, but there have been acts committed which are blameworthy, and there may be some other before my arrival there: "may I promise them an amnesty?" He answered me: "Yes, you may promise it to them." It was then that Sir John A. Macdonald wrote me the letter dated "16th Feb'y, 1870."

2°. Father Ritchot says that, when he arrived at Ottawa as a delegate, "The Ministers said in reply to our question, that they were in a position to assure us that an amnesty would be granted immediately after the passing of the Manitoba "Bill."

3°. Alfred A. Scott says, in his petition to Her Majesty :

"That on the day and at the hour appointed, the negotiations were opened and that the delegates of the North-West declared to the Honorable Members of the Cabinet of Ottawa, that in conformity with their instructions, they could not come to any agreement unless a general amnesty should be granted for the illegal acts which might have been committed by any of the parties concerned in the troubles that had occasioned the actual delegation."

"That the Honorable Sir John A. Macdonald and Sir George E. Cartier declared to the delegates that they were in a position to assure them that such was the intention of Your Majesty, that they could consequently proceed with the negotiations, being satisfied that the Royal Prerogative of mercy would be exercised by the grant of a general amnesty."

4°. Hon. Joseph Royal says :

"In the interview referred to, I said to Sir George, I intended to go to Manitoba if the amnesty is to be proclaimed.

"He advised me very strongly to go, for several reasons. He enquired if I had seen Riel. He told me to tell Riel, and write to him, *L'amnestie est une affaire décidée, c'est une affaire faite.* He stated that it was a settled affair; 'that the thing was done.'

"He expressly asked me to inform Riel of this, and to write to him if I could not see him."

5°. Hon. M. A. Girard says :

"As one of the Ministers of the Province, and feeling that it would be impossible to do much good in the Province without any amnesty, I wrote to Sir George Cartier, whom I regarded as one of my particular friends, on two or three different occasions, drawing his attention to that amnesty, and the promise that, I understood from the whole of the people, had been made of an amnesty. In these letters I described the condition of the country, and urged strongly upon Sir George the necessity for an amnesty.

"I received answers to several of these letters—I think to all of them. His answer was to request me to be sure that the amnesty would come. '*Soyez certain que l'amnestie viendra avant long temps.*' Tell your people to remain quiet and keep order.

"I wrote to Sir George as well in my capacity of a Minister as the sole representation of the French element; and also as friend. I have not those answers from Sir George here; they are at Winnipeg. In these letters to me he remarked also when recommending quiet, that the enemies of the people would be gratified if they put themselves in the wrong by acting otherwise, and so deprive themselves of the benefit of their position. He desired me to tell them to adhere to their duty and that the amnesty would inevitably come."

6°. Major Futvoye says :

"I am Deputy of the Minister of Militia and Defence. I have filled that office since Confederation.

"I was present at a meeting between Sir George Cartier and Father Ritchot on

"19th May, 1870, or thereabouts, when Sir George told Father Ritchot this: *Je garantis que vous aurez tout ce que vous avez demandé.*" I did not hear the conversation which had preceded this expression, nor was anything said afterwards during the same interview further. It was at the close of a long interview between them when I was called in and heard these words.

"Father Ritchot came from Sir George's direct into my room, which was almost adjoining, and told me that Sir George had guaranteed that an amnesty for all the past should be granted as soon as it could possibly be obtained.

"After Father Ritchot had left me I went into Sir George's room, when he told me that he had promised all that the delegates requested, and he hoped that everything was finally settled.

"He asked me if Father Ritchot was satisfied, and I told him that he assured me that the promises made by Sir George were quite satisfactory. This interview was early in the day, and, I presume, before any audience of the Governor on that day."

The six gentlemen all agree in their evidence that the amnesty was promised both by Sir John A. Macdonald and Sir Geo. E. Cartier, in the name of the Canadian Government.

On the other hand, we have the denial of the two latter gentlemen.

In order to properly appreciate this conflicting evidence as to the promise made to Archbishop Taché, before he left as delegate on behalf of Canada, and to Messrs. Ritchot and Scott, as delegates from people of the North-West, it must be borne in mind that at the time when the insurgents took arms and got possession of Fort Garry, there was great excitement. The Fenians had twice invaded our territory, and thereby caused a large amount of expenditure both in time and money. There was fear in England and here that we might be called to suffer a considerable loss in lives and in money, and perhaps be dragged into a war, not only with the Half-breeds, who were but few in number, but with the Indian tribes of the prairies, to which the insurgents were related by blood and language,—and with the Fenian organization, which was making every effort to raise trouble on this side of the American line. It was believed by everybody that if we once got into war with the people of the prairies, no one could foretell the end of it, on account of the immense extent of the North-West territories, and that we would be exposed to the same endless sacrifices which the United States had to suffer so many years, on account of the Indians of their Western Territory.

The Imperial Government itself, to a certain extent, shared this apprehension, since Sir Clinton Murdock was instructed to watch the proceedings on its behalf, and Lord Granville deemed it necessary to send the telegraphic despatch referred to by the Governor-General, &c., &c., &c.

Such being the general impression, and the Canadian Government being advised by the Imperial Authorities to make every effort towards the settlement of the difficulty, is it not most probable and likely that Archbishop Taché, when sent to the North-West, received the authority he was asking, and which every one concerned must have considered as essential for the success of his mission, namely, the power to promise the granting of an amnesty? That conclusion must also be arrived at if we consider the effect and extent of the general authority in the *carte blanche* given to him by the Governor-General's letter, and by that of Sir John A. Macdonald, dated the 16th February, 1870.

We have also the several letters of Sir Geo. E. Cartier, and his declarations to Messrs. Girard, Royal, Ritchot and Futvoye, all of which go to establish that the promise of amnesty had been made, and which fully corroborate the evidence of Archbishop Taché. Is it to be supposed that if the promise of an amnesty, as stated by Archbishop Taché, had not been made by Sir John A. Macdonald, that he would have submitted to the allegations contained in several of his Lordship's letters? that he would have given money for Riel and Lepine? that he would have approved Lieutenant-Governor Archibald and his minister, Mr. Girard, when they made the same promise? And when Mr. Archibald accepted Riel's services to repel the

Fenians, can we suppose that Sir John would have rewarded him by giving him a more important position than the one he then held, if Mr. Archibald had done so without Sir John's knowledge and consent? Decidedly no! To sum up, from the reasons, then existing, which would have induced any Government to do all in their power to put down that insurrection, and from Sir John's conduct from beginning to end, it is evident that, as alleged by Archbishop Taché and Messrs. Ritchot and Scott, the promise was duly made both before and at the time the delegates came here.

But now let us suppose for one moment that, when Archbishop Taché went to the North-West as the representative of Canada, he was not authorized by the Government of the day to make the promise he has made, would the question be changed?

The following facts are undeniable:

Archbishop Taché, as our plenipotentiary, and as representing the Governor and the Government of Canada, made to the insurgents the promise of a full and general amnesty, in the very terms mentioned in his evidence.

That promise was officially notified to the Canadian Government by his letters, bearing date the 11th March, 7th May, and 9th June, 1870.

He had never been disavowed or publicly disapproved, but on the contrary, he was thanked for having done what he had done.

For and in consideration of that promise of amnesty, the insurgents sent delegates to Ottawa, to whom the promise was renewed, at least by Sir Geo. E. Cartier who, together with Sir John A. Macdonald, had been empowered by the Cabinet to negotiate with those delegates, and who, in the absence and during the illness of Sir John, acted alone, and, as his Excellency Lord Dufferin says, as *locum tenens* of the Prime Minister.

The renewal of such promise by Sir Geo. E. Cartier was within the knowledge of Sir John A. Macdonald, for he says in his evidence: "In the conversations between Sir George and Father Ritchot, they were moving on different planes; Sir George, referring to the amnesty, exclusive of the persons charged with the death of Scott, and Father Ritchot always including them."

The leaders of the insurgents have executed their share of the agreement, and that which was the consequence of the promise of amnesty, and the Government have taken advantage of that promise and of its results.

According to the principles of International law, which applies as well to insurgents as to a foreign nation or power, the Government of Her Majesty is bound to fulfil the promise made to Archbishop Taché and grant a general amnesty, because it has taken advantage of the treaty made with Archbishop Taché, with or without proper authority. All the authors on International law, both French and English, concur in this.

Let us first refer to *Vattel* (Book II., Chap. XIV., S. 208): "If a public person, an ambassador, or a general of an army, exceeding the bounds of his commission, concluded a treaty or a convention without orders from the sovereign, or without being authorized to do it by virtue of his office, the treaty is null, as being made without sufficient powers: it cannot become valid without the express or tacit ratification of the sovereign. The express ratification is a written deed by which the sovereign approves the treaty and engages to observe it. The tacit ratification is implied by certain steps which the sovereign is justly presumed to take only in pursuance of the treaty, and which he could not be supposed to take without considering it as concluded and agreed upon."

And again, same book and chapter, s. 212: "We have shown that a State cannot be bound by an agreement made without her orders, and without her having granted any power for that purpose. But is she absolutely free from all obligation? That is the point which now remains for us to examine. If matters as yet continue in their original situation, the State or the sovereign may simply disavow the treaty, which is, of course, done away by such disavowal and becomes as perfect a nullity as if it had never existed. But the sovereign ought to make

"known his intentions as soon as the treaty comes to his knowledge; not, indeed, that his silence alone can give validity to a convention which the contracting parties have agreed to consider as valid without his approbation; but it would be a breach of good faith in him to suffer a sufficient time to elapse for the other party to execute, on his side, an agreement which he himself is determined not to ratify.

And further, Book III., Chap. XVIII., S. 291: "In many cases the safest, and at the same time, most just method of appeasing sedition, is to give the people satisfaction. And if there existed no reasons to justify the insurrection (a circumstance, which, perhaps, never happens), even in such a case, it becomes necessary, as we have above observed, to grant an amnesty where the offenders are numerous. When the amnesty is once published or accepted, all the past must be buried in oblivion; nor must any one be called to account for what has been done during the disturbances: and, in general, the sovereign, whose word ought ever to be sacred, is bound to the faithful observance of every promise he has made, even to rebels—I mean to such of his subjects as have revolted without reason or necessity. If his promises are not inviolable the rebels will have no security in treating with him: when they have once drawn the sword they must throw away the scabbard, as one of the ancients expresses it; and the prince, destitute of the more gentle and salutary means of appeasing the revolt, will have no other remaining expedient than that of utterly exterminating the insurgents. These will become formidable through despair; compassion will bestow succours on them, their party will increase, and the State will be in danger. What would have become of France if the leaguers had thought it unsafe to rely on the promises of Henry the Great? *The same reasons which should render the faith of promises inviolable and sacred between individual and individual, between sovereign and sovereign, between enemy and enemy, subsist in all their force between the sovereign and his insurgent or rebellious subjects.*"

Also Book V., ch. VI, Act 14:

"Upon a scrupulous fidelity in the observation of treaties, not merely in their letter, but in their spirit, obviously depends, under God, the peace of the world. *Pact a sancta servanda* is the prevailing maxim of International, as it was of Roman jurisprudence."

And again, *loc. cit.*, Art. 50:

"The consent may be signified in various ways. Some jurists have asserted that the declaration of consent must be specified in writing; but, though this be the usual and most convenient mode, it cannot be said to be indispensable to the validity of the Treaty."

Wheaton (Elements of International Law, Part III., S. 253) says:

"No particular form of words is essential to the conclusion and validity of a binding compact between nations. The mutual consent of the contracting parties may be given expressly or tacitly, and in the first case, either verbally or in writing. It may be expressed by an instrument signed by the plenipotentiaries of both parties, or by a declaration, and counter-declaration, or in the form of letters or notes exchanged between them. But modern usage required that verbal agreements should be as soon as possible, reduced to writing in order to avoid disputes; and all mere verbal communications, preceeding the final signature of a written convention, are considered as merged in the instrument itself. The consent of the parties may be given tacitly, in the case of an agreement made under an imperfect authority, by acting under it as if duly concluded."

Also *loc. cit.* s. 255: "Such acts or engagements, when made without authority, or exceeding the limits of the authority under which they purport to be made, are called *sponsions*. These conventions must be confirmed by express or tacit ratification. The former is given in positive terms, and with the usual forms; the latter is implied from the fact of acting under the agreement as if bound by its stipulations. Mere silence is not sufficient to infer a ratification by either party, in order to prevent the latter from carrying its own part of the agreement into effect. If, however, it has been totally or partially executed by either party, acting in good

"faith upon the supposition that the agent was duly authorized, the party thus acting is entitled to be indemnified or replaced in his former situation."

Also, Part IV., s. 399: "Grotius has devoted a whole chapter of his great work to prove, by the consenting testimony of all ages and nations, that good faith ought to be observed towards an enemy. And even Bynkershoek, who holds that every other sort of fraud may be practised towards him, prohibits perfidy, upon the ground that his character of enemy ceases by the compact with him so far as the terms of that compact extend. 'I allow of any kind of deceit,' says he, 'perfidy alone excepted, not because anything is unlawful against an enemy, but because when our faith has been pledged to him, so far as the promise extends he ceases to be an enemy.' Indeed, without this mitigation, the horrors of war would be indefinite in extent and interminable in duration. The usage of civilized nations has therefore introduced certain *commercium belli*, by which the violence of war may be allayed, so far as is consistent with its objects and purposes, and something of a pacific intercourse may be kept up, which may lead, in time, to an adjustment of differences, and ultimately to peace."

And again, *loc. cit.*, s. 544: "If an abstract right be in question between the parties, on which the treaty of peace is silent, it follows that all previous complaints and injury, arising under such claim, are thrown into oblivion by the *amnesty*, necessarily implied, if not expressed; but the claim itself is not thereby settled either one way or the other."

Woolsey (Introduction to the study of International Law, s. 107) says: "..... But Bynkershoek defended another opinion which is now the received one among the text-writers, and which Wheaton has advocated at large with great ability. If the minister has conformed at once to his ostensible powers and to his secret instructions, there is no doubt that in ordinary cases it would be bad faith in the sovereign not to add his ratification. But if the minister disobeys or transcends his instructions, the sovereign may refuse his sanction to the treaty without bad faith or ground of complaint on the other side. But even this violation of secret instructions would be no valid excuse for the sovereign's refusing to accept the treaty, if he should have given public credentials of a minute and specific character to his agent; for the evident intention in so doing would be to convey an impression to the other party that he is making a sincere declaration of the terms on which he is willing to treat."

Speaking of civil war, he says (s. 136): "The same rules of war are required in such a war as in any other—the same ways of fighting, the same treatment of prisoners, of combatants, of non-combatants and of private property by the army where it passes: so also natural justice demands the same veracity and faithfulness which are binding in the intercourse of all moral beings."

"Nations thus treating rebels, by no means concede thereby that they form a State, or that they are *de facto* such. There is a difference between belligerents and belligerent States, which has been too much overlooked."

"When a war ends to the disadvantage of the insurgents, municipal law may clench the nail which war has driven, may hang, after legal process, instead of shooting, and confiscate the whole instead of plundering a part. But a wise and civilized nation will exercise only so much of this legal vengeance, as the interests of lasting order imperiously demand."

At s. 146, he says: "The possibility of intercourse in war depends on the confidence which the belligerents repose in each other's good faith, and this confidence, on the unchangeable sacredness of truth. Even Bynkershoek, who allows every kind of violence and every kind of craft, has to say, in words already cited, '*ego quidem omnem dolum permitto, sola perfidia excepta.*' That faith should be kept with heretics has been denied, but no one has maintained that it is not to be kept with enemies."

"Such being the undoubted principle of obligation in war as well as in peace, war is enabled to put on a milder form, for that reason, and to interrupt its violence for a time, either towards particular persons or entirely." * * *

And again (s. 153): "The effect of a treaty on all grounds of complaint for which a war was undertaken, is to abandon them; or, in other words, all peace implies *amnesty* or oblivion of all past subjects of dispute, whether the same is expressly mentioned in the terms of the treaty or not. They cannot in good faith be revived again, although a repetition of the same acts may be a righteous ground of a new war. An abstract or general right, however, if passed over in a treaty, it not thereby waived."

Now, if the rules laid down by those writers are to be taken as law, as undoubtedly they are, because they are adopted by all writers on the subject, and more particularly because they are based upon justice and equity, could it be pretended that a general amnesty is not *due* to all parties implicated in the North-West difficulties?

Have those parties a right to claim it?

Is it not true:

1. That they were assured, by the representative of the Government, that the amnesty would be granted on certain conditions?
2. That that fact was communicated to the Government of Canada, which acted on it and benefitted by it?
3. That the least that can be said, is, that the delegates of those parties, and through them the insurgents themselves, were made to believe that if they would do as they have afterwards done, they would get amnesty without restriction?
4. That the stipulated conditions have been fulfilled by the insurgents and accepted by the Government?

There can but be an affirmative answer to each these of questions.

Lt.-Governor Archibald states in his evidence: "The people were undoubtedly convinced that there was to be an amnesty. I could not form any conclusion as to whether or not the people would have taken a different line if they had not been satisfied that there was to be an amnesty."

In their address to Lieutenant-Governor Archibald, the inhabitants of the parish of St. Norbert said: "Your Excellency will nevertheless allow us to say that we must not conceal from you that an essential feature is still wanting; we, nevertheless, expect it with confidence, seeing that it has been *promised us by men whose words were never spoken in vain*. Your Excellency in person has assured us that all that has been guaranteed by treaty cannot but be granted."

Do not all the facts and circumstances prove the conviction and belief of those parties?

Another reason why, according to all laws, a general amnesty should be granted, is that Mr. Archibald, as Lieutenant-Governor of Manitoba and Her Majesty's representative, during the Fenian invasion of October, 1871, accepted the services of Riel and other leaders of the insurrection, to organize their compatriots, over whom they were known to have an immense influence. He exchanged correspondence with them, promised them protection if they would help to repel the Fenians, and after they had brought their friends together, he met them, congratulated them, shook hands with them, and enlisted them to serve against an enemy of Her Majesty who was then invading the country. He communicated all those facts to the Canadian Government by his memorandum, No. 90.

Referring to the matter in his evidence, he says: "On looking back, I see nothing in the course I took that gives me any doubt as to its correctness. I would take it again under the like circumstances. If the *Dominion have at this moment a Province to defend, and not one to conquer, they owe it to the policy of forbearance,*" etc.

Now, can it be maintained that after Her Majesty's Government had requested and accepted the services of these men, whose conduct, in those days of excitement, prevented a large portion of the North-West population from joining the invaders, and thus contributed to discourage and repel the enemy, and "to keep that Province *in the Domain of Her Majesty,*" according to Mr. Archibald's own expression,—that they are still to be treated as rebels, and refused an amnesty which has already been

promised to them? I cannot believe it; such a policy would be unprecedented in the history of England, and, in my opinion, a misfortune.

When Lord Kimberley sent his despatch of the 24th of July, 1873, offering, in the name of the Imperial Government, to issue a proclamation not applying to all the parties implicated in those troubles, he, undoubtedly, considered the case as an ordinary one, and, like many Canadians, had no knowledge of the facts disclosed by the Report of the Committee of the House of Commons on the North-West difficulties; for had he known such facts, he would certainly have acted otherwise. I have no doubt that it is the duty of the Canadian Government to submit that evidence to the Imperial Government, and to recommend the adoption of the policy to which Canada has been pledged by the acts of her representatives. I doubt not that, after full information of all the circumstances, the Imperial Government will find it their duty to proclaim a general amnesty, extending to all parties implicated and covering all acts perpetrated by them as insurgents in the North-West disturbances during the years 1869 and 1870, without exception or restriction, for the above mentioned reasons.

Moreover, it appears, both from the evidence of many of the English settlers before the Committee, and from the addresses unanimously adopted by the two Houses of the Manitoba Legislature, in their session of 1872, and upon which is based their petition to Her Majesty, —that the two races and the inhabitants of Manitoba generally, understand that an amnesty was promised, and are anxious that the matter should be definitively settled, and, as they say in their petition, *that all questions connected with those troubles should be set at rest.*

OTTAWA, 1st October, 1874.

Copy—(No. 9.)

DOWNING STREET, 7th January, 1875.

MY LORD,—

I received, on the 29th ultimo, your despatch No. 805 of the 10th December, transmitting a copy of an Order-in-Council, in which your Ministers request that Her Majesty's Government will deal, in such a way as existing circumstances may seem to justify, with the whole question of the offences committed by Riel, Lepine and others in the North-West Territories of the Dominion, in 1869 and 1870.

2. This question has now passed into a stage requiring that it should be disposed of without delay, inasmuch as Lepine, one of the principal parties to the brutal and atrocious murder which formed the most notorious feature of the rebellion in Manitoba, now, lies under sentence of death for that crime, and it has become necessary to decide not only whether the extreme penalty of the law should be inflicted in his case, but also what course should be taken in the corresponding case of Riel, in the event of his submitting himself, or being brought to justice.

3. I fully recognize the force of the considerations which lead the Dominion Government to think that this is a case with which it is difficult, for several reasons into which I need not now enter in detail, for the Local Administration to deal; and I should have been prepared to instruct you formally on the subject, if, after considering the question in the altered aspect in which it is now presented to me, I were of opinion that such a course would be the most convenient.

4. There are, however, obvious objections, notwithstanding the full confidence which Her Majesty's Government are able to place in the completeness and impartiality of your very able exposition of the circumstances connected with this case, to their undertaking the decision of a question which can be thoroughly understood in all its bearings by those only who, residing on the spot, are familiar with every detail of it.

It is on account of the almost insuperable difficulty of ensuring a just and prudent decision on the part of persons who live at a distance, and are of necessity imperfectly acquainted with facts and opinions, that the Queen delegates to the Governors of her Colonies the administration of the prerogative of mercy in regard to cases arising within them; and I am clearly of opinion that in the thirty-ninth paragraph of your despatch you rightly indicate, as I have already intimated to you by telegraph, the course which it would be most correct to follow, namely that, acting under the powers vested in you by the Royal Instructions, you should yourself determine whether the sentence passed on Lepine should be carried out or modified. You observe that you propose to act in this matter on your own responsibility; and I believe that by proceeding in that manner in the present instance, that is to say, by relieving your Ministers, under the very peculiar circumstances in which they are placed, from the obligation under which they would lie, if the question were an ordinary one, of tendering advice to you respecting it, and by deciding according to your own individual judgment, you will best meet the requirements of the case.

5. But although, for the reasons which I have stated, I think it preferable that such action as may be taken should be formally and

technically your own and not that of Her Majesty's Government, I am quite willing to give you that assistance and support, which, as I gather from the third paragraph of your despatch, you and your Ministers consider that a dispassionate review of the whole question, accompanied by some expression of opinion on the part of this Government, would render; and I do this the more readily because it is pre-eminently a question as to which an impartial expression of carefully considered opinion from an authority which, although not directly connected with the many personal, political, religious, and national feelings that have been aroused, is not the less deeply interested in the maintenance of a harmonious relationship between the members of the Dominion, may be useful.

6. I will, therefore, at once proceed to state briefly the conclusion at which I have arrived on the whole subject, and which I have laid before Her Majesty as, in my humble opinion, combining justice and mercy in the highest degree compatible with those conditions of public policy which cannot be wholly overlooked; and it is with much satisfaction that I find myself able to agree with the course which you have yourself determined to be proper in the event of the considerations which have appeared to justify an amnesty not being found on examination such as to warrant the entire condonation of the crimes which have been committed.

7. Following then the order in which you have treated the subject, I may observe, in the first place, that it is obvious that neither the proclamation intended to be issued, but from certain causes not published, at Fort Garry in 1869, nor the correspondence cited in paragraphs 4 to 7 of your despatch, are in any way applicable to the condition of affairs which arose when, some time subsequently, the atrocious murder of Scott was committed. Nor can anything promised to the murderers (although in good faith) by Archbishop Taché, nor any impression or understanding that he or others may have formed of the purport of conversations or communications with individual Ministers, be deemed to have in any way pledged the Crown to extend an amnesty to acts which had not even been heard of by the Dominion Government, when he received the letters instructing him as to his proceedings at Fort Garry, and which on full examination could not fail to appear to be such as the Queen (if the Imperial Government should be required to act) could not be advised to leave unpunished. As Archbishop Taché's connection with this affair constitutes the first of the five reasons alleged for amnesty, I will now dispose of it by observing that with all respect for his honesty and good intentions, it is impossible to admit that he had any sufficient ground for believing that the Crown, or the Colonial Government acting for the Crown, did or could delegate to him, or to any other unofficial person, or indeed to anyone, as to a Plenipotentiary, an unlimited power of pardoning crimes, of whatever atrocity, not even known to have been committed. And your opinion that the Crown is in no way committed by any promises given by Archbishop Taché is the only one which I can consider tenable.

8. As to the second plea, based upon alleged conversations held in 1870 by Abbé Ritchot, Archbishop Taché and others, with the Governor General and Members of the Dominion Government, I had occasion some

time ago to examine the statements made on both sides, and I formed then, and still hold the distinct opinion that the misapprehension on the part of Abbé Ritchot (from whatever cause it proceeded) of the statements made to him, was so complete as to have led him entirely to misrepresent not only the views but the language of the Governor General and of other officers of the Government. If I in any degree qualify this statement in so far as it may be applicable to certain inaccurate or too encouraging observations which may have fallen from the late Sir G. Cartier, and which may possibly (although of this there is no adequate evidence,) have been such as reasonably to lead Abbé Ritchot to entertain too sanguine a hope as to the result of his advocacy, I must at the same time place on record my belief that Sir G. Cartier is sufficiently shown to have recollected the extent of his powers and of his duty to his Government, and to have on one occasion at least clearly explained that he could not promise or guarantee any pardon.

9. The third plea that the murderers of Scott represented a *de facto* Government, and are consequently excusable on political grounds, is one which I cannot for a moment entertain. There could be within the Queen's possessions in North America no power or pretence of establishing a *de facto* Government, independent of, or defying Her Majesty and Her officers, which could aspire to any such immunity as that claimed; and any argument based on the view of such a state of things being possible, is in my opinion not even worthy of discussion.

10. Nor am I able to take into consideration the grounds alleged, in the fourth place, in the 28th and 29th paragraphs of your despatch. They seem to me to have no bearing on the question at issue. I proceed therefore at once to the fifth place, which is based upon the dealings of Lieutenant-Governor Archibald with the murderers of Scott, when (in 1871), with very inadequate means at his disposal, he felt himself constrained to avail himself of everything within his reach to repel the Fenian invasion, then seriously threatening his Province.

11. Admitting that Mr. Archibald dealt with these persons as with any other members of the community, received valuable assistance from them, and not only formally thanked them, but promised them a temporary immunity from the consequences of their crime; I feel no hesitation in concluding that neither these transactions, nor even any further promise (if he had made one), of endeavouring to procure for them an amnesty, can be held to have placed the Crown under any obligation absolutely to condone so disgraceful a crime as that which they had committed.

12. Mr. Archibald cannot, in my opinion, be held to have represented the Crown in such a way as to have had any power of pledging its future action in regard to such transactions as those now under review. The Lieutenant Governors of the Provinces of the Dominion, however important locally their functions may be, are a part of the Colonial Administrative Staff, and are more immediately responsible to the Governor General in Council. They do not hold commissions from the Crown, and neither in power nor privilege resemble those Governors, or even Lieutenant Governors of Colonies to whom, after special consideration of their personal fitness, the Queen, under the Great Seal and Her own hand and signet, delegates portions of Her prerogatives and issues Her own instructions. But I do not desire to lay stress upon this point, because in dealing

with ignorant and half educated people, it is obviously desirable that due recognition should, as far as possible, be given to any acts or promises which may reasonably be thought to bind or pledge either the Colonial or Imperial Government.

But, thinking, as I do, that the services rendered by these offenders in 1871 deserve to carry considerable weight, and should be liberally taken into consideration when justice has to be executed with respect to their previous offences; and admitting, indeed, that it is as impossible to permit the extreme sentence of death to be inflicted upon persons who have been recognized and dealt with as they have, as it is to allow them to go unpunished, I feel that the question which I have to consider is, not whether they should be amnestied (for that is not to be heard of), but what kind of punishment will be just and reasonable in all the peculiar and conflicting circumstances of their case.

13. One of them has now been found guilty of murder by a jury, the composition of which was such as to secure an impartial consideration of everything that could be fairly urged on his behalf. And whilst I entirely concur in the justice of the verdict in Lepine's case, I cannot entertain the opinion that Riel, whose guilt was certainly not less, could be subjected to any less punishment than that which may be inflicted on Lepine.

14. On the whole, after a most anxious consideration of the whole question, I have come to the conclusion that you will act with both clemency and justice if you carry out the view expressed in the concluding portion of your despatch, that the capital sentence of Lepine should be commuted. You do not state what amount of imprisonment you would consider a proper commutation, but I assume that you contemplate a term sufficient to mark distinctly the sense which both the Crown and all right-minded men must entertain that his offence has been such as cannot be allowed to pass without substantial punishment. Whenever Riel submits himself, or is brought to justice, it would seem right that he should suffer a similar punishment to that of Lepine.

15. I have now explained to you the view taken by Her Majesty's Government of the difficult question with which you are called upon to deal. You will remember that my predecessor intimated to you that Her Majesty's advisers were of opinion that the murder of Scott must be excepted from the list of offences connected with the Red River disturbances for which an amnesty could be granted. And I feel confident that, as in the commencement of your despatch you encourage me to hope, a loyal acquiescence will be secured among the large majority of the Queen's Canadian subjects, in the opinion that although a murder such as that of Scott cannot be allowed to go unpunished, on the ground that it was connected with political disturbances, yet, in so far as it did result from political circumstances, those who were guilty of it may be deemed to have earned a merciful consideration through their subsequent good service to the State, and that for those services their lives should be spared. You will readily understand that in thus expressing to you a distinct opinion on the part of Her Majesty's Government, I am conveying the assurance of that support from without, which you have desired, and on which you may rely in the difficult circumstances in which you are placed.

16. There yet remains a further question, whether it should not be a condition of any commutation of sentence, that those actually concerned

in the murder of Scott should be deprived of the power of taking part in political affairs within the Dominion. It has been a source of much pain to many who, like myself, take pride in the public institutions of Canada, to hear of the Legislature being disgraced by the election to the House of Commons and the presence within its walls of a criminal like Riel; and I wholly fail to understand how any section of the Canadian people, of whatever race or creed, can so far mistake the true character of these unhappy proceedings as to throw over them the colour of patriotism. I should not therefore think it unreasonable, while it would undoubtedly conduce to a higher tone of constitutional morality, that the liberation of the criminals after the expiration of their commuted sentence, should be accompanied by some stringent conditions as to their good conduct, if they remain in any part of Canada, and by their total exclusion from any participation in political or parliamentary life.

Anticipating that your Ministers will share this opinion, I request you to consult them as to the manner in which such political disability as I have referred to may best be enforced.

I have, &c.,

(Signed,)

CARNARVON.

Governor-General,

The Right Honorable

The Earl of Dufferin, K.P., K.C.B.,

&c., &c., &c.

TELEGRAMS.

The Earl of Carnarvon to the Earl of Dufferin, Jan. 14th, 1875.

My despatch on Lepine sent last week approves your dispensing with Ministers' advice in accordance with your powers under instructions, intimates that neither amnesty nor entire pardon possible, but commutation approved. Riel should have similar punishment. Political disability desirable. Telegraph if you desire further information.

CARNARVON.

The Earl of Dufferin to the Earl of Carnarvon, January 20th, 1875.

Guided by the consideration set forth in my despatch to your Lordship of the 10th December, I directed my Minister of Justice, on the fifteenth of January, to take steps for the commutation of the capital sentence on Lepine into two years' imprisonment and the forfeiture of his political rights.

DUFFERIN.

The Earl of Carnarvon to the Earl of Dufferin, Governor General, Canada, January 26th.

I fully approve course taken by you in Lepine's case.

CARNARVON.

CANADA.

(Copy—No. 17.)

MONTREAL, 29th January, 1875.

MY LORD,—

I have the honor to enclose, for your Lordship's information a number of extracts and leading articles from the various newspapers in the Dominion, both French and English, on the commutation of the capital sentence passed on Ambroise Lepine.

2. It cannot but give satisfaction to your Lordship to perceive with what general acquiescence the terms of the commutation have been accepted. Although the circumstances of the case deeply touched the feelings of both the English and French sections of the population, and afforded ample room for controversy and differences of opinion, there has been scarcely anything approaching to angry or violent comment, either upon the one side or the other. It has been universally felt that the subject was one of very great difficulty, and the moderation exhibited in all quarters is of the happiest augury for the future.

3. Personally I cannot help feeling deeply sensible of the confidence exhibited by the population, with whom I have the happiness of being connected, in the impartiality and soundness of the decision it has become my duty to arrive at in connection with this grave and momentous matter.

I have, &c.,

(Signed,) DUFFERIN.

The Right Honorable
The Earl of Carnarvon,
Colonial Office.

CANADA.

(No. 20.)

GOVERNMENT HOUSE,
OTTAWA, 3rd February, 1875.

MY LORD,—

In continuation of my correspondence in reference to the case of Lepine, I have the honor to inform your Lordship that I have received numerous petitions praying for a commutation of his sentence. These petitions, with very few exceptions, have been drawn up in the several towns and villages of the Province of Quebec, and the signatures show that the petitioners were in almost all cases of French origin. The number of petitions received amount to two hundred and fifty-two (252), bearing fifty-eight thousand five hundred and sixty-eight signatures (58,568).

I observe that several of the signatures are in the same hand-writing, but I have reason to believe that they have been in most, if not in all cases, appended by the priest or other person engaged in preparing the petition, at the desire of those whose names they bear.

I have, &c.,

(Signed,) DUFFERIN

The Right Honorable
The Earl of Carnarvon,
&c., &c., &c.

GOVERNMENT HOUSE,
January 15th, 1875.

SIR,—I am commanded by the Governor General to inform you that His Excellency has had under his full and anxious consideration the evidence and other documents connected with the trial of Ambroise Lepine, who has been capitally convicted before the Court of Assize held at Winnipeg on the 10th day of October, 1874, of the murder of Thomas Scott, on the 4th of March, 1870, at Fort Garry.

Although His Excellency entirely agrees with the finding of the Jury, and considers that the crime, of which the prisoner Lepine has been convicted, was nothing less than a cruel and unjustifiable murder, he is of opinion that subsequent circumstances, and, notably, the relations into which the Provincial authorities of Manitoba entered with the prisoner and his associates, are such as, in a great degree, to fetter the hands of justice.

It further appears to His Excellency that the case has passed beyond the province of Departmental administration, and that it will be best dealt with under the Royal Instructions, which authorize the Governor General, in certain capital cases, to dispense with the advice of his Ministers, and to exercise the prerogative of the Crown according to his independent judgment, and on his own personal responsibility.

I have it, therefore, in command to inform you that it is His Excellency's pleasure that the capital sentence passed upon the prisoner Lepine be commuted into two years of imprisonment in gaol from the date of conviction, and the permanent forfeiture of his political rights.

His Excellency desires that the necessary instrument for giving effect to this commutation be forthwith prepared.

I have the honor to be, Sir,

Your most obedient humble servant,

H. C. FLETCHER,
Governor General's Secretary.

To the Honorable
The Minister of Justice,
Ottawa.

CANADA.

No. 9.

GOVERNMENT HOUSE, OTTAWA,
January 18th, 1875.

MY LORD,—In further reference to previous correspondence, I have the honor to enclose, for your Lordship's information, a copy of a communication I have addressed to the Honorable Telesphore Fournier, my Minister of Justice, instructing him to commute the capital sentence recently passed on Ambroise Lepine, into imprisonment for two years in gaol, and the permanent forfeiture of his political rights.

2. In thus dispensing with the advice of my responsible Ministers, and exercising the Queen's prerogative according to my own judgment, I am aware I have undertaken a very grave responsibility, more especially as the facts and considerations by which the issue has to be determined are of a very complex and embarrassing character. Upon these, however, I will not enlarge as they have already been fully set forth in former despatches.

3. I am quite convinced that the matter is one which, in the general interests of this country, will have been best dealt with by my direct action.

4. Although the commuted sentence may appear very inadequate to the enormity of the crime, of which it is the punishment, I believe it to be such as will best satisfy the conflicting exigencies of the case.

I have the honor to be, My Lord,

Your Lordship's most obedient

Humble Servant,

DUFFERIN.

To the Right Honorable
The Secretary of State for the
Colonies.

(No. 68.)

BRITISH COLUMBIA,
GOVERNMENT HOUSE,
26th July, 1873.

SIR,—I have the honor to enclose, at the request of my Ministers, for submission to His Excellency the Governor General, a minute of my Executive Council, representing the non-fulfilment by the Dominion Government of the 11th Section of the Terms of Union of British Columbia with Canada, expressing regret that the railway has not been commenced, and strongly protesting against the breach of a condition of the terms so highly important to this Province.

I have the honor to be, Sir,
Your obedient servant,
(Signed,) JOSEPH W. TRUTCH.

The Hon. J. C. Aikins,
Secretary of State for Canada.

COPY of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Lieutenant-Governor on the 25th day of July, 1873.

The Committee of Council have had under consideration the non-fulfilment by the Dominion Government of the 11th Section of the Terms of Union.

The Committee regret that the construction of the railway has not been commenced, and therefore strongly protest against the breach by the Dominion Government of a condition of the terms so highly important to the Province.

The Committee recommend the above for the approval of Your Excellency, and, if sanctioned, respectfully request that a copy thereof be at once forwarded to the Dominion Government.

Certified.
(Signed,) W. J. ARMSTRONG,
Clerk, Executive Council.

(No. 96.)

BRITISH COLUMBIA,
GOVERNMENT HOUSE.
24th November, 1873.

SIR,—I have the honor to enclose herewith a further minute of my Executive Council referring to the non-fulfilment by the Dominion Government of the 11th Article of the Terms of Union of the Province with Canada.

In accordance with the advice of my Ministers, expressed in this minute, I beg you to be pleased to lay this despatch and its enclosure before His Excellency the Governor General, and to be good enough to bring to His Excellency's attention the previous minutes of Executive Council on the same subject which were forwarded for his consideration in my despatches, No. 67 and No. 68 of the 26th July last—the latter of which conveying a protest from this Government on the failure of the Dominion Government to secure the commencement within two years from the date of Union of the construction of a railroad from the Pacific towards the Rocky Mountains—as provided in the 11th Article of the terms of Union—is yet unanswered, and to move His Excellency to communicate to this Government in whatever manner he may deem advisable in time to meet the requirement of the desire indicated by my

Ministers, the course intended to be taken by the Dominion Government in fulfilment of the 11th Article of the Terms of Union of this Province with Canada.

I have the honor to be, Sir,
Your obedient servant,
(Signed,) JOSEPH W. TRUTCH.

The Honorable
the Secretary of State
for Canada.

Copy of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Lieutenant-Governor on the 22nd day of November, 1873.

The Committee of Council having had under consideration a memorandum from the Honorable the Provincial Secretary, dated 19th November, 1873, setting forth the facts:—

That the Government of British Columbia has protested against the non-fulfilment by the Dominion Government of the 11th Article of the terms of Union.

That beyond the acknowledgment of receipt no reply has been made by the Dominion Government to the despatch conveying that protest.

That the Government of British Columbia, looking at the actual position of affairs, felt compelled to await the action of the Parliament of Canada, expected shortly to meet, and which did meet on the 23rd October last past.

That the Parliament of Canada has been prorogued, not to meet until February next, without making provision for the construction of the Pacific Railway.

That the Legislative Assembly of the Province stands called to meet at Victoria on the 18th day of December next, and that the non-fulfilment by the Dominion Government of the Terms of Union has caused a strong feeling of anxiety and discouragement to exist throughout the Province. The Committee advise your Honor to ask the Dominion Government through the proper channel for a decided expression of its policy with regard to the fulfilment of the 11th Article of the Terms of Union, in order that the information may be given to the Legislature at the opening of the coming Session. And to request that the decision arrived at be communicated to your Honor by telegram at the earliest moment possible, and the Committee respectfully suggest that if the present report be sanctioned, your Honor will be pleased to forward the same to His Excellency the Governor General, and also to draw his attention to the minutes of Council, each bearing date the 25th July last, on the same subject, one being a protest against the breach of Article 11, and the other a denial of the right of the Dominion Government to a conveyance, or several of any of the public lands for railway purposes until the line of railway should be defined.

Certified.

(Signed,) W. J. ARMSTRONG,
Clerk, Executive Council.

To His Honor the Lieutenant-Governor of British Columbia, Victoria:—

SIR,—I have the honor to acknowledge the receipt of your despatch, No. 96, of the 24th ultimo, enclosing with reference to your previous despatches on the subject, a further minute of your Executive Council respecting the non-fulfilment by the Dominion Government of the 11th Article of the "Terms" of the Union of British Columbia with Canada.

In reply, I have to inform you that the subject will receive the consideration of the Government.

I have, &c.

Department, Secretary of State,
13th December, 1873.

(381 D.)

Copy of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council, on the 23rd December, 1873.

The Committee have had under consideration the despatch dated 24th November, 1873, from the Lieutenant-Governor of British Columbia, enclosing a further minute of his Executive Council, referring to the non-fulfilment by the Dominion Government of the 11th Article of the Terms of Union of this Province with Canada, and stating that in accordance with the advice of his Ministers expressed in this minute, he requests that this despatch and its enclosure be laid before Your Excellency together with the previous minutes of his Executive Council on the same subject, which were forwarded for consideration in his despatches, No. 67 and No. 68, of the 26th of July last, the latter of which, conveying a protest from that Government on the failure of the Dominion Government to secure the commencement within two years from the date of Union, of the construction of a railroad from the Pacific towards the Rocky Mountains, as provided in the 11th Article of the Terms of Union, he states is yet unanswered, and requesting Your Excellency to communicate to that Government in whatever manner may be deemed advisable in time to meet the requirement of the desire indicated by his Ministers, the course intended to be taken by the Dominion Government in fulfilment of the 11th Article of the Terms of Union of that Province with Canada.

The Committee of Council respectfully recommend that the Lieutenant-Governor of British Columbia be informed that this Government is giving its most earnest consideration to the project for the construction of the Pacific Railway, an outline of which was given in the speech delivered by Mr. Mackenzie at Sarnia, on the 25th November, a scheme which they believe will be acceptable to the whole Dominion, including British Columbia, and that they hope to be able within a short time to communicate more definitely with that Province on the subject.

Certified.

(Signed,) W. A. HIMSWORTH,
Clerk of Privy Council.

To the Honorable
The Secretary of State,

(590-246.)

DEPARTMENT, SECRETARY OF STATE,
20th December, 1873.

SIR,—Adverting to your despatches, Nos. 68 and 96, of the 26th July and 24th November last respectively, I have the honor to transmit to you here-
23rd December, 1873. with, for the information of your Government, a copy of an Order of his Excellency the Governor General in Council, on the subject of the alleged non-fulfilment by the Dominion Government of the 11th Article of the Terms of Union of the Province of British Columbia with Canada.

I have, &c.

To His Honour
The Lieutenant-Governor of British Columbia,
Victoria.

(No. 4.)

BRITISH COLUMBIA,
GOVERNMENT HOUSE,
21st January, 1874.

SIR,—I have the honor to acquaint you that I have duly received and laid before my Executive Council your despatch of the 30th ultimo, and the copy therewith enclosed

of an order of His Excellency the Governor General in Council, on the subject of the non-fulfilment by the Dominion Government of the 11th Article of the Terms of Union of this Province with Canada.

I have the honor to be, Sir,
Your obedient servant,
(Signed,) JOSEPH W. TRUTCH.

The Honorable D. Christie,
Secretary of State for Canada,
Ottawa.

(B.)

[Copy of No. 9.—633 D.]

BRITISH COLUMBIA,
GOVERNMENT HOUSE,
25th February, 1874.

SIR,—I have the honor to enclose herewith a copy of an Address to me from the Legislative Assembly of this Province, requesting me to protest on behalf of the Legislature and people of British Columbia, against the Minute of Executive Council. ^{Copy of Address.} ^{Minute of Executive Council.} ^{infraction of the 11th Article of the Terms of Union of British Columbia with Canada,} by which the Dominion undertook to secure the commencement simultaneously within two years from the date of Union, of the construction of a railway from the Pacific towards the Rocky Mountains, and from such point as may be selected east of the Rocky Mountains towards the Pacific, to connect the seaboard of British Columbia with the railway system of Canada; and to urge the absolute necessity for the commencement of the actual construction of such railway from the seaboard of British Columbia early in the present year.

I also enclose a minute of my Executive Council, concurring in the prayer of this Address to me, and recommending that a copy thereof be forwarded by me to His Excellency the Governor General, with a request that he will be pleased to order immediate action to be taken thereon.

In accordance therefore, with the advice of my Ministers, I beg that you will be good enough to lay this despatch and its enclosures before His Excellency the Governor General, and to recommend to His Excellency's favorable consideration the representations and urgent request of the Government and Legislature of British Columbia herein set forth.

I have the honor to be, Sir,
Your obedient servant,
(Signed,) JOSEPH W. TRUTCH.

The Hon. D. Christie,
Secretary of State for Canada.

Copy of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Lieutenant-Governor, on the 23rd day of February, 1874.

The Committee of Council have had under consideration an Address of the Legislative Assembly of the 9th instant, respecting the breach of the railway clause contained in the terms of Union.

On the 25th July last, and again on the 24th of November last, strong protests and representations on the subject of the Address were forwarded to the Dominion Government, but no reply of an assuring character has yet been received by the Province. The result of this silence has been one of painful and growing dissatisfaction.

The Committee feel that a strong but respectful protest against the course pur-

sued by the Dominion Government should be once more forwarded to His Excellency the Governor General.

The Committee recommend that, should this their report be approved of His Honor the Lieutenant Governor be respectfully requested to cause a copy of the Address to be forwarded to His Excellency the Governor General, with a request that he will be pleased to order immediate action to be taken thereon.

The Committee advise that their recommendation be approved of.

Certified.

(Signed,) W. J. ARMSTRONG,
Clerk, Executive Council.

To His Honor the Honorable Joseph^r William Trutch, Lieut.-Governor of the Province of British Columbia.

"MAY IT PLEASE YOUR HONOR,—We, Her Majesty's dutiful and loyal subjects, the Legislative Assembly of the Province of British Columbia, in Parliament assembled, beg leave to approach your Honor with our respectful request that your Honor will be pleased to take into consideration the following resolution of the House.

"Whereas, on the 20th July, 1871, the Colony of British Columbia was united to and became part of the Dominion of Canada, in accordance with certain terms, and whereas by Section 11 of the said terms, the Government of the Dominion undertook to secure the commencement, simultaneously within two years from the date of Union of the construction of a railway from the Pacific towards the Rocky Mountains, and from such point as may be selected east of the Rocky Mountains towards the Pacific, and whereas the two years therein referred to expired on the 20th July last, and the construction of the said railway was not then, and has not since been commenced, causing thereby serious loss and injury to the people of this Province, be it therefore *Resolved*, That an humble Address be presented to His Excellency the Lieutenant-Governor, respectfully requesting him to protest on behalf of the Legislature and people of this Province against the infraction of this most important clause of the Terms of Union, and to impress upon the present administration the absolute necessity of commencing the actual construction of the railway from the seaboard of British Columbia early in the present year."

(Signed,) J. ROLAND HETT,
Clerk of the Assembly.

9th February, 1874.

DEPARTMENT, SECRETARY OF STATE,
12th March, 1874.

SIR,—I have the honor to acknowledge the receipt of your despatch, No. 9, of the 25th ult., covering a copy of an Address of the Legislative Assembly of the Province of British Columbia and of a minute of your Executive Council, founded thereon on the subject of the non-fulfilment of the 11th Section of the terms of Union of the Province to the Dominion.

Your despatch and its enclosures will be submitted for the consideration of His Excellency the Governor General in Council.

I have, &c.,
(Signed,) EDOUARD J. LANGEVIN,
Under Secretary of State.

To His Honor
The Lieutenant-Governor of British Columbia,
Victoria.

(C.)

(Telegram)

VICTORIA, B. C., 8th May, 1874.

It being reported here to-day that the Premier stated in House of Commons on 4th inst., that construction of railway in British Columbia would not be commenced

this year, this Government urgently requests to be fully informed immediately by telegraph of particulars of policy adopted by Dominion Government respecting railway clause of terms of Union.

(Signed,)

Jos. W. TRUTCH,
Lieutenant-Governor.

To Honorable
The Secretary of State for Canada.

(Telegram)

PRIVY COUNCIL, CANADA,
OTTAWA, 8th May, 1874.

To LIEUTENANT-GOVERNOR TRUTCH:—

Mr. Mackenzie simply stated that until the location of the road was ascertained it was impossible to commence construction. That a large surveying force was now at work, and there was no reason to believe that it could be possible to complete the survey before close of year.

GOVERNMENT HOUSE,
24th November, 1873.

SIR,—I have the honor to enclose a further minute of my Executive Council referring to the non-fulfilment by the Dominion Government of the 11th Article of the terms of Union of this Province with Canada.

In accordance with the advice of my Ministers, expressed in the minute, I beg you to be pleased to lay before His Excellency the Governor-General, and to be good enough to bring to His Excellency's attention, the previous minutes of my Executive Council on the same subject, which were forwarded for his consideration in my despatches, No. 67 and 68, 26th July last, the latter of which conveying a protest from this Government on the failure of the Dominion Government to secure the commencement within two years from the date of Union, of the construction of a Railroad from the Pacific towards the Rocky Mountains as provided in the 11th Article of the Terms of Union, is yet unanswered; and to move His Excellency to communicate to this Government, in whatever manner he may deem advisable, in time to meet the requirement of the desire indicated by my Ministers, the course intended to be taken by the Dominion in fulfilment of the 11th Article of the Terms of Union of this Province with Canada.

I have, &c.,
(Signed,) JOSEPH W. TRUTCH.

COPY of a report of a Committee of the Honorable the Executive Council, approved by His Excellency the Lieutenant-Governor, on the 22nd day of November, 1873.

The Committee of Council having had under consideration a memorandum from the Honorable the Provincial Secretary, dated 19th November, 1873, setting forth the facts—

That the Government of British Columbia has protested against the non-fulfilment by the Dominion Government of the 11th Article of the Terms of Union.

That beyond the acknowledgment of the receipt, no reply has been made by the Dominion Government to the despatch conveying the protest.

That the Government of British Columbia, looking at the actual condition of affairs, felt compelled to await the action of the Parliament of Canada, expected shortly to meet, and which did meet at Ottawa on the 23rd of October last past.

That the Parliament of Canada has been prorogued not to meet until February next, without making provision for the construction of the Pacific Railway.

That the Legislative Assembly of the Province stands called to meet at Victoria on the 18th day of December next, and,

That the non-fulfilment by the Dominion Government of the Terms of Union

has caused a strong feeling of anxiety and discouragement to exist throughout the Province.

The Committee advise Your Honor to ask the Dominion Government, through the proper channel, for a decided expression of its policy, with regard to the fulfilment of the 11th Article of the Terms of Union, in order that the information may be given to the Legislature at the opening of the coming Session.

And they request that the decision arrived at be communicated to Your Honor by telegram at the earliest moment possible; and the Committee respectfully suggest, that if the present Report be sanctioned, Your Honor will be pleased to forward the same to His Excellency the Governor General; and also draw his attention to the Minutes of Council, each bearing date the 25th day of July last, on the same subject, one being a protest against the breach of Article 11, and the other a denial of the right of the Dominion Government to a conveyance or reserve of any of the public lands for Railway purposes until the line of Railway should be defined.

Certified.

DOWNING STREET,

15th January, 1874.

MY LORD,—I have the honor to acknowledge the receipt of your despatch, No. 301, of the 26th of December, enclosing a copy of a despatch from the Lieutenant Governor of British Columbia, with a copy of a minute of his Executive Council, referring to the non-fulfilment, on the part of the Canadian Government, of the 11th Article of the terms of Union between that Province and Canada in respect to the construction of the Pacific Railway.

I have the honor to be, My Lord,

Your Lordships most obedient humble servant,

(Signed,)

KIMBERLY.

Governor General

The Right Honorable

The Earl of Dufferin, K. P., K. C. B.

&c.

&c.

&c.

(21.)

(Confidential—Copy 3,494.)

OTTAWA, February 19, 1874.

MY DEAR SIR,—In your conversations with leading men in and out of the Government in Columbia, it will be well to let them understand that in proposing to take longer time than is provided in constructing the railway, we are actuated solely by an urgent necessity. That we are as anxious as possible to reach the object sought by all—the early construction of the road.

We are, however, advised by our Engineers, that it is a physical impossibility to construct the road in that time—that is within the time provided in the terms of the Union, and that any attempt to do so can only result in very great useless expense and financial disorder. You can point out that the surveys for the Intercolonial Railway were begun in 1864, and the work carried on uninterruptedly ever since, and although the utmost expedition was used, it will require still eighteen months to complete it. If it requires so much time in a settled country to build 500 miles of railway with facilities every where for procuring all supplies, one may conceive the time and labor required to construct a line five times the length through a country all but totally unsettled.

You will point out that it is, because we desire to act in good faith towards Columbia, that we at once avow our inability to carry out the exact conditions of the terms of Union. That it would have been an easy matter for us to have said nothing about it, or carelessly to have assumed the task of finishing the road before the month of July, 1881. Acting from a desire to deal frankly and honestly with Columbia, we considered what we could do to afford, at the earliest possible date, some means of travel across the continent preliminary to and in advance of a complete line of railway.

You will point out that, as part of the Dominion, it is as much in their interest as in ours to pursue a careful, judicious policy; also, that in assuming a disposition in spite of all reason to insist on impossibilities they are only setting at defiance all the rest of the Dominion and the laws of nature.

That by insisting on the "pound of flesh," they will only stimulate a feeling on the part of people generally to avoid in the future giving anything but the "pound of flesh."

You will remember that the Dominion is bound to reach the seaboard of the Pacific only, not Victoria or Esquimalt, and you will convey an intimation to them that any further extension beyond the head waters of the Bute Inlet, or whatever other portion of the sea-waters may be reached, may depend entirely on the spirit shown by themselves in assenting to a reasonable extension of time or a modification of the terms originally agreed to.

You will also put them in remembrance of the terms they themselves proposed, which terms were assented to by their Local Legislature, and point out that it was only the insane act of the administration here which gave such conditions of Union to Columbia; that it could only have been because that administration sought additional means of procuring extensive patronage immediately before the general election, and saw in coming contests the means of carrying the elections, that the Province obtained on paper terms which at the time were known to be impossible of fulfilment.

If you find any favorable disposition among the leading men of the Province towards affording a generous consideration to the obvious necessity of giving a sufficient time for pushing the road through Columbia, you will endeavor to ascertain what value they attach to such consideration.

You will point out that the action of this Government in the matter of the graving dock, and the agreement to advance in cash the balance of the amount of debt with which Columbia was allowed to enter the Confederation, showed that it was not considering itself bound to the exact terms of Union, but was willing to go beyond them when the necessities of the Province seemed to demand such action, and that we not unnaturally expect similar action on the part of the Province.

In the event of your finding that there is a willingness to accept a proposition to extend the time for building the road, you will endeavor to obtain some proposition from them, directly or indirectly, and communicate this to us by cipher telegraph at once.

If, on the other hand, they make or indicate no proposition, you will telegraph to us what you think would be acceptable, but wait a reply before making any proposition.

In the event of the leading men evincing a disposition to negotiate, you will endeavor to secure something like a combination of parties to sanction any proposition likely to be generally accepted.

It will be well that you should take some means of ascertaining the popular view of the Railway question. This may be done by mingling among the people and allowing them to speak freely while you listen, remembering in taking impressions that your audience may be impressed by special local considerations rather than the general question.

It will be well not to confine yourself to the vicinity of the Government offices or Victoria, but to cross to the main land and meet with the people at Westminster and other towns and villages on the lower reaches of the Frazer.

It may be that you will find there is a disposition manifested to negotiate at Ottawa, in which case you will advise us of the existence of such a desire.

You will take special care not to admit in any way that we are bound to build the railway to Esquimalt or any other place on the Island; and while you do not at all threaten not to build there, to let them understand that this is wholly and purely a concession, and that its construction must be contingent on a reasonable course being pursued regarding other parts of the scheme.

It may be that the Local Government will desire to constitute the members for the Commons a delegation to discuss matters here; if this be the case, you will still remain until we shall communicate with you.

You will take every opportunity of noting the various matters connected with Dominion business, in accordance with instructions that will be sent.

I am, my dear Sir,

Yours faithfully,

(Signed,) A. MACKENZIE.

(Copy.)

OTTAWA, Feb. 19th, 1874.

DEAR SIR,—Allow me to introduce Mr. James D. E. Edgar, of Toronto, who visits your Province on public business for the Government. Mr. Edgar will confer with yourself and other members of the Government of Columbia on the question lately agitating the public mind in Columbia, and will be glad to receive your views regarding the policy of the government on the construction of the railway.

But for the meeting of Parliament in four weeks, some members of the Government would have visited your Province, but Mr. Edgar, as a public man, is well known here and fully understands the questions he will discuss with you.

I need not, I am sure, assure you of my own sincere desire to do all I can, not only to act justly but generously to Columbia.

It is in your interest and is the interest of the Dominion that we should both act with a reasonable appreciation of difficulties which are unavoidable, and devise means to remove them or overcome them.

We have induced Mr. Edgar to go to Columbia, as we thought you would prefer a full conference with an agent to a tedious and possibly unsatisfactory correspondence.

I have the honor to be,

Yours truly,

(Signed,) A. MACKENZIE.

Hon. Geo. A. Walkem,
Attorney-General, Victoria.

(Copy.)

February 21st, 1874.

SIR,—The bearer is James D. Edgar, Esq., Barrister, Toronto, who visits Columbia as the Agent of the Dominion Government, to consult with your Government with reference to the late agitation concerning an extension of time for the construction of the Pacific Railway beyond that promised in the terms of Union.

Mr. Edgar will explain to Your Excellency our anxiety to do everything in our power to meet the views of your people.

He will be glad to receive your suggestions concerning matters which may require attention.

I am, Sir, very respectfully,

Your obedient servant,

(Signed,) A. MACKENZIE.

His Excellency
Lieutenant-Governor T. W. Trutch,
Victoria, British Columbia.

(No. 130.)

GOVERNMENT HOUSE,
OTTAWA, May 15th, 1874.

MY LORD,—I have the honor to enclose for your Lordship's information a news-
Globe, 13th and paper report of the speech delivered by Mr. Mackenzie on the 12th
 14 May. instant, when introducing Resolutions for a Bill to provide for the
Globe, 12th May. construction of the Pacific Railroad, together with a summary of this
Globe, 13th May. speech, and an article from the *Globe* newspaper of the 12th instant,
 explanatory of the Government project.

I have, &c.

The Right Honorable

(Signed)

DUFFERIN.

The Earl of Carnarvon,

&c., &c., &c.

(No. 131.)

GOVERNMENT HOUSE,
OTTAWA, May 15th, 1874.

MY LORD,—In continuation of my despatch, No. 130, of this day's date, I have
 May 14. For ar- the honor to enclose an extract from the *Toronto Mail*, an opposition
 ticle see Scrap paper, criticising the scheme of the Government.
 Book. Page 40.

I have, &c.

The Earl of Carnarvon.

(Signed)

DUFFERIN.

(Copy—Canada—No. 110.)

DOWNING STREET, 18th June, 1874.

MY LORD,—The intimation which I have received by telegraph of the departure
 from British Columbia of the President of the Council and Attorney-General of that
 Province, sent to this country for the purpose of appealing against the course pro-
 posed by your Government, and sanctioned by the Dominion Parliament, in regard to
 the Pacific Railway, together with the reports of the proceedings in that Parliament,
 and other informal communications, have led me to apprehend that the difference of
 opinion which has unfortunately occurred, may not only prove difficult to adjust, but
 may not be impossible, if it remains long unsettled, give rise to feelings of dissatisfaction
 and to disagreements, the existence of which within the Dominion would be a matter
 for serious regret.

2. It is not my wish, nor is it a part of my ordinary duty to interfere in these
 questions. They appear to me to be such as it should be within the province and com-
 petency of the Dominion Government and Legislature to bring to a satisfactory solu-
 tion, and you will readily understand that Her Majesty's Government would be very
 reluctant to take any action which might be construed as expressing a doubt of the
 anxiety of the Dominion Government and Parliament to give the fullest consideration
 to such representation as may be made on the part of British Columbia, and to deal in
 the fairest and most liberal spirit with what may be established as being the just
 claims of that Province.

3. At the same time, I am strongly impressed with the importance of neglecting
 no means that can properly be adopted for effecting the speedy and amicable settle-
 ment of a question which cannot without risk and obvious disadvantage to all parties
 remain the subject of prolonged and it may be, acrimonious discussion, and it has
 occurred to me that as in the original terms and conditions of the admission of British
 Columbia into the Union, certain points (as for example the amount of land to be
 appropriated for the Indians, and the pensions to be assigned to public officers deprived
 of employment) were reserved for the decision of the Secretary of State, so in the
 present case it may possibly be acceptable to both parties that I would tender my
 good offices in determining the new points which have presented themselves for
 settlement. I accordingly addressed a telegram to you yesterday to the effect that
 I greatly regretted that a difference should exist between the Dominion and the
 Province in regard to the railway, and that if both Governments should unite in

desiring to refer to my arbitration all matters in controversy, bidding themselves to accept such decision as I may think fair and just, I would not decline to undertake this service.

4. The duty which, under a sense of the importance of the interests concerned, I have thus offered to discharge is, of course, a responsible and difficult one, which I could not assume unless by the desire of both parties, nor unless it should be fully agreed that my decision, whatever it may be, shall be accepted without any question or demur. If it is desired that I should act in this matter, it will be convenient for each party to prepare a statement, to be communicated to the other party, and after a reasonable interval a counter statement; and that on these written documents I should, reserving of course to myself the power of calling for any other information to guide me in arriving at my conclusion, give my final decision.

5. I request you to transmit a copy of this despatch, with the utmost possible speed, to the Lieutenant-Governor of British Columbia. I have communicated to Mr. Sproat, the agent for British Columbia, for transmission by telegraph to the Government of that Province, the purport of the telegram which I addressed to you yesterday, in order that my offer may come before both parties as soon as possible.

I have, &c.

(Signed,) CARNARVON.

Governor General

The Right Honorable

The Earl of Dufferin, K.P., K.C.B.,

&c., &c., &c.

(Copy.)

From Earl of Carnarvon to Governor General.

Received in OTTAWA, 18th January, 1874.

I regret extremely the difficulty between Dominion of Canada and British Columbia as to terms of Union in connection with Pacific Railway. Her Majesty's Government are willing to give their good offices in adjusting the matter. If both parties unite in referring all matters of difference to my arbitration, binding themselves to abide by such award as I may deem just and fair, I will not refuse to undertake the duty.

(No. 182.)

QUEBEC, 9th July, 1874.

MY LORD,—I have the honor to acknowledge the receipt of your Lordship's despatch, No. 110, of the 18th of June, in which you refer to a misunderstanding that has occurred between the Dominion Government and that of British Columbia, and in which you have made so considerably a suggestion in regard to the settlement of the dispute.

In accordance with your instructions, I have forwarded a copy of the despatch to the Lieutenant-Governor of British Columbia, and I have also communicated it to my Government.

There has not yet been time for them to acquaint me with their view in regard to the extremely considerate and friendly suggestions your Lordship is good enough to convey, but in connection with subject matter to which the despatch under acknowledgment refers, I have the honor to enclose, for your Lordship's information 8th July, 1874. a memorandum of a Committee of Council on the points in dispute between the Dominion Government and the Government of British

Columbia, together with a report by Mr. Edgar of his mission to that Province, accompanied by copies of his correspondence with Mr. Walkem, the Attorney-General of British Columbia.

The Earl of Carnarvon.

I have, &c.,
(Signed,) DUFFERIN.

To the Honorable the Secretary of State for Canada:

TORONTO, June 17th, 1874.

SIR,—I have the honor to report that in the month of February last, I was requested by the Canadian Government to proceed to the Province of British Columbia on their behalf. My mission was for the purpose of ascertaining the true state of feeling in the Province upon the subject of certain changes which were deemed necessary, in the mode and in the limit of time for the construction of the Canadian Pacific Railway, as well as to attend to any other business required, and to act as Canadian agent in bringing about some such feasible arrangement as might meet the general approval of the Local Government and the people of British Columbia, in place of the original conditions respecting the commencement and completion of the railway that are contained in the Eleventh Article of the terms of Union. In that clause the language referring to railway construction, is as follows:—

“The Government of the Dominion undertake to secure the commencement “simultaneously, within two years from the date of Union, of the construction of a “railway from the Pacific towards the Rocky Mountains, and from such point as may “be selected east of the Rocky Mountains towards the Pacific, to connect the seaboard “of British Columbia with the railway system of Canada; and further to secure the “completion of such railway within ten years from the date of the Union.”

The views and policy of his Government upon the question of the Canadian Pacific Railway were communicated to me in several interviews by the Hon. Mr. Mackenzie, and I also had the benefit of conversations upon the same subject with many members of the administration before I left Ottawa. On the eve of my departure, I received from Hon. Mr. Mackenzie certain further instructions and directions for my guidance which were contained in the following letter:—

OTTAWA, Feb. 19th, 1874.

MY DEAR SIR,—In your conversations with leading men in and out of the Government in Columbia, it will be well to let them understand that in proposing to take longer time than is provided for constructing the railway we are actuated solely by an urgent necessity; that we are as anxious as possible to reach the object sought by all, viz: the construction of the road.

We are, however, advised by our Engineers that it is a physical impossibility to construct the road in that time—that is within the time provided by the terms of Union, and that my attempt to do so can only result in very great useless expense and financial disorder. You can point out that the surveys for the Intercolonial Railway were begun in 1864, and the work carried on uninterruptedly ever since, and although the utmost expedition was used, it will still require eighteen months to complete it.

If it required so much time in a settled country to build 500 miles of railway, with facilities every where for procuring all supplies, one may conceive the time and labour required to construct a line five times that length through a country all but totally unsettled.

You will point out that it is because we desire to act in good faith towards Columbia that we at once avow our inability to carry out the exact conditions of the terms of Union, that it would have been an easy matter for us to say nothing about,

or carelessly to have assumed the task of finishing the road before the month of July, 1881.

Acting, however, from a desire to deal frankly and honestly with British Columbia, we considered what we could do to afford at the earliest possible date some means of travel across the continent preliminary to, and in advance of a complete line of railway.

You will point out that, as part of the Dominion, it is as much in their interests as in ours to pursue a careful judicious policy, also that in assuming a disposition, in spite of all reason, to insist on impossibilities, they are only setting at defiance all the rest of the Dominion and the laws of nature. That by insisting on "*the pound of flesh*" they will only stimulate a feeling on the part of people generally to avoid in future giving anything but "*the pound of flesh*."

You will remember that the Dominion is bound to reach the "*seaboard of the Pacific*" only, not Victoria or Esquimault, and you will convey an intimation to them that any further extension beyond the waters of Bute Inlet, or whatever other portion of the sea waters may be reached, may depend entirely on the spirit shown by themselves in assenting to a reasonable extension of time, or a modification of the terms originally agreed to.

You will also put them in remembrance of the terms they themselves proposed, which terms were assented to by their Local Legislature, and point out that it was only the insane act of the administration here, which gave such condition of Union to Columbia; that it could only have been because that administration sought additional means of procuring extension of patronage immediately before the general election, and saw in coming contracts the means of carrying the elections, that the Province obtained on paper terms, which at the time, were known to be impossible of fulfilment.

If you find any favorable disposition among the leading men of the Province towards affording a generous consideration to the obvious necessity of giving a sufficient time for the pushing the road through Columbia, you will endeavour to ascertain what value they attach to such consideration. You will point out that the action of this Government in the matter of the graving dock, and the agreement to advance in cash the balance of the amount of debt, with which Columbia was allowed to enter the Confederation, shewed that it was not considering itself bound to the exact terms of Union, but was willing to go beyond them when the necessities of the Province seemed to demand such action, and that we not unnaturally expect similar action on the part of the Province.

In the event of your finding that there is a willingness to accept a proposition to extend the time for the building of the road, you will endeavour to obtain some proposition from them, directly or indirectly, and communicate this to us by cypher telegraph at once.

If on the other hand they make or indicate no proposition, you will telegraph to us what you think would be acceptable, but wait a reply before making any proposition.

In the event of the leading men evincing a disposition to negotiate, you will endeavour to secure something like a combination of parties to sanction any proposition likely to be generally acceptable.

It will be well that you should take some means of ascertaining the popular view of the railway question. This may be done by mingling among the people, and allowing them to speak freely while you listen; remembering in taking impressions that your audience may be impressed by special local considerations rather than general questions.

It will be well not to confine yourself to the vicinity of the Government offices, or Victoria, but to cross to the main land, and visit the people at Westminster, and other towns and villages on the lower reaches of the Frazer. It may be that you will find there a disposition manifested to negotiate at Ottawa, in which case you will advise us of the existence of such a desire. You will take special care not to admit in any way that we are bound to build the railway to Esquimault, or to any other

place on the Island, and while you do not at all threaten not to build there, to let them understand that this is wholly and purely a concession, and that its construction must be contingent on a reasonable course being pursued regarding other parts of the scheme.

It may be that the Local Government may desire to constitute the members for the Commons a deputation to discuss matters here; if this be the case, you will still remain until we shall communicate with you.

You will take every opportunity of noting the various matters connected with the Dominion business in accordance with instructions that will be sent.

I am, my dear Sir,

Yours faithfully,

(Signed,)

A. MACKENZIE.

J. D. Edgar, Esq.,
Toronto.

When I received the above letter I lost no time, and starting upon my journey and leaving Toronto, February 23rd, I arrived upon March 9th at Victoria, the capital of British Columbia. On the day that I landed in Victoria, the Hon. Mr. Walkem, leader of the Local Government, called upon me, and I made him aware of the object of my mission. Upon the same day I handed him Hon. Mr. Mackenzie's letter of 16th February (Appendix A), also informing him that I had letters from His Excellency the Governor-General to his Honor the Lieutenant-Governor, which were next day delivered. Very soon afterwards Mr. Walkem introduced me to his colleagues as the representative of the Canadian Government.

Upon my arrival in the Province, I found that an intense interest was manifested by all the population in whatever related to the question of railway construction. It is difficult at a distance to conceive the importance that is attached to the railway by the British Columbians. On account of the vast construction expenditure, and the sparseness of the population who would participate in the immediate benefits derivable from it, an interest of a direct and personal character is felt upon this subject. The entire white population of the Province, according to the census of 1870, was 8,576 souls. Of this number there were upon the mainland 3,401, and upon Vancouver Island, 5,175. The white population to-day has probably increased to 10,000. With the exception, perhaps, of the gold mines, who are confined to the main land, there is no class in the Province that would not derive immediate personal advantages from the railway construction expenditure. Those in business, in trade, and in agriculture would feel the stimulus instantly; while those of means and leisure would be enriched by the increase in the value of their property. The circumstances of the early settlement of the Province gave it a population of peculiar intelligence; and the fact that most of the rougher kind of labor is performed by Chinamen and Indians, has afforded in an especial way to the people of Victoria, the Provincial Metropolis, leisure and opportunity for the fullest discussion of their great question of the day. Their keen intelligence and zeal in public affairs suggests a parallel in the history of some of the minor States of ancient Greece or Italy. Although a strong feeling of jealousy of the greatness of Victoria undoubtedly exists in parts of the main land, yet that town is the chief centre of public opinion. Its population is almost equal to the whole of the rest of the Province, and in its midst are the head-quarters of Government, of the courts, of the churches, and of trade. Within three miles there is the fine harbor of Esquimaux, with its arsenal and British ships of war.

To Victoria the question of the location of the railway terminus is all important, because there is nothing in the terms of Union which settles that there shall be any portion of the line upon Vancouver Island, a revocable Order in Council, and the intrinsic merits claimed for the Island location, are the grounds upon which they hoped to secure the terminus at Esquimaux. When it became well understood that the surveys were not yet so far advanced as to warrant the Canadian Government in fixing the permanent route and Western terminus of the railway, it was strongly urged upon me by many persons in Victoria that the construction of the line of railway should be at once undertaken by the Dominion from the harbor of Esquimaux to

the port of Nanaimo, on the east coast of Vancouver Island, a distance of about seventy miles. It was argued that at whatever point upon the mainland the Pacific Railway might be brought to the coast, a steam ferry thence to Nanaimo might be established, and would render their portion of railway a means of connection with Esquimaux, which is said to be the finest harbor upon the shores of the Northern Pacific. It was also insisted that from its opening there would be a considerable and profitable traffic over this line in the carriage of coal to Esquimaux for the mines at Nanaimo and Departure Bay.

Moreover, it was contended that in view of the admitted impossibility to complete the construction of the trans-continental railway within the time originally limited, some substantial concessions should be made to the people of the Island, as compensation for their disappointment and prospective losses.

A contention similar to the last mentioned one was also pressed upon me warmly by leading men of the mainland, who considered that they were now entitled to have some definite understanding arrived at, not so much in regard to the ultimate completion, as to the early, vigorous, and continuous construction of the railway upon the mainland. It was represented that those engaged in agriculture and stock raising in the interior parts of the country were almost without a market for their produce, partly because the gold miners were leaving in considerable numbers, and partly for the reason that in anticipation of railway construction they had raised more crops than usual. The great distance to the coast, and the stupendous mountain ranges to be traversed, prevented them from getting the bulky products of their land to the Island markets of Victoria or Nanaimo. Being familiar with the difficulties to be met with by engineers in seeking for a railway route through their country, the mainland people were not disposed to blame the Dominion for insisting upon further time and surveys before fixing the location. Their immediate necessities also induced them to attach more importance to the securing of an early and steady expenditure amongst themselves than to the maintaining of any arbitrary time limit for completion, while they also expressed their perfect appreciation of the agreement that a vigorous expenditure of itself involves an accomplishment of the work within a reasonable period.

In the Provincial Constitution of British Columbia the working of representative institutions, and responsible parliamentary government may be studied in a simple form. The system is elaborated out of, perhaps, slender materials, but has been courageously fashioned after the model of the British Constitution. The people are represented by a House of twenty-five members, of whom thirteen are elected from the mainland, and twelve from the Island. In this House sit the Ministers of the Crown, four in number, two being Island members and two from the mainland. The deliberations are presided over by a Speaker, and due respect for the dignity of the Assembly is maintained by a Sergeant-at-Arms.

Although I had not the fortune to be in the country when the House was in session, I was able to discover among the gentlemen who hold seats, a considerable number of much experience, and somewhat above the average intelligence of Provincial legislators. To those accustomed to older Canadian constituencies, each with populations varying usually from fifteen to thirty thousand souls, it is somewhat novel to see the smallness of electoral districts in British Columbia. Yet it would be quite unfair to fix the number of electors as the standard of the intelligence of the representative, for one of the ablest of the Provincial Ministers, after an exciting contest at the last election, succeeded in polling but sixteen votes in his constituency, whilst his opponent suffered a decisive defeat, having polled exactly half that number.

The Session of the Provincial Legislature had terminated on the 2nd March, a week before my arrival, and the House had unanimously agreed to a resolution upon the subject of the eleventh, or railway clause, in the terms of Union with the Dominion, which was calculated to have an important bearing upon all negotiations with the Local Government for a change in that clause. The language of the resolution is as follows:—"That in view of the importance of the Railway Clause of the terms of Union between Canada and British Columbia being faithfully carried out by

"Canada, this House is of opinion that no alteration in the said clause should be permitted by the Government of this Province *until the same has been submitted to the people for endorsement.*" When I ascertained that this resolution had been passed, that the Provincial Parliament had yet more than a year to run and that the Ministry had in it a sufficient working majority, it at once became apparent that any proposals to alter the railway clause could possess few attractions in the eyes of the party in power. While prepared to admit that the Province would be most reasonable, and would not be disposed to insist at all upon the original time limit for completion, yet members of the Administration, looking at it from their own point of view, very naturally urged that this was a peculiarly unfortunate time to seek any alterations. I also discovered that the first Act of the Provincial Statute Book of 1873-4 contained elements of danger to the continued harmony between the General and Local Governments. This Act became necessary to authorize the Provincial to receive from the Dominion Government the large sums of money, both for the Esquimaux graving dock, and for other public works, which the Local Government petitioned the Dominion Government to advance, and which requests the latter complied with as concessions to the Province in excess of what could be claimed under Articles two and twelve of the terms of Union. A saving clause or proviso was inserted in this Act containing very strong language concerning the rights and wrongs of British Columbia as regards the railway, and adding:—"This Act shall not have any force or effect unless the above proviso be inserted, in the same words, in any Act of Parliament of Canada which may be passed for the purposes of this Act."

A profound anxiety at once manifested by Mr. Walkem and his colleagues to ascertain through me if the Canadian Ministry would propose to Parliament to adopt the words of this proviso. When I sought to get from them some proposals or suggestions as to their terms of the concessions that should be made to British Columbia, in consideration of a change in the railway terms, I was continually met by an urgent inquiry as to what was to be done about that clause. As early as the 16th of March, I was informed by telegram that the Dominion Government would not adopt the language of the proviso in their bill, but would make the concessions as originally agreed, and without conditions affecting the railway terms. The announcement of this was received by the Local Ministers with alarm and disappointment, and it afterwards became still more difficult to get a satisfactory discussion of an alteration of railway terms with any of them. Orders in Council were passed by the Local Government upon the subject, and I was continually urged to press upon the Dominion Government the anxiety of the Provincial Ministry for the adoption of the saving clause, and I took many opportunities of doing so. This pressure continued without intermission until the 25th of April, when, at the request of Mr. Walkem, I sent a despatch to Mr. Mackenzie on behalf of the former, and in his own language urging the adoption of the saving clause.

When, according to instructions, I endeavored to ascertain from Local Ministers if their unwillingness to submit proposals as to railway to the people arose entirely from our refusal to adopt the saving clause, I found that even such a concession would not induce them to bring about an appeal to the people.

According to instructions received, it was my aim from the very first to take every means of ascertaining the popular view of the railway question. Indeed when it was understood that the Canadian Government had delegated me upon this and general matters, the politeness and hospitable attentions of all classes soon rendered it an easy matter to form some estimate of public opinion. All were as willing to communicate as I was anxious to receive their various views and information. I paid two brief visits to the mainland, meeting with people of New Westminster, Hope, Yale, and some few other places, and I was so fortunate as to meet, at one time or another, nearly all the members of the Local Legislature, and many other persons of local prominence from the mainland.

The Lieutenant-Governor and the Hon. Captain Hare, Senior Naval Officer at Esquimaux, kindly afforded me an opportunity of visiting the east coast of the island, in company with them, on board H.M.S. *Myrmidon*.

In discussing the question of the time for the completion of the railway, I elicited a very general expression of opinion that there was no great importance attached to any particular period for completion, but that serious disappointment had been felt at the failure to commence the work of actual construction by July of last year. Much anxiety was felt for an announcement of the policy of Canada upon the subject of the railway, and an extreme desire prevailed to have definite understanding arrived at as to what the Province could expect in place of the original railway terms, which were all but universally admitted to be incapable of literal fulfilment.

The public agitation in Victoria, of February last, might have been mistaken for a movement to insist upon, "The terms, the whole terms, and nothing but the terms," or to seek some disloyal alternative. Indeed a portion of the community, who did not sympathize with the excitement, so interpreted it. Yet I was assured by the leaders of that agitation that no such motives or intentions influenced them. The people had been aroused, by what were deemed suspicious circumstances, to fear that efforts would be made, or were being made, to secure from the Local Government an agreement to change the railway terms without a submission to the people who had directly sanctioned the original terms. The local contradictions had scarcely been accepted as satisfactory upon this point, but my denial of it on the part of the Ottawa Government, coupled with the announcement that the latter would not seek to secure any alteration without the sanction of the people of the Province, set that difficult very much at rest.

Notwithstanding the attitude that was assumed by the Provincial Government against the submission of a proposal, or the opening of negotiations to alter the railway terms, it was quite apparent that popular feeling, all over the Province, was strongly in favor of some definite settlement being arrived at upon the question. The notorious and admitted failure of the original scheme of railway construction had unsettled the business of the country, and the whole community, including even those who would have been the most exacting in bargaining with Canada for new terms, were anxious to have a proposal made and to have a full opportunity for discussing and accepting or rejecting it.

I felt, therefore, that I should take an early opportunity of arriving at the views of the Local Government upon the subject. I was given an appointment by Mr. Walkem in the first week of April, and then confidentially discussed with his Ministry the whole question of alteration in the railway terms. I may mention that upon this occasion no difficulty was raised as to my authority to represent the General Government.

At this time there was considerable irritation displayed by Ministers upon the subject at the saving clause before alluded to; they would not admit any necessity for a present settlement of the railway question, but still persisted that next year, or some future time, should be awaited for the making of any such propositions; and they were particularly careful to avoid saying what concessions in their opinion would be acceptable to the Province in lieu of the original terms. The attitude of the Local Ministry rendered it more important than ever that the popular feeling should be accurately ascertained, and it was my aim to discover it by unreserved discussion with as many men as possible of the different parties and localities.

It was now quite apparent that the Local Ministers were determined to be obstructive, and it became all the more necessary to satisfy the people in so far as their views were found to be reasonable. After receiving from me the best information I could supply, Hon. Mr. Mackenzie directed me to make the Provincial Government certain proposals which were so arranged as to give large and certain advantages to the mainland equally with the Island; and on the 6th May, I was instructed to put them formally in writing and give them to the Local Premier and a copy to the Lieutenant-Governor. Upon the 8th May I had prepared, and I read over to Mr. Walkem, the letter of that date containing the proposals (Appendix B) and upon the following day I handed it to him, and furnished a copy to His Honor the Lieutenant-Governor as directed, accompanied with a short note.

(Appendix C). I had made arrangements for another visit to the mainland to ascertain something more of the feeling there, while the Provincial Government were having the proposals under consideration. Before sailing for New Westminster, however, I received the letter from Mr. Walkem (Appendix D) in which he raised objections to recognizing me as the agent of the General Government. It struck me as so peculiar a communication on Mr. Walkem's part, after he and his colleagues had recognised me as such agent almost every day for two months, that I felt it would be better not to be too hasty in accepting that as a serious and final reply to the proposals, but to await the lapse of a few days to be occupied by me in visiting New Westminster, Burrard's Inlet, Yale and some other places on the mainland. Upon returning to Victoria on Saturday, 16th May, I was waited upon by a deputation of leading gentlemen, connected with both sides of local politics, who informed me that it had been announced in the House of Commons at Ottawa, by Hon. Mr. Mackenzie, that proposals had been made on behalf of his Ministry, through myself, to the Provincial Government as to the alteration of the railway terms; and yet that it was denied by members of the Local Ministry, and by their newspaper organ, that any proposals whatever had been made. They represented that the popular feeling was very much excited upon the subject, and that the people were anxious to have the earliest opportunity of considering and deciding upon the question, and I was asked to inform them whether such proposals had been made. Upon receiving an affirmative reply they took their leave, and shortly afterwards, as the intelligence spread, considerable excitement was manifested at the treatment the proposals were receiving at the hands of Local Ministers.

In order to afford Mr. Walkem another opportunity to reply to the proposals, or to consider them, if he were at all desirous of doing so, I again addressed him, and in a letter of 18th May, (Appendix E) endeavoured to point out that he could not ignore the communication of 8th May, and reiterated the request on behalf of the Government of Canada, that the proposals should receive the consideration to which they were entitled. In reply to this I received the letter, (Appendix F) and upon the 19th May, under directions from Hon. Mr. Mackenzie, I left Victoria upon my return journey without any further official communication with the Local Ministry.

I may be permitted to mention that His Honor the Lieutenant-Governor, throughout the whole of my visit, was always most obliging in giving me upon all public questions very full information, which his large experience in the Province rendered of the highest value. He also manifested an earnest wish to see a definite and amicable settlement of the railway question speedily arrived at between the General and Provincial Governments.

In accordance with the direction contained in the last paragraph of Hon. Mr. Mackenzie's letter to me of the 19th February, I took every opportunity during my stay in British Columbia, of noting various matters connected with Dominion busi-

ness and interests. In several despatches to Heads of Departments, as well as in verbal communications with Ministers, I have already called attention to some important subjects of that kind, and I propose to have the honor of communicating ⁱⁿ separate reports or despatches upon several other points of interest and importance connected with Dominion affairs in the Pacific Province.

I have the honor to be, Sir,

Your obedient servant,

(Signed,) J. D. EDGAR.

APPENDIX A.

OTTAWA, February 16th, 1874.

DEAR SIR,—Allow me to introduce Mr. James D. Edgar, of Toronto, who visits your Province on public business for the Government. Mr. Edgar will confer with yourself and other members of the Government of Columbia on the questions lately

agitating the public mind in Columbia, and will be glad to receive your views regarding the policy of the Government on the construction of the railway.

But for the meeting of Parliament in four weeks, some member of the Government would have visited your Province, but Mr. Edgar as a public man is well known here, and fully understands the questions he will discuss with you.

I need not, I am sure, assure you of my sincere desire to do all I can to not only act justly but generously to Columbia.

It is in your interest and in the interest of the Dominion that we should both act with a reasonable appreciation of difficulties which are unavoidable, and devise means to remove them or overcome them.

We have induced Mr. Edgar to go to Columbia as we thought you would prefer a full conference with an Agent to a tedious and possibly unsatisfactory correspondence.

I have the honor to be, yours truly,

(Signed,) A. MACKENZIE.

Hon. G. A. Walkem,
Attorney-General, Victoria,
British Columbia.

APPENDIX B.

VICTORIA, B. C., May 8, 1874.

SIR,—I have the honor to inform you that I have been instructed by the Premier of Canada to make you aware of the views of his administration upon the subject of the construction of the Canadian Pacific Railway, in order that British Columbia may have full opportunity of considering and deciding upon a question so closely affecting her material interests. The scheme originally adopted for the carrying out of this work, has, for a variety of reasons, proved unsuccessful, and to devise a plan for a more certain accomplishment has been the aim of the Dominion Cabinet. The chief difficulty to be encountered in attempting to carry out the existing system of construction is to be found in the stipulation as to completion of the railway by the month of July, 1881. In proposing to take a longer time for constructing the railway, the Canadian Government are actuated solely by an urgent necessity. They are advised by their engineers that the physical difficulties are so much greater than was expected that it is an impossibility to construct the railway within the time limited by the terms of Union, and that any attempt to do so can only result in wasteful expenditure and financial embarrassment. It is because they desire to act in good faith towards British Columbia that the Canadian Ministry at once avow the difficulty of carrying out the exact terms of Union, whilst they have no desire to avoid the full responsibility of Canada to complete the railway by all means in her power and at the earliest practicable date.

The eleventh Article of the terms of Union, embodies the bold proposition that the railway should be commenced in two and completed in ten years from the date of Union, to connect the seaboard of British Columbia with the railway system of Canada. Feeling the impossibility of complying with this time limit for completion, the Government is prepared to make new stipulations and to enter into additional obligations of a definite character, for the benefit of the Province. They propose to commence construction from Esquimaux to Nanaimo immediately, and to push that portion of railway on to completion with the utmost vigor and in the shortest practicable time.

The engineering difficulties on the mainland have unfortunately turned out to be so serious that further surveys must necessarily be made before the best route can be determined upon. The Government have already asked Parliament for a large sum for the purpose of carrying on these surveys, and no expenditure will be spared to achieve the most speedy and reliable selection of a permanent location of the line upon

the mainland. It is useless to propose an actual construction being undertaken before the location has been determined upon; but in order to afford as much benefit from the works of construction from the very first, as can possibly be derived by the people of the interior, the Government would immediately open up a road, and build a telegraph line along the whole length of the railway in the Province, and carry telegraph wire across the continent. It is believed that the mere commencement to build a railway at the seaboard, as stipulated for in the existing terms, would give but little satisfaction to the producers living upon the east side of the Cascade Mountains, who would be unable without a road being first constructed, to find a market all along the whole extent of the railway, wherever construction was progressing. It would then be the aim of the Government to strain every nerve to push forward the construction of the railway; and they would endeavor at the same time so to arrange the expenditure that the legitimate advantages derivable from it, would, as much as possible, fall into the hands of our own producers. In addition to constructing the road to facilitate transport along the located line, they are anxious to avail themselves of the large supplies of all kinds of provisions now existing, or capable of being produced, in the interior, and would proceed from the very first with all the works of construction in that portion of the country that their energy could sanction.

It is to be observed that while the terms of union contemplated the completion of the whole railway within a certain number of years, they made no provisions of any certainty of expenditure in any particular time, or in any particular portion of the line. To predicate the highest expenditure, which in any one year might be warranted in a particular portion of a great work like this, is certainly difficult; and it is still more difficult to arrive at the lowest fixed annual sum, which in every year and under all circumstances might be judiciously expended as a minimum in local construction. To a country like British Columbia, it is conceded, however, to be an important point that not only the prompt and vigorous commencement, but also the continuous prosecution of the work of construction within the limits of the Province should be guaranteed. In order therefore to secure an absolute certainty in this direction, and although the length of line within the Province is estimated at only about one-fifth of the whole length, the Dominion Government are disposed to concede to British Columbia that the moment the surveys and road on the mainland can be completed, there shall be in each and every year, and even under the most unfavorable circumstances, during the construction of the railway, a minimum expenditure upon works of construction within the Province, of at least one million and five hundred thousand dollars. That this will secure the continuous progress of the works in the Province, without any intermission is quite apparent, and it must also be perfectly clear that so large an annual sum could not be expended by any Dominion administration in a remote district without holding out to the country some early prospect of a return for it, and at the same time showing that they were proceeding with the works with sufficient rapidity to bring the investment into an early condition to earn something. In reference to this point, I may be permitted to refer to the fact that the delegates from British Columbia, who negotiated the terms of Union were instructed by the Provincial Legislature to accept an undertaking from Canada, to build the railway with a guaranteed annual expenditure in the Province upon construction, of one million of dollars, to begin at the end of three years after union. We must assume that this guarantee of continuous construction was only abandoned by the delegates upon a conviction of both the sincerity and the feasibility of the offer of early completion that was made to them. I trust that the proposals of the Dominion Cabinet, which I have sketched above, will be considered and accepted by British Columbia, as an earnest effort on the part of the former to carry out the spirit of the obligations to the Province.

The leader of the Canadian Government has instructed me to place these matters before you, as leader of the Provincial Administration, and at the same time to furnish a copy to His Excellency the Lieutenant-Governor. The substance of these proposals has been sent to me by telegraphic cypher, and based upon that, I have the honor of communicating them to you. The Dominion Government would be glad to have the

consideration this proposal entertained by your Administration and to learn the conclusion of the Government of British Columbia upon the subject.

I have the honor to be, Sir,

Your obedient servant,

(Signed,)

J. D. EDGAR.

Hon. George A. Walkem, M.P.P.,
Attorney-General.

APPENDIX C.

VICTORIA, B. C., May 9th 1874.

SIR,—I have the honor to inform Your Excellency that in accordance with instructions from Hon. Alexander Mackenzie, leader of the Canadian Government, I have submitted to the Hon. G. A. Walkem, leader of your Ministry, the views of the former upon the question of the Canada Pacific Railway, with a view to the relaxation of the terms of Union so far as regards the time limited for the completion of the railway. I was at the same time instructed to furnish for Your Excellency's information a copy, which I now have the honor to enclose, of the communication addressed by me to your Minister upon that subject.

I have the honor to be,

Your Excellency's obedient servant,

(Signed,)

J. D. EDGAR.

His Excellency

The Hon. Joseph W. Trutch,
Lieutenant-Governor of British Columbia.

APPENDIX D.

ATTORNEY-GENERAL'S DEPARTMENT,

VICTORIA, May 11th, 1874.

SIR,—I have the honor to acknowledge the receipt on Saturday, the 9th instant, of your letter of the previous day's date.

In reply to your request that I should submit your proposals for a change in the railway clause of the terms of Union to the Local Administration for their consideration and acceptance, I have the honor to inform you that I am not in a position to advise His Excellency the Lieutenant-Governor in Council to treat such proposals officially, nor can I tender such advice until I shall have been informed that you have been specially accredited to act in this matter as the agent of the General Government, and that they will consider your acts or negotiations in the matter binding upon them.

I have the honor to be, &c.,

(Signed,)

G. A. WALKEM,

Attorney-General.

James D. Edgar, Esq.,
Victoria.

APPENDIX E.

VICTORIA, May 18th, 1874.

SIR,—I have the honor to acknowledge having received your letter of the 11th inst., just before leaving for the mainland. I am sure you cannot have forgotten that letters from the highest dignitaries at Ottawa, which have been long ago delivered by

me both to His Excellency the Lieutenant-Governor and to yourself, have informed you that I came to this Province on behalf of the Dominion Government, and possessing their entire confidence. In my communication of the 8th inst., I stated most distinctly that I was making the proposals contained in it by the instructions and on behalf of the Canadian Ministry. You have, however, done me the honor of assuming that my statement was incorrect, and that I am acting without authority or instructions. I can afford to pass over without notice the personal insinuations, but I must most strongly protest against such extraordinary treatment of a document which emanates from the Government of Canada, upon a subject of such deep and pressing moment to British Columbia. I have therefore the honor to request that the proposals of the Dominion Government may receive the consideration at the hands of the Provincial Administration to which such communications are entitled, and which the extreme importance of the subject demands.

I have the honor to be,

Your obedient servant,

(Signed,)

J. D. EDGAR.

Hon. George A. Walkem,
Attorney-General, &c.

APPENDIX F.

VICTORIA, May 18th, 1874.

SIR,—In reply to your letter of this date, I must express my surprise and regret that you should have taken umbrage at the contents of my letter of the 11th inst. Mr. Mackenzie is an official, and his only letter to me respecting your visit, has expressly narrowed and confined the object of your mission to the holding of a personal interview with my colleagues and myself in order that our "views regarding the policy of the Government on the construction of the railway should be ascertained without tedious and possibly unsatisfactory correspondence"—I quote his words. These things having been done, the special aim desired, I may be permitted to think, has been attained by Mr. Mackenzie.

When, however, you proceed further and propose changes to this Government of the gravest importance to the Province, I must be pardoned for considering it my duty in my public capacity to ask for your official authority for appearing in the role of an agent contracting for the Dominion of Canada. This information I have not yet received.

I have the honor to be,

Your obedient servant,

(Signed,)

GEO. A. WALKEM.

J. D. Edgar, Esq.

Copy of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council, on 8th July, 1874.

The Committee of Council, after due deliberation, consider that the proposed mission of Mr. Walkem, Attorney-General of British Columbia, to England on behalf of the Government of that Province, to complain to the Imperial Government of the non-fulfilment by the Dominion Government of the terms of Union, and the telegraphic message of the Right Honorable the Secretary of State for the Colonies with reference to the said mission, in which he offers his good offices in arriving at some understanding between British Columbia and the Dominion, render it desirable that a brief statement should be submitted showing the position of the question, and the action taken by the present Government of Canada in relation thereto.

The Order in Council under which British Columbia was admitted into the Union provided in the 11th Section that:

"The Government of the Dominion undertake to secure the commencement

"simultaneously, within two years from the date of the Union, of the construction of a railway from the Pacific towards the Rocky Mountains, and from such point as may be selected east of the Rocky Mountains towards the Pacific, to connect the sea-board of British Columbia with the railway system of Canada; and further to secure the completion of such railway within ten years from the date of the Union."

The passage of such a provision was very strongly opposed in Parliament, the Government of the day securing only a majority of ten in support of the measure. In order to induce even this majority to sustain them, the following resolution was proposed and carried by the Government:

"That the railway referred to in the address to Her Majesty concerning the Union of British Columbia with Canada, adopted by this House on Saturday, the 1st April instant, should be constructed and worked by private enterprise, and not by the Dominion Government, and that the public aid to be given to secure that undertaking should consist of such liberal grants of land, and such subsidy in money or other aid *not increasing the present rate of taxation*, as the Parliament of Canada shall hereafter determine."

The late Government were compelled by their followers in the House to adopt this resolution regarding the taxation consequent on the obligation to build the railway as the condition of obtaining their support. Even with this qualifying resolution promised the section respecting the railway was carried but by a majority of ten, the usual majority being from fifty to seventy.

It is impossible to conceive how such terms could even have been proposed, as it was quite clear to every person that they were incapable of fulfilment, especially as the British Columbia Legislature never asked such extravagant terms. The clause of the terms adopted by that body having reference to the railway was as follows:—

"Inasmuch as no real union can subsist between this colony and Canada without the speedy establishment of communication across the Rocky Mountains by coach road and railway, the Dominion shall within three years from the date of Union construct and open for traffic such coach road from some point on the line of the Main Trunk Road of this colony to Fort Garry, of similar character to the said Main Trunk Road; and shall further engage to use all means in her power to complete such railway communication at the earliest practicable date, and that surveys to determine the proper line for such railway shall be at once commenced; and that a sum not less than one million dollars shall be expended in every year from and after three years from the date of Union in actually constructing the initial sections of such railway from the seaboard of British Columbia to connect with the railway system of Canada."

Mr. Trutch, the delegate of the British Columbia Government, present in Ottawa during the discussions on the terms of Union, expressed himself as follows at a public meeting, in order to reassure those who were apprehensive of the conveyances of so rash an assumption of such serious obligations:—

"When he came to Ottawa with his co-delegates last year, they entered into a computation with the Privy Council as to the cost and time it would take to build the line, and they came to the conclusion that it could be built on the terms proposed in ten years. If they had said twelve or eighteen years, that time would have been accepted with equal readiness, as all that was understood was that the line should be built as soon as possible. British Columbia had entered into a partnership with Canada, and they were united to construct certain public works, but before one would protest against anything by which it should be understood that the Government were to borrow one hundred millions of dollars, or to tax the people of Canada and British Columbia to carry out those works within a certain time (loud cheers) he had been accused of having made a very Jewish bargain; but not even Shylock would have demanded his 'pound of flesh' if it had to be cut from his own body. (Laughter and cheers.)"

These expressions show very clearly that the terms agreed to were directory rather than mandatory, and were to be interpreted by circumstances, the essence of the engagement being such diligence as was consistent with moderate expenditure, and no increase in the then rate of taxation.

When the present Government assumed office in November, 1873, the condition of affairs regarding the railway was as follows:—A sum of over a million of dollars had been expended in prosecuting the surveys, over one-half of which was spent in British Columbia, but the engineers had not been able to locate any portion of the line.

A Company, under the Presidency of Sir Hugh Allan, had been formed by the late Government to construct the line. That Company had undertaken to complete the railway for a grant of thirty millions of money and a grant of twenty thousand acres of land per mile, retaining possession of the railway when built as their own property. The President and a delegation of the Directors of this Company visited England to make financial arrangements to enable them to commence the work of construction. Their mission proved a total failure. Their failure was so complete that soon after the return of Sir Hugh Allan and his co-delegates from England, they relinquished their charter, and the Government paid them the sum of one million dollars, which had been deposited with the Receiver-General under the terms of the agreement.

The British Columbia Government had also complained that the commencement of the works of construction had not been made within the time provided. Sir John A. Macdonald, however, giving an informal opinion that the terms as to commencement were sufficiently and substantially kept by the active prosecution of the surveys.

This Government had therefore to provide some other method for the prosecution of the work, to endeavor to keep substantially good faith with British Columbia, to avoid further taxation and, if possible, secure the consent and co-operation of the Government and people of British Columbia.

The new bill, which has since become law, was prepared, which enables the Government (with the approval of Parliament) to get the work executed in one or several contracts, by a company or companies, which may or may not become proprietors of the line after it is constructed.

Mr. James D. Edgar was despatched on a special mission to the Province of British Columbia, charged to confer with the Government, and also to visit all classes or parties, and ascertain their views, and to submit any proposal he might be directed to make to the local authorities or to receive any proposition from them and forward the same to Ottawa for consideration. A copy of the instructions sent to Mr. Edgar, and copies of certain telegrams already forwarded, and Mr. Edgar's report accompanying this minute, explain sufficiently the nature and result of Mr. Edgar's mission. It was at first expected that a good understanding would be arrived at, and judging from circumstances, local political complications alone prevented some arrangement being come to.

The reason alleged for refusing to consider the proposition Mr. Edgar was finally directed to make, that Mr. Edgar was not accredited by this Government, was evidently a mere technical pretence. All that Mr. Edgar had to do was simply to present the proposals and ascertain on the spot whether they would be entertained by the Government.

If satisfactory to them, the Dominion Government would, as a matter of course, have them sanctioned in due form; or if any counter proposition had been made, instructions would be given to Mr. Edgar concerning them.

The propositions made by Mr. Edgar involved an immediate heavy expenditure in British Columbia not contemplated by the terms of Union, namely, the construction of a railway on Vancouver's Island, from the Port of Esquimaux to Nanaimo, as compensation to the most populous part of the Province for the requirement of a longer time for completing the line on the mainland. The proposals also embraced an obligation to construct a road or trail and telegraph line across the continent at once, and an expenditure of not less than a million and a half within the Province annually on the railway works on the mainland, irrespective of the amounts which might be spent east of the Rocky Mountains, being a half more than the entire sum British Columbia demanded in the first instance as the annual expenditure on the whole road.

In order to enable the Government to carry out the proposals, which it was hoped the British Columbia Government would have accepted, the average rate of taxation was raised at the late Session about fifteen per cent. The customs duties being raised from fifteen per cent. to seventeen and a half per cent., and the excise duties on spirits and tobacco a corresponding rate, both involving additional taxation exceeding three millions of dollars on the transactions of the year.

The public feeling of the whole Dominion has been expressed so strongly against the fatal extravagance involved in the terms agreed to by the late Government, that no Government could live that would attempt or rather pretend to attempt their literal fulfilment. Public opinion would not go beyond the proposal made through Mr. Edgar to the Government.

There is also reason to believe that local political exigencies alone induce the Government of British Columbia not to entertain these proposals.

Since these propositions have been before the people meetings have been had on Vancouver's Island and on the mainland, when the action of the Local Government was condemned, and a call made to accept the proposals offered. A very influential portion of the local press has also declared in favor of the course pursued by the Dominion Government.

It may not be out of place to mention that the action of the Dominion Government regarding the graving dock, shows a desire to do everything that can fairly be asked, whether there be an obligation or not under the terms of the Union. The Dominion was only bound to guarantee the interest on one hundred thousand pounds at five per cent. for ten years after the dock should be constructed. The Local Government found it impossible to obtain any contractor to undertake the work on the terms they were able to offer, based on the Dominion guarantee, and they solicited this Government to assist otherwise. This was agreed to, and Parliamentary authority was obtained at the late Session to enable the Governor General in Council to advance \$250,000 as the work progressed.

The report of Mr. Edgar will fully explain the object and effect of his mission as the agent of the Government. The Committee advise, therefore, that a copy of the said report and appendices be transmitted to the Right Honorable Lord Carnarvon Secretary of State for the Colonies, with this minute.

Certified.

(Signed,)

W. A. HIMSWORTH,
Clerk, Privy Council.

(No. 183.)

QUEBEC, 9th July, 1874.

MY LORD,—I have the honor to forward, for your Lordship's information, a printed circular from the Department of Public Works inviting proposals for the erection of a line of telegraph along the general route of the Canadian Pacific Railway.

I have, &c.,

(Signed,)

DUFFERIN.

The Right Honorable

The Earl of Carnarvon,

&c.,

&c.,

&c.

Canadian Pacific Railway—Telegraph Line.

Proposals are invited for the erection of a line of telegraph along the general route of the Canadian Pacific Railway, as may be defined by the Government. The proposals to embrace the following points, viz.:—

The furnishing of all materials, labor, instruments and everything necessary to put the line in operation.

The maintenance of the line for a period of five years after its completion.

In the wooded sections the land to be cleared to a width of 132 feet or such

greater width as may be necessary to prevent injury to the telegraph from fires or falling trees.

Distinct proposals to be made for each of the following sections, such proposals to state the time when the party tendering will undertake to have the telegraph ready for use in each case:

1. Fort Garry to a point opposite Fort Pelly, about 250 miles.
2. Fort Garry to the bend of the North Saskatchewan, about 500 miles.
3. Fort Garry to a point in the longitude of Edmonton, about 800 miles.
4. Lac La Hache, or other convenient point on the existing telegraph system in British Columbia, to Fort Edmonton, about 550 miles.
5. Fort Garry to Nepigon, Lake Superior, about 420 miles.
6. Ottawa to Nepigon, Lake Superior, about 760 miles.

The above distances are approximate. They are given for the general guidance of parties desiring information. Any increase or diminution in the ascertained mileage after construction will be paid for or deducted, as the case may be, at a rate corresponding with the sum total of the tender.

Parties tendering must satisfy the Government as to their ability to carry out the work and maintain it for the specified time.

Proposals addressed to the Minister of Public Works will be received up to the 22nd day of July next.

By Order.

Department of Public Works,
June, 1874.

F. BRAUN,
Secretary.

(No. 192.)

OTTAWA, 18th July, 1874.

MY LORD,—I have the honor to enclose a copy of an approved Report of a Committee of the Privy Council requesting me to inform your Lordship 8th July, 1874. that Mr. Walkem, the Attorney-General of the Province of British Columbia, has been deputed by that Government as a special agent to lay before your Lordship the claims of British Columbia, under the 11th clause of the terms of the Union with the Dominion of Canada.

The Right Honorable
The Earl of Carnarvon.

I have, &c.,

DUFFERIN.

Copy of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council, on the 8th July, 1874.

On a despatch dated 11th June, 1874, from His Honor the Lieutenant-Governor of British Columbia, enclosing a minute of the Executive Council of that Province representing that British Columbia is suffering great injury from the failure by Canada to carry out the obligations of the 11th clause of the terms of Union, and that it is advisable in the interests of that Province that the case be laid before the Imperial Government by means of a memorial to be presented to the Secretary of State for the Colonies by the Attorney-General of British Columbia as special agent and delegate of that Government.

The Lieutenant-Governor states that, in accordance with the advice of his Ministers, he has appointed the Honorable George Anthony Walkem, Attorney General of that Province, to be such special agent and delegate, and at their request he begs that Your Excellency be informed that Mr. Walkem has been duly appointed as such special agent and delegate, and that Your Excellency be moved to acquaint the Right Honorable Her Majesty's Principal Secretary of State for the

Colonies, that Mr. Walkem has been authorized and instructed to place in his hands the memorial of that Government, appealing to Her Majesty, and to support the prayer thereof.

On the recommendation of the Honorable the Secretary of State, the Committee advise that the above request be acceded to.

Certified.

SAULT STE. MARIE, July 31st, 1874:

MY LORD,—In further reference to your public despatch, No. 110, of 18th June, which I communicated to my Ministers I have the honor to enclose an approved 23rd July. Order in Council, in which my Government sets forth more at large its views with respect to its pending dispute with British Columbia, and expresses a desire that your Lordship would use your good offices in promoting a settlement of the misunderstanding, in accordance with the suggestion you have been good enough to make.

I have, &c.,

(Signed,)

DUFFERIN.

The Right Honorable

The Earl of Carnarvon.

COPY of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council, on the 23rd July, 1874.

The Committee of Council have had under consideration the despatch from the Right Honorable the Secretary of State for the Colonies, No. 110, relative to the proposed mission of a member of the British Columbia Government to England, for the purpose of complaining of the alleged non-fulfilment of the terms of Union between that Province and the Dominion as to the construction of the Pacific Railway, and containing an offer on the part of Lord Carnarvon in the following terms: "If both Governments should unite in desiring to refer to my arbitration all matters in controversy, binding themselves to accept such decision as I may think fair and just, I would not decline to undertake this service;" and further stating that he could not assume such duty "unless by the desire of both parties, and unless it should be fully agreed

"that my decision, whatever it may be, shall be accepted without any question or "demur;" concluding with a request that in the event of this offer being accepted, a statement of the case should be prepared by each Government to be submitted for consideration.

The Committee advise that Lord Carnarvon be informed that the papers already transmitted to the Colonial Office, with the minute of Council of July 8th, having special reference to Mr. Walkem's communication in Ottawa of the 15th July, convey substantially all that this Government have to say upon the subject; and that the Government would gladly accept his Lordship's offer, if it were possible to define, with any degree of exactitude, the matter in dispute.

When the present Government assumed office, they found that the British Columbia Government had protested against the non-commencement of works of construction on the railway on or before the 20th day of July, 1873, as agreed to in the eleventh section of the Order in Council relating to the Union. They also found that the means taken by the late Dominion Government for proceeding with the works of construction had totally failed, although the works preliminary to an actual commencement had been prosecuted with all possible despatch.

There can be no question of the extreme difficulty involved in the survey of a line of railway across an uninhabited continent, a distance of twenty-five hundred miles. To properly complete this survey and ascertain the best route for the railway would require not two years simply, but at least five or six years, as all experience of works of this magnitude and character both in the Dominion and elsewhere has sufficiently demonstrated.

The expenditure which had taken place up to that time was very large, exceeding one million of dollars, and yet the engineers had been quite unable to locate any portion of the line in the more difficult parts of the country to be traversed.

Under these circumstances the Government conceive that there was no reasonable or just cause of complaint on the part of the British Columbia Government.

No other steps could have been taken further than prosecuting the surveys until the assembling of Parliament towards the close of the month of March of this year.

The Government were then prepared with a new bill, taking ample powers for proceeding with the works as expeditiously as the circumstances of the country would permit. No complaint, official or otherwise, has been made as to the sufficiency of this measure to accomplish the object in view. It was distinctly understood by the British Columbia delegation at the time the terms of union were agreed upon that the taxation of the country was not to be increased on account of this work beyond the rate then existing.

So anxious, however, were the present Government to remove any possible cause of complaint, that they did take means to increase the taxation very materially in order to place themselves in a position to make arrangements for the prosecution of the initial and difficult portions of the line as soon as it was possible to do so,—and at the same time, a special confidential agent was deputed to British Columbia for the express purpose of conferring with the Government of that Province, and to endeavor to arrive at some understanding as to a course to be pursued which could be satisfactory to British Columbia and meet the circumstances of the Dominion.

It should be mentioned that before the late Government left office, it had been distinctly understood, as one of the results of the visit to England by the Directors of the Allan Company, that an extension of time of at least four years would be absolutely necessary.

Mr. Walkem, of British Columbia, quite understood this, and there is reason to believe that it would have been assented to by all parties.

The proposal made through Mr. Edgar to the British Columbia Government is one which the Dominion Government think should have been accepted as reasonable and just, and as one quite in accordance with the moral obligations imposed on this Government, if not with the actual letter of the agreement.

It must be remembered that British Columbia earnestly petitioned the Dominion

Government to modify the terms of Union in its own favor in relation to the construction of the graving dock. The Dominion Government cordially assented to provide the money for the construction of the work, instead of abiding by the agreement to guarantee merely the Provincial bonds for ten years, as provided by the terms of Union. This at once shows the liberality of the Dominion Government, and their willingness to consider and meet exceptional circumstances wherever they existed. And this manifestation of liberality on the part of this Government, they conceive should have been reciprocated in other matters by the Provincial Government.

The Dominion Government were also willing to exceed the terms of union by constructing a railway on the Island of Vancouver, although they were bound only to reach the *seaboard* of the Pacific.

At the present time the only violation of the terms of the compact which can be alleged, is that the works of construction were not actually commenced on the 20th July, 1873. But it is doubtful if even that allegation can be upheld.

It was all but impossible to proceed more rapidly with the work of survey, and a very extravagant expenditure was the result of the haste already shown in endeavoring to locate the line.

This may be understood from the fact that the surveys of the Intercolonial Railway, 500 miles long, occupied not less than four years, though the route was through a settled country, and they were then very incomplete, causing subsequent serious embarrassments to the contractors, and the presentation by them of endless claims for compensation.

Mr. Walkem in his conversations admits frankly that the literal fulfilment of the terms for the completion of the line on a certain day in 1881 cannot be expected. The only questions, therefore, that can now arise are, (1) whether due diligence and expedition have been exerted by the Dominion Government in the prosecution of the works, and (2) whether the offers of compensation for the alleged non-fulfilment of the terms were just and fair.

While expressing a very strong conviction that everything has been done that could possibly be done under the circumstances, and that the Dominion Government have shown a disposition to go far beyond the spirit of the engagement entered into with British Columbia, considering the expressions of opinion by Mr. Trutch as the delegate of British Columbia at the time of the union, and the facts set forth in the several documents already forwarded to the Colonial Office, the committee advise that Lord Carnarvon be informed they would gladly submit the question to him for his decision as to whether the exertions of the Government, the diligence shown, and the offers made, have or have not been fair and just and in accordance with the spirit of the agreement.

The Committee advise that a copy of this minute be forwarded to the Right Honorable the Secretary of State for the Colonies.

Certified,

(Signed,)

W. A. HIMSWORTH,
Clerk, Privy Council.

(Canada.)

DOWNING STREET, 16th August, 1874.

MY LORD,—With reference to my despatch, No. 110, of the 18th of June, I have now to acquaint you that I have seen Mr. Walkem, the Premier of British Columbia, deputed by his Government to represent to me the claims of the Province relative to the delays which have occurred in the construction of the Pacific Railway; the completion of which works within a certain understood time was one of the principal considerations that influenced the Union of British Columbia with the Dominion of Canada in 1871; I will only add on this head that Mr. Walkem laid his case before me in temperate and reasonable terms.

2. I have also received a telegram from the Lieut.-Governor of British Columbia, stating that upon the advice of his responsible Ministers he accepts, on behalf of

British Columbia, the arbitration which I thought it my duty to offer, and the conditions of which I explained to your Lordship in my despatch of the 18th of June.

3. I have further received your despatch of the 31st July, enclosing copy of the Report of the Canadian Privy Council of the 23rd of July, in which your Ministers express their readiness to submit for my decision the question whether the exertions of the Dominion Government in the prosecution of the work, the diligence shown, and the offers made by them to British Columbia, have or have not been fair and just and in accordance with the spirit of the agreement entered into between Canada and British Columbia at the date of the Union.

4. I appreciate the confidence which has been thus placed in me by both parties to this controversy, and so far as lies in my power, I am most desirous of contributing to the settlement of a difference, which although hitherto conducted with great moderation, and in a conciliatory spirit on both sides, might easily assume more serious dimensions.

5. I feel sure that the Dominion Government will agree with me that the sooner this controversy can be closed the better, and that to arrange matters amicably, and with as little resort as possible to formal procedure, will best promote that object, and will be most congenial to the feelings of all parties.

6. With this view, I will proceed to state the case as I understand it, and the impressions which I have formed as to the course that ought to be taken.

The proposals made by Mr. Edgar, on behalf of the Canadian Government, to the Provincial Government of British Columbia, may be stated as follows:—

(1.) To commence at once, and finish as soon as possible, a railway from Esquimaux to Nanaimo.

(2.) To spare no expense in settling as speedily as possible the line to be taken by the railway on the mainland.

(3.) To make at once a waggon road and line of telegraph along the whole length of the railway in British Columbia, and to continue the telegraph across the continent.

(4.) The moment the surveys and road on the mainland are completed, to spend a minimum amount of \$1,500,000 annually upon the construction of the Railway within the Province.

7. I am under the impression, after conversing with Mr. Walkem, that he is not fully empowered on the part of British Columbia to make specific proposals to the Government of Canada, or to me, as to what terms British Columbia would be willing to accept, but he has stated very clearly, in conversation at this office, the objections entertained by his Government and in the Province to the proposals of your Government; and they, or a considerable part of them, are fully set forth in the petition to the Queen, of which, as it has been published in the Colonial press, you no doubt have a copy.

8. Taking each point *seriatim*, as numbered in the last preceding paragraph but one, I understand it to be urged:—

(1.) That nothing is being done by the Dominion Government towards commencing and pushing on a railway from Esquimaux to Nanaimo.

(2.) That the surveying parties on the mainland are numerically very weak; and that there is no expectation in British Columbia, or guarantee given on the part of the Dominion, that the surveys will be proceeded with as speedily as possible.

(3.) That the people of British Columbia do not desire the waggon road offered by the Dominion Government, as it would be useless to them; and that even the telegraph proposed to be made along the line of the railway cannot, of course, be made until the route to be taken by the railway is settled.

(4.) That "the moment the surveys are completed," is not only an altogether uncertain, but, at the present rate of proceeding, a very remote period of time, and that an expenditure of \$1,500,000 a year on the railway within the Province will not carry the line to the boundary of British Columbia before a very distant date.

8. Mr. Walkem further urges that by section 11 of the Canadian Pacific Railway Act of 1874, it is competent to the Dominion House of Commons to reject at any

time the contract for a section of the railway, and thus to prevent the continuous construction of the work.

9. Referring first to this latter point, I do not understand that it is alleged by Mr. Walkem, nor do I for a moment apprehend that the proviso was introduced with any belief that it would delay the construction of the railway. I conceive that all that was intended by it was to retain the power of exercising an adequate supervision over the financial details of the scheme; nevertheless, the objection stated by Mr. Walkem appears to me one which the Dominion Government should seriously consider, as their policy in so important a matter ought not to be left open to criticism, and British Columbia may fairly ask, according to the letter and the spirit of past engagements, for every reasonable security that the railway will be completed as speedily as possible.

10. Strong as are, doubtless, the objections urged by Mr. Walkem to the proposals which I understand Mr. Edgar to have made on behalf of your Ministers, and important as is the subject-matter of controversy, I, as at present advised, can see no reason why the views of both parties should not be reconciled to their satisfaction and with justice to all interests concerned.

11. On the one hand I cannot entertain the least doubt of the sincere intention of the Canadian Government and Parliament to adhere as closely as possible to the pledges given to British Columbia at the time of the Union; to do that which is just and liberal towards the Province, and in fact to maintain the good faith of the Dominion in the spirit if not in the letter of the original agreement under circumstances which I admit to be of no ordinary difficulty.

12. On the other hand, however, it would be unfair to deny that the objections stated by Mr. Walkem have a certain foundation and force, and I have every confidence in order to obtain the settlement of a question of such vital importance to the interests of the whole Dominion, the Canadian Government will be willing to make some reasonable concessions such as may satisfy the local requirements of British Columbia, and yet in no way detract from the high position which the Dominion Parliament and Government ought in my judgment to occupy.

13. I am of opinion, therefore, on a general review of all the considerations of the case, and as an impartial but most friendly adviser, who, if I may be allowed to say so, has the interests of both parties and the prosperity of the whole Dominion deeply at heart, that the following proposals would not be other than a fair basis of adjustment.

14. (1.) That the section of the railway from Esquimaux to Nanaimo should be begun at once.

(2.) That the Dominion Government should greatly increase the strength of the surveying parties on the mainland, and that they should undertake to expend on the surveys, if necessary, for the speedy completion of the work, if not an equal share to that which they would expend on the railway itself if it were in actual course of construction; at all events some considerable definite minimum amount.

(3.) Inasmuch as the proposed waggon road does not seem to be desired by British Columbia, the Canadian Government and Parliament may be fairly relieved of the expense and labor involved in their offer; and desirable, as in my opinion, the construction of the telegraph across the continent will be, it perhaps is a question whether it may not be postponed till the line to be taken by the railway is definitely settled.

(4.) The offer made by the Dominion Government to spend a minimum amount of \$1,500,000 annually on the railway within British Columbia, as soon as the surveys and waggon road are completed, appears to me to be hardly as definite as the large interests involved on both sides seem to require. I think that some short and fixed time should be assigned within which the surveys should be completed; failing which some compensation should become due to British Columbia for the delay.

15. Looking, further, to all the delays which have taken place, and which may yet perhaps occur; looking also to the public expectations that have been held out of the completion of the railway, if not within the original period of ten years, fixed by the terms of Union, at all events within fourteen years from 1871, I cannot but

think that the annual minimum expenditure of \$1,500,000 offered by the Dominion Government for the construction of the railway in the Province, is hardly adequate. In order to make the proposal not only fair but as I know is the wish of your Ministers, liberal, I would suggest for their consideration whether the amount should not be fixed at a higher rate, say, for instance, at \$2,000,000 a year.

16. The really important point, however, not only in the interests of the Province but for the credit of the Dominion, and the advantage of the Empire at large, is to assume the completion of the railway at some definite period, which, from causes over which your Ministers have had no control, must now, I admit, be much more distant than had been originally contemplated, and I am disposed to suggest as a reasonable arrangement, and one neither unfair to the Dominion nor to British Columbia, that the year 1890 should be agreed upon for this purpose. In making this suggestion, I, of course, conclude that the Dominion Government will readily use all reasonable efforts to complete the line before any extreme limit of time that may be fixed. A postponement to the very distant period which I have mentioned could not fail to be a serious disappointment to the people of the Province, and to all interested in its welfare, and I should not have suggested it were it not for the full confidence which I felt in the determination of your Ministers to do not merely the least that they may be obliged, but the utmost that they may be able, in redemption of the obligations which they have inherited.

17. I have now only to repeat the strong desire which I feel to be of service in a matter, the settlement of which may be either simple or difficult according to the spirit in which it is approached, a question directly bearing upon the terms of Union, may, if both parties to it will waive some portion of their own views and opinions, be well entrusted to the Imperial authority which presided over that Union, and not improperly, perhaps, to the individual Minister whose fortune it was to consider and in some degree to shape the details of the original settlement under which the Provinces of British North America were confederated, and British Columbia ultimately brought into connection with them. If indeed the expression of a personal feeling may, in such a case as this, be indulged, I may perhaps be allowed to say how sincerely I prize the recollection of the share which I was then permitted to have in that great work, how deeply I should grieve to see any disagreement or difference impair the harmony which has been so conspicuously maintained by the wisdom and good feeling of all parties, and how entirely your Lordship and your Ministers may count upon my best efforts in furtherance of every measure that can contribute to the strength and honor of the Dominion of Canada.

18. It will be very convenient if your Government should feel able to reply by telegraph, stating generally whether the modifications which I have proposed, and which seem to me consistent with the present conditions of the question and with the true construction of the policy adopted by them, are in the main acceptable to them, in order that no unnecessary delay may take place in bringing this matter to a conclusion.

Governor General

The Right Honorable

The Earl of Dufferin, K. P., K. C. B.

I have, &c.,

(Signed,)

CARNARVON.

(No. 212.)

OTTAWA, 21st August, 1874.

MY LORD,—In continuation of my despatches, noted in the margin, on the subject No. 182, 9th July of the suggestions made by your Lordship for the settlement of the differences between the Government of British Columbia and that of the Dominion, I have the honor to enclose a copy of a despatch from No. 3,677, 29th July, 1874. Lieutenant-Governor Trutch acknowledging the receipt of the copy I sent him of your despatch, No. 110, of the 18th June.

The Earl of Carnarvon.

I have, &c.,
(Signed)

DUFFERIN.

(Copy—813 D)

GOVERNMENT HOUSE,

VICTORIA, B. C.

July 29th, 1874.

MY LORD,—I have the honor to acknowledge the receipt, on the day before yesterday, of your Lordship's despatch of the 3rd inst., transmitting by direction of the Right Honorable The Secretary of State for the Colonies, for the information of this Government, a copy of a despatch from that Minister to your Lordship proposing himself as arbitrator in the matters now under discussion between the Government of Canada and this Province in relation to the 11th article of the terms of Union of British Columbia with Canada.

I have submitted your Lordship's despatch, and that from Lord Carnarvon to your Lordship therein transmitted for the consideration and advice of my Executive Council.

I have, &c.,

(Signed,)

JOSEPH W. TRUTCH.

His Excellency

The Right Honorable

The Earl of Dufferin, K. P., K. C. B.

(CANADA.)

September 18th, 1874.

MY LORD,—In acknowledging the receipt of your Lordship's despatch, secret, of the 16th of August, in which you have been good enough to convey to me your opinion as to the modifications which might be introduced with advantage into the terms already proffered by my Ministers for the settlement of the dispute now pending between this Government and that of British Columbia, I have the satisfaction of informing you that after a good deal of anxious deliberation Mr. Mackenzie and his colleagues have consented to adopt several suggestions recommended to them by your Lordship, should it be found absolutely impossible to terminate the controversy in any other manner.

2. The general view of my Ministers on the various points referred to are set forth at large in the enclosed Order in Council from which your Lordship will gather that it is with very considerable reluctance they have been induced to make these further concessions, feeling so strongly as they do that their original proposals fairly satisfied the requirements of the case.

3. I have no doubt, however, it will be felt throughout the country that the only mode by which the Dominion could be satisfactorily extricated from the false position in which she was placed by her treaty obligations to fulfil engagements which were physically impossible of execution, was by a large and generous interpretation of the consequent claims against her.

4. I have further the honor to transmit a sketch map of the area now under exploration in British Columbia, accompanied by a memorandum by Mr. Fleming, the engineer-in-chief, by which it will be perceived that every effort is being made to hurry forward the surveys with all possible despatch, and that the employment of any additional staff would uselessly increase the expense without forwarding the work.

I have, &c.,

(Signed,)

DUFFERIN.

The Right Honorable

The Earl of Carnarvon

&c., &c., &c.

COPY of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General, on the 17th September, 1874.

The Committee of Council have had under consideration the despatch of the Right Honorable Lord Carnarvon relating to the complaints of the British Columbia

Government with respect to the Pacific Railway, and suggesting certain modifications of the proposals made by the Dominion Government, through Mr. Edgar, on the 8th May last.

These proposals were prompted by a desire to provide against future difficulty, in view of the then well ascertained fact that the terms of Union had become impossible of literal fulfilment, on the one hand, and on the other hand giving due weight to the very strong feeling entertained against the fatal extravagance which these terms involved to the country. The proposals may thus be summarized:—

1. To build a railway from Esquimaux to Nanaimo, on Vancouver Island, in excess of the terms of Union, and to begin the work immediately.

2. To commence the construction of the railway on the mainland as soon as the surveys could be completed, and to expend on the work not less than one and a half millions annually.

3. To take the necessary steps, meanwhile, to secure the construction of a telegraph line across the continent on the located line for the railway, at the same time cutting out the railway track and building thereon a trail or road, which would become available as part of the permanent works.

The arrangement proposed by Lord Carnarvon embodies some amendments. His Lordship suggests:—

1st. The immediate construction, as proposed, of the short line on Vancouver Island.

2nd. After the location of the line the expenditure of two millions on the mainland, instead of one and a half millions.

3rd. The increase of the engineering force to double the number now employed; the expenditure on the survey, if not of an amount equal to the proposed annual expenditure on construction, of some other specific sum; the prescribing of a limited time for the completion of the survey; and the payment of a sum of money as compensation in the event of its not being so completed.

4th. The guarantee of the completion of the entire railway in 1890.

It is also suggested that the construction of the telegraph line and road need not be proceeded with, as Mr. Walkem does not consider either as of any use to the Province.

The Committee recommend that the first consideration, which is precisely what was previously offered, be again concurred in.

In regard to the second proposal, the Committee recommend that Lord Carnarvon be informed (if it be found impossible to obtain a settlement of the question by the acceptance of the former offer) that the Government will consent that after the completion of the survey, the average annual minimum expenditure on the mainland shall be two millions. There is every reason to believe now that a majority of the people of Columbia would accept the propositions previously made. Judging from a petition sent from the mainland, signed by 644 names (a copy of which petition is enclosed), there is almost an entire unanimity there in favor of these proposals, and assurances were given very lately by gentlemen of the highest position on the Island that the course of the Local Government would not meet general approval there. An application was made by one prominent gentleman, an ex-member of Parliament, to the Government here, to know if the proposals made would still be adhered to, he pledging himself to secure their acceptance by the bulk of the people.

It is therefore earnestly hoped that no change will be considered necessary, as it will be difficult to induce the country to accept any further concessions.

The third condition requires an increase of the engineer force employed on the surveying service; the completion of the survey within a specific time; and in case that time should be exceeded, the payment to the Province of a money compensation.

The Committee respectfully submit that the result arrived at by the foregoing suggestion is already being accomplished with the utmost despatch admitted by the circumstances of the case.

The Chief Engineer was instructed to provide all the assistance he required in order to complete the surveys within the shortest possible period, and he engaged

a large force; a force larger indeed than can with profit be employed until the route is definitely determined.

Whatever may be the route finally chosen, the line will of necessity traverse a country with exceedingly rough topographical features for a distance of five or six hundred miles from the eastern slope of the Rocky Mountains to the extreme limit of the Province on the Pacific.

The country is an immense plateau, which maintains its general elevation to within a few miles of the sea, but often rises into unshapely mountain ranges: some of these ranges tower to a height of over 9,000 feet.

The boundary of the plateau on the west is the Cascade Range; this forms a huge sea wall along the coast, and has interposed a much more formidable obstacle to the surveyors than the Rocky Mountains. Attempts have been made at five or six points to pierce the barrier, but, except at the Fraser River and at Bute Inlet, without success.

From the results of last year's explorations the Bute Inlet route seemed on the whole to be the best, but it is not unassociated with serious difficulties. For a distance of twenty miles the ascent or grade is about 150 feet to the mile.

The straits which form the approach to the harbor from seaward are encumbered by islands, and when reached the harbor is found to be destitute of anchorage. The dangers of navigation are increased not alone by the precipitations and rocky shores, but by the rapidity of the tide which rushes through the narrow channels with a velocity of from seven to nine miles an hour.

It was supposed when work was resumed last spring that a practicable route would be found from the point where Fleming's line touches the north branch of the Thompson River westward towards what is known as Big Bend, on the Fraser River, from which no serious impediment exists until the commencement of the rapid descent to the sea at Bute Inlet is reached. Had this supposition proved correct, it is probable the Government might have been prepared at the end of this year to proceed with the exact location of the line. But the explorations carried on to the close of July last resulted in the discovery of a high range of mountains which fill the country from near the junction of the Clearwater with the Thompson northward to the great bend of the Fraser; and, without a very long detour south or north, they bar the way to the west. The Chief Engineer therefore advised a re-examination of the Fraser valley, or more correctly speaking, ravine, inasmuch as no broad valley anywhere exists, the rivers in their courses having cleft ways for themselves through the rocks, which in some cases they have pierced to a depth of 1,500 feet by a width of not more than a single mile, thus giving as the normal condition exceedingly precipitous banks. This new examination of the Fraser River route will occupy at least the whole season.

A memorandum from the Chief Engineer will give the strength of the force and show its distribution. Nearly two seasons were passed in examining the Rocky Mountain Range and the Valley of the Columbia in the endeavor to obtain a favorable pass. The result was that the explorers were driven north to what is known as Jasper House Pass.

These facts are mentioned to give some idea of the enormous labor involved, and the impossibility of placing a large force in the field to do engineering work, when it is not yet known where the engineering work is to be done. The exploratory survey must be tolerably complete before the exact location of any portion of the line can be contemplated or possible, and before plans can be made of bridges and other works of construction required, and nothing but the urgency of the contract so imprudently entered into with British Columbia would otherwise have induced the Government to employ more than half the force now engaged.

As pointed out in previous memorandum, the expenditure to the end of last year in British Columbia alone was considerably over half a million of money more than the whole expenditure upon the 2,000 miles eastward of that Province.

The Chief Engineer was informed last winter that it was the desire of the Government to have the utmost expedition used in prosecuting and completing the

surveys; and in the engagements which he has entered into these directions have been fully considered.

The fourth condition involves another precise engagement to have the whole of the railway communication finished in 1890. There are the strongest possible objections to again adopting a precise time for the completion of the lines. The eastern portion of the line, except so far as the mere letter of the conditions is concerned, affects only the provinces east of Manitoba, and the Government have not been persuaded either of the wisdom or the necessity of immediately constructing that portion of the railway which traverses the country from the west end of Lake Superior to the proposed eastern terminus on Lake Nipissing near Georgian Bay, nor is it conceived that the people of British Columbia could, with any show of reason whatever, insist that this portion of the work should be completed within any definite time, inasmuch as if the people who are chiefly if not wholly affected by this branch of the undertaking are satisfied it is maintained that the people of British Columbia would practically have no right of speech in the matter.

It is intended by the Government that the utmost diligence shall be manifested in obtaining a speedy line of communication by rail and water from Lake Superior westward, completing the various links of railway as fast as possible, consistent with that prudent course which a comparatively poor and sparsely settled country should adopt.

There can be no doubt that it would be an extremely difficult task to obtain the sanction of the Canadian Parliament to any specific bargain as to time, considering the consequences which have already resulted from the unwise adoption of a limited period in the terms of Union for the completion of so vast an undertaking, the extent of which must necessarily be very imperfectly understood by people at a distance. The Committee advise that Lord Carnarvon be informed that, while in no case could the Government undertake the completion of the whole line in the time mentioned, an extreme unwillingness exists to another limitation of time; but if it be found absolutely necessary to secure a present settlement of the controversy by further concessions, a pledge may be given that the portion west of Lake Superior will be completed so as to afford connection by rail with existing lines of railway through a portion of the United States and by Canadian waters during the season of navigation by the year 1890 as suggested.

With regard to the ameliorating proposal to dispense with the formation of a road or trail across the country, and the construction of a telegraph line, on the representation of the British Columbia delegate that neither is considered necessary, it is proper to remark that it is impossible to dispense with the clearing out of a track and the formation of a road of some sort in order to get in the supplies for the railway, and the proposal was, that as soon as the general route of the railway could be determined and the location ascertained, a width of two chains should be cleared out in the wooded districts, a telegraph line erected, and that a sort of road passable for horses and rough vehicles should be formed and brought into existence, not as a road independent of the railway, but as an auxiliary to and a necessary preliminary to railway construction, the cost incurred forming part indeed of the construction of the railway itself.

In so vast a country where there are no postal facilities and where there can be no rapid postal communications for many years hence, it is absolutely essential that a telegraph line should be erected along the proposed route, as the only means by which the Government and contractors could maintain any communication. The offer therefore to dispense with a telegraph line is one which cannot be considered as in any way whatever affording relief to the Dominion, the undertaking to construct the telegraph line must rather be looked upon as an earnest of the desire of the Government to do every thing in reason, in order to keep within the spirit of its engagements.

The intention of the Government will be seen from the following quotations from the Act of last Session:—

“A line of electric telegraph shall be constructed in advance of the said railway

"and branches along their whole extent respectively as soon as practicable after the location of the line shall have been determined upon."

Having dealt with the modifications suggested by Lord Carnarvon, it is proper to notice *seriatim* the several grounds of complaint as stated in the despatch.

1st. "That nothing is being done by the Dominion Government towards commencing and pushing on a railway from Esquimaux to Nanaimo."

The Dominion has no engagement to build such a railway, and therefore there can be no just complaint that it is not commenced. The construction of such a railway was offered only as compensation for delay in fulfilling the engagement to build a railway to the "Pacific seaboard."

2nd. "That the surveying parties on the mainland are numerically weak, and that there is no expectation in British Columbia, or guarantee given, that the surveys will be proceeded with as speedily as possible."

On this point it is sufficient to state that, as remarked elsewhere, the utmost expedition possible has been used, and that the allegations in the petition are incorrect.

3rd. "That the people of British Columbia do not desire the waggon road offered by the Dominion Government, as it would be useless to them; and that even the telegraph proposed to be made along the line of the railway cannot of course be made until the route to be taken by the railway is settled."

It may be noticed in connection with this extraordinary statement that the construction of such a road was one of the conditions imposed by the Local Legislature in their resolutions adopted as the basis whereon to negotiate the terms of Union. It would therefore seem that such a declaration now is intended more to lessen the value of the proposals made to British Columbia than to indicate public sentiment in the Province. As pointed out elsewhere, the work is practically a part of railway construction, and it is also confidently believed will be of very great advantage to the people generally.

4th. Mr. Walkem further urges "That by Sec. 11 of the Canadian Pacific Railway Act of 1874, it is competent to the Dominion House of Commons to reject at any time the contract for a section of the railway, and thus to prevent the continuous construction of the work."

This is simply a complaint that the present Government provided for Parliamentary supervision over the letting of such vast contracts. It was contended by the opposition in 1872 that in the matter of a contract for so large a work, for which the Dominion was to pay thirty millions of dollars, and allot nearly sixty million acres of land, the formal sanction of Parliament should be obtained. Accordingly, when it became their duty under altered political circumstances to submit a new measure to Parliament, in lieu of the one which had failed of success, they were bound to secure by statutory enactments full control to Parliament over the letting of the contract or contracts.

In all extraordinary contracts entered into by the Government of England or Canada, this course has been followed: as, for instance, in contracts for the conveyance of mails by ocean steamers.

It will also be apparent that no Government decision could prevent future Parliamentary action.

The insertion of this section therefore is in pursuance of a well settled public policy, not to permit the executive too extensive powers without specific Parliamentary sanction; and even the present opposition demanded that the restriction should apply to minor works on the branches provided for in the Act.

Neither the Canadian Government nor Parliament can be suspected of having inserted such a clause for the improper purpose of using it to retard progress otherwise possible. Nothing has occurred which could justify such a suspicion.

Since the passage of the Act, the Government have placed the grading of the Pembina Branch under contract, and hope soon to place the Nipissing Branch under contract. The contracts for the telegraph lines from Fort William to the existing telegraphic stations in British Columbia will be closed in a few days.

It only remains to say that the Government, in making the new proposals to British Columbia, were actuated by an anxious desire to put an end to all controversy, and to do what is fair and just under very extraordinary circumstances, and that these proposals embraced the most liberal terms that public opinion would justify them in offering.

It is proper, further, to remark that there has been no just cause of complaint at all, inasmuch as the report of the Chief Engineer shows that nothing more could have been done to forward the work.

The Act passed last Session is a very complete one, and amply provides for the construction of the railway subject to the Parliamentary supervision referred to.

The lot of British Columbia is cast in with the other North American Provinces, and it becomes the duty of all the confederated Provinces to consider to some extent the general welfare. It is especially the duty of the smaller Provinces to defer somewhat to the opinions of the old and populous Provinces from which the revenue for the building of all such works is derived.

Certified.

(Signed,)

W. A. HIMSWORTH,
Clerk, Privy Council.

Copy of Petition.

"That in view of the action taken by an association calling itself 'The Terms of Union Preservation League,' meeting in the City of Victoria, on Vancouver Island, in petitioning Her Most Gracious Majesty, the Queen, relative to the non-fulfilment of one of the conditions of the terms of Union, and affirming in said petition that Esquimaux, on Vancouver Island, had been decided to be the terminus of the Canadian Pacific Railway, and that a portion of the line had been located between the harbor of Esquimaux and Seymour Narrows, and praying that Her Majesty act as Arbitrator, and see that justice be done to British Columbia, we, the undersigned, respectfully submit as follows:

"That in our opinion, the order of the Privy Council of Canada, of 7th June, 1873, is in no way binding upon Your Excellency's present Government, and that a line of railway along the seaboard of Vancouver Island to Esquimaux is no part of the terms of Union.

"That in any arrangement which may be entered into for an extension of time for the commencement or completion of the railway, any consideration granted by the Dominion of Canada to the Province of British Columbia, should be such as would be generally advantageous to the whole Province, and not of a merely local nature, benefiting only a section thereof.

"That the league referred to, acting under the impression that further surveys may detract from the favorable opinion now entertained by the Engineers of the Bute Inlet route, are desirous of forcing Your Excellency's Government into an immediate selection.

"That we consider it would be unwise, impolitic, and unjust to select any line for the railway until time be given for a thorough survey of the different routes on the mainland, believing as we do, that such survey must result in the selection of the Fraser Valley route, which is the only one that connects the fertile districts of the interior with the seaboard.

"That as it is evident that the surveys are not yet sufficiently advanced to allow of an intelligent decision on the question of route being arrived at, we consider that a vigorous and immediate prosecution of the surveys by Your Excellency's Government to be followed in 1875, by the commencement of construction on the mainland will be a faithful carrying out of the spirit of the terms of Union.

"Your petitioners therefore humbly pray that Your Excellency take the views expressed in this our petition into your most favorable consideration."

The Earl of Carnarvon to the Earl of Dufferin.

DOWNING STREET, November 17th, 1874.

MY LORD,—I duly received your despatch of the 18th September, inclosing an Order in Council setting forth the views of your Ministers as to the proposals contained in my despatch of the 16th August, for the settlement of the controversy between Canada and British Columbia respecting the Pacific Railway. I subsequently again saw Mr. Walkem, and at his request I have delayed the announcement of the terms which, in my opinion, may properly be laid down as fair and reasonable, until the receipt of a further written communication from him, which has now reached me, and a copy of which I enclose.

The statements thus placed before me are so clear and complete as to assist me materially in appreciating the position in which the question now stands, and in judging without hesitation what modification of the original terms should be adopted. And I would here express my satisfaction at the temperate and forbearing manner in which points involving most important consequences have been argued on both sides, and the pleasure which I feel in being able to think that asperity of feeling or language may have been, in some degree, avoided through the opportunity of submitting the whole case to the independent judgment of one who may at least claim to have the interests of both parties equally at heart.

I explained very fully in my despatch of the 16th August, the opinion which I entertained on each of the principal questions at issue, and I need now add but little to the simple statement of my decision. That decision is necessarily, as both parties are aware, in the nature of a compromise, and as such it may perhaps fall short of giving complete satisfaction to either. If, on the one hand, your Ministers, as you inform me, consent with reluctance to the further concessions which at an earlier stage I suggested, they will not, on the other hand, fail to bear in mind that even after those concessions are made British Columbia will receive considerably less than was promised to her as the condition of entering the Dominion. I prefer rather to reflect that under the amended terms now to be established, British Columbia will, after all, receive very great and substantial advantages from its union with Canada, while the Dominion will be relieved of a considerable part of those obligations which were assumed in the first instance without a sufficient knowledge of the local conditions under which so enormous and difficult an undertaking was to be carried into effect, and to fulfil which would seriously embarrass the resources of even so prosperous a country as Canada.

Adhering then to the same order in which, on the 16th August, I stated the principal points on which it appeared to me that a better understanding should be defined, I now proceed to announce the conclusions at which I have arrived. They are:—

1. That the railway from Esquimaux to Nanaimo shall be commenced as soon as possible, and completed with all practicable despatch.

2. That the surveys on the mainland shall be pushed on with the utmost vigour. On this point, after considering the representations of your Ministers, I feel that I have no alternative but to rely, as I do most fully and readily, upon their assurances that no legitimate effort or expense will be spared, first to determine the best route for the line, and secondly to proceed with the details of the engineering work. It would be distasteful to me, if indeed, it were not impossible to prescribe strictly any minimum of time or expenditure with regard to work of so uncertain a nature; but happily, it is equally impossible for me to doubt that your Government will loyally do its best in every way to accelerate the completion of a duty left freely to its sense of honor and justice.

3. That the waggon road and telegraph line shall be immediately constructed. There seems here to be some difference of opinion as to the special value to the Province of the undertaking to complete these two works; but after considering what has been said, I am of opinion that they should both be proceeded with at once, as indeed is suggested by your Ministers.

4. That \$2,000,000 a year, and not \$1,500,000, shall be the minimum expenditure on railway works within the Province from the date at which the surveys are sufficiently completed to enable that amount to be expended on construction. In naming this amount I understand that, it being alike the interest and the wish of the Dominion Government to urge on with all speed the completion of the works now to be undertaken, the annual expenditure will be as much in excess of the minimum of \$2,000,000 as in any year may be found practicable.

5. Lastly, that on or before the 31st of December, 1890, the railway shall be completed and open for traffic from the Pacific seaboard to a point at the western end of Lake Superior, at which it will fall into connection with existing lines of railway through a portion of the United States, and also with the navigation on Canadian waters. To proceed at present with the remainder of the railway extending by the country northward of Lake Superior, to the existing Canadian lines, ought not, in my opinion, to be required, and the time for undertaking that work must be determined by the development of settlement and the changing circumstances of the country. The day is, however, I hope, not very distant when a continuous line of railway through Canadian territory will be practicable, and I therefore look upon this portion of the scheme as postponed rather than abandoned.

In order to inform Mr. Walkem of the conclusions at which I have arrived, I have thought it convenient to give him a copy of this despatch, although I have not communicated to him any other part of the correspondence which has passed between our Lordship and me.

It will, of course, be obvious that the conclusions which I have now conveyed to you uphold, in the main, and subject only to some modifications of detail, the policy adopted by your Government with respect to this most embarrassing question. On acceding to office your Ministers found it in a condition which precluded a compliance with the stipulations of Union. It became, therefore, their duty to consider what other arrangements might equitably, and in the interests of all concerned, be substituted for those which had failed. And in determining to supplement the construction of some part of the new railway by that vast chain of water communications which nature might seem to have designed for the traffic of a great country, I cannot say that they acted otherwise than wisely. I sincerely trust that the more detailed terms which I have now laid down, as those on which this policy should be carried out will be found substantially in accordance with the reasonable requirements of the Province, and with that spirit of generous and honorable adherence to past engagements which ought, in an especial degree, to govern the dealings of a strong and populous community with a feeble neighbor, and which I well know to be the characteristic of all parties and statesmen alike within the Dominion of Canada.

I have, &c.,

(Signed,)

CARNARVON.

(North America, No. 76.)*

Mr. Walkem to the Earl of Carnarvon.

LONDON, October 31st, 1874.

MY LORD.—I now beg leave respectfully to offer, for your Lordship's consideration, a recapitulation and review of the main points of the question at issue between Canada and British Columbia, respecting the breach by the former of the railway agreement in the terms of Union.

Although I have been favored by your Lordship with many and lengthened interviews on the subject, I hope that the grave nature of the interests committed to my care, as well as the important influence which your Lordship's action at the present time is sure to exercise upon the political and industrial growth of the Province, will be of sufficient excuse for again troubling you.

* Printed for the use of the Colonial Office, November 10th, 1874.

A written communication of the kind proposed, may also usefully serve to define more clearly some of the views which I have advocated on behalf of the Province.

Before proceeding further, I trust that I may be permitted to tender the expression of my grateful sense of the attention with which your Lordship has been pleased to receive, not only the statement of the case of British Columbia, as set forth in the petition of its Government, but also the comments upon it which I have from time to time made.

The Provincial Government will be glad to learn—what your Lordship has been good enough to state—that you have been gratified with the temperate spirit in which their case has been presented for the consideration of Her Majesty's Government.

It was, as I had the honor to mention at my first interview, with a strong feeling of regret, that the Government of the Province felt themselves under the necessity of seeking the advice and intervention of Her Majesty's Government in this matter. The Provincial Government desired to work in harmony with the Dominion Government, and I may safely say that such intervention would not have been sought, had a sufficient effort been made by the Dominion to comply with the spirit of the railway agreement.

The key to the general policy of Her Majesty's Government, in relation to British North America, is, so far as I understand, to be found in the preamble of the Act of Confederation, which briefly declares that "Union would conduce to the welfare of the Provinces * * * federally united * * * and promote the interests of the British Empire." The Imperial policy thus declared has also been the policy of Canada. British Columbia, likewise, has endeavored on her part loyally to follow it. It is from a due regard for the principles laid down in the Confederation Act, and from a natural and, I hope, proper desire to protect her own special interests as a Province, that British Columbia has protested against the non-fulfilment by Canada of the railway agreement of the terms of Union.

This railway agreement, while purposely and in part framed, as I shall hereafter show, to promote the interests of British Columbia, is not an agreement for the construction of a railway within merely provincial limits for simply provincial purposes. It is an agreement of a much more comprehensive character, designed, in fact, mainly to advance, and indeed to effect, a real Union and consolidation of the British Possessions on the Continent of North America. In the attainment of this great end, British Columbia is, owing to her present isolation, especially interested.

A short reference to a few facts, which led to the Union of the Province with Canada, will best explain her true position.

In pursuance of the general Confederation policy declared in 1867, Her Majesty's Government, in 1869, addressed a despatch to the Governor of British Columbia, expressing a desire that British Columbia should be incorporated with Canada. This despatch not only re-states the principles set forth in the Confederation Act, but also shows in what respect they are peculiarly applicable to British Columbia. The following is a quotation from the despatch:—

"Her Majesty's Government," writes the Secretary of State, "anticipate that the interests of every Province of British North America will be more advanced by enabling the wealth, credit, and intelligence of the whole to be brought to bear on every part, than by encouraging each in the contracted policy of taking care of itself, possibly at the expense of its neighbor.

"Most especially is this true in the case of internal transit. It is evident that the establishment of a British line of communication between the Atlantic and Pacific oceans is far more feasible by the operations of a single Government responsible for the progress of both shores of the continent, than by a bargain negotiated between separate, perhaps in some respects rival, Governments and Legislatures. The San Francisco of British North America would, under these circumstances, hold a greater commercial and political position than would be attainable by the capital of the isolated colony of British Columbia.

"Her Majesty's Government are aware that the distance between Ottawa and

Victoria presents a real difficulty in the way of immediate Union. But that very difficulty will not be without its advantages, if it renders easy communication indispensable, and forces onwards the operations which are to complete it. In any case it is an understood inconvenience, and a diminishing one, and it appears far better to accept it as a temporary drawback on the advantages of Union, than to wait for those obstacles, often more intractable, which are sure to spring up after a neglected opportunity."

Here four propositions are laid down:—

1st. That the Canadian Federal system is based upon a union of the "wealth, credit and intelligence" of the several Provinces, which will, when properly applied promote the welfare of each.

2nd. That to secure this result, "easy * * * internal * * * communication" through British territory "is indispensable."

3rd. That the absence of this "easy * * * internal * * * communication," and "the distance between Ottawa and Victoria" constitute "a real difficulty in the way of immediate union."

4th. That this "real difficulty" will operate as a mere "temporary drawback on the advantages of union," as it will be sure to "force onwards" those "operations" necessary to remove it.

It is to hasten the removal of this "temporary drawback," and to "force onwards," in the sense of the above despatch, these necessary operations which have been long deferred, that the Government of British Columbia have sought the intervention of Her Majesty's Government.

The strength of the above propositions, viewed in connection with the general confederation policy, was fully recognized by the then Government of the Dominion. They agreed with Her Majesty's Government, that without "easy communication" and "internal transit" between Ottawa and Victoria, the union of British Columbia and Canada could not be effective. Afterwards, when the whole matter was practically studied by the Government of the Dominion, it seems to have been their decided opinion that "easy communication" across the Continent could mean nothing less than a railway; and that, with respect to British Columbia, the "temporary drawback on the advantages" of confederation, mentioned by Her Majesty's Government, should not be allowed to last for more than ten years from the date of Union.

Hence the Dominion undertook "to secure the commencement simultaneously," on the 20th July, 1873, "of the construction of a railway from the Pacific towards the Rocky Mountains, and from such point as may be selected east of the Rocky Mountains towards the Pacific, to connect the seaboard of British Columbia with the railway system of Canada; and further, to secure the completion of such railway within ten years from" July, 1871. And British Columbia, on her part, entered into certain obligations in favor of the Dominion, with regard to the public lands of the Province. The word "simultaneously," which appears in this agreement, was designedly inserted with two objects:—

1st. That Canada should commence construction works at the two most available points, and thus ensure the early and rapid progress of the railway; and

2nd. That the admitted disadvantages under which British Columbia would labour until the completion of the main line should to some extent be counterbalanced by the benefits of early expenditure upon railway works in the Province.

The agreement thus entered into was inserted in, and formed the most essential part of the terms of Union mutually accepted, in 1871, by British Columbia and Canada. These terms were placed before the people of the Province at a general election. They were shortly afterwards considered and formerly approved by the Provincial Legislature. They were subsequently fully debated, and accepted by both Houses of the Parliament of Canada; and they were finally sanctioned and ratified by Her Majesty in Council. No question, therefore, could have been more thoroughly ventilated; no conclusion more deliberately arrived at. As a strong practical proof of the continued interest felt by Her Majesty's Government in the

success of the Confederation thus established, the Imperial Parliament in July 1873, guaranteed a loan of £3,600,000, to be raised by Canada mainly for the construction, among other public works, of the Canada Pacific Railway.

It may now be useful to present to your Lordship a brief statement of the manner in which the conditions of the Railway Agreement have been observed.

The petition of the Government of British Columbia shows the following facts:—

That the Province has fulfilled her part of the agreement; and has endeavoured to aid the Dominion Government to carry out their part;

That the Dominion Government have not, during the three years succeeding Union, made due effort to complete the railway surveys in British Columbia;

That the Dominion Government did not, on the 20th July, 1873, commence the “simultaneous” railway construction provided for in the agreement;

That they also have hitherto failed to commence any railway construction whatsoever in the Province, though they might have commenced such construction, as they admitted in May last that they were then in a position to begin the railway.

Some further circumstances connected with these matters are detailed in the petition. It is therein shown that in June, 1873, the Dominion Government selected the Harbour of Esquimaux, on the Pacific, as the western terminus of the Canadian Pacific Railway; that they at the same time decided that a portion of the main line should be “located” between the terminus and Seymour Narrows; that some weeks prior to the day named in the agreement for the commencement of the construction of the main line, they secured from the Provincial Government “in furtherance of such construction” a reserve of a valuable tract of land lying along this projected line and some 3,000 square miles in area; that, as already stated, no construction whatsoever was or has been commenced within the Province; that, the land so reserved has been thus rendered comparatively valueless to the Province, as it has ever since been closed to settlement and to the investment of capital.

Against the continuance of the above state of things, the Province, through its Legislature and its Government, from time to time entered protest after protest, but without effect, and without even eliciting any reply from the Dominion Government beyond a formal acknowledgment of the receipt of the despatch enclosing each protest. The last protest was forwarded in February of the present year. Subsequently the correspondence took place which is appended to the petition. From the questions raised by this correspondence, all those which are unimportant may be usefully eliminated. I propose, therefore (subject, perhaps, to a slight digression, where necessary), to confine my observations to the principal points in a letter from Mr. Edgar to myself, which contains certain proposals as regards railway matters.

The Provincial Government did not at the time understand that these proposals were officially made. They were subsequently withdrawn by the Dominion Government, and only at the moment of such withdrawal declared by them to have been made with their authority and on their behalf. The above letter, which thus became invested though but for a brief time with an authoritative character, is valuable as the only official intimation to the Provincial Government of the policy of the present Dominion Government on the subject of the Pacific Railway. In addition to certain proposals or offers to British Columbia, the letter contains important statements, and some specific admissions, which favor the Provincial case.

I shall discuss these offers *seriatim*, and endeavor to ascertain their value taken in connection with the conditions attached to them, which conditions, as I shall afterwards show, virtually amount to a surrender by British Columbia of her existing railway agreement. I shall then offer some comments upon the above statements and admissions, using generally, as far as may be, the language in which they are expressed in the letter, in order to lessen the danger on my part of any inadvertent misconstruction of their meaning.

The offers made are as follows:—

No. 1. The Dominion will “commence construction from Esquimaux to Nanaimo immediately, and push that portion of railway on to completion within the shortest practicable time.”

The offer to commence work immediately at Esquimault (which, as already stated, was selected as the western terminus of the main line by an order of the Privy Council of Canada as far back as June, 1873) is simply an offer to do what the Dominion was bound to have done in July, 1873, and what they might have done at any time since, and which they admit in this letter was quite practicable in May last. The offer, your Lordships will notice, is a very limited one. No definite provision is made for the extension of the main line beyond Nanaimo (about 60 miles from Esquimault); nor, indeed, is any definite period fixed for the completion of even this short portion of the railway, which would take neither much time nor money to construct. The promise to complete it "in the shortest practicable time,"—a promise in effect attached to all the offers in the letter,—is one which, slightly qualified, is implied in the present, and in every other agreement of a similar character, in which no stipulation is inserted for the performance of work within a given time. The phrase is much too elastic in its meaning to admit of any definite interpretation. It may, for the present, therefore, be fairly omitted from special consideration, except as some evidence of a general intention on the part of the Dominion Government. I must assume, what the language conveys, that the words "the portion of railway," means the Esquimault and Nanaimo portion or part of the main railway, which is the only railway referred to in the letter. This would tend to show that the position of the terminus is not questioned. No other allusion to the terminus is made in the letter.

No. 2. The Dominion will prosecute and complete the surveys, and then determine "the location of the line upon the mainland."

This promise is reasonable on the face of it, but it is very vague. In May last, the Government of the Dominion informed the Provincial Government that "there was no reason to believe that it would be possible to complete the surveys before the close of the year," 1874. The reasonable inference deducible from this statement is, obviously, that the surveys would be finished at the end of 1874. If a longer period had been deemed necessary for the purpose, the fact would have been stated. Considering the intimation thus given, and looking to the long interval of time that has elapsed without any decision as to the route having been arrived at, it might have been expected that the letter would have positively guaranteed the completion, in 1874, of these and all other indispensable surveys within the Province at least, and have further placed beyond conjecture the commencement of construction works early in 1875. I have been informed by a railway engineer here that, as a matter of practice, the exploratory surveys settle the general bearing or course of a line of railway, and that the subsequent location surveys may be proceeded with at several points along such line simultaneously, and the work of construction be commenced at those points without waiting for the actual location of the whole line. Such being the case, there is no valid reason, in view of all the facts above stated, why this practice should not be followed with respect to the Pacific Railway. The general course of the railway within the Province at least, should be determined this year, and location surveys immediately followed by actual construction, should be commenced early in 1875, at various points on the mainland and on the island. This is what British Columbia above all things desires, and any definite arrangement which will secure her wants in this respect will give the Province much satisfaction.

No. 3. The Dominion will "open up a road and build a telegraph line along the whole length of the railway in the Province, and carry the telegraph wire across the continent."

The performance of this offer, both as to the road and the telegraph line, would depend, in point of time, upon the performance of the preceding offer (No. 2), as the above works would, according to the letter, only be commenced after the completion of the surveys and the location (within the Province) of the whole line along which they are proposed to be constructed. The fact is known to your Lordship that the road here meant is a waggon road intended, for a time at least, to supply the place of the railway. A personal knowledge of the country justifies me in stating that a very large portion of the £50,000 or £60,000 required for its construction would be money

simply thrown away. I can also unhesitatingly state that the road would, even as a temporary substitute for the railway, be wholly unacceptable to the Province at large, including the farmers and producers of the "interior," in whose interests, and for whose benefit it is alleged that the offer is especially made. For the transport of supplies and to meet engineering necessities along the line as railway works progress, a merely passable road is necessary and must be constructed; this, in fact, is all that is required. The telegraph line, when finished, would doubtless be useful, but its construction is a question which should be treated independently of the railway agreement. The railway is what is required, and the people of the Province would prefer seeing the time and money which are proposed to be expended on the above works appropriated to the larger and infinitely more beneficial enterprise.

No. 4. When the "surveys and road on the mainland can be completed, there shall be in each and every year * * * * during the construction of the railway, a minimum expenditure upon the works of construction within the Province, of at least \$1,500,000," and the Dominion "will proceed from the very first with all the works of construction," on the mainland, "that their engineers could sanction."

The expenditure above proposed may be considered, first, in relation to its amount; and next, with reference to the date of its commencement. The amount falls far short of what British Columbia has been led to expect. The cost of the line in British Columbia has been roughly estimated at \$35,000,000 (£7,000,000). Assuming this estimate to be correct, and that ten years would see the completion of the railway, the Province, in accepting the terms of union, had a fair expectation of an average yearly expenditure within her limits of, say, \$3,500,000 (£700,000). After a delay of over three years, with its consequent loss to the Province, it is now proposed by the letter that this amount shall be reduced to the sum of \$1,500,000 (£300,000). Again, dividing the whole cost \$35,000,000 (£7,000,000), by this sum, a period of twenty-three and a half years would be obtained as the time required for the completion of the Provincial section of the line alone, and this period would be only computed from the date when expenditure would be commenced, and not from the date of the letter. It is true that the expenditure proposed is to represent a minimum outlay, which, after several years might for obvious reasons increase with the progress of the work, but I submit that in estimating the value of this or of any similar proposal, the actual figures given—and not contingent amounts which might never be spent—must be the bases of calculation.

Moreover, not only is the proposed expenditure inadequate, but the period when it is to be begun is left largely open to doubt. The letter states that the expenditure will follow the completion "along the whole length of the railway in the Province," of the waggon road mentioned in offer No. 3. The completion of this road, in turn, has to depend upon the completion of all the surveys, and upon the location of the whole line on the mainland (see offer No. 2); and the completion of these surveys and the location of this line are, in point of time, wholly left open to uncertainty. It is stated that from the "very first" construction work on the mainland will be done at such places as the sanction of the engineers will warrant, but this sanction will naturally be deferred until the expenditure, which has been proposed to cover construction work generally, should be commenced. Taken throughout, no offer could well be more indefinite than the above.

Adding all the uncertainties mentioned to the fixed period of $23\frac{1}{2}$ years (or even to a reduced period), it would appear that the above offer may be described as one for the postponement of the completion of the line within the Province for a lengthened period, possibly until some time in the next century.

Your Lordship will observe, what I must consider an important matter, that all the preceding offers refer, and are strictly confined to the British Columbian portion of the railway. The letter is wholly silent as to the extension of the line beyond the eastern frontier of the Province. British Columbia is thus by implication virtually requested to surrender one of the elements most important to her in the contract, namely, the right to insist upon all rail communication with the Eastern Provinces.

I shall now, as proposed, make a few comments upon certain statements and admissions contained in the letter. Probably the most important of the former is the statement that the Dominion Government "are advised by their engineers that "the physical difficulties are so much greater than was expected, that it is an impossibility to construct a railway within the time limited by the terms of Union, and "that any attempt to do so can only result in wasteful expenditure and financial "embarrassment." Upon this point the Provincial Government are without any information save what is afforded by the last report as published of the Chief Engineer of the Dominion Government. A reference to this report would lead the reader to a rather contrary conclusion to that above expressed. On page 34, section 5, the Chief Engineer makes the following statement:—"It may indeed be now accepted as a certainty, that a route has been found generally possessing favorable engineering features, with the exception of a short section approaching the Pacific coast; which route, taking its entire length, including the exceptional section alluded to, will, on the average, show lighter work, and will require less costly structures than have been necessary on many of the railways now in operation in the Dominion. It is worthy of notice that this report, so favorable to the enterprise, is dated only some four months prior to the date of the letter now under discussion. During the interval between these dates, all surveys in the Province had been suspended. I may further remind your Lordship that the charter for the construction and completion of the railway in ten years from 1871, according to the terms of Union, was keenly competed for by two separate combinations, including men of great railway experience, large capital, and high position in the Dominion. These companies, apparently, did not consider the undertaking to make the railway within the stipulated time impracticable. On the contrary, up to February, 1873, so eager was the competition, and so powerful were the organizations in point of wealth, influence and ability, that the Dominion Government decided to give the charter to neither; and, upon the two companies failing to amalgamate, as suggested by the Government, the Government, under certain powers conferred by Parliament, formed a new company, based upon the principle that each Province should be represented in the undertaking. To this new company a charter was granted on the 5th of February, 1873. With the political or other causes which subsequently led to the surrender of the charter, it is not my duty to deal. The strong fact remains that two responsible and rival companies were willing, and a third undertook, to construct a through line of railway to connect the east and west of the Dominion in eight years from February 1873. Neither in the prospectus of the successful company nor in the voluminous correspondence which took place previously between the two unsuccessful companies on the subject of their respective claims to the charter, and of their proposed amalgamation, was any doubt expressed as to the possibility of fulfilling this time obligation. Had such a doubt existed, it is fair to infer that the Dominion Government would have requested the assistance of the Province to remove it. No such request was, however, made.

With respect to the statement before your Lordship that the chartered company considered an extension of four years necessary to place the financial success of the enterprise beyond doubt, the Provincial Government are without any information save what is contained in, or may be inferred from, the last paragraph of section 8 of the charter granted to the Company, which reads as follows:—"The Company "shall "complete the whole railway within ten years from the said 20th of July, 1871, unless "the last mentioned period shall be enlarged by Act of Parliament, in which case the "company shall complete the whole railway within such extended period." Admitting, for the sake of argument, however, that such extension of four years was deemed necessary, the completion of the line would not have been deferred beyond 1885. The extract already quoted from the Engineer's Report, dated, as it is, about twelve months after the date of the charter, and made after a further knowledge of the country had been acquired, tends strongly to confirm the views of the respective companies that the completion of the railway was practicable in 1881, or at the furthest in 1885.

The value of the above facts and correspondence is material, as showing, in the first place, that it was considered all important that a definite period should be assigned for the execution of a work upon which confederation hinges; and in the next place, that 1881, or at most 1885, was a reasonable definition of that period.

The Province, after all her disappointments, above all things desires that the "prompt commencement, continuous prosecution," and early completion of the railway shall be definitely assured on, in the language of the letter, "be guaranteed." The Provincial Government, therefore, strongly but respectfully resist the contention of the Dominion Government that the commencement, prosecution and completion of the line shall be left open to a doubtful and indefinite period.

The further opening statement in the letter, that the Dominion Government are willing "to enter into additional obligations of a definite character the benefit of the Province," may be said to have been disposed of as the nature and character of these "obligations" have, in the analysis made of the offers, been already examined. I shall therefore pass on to what I have termed the admissions in the letter. The most important of these is an admission which may be inferred from the offer made by the Dominion Government to "commence railway construction immediately from Esquimaux to Nanaimo." Here it is admitted that the Dominion Government were in a position, at least in May last (the date of the letter), if not before, to have begun the railway in the Province. There is, and has been, therefore no excuse for delay in pushing forward the work.

Of scarcely less importance is a second admission, which reads as follows: "To a country like British Columbia it is conceded, however, to be an important point that not only the prompt and vigorous commencement, but also the continuous prosecution of the work of construction within the limits of the Province, should be guaranteed."

To these two admissions may be added a third, and last: the Dominion Government, while conceding that railway construction should be commenced at the seaboard of the Province, consider it most important that every effort should be made by them to push forward the construction of the railway on the mainland, in order that the legitimate advantages of expenditure should, as far as possible, fall into the hands of the farmers and producers of the interior.

This is an object which the Provincial Government have much at heart, and strongly desire to see realized.

With the clear and just sense which the Dominion Government thus appear to have of what is due to the Province; with their full appreciation, on the one hand, of the wants of the interior, and on the other, of the requirements of the Island, it might have been expected that they would, as "a Government responsible for the progress of both shores of the continent," at least have given some more definite as well as some practical meaning to their expressions of solicitude for the welfare of the people of the Province.

I have thus dwelt upon the letter at considerable length, as your Lordship's attention has been specially directed to it in connection with the present case. I conceive the following to be a synopsis of its offers and conditions: Canada will commence, on the Island, immediate construction of the railway at Esquimaux, and finish about sixty miles of it (time of completion indefinite). On the mainland she will prosecute the surveys for the remainder of the line, and finish these surveys (time also indefinite). She will thereafter "locate" the line falling within the Province (time also indefinite). When this can be achieved, she will make along this "located" line, a waggon road (which the Province does not want), and a telegraph line (which the Province has not asked for), and will carry the latter across the continent (time of completion of both road and telegraph line indefinite). Ultimately, after the completion of the surveys and of the road, but not before, Canada will begin, and will continue railway works in the Province, and spend thereon, year by year, not less than £300,000 (whether this sum will include the Esquimaux line or not is doubtful. It is the only expenditure offered. As I have shown your Lordship, Canada thus proposes to ensure to the Province the completion of the line within 1 or

limits in twenty-three and a half years, or less, dating from the unknown period at which the offered expenditure can be commenced). Canada will do all this work: "in the shortest time practicable," a phrase a shade stronger than the words "with due diligence," three words, the construction of which has given rise to much doubt, and to much painful litigation. In consideration of these offers (if accepted), British Columbia shall, (1st) abandon all claim to the completion of the Canadian Pacific Railway within a definite time; and (2nd) shall (virtually, though not quite so expressed) surrender her right to, and interest in, the completion of about 2,000 miles of the line necessary to connect the eastern frontier with Eastern Canada. Apart from the very objectionable features of the last two conditions, the indefinite character of the above proposals made to the Province is in marked contrast to the statement of the Dominion Government that, "to a country like British Columbia," it is important that the early completion of the railway within her limits should be ensured; and, therefore, that a guarantee should be given by the Dominion Government for "its prompt commencement" (which depends on the prompt completion of the surveys), and also for "its continuous construction" (which depends on yearly specific expenditure). This concludes my remarks upon the letter.

I have endeavored to place before your Lordship a full history of the position of British Columbia with respect to confederation. A very unsatisfactory state of affairs has been disclosed, if the question be regarded simply as a question between the Dominion and one of her Provinces. On the part of the Dominion there have been delays, default, and avowal of default, followed by offers and conditions such as I have described.

The peculiar situation of British Columbia, her remoteness, her weak political position, her dependence on the good faith of the Dominion, the hopes that have been held out and deferred, the grievous loss that has ensued, the consequent utter prostration of her interests, all these give her claims upon Canada, which the present Dominion Government have, as already shown, to a certain extent acknowledged in words. These claims the Provincial Government hope will not be overlooked by your Lordship in considering the reasonable measure of justice to which the Province is entitled under the terms of Union. The Province has not expected anything that is unreasonable, and does not do so now. It is her urgent desire that matters should be forthwith placed on a fair business-like footing, and above all, on a footing of certainty, with proper safeguards to ensure that certainty, so that a good and cordial understanding may be restored and not again be disturbed.

I have, &c.,

(Signed,)

GEO. A. WALKER,
*President of the Executive Council
of British Columbia.*

(No. 313.)

OTTAWA, 18th December, 1874.

MY LORD,—I have the honor to transmit to your Lordship a copy of an Order of the Privy Council, in which my Ministers convey to your Lordship their best acknowledgment for the pains and trouble you have been good enough to take in promoting the settlement of the difference which had arisen between British Columbia and the Government of the Dominion.

I have, &c.,
(Signed,)

DUFFERIN.

The Earl of Carnarvon,
&c., &c., &c.

(902 D.)

COPY of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council, on the 18th December, 1874.

The Committee of Council have had under consideration the despatch of the Right Honorable Lord Carnarvon, Secretary of State for the Colonies, of November 17th, conveying a statement of the new terms with British Columbia, which, in his Lordship's opinion, may properly be laid down as fair and reasonable concerning the construction of the Pacific Railway.

In the minute of July 23rd, the Government of the Dominion advised that his Lordship should be informed of their willingness to leave it to him to say whether the exertions of the Government, the diligence shown, and the offers made were or were not fair and just, and in accordance with the spirit of the original agreement, seeing it was impossible to comply with the letter of the terms of Union in this particular.

The conclusion at which his Lordship has arrived "upholds," as he remarks, in the main and subject only to some modifications of detail, the policy adopted by this Government on this most embarrassing question.

The minute of Council of September 17th contained a statement of reasons showing why some of these modifications should not be pressed, but the Government actuated by an anxious desire to remove all difficulties, expressed a willingness to make these further concessions rather than forego an immediate settlement of so irritating a question, as the concessions suggested might be made without involving a violation of the spirit of any Parliamentary resolution, or the letter of any enactment.

The Committee of Council respectfully request that Your Excellency will be pleased to convey to Lord Carnarvon their warm appreciation of the kindness which led his Lordship to tender his good offices to effect a settlement of the matter in dispute; and also to assure his Lordship that every effort will be made to secure the realization of what is expected.

Certified.

(Signed,)

W. A. HIMSWORTH,
Clerk, Privy Council.

(Canada.—No. 4.)

Earl Carnarvon to Earl Dufferin.

DOWNING STREET, 4th January, 1875.

MY LORD,—I have the honor to acknowledge the receipt of your despatch of the 18th of December, forwarding to me a copy of an Order of the Dominion Privy Council expressing the acknowledgments of the Government of Canada for the services which I have been fortunate enough to render in promoting the settlement of the differences which had arisen between British Columbia and the Government of the Dominion with respect to the construction of the Pacific Railway.

It has been with great pleasure that I have received this expression of their opinion. I sincerely rejoice to have been the means of bringing to a satisfactory conclusion a question of so much difficulty, of removing, as I trust, all ground of future misunderstanding between the Province of British Columbia and the Dominion, and of thus contributing towards the ultimate completion of a public work in which they, and indeed the whole Empire, are interested.

I have the honor to be, my Lord,

Your Lordship's most obedient humble servant,

(Signed,)

CARNARVON.

Governor General

The Right Honorable

The Earl of Dufferin, K.P., K.C.B.

&c., &c., &c.

(Copy No. 18.)

BRITISH COLUMBIA,
GOVERNMENT HOUSE, 31st March, 1874.

SIR,—I have the honor to enclose herewith a minute of the Executive Council of this Province, together with a copy of the Act respecting Articles 2 and 12 of the terms of Union, passed at the recent Session of this Legislature of British Columbia, and to which this minute refers; and, in accordance with the advice and desire of my Ministers, I beg you to lay this despatch and its enclosure before His Excellency the Governor General, and to commend the request of this Government, expressed in the said minute, to His Excellency's favorable consideration.

I have the honor to be, Sir,
Your obedient servant,
(Signed,) JOSEPH W. TRUTCH.

The Honorable
The Secretary of State
for Canada.

Copy of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Lieutenant-Governor, on the 30th day of March, 1874.

The Committee of Council have had under consideration a memorandum dated 16th March, 1874, from the Honorable the Minister of Finance, submitting that as authority has been given by the Legislature for the expenditure in excess of revenue, of the sum of \$300,000 or thereabouts, it is advisable that immediate steps should be taken to insure that that sum shall be at the call of the Government when required, and recommending that a copy of the "Act to alter the terms of Union 1874," be sent to the Dominion Government with the request that the Provincial Government be informed by telegram if it is the intention of the Dominion Government to introduce a corresponding measure to the Parliament of Canada, in order that should a negative answer be returned, no time may be lost in obtaining the funds elsewhere under the powers conferred by the "British Columbia Loan Act, 1874."

The Committee concur with the recommendation of the Minister of Finance, and advise its approval, and request that Your Excellency will be pleased to forward a copy of this report through the proper channel to the Dominion Government, at the same time asking that a measure to compliment the Act to alter the terms of Union 1874, be introduced to the Parliament of Canada, and that a telegram anticipating any written reply may be sent to Your Excellency.

Certified.
(Signed,) W. J. ARMSTRONG,
Clerk, Executive Council.

37 Vict.]

[No. 1.]

TERMS OF UNION AMENDMENT.

An Act respecting Articles 2 and 12 of the Terms of Union,

[Assented to 2nd March, 1874.]

WHEREAS, by Article 2 of the terms of Union between this Province and the Dominion of Canada, Canada became liable for the actual debt due by the Province at the date of Union, and agreed to pay to the Province, half-yearly in advance, interest at the rate of five per centum per annum on the difference between such actual debt, and a certain amount hereinafter called the "allowed debt," which allowed debt has been fixed and determined by chapter 30 of the Acts of the Parliament of the Dominion of Canada, passed in the 30th year of the present reign.

And, whereas, it has been agreed by and between the Dominion Government and the Provincial Government that, notwithstanding the provisions contained in Article 2, and with a view of enabling the Province to undertake the construction of important public works, that the Dominion Government shall pay to the Provincial Government such sums of money together not exceeding the difference between the actual debt and the said allowed debt, as may from time to time be applied for, and to be charged against such difference of debt aforesaid.

And, whereas, it has also been agreed by and between the two Governments that the Dominion Government shall pay to the Provincial Government the sum of \$250,000 to aid in the construction of a graving dock at Esquimaux, in lieu of the guarantee of five per cent. per annum on £100,000 for ten years, as set forth in Article 12 of the terms of Union.

And, whereas, the sanction of the Parliament of the Dominion of Canada and of the Legislature of British Columbia is necessary to ratify such agreements.

Therefore Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of British Columbia, enacts as follows:

1. Notwithstanding anything contained in Article 2 of the terms of Union aforesaid, it shall be lawful for the Government of British Columbia, **Respecting Article 2 of terms of Union.** subject to the above recited conditions, from time to time, to apply for and to receive from the Dominion Government such sums of money as shall together not exceed the difference between the actual debt and the allowed debt of the Province.

2. In lieu of Article 12 of the terms of Union aforesaid, it shall be lawful for the Government of British Columbia to apply for and to receive from the Dominion Government \$250,000 in aid of the construction of a graving dock at Esquimaux; and upon payment of such sum Article 12 shall be void and of no effect. **Respecting Article 12.**

3. It shall be lawful for the Province of British Columbia to refund, at any time to the Dominion the sums so advanced as aforesaid, to be held upon **Refund of money advanced.** and subject to the same conditions by the Dominion Government as the moneys now held by them.

4. Provided that the provisions of this Act, or any negotiations made or entered into in connection therewith, or the payment by Canada, or the acceptance by British Columbia of any moneys under or by reason thereof, shall not **Saving clause.** in any manner affect the railway or other clauses of the terms of Union, or operate so as to waive or in any way affect any right or rights which British Columbia may now or may hereafter possess, for or in respect of any existing breach or breaches, or of any future breach or breaches by Canada of the terms of Union between Canada and British Columbia, or operate as a waiver of the right of the Province to insist upon the commencement, and the vigorous prosecution by the Dominion Government of the construction of a railway simultaneously "from the Pacific towards the Rocky Mountains, and from such point as may be selected east of the Rocky Mountains towards the Pacific, to connect the seaboard of British Columbia with the railway system of Canada;" or of the right to have secured the completion of such railway within ten years from the date of the Union, conformably to section 11 of the terms of Union.

5. This Act shall not have any force or effect unless the above proviso be **Suspending clause.** inserted, in the same words, in any Act of the Parliament of Canada which may be passed for the purposes of this Act.

Lieutenant-Governor.

The Honorable R. W. Scott,
Secretary of State,
Ottawa, Canada.

(No. 40.)

BRITISH COLUMBIA,

GOVERNMENT HOUSE, 11th June, 1874.

SIR,—I have the honor to enclose for the consideration of His Excellency the Governor General a Minute of the Executive Council of this Province, representing that British Columbia is suffering great injury from the failure by Canada to carry out the obligations of the 11th clause of the Terms of Union, and that it is advisable in the interests of this Province that the case be laid before the Imperial Government by means of a memorial to be presented to the Secretary of State for the Colonies by the Attorney-General of British Columbia, as special Agent and Delegate of this Government.

In accordance with the advice of my Ministers, I have appointed the Honorable George Anthony Walkem, Attorney-General of this Province, to be such special agent and delegate, and at their request, I beg you to inform His Excellency the Governor General, that Mr. Walkem has been duly appointed as such special agent and delegate, and to move His Excellency to acquaint the Right Honorable Her Majesty's Principal Secretary of State for the Colonies, that Mr. Walkem has been authorized and instructed to place in his hands the memorial of this Government, appealing to Her Majesty and to support the prayer thereof.

Mr. Walkem will proceed to Ottawa by the next mail, and will take with him a duplicate of this despatch.

I have the honor to be, Sir,

Your obedient servant,

(Signed,)

JOSEPH W. TRUTCH.

COPY of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Lieut.-Governor on the 11th day of June, 1874.

The Committee of Council have had under consideration the memorandum of the Honorable the Provincial Secretary, dated 11th June, 1874, representing that the essential clause of the terms of Union provided that the Government of the Dominion should secure "the commencement simultaneously of the construction of a Railway from the Pacific towards the Rocky Mountains, and from such point as may be selected East of the Rocky Mountains towards the Pacific, to connect the seaboard of British Columbia with the railway system of Canada; and further, to secure the completion of such railway within ten years from the date of the Union."

That the set time for commencement of the work passed nearly a year ago, and that no commencement of construction has yet been made.

That the Secretary of State of the Dominion has informed this Government that no commencement can be made this year in consequence of the surveys being incomplete.

That by Order of the Privy Council of Canada it was decided last year that a portion of the line be located between the harbor of Esquimaux and Seymour Narrows, and, that in consequence of that order, and at the request of the Dominion Government, the lands for a width of twenty miles along that line have been reserved by the Provincial Government.

That the Premier of the Dominion Government has in an informal manner, but nevertheless in a manner acknowledged to be at the instance of the Dominion Government, offered immediately to undertake the commencement of the work, provided that British Columbia would agree to certain terms of relaxation.

That the relaxation proposed was that British Columbia was that British Columbia should agree to cancel the railway clause of the terms as regards the mainland part of the Province, and accept in lieu thereof a promise to build a wagon road after the line of railway had been permanently located, on the completion of which, at an undefined time, railway construction would commence.

That such proposal has, however, been withdrawn.

That according to the preamble of the "Canadian Pacific Railway Act, 1874," the railway is to be constructed "as rapidly as the same can be accomplished without raising the rate of taxation."

That the bearing of the Dominion Government towards British Columbia is equivalent to the repudiation of the liability of the Dominion to fulfil as far as possible the engagement made respecting the construction of the Pacific railway.

That by the course of action taken by the Dominion Government, British Columbia has sustained, and is suffering great injury and loss.

That with a view to obtain redress, it is advisable that the case of British Columbia be submitted for the consideration of the Imperial Government.

The Committee concur with the recommendation, and advise that your Excellency do charge the Honorable the Attorney-General and the Provincial Secretary with the preparation of a memorial and remonstrance on behalf of the Provinces regarding the non-fulfilment of the terms of Union by the Dominion Government to be submitted to Her Most Excellent Majesty the Queen-in-Council.

The Committee further advise, should this report be approved, that the Honorable George Anthony Walkem be appointed a special agent and delegate instructed to proceed at once to London for the purpose of placing the memorial in the hands of the Right Honorable the Secretary of State for the Colonies, and of supporting the prayer thereof, and request your Excellency to inform the Governor General of Mr. Walkem's appointment, and ask that he be provided with a suitable introduction to Her Majesty's Principal Secretary of State for the Colonies.

Certified,

(Signed,)

W. J. ARMSTRONG,
Clerk, Executive Council.

To Lieutenant Governor Trutch,
Victoria.

OTTAWA, July 13th, 1874.

SIR,—I have the honor to forward to you for your perusal, and for the information of your Government, two copies of the protest of the British Columbia Government against the breach or infraction of the "terms of Union" with Canada by the Dominion Government, which I have been authorized to present in person to Her Majesty's Government. Two copies of the charts referred to in the protest are also herewith forwarded.

May I request you to be good enough to acknowledge their receipt.

I have the honor to be,

Your obedient servant,

(Signed,) GEO. A. WALKEM,
Attorney-General, B. C.

The Honorable Alex. Mackenzie,
Premier Dominion Government.

DEPARTMENT OF SECRETARY OF STATE,
OTTAWA, 13th July, 1874.

SIR,—I am directed to acknowledge the receipt of your letter of this date, addressed to the Hon. Mr. Mackenzie, transmitting two copies of the protest of the British Columbia Government against the alleged breach or infraction of the terms of Union with Canada by the Dominion Government, which you have been authorized to present in person to Her Majesty's Government; and also forwarding two copies of the chart referred to in the protest.

I have, &c.,

Honorable G. A. Walkem,
Attorney General
of British Columbia,
Ottawa.

(Signed,) EDOUARD J. LANGEVIN,
Under Secretary of State.

(Canada—No. 110.)

DOWNING STREET, 18th June, 1874.

MY LORD,—The intimation which I have received by telegraph of the departure from British Columbia of the President of the Council and Attorney-General of that Province, sent to this country for the purpose of appealing against the course proposed by your Government and sanctioned by the Dominion Parliament in regard to the Pacific Railway, together with the reports of the proceedings in that Parliament, and other informal communications have led me to apprehend that the difference of opinion which has unfortunately occurred, may not only prove difficult to adjust, but may not possibly, if it remains long unsettled, give rise to feelings of dissatisfaction, and to disagreements, the existence of which within the Dominion would be a matter of serious regret.

2. It is not my wish, nor is it a part of my ordinary duty to interfere in these questions. They appear to me to be such as it should be within the province and the competency of the Dominion Government and Legislature to bring to a satisfactory solution, and you will readily understand that Her Majesty's Government would be very reluctant to take any action which might be construed as expressing

a doubt of the anxiety of the Dominion Government and Parliament to give the fullest consideration to such representations as may be made on the part of British Columbia, and to deal in the fairest and most liberal spirit with what may be established as being the just claims of that Province.

3. At the same time I am strongly impressed with the importance of neglecting no means that can properly be adopted for effecting the speedy and amicable settlement of a question which cannot, without risk and obvious disadvantage to all parties, remain the subject of prolonged, and it may be, acrimonious discussion; and it has occurred to me that as in the original terms and conditions of the admission of British Columbia into the Union, certain points (as for example, the amount of land to be appropriated for the Indians, and the pensions to be assigned to public officers deprived of employment) were reserved for the decision of the Secretary of State, so in the present case it may possibly be acceptable to both parties that I should tender my good offices in determining the new points which have presented themselves for settlement. I accordingly addressed a telegram to you yesterday to the effect that I greatly regretted that a difference should exist between the Dominion and the Province in regard to the railway, and that if both Governments should unite in desiring to refer to my arbitration all matters in controversy, binding themselves to accept such decision as I may think fair and just, I would not decline to undertake this service.

4. The duty which, under a sense of the importance of the interests concerned, I have thus offered to discharge, is, of course, a responsible and difficult one, which I could not assume, unless by the desire of both parties; and unless it should be fully agreed that my decision, whatever it may be, shall be accepted without any question or demur. If it is desired that I should act in this matter, it will be convenient for each party to prepare a statement to be communicated to the other party, and after a reasonable interval, a counter-statement, and that on these written documents I should, reserving, of course, to myself the power of calling for any other information to guide me in arriving at my conclusion, give my final decision.

5. I request you to transmit a copy of this despatch with the utmost possible speed to the Lieutenant-Governor of British Columbia. I have communicated to Mr. Sproat, the agent for British Columbia, for transmission by telegraph to the Government of that Province, the purport of the telegram which I addressed to you yesterday, in order that my offer may come before both parties as soon as possible.

I have the honor to be, my Lord,

Yours, &c.,

(Signed,)

CARNARVON.

(Copy of Telegram.)

VICTORIA, B. C., 4th August, 1874.

My Ministers request me to state for the information of the Governor General that the following message, namely, "Colonial Secretary, London, 3rd August, upon advice of responsible Ministers I accept, on behalf of British Columbia arbitration offered in your despatch to Lord Dufferin 18th June. Please acknowledge. Joseph W. Trutch, Lieut.-Governor British Columbia" has been this day telegraphed to Lord Carnarvon.

(Signed,)

JOSEPH W. TRUTCH,

Lieutenant-Governor.

To the Hon. R. W. Scott,
Secretary of State.

(Copy of No. 53.)

BRITISH COLUMBIA,
GOVERNMENT HOUSE, 3rd August, 1874.

SIR,—I have the honor to transmit to you, for the information of His Excellency the Governor General, a copy of a despatch addressed by me to Her Majesty's Principal Secretary of State for the Colonies, expressing the acceptance by this Government of the offer made by his Lordship in his despatch of the 18th of June, to the Governor General, to arbitrate in the difference existing between the Government of Canada and this Province in relation to the railway article of the terms of Union, together with a copy of the minute of the Executive Council of British Columbia therewith enclosed, expressing the opinions and advice of my responsible Ministers upon Lord Carnarvon's proffered arbitration, and in accordance with which my said despatch to his Lordship, and the telegraphic message therein referred to, and of which a copy is appended, as well as this communication and the telegram to you of this day's date, a copy which is also attached hereto, are at the same time despatched.

I have the honor to be, Sir,

Your obedient servant,

(Signed,) JOSEPH W. TRUTCH.

The Honorable
The Secretary of State,
Ottawa.

(Copy)

Lieutenant-Governor to Earl Carnarvon.

3rd August, 1874.

MY LORD,—I have the honor to state that on the 28th ultimo, I received and laid before my responsible advisers a copy of your Lordship's despatch, of June the 18th, to Governor General the Earl of Dufferin, upon the pending difference between this Province and the Government of Canada, in relation to the railway article of the terms of Union, which despatch was transmitted to me by Lord Dufferin on the 3rd ultimo, in accordance with your Lordship's instructions.

I now enclose a minute of the Executive Council of this Province on your said despatch, and upon the advice of my Ministers thereon expressed I beg to signify my cordial acceptance on behalf of the Government of British Columbia of your Lordship's proffered arbitration in accordance in all respects with the conditions laid down by you in your said despatch: and to state that I have to day despatched a telegraphic message to you to this effect of which a copy is appended.

A copy of this despatch and enclosures therewith will be sent by this mail to the Secretary of State for Canada, for the information of the Governor General of Canada.

I have, &c.,

(Signed,)

JOSEPH W. TRUTCH.

COPY of a report of a Committee of the Honorable the Executive Council, approved by His Excellency the Lieutenant-Governor, on the 3rd day of August, 1874.

The Committee of Council have had under consideration the proposal for a reference to arbitration of the question between the Province and the Dominion Government respecting the fulfilment of the terms of Union contained in the despatch dated 18th June, 1874, from the Right Honorable the Earl of Carnarvon, Her Majesty's Principal Secretary of State for the Colonies, to His Excellency the Governor General, a copy of which has been transmitted for the information of Your Excellency and referred to them for report.

In this despatch the Secretary of State observes that he is strongly impressed

with the importance of neglecting no means that can properly be adopted for effecting the speedy and amicable settlement of a question which cannot, without risk and obvious disadvantage to all parties, remain the subject of prolonged, and it may be acrimonious, discussion.

That it has occurred to him that as in the original terms and conditions of the admission of British Columbia into the Union, certain points were reserved for the decision of the Secretary of State, so in the present case it may possibly be acceptable to both parties that he should tender his good offices in determining the new points which have presented themselves for settlement.

That if both Governments should unite in desiring to refer to his arbitration all matters in controversy, binding themselves to accept such decision as he may think fair and just, he would not decline to undertake this service.

That the duty which, under a sense of the importance of the interest concerned, he has thus offered to discharge is of course a responsible and difficult one, which he could not assume unless by the desire of both parties; nor unless it should be fully agreed that his decision, whatever it may be, shall be accepted without any question or demur.

The Committee concur with the Secretary of State in regretting that a difference exists between the Dominion and this Province in regard to the railway, and that it is most desirable for all parties that all the questions in controversy should receive a speedy and amicable settlement, and they are of opinion that a reference to arbitration is the course of all others most likely to lead to so desirable a result.

They therefore advise the cordial acceptance by your Excellency of the arbitration of the Secretary of State, in accordance with the conditions laid down in His Lordship's despatch of the 18th June, 1874, and should this report be approved they recommend that the acceptance by this Government, on behalf of British Columbia, of the arbitration of the Right Honorable the Secretary of State for the Colonies, be immediately communicated by your Excellency to that Minister by telegraph and by mail, and that copies of such communications be transmitted simultaneously to the Secretary of State for Canada, for the information of His Excellency the Governor General.

EDOUARD J. LANGEVIN,

Under Secretary of State.

To His Honor the Lieutenant-Governor
of British Columbia, Victoria.

(No. 8 A.)

OTTAWA, July 4th, 1874.

SIR,—I have been informed that you intend to leave for Quebec to-day. If this be the case, may I be excused for pressing upon your attention my present very unsatisfactory position in having received no definite information respecting my credentials to the Right Honorable the Principal Secretary of State.

It is considered of great importance by the Government of British Columbia, that I should use all possible despatch in executing my mission to England.

May I therefore request you to inform me when I shall be put in possession of the necessary authority to enable me to accomplish my task.

I have the honor to be,

Your obedient servant,

GEO. A. WALKER.

The Honorable A. Mackenzie,

(No. 162.)

OTTAWA, June 4th, 1874.

MY LORD.—I have the honor to enclose a copy of a Bill which I have thought it advisable to reserve for your Lordship's approbation.

Accompanying the Bill is an Order in Council, explaining its provisions, and
 4th June. insisting, with very great force, on the desirability of the object it is intended to effect.

My Government attach the very greatest importance to the measure, and have requested me to urge their views upon your Lordship in the strongest possible language.

I have, &c.,
 (Signed,) DUFFERIN.

The Earl of Carnarvon,
 &c., &c., &c.

Copy of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General on the 4th June, 1874.

The Committee of the Privy Council have the honor to report:—

That at the last Session of the Parliament of Canada, a Bill was passed by both Houses entitled "An Act to regulate the construction and maintenance of Marine "Electric Telegraphs," which, in accordance with paragraph seven of the Royal Instructions, was, upon the advice of the Minister of Justice, reserved by His Excellency the Governor General for the signification of Her Majesty's pleasure; and that the Minister of Justice thus advised, as the Bill "is one of some importance, "and may possibly be considered to prejudice the interests and rights of property of "Her Majesty's subjects not residing in Canada."

That the Anglo-American Telegraph Company appeared by counsel before the Committee of the Senate to which the Bill was referred, and urged that their rights and privileges would be prejudiced by it, but that the Committee reported in favour of the Bill, and the same was then passed by that body.

That the advice to the Governor General that the Bill should be reserved, was given merely in deference to the language of the Royal Instructions, and not from any conviction or belief that the Bill in any way interferes with or is prejudicial to the rights of the Anglo-American Telegraph Company, or of any other company with similar objects or with similar rights.

That the Bill in question is calculated to afford facilities to any persons seeking incorporation for the purposes of Marine Telegraphs, and will tend to promote, not the establishment (or monopoly) of one Company only, but of several, for the same purposes.

Whilst, as regards any supposed rights or franchises of the Anglo-American Company, or of any other Company with which this Bill can be alleged to interfere, the Committee are quite at a loss to know in what they can be said or supposed to exist, or what peculiar rights of any kind that Company or any other can at present claim in Canada.

The fourteenth section prohibits any Company, except such as have been or may be incorporated in Canada from maintaining or constructing a Marine Telegraph, (saving the user of any existing telegraph company, during the non-existence of

any Company arising within the provisions of the Bill). But the fifteenth section provides that "the necessary corporate powers in Canada (for any Company so prohibited by the fourteenth section,") may be procured from the Governor in Council; upon condition, however, that other Companies created under the authority of the reserved Bill shall have conceded to them, and enjoy equally with it any advantages or privileges which it may possess.

In these provisions, therefore, will be found the object of the Act: the encouragement of Marine Telegraph Companies in Canada; but so, as that all such Companies, whether of Imperial or Canadian incorporation, shall enjoy equal rights and privileges in all respects amongst themselves, and without any special monopoly.

That is to say, Parliament is willing to extend to Companies of Imperial or Parliamentary origin in Great Britain the same corporate powers which it is proposed shall exist in any Companies of Canadian incorporation, provided that equal rights and privileges in all respects are enjoyed by all.

The Committee are of opinion that no Company is in existence, possessing rights and privileges in Canada, which can in any way be legally affected by the reserved Bill.

They, at the same time, desire to express their strong conviction that this measure is calculated to be highly beneficial to the interests of Canada, and is also in accordance with the established policy of the country, and they submit that Her Majesty's Secretary of State for the Colonies be requested to pray Her Majesty's sanction to the Bill at an early date.

Certified.

(Signed,)

W. A. HIMSWORTH,
Clerk, Privy Council.

I, Robert LeMoine, Esquire, Clerk of the Parliaments, and Custodian of the Statutes of the Parliament of the Dominion of Canada, certify the subjoined to be a true copy of the original Act passed by the Senate and House of Commons in the first Session of the third Parliament, held in the thirty-seventh year of Her Majesty's reign, and reserved by the Governor General, on Tuesday the twenty-sixth day of May, one thousand eight hundred and seventy-four, for the signification of the Queen's pleasure thereon.

(Signed,)

ROBERT LEMOINE,
Clerk of the Parliaments.

OTTAWA, 27th May, 1874.

An Act to regulate the construction and maintenance of Marine Electric Telegraphs.

Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. This Act shall apply—

(1.) To every Company or Association of persons hereafter authorized by any special or general Act of the Parliament of Canada or under the provisions of this Act, to construct or maintain telegraphic wires or cables, in, upon, under or across any gulf, bay or branch of any sea or any tidal water within the jurisdiction of Canada or the shore or bed thereof, respectively, so as to connect any province with any other province of the Dominion, or to extend beyond the limits of any province.

(2.) To every Company authorized to construct or maintain such telegraphs before the passing of this Act, by any such special or general Act of the Parliament of Canada, or by any other special Act or charter of any of the provinces constituting the Dominion, and at the time of the passing of this Act in force in Canada.

2. The term "The Company" in this Act shall mean any Company or Association of persons in the preceding section mentioned.

3. The Company shall not place any telegraphic wire, cable, or work connected therewith, in, under, upon, over, along or across any gulf, bay or branch of the sea, or any tidal water, or the shore or bed thereof, respectively, except with the consent of all persons and bodies having any right of property, or other right or any power, jurisdiction or authority in, over, or relating to the same which may be affected, or be liable to be affected by the exercise of the powers of the Company.

4. Before commencing the construction of any such telegraph or work at last aforesaid, or of any buoy or sea-mark connected therewith, except in cases of emergency for repairs to any work previously constructed or laid, and then as speedily after the commencement of such work as may be, the Company shall deposit in the office of the Department of Marine and Fisheries, a plan thereof, for the approval of such Department. The work shall not be constructed otherwise than in accordance with such approval. If any work is constructed contrary to this provision, the Department of Marine and Fisheries may, at the expense of the Company, abate and remove it, or any part of it, and restore the site thereof to its former condition.

5. The Company may, in or about the construction, maintenance or repairs of any such work, use on board ships or elsewhere, any light or signal allowed by any regulation to be made in that behalf by the said Department.

6. If any such work, buoy or sea-mark is abandoned or suffered to fall into decay, the said Department may, if and as it thinks fit, at the expense of the Company, abate and remove it, and restore the site thereof to its former condition, and the said Department may at any time, at the expense of the Company, cause to be made a survey and examination of any such work, buoy or sea-mark, or of the site thereof.

7. Whenever the said Department, under the authority of this Act, does in relation to any such work, any act or thing which the said Department is, by this Act, authorized to do at the expense of the Company, the amount of such expense shall be a debt due to the Crown from the Company, and shall be recoverable as such with costs, or the same may be recovered with costs, as a penalty is or may be recoverable from the Company.

8. The Company may, with the consent of the Governor in Council, take and appropriate for the use of the Company for its stations, offices and works, but not alienate, so much of the land held by the Crown for the Dominion, and the shore or bed adjacent to or covered by any gulf, bay or branch of the sea, or by any tidal water as is necessary for constructing, completing and using the telegraph and works of the Company.

9. The Company may also acquire from any province of the Dominion, any land or other property necessary for the construction, maintenance, accommodation and use of the telegraph and works of the Company, and also alienate, sell and dispose of the same when no longer required for the purpose of the Company.

10. The Company may also acquire from any person or corporation any land necessary for the construction, maintenance and use of the telegraphic cable and works of the Company, adjacent to or near the shore end or place of landing of the telegraph. And in case the Company and such person or corporation should fail to agree upon the possession or price of such land, the Company is hereby empowered to enter upon and take such land, limited to an area of five acres, under the powers, authorities and provisions of the Railway Act, 1868, the sections of which, in respect to compulsory powers for the acquisition of lands, are hereby declared to be applicable to any Company within this Act, and the powers, authorities and provisions contained in the said sections of the Railway Act, 1868, are hereby declared to be vested in and exercisable by any such Company for the purpose aforesaid.

11. The Company shall not be entitled to exercise any of the powers of this Act until the Company shall have submitted to the Governor in Council a plan and survey of the proposed site and location of such telegraph, and its approaches at the shore, and of its stations, offices and accommodations on land, and of all the intended works thereunto appertaining; nor until such plan, site and location have been approved by the Governor in Council, and such conditions as he shall have thought fit for the

public good to impose touching the said telegraph and works, shall have been complied with.

12. The Company shall transmit all messages in the order in which they are received, and at equal and corresponding tariff rates, under the penalty of not less than fifty nor exceeding two hundred dollars, to be recovered with costs of suit by the person aggrieved; and the Company shall have full power to charge for the transmission of such messages, and to demand and collect in advance such rates of payment therefor as shall be fixed from time to time as the tariff of rates by the by-laws of the Company; Provided, however, that arrangements may be made with the proprietors or publishers of newspapers for the transmission, for the purpose of publication of intelligence of general and public interest, out of its regular order, and at less rates of charge than the general tariff rates.

13. Any message in relation to the administration of justice, the arrest of criminals, the discovery or prevention of crime, and Government messages or despatches, shall always be transmitted in preference to any other message or despatch, if required by any person officially charged with the administration of justice, or any person thereunto authorized by the Secretary of State of Canada, or by the Secretary of State for the Colonies on behalf of the Imperial Government.

14. No Company or association of persons other than those mentioned in the first section of this Act, or which become incorporated in Canada under the next following section shall maintain, construct or use any telegraphic wire or cable connecting two or more provinces of the Dominion, or extending beyond the limits of any province in, upon, under or across any gulf, bay or branch of any sea or any tidal water within the jurisdiction of Canada, or the shore or bed thereof, respectively: Provided, that nothing in this section contained shall be construed to prohibit any existing Telegraph Company or Association from continuing to receive and transmit messages over its line of marine telegraph, until such time as another Company, under the authority and within the provisions of this Act, has constructed and is operating a line of marine telegraph which has been determined by the Governor in Council to afford reasonable facilities for the transmission of marine telegraphic messages in lieu of the line or lines of such existing Telegraph Company or Association, or to be a line for doing business over a route of a competitive nature.

15. In case any Company is now or shall hereafter be authorized by any special Act of the Parliament of Great Britain, or incorporated under the Imperial Joint Stock Companies' Act, or any other General Act of the Imperial Parliament or by Royal Charter, for establishing or maintaining telegraph communication in, upon, under or across any gulf, bay or branch of any sea or tidal water within the jurisdiction of Canada, the Governor in Council may by letters patent under the Great Seal of Canada, and upon the terms and conditions to be contained therein, grant a charter to the persons forming such Company, upon the Company petitioning therefor, and such persons and others who may become shareholders in the Company shall be constituted a body corporate and politic by the same name, and with the same power and constitution in Canada, for the said purpose and object of establishing and maintaining their said telegraph and works, within the jurisdiction of Canada, but any such grant shall be expressly subject to this Act, and conditional upon the Company doing, observing and performing the several provisions thereof, and such letters patent being published in the *Canada Gazette* with any order or Orders in Council relating to the said letters patent, shall have the like force and effect, as if the Company had been incorporated by special Act of Parliament, but no such letters patent or grant of corporate powers to be exercised within the jurisdiction of Canada shall be made to or conferred upon any company or association which possesses any exclusive privilege of landing wire or cable for a marine telegraph in or upon the coast of any State, Province or country in America, Europe or elsewhere, unless an equal or reciprocal right or privilege of landing wire or cable, and establishing a marine telegraph upon the same coast is conceded to any and each of the companies in the first section of this Act mentioned, or which may become incorporate in Canada under the provisions of this section of this

Act, so that any Company incorporated or to be incorporated in Canada, may enjoy the same advantages in maintaining its marine telegraph line in and upon the same coast as the said Company which may possess such exclusive privilege.

16. In case any Company heretofore incorporated by any special Act of the Parliament of Canada, has acquired any exclusive privileges of landing wire or cable for a marine telegraph upon the coast of any other country, such Company shall be entitled to exercise and enjoy any such existing privilege unimpaired by this Act; but no Company heretofore incorporated by any such special Act, shall acquire any further or additional exclusive privileges of landing wire or cable as aforesaid.

17. The Parliament of Canada may at any time amend, vary or repeal any of the provisions of this Act.

(Signed,) R. LEMOINE.

(No. 249.)

CANADA. Oct. 2nd, 1874.

MY LORD,—I have the honor to forward, for your Lordship's information, copy of an Order in Council dated the 2nd of October, 1874, in reference to 2nd Oct., 1874. the recent Telegraph Act of the Dominion Legislature, which has been reserved for your Lordship's consideration.

The Order in Council is accompanied by a copy of the "Money Market Review," and a pamphlet of Anglo-American Telegraph Company, and by copy of an Order in Council of the 4th of June, 1874, relative to the same subject.

These documents have only reached me as the mail was upon the point of closing, and I have not had time to do more than glance at the principal document. I forward it, however, being unwilling to delay its arrival in your Lordship's hands.

I have, &c.,

(Signed,) DUFFERIN.

The Right Honorable
The Earl of Carnarvon,
&c., &c., &c.

COPY of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council, on the 4th June, 1874.

The Committee of the Privy Council have the honor to report:—

That at the last Session of the Parliament of Canada a Bill was passed by both Houses, entitled "An Act to regulate the construction and maintenance of Marine Electric Telegraphs," which, in accordance with paragraph seven of the Royal Instructions was, upon the advice of the Minister of Justice, reserved by His Excellency the Governor General for the signification of Her Majesty's pleasure; and that the Minister of Justice thus advised, as the Bill "is one of some importance and may possibly be considered to prejudice the interests and rights of property of Her Majesty's subjects not residing in Canada."

That the Anglo-American Telegraph Company appeared by counsel before the Committee of the Senate to which the Bill was referred, and urged that their rights and privileges would be prejudiced by it; but that the Committee reported in favor of the Bill, and the same was then passed by that body.

That the advice to the Governor General that the Bill should be reserved, was given merely in deference to the language of the Royal Instructions, and not from any conviction or belief that the Bill in any way interferes with or is prejudicial to the rights of the Anglo-American Telegraph Company, or of any other Company with similar objects or with similar rights.

That the Bill in question is calculated to afford facilities to any persons seeking incorporation for the purposes of marine telegraphs, and will tend to promote, not the establishment (or monopoly) of one Company only, but of several for the same purposes.

Whilst as regards any supposed rights or franchises of the Anglo-American Company, or of any other Company with which this Bill can be alleged to inter-

fore, the Committee are quite at a loss to know in what they can be said or supposed to exist, or what peculiar rights of any kind the Company or any other can at present claim in Canada.

The fourteenth section prohibits any Company, except such as have been or may be incorporated in Canada, from maintaining or constructing a marine telegraph (saving the user of any existing telegraph company during the non-existence of any Company arising within the provisions of the Bill).

But the fifteenth section provides that "the necessary corporate powers in Canada (for any Company so "prohibited by the fourteenth section") may be procured from the Governor in Council; upon condition, however, that other companies created under the authority of the reserved Bill, shall have conceded to them and enjoy equally with it any advantages or privileges which it may possess.

In these provisions, therefore, will be found the object of the Act; the encouragement of marine telegraph companies in Canada; but so as that all such companies, whether of Imperial or Canadian incorporation, shall enjoy equal rights and privileges in all respects amongst themselves and without any special monopoly.

That is to say, Parliament is willing to extend to companies of Imperial or Parliamentary origin in Great Britain the same corporate powers which it is proposed shall exist in any companies of Canadian incorporation, provided that equal rights and privileges in all respects are enjoyed by all.

The Committee are of opinion that no Company is in existence, possessing rights and privileges in Canada, which can in any way be legally affected by the reserved Bill.

They at the same time desire to express their strong conviction that this measure is calculated to be highly beneficial to the interests of Canada, and is also in accordance with the established policy of the country, and they submit that Her Majesty's Secretary of State for the Colonies be requested to pray Her Majesty's sanction to the Bill at an early date.

Certified.

(Signed,) W. A. HIMSWORTH,
Clerk, Privy Council.

Copy of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General on the 2nd October, 1874.

The Committee of Council, having reference to an Order in Council of the 4th June last, of the reserved "Marine Electric Telegraph Company's Bill," have the honor further to report:

That a telegram to the following effect from the Honorable the Secretary of State for the Colonies, was submitted by your Excellency:—

"Before a decision is given as to Marine Electric Telegraph Act, Her Majesty's Government desire to know whether effect of concession of exclusive rights of Anglo-Saxon American Company, confirmed so lately as 1869 by Prince Edward Island Act, has been duly considered, and whether that company would claim compensation for its withdrawal, also whether interests of proprietary were fully considered before the Bill was passed.

"CARNARVON."

To which the following reply was sent:—

"I am advised that the charter given by Prince Edward Island was not urged upon the Committee in Parliament (when considering the Telegraph Bill), nor was it brought before the Government. It is difficult to ascertain what privileges the concessions of exclusive rights to "New York, Newfoundland, and London" telegraph companies originally embraced. It is doubtful whether any such privileges now exist, as the company is now apparently merged in another company without legislative sanction of Prince Edward Island, or Canada. Despatch will be sent giving further particulars.

"DUFFERIN."

That some delay has necessarily arisen in the further consideration of the subject of the above telegram to your Excellency, in order that the Privy Council for Canada might obtain full information thereupon.

That after full enquiry the Committee find as follows:—

See Statutes P. E. Island.
17 Vic. c. 64, 1854 of its Legislature, was in favor of "The New York, Newfoundland
20 Vic. c. 13, 1857
25 Vic. c. 9, 1862 and London Telegraph Company," a Newfoundland Corporation, and
32 Vic. c. 34, 1869
Act, 1854, sec. 2. it was expressly limited "during its existence."

2. That the Newfoundland Company did not in fact avail itself of the exclusive provisions of the Act of 1854, or construct any cable on the faith of this protection.

3. That another Company had previous to the passing of that Act, laid down a cable from the Island to New Brunswick, and this, by section 8, was vested in the Newfoundland Company.

See recitals in P. E. I. Stats. 1862. 4. That the Committee are informed that the service was, and continued to be, so inefficiently performed, as to give rise to the conditional revocation of the Company's powers by the Act of 1862.

5. That the Newfoundland Company were to receive an annual subsidy from the Province for maintaining this line; it would therefore appear to have been constructed for the local convenience of the Island, and not with reference to any cable line in contemplation by the Company, to which the prohibitory provisions of the Act of 1854 might have attached.

6. That moreover, by sec. 6 of the Act of 1869, the right would appear to be reserved to the Executive Government to dispense with these services, and to make arrangements with any other Company for this connection.

7. That in May, 1873, the Newfoundland Company became merged in the Anglo American Company (a corporation under the Imperial Joint Stock Companies' Act), and the intention and effect of such merger was to put an end to the existence of the Newfoundland Company as a corporation. *Note (b)*—See proceedings at "General Meeting of the Anglo-American Company, May 22nd, 1873;" also, *Société du câble transatlantique* May 23rd, 1873. Also, terms of resolution adopted at these meetings, reported in the "Money Market Review," May 24th, 1873 (*herewith*); also, pamphlet of Company, p. 46, (*herewith*).

See reference to this Act at General Meeting above. 8. That an Act of the Legislature of Newfoundland had been passed which authorized such consolidation being entered into, and the transference of the rights of the Newfoundland Company to the Anglo-American Company, but no such legislation was sought or obtained in the Province of Prince Edward Island.

9. That the Committee believe that by the terms of amalgamation the Anglo-American Company retained part of the consideration (£135,000) going to the proprietors of the Newfoundland Company against the pre-emption claim of the Province of Newfoundland, but that there was no similar provision as to Prince Edward Island.

10. That the concession in the latter Province would appear not to have been deemed of any importance to the contracting companies, or to have formed an element of value in the consideration.

See Order in Council, Court at Windsor, 26 June, 1873, approving of Union and schedule of terms annexed, Statutes of Canada, P. XII. 11. That at the same time that negotiations for this amalgamation were proceeding between the telegraph companies in May, 1873, terms of union between the Province of Prince Edward Island and the Dominion were being discussed, and neither Government could have considered that the Island was in any way subject to any exclusive concession in favor of any telegraphic company, for it was an absolute obligation imposed on the Dominion that it should maintain telegraphic communication between the Island and the mainland of the Dominion, as well as an efficient steam service for mails and passengers.

12. The Parliament of Canada during the last Session passed a private Act, Statutes Canada, introduced after the duly published preliminary notices, whereby the 37 Vic., c. 82. Dominion Telegraph Company was authorized to extend its lines by cable into Prince Edward Island.

It would therefore appear to be very questionable whether under these circumstances, the Newfoundland Company having ceased to exist, any monopoly or concession it might have been possessed of is not also at an end, quite independently of the fact that no transfer of any such exclusive privilege or concession was made or could be made without the sanction of the Prince Edward Island Legislature.

It may further be observed that, as far as the Committee can ascertain, this concession does not appear to have formed any part of the consideration for the purchase by the Anglo-American Company, and that as the Dominion has itself assumed the obligation of maintaining telegraphic communication between the Island and the mainland, there was nothing which the Anglo-American Company could have urged before the Legislature (if it had thought fit to do so), based on any circumstances connected with Prince Edward Island, which could have availed to defeat the Marine Telegraph Bill, or to form the subject of compensation.

There can be no doubt but that the Parliament of Canada fully considered the effect of this Bill, and that although it was urged on behalf of the Anglo-American Company that the interests of proprietors would be seriously effected if the Company was obliged to give up its occupation for cable purposes of the shores of Canada, which by the provisions of the Bill it can only retain by consenting to give equivalent privileges to any other Company in Newfoundland; the Parliament of Canada considered this occupation to be only on sufferance, and determinable at will.

That such occupation appears to have been taken and used without any authority (which would constitute it a right), but that such occupation can only be lawful and continue by compliance with the terms of the Act, and the condition that the Company yield the like privilege to any other corporation in Newfoundland.

That no franchise in favor of the Anglo-American Company existed in any part of Canada, and that the Company could not lawfully assume to exercise any such, except with the sanction of the Parliament of Canada.

That it is obvious that Parliament could not recognise the position claimed by the Anglo-American Company, inasmuch as by so doing it would admit that by virtue of an Act of Newfoundland, the Company had gained and could retain in Canada without the sanction of its supreme authority, privileges in the nature of a monopoly.

In conclusion, the Committee desire to call attention to the fact, that while the Bill is plainly within the powers and jurisdiction of the Parliament of Canada, the original grant by Newfoundland was declared contrary to imperial policy. (See despatch, 18th January, 1858.)

The Committee submit that it would be in direct conflict with the spirit of the above despatch, now to interfere with the Parliament of Canada in the exercise of its constitutional right, to declare on what conditions alien corporations should be permitted to make use of any portion of its territory.

(Signed.)

W. A. HIMSWORTH,
Clerk, Privy Council.

(No. 34.)

MONTREAL, 13th October, 1874.

SIR,—I have the honor to transmit to you enclosed the petition of the Anglo-American Telegraph Company, praying that no further steps be taken for the sanctioning of the Act respecting Electric Telegraphs passed during the last Session of Parliament.

I have the honor to be, Sir,

Your obedient servant,

(Signed.) J. J. C. ABBOTT.

To the Honorable
The Secretary of State for the Dominion,
Ottawa.

DEPARTMENT OF THE SECRETARY OF STATE,
OTTAWA, 14th Oct., 1874.

SIR,—I have the honor to acknowledge the receipt of your letter of the 13th inst., enclosing a petition addressed to His Excellency the Governor General in Council, praying that the Bill passed during the last Session of Parliament, intituled "An act to regulate the construction and maintenance of Marine Electric Telegraphs" may not be allowed to become law for the reasons set forth therein. The said petition will be at once transmitted to Council; at the same time I beg to inform you that the Bill referred to having been reserved for the consideration of Her Majesty the Queen, the subject-matter now rests with the Imperial authorities, who are in possession of the views of this Government, so that practically the subject is no longer open for the consideration of the Government of Canada.

I have, &c.,
(Signed,) R. W. SCOTT.

The Honorable
J. J. C. Abbott, Q. C., &c., &c.,
Montreal.

(Copy.)

*To the Right Honorable the Earl of Dufferin, K. P., K.C.B., Governor General of Canada,
in Council:*

The humble petition of The Anglo-American Telegraph Company, Limited,—
SHEWETH,

That your petitioners are a Corporation formed under the Act of the Imperial Legislature, entitled the "Companies Act, 1862," with a present capital stock of £7,000,000 (seven million pounds) sterling, which is held by between five thousand and six thousand stockholders mostly resident in Great Britain.

That your petitioners were established in 1866 for the purpose of effecting telegraphic communication between Great Britain and the American continent, and under various agreements and arrangements made at and subsequent to the date of their incorporation, and which have been sanctioned by the Imperial Parliament, your petitioners are now the representatives of the Atlantic Telegraph Company, and possess all the property, rights and privileges of that Company, and by other agreements and arrangements made in the year 1873 your petitioners are now also the proprietors of the cable and property of the Société du Cable Transatlantique Français, Limited, and also of the cables, land lines and other telegraphic property and rights of the New York, Newfoundland and London Telegraph Company.

That the last mentioned Company has been and is now consolidated with your petitioners by virtue of the provisions of Acts of the Legislature of Newfoundland, and agreements made thereunder.

That the shareholders of all the said three Companies, whose properties and rights are now held by your petitioners, received shares of stock in your petitioners' capital as the purchase money for their respective properties and rights, so that your petitioners as now constituted comprise either the original holders of the share capitals of the said three Companies or their direct representatives.

That your petitioners, by themselves or their said predecessors, have for upwards of twenty years labored to establish telegraphic communication between Great Britain and America, and through great difficulties, and after many failures and heavy losses of capital, they succeeded in the year 1866 in laying two submarine cables between Ireland and Newfoundland, and by means of such cables and local lines, either belonging to them or connected with their cables, they for the first time established effective telegraphic communication between the Eastern and Western hemispheres.

That your petitioners have since 1866, at great cost, laid two other submarine cables between Ireland and Newfoundland, and a line from France to St. Pierre (Miquelon) and Duckbury (Massachusetts), and except for a few days when the

lines have been injured by storms, they have, from 1866 to the present time, maintained such telegraphic communication as aforesaid, and have, as they believe, carried on their business to the satisfaction of all parties interested therein.

That your petitioners have from time to time reduced the rates of telegraphic messages between England and America from £20 for twenty words to the present rate of 4s. per word; and they have so far perfected their connections and methods of operating as to enable them under ordinary circumstances to transmit telegrams between London and Newfoundland in periods averaging eight minutes, and between London and New York twenty minutes.

That your petitioners possess numerous cables and land lines of telegraph in and between Newfoundland and Prince Edward Island and Cape Breton, and between Newfoundland and St. Pierre (Miquelon), several of these lines having been laid or established by their predecessors, the New York, Newfoundland and London Telegraph Company, many years ago, and which has been in operation ever since for the transmission of Atlantic or local messages to and from Newfoundland and the Dominion of Canada or the United States of America.

That such local cables are of great importance to your petitioners, and without some such means of communication your petitioners' Atlantic cables would be practically useless.

That by a Bill passed by the Parliament of Canada in May, 1874, entitled "An Act to regulate the construction and maintenance of Marine Electric Telegraphs," and hereinafter referred to as the Act of 1874, it is enacted, amongst other things, (Section 1.), That the said Act shall apply to every Company thereafter authorized by any special or general Act of the Parliament of Canada or under the provisions of the Act of 1874, to construct or maintain telegraphic cables in or across any tidal water within the jurisdiction of Canada, so as to connect any Province with any other Province of the Dominion, or to extend beyond the limits of any Province, and to every Company authorized to construct or maintain such telegraphs before the passing of the Act of 1874 by any such special or general Act of the Parliament of Canada, or by any other special Act or charter of any of the Provinces constituting the Dominion, and at the time of the passing of the Act of 1874 in force in Canada. (Section 14.) That no company other than those mentioned in the first section of the Act of 1874, or which becomes incorporated in Canada under the next following section shall maintain, construct, or use any telegraphic wire or cable connecting two or more Provinces of the Dominion, or extending beyond the limits of any Province, or upon, under, or across any gulf, bay or branch of any sea or any tidal water within the jurisdiction of Canada, or the shore or bed thereof respectively; Provided that nothing in this section contained shall be construed to prohibit any existing telegraph company or association from continuing to receive and transmit messages over its line of marine telegraph until such time as another Company, under the authority and within the provisions of this Act, has constructed and is operating a line of marine telegraph which has been determined by the Governor in Council to afford reasonable facilities for the transmission of marine telegraph messages in lieu of the line or lines of such existing telegraph company or association, or to be a line for doing business over a route of a competitive nature. (Section 15.), authorizes certain companies therein mentioned to obtain a charter in Canada for the purpose of establishing and maintaining their telegraph and works within the jurisdiction of Canada, but it is expressly declared that no such charter shall be granted to any Company "which possesses any exclusive privilege of landing wire or cable for a "marine telegraph in or upon the coast of any State, Province, or Country in "America, Europe, or elsewhere, unless an equal or reciprocal right or privilege of "landing wire or cable and establishing a marine telegraph upon the same coast, is "conceded to any and each of the companies in the first section of this Act mentioned, "or which may become incorporated in Canada under the provisions of this section "of this Act, so that any Company incorporated or to be incorporated in Canada may "enjoy the same advantages in maintaining its marine telegraph line in and upon the "same coast as the said Company which may possess such exclusive privilege."

That the object and intention and effect of the said Act of 1874 appears to be to prohibit (for the benefit of a competing Company) the working and use of the local cables of your petitioners, which now extend to and are established upon the shores of the Dominion of Canada, and by means of which your petitioners' business is to a large extent carried on, unless they give up the exclusive right of laying telegraph cables to and upon the Island of Newfoundland.

Your petitioners humbly submit to your Lordship that the above mentioned provisions of the Act of 1874 are unfair and inequitable, and would greatly prejudice and injure your petitioners, that the said Act ought not to be assented to by your Lordship on Her Majesty's behalf or allowed to become law, for amongst others the following reasons:—

1. Because the said Act injuriously affects your petitioners in their property and existing rights, and your petitioners had no notice, and no public notice was given of the intention to bring in the Bill, or that any legislation was intended affecting your petitioners' interests.

2. Because your petitioners had no opportunity of petitioning Parliament against the said Act before it was passed, and had but a few days' notice (which was accidentally obtained by telegraph) that the Bill was in progress, and therefore were unable to lay their case against the Bill before either the House of Commons or the Senate.

3. Because as your petitioners are informed, and as appears from the reports of the discussions on the said Bill, its real object and effect were not fully represented or made known to the members of the Parliament, and that if its real object and effect had been understood, the Bill would not have been passed in its present form; but if passed at all, provision would have been inserted therein for the protection of your petitioners' just rights and interests.

4. Because the exclusive privileges held by your petitioners in Newfoundland were lawfully granted by the Legislature of that Island, and were approved by Her Majesty in Council; and upon the faith thereof, several millions of pounds sterling have been expended by your petitioners and their predecessors, and it would be wholly unjust to them that they should be compelled to give up such rights without consideration or compensation.

5. Because your petitioners and their said predecessors have accomplished a great and most difficult work, and done great benefit to Canada as well as to Great Britain and the world at large, by establishing their Atlantic cables and local lines, and no sufficient cause is or can be assigned for depriving them of the benefit of their vast outlay and unprecedented labors as proposed by the said Act.

6. Because great risk of total interruption of telegraphic communication between Canada and Europe would be occasioned if your petitioners were compelled to cease the working and use of their cables affected by the said Act.

7. Because the Act would have retrospective effect, and is unconstitutional, and is unnecessary and is inexpedient in the public interest.

Your petitioners therefore humbly pray Your Lordship not to assent to the said Act, and to advise Her Majesty to refuse her assent thereto.

(Signed,)

JAMES ANDERSON,

[L.S.]

Director.

JOHN GRANT,

Secretary.

Dated 24th September, 1874.

(Canada—No. 220.)

DOWNING STREET,

29th October, 1874.

MY LORD,—I have the honor to acknowledge the receipt of your Lordship's despatch No. 249 of the 2nd inst., transmitting a copy of a report of the Privy Council of the same date on the subject of the Marine Electric Telegraphs Bill of the

Dominion Legislature, which has been reserved for the signification of Her Majesty's pleasure.

2. I have for some time felt little doubt as to the advice it would become my duty to tender to the Queen with reference to this Bill, but I have deferred any expression of opinion on the subject until the receipt of your promised despatch.

3. The Bill was reserved (as stated in the previous Report of the Committee of Council dated June 4th, 1874, which accompanied the Bill,) because the measure was "one of some importance, and might possibly be considered to prejudice the interests and rights of property. Her Majesty's subjects not residing in Canada." And it is further stated that this was done merely in deference to the language of Royal Instructions, as quoted above.

The subject to which this Bill relates is, in my opinion, one of those with which the Dominion Legislature has been, under the 91st and 92nd Sections of the Imperial "British North America Act 1867," expressly empowered to deal. It seems to me to be clearly within the competency of the Dominion Government and Parliament to legislate without any interference on the part of the Government of this country upon a local question such as forms the subject matter of the Bill, involving as it does, no points in respect of which it would appear necessary that Imperial interests should be guarded, or the relations of the Dominion with other Colonial or foreign Governments controlled.

4. I am well aware from the numerous representations which have been made to me on both sides, that the reserved Bill affects the pecuniary interests of many persons not residing in Canada, but Her Majesty's Government is not on that account called upon to review the decision arrived at by the Legislature of the Dominion. Looking to the large intercourse maintained between Canada and this country, and the extent to which British subjects residing out of Canada hold real and personal property, and are interested in joint stock enterprise within the Dominion, it is obvious that, if the intervention of Her Majesty's Government were liable to be invoked whenever Canadian legislation on local questions affects, or is alleged to affect, the property of absent persons, the measure of self-government conceded to the Dominion might be reduced within very narrow limits.

5. It is to the Dominion Government and Legislature that persons concerned in the legislation of Canada on domestic subjects and its results must have recourse; and this Government cannot attempt to decide upon the details of such legislation without incurring the risk of those complications which are consequent upon a confusion of authority.

6. While, therefore, I entirely appreciate the action of your Ministers in reserving the Bill, I am of opinion, that any further consideration of the subject should be given by that body whose province, as I have observed it, is to deal with such questions, and that I cannot properly assume the function of deciding between the conflicting views of those who have addressed me whether in favor of or against the policy embodied in this measure. In order to enable this to be done, I have decided to leave the present Bill in abeyance, and to tender no advice to Her Majesty respecting it.

I have the honor to be, my Lord,

Your Lordship's most obedient humble servant,

(Signed), CARNARVON.

Governor General

The Right Honourable

The Earl of Dufferin,,

K. P., K. C. B.

(Canada, No. 231.)

DOWNING STREET, 19th November, 1874.

MY LORD,—With reference to my despatch, No. 220, of the 29th of October, I transmit to you for your information, and for communication to your Ministers, a

copy of a despatch which I have addressed to the Governor of Newfoundland with regard to the power possessed by the Newfoundland Government, under section 15 of the Newfoundland Act, No. 2, of 1854, to purchase the lines of telegraph and other property of the New York, Newfoundland and London Telegraph Company, with the view of terminating the monopoly conceded by that Act.

I have the honor to be, my Lord,

Your Lordship's most obedient humble servant,

(Signed,) CARNARVON.

Governor General,

The Right Honorable

The Earl of Dufferin

K. P., K. C. B.

The Earl of Carnarvon to Governor Sir J. Hill.

(Newfoundland, No. 57.)

DOWNING STREET, 17th November, 1874.

SIR,—I enclose for your information, and for communication to your Ministers, a copy of a despatch which I have addressed to the Governor General of Canada, with regard to the reserved Bill of the Dominion Parliament, "to regulate the construction and maintenance of Marine Electric Telegraphs."

2. Until the course to be taken by Her Majesty's Government in this matter had been decided, I thought it expedient to defer answering your despatch, No. 43, of the 9th May, in which you enclosed a minute of your Executive Council, enquiring whether Her Majesty's Government would, upon terms to be hereafter agreed upon with the Local Government, undertake the purchase claimed by the Government of Newfoundland, under the Act, cap. 2 of 1854, incorporating the New York, Newfoundland and London Telegraph Company, with a view of terminating the monopoly conceded by that Act.

3. The decision which has been arrived at to take no action with respect to the Dominion Reserved Bill, in order that if thought desirable a fresh Bill may be introduced next Session, would seem to render it unnecessary, or perhaps impossible, to decide at the present moment whether the Newfoundland Government should take any steps to terminate the monopoly under the provisions of the Act cap. 2 of 1854.

4. In the event, however, of a sum of money becoming payable either by arrangement or award for that purpose, Her Majesty's Government do not perceive that they could properly invite Parliament to contribute a portion of that payment.

5. But having regard to the conflicting legal opinions to which you refer in your despatch, I have thought it desirable, in the interests of your Government, to consult the Law Officers of the Crown as to the subject-matter comprised within the power to purchase conferred upon the Newfoundland Government by section 15 of the Act above referred to; that is to say, whether that Government could claim to buy out the whole interest of the Company for the actual appraised value of the telegraph lines, wires, cables, apparatus, vessels and all other appliances connected therewith; or whether any further claim could be made by the Company for compensation for the loss of the monopoly which would be terminated by such purchase, or for any other right or interest conveyed by the Act, and further as to the course which it might be advisable that the Government of Newfoundland should take with a view to determine its power to purchase.

6. I am accordingly advised that the expressions, "other property" and "all other property connected therewith," used in the 15th section of the Act of 1854, were intended to comprise merely property of the same nature as the property mentioned in the parts of the section immediately preceding those expressions, and therefore

that upon payment of the amount awarded as the value of the telegraph lines, wires, &c., under the provisions of the above mentioned section, the undertaking of the Telegraph Company will become vested in Her Majesty, and that the Telegraph Company will not be able to insist upon the arbitrators or umpire awarding an amount of compensation for the good will of the concern, or the loss of the monopoly. If it had been the intention of the Colonial Legislature that the Telegraph Company, upon the exercise by the Government of the power conferred upon them to purchase the undertaking, should not only retain the lands, &c., granted to the Company, but also be paid a sum for the loss of their monopoly, it may be presumed that a very explicit provision to that effect would have been found in the Act.

7. With reference to the course which the Newfoundland Government should take, if it is decided to proceed in the matter, I am advised that it would be desirable for that Government to follow exactly the directions given in section 15 of the Act, and in the event of the Company neglecting to take any of the steps incumbent on them (*ex. gr.*, to choose as arbitrator) to call in aid the Supreme Court of the Colony to enforce compliance with the Statutory requirements.

8. An opportunity would then perhaps arise of obtaining a judicial determination as to the rights reserved to the Government by the 15th section.

9. In thus conveying to you the advice which I have received on this subject, I do not lose sight of the reason which has rendered your Ministers reluctant to take steps for exercising the right of pre-emption; the apprehension, namely that the award might possibly be made on the opposite principle to that which, as I have informed you, I am now advised to be the correct one, and might consequently involve the payment of a larger sum of money than Newfoundland could undertake unassisted.

10. Looking to all the circumstances, your Ministers will probably now be of opinion that it is not likely that any excessive sum would become payable, but on this subject it might be of advantage for the Government of Newfoundland to confer with the Dominion Government, and consider whether some terms could be laid down on which any payment found to be necessary might be apportioned between Canada and Newfoundland.

I have, &c.

(Signed,) CARNARVON.

Governor

Sir Stephen J. Hill,
K.C.M., G.C.B.

ALFRED RAY,
Acting Cashier.

MARITIME BANK, ST. JOHN, N.B.,
8th February, 1875.

(No. 23.)

STATEMENT

Of distribution of Dominion Statutes of Canada, being 37 Victoria, 1st Session of the Third Parliament, 1874, under the provisions of the Act 31 Vic., Cap. 1, Sec. 14.

By Command.

R. W. SCOTT,

Secretary of State.

DEPARTMENT OF THE SECRETARY OF STATE,
17th February, 1875.

(No. 24.)

RETURN

(IN PART.)

To an ADDRESS of THE HOUSE OF COMMONS, dated 27th April, 1874 ;
For a Statement of the Fortifications, Lands and Materials of War, which were transferred to the Government of this country by the Imperial Government ; also a Report of a competent officer on the state of repair of the several Forts and buildings so transferred, and of the condition of the material of war ; also a Return of such properties as have been conveyed to Municipal Corporations, if any ; or of any lands that it is proposed by the Government to transfer to such Corporations.

By Command.

R. W. SCOTT,

Secretary of State.

DEPARTMENT OF THE SECRETARY OF STATE,
15th February, 1875.

STATEMENT

Shewing names, ages and places of residence of all Militiamen of 1812-18, who have applied to the Imperial Government, through the Department of Militia and Defence, for a pension or indemnity; in reply to an Address of the House of Commons of the 8th February, 1875.

ÉTAT

Des noms, âges et domiciles de tous les miliciens de 1812-18, qui ont demandé au gouvernement impérial, par l'intermédiaire du département de la Milice et de la Défense, une pension ou indemnité; en réponse à une adresse de la Chambre des Communes du 8 février 1875.

STATEMENT showing names, ages and places of residence of all Militiamen of 1812-13, who have applied to the Imperial Government, through the Department of Militia and Defence, for a pension or indemnity; in reply to an Address of the House of Commons of the 8th February 1875.

ETAT des noms, âges et domiciles de tous les miliciens de 1812-13, qui ont demandé au gouvernement impérial, par l'intermédiaire du département de la Milice et de la Défense, une pension ou indemnité; en réponse à une adresse de la Chambre des Communes du 8 février 1875.

RETURN

To an ADDRESS of the HOUSE OF COMMONS, dated 17th February, 1875 ;
For copy of the Report of L. G. Bell, C.E., on the exploration made
of the route of the Huron and Ottawa Railway from Ottawa City to
Parry Sound, together with all Maps or Papers accompanying the
same.

By Command.

R. W. SCOTT,

Secretary of State

DEPARTMENT OF SECRETARY OF STATE,

OTTAWA, 25th February, 1875.

OTTAWA, February 25th, 1875.

SIR,—I am directed to transmit to you the accompanying return, being the
report of L. G. Bell, Esq., on the exploration made by him of the route of the Huron
and Ottawa Railway, from Ottawa City to Parry Sound, asked for by an Address from
the House of Commons, dated the 17th inst.

I have the honor to be, Sir,

Your obedient servant,

E. J. Langevin, Esq.,
Under Secretary of State,
Ottawa.

F. BRAUN,
Secretary.

OTTAWA, 23rd November, 1874.

DEAR SIR,—Having received through you, on behalf of the Government of
Canada, the authority to make, for the information of the Government, an exploratory
survey of a route for the projected Huron and Ottawa Railway, and having received
your instructions to do the best I could, and having completed the survey as fully as
I believe necessary, I now beg leave to present to you the following report.

According to my understanding of the subject, the railway is designed to be the
shortest and most direct connecting link between the great lakes (Huron, Michigan
and Superior) on the West, and the railways now existing or in progress, which
would connect it with ocean water on the East. Parry Sound, on the Georgian Bay,
is settled on as the Western terminus; and Carleton Place, which is now connected
by railway with Ottawa, and which will be connected with Montreal by railways
now in progress, has been selected as the Eastern terminus. The survey then was
begun at Carleton Place and ended on the shore of the Georgian Bay at Parry Sound.

The survey was made almost entirely on foot, as I desired to see throughout, and
as nearly as possible, the exact position in which a line could be placed for construc-

tion. I did not of course confine my attention to one line, but in several cases, when circumstances required it, I examined the country for a width of several miles. Although I desired to find the shortest and most direct practicable route between the proposed termini, my attention was rather more given to the selecting of a route on which I could feel sure, without a detailed instrumental survey, a railway could be constructed at the most moderate cost. With this object in view, the line which I have traced has very many sinuosities, which I fully believe a careful instrumental survey would, to a great extent, do away with, and so materially lessen the length of the line.

The only instruments I used were an aneroid, barometer, a compass, and a hand level. I had two barometers, but unfortunately one was found on trial to be worthless. That which I used has been often proved to be trustworthy, but on this survey it met with several petty accidents, which though they were of such a character as not at all to interfere with its giving correct information in observations made after any such accidents, prevented my being able to give satisfactorily a continuous series of heights from one end of the route to another.

All the country through which I walked has been surveyed, and I have been therefore able to trace, with tolerable accuracy, my route on the Government maps, and I have laid down on the accompanying map (traced from that of the Government) the route which I have selected.

On a survey such as I have made I consider it almost impossible to give reliable quantities for an estimate of the cost of construction; but, as walking over the ground, and examining it minutely with a view to construction, would give a tolerably correct idea of comparison between the work to be done on it and other known works that have been executed, I propose to refer you, for an approximate estimate of this railway to works with which you are well acquainted, and which you are aware I also know, namely, some sections on the Intercolonial Railway; and I propose to take as standards of reference Sections 1, 8, 17, 18 and 9. On the Huron and Ottawa Railway there will be very few large bridges, and none of the protection work such as there is along the Metapedia River, on sections 17 and 18 of the Intercolonial Railway. I have, therefore, in the following list, modified the estimates of the sections on the Intercolonial Railway, by deducting the masonry and superstructure of the large bridges, the cost of coffer dams and pumping foundations, the cost of level crossings, and the cost of protection works and special works. With the exception of Contract No. 9, the prices for which were ample, I have on the other hand increased the amount remaining after these deductions by from 20 to 25 per cent., partly because some of these sections were constructed at a low rate of wages for the workmen and horses, and others had scarcely remunerative prices, and partly because on the Huron and Ottawa Railway there may be some sections which may have unusual expense in importing men and provisions. Where large bridges or works of special difficulty may be required on the route, a special estimate will be given in addition to the general one for clearing, grading, culverts, and other such ordinary necessary work. The modified estimates which I have accordingly prepared are as follows:—

For Contract No. 1.....	\$9,100 per mile.
“ 8.....	6,250 “
“ 17.....	17,500 “
“ 18.....	25,000 “
“ 9.....	15,000 “

I do not pretend that the line I have selected is the best to be obtained in the country traversed, but I put it forward as one undoubtedly to be obtained with the characteristics and at the cost which I shall detail, and I fully believe that an instrumental survey will find many points for decided improvement.

The line commences by a junction with the railway from Ottawa to Renfrew, at a point west of the bridge carrying this railway over the Mississippi River, and its general bearing is almost due west. It passes through the townships of Ramsay,

Lanark, Darling and Lavant, in the County of Lanark; Canonto and Miller, in the County of Frontenac; Matawatchan, Griffith, Lyndoch and Raglan, in the County of Renfrew; Carlow, Monteagle, Wicklow, McClure and Herschel, in the County of Hastings; Bunton, Harbun, Eyre, Havelock and Sherborne, in the County of Peterborough; Ridout, in the County of Victoria; McLean, Stephenson, Watt and Cardwell, in the Muskoka District and Monteith; Christie, McDougall and Foley, in the Parry Sound District. The total length measured on the map round all the sinuosities is 225 miles.

The first five miles from Carleton Place are on ground nearly level in all directions, but with a few low rocky knolls which can be easily avoided. The rise on these five miles is about fifty feet. On the next five miles there is more undulation, with somewhat heavier work, but the greatest inequality of surface is 80 feet in about $1\frac{1}{2}$ mile from the bed of the stream to the top of a ridge. The cost of construction up to sub-grade of these ten miles would be that of the modified rate for contract No. 1 of the Intercolonial Railway, that is, about \$9,100 per mile.

Between the tenth and sixteenth miles, the ground is for the most part rough and rocky, the curves would be frequent and the earthworks heavy. There would not be any heavy bridging. I estimate the cost of these six miles at something more than the modified average for Contract No. 18, say \$30,000 per mile. During the day on which I was on this section there was a thunder storm, and I believe my barometer did not register heights correctly, and I give this very high estimate to cover contingencies. There is no difficulty on the section, but the cuttings will be heavy.

Between the sixteenth and thirtieth miles the works will be comparatively easy, the valley of the Clyde, which extends as far as $27\frac{1}{2}$ miles, giving good ground. Between the seventeenth and eighteenth miles, the line for 300 or 400 yards runs along the face of a steep but not high rocky back of the river, but the work there will not be either heavy or difficult. At twenty-one miles the line crosses the river, as the ground is more favorable on the south side than on the north. Near the same point a short bold rocky headland strikes the river, but the line passes to the south of this, crossing a very low new neck of headland. In no place, except between seventeenth and eighteenth miles above mentioned, does the line of necessity run close alongside the river. At $27\frac{1}{2}$ miles the line again crosses the Clyde, and at an elevation of about 30 feet. Here it crosses also the line of the Kingston and Pembroke Railway, which is located close along the river. From this crossing the line ascends to the thirtieth mile by a grade of 50 feet per mile along good ground, sloping gently transversely, except for the last half mile, on which it has to cross a few narrow rocky spurs and gullies. I estimate the cost of this section of fourteen miles at the modified rate of Contract No. 9, namely, \$15,000 per mile. In addition, I estimate the two bridges over the Clyde, and the one over the Kingston and Pembroke Railway, with first-class masonry and iron superstructure, at \$62,200 or say \$4,500 per mile for the fourteen miles, making the total estimate for this section \$19,500 per mile.

The rise between the eighteenth and twenty-seventh miles is very gentle, as between these points the river Clyde has only two low short rapids, all the rest being nearly still water. I believe a great deal of gravel for ballast will be found on this section. The lumbering district begins on this section, at about the twenty-eighth mile, and continues almost without interruption all the way through to Parry Sound.

The line between the thirtieth and thirty-fifth miles, and again between the thirty-seventh and forty-third miles, is very much like that of contract No. 8, I. C. R., there being much flat ground on it, while that between the thirty-fifth and thirty-seventh miles is more of the general character of contract No. 18, as there would be some steep side-hill work upon it. At about thirty-six and a half miles there would be a bridge of about fifty feet in width across one of the branches of Mudlake Creek, which I estimate at \$9,500. I accordingly estimate the average cost of this section of thirteen miles at \$10,000 per mile. You will notice on this section that the line runs between the main body of the lake at thirty-four miles and an arm of the lake. The

ridge on which the line runs is low and of nearly uniform surface. The strait, connecting the arm with the main body of the lake, is less than 100 yards wide and less than ten feet deep. Only an ordinary culvert would be required here, which could be easily built on the dry land and not in the strait. The grades in all this section would be very easy.

Between the forty-third and fiftieth miles the line runs down a small river called Mackie's Creek, and up the Madawaska. There will be a great many short level portions on this section, with some side-hill end headland. The character of the line is that of Contract No. 17. But at the beginning of the section there will be heavy work for about half a mile, which although I do not think it would raise the average cost of the section above that of Contract No. 17, modified. I think it safest to add \$10,000 for, as there will be about 9,000 cubic yards of rock cutting on the face of solid rock, with a slope backward of about $\frac{3}{4}$ to 1. There will also be a bridge of 50 feet span over Mackies' Creek, on a rock foundation, and without any difficulty in construction. This bridge I estimate at \$6,500. I accordingly estimate the average cost of the whole work of the section at about \$19,800 per mile.

Between the fiftieth and seventy-fifth miles the line follows the valley of the Madawaska River. A very large proportion of the work will be very easy. There will not be any works of difficulty, though in a few places there will be short rock cuttings with a depth of only a few feet. I estimate the average cost at the modified rate for Contract No. 1, but as the line crosses a few streams (about five) which will require bridges with spans of twenty or thirty feet, which I estimate at \$2,000 each, the total average will amount to \$9,500 per mile.

The section between the seventy-fifth and eighty-fourth miles is expensive and unsatisfactory, on account of the curves which appear to be necessary. The line at the eightieth mile crosses the Mississippi or Beaver Creek, a branch of the York River, which itself is a branch of the Madawaska. The York River is called in the reports of the Geological Survey, the Shawashkong—the river of marshes. The marshes extend up the Mississippi farther than the point which I have selected for crossing, they are in many places very wide, and particularly so at the junctions of the Shawashkong with the Mississippi and the Madawaska, but at the place which I have selected, which is the second place available, hard ground is got on both sides of the River Mississippi where the banks are about 200 feet apart. As the land lying between the Mississippi and the Shawashkong rises quickly to a kind of plateau 150 or 200 feet higher than the rivers it is necessary after crossing the Mississippi to curve down the stream again to get into the valley of the Shawashkong and Papineau Creek.

From the eighty-fourth mile to the ninety-fifth the work will be very much lighter. The grades on the first five miles will be one in a hundred up and down over a ridge, but on the remaining fifteen miles they will be easy. There will be an expensive bridge across the Mississippi, another with a span of 100 feet across the Shawashkong, and two others with spans of fifty feet over the greater and less Papineau Creeks. These last three will not be expensive as the foundations will be good. I estimate the average cost of the whole section exclusive of the bridges, at the modified average estimate for contract No. 18, \$25,000 per mile—and I further estimate the Mississippi bridge at \$45,000, Shawashkong at \$15,000, and the two Papineau bridges at \$21,000—making in all an average for the section of about \$29,000 per mile.

I am much inclined to favor a route following the Madawaska River up from the seventy-third mile to the Village of Combermere, about nine miles up, and there turning west and southwest, and joining the line I have laid down near the ninety-fifth mile. The cuttings would be rather lighter on this route, but there would be of necessity a very steep grade for several miles of probably one in eighty up and down. I was informed, and upon reliable authority, I believe, that the line by Combermere would be of considerable benefit to the lumbering interests—and that Combermere is a kind of centre from which lumbering parties disperse. On this route the line would have to cross the Madawaska twice to avoid great marshes at the

mouth of the Shawashkong. These bridges would be large but not otherwise expensive. On the whole I consider there would be very little difference either in cost or length between this route and the one I have laid down.

Between the 95th and 110th miles there are several portions of the line of very easy construction—while at the ninety-sixth mile there will be nearly a mile of rather expensive work in the valley of a large stream. There is no difficulty, but as the valley is narrow and rocky there will be either a few sharp curves or heavy cuttings on rocky side hills. The grade up the valley need not be steeper than one in a hundred. About the ninety-ninth mile there will be cutting about thirty feet deep through two narrow ridges, but these ridges are probably all, or nearly all, gravel. Between 101 and 105 miles the line will run by the bases of rocky knoles at some points—but the cuttings will not be heavy—and again at the 108th mile there will be a few rocky spurs to be cut off in the valley of a small stream. There will not be any heavy bridges on the section. I estimate the work to be done at the modified rate for Contract No. 17, namely, \$17,500 per mile.

Between the eighty-fourth and ninety-eighth miles I expect a great deal of ballast, the soil being gravelly and sandy.

Between the 110th and 125th miles more than two-thirds of the work will be very easy, while of the remaining one-third no part will be very difficult or expensive. There are miles of meadows on the section. A few headlands of high ground occur, but they will cause little trouble to avoid them almost altogether. I estimate the cost at the modified rate for Contract No. 1, although I believe the cost will be considerably less, as a great proportion of the section will cost as little as the average for Contract No. 8. There will be two bridges, each with a span of sixty feet, and easily constructed, one on a rock foundation, and the other on a hard foundation, probably rock at a little depth below the bed of the stream. The bridges I estimate at \$10,500 each, and the average cost of the whole section will accordingly be \$10,500 per mile.

Between the 125th and 145th miles the work will be very much of the character of Contract No. 17. The ground is rough, but not difficult, along the north shore of the lake at 126 miles, it is then very easy up to 128 miles through alder flats and beaver meadows—then the line takes side hill on a grade descending one in 100 to 132 miles, after which it passes over moderately rough ground to the 144th mile. The 145 mile is level. There will be one high bridge with two spans of eighty feet at 132 miles, and three others, with spans of sixty feet and low heights, at the 138th, 139th and 141st miles. I estimate the first of these at \$42,000, and the other three at \$21,600. The average of the total cost of the section of twenty miles is accordingly about \$20,700 per mile.

Between the 120th and the 130th miles, I believe the line can be greatly improved by following the straighter line which I have dotted on the map. I have not walked over this line, but I have been on it at what I believe is near a height of land at a little lake abreast of 127th mile, where there is extensive meadow land. And I have seen the lower end of a valley about the 121st mile, which valley runs up in a direction of this lake. If this line should be suitable it will shorten the railway by about a mile, and materially shorten the descending grade at 130 miles, or lessen its rate of fall, as the level of the lake is very much lower than that of the point which it is abreast of at 127 miles.

Of the next twenty miles from the 145th to the 165th, the first five miles are through an easy country, generally flat. At 151 miles there will be a rather heavy cutting across the end of a spur of land, and a long curve. Then for three miles the line is in a valley and comes out on the shore of Trading Lake, at the 155th mile. Then there are two miles of easy work along the shore of the lake and two miles more of rather heavy work. The remainder up to the 165th mile along the Lake of Bays is easy, although at 164 miles there will be a cutting across the neck of a headland that juts out boldly into the lake. There will not be any heavy bridging on this section, ordinary culverts will be sufficient. I estimate the average cost at the modified rate for Contract No. 9, namely, \$15,000 per mile.

From 165 miles to 168 miles at the lower end of the Lake of Bays the work will be easy, there will not be any sharp curves required to keep the line on a surface almost level.

From 168 miles to 172 miles the line will be chiefly in beaver meadow and tamarac swamps. From 172 miles to the lower end of Devine's Lake, at 175 miles, the line will pass over rougher country, and there will be some heavy work near the lake. The line crosses the stream out of Devine's Lake, at the foot of the lake, and keeps rather rough, side hill going down a grade, of one in 100 for about three miles to the Village of Port Sydney, on the Muskoka river, at the foot of Mary Lake. There would be one heavy cutting on these three miles at about the middle of them. From Port Sydney to the 185th mile the ground is good not requiring any expensive works. I estimate the cost of this section at rather more than the modified rate for Contract No. 1, and at a mean between the rates for Contracts Nos. 1 and 9, namely, \$12,000 per mile. There will be across the east branch of the Muskoka river, at the lower end of the Lake of Bays, a bridge with three spans, each of 100 feet. The bridge will be low, and on a good gravel foundation, if not on rock. I estimate the cost of this bridge at \$38,300.

Another bridge of the same spans but of lower height and built on rock without cofferdams or pumping, will be built across the main Muskoka River, at the outlet of Mary Lake—and this I estimate at \$26,000. A smaller bridge at the outlet of Devine's Lake, to be built on rock, and another at the outlet of another lake at 182 miles, I estimate together at \$10,700. I accordingly estimate the average cost of the whole section of twenty miles at \$15,700 per mile.

Of the next section of twenty miles the first five will have light work as there is a great deal of flat land on them, but the sixth mile will have heavy cuttings—then follow four miles of lightly rolling country, and three miles more partly in flat meadow land, and partly on side hill in the valley of a small stream. The remaining seven miles will have easy work, as the line runs for the most part through a long flat valley, partly open meadow, and partly timbered, and then along the straight low shore of a lake. Although the work on the sixth mile of this section is heavier than any on the same length of Contract No. 9, the works on the remainder of the section will be somewhat lighter than the average of that contract, and I therefore estimate the cost of this section at the modified rate for Contract No. 9, namely, \$15,000 per mile. But at 190 miles there will be a high bridge, requiring a clear opening of fifty feet, and a height of about fifty feet. This bridge will be built on solid rock without difficulty, and I estimate its cost at \$33,500. Another bridge, with the same clear opening, but a much less height, will be required at the crossing of the Rosseau River at 195 miles. This bridge I estimate at \$22,200; and I accordingly estimate the average cost of all the work on the section at \$17,800 per mile.

From 205 miles to the terminus of the railway at Parry Sound, a distance of twenty miles, there will be at different places very easy work for an aggregate length of eight miles or more, the work will be as easy as the lightest portions of Contract No. 1. But between the 207th and 210th miles there will be some rather heavy side hill work on a grade descending one in 100. Afterwards about the 217th mile, at what is called the Serpent Rapids, there will be a deep cutting and high embankment, but both will be short—not more than 350 yards from the beginning of the cutting to the end of the embankment. The cutting will be about 15,000 cubic yards of rock. Almost immediately after this, the line runs for less than 150 yards along the face of very steep rock, lying in large and comparatively loose masses, easily blasted. This is something like the large rock on the face of Bic Mountain, on Contract No. 5, of the Intercolonial Railway; and the roadway will be made by blasting about thirty feet deep in this rock. On both sides of this rock for a total length of about 500 yards, the line will be an ordinary side hill, sloping transversely about four to one. There will be very little curvature where this heavy work will be, but the grade will be one in 100 for about one and a half miles. This heavy work and steep grade are in consequence of the Serpent Rapid in the Seguin River

which here falls about sixty feet. There will be some rocky points to be cut across about 220 miles, where the line leaves the valley of the Seguin River, and bends round to Mill Lake, and from this point to the terminus of Parry Sound, the ground is rough, and the line will be crooked, but the work will not be very heavy. I estimate this section, leaving out the bridges, at the modified rate for Contract No. 18, namely, \$25,000 per mile. There will be a small bridge near the 208th mile, which I estimate at \$9,000, and three bridges over the Seguin, which I estimate at \$30,500 each. The estimate of the total of the section of twenty miles is accordingly \$30,000 per mile.

The estimate of the whole work I therefore sum up as follows :—

Miles.	Miles.		
From 0	to 10	10 miles at \$ 9,100	\$ 91,000
" 0	" 16	6 " 30,000	180,000
" 16	" 30	14 " 19,500	273,000
" 30	" 43	13 " 10,000	130,000
" 43	" 50	7 " 19,800	138,600
" 50	" 75	25 " 9,500	237,500
" 75	" 95	20 " 29,000	580,000
" 95	" 110	15 " 17,500	262,500
" 110	" 125	15 " 10,500	157,500
" 125	" 145	20 " 20,700	414,000
" 145	" 165	20 " 15,000	300,000
" 165	" 185	20 " 15,700	314,000
" 185	" 205	20 " 17,800	356,000
" 205	" 225	20 " 30,000	600,000
Total.....			\$4,034,100
Say for 225 miles at \$18,000 per mile.....			\$4,050,000

I believe that in all these estimates I have made very liberal allowances, and that an estimate based on quantities ascertained by careful instrumental survey would be considerably less than what I have given here. In all the bridges, except a very few of the smallest, I have allowed first-class masonry, iron superstructure, and a liberal sum for coffer dams, pumping and excavation.

To complete the estimate of the total cost of the railway, I assume a permanent way similar to that of the Intercolonial Railway, with steel rails weighing sixty pounds per lineal yard, and delivered at Carleton Place for sixty dollars per ton. I make an additional average allowance of \$400 per mile for the carriage of rails and fastenings from Carleton Place along the line. I also allow five per cent. of the whole length of railway for sidings, and I allow a high price, fifty cents per cubic yard for ballast, to insure its being a good quality, as I believe there is nothing more valuable in a permanent way than the best of ballast. My estimate for the permanent way is, therefore, \$9,500 per mile for 225 miles.

The rolling stock, I assume twelve engines for trains, two for jobbing, and four for reserve; also fifteen passenger and baggage cars, 200 box freight cars, and 100 platform cars, amounting in all, to \$2,100 per mile. And for stations, I assume two terminal stations at \$10,000 each, one way station at \$1,000 for each ten miles of railway, and one workshop at \$100,000, amounting in all, to \$625 per mile.

The gross estimate I accordingly make as follows:

Earthworks and masonry.....	\$18,000	per mile.
Permanent way.....	9,500	"
Rolling stock.....	2,100	"
Stations and workshop.....	625	"

Total..... \$30,225

Amounting to \$6,800,625 for the 225 miles; but to this sum has still to be added the cost of surveys and superintendence.

The highest level attained on the survey is at the 127th mile. I cannot for reasons already mentioned, give from my own observations the height of this point over that of the sea, but taking as accurate, the level given in the geological reports of Elephant Lake (called Papineau Lake in the reports) as 1,122, I believe the level of the highest point at the 127th mile is not more than 1,400 feet over the sea. Carleton Place is 440 feet above the level of the sea, so that the summit level is 960 feet above that of Carleton Place.

With regard to grades up to the summit level of the railway I would draw your attention to the fact that from the eighteenth to the twenty-eighth mile, the thirty-sixth to the fortieth, the forty-seventh to the seventy-fifth, the eighty-first to the 101st, and the 113th to the 127th, a total length of seventy-six miles, the grades are all ascending the valleys of rivers and streams. Of the remaining fifty-one miles up to the summit a very large proportion has grades ascending in the same direction, there being no portion having descending grades of any consequence except from the sixteenth mile to the eighteenth, the thirty-fifth to the thirty-sixth, to the forty-fourth to the forty-seventh, and the seventy-seventh to the eightieth, in all nine miles. The grades at these places would fall not more than one in 100, if so much.

There is thus probably a height of about 450 feet to be added to the difference of level between Carleton Place and the summit of the railway, making a total rise up to the summit, of 1,410 feet, and giving an average grade of 11 feet per mile.

On the other hand, in descending from the summit to Parry Sound, there will be an ascending grade for about two miles at 133 miles; about one mile at 158 miles; about four miles ascending slowly at different points between 168 and 180 miles—one mile of steep ascent at 190 miles, and a slow ascent from 195 to 198 miles. I have not reliable instrumental observations of these rises, but I believe they do not amount to more than 400 feet. As before stated, I estimate the height of the summit level above the sea at 1,400 feet. The height of the Georgian Bay above sea level is 578 feet. The difference of level between the summit of the railway and Parry Sound is thus 822 feet, and the above sum of 400 feet for rising grades between the summit and Parry Sound gives a total descent of 1,222 feet between these points, giving an average descent of 12 feet per mile. You will notice on the map that from the 135th mile to the 145th, the 150th to the 168th, the 188th to the 190th, and the 198th to the 225th, a total length of fifty-seven miles, the line runs by large lakes and streams.

In this connection I would refer you to what I have stated in regard to the line between the 120th and the 130th miles, to show that it is highly probable a lower summit for the railway can be readily found, by which the total rise and fall would be reduced by between fifty and eighty feet.

On the next half of the line the lakes are very numerous, and they afford most excellent opportunity for concentrating a great amount of local traffic on certain points of the railway, notably at Kennebec Lake, Kahweambijawanagog or Hollow Lake, Lake of Bays, Mary Lake and Skeleton Lake. I am informed that a small steamboat will be put for trade on the Lake of Bays during the coming summer and that a similar one will ply through Peninsula Lake, Fairy Lake, Lake Vernon, and Mary Lake. By means of these lakes and others which I have not mentioned the railway would be of almost immediate accommodation to a very wide district.

The sites for using water power through the country traversed by the line are very numerous, and the power to be obtained is almost unlimited, the lakes affording means for making storage reservoirs of immense capacity, and at very little cost and injury to surrounding lands. The shores of the lakes, though in many cases comparatively low, generally rise quickly from the water, so that a dam of a few feet in height across the outlet of a lake would in most cases flood but a small area of ground.

The surface of the country traversed is generally much broken, except on the first ten miles the unbroken flat land of any considerable width is very little. There are numerous beaver meadows on the line and elsewhere in the neighborhood, but

they are generally narrow. But it seemed to me that almost universally, even in the most broken country, though the sides of the hills might be steep and rock frequent on the surface, there are large patches of flattish ground easy of tillage. The soil throughout is generally good, and much of it is most excellent, at least so the settlers have told me of their farms. Only one of all those with whom I have conversed has spoken ill of his farm, and he had certainly very good reason, for it is very rocky, but he could easily have bettered his condition. I have met some settlers from the cities of Glasgow and Edinburgh, one family from the City of London, England, one from Liverpool, some from Oxfordshire, and several from the Lake Ontario front, and all have spoken well of their farms, and are well pleased with their lot. One man near Skeleton Lake, on a farm with a great deal of rock on it, told me that he had come from Lake Ontario, and much preferred his present farm to his former one, stating that his crops at Lake Ontario had been frequently injured by early frost, while in his new farm, during his three or four years occupation, the early frosts had not troubled him. The timber is of mixed kinds, yellow birch (scarcely any white birch), maple, beech, and white pine, are found almost throughout; iron wood, bass wood, elm and balsam, frequently spruce, tamarac and cedar are found in the swamps. There is very little red pine along the route except in the district between the 82nd and 94th miles, and even there not exclusively. At a lake called Red Pine Lake, there are very few if any red pine trees, at least on the side traversed by the line, so that taking the timber as an index to the character of the country, it may be concluded that the soil throughout this route is generally good.

There is a great deal of very good pine through the country, but there is also very much with slight blemishes rendering it unprofitable to transport the logs a long distance, which would give excellent lumber in narrow boards, lathwood, shingles, &c. I am informed by men engaged in lumbering, and I believe that a railway constructed through this district would be the means of saving all this imperfect timber, and turning it to a profitable account, for both lumbermen and the country at large, for in case of the railway being made, all this timber would be sawn on the ground, and then the good parts only transported to market. There are many sites for mills for this purpose, and the lakes afford good facilities for gathering and storing the logs. This imperfect timber is cut down, as it often is before the imperfections are discovered, is left to rot and feed fires in the bush, and so a double loss ensues.

For sleepers there is a good deal of tamarac in various places, and there are large quantities of hemlock, particularly in the district of the Seguin River.

As I have already stated, I did not confine my attention to one particular line. Accordingly, I examined the country between the line laid down and the Mississippi road from the 25th mile to the 65th, but this country was too rough. I also examined a wide district south of the line laid down and extending from the 85th mile to the 115th, but, though on account of what seemed to me most excellent land in the townships of Mayo, Carlow and Dungannon, I was anxious to find a line through that district to suit my purposes, I was not able to find it. Again, to avoid lengthening the line by going round by the valley of the Seguin River, between 195th mile and Parry Sound, I had an examination made for a line going more direct, as it was reported such a line could be had, but I found the report was not true enough. But as the country that I travelled through is of broken surface, almost all wooded, and with extremely few points from which observations of distant places could be made with any degree of satisfaction, I had merely to take up as I went along, some line almost by guess, and follow it as far as it was suitable. I scarcely ever got any correct information about what was ahead of me, a great deal was given with full assurance of its correctness, which I found on trial to be worthless or quite incorrect. You will easily understand from this that though, as I believe, I have found a practicable route with works of easy construction, there may readily be not far off my route a shorter line with easier work!

I found it difficult, if not impracticable, to bring the line into Parry Sound except by the Seguin River and Mill Lake, with this route I preferred making the

terminus of the line on the shore of the outer harbour, as I consider a terminus on the inner harbour—though, perhaps more convenient for the existing trade of the place—would be inconvenient and insufficient for the new trade that the railway would probably bring.

Before leaving Parry Sound, I made, according to your instructions, an examination of the harbour and channel. I went out in the tug boat belonging to the Parry Sound Lumber Co., and examined almost as far out as the lighthouse, distant from the village about twenty miles. I found the channel wide and well marked naturally, and of easy navigation. A squall came on which made the sea too rough for the tug, and prevented my going out quite so far as the lighthouse; but I saw very distinctly the rocks about it. Although the waves were too high for the tug boat, there was no sign of breakers near the channel except on the rocks which were visible, and on a shoal where a chart which I held in my hands shows a buoy and seven feet of water. It appeared to me that as far as the channel is concerned the chart is quite correct, except, perhaps, in one particular. The captain of the tug, who is a pilot of many years experience in the Georgian Bay, and who I believe from my experience of him on that day is thoroughly trustworthy, stated that he believes there is a sunken rock covered by about fifteen feet of water about three-quarters of a mile south east of Red rock adjoining the lighthouse rock, and that he believes the marking of this rock, if it exists, is the only thing wanted to make the chart of the channel perfect. He is not sure of the existence of this rock; but he suspects it on account of the colour of the water, one day when he was piloting a vessel over the place. There is abundance of good anchorage in places close to the channel besides those marked on the chart, and at the north end of Parry Island there is a wide bay, or rather a series of bays which give perfectly safe sheltered anchorage for vessels that may, if the railway should be constructed, be waiting for loading and discharging. It seems to me that about \$100 spent in renewing the few necessary buoys and beacons would make the channel as safe almost as it is possible for a channel to be. I do not know whether or not it is necessary to mention to you an idea which, I think from my having been spoken to about it, prevails with some people. I have been told that Parry Sound Harbor is most excellent *when one gets into it*; but that the channel to it is so narrow that one could at places jump ashore from the steamers passing through it. Whether this idea is widely prevalent or not, I do not know; but lest it should be, I think it well to take notice of it. The narrow channel which is thus spoken of is called the "Danbuno Channel," it being the one which the Danbuno steamer takes on her trips between Collingwood and Parry Sound; but it is not at all the channel that by which vessels from Lake Huron would enter Parry Sound. The Danbuno Channel goes down south, close by the west end of Parry Island, whereas the main channel out to Lake Huron goes out almost directly west.

In conclusion permit me to say that I have given an unbiased report—although I would desire to advocate the construction of the railway, because I believe it would confer on the country at large a great benefit, by opening up a wide district of good land for settlement; by giving an impetus to the growth of various industries in the country, by means of the water power of the many streams and lakes on its route; by giving facilities for great economy in lumbering, and by giving, by its shortness and consequent cheapness of land transit, greater encouragement to the trade of the west to pass through the country.

Mr. H. J. Hubertus, who projected this railway, took part in the expedition, and a lively interest in the survey, gathering what information he could over a wide district, as to the character and capabilities of the country passed through.

Throughout the survey I was met in a very friendly spirit by all persons on the several routes examined, and they gave me all the assistance and information which they could give, several voluntarily accompanying me to show me through lands with which they are acquainted.

SANDFORD FLEMING, Esq.,
Chief Engineer,
Canadian Pacific Railway.

I have the honor to be, Dear Sir,
Yours very sincerely,
(Signed), LEON G. BELL.

RETURN

To an ADDRESS of THE HOUSE OF COMMONS, dated 17th February, 1875 ; For copies of any correspondence which may have taken place, relating to Addresses of this House presented last Session to the Governor General on the subject of the Act respecting the Copyrights, which Act was reserved for the signification of Her Majesty's pleasure thereon.

By Command,

R. W. SCOTT,
Secretary of State.

DEPARTMENT OF SECRETARY OF STATE,
OTTAWA, 22nd February, 1875.

The Earl of Dufferin to the Earl of Carnarvon.

(No. 132.)

OTTAWA, MAY 16th, 1874.

MY LORD,—I have the honour to transmit herewith for Your Lordship's consideration attested copies of Resolutions adopted by the Senate and House of Commons of Canada, respectfully urging the assent of Her Majesty's Government, to a Bill entitled : " An Act to amend the Act respecting Copyrights " passed in the Session of 1872, and reserved by Lord Lisgar for the signification of Her Majesty's pleasure, if not assented to within two years the Act will expire on the 14th of next month.

I communicated to Your Lordship to-day by Telegraphic Message the substance of these resolutions.

I also beg to enclose an Extract from the " Globe " newspaper, containing a " Globe " May report of the debate on the introduction of the Resolution into the 14th 1874. House of Commons.

I have &c.,
(Signed,)

DUFFERIN.

The Right Honorable
The Earl of Carnarvon,
&c., &c., &c.

Earl of Carnarvon to Earl of Dufferin.

(Canada.—No. 104.)

DOWNING STREET, 15th June 1874.

MY LORD,—I have to acknowledge the receipt of your Despatch No. 132, of the 16th ultimo, transmitting for my consideration attested copies of Resolutions of the Parliament of Canada, urging that Her Majesty's assent should be given to a Bill entitled : " An Act to amend the Act respecting Copyrights " passed in the Session of 1872, and reserved by Lord Lisgar.

2. You will have learnt by my telegram of the 11th instant that I have felt myself unable to advise Her Majesty to assent to this Bill, and I now proceed to state shortly to you the ground upon which I have reluctantly, though without any doubt, been compelled, after taking the advice of the Law Officers of the Crown, to tender this advice to Her Majesty.

3. The Imperial Copyright Act 5 and 6 Viet., Cap. 45, is as you are aware, still in force in its integrity throughout the British Dominions in so far as it prohibits the *printing* in any part of such Dominions of a book in which there is subsisting Copyright under that Act without the assent of the owner of the Copyright, although the provision in that Act which prohibits the *importation* of foreign reprints of British Copyright works has been modified by the subsequent Act 10 and 11 Victoria, c. 95.

4. There is a recital in the Canadian Bill which by the "British North America Act 1867," express power is given to the Parliament of Canada to legislate upon the subject of Copyright, but it is to be observed that the section (the 91st,) containing this provision is one of several having reference (under the 6th general head of the Act) to "the distribution of legislative power," and provides that "copyrights" amongst other subjects are to be dealt with by the Parliament of Canada, while other subjects (under section 92), are to be exclusively dealt with by the Provincial Legislature.

5. The effect of the Imperial Act is to enable the Parliament of Canada to deal with Colonial Copyrights within the Dominion, but it is clear that it was not contemplated to interfere with the rights secured to Authors by the Imperial Act of 5 and 6 Viet. c. 45, or to override the provisions of that Act.

6. Upon this point I am supported not only by the opinion of the present Law Officers of the Crown, but by the opinion of those eminent Lawyers, the present Lord Selborne and Mr. Herschell, Q. C., whose reports will be found in the A. C. 339, July, Copyright paper presented to Parliament in 1872, a copy of which 1872, page 74. I annex for your information.

7. I may further observe, if confirmation of this view were needed, that the report of the Committee of your Privy Council of the 6th June 1872, enclosed in your Despatch No. 159 of the 7th June, admits that the provisions of the Canadian Bill are in conflict with Imperial Legislation.

8. In these circumstances I have had no alternative but to advise Her Majesty that Her assent could not properly be given to the Canadian Bill, and I may add that the validity of this Bill would not have been established even if Her Majesty had been pleased to assent to it, inasmuch as by the 2nd Section of the "Colonial Laws Validity Act" (28 and 29 Viet. c. 63.) any part of a Colonial Law which is repugnant to an Imperial Act extending to the Colony in which such Law is passed, is *pro tanto* absolutely void and inoperative.

9. I am aware that the subject of Colonial Copyright has long been under consideration, and that attempts were made by Her Majesty's late Government in communication with yourself and your Ministers to arrive at a settlement of this difficult but most important question. I will only now express my readiness to co-operate and my confident hope that we may without difficulty be able to agree in the provisions of a measure which, while preserving the rights of the owners of Copyright Works in this country under the Imperial Act, will give effect to the views of the Canadian Government and Parliament.

I have, &c.,

(Signed,)

CARNARVON.

Governor General the Right Honorable
The Earl of Dufferin, K. P., K. C. B.,
&c., &c., &c.

(No. 28.)

RETURN

To an ADDRESS of THE SENATE, dated 23rd February, 1875; For copies of all despatches and other communications which have passed between the Government of the Dominion and the Imperial Government, and also between this Government and its Agents and other individuals, since the 31st March, 1874, relative to the question of re-printing British Copyright Works under certain conditions, as set forth in "An Act to amend the Act respecting Copyrights," passed by this Legislature in the Session of 1872, and reserved for the signification of Her Majesty's Pleasure on the 14th June, 1872.

By Command.

R. W. SCOTT,

Secretary of State.

DEPARTMENT OF THE SECRETARY OF STATE,
3rd March, 1875.

[In accordance with the recommendation of the Joint Committee on Printing, the above Return is not printed.]

RETURN

To an ADDRESS of the HOUSE OF COMMONS, dated 8th February, 1875; For a copy of His Excellency the Governor-General's Commission and of the Royal Instructions which accompanied the same.

By Command,

R. W. SCOTT,

Secretary of State.

Department of the Secretary of State,
15th February, 1875.

CANADA.

DRAFT OF A COMMISSION passed under the Great Seal of the United Kingdom, appointing the Right Honourable the Earl of Dufferin, K. P., K. C. B., to be Governor-General of Canada.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, To Our Right Trusty and Right Well-beloved Cousin and Councillor Frederick Temple Earl of Dufferin, Knight of Our Most Illustrious Order of Saint Patrick, Knight Commander of Our Most Honourable Order of the Bath, Greeting :

WHEREAS We did by certain Letters Patent under the Great Seal of Our United Kingdom of Great Britain and Ireland, bearing date at Westminster, the twenty-ninth day of December, 1868, in the thirty-second year of Our reign, constitute and appoint Our Right Trusty and Well-beloved Councillor Sir John Young, Baronet (now our Right Trusty and Well-beloved Councillor John Baron Lisgar), Knight Grand Cross of Our most Honourable Order of the Bath, Knight Grand Cross of Our most distinguished order of Saint Michael and Saint George, to be Governor-General of Canada, for and during Our will and pleasure, as upon relation being had to the said recited Letters-Patent will more fully and at large appear.

Now know you that We have revoked and determined, and by these presents do revoke and determine the said recited Letters Patent, and every clause, article, and thing therein contained. And further, know you that We, reposing especial trust and confidence in the prudence, courage, and loyalty of you the said Frederick Temple Earl of Dufferin, of Our special grace, certain knowledge, and mere motion, have thought fit to constitute and appoint, and by these Presents do Constitute and Appoint you to be Our Governor-General in and over Our Dominion of Canada, for and during Our will and pleasure. And We do hereby authorize and command you in due manner to do and execute all things that shall belong to your said command, and the trust We have reposed in you, according to the several Powers and Directions granted or appointed you by this Our present Commission, and of the Act of Parliament passed in the Thirtieth Year of Our Reign, intituled "The British North America Act, 1867;" and according to such instructions as are herewith given to you, or as may hereafter be given to you under Our Sign Manual and Signet, or by Our Order in Our Privy Council, or by Us through One of Our Principal Secretaries of State, and according to such laws as are now or shall hereafter be in force in Our said Dominion.

II. And We do hereby authorize and empower you to keep and use the Great Seal of Our said Dominion for sealing all things whatsoever that shall pass the said Great Seal.

III. And We do further authorize and empower you to constitute and appoint in Our name and on Our behalf all such Judges, Commissioners, Justices of the Peace, and other necessary Officers and Ministers of Our said Dominion, as may be lawfully constituted or appointed by Us.

IV. And We do further authorize and empower you, as you shall see occasion, in Our name and on Our behalf, when any crime has been committed within Our said Dominion, to grant a Pardon to any accomplice, not being the actual perpetrator of such crime, who shall give such information and evidence as shall lead to the apprehension and conviction of the principal offender; and further, to grant to any offender convicted of any crime in any Court, or before any Judge, Justice, or Magistrate within Our said Dominion, a Pardon, either free or subject to lawful conditions, or any respite of the execution of the sentence of any such offender for such period as to you may seem fit; and to remit any fines, penalties, or forfeitures which may become due and payable to Us.

V. And We do further authorize and empower you, so far as We lawfully may, upon sufficient cause to you appearing to remove from his office, or to suspend from the exercise of the same, any person exercising any such office or place within Our said Dominion, under or by virtue of any Commission or Warrant granted, or which may be granted by Us in Our name or by Our authority.

VI. And We do further authorize and empower you to exercise from time to time, as you may judge necessary, all powers lawfully belonging to Us, in respect of assembling, or proroguing, the Senate or the House of Commons of Our said Dominion, and of dissolving the said House of Commons, and We do hereby give the like authority to the several Lieutenant-Governors for the time being, of the Provinces in Our said Dominion with respect to the Legislative Councils, or the Legislative or General Assemblies of those Provinces respectively.

VII. And We do by these Presents authorize and empower you, within Our said Dominion, to exercise all such powers as We may be entitled to exercise therein in respect of granting Licenses for Marriages, Letters of Administration, and Probates of Wills, and with respect to the Custody and Management of Idiots and Lunatics, and their Estates.

VIII. And whereas by the said British North America Act, 1867, it is amongst other things enacted, that it shall be lawful for Us, if We think fit, to authorize the Governor-General of Canada to appoint any person or persons jointly, or severally, to be his Deputy or Deputies within any part or parts of Canada, and in that capacity to exercise, during the pleasure of the Governor-General, such of the powers, authorities, and functions of the Governor-General as he may deem it necessary or expedient to assign to him or them, subject to any limitations or directions from time

to time expressed or given by Us: Now We do hereby authorize and empower you, subject to such limitations and directions as aforesaid, to appoint any person or persons, jointly or severally, to be your Deputy or Deputies within any Part or Parts of Our Dominion of Canada, and in that capacity to exercise, during your pleasure, such of your powers, functions, and authorities, as you may deem it necessary or expedient to assign to him or them: Provided always that the appointment of such a Deputy or Deputies shall not affect the exercise of any such power, authority, or function by you, the said Frederick Temple Earl of Dufferin, in person.

IX. And We do hereby declare Our pleasure to be that in the event of your death, incapacity, or absence out of Our said Dominion, all and every the powers and authorities herein granted to you shall, until Our further pleasure is signified therein, be vested in such person as may be appointed by Us under Our Sign Manual and Signet, to be Our Lieutenant-Governor of Our said Dominion, or if there shall be no such Lieutenant-Governor in Our said Dominion, then in such person or persons as may be appointed by Us under Our Sign Manual and Signet to administer the Government of the same: and in case there shall be no person or persons within Our said Dominion so appointed by Us, then in the Senior Officer for the time being in command of Our regular troops in Our said Dominion.

X. And We do hereby require and command all Our Officers and Ministers, Civil and Military, and all other the inhabitants of Our said Dominion, to be obedient, aiding, and assisting unto you the said Frederick Temple Earl of Dufferin, or in the event of your death, incapacity, or absence, to such person or persons as may from time to time, under the provisions of this Our Commission, administer the Government of Our said Dominion.

In Witness whereof We have caused these Our Letters to be made Patent. Witness Ourself at Westminster, the Twenty-second day of May, in the Thirty-fifth year of Our Reign.

By Warrant under the Queen's Sign Manual.

C. ROMILLY.

CANADA.

DRAFT OF INSTRUCTIONS passed under the Royal Sign Manual and Signet to the Right Honourable the Earl of Dufferin, K. P., K. C. B., as Governor-General of Canada.

VICTORIA R.

INSTRUCTIONS to Our Right Trusty and Right Well-beloved Cousin and Councillor, Frederick Temple Earl of Dufferin, Knight of Our Most Illustrious Order of Saint Patrick, Knight Commander of Our Most Honourable Order of the Bath, Our Governor-General in and over Our Dominion of Canada, or in his absence, to Our Lieutenant-Governor, or the Officer administering the Government of Our said Dominion of Canada for the time being. Given at Our Court at Balmoral, this Twenty-second day of May, 1872, in the Thirty-fifth Year of Our Reign.

I. **WHEREAS**, by a Commission under the Great Seal of Our United Kingdom of Great Britain and Ireland, bearing even date herewith, we have constituted and appointed you, the said Frederick Temple Earl of Dufferin, to be Our Governor-General in and over Our Dominion of Canada, for and during Our Will and Pleasure, and have further authorized and commanded you to do and execute all things in due manner that shall belong to your said command, and the trust thereby reposed in you, according to the several powers and directions therein-mentioned, and particularly according to such Instructions as should therewith be given to you. Now, therefore, We do by these Our Instructions under Our Sign Manual and Signet, being the Instructions so

referred to as aforesaid, declare Our Pleasure to be, that you shall with all due solemnity cause Our said Commission to be published in Our said Dominion; and you shall then and there take the oath of allegiance, in the form provided by an Act passed in the Session holden in the thirty-first and thirty-second years of Our Reign, intituled "An Act to amend the Law relating to Promissory Oaths;" and likewise that you do take the usual oath for the due execution of the office and trust of Our Governor-General in and over Our Dominion of Canada, and for the due and impartial administration of justice, which said oaths the Judges of Our Supreme Courts of Record within Our said Dominion, or any three or more of such Judges, are hereby required to tender and administer unto you.

II. And We do authorize and require you from time to time, and at any time hereafter, by yourself or by any other person to be authorized by you in that behalf, to administer to all and to every persons or person, as you shall think fit, who shall hold any office or place of trust or profit, the said oath of allegiance, together with such other oath or oaths as may from time to time be prescribed by any laws or statutes in that behalf made and provided.

III. And We do require you to communicate forthwith to Our Privy Council for Our said Dominion these Our Instructions, and likewise all such others from time to time as you shall find convenient for Our service to be imparted to them.

IV. And We do hereby direct and enjoin, and it is Our Pleasure, that Our said Privy Council shall not proceed to the dispatch of business unless duly summoned by your authority, nor unless four Members of the said Council be present, and assisting throughout the whole of the meetings, at which any such business shall be dispatched.

V. And We do further direct, that if in any case you see sufficient cause to dissent from the opinion of the major part or of the whole of Our said Privy Council so present, it shall by competent for you to execute the powers and authorities vested in you by Our said Commission, and by these Our instructions, in opposition to such their opinion; it being, nevertheless, Our Pleasure, that in every case it shall be competent to any Member of Our said Privy Council to record at length, on the minutes of Our said Council, the grounds and reasons of any advice or opinion he may give upon any question brought under the consideration of such Council.

VI. And it is Our pleasure and you are hereby authorized to appoint by an instrument under the Great Seal of Canada, one Member of Our said Privy Council to preside in your absence, and to remove him and appoint another in his stead. And if during your absence the Member so appointed shall also be absent, then the Senior Member of the Privy Council actually present shall preside, the seniority of the Members of the said Council being regulated according to the date or order of their respective appointments thereto.

VII. And We do further direct and enjoin that a full and exact journal or minute be kept of all the deliberations, acts, proceedings, votes and resolutions of Our said Privy Council, and that at each meeting of the said Council the minutes of the last meeting be read over, confirmed, or amended, as the case may require, before proceeding to the despatch of any other business.

VIII. And in the execution of so much of the powers as are vested in you by law for assenting to or withholding assent from or of reserving for the signification of Our pleasure, Bills which may have been passed by the Houses of Parliament of Our said Dominion, We do direct and enjoin you to guide yourself, as far as may be practicable, by the following Rules, Directions, and Instructions, that is to say:

IX. You are not to assent in Our name to any Bill of any of the classes hereinafter specified, that is to say:—

1. Any Bill for the divorce of persons joined together in holy matrimony.
2. Any Bill whereby any grant of land or money, or other donation or gratuity, may be made to yourself.
3. Any Bill whereby any paper or other currency may be made a legal tender, except the coin of the realm or other gold or silver coin.
4. Any Bill imposing differential duties.

5. Any Bill, the provisions of which shall appear inconsistent with obligations imposed upon Us by Treaty.

6. Any Bill interfering with the discipline or control of Our forces in Our said Dominion by land and sea.

7. Any Bill of an extraordinary nature and importance, whereby Our prerogative, or the rights and property of Our Subjects not residing in Our said Dominion, or the trade and shipping of the United Kingdom and its Dependencies, may be prejudiced.

8. Any Bill containing provisions to which Our assent has been once refused, or which has been disallowed by Us.

Unless such Bill shall contain a clause suspending the operation of such Bill until the signification in Our said Dominion of Our pleasure thereupon, or unless you shall have satisfied yourself that an urgent necessity exists, requiring that such Bill be brought into immediate operation, in which case you are authorized to assent in Our name to such Bill, unless the same shall be repugnant to the law of England or inconsistent with any obligations imposed on Us by Treaty. But you are to transmit to Us by the earliest opportunity the Bill so assented to, together with your reasons for assenting thereto.

X. You will take care that all laws assented to by you in Our name, or reserved for the signification of Our pleasure thereon, shall, when transmitted by you, be fairly abstracted in the margins, and be accompanied, in such cases as may seem to you necessary, with such explanatory observations as may be required to exhibit the reasons and occasion for proposing such laws; and you shall also transmit fair copies of the Journals and minutes of the proceedings of the Legislative Bodies of Our said Dominion, which you are to require from the clerks or other proper officers in that behalf of the said Legislative Bodies.

XI. And whereas We have by Our said Commission authorized and empowered you, as you shall see occasion, in Our name and on Our behalf, to grant to any person convicted of any crime in any Court, or before any Judge, Justice, or Magistrate within Our said Dominion, a pardon either free or subject to lawful conditions: Now We do hereby direct and enjoin you to call upon the Judge who presided at the trial of any offender who shall have been condemned to suffer death by the sentence of any Court within Our said Dominion to make to you a written Report of the case of such offender, and such Report of the said Judge shall by you be taken into consideration at the first meeting thereafter which may be conveniently held, of Our said Privy Council, when the said Judge may be specially summoned to attend; and you shall not pardon or reprieve any such offender as aforesaid, unless it shall appear to you expedient to do so, upon receiving the advice of Our Privy Council therein, but in all such cases you are to decide either to extend or to withhold a pardon or reprieve, according to your own deliberate judgment, whether the Members of Our said Privy Council concur therein or otherwise; Entering, nevertheless, on the Minutes of Our said Council a Minute of your reasons at length, in case you should decide any such questions in opposition to the judgment of the majority of the members thereof.

XII. And We do further direct and enjoin that all Commissions granted by you to any person or persons to be Judges, Justices of the Peace, or other officers, shall, unless otherwise provided by law, be granted during pleasure only.

XIII. And We do further direct and enjoin that you do transmit to Us punctually from year to year, through one of Our Principal Secretaries of State, such annual Returns as are compiled in the Dominion of Canada, relative to the revenue and expenditure, militia, public works, legislation, civil establishments, pensions, population, schools, course of exchange, imports and exports, agricultural produce, manufactures, and other matters with reference to the state and condition of Our said Dominion.

XIV. And whereas great prejudice may happen to Our service and to the security of Our said Dominion by the absence of the Governor-General, you shall not, upon any pretence whatever, quit the said Dominion without having first obtained leave from Us for so doing, under Our Sign-Manual and Signet, or through one of Our Principal Secretaries of State.

V. R.

(No. 30.)

RETURN

- To an ADDRESS of THE HOUSE OF COMMONS, dated 17th February, 1875 ;
- For, 1st. The entire quantity of Ground Gypsum or Land Plaster imported into the Dominion of Canada from the United States since the 1st day of April, 1874.
- 2nd. For the respective quantities of the said Ground Gypsum or Land Plaster imported from the United States as received at the several Lake and River Ports of the Dominion.
- 3rd. For the entire sum collected as Revenue from the said article of Ground Gypsum or Land Plaster between the 1st day of April and the 1st day of December, 1874.

By Command.

R. W. SCOTT,

Secretary of State.

(No. 36.)

RETURN

TO an ADDRESS of THE HOUSE OF COMMONS, dated 20th April, 1874; For a list of persons to whom contracts have been awarded for the construction of the several sections of the works now in progress, or hereafter to be commenced on the Welland Canal, for which tenders have been received, with the names of their sureties; also a list of all the tenders made for the same, specifying the names of persons so tendering, the sections for which they severally tendered, and the amount of each tender.

By Command.

R. W. SCOTT,

Secretary of State.

DEPARTMENT OF THE SECRETARY OF STATE,

26th February, 1875.

(No. 36.)

RETURN

TO an ADDRESS of THE HOUSE OF COMMONS, dated 3rd March, 1875; For copies of all Estimates and Reports of the Engineers in charge of the Welland Canal, showing the cost of removing the rock bottom at Raney's Bend, with a view to obtaining Lake Erie level.

By Command.

R. W. SCOTT,

Secretary of State.

DEPARTMENT OF THE SECRETARY OF STATE,

25th March, 1875.

[In accordance with the recommendation of the Joint Committee on Printing, the above Returns are not printed.]

RETURN

To an ADDRESS of the HOUSE OF COMMONS, dated 20th April, 1874; For a Statement of the number of Emigrants conveyed over the Dawson Road to Manitoba, since the opening of said road; also, the cost of conveyance of such Emigrants to Manitoba, shewing the average cost of each person so carried.

By Command.

R. W. SCOTT,
Secretary of State.

DEPARTMENT OF SECRETARY OF STATE,
OTTAWA, 26th February, 1875.

OTTAWA, 15th February, 1875.

(Memorandum.)

The number of emigrants conveyed over the route leading from Lake Superior to Manitoba, since the opening of the same in 1871, up to the end of October, 1873, and the approximate cost of their conveyance, were as follows:—

Passengers conveyed from July, 1871, to October, 1873, 2,739 persons, of whom there were classed as emigrants 805, remaining permanently as settlers in Manitoba.

The estimated average cost of carrying emigrants was \$25 per head, the actual charge in 1872 was \$15 per head, and in 1873 \$10 per head.

The line having been kept open for other purposes besides the conveyance of emigrants, such as the military occupation of the North-West Territories, and the carriage of workmen, material and supplies, the organization for transportation was not exclusively chargeable to this service.

Previous to the opening of the line for emigrants, about 2,000 people, soldiers, workmen and others, passed over it to Manitoba, and of these about 400 remained in the country and became settlers.

Of the workmen employed subsequently, a considerable number have settled permanently in the country.

Respectfully submitted.

(Signed,) S. J. DAWSON.

F. Braun, Esq., Secretary.
Department of Public Works,
Ottawa.

(No. 38)

RETURN

TO an ADDRESS of THE HOUSE OF COMMONS, dated 20th May, 1874;
For copies of instructions furnished by the Department of Public Works to one Mr. Johnston, for the survey of that portion of the Ottawa River, lying between the foot of Paquette's Rapids and head of Allumette Island; also copies of all plans of said survey, with Mr. Johnston's report thereon, together with the estimated cost of improving the navigation at Paquette's Rapids, and Allumette Rapids, so as to admit of the passage of steamers, and the scale of prices upon which such estimate of cost is based.

By Command.

R. W. SCOTT,

Secretary of State.

DEPARTMENT OF THE SECRETARY OF STATE,

26th February, 1875.

RETURN

To an ADDRESS of the HOUSE OF COMMONS, dated 18th May, 1874; For copies of all tenders and correspondence relating to the contract for carrying passengers and freight between Thunder Bay and Fort Garry, with the names of parties tendering and amount of bonus asked; the rate per head to be charged for passengers, and rate per ton for freight; the number of passengers and amount of freight which said contractors are bound to carry, and the time agreed upon to make the trip, with statement of any other arrangements made which were not included in original tender, also names of sureties offered with amount for which said sureties are liable.

By command.

R. W. SCOTT,

Secretary of State.

DEPARTMENT OF SECRETARY OF STATE,
OTTAWA, 26th February, 1875.

(A.)

MANITOBA AND THE NORTH WEST TERRITORIES.

INFORMATION RESPECTING THE MEANS OF TRANSPORTATION.

Thunder Bay Road

This road is forty-five miles in length, from the starting point at Prince Arthur's Landing, Thunder Bay, to Shebandowan Lake, where it ends, and the system hitherto adopted, in providing for transportation thereon has been to hire teams of horses at the points from whence the steamers run, namely :—Collingwood, Owen Sound and Sarnia, bringing them forward in spring and sending them back in the fall.

Shebandowan.

This station is the shipping point for the navigable sections, and it is now well provided with suitable buildings, comprising a store house, a dwelling house, a building for emigrants, a hay shed, a cook house and a stable.

On Shebandowan Lake Transportation is affected by means of a steam tug and a barge, but in addition, there is a relay of row-boats kept always in readiness in case of accident to the tug.

Kashabowiwe.

There are good wharves at either end of the portage, and a good house has been provided for emigrants. The Lake is nine miles in length, and on it there are a tug and barge, with a relay of boats, are used for transportation.

Height of Land and Lac des Milles Lacs.

The portage above named is one mile in length. On Lac des Milles Lacs a tug, a barge and a relay of boats, as at Shebandowan, are used for transportation.

Baril Portage and Lake.

The portage here is only a quarter of a mile in length. The lake is eight miles long and transportation provided for by means of a steam tug, a barge, and a relay of boats.

Brulé Portage and Windigoostigon Lake.

This portage is three quarters of a mile long, and Windigoostigon Lake 12 miles in length. On the latter there is a tug with a number of boats.

French Portage and Kaogossikok Lake.

The portage is one mile and 57 chains in length. The navigable section, west of French portage, embracing the French and Kaogossikok Lakes is 15 miles in length, and on it there is an excellent tug, an open barge and a relay of boats.

Pine and Deux Rivières Portages.

These are, respectively, 30 and 32 chains in length, and are separated by a small lake only one mile and a quarter across. The little lake referred to is passed by means of a row boat for passengers and a flat scow for freight.

Sturgeon Lake.

The length of this section is sixteen miles, in a direct line, but the tug, in following the channel, has to run twenty miles. On this lake there is a tug, together with an open barge and a number of boats.

Maligne River.

The portage here is a mere lift, and articles are passed over by hand, in a sled arranged to run on wooded rails. The section known as the Maligne or Bad River is ten miles long, commencing at Maligne Portage and ending at Island Portage. Row boats are used on this short section.

Island Portage.

The portage here is quite short, and articles are passed over by hand on a sled.

Nequaquon Lake.

Is seventeen miles in length, but the tug in passing through it, has to run twenty or more, on account of the sinuosities of the channel. The tug on this lake is a very fine one, but the barge is of the undecked class. There are also row boats on this lake.

Nequaquon or the New Portage.

This carrying place is three miles and a quarter in length. There are small wharves and sheds for goods at either end of the portage, besides a house for emigrants at the east end.

Namuskan Lake.

The distance from Nequaquon Portage to Kettle Falls is fifteen miles in a direct line, but the tug has to make a great detour, adding fully six. The plant consists of a tug, an open barge, and row boats.

Kettle Falls.

This station is at the head of Rainy Lake. An emigrant house, a small store house, two log huts, and a wharf, were built here during the past summer, and a few acres of ground cleared off to guard against fire. The portage is twenty chains in length.

Rainy Lake.

On this lake there is now a steamer, 100 feet keel by 19 feet breath of beam, capable of carrying all the freight and passengers likely to offer; the distance she runs is 45 miles. Immediately at the foot of Rainy Lake there are two rapids in close succession, up and down which the steamer has been run repeatedly, but in one pitch—that nearest the lake—she has difficulty; in fact, was carried back on several occasions when attempting to ascend, and, in these rapids row boats have since been used.

Fort Frances

is the next station, and here, as at Kettle Falls, the carrying place is quite short. The buildings are mere huts.

At Fort Frances there is a large amount of stock and plant, consisting of blacksmiths and mechanical engineers' tools, for the repair of machinery carpenters and boat-builders tools, &c., together with a stock of irons chains, anchors, ropes, &c.

Rainy River.

Between Fort Frances and Hungry Hall, at the entrance of the Lake of the Woods the distance is 75 miles. About midway between these places is a rapid called the Long Sault, where, although the current is not so strong as to prevent a large steamer from running, there are boulders in the bed of the river which require to be removed before it would be quite safe to risk such a boat as the Lake of the Woods steamer.

The entire distance from Fort Frances to the north west angle of the Lake of the Woods, by the way the steamer runs, is 125 miles, and, on this long section, the plant at present in use consists of a large side-wheel steamer 120 feet keel breath of beam—open barges, row boats, one tug of forty feet keel, and a small tug of 33 feet keel.

The plan adopted since the large steamer was put in operation is as follows: A tug, with a number of boats and barges, runs from Fort Frances to the Long Sault, where a wharf has been built. At this wharf passengers and freight are transferred to the Lake of the Woods steamer which runs from that place to the North West Angle. But at the latter place, until the road shall have been extended, the steamer cannot get within two miles of the station, and it is necessary to keep a small tug and barge in readiness to land her freight and passengers.

Lake of the Woods Road.

This road is 95 miles, more or less, in length, from its starting point at the north west angle of the Lake of the Woods to St. Boniface, a place on the bank of the Red River opposite Fort Garry.

There are good buildings and stables at Birch River, White Mouth River and Oak Point Settlement. At Broken Head River and the Angle, there are also buildings which have so far sufficed.

(B)

SCHEDULE OF BUILDINGS, STEAMBOATS, STEAM LAUNCHES, BARGES &c., AT THE VARIOUS STATIONS ON THE RED RIVER ROUTE.

Buildings.

Thunder Bay.—Office; Emigrant House; Shingled Log House; four Store Houses; Stables; Cattle Sheds.

Little Lake.—House; Stables.

Matawin.—House; Stables.

Browne's Lane.—House; Stables.

Shebandowan.—Emigrant House; Office & Employees Quarters; Store House Stables.

Kashaboiwe.—Emigrant House and Office.

Height of Land.—Emigrant House and Office; 3 Buildings; Stables.

Baril Portage.—Two Small Buildings.

Brul Portage.—Emigrant House; Store and Office; Small Building.

French Portage.—New Building, (nearly completed).

Deux Rivières & Pine.—Two Small Buildings.

Maligne.—1 Store and Office; 2 Small Buildings.

Nequaquon.—1 Emigrant House; 2 Small Buildings.

Kettle Falls.—1 Emigrant House; Store House.

Fort Frances.—1 Emigrant House; 2 Store Houses, 4 Small Buildings.

Long Sault.—1 Emigrant House.

North-West Angle.—1 Store; 1 Office; 2 Bark Houses; Teamsters' House and Stables.

Birch River.—Station House; Store; Stables.

White Mouth.—Station House; Store; Stables.

Broken Head.—Station House; Stables.

Oak Point.—Station House; Emigrant House and Office; Stables.

Steamboats.

1. Rainy Lake.

1. Lake of The Woods.

Steam Launches.

1. Shebandowan.

1. Kashaboiwe.

1. Lac des Milles Lacs.

1. Baril.

1. Windigoostigon.

1. Kaogossikok.

1. Sturgeon.

1. Lac La Croix.

1. Namuekan.

1. Rainy River.

1. North-West Angle.

1. (Dismantled).

Decked Barges.

1. Shebandowan.

1. Kashaboiwe.

1. Lac des Milles Lacs.

1. Baril Lake.

Open Barges, 9.

Row Boats, 80.

Horses, Waggon, &c.

10 Teams Horses.

40 Waggon.

Yokes of Oxen.

Harness.

A quantity of loose plant along the line.

Articles of agreement made and entered into this fourth day of May in the year of Our Lord one thousand eight hundred and seventy-four, in duplicate

Between William Henry Carpenter, of Orillia, in the County of Simcoe, and Province of Ontario, wholesale and retail provision dealer; William Barnabas Wemp of Bridge-water, in the County of Hastings, in the said Province of Ontario, stage proprietor; Alexander Archibald McCallum, of Tweed, in the said County of Hastings, miller and contractor; Charles McInnes, of Orillia, aforesaid, mariner, and Matthew McLean Thompson, of Belleville, in the said County of Hastings, book-keeper, carrying on the business of contractors as co-partners under the name, style and firm of "William H. Carpenter and Company," hereinafter called "the contractors" of the first part;

And Her Majesty Queen Victoria, represented herein by the Honorable Alexander Mackenzie, acting in his capacity as Minister of Public Works of the Dominion of Canada, hereinafter called "Her Majesty," and "the Minister" respectively, of the second part.

WHEREAS the said Minister, acting as aforesaid, hath caused public notice to be given that tenders and proposals would be received by him, for working the line of transportation of passengers and freight between Thunder Bay on Lake Superior, in the said Province of Ontario, and Fort Garry in the Province of Manitoba, in the said Dominion of Canada, during the ensuing season of navigation (season of 1874.)

And whereas the said W. H. Carpenter & Co., have tendered for the same, and whereas their tender hath been accepted by the Minister for and on behalf of Her Majesty.

Now this agreement witnesseth that the contractor in consideration of the bonus or sum of seventy-five thousand dollars of lawful money of Canada, for the said season of navigation of the present year (1874) and of the covenants and agreements hereinafter expressed and contained on the part and behalf of the Minister, acting as aforesaid, do hereby for themselves, their and each of their heirs, executors and administrators, covenant and agree with Her Majesty, Her heirs and successors in manner following, that is to say:

1. That the contractors will, during the period or season of navigation of the present year (1874) which season usually opens on or about the first week of May and closes on or about the latter part of October, work and keep in operation the line of transportation of passengers and freight, and maintain the same on a scale sufficient to ensure the conveyance without delay of said passengers and freight over the route indicated in the printed "Information respecting the means of transportation," marked A, hereunto annexed, between Thunder Bay and Fort Garry, or *vice versa*, or between any point on the said route and any other point thereon, to the entire satisfaction of the Minister, or his successors in office.

2. That the contractors shall and will, during the said season of navigation, will and sufficiently furnish, provide, maintain, repair and keep in repair at all times, such steam-boats, steam-launches, barges, boats, covered stages, freight waggons, plant, effects, materials and things as may be required, and also all horses, oxen and teams, and other requisites necessary to ensure the due and satisfactory performance of the service of transportation aforesaid, and that they will provide, furnish and equip the said boats and other water conveyances, and each of them as the case may require with sufficient experienced and skillful engineers, crews, supplies, materials and plant, also that the stages, waggons, and vehicles or land conveyances, shall be provided with sufficient staff of men, and horses or oxen, harness, plant, and such other supplies as may be required as aforesaid; and that the contractors shall procure and keep ready for use such extra supplies and materials as may be necessary to prevent delay or inconvenience in case of accident whether on the land or on water line. Provided, however, that the contractor shall have the privilege of using such of the several buildings, row-boats, horses, oxen, waggons, harness and plant as they may require for the purpose of carrying out the said contract, and mentioned in schedule "B," subject, however, to the approval of the Department of Public Works, and the steamboats, steam-launches and barges belonging to the said Department of Public Works at the various stations on the Red River Route, indicated and mentioned or described in the said schedule marked "B" hereunto annexed, for the said service during the period of the present contract. That the contractors shall provide proper food for and take good care of the horses and oxen belonging to the Government; and that their employees shall take all the care that may be required and desirable in using the said buildings, vessels, vehicles, horses, oxen and plant, which will be handed over to the contractors on the opening of navigation; and that they will return them to the officers of the Department of Public Works at the close of navigation, when the service shall cease, in as good order and condition as when received, reasonable wear and tear and accidents by fire or other unavoidable accidents excepted.

3. That the contractors shall not run the boats to or from any place or places off the line of the route aforementioned, without the written consent of the Minister or officer in charge, under pain of forfeiture of the bonus hereby provided.

4. That the contractors shall and will during the continuance of this contract, cause the said boats and waggons or stages to make and run the following trips respectively, to wit :

Passengers stages, accompanied by baggage waggons shall leave Thunder Bay on arrival of boats (Sundays excepted) or three times per week, or daily if a sufficient number of passengers offers, and freight waggons shall leave regularly three times per week, or daily if sufficient freight requires it. On the Fort Garry end of the route, regular passenger stages with baggage waggons and freight teams, may await the arrival of the steamer at North West Angle of the Lake of the Woods, or shall regularly leave Fort Garry and the Lake of the Woods three times per week, or daily if necessary.

5. That the contractors shall and will during the continuance of this agreement so manage and conduct the said water and land conveyances that passengers and baggage shall be conveyed from Thunder Bay to Fort Garry, or *vice versa*, within a reasonable time, which, however, shall not exceed, as far as practicable, ten or twelve days from either end of the route, and that freight shall be transported from Thunder Bay to Fort Garry or *vice versa* within a reasonable time, not exceeding fifteen or twenty days, the service in all cases to be performed with as little delay as possible.

6. That they shall and will, in the event of any accident or damage happening to the water or land conveyances aforesaid, or to any of them by which the service herein contracted for may be interrupted or delayed, procure other means of transportation with all possible despatch to supply the place of the conveyance or conveyances so damaged or lost ; and that the contractors shall be held responsible for and shall pay for any loss or damage caused through the neglect of their staff to the public property or effects hereinbefore mentioned, reasonable wear and tear always excepted.

7. That the contractors shall place on the Government steam launches, engineers having at least third class assistant's certificates or permits from the Board of Steamboat Inspection, and on each of the two large Government steamers an engineer having a certificate subject to the approval of the chairman of the Board of Steamboat Inspection, and one assistant engineer having at least a third class certificate or permit.

8. That the contractors shall maintain at each station a sufficient number of experienced *voyageurs* to man the boats required for transportation and shall provide and keep at all times ready for the use of the steamers and launches a quantity of firewood sufficient to prevent any unnecessary delays in running.

9. That the contractors shall maintain the houses and tents required for the accommodation of the emigrants at all times in good order, and shall furnish and provide to all or any passengers requiring or asking for the same, at the regular stations, meals of plain wholesome food at a fare not exceeding thirty cents per meal ; but no charge shall in any case be made for house accommodation.

10. Intoxicating liquors are strictly prohibited on the line of the route ; and the contractors do hereby bind themselves to use all lawful means to prevent the sale or introduction of spirituous liquors on any portion of the line, under pain of forfeiture of the bonus hereby provided.

11. That the contractors, as well as their employees, shall abstain from trading in furs on the line, and that the contractors shall dismiss at once any of their employees found guilty of infringing this condition.

12. The contractors will carry and transport Indians over the line or any part thereof on such terms of remuneration as may be approved of by the Indian Agent.

13. That should an employee or any of the employees of the contractors behave himself or themselves in an unbecoming or disorderly manner, or interfere unduly with the Indians, or with the passengers on the line, or at any of the stations or near the same, the contractors shall dismiss such employee or employees on the representation of the superintendent or Indian agent, or of the officer of the Department of Public Works in charge of the service.

14. That the contractors shall so arrange the stations on the line as to allow passengers comfortable stopping places on Sundays, and except in cases of great emergency, or for the purpose of reaching the nearest station, no work shall be done by the contractors or their employees on Sundays.

15. That the works already commenced by the Department of Public Works on this line, as well as the works the Minister may hereafter cause to be made on the said line or near the same may be carried on at such time or times and in such manner as the Minister may determine without interference or obstruction on the part of the contractors or their employees, or any party or parties under their control; it being distinctly understood that the said Department shall not be bound to carry on or complete within any given period any of the said works, and that the contractors shall have no claim whatever on account of any of the said works not being completed at any time during the continuance of the present contract.

16. That the Contractors shall make such casual repairs to the Government property or effects, or to the roads or approaches, as may at any time or times be required, or sufficient to enable them to perform the service herein contracted for, at their own expense for the bulk sum of One Thousand Dollars.

17. That the Contractors shall, at their own expense, transport the six boilers ordered to be made by the Department of Public Works, and now in course of construction at Dundas for the steam launches on the inland waters, from Thunder Bay to the places required, and place them in position in the launches.

18. That the Contractors shall, at their own expense, provide proper covers for the stages and freight waggons, to be used as far as practicable, and shall provide also such blankets as may be required.

19. That the Contractors shall prepare and submit for the approval of the Minister, proper handbills or notices indicating, in the English and French languages respectively, the rates of fare for passengers and freight, and the rules and regulations to be observed by the passengers as well as by the employees of the Contractors on the route, of which the following shall form part, viz: Spirituous liquors strictly prohibited. No trading in furs allowed; no smoking (in certain places); price of meals, 30 cents, with table of distances; and giving such other general information as may be deemed advisable; and shall cause the same to be placarded at conspicuous places at each station, on each steamboat, barge and stage &c., at both ends of the route.

20. That the rates for the conveyance of passengers and freight, which the Contractors are hereby authorized to charge, shall not exceed the following, viz:

From Thunder Bay to Fort Garry and VICE VERSA.

For each passenger, with 200 lbs of baggage, ten dollars current money of Canada	\$10 00
For each passenger under 14 years of age, with 100 lbs of baggage, five dollars	5 00
For children under 3 years of age	Free.
For all freight securely packed (not including household furniture or machinery) per 100 lbs, two dollars	\$2 00
For household furniture, at owner's risk, per 100 lbs, three dollars	3 00

For all machinery at *special rate*, to be approved of by the officer in charge of the works.

For horses, cattle, sheep, &c., at *special rates*, also to be approved of.

WAY PASSENGERS AND FREIGHT.

Land.

On the road from Thunder Bay to Shebandowan, and on the road from the North-west Angle of the Lake of the Woods to Fort Garry:

For passengers, five cents per mile.....	\$0 05
For freight one-and-a-half cent per 100 lbs per mile.....	0 01½

Water and Portages.

And on the water and Portage sections of the road :

For passengers two cents per mile.....	0 02
For freight, a half cent per 100 lbs per mile.....	0 0½
And for passengers from Thunder Bay to Fort Francis, or vice versa, seven dollars each.....	7 00

21. That the following shall be deemed, and taken to be the number of miles respectively, for which the above rates for way passengers and freight may be charged viz :

	Miles Hundreths.
From Thunder Bay to Shebandowan Lake.....	45 00

Total.....	331 55
------------	--------

22. That it shall be lawful for the Minister, or his successors in office, acting as aforesaid, at any time during the continuance of this contract, to cancel and put an end to the same; and in such case the said Contractors shall be entitled to receive compensation for such losses as they may sustain for or in respect of charters and materials or stuff on hand, and other losses which they may actually and *bona fide* sustain by reason of such cancelling of the contract; but no loss of profit or prospective advantages of any kind shall be deemed a loss for which compensation can be claimed, in the event of the contract being so cancelled and put an end to. Provided, however, that in case of dispute or disagreement between the parties to this contract as to the amount of such compensation, the question in dispute shall be referred to, and be determined by the official arbitrators appointed by the Dominion Government, whose award or awards shall be binding and conclusive as to the matters so to be submitted to them. Provided also that, so soon as the service herein agreed to be performed shall be stopped, or cease for any reason or cause whatsoever, then the payment of the bonus herein agreed upon, or of any portion thereof remaining unpaid shall be stopped, and the Contractors shall then be entitled

only to such portion of the said bonus so remaining unpaid as may be in proportion to the duration of the service then really performed.

23. That it shall at all times be lawful for the Minister, acting as aforesaid, or his successors in office, to cause the boats or other water conveyances (whether belonging to Her Majesty's Government or to the Contractors or others,) or any or either of the same and their engines, boilers, machinery, &c., to be inspected by any officer whose orders must be obeyed at once by the Contractors, whether appointed by the Minister or by Her Majesty's Government, and, if he shall report the said boats or any of them to be dangerous or unsafe in any respect, the said boat or boats shall be immediately removed or repaired and made safe by the owners thereof, and in the meantime the Contractors shall provide other suitable means of carrying on the service. All buildings, land conveyances and plant, horses and oxen, shall be subject to the inspection of a Government Engineer, or of such officer as the Minister may appoint for that special purpose; the orders of such Engineer or officer must at once be obeyed.

24. That, in any question or dispute, arising upon any covenant, stipulation or agreement herein contained, no reference shall be had or made to the original or other tender of the said Contractors, but the same and every advertisement, proposal, notice or other paper relating to the subject matter of this contract previous to the date hereof shall be deemed and taken to be wholly superseded by these presents.

And Her Majesty, represented as aforesaid, doth hereby promise and agree to and with the Contractors, their heirs executors, and administrators in manner following, that is to say :

That upon the due and faithful performance of all and singular the covenants, stipulations and agreements herein contained, and on the part of the said Contractors to be performed, the Minister and his successors in office shall pay, or cause to be paid to the Contractors, their heirs, executors, administrators or assigns, the said bonus or sum of seventy-five thousand dollars (\$75,000) for the said present season of navigation in six equal instalments of Twelve thousand five hundred dollars (\$12,500) each, on the first day of each of the months of June, July, August, September and October, and the second day of November of the present year (1874).

In witness, whereof, the said Minister acting as aforesaid, hath signed these presents, and caused the same to be sealed and to be countersigned by the Secretary of the Department of Public Works of Canada, and the said Contractors have also signed and sealed the same on the day, month, and year first above written.

Signed and sealed by the Contractors in the presence of JOHN KERR, by Wm. H. Carpenter, Charles McInnes, M. M. Thompson, George D. Dickson, by Wm. B. Wemp, and A. A. McCallum.

(Signed),

WM. H. CARPENTER,
WM. B. WEMP,
A. A. MCCALLUM,
CHARLES MCINNES,
M. M. THOMPSON.

Signed and sealed by the said Minister and Secretary of Public Works, in the presence of W. A. FISSIAULT.

(Signed),

A. MACKENZIE,
F. BRAUN,

Secretary.

Tender for Transportation of Passengers and Freight from Thunder Bay to Fort Garry.

We the undersigned offer to convey all passengers and freight (heavy machinery excepted) from Thunder Bay to Fort Garry during the season of navigation 1874.

For each passenger and 200 lbs of baggage.....	\$10
For each passenger under 14 years of age and 100 lbs of baggage	5
For children under 3 years of age.....	Free
All freight securely packed (not including household furniture or machinery per 100 lbs.....)	\$ 2
Household furniture at owner's risk per 100 lbs.....	3

All machinery at special rates.

Horses cattle sheep &c., at special rates with a bonus from the Government of the sum of \$75,000 to be paid monthly or quarterly.

Meals will be furnished at the regular stations of the contractors (when required) at 30cts. per meal.

Passenger stages, accompanied by baggage wagons, will leave Thunder Bay on arrival of boats (Sundays excepted) and freight wagons regularly 3 times per week, or daily should sufficient freight offer.

On Fort Garry end of route regular passenger stages would await arrival of Lake of the Woods steamer, and freight teams would regularly leave Fort Garry and Lake of the Woods twice per week or daily if necessary.

No liquor would be carried on the route or allowed on contractors premises.

The stations would so arranged as to allow passengers comfortable stopping places for Sundays, as except in cases of great emergency no work would be done by them on that day.

All plant, buildings, &c., mentioned on schedule to be handed over to contractors and returned by them in as good order as received, wear or tear and dangers of fire or unavoidable accidents at all times excepted.

The contractors would expect that all permanent works now in course of construction would be completed by the Government and the roads kept in an ordinary state of repair.

And the contractors will agree to keep a sufficient staff of men and teams to do the work efficiently and promptly, and without unnecessary delays, and will endeavour to make the route popular.

And the contractors will agree to take the six boilers now in course of construction at Dundas for the launches on the inland waters from Thunder Bay to the places required, at their own expense and place them in position.

Covered stages and freight wagons would be used as far as practicable.

The contractors would be prepared to send on part of their staff of engineers, horses and men by first boat (about 5th May) if contract awarded them, and would place capable men in all departments.

The contractors can give any further information required, or explain any matter not sufficiently explicit.

(Signed.)

WM. H. CARPENTER & Co.

ORILLIA, Ont., April 18th, 1874.

Firm composed of William H. Carpenter, wholesale and retail provision dealer, Orillia.

William B. Wemp, stage proprietor, Bridgewater.

Alex. A. McCallum, miller and contractor, Tweed.

Charles McInnes, pilot and 1st officer, Upper Lake Propellor, Orillia.

Matthew M. Thompson, bookkeeper and accountant and assistant manager of saw mills and woods, Belleville.

Memorandum to be taken in connection with W. H. Carpenter & Co's., of Orillia, Ont., tender for transporting freight and passengers from Thunder Bay to Fort Garry, that they have received information from J. J. Dawson, Esq., showing them that

1,600 passengers were taken over the route last year	
and that for so doing the sum of.....	\$16,000 00
was received and that say 600 tons of freight was also	
taken over last year and that the sum of.....	24,000 00

or thereabout was received therefor, making a total of \$40,000 00

That there was employed for this purpose last year a staff consisting of say. 100 pair of horses and about 200 men, and that the cost of transporting them from Sarnia and Collingwood and return (with special rates made with the boats) was equal to an average of about \$60 for each team and man, and about \$20 for each ordinary man including their return fare and meals.

That the price of oats at Collingwood just now is nearly 10 cents per bushel higher than last year, and that hay and provisions generally are a little higher in price.

That there are six new boilers now in course of construction at Dundas and will be delivered at Thunder Bay at first boat, and that contractors are expected to take them from there and place them in the launches on the inland waters at their own expense.

That owing to the fact of so many men being detained so late last fall, the blankets in use had to be distributed and the contractors would therefore have to provide themselves almost entirely with new ones.

That owing to the sudden and frequent rain storms it would be necessary to furnish the greater part of both passenger and freight wagons with covers to keep goods dry.

That the first boat last year left Sarnia on or about 5th May and Collingwood first boat left about 10th May, that should the undersigned be entrusted with contract they would be prepared to leave with a portion of their staff at about the same dates this year and that they calculate the route will remain open to on or about 15th October or later if practicable.

That the firm is composed of workers who would proceed at once to the scene of operations and take an active personal interest in pushing the work to its utmost.

That Mr. Carpenter for some eight years was engaged in contracting with such firms as Gilmour & Co. and A. S. Page & Co., in hauling saw logs in the woods and teaming supplies to their shanties, employing a large number of men and teams, and that for nearly two years he was engaged as general manager of a large saw mill and limits employing a large number of men and teams, and at present engaged in Orillia as a wholesale and retail flour and provision dealer.

That Mr. Wemp has for a number of years been engaged in the stage business formerly between Napanee and Belleville, and latterly and now between Belleville and Bridgewater, and has therefore large experience of such work.

That Mr. McCallum is now engaged at milling, but for some years was engaged in saw milling and saw log driving and has a practical knowledge of steam and steam power and the use of boats generally.

That Mr. McInnes is an officer of long experience on Lakes Ontario, Erie, Michigan, Huron and Superior principally on propellers, and that he now holds a first class certificate from Buffalo Board of Examiners as pilot dated May, 1873.

That Mr. Thompson has been engaged for some five years as assistant manager and book-keeper of a lumbering firm running two large saw mills and employing large numbers of men, and that his ability as a financier is generally acknowledged.

The firm therefore base their claim for acceptance of their tender on the ground that they combine all the elements of success in themselves and that their practical knowledge could here be turned into good account, and they can confidently refer you to Messrs. H. H. Cook, M. P., for North Simcoe; A. P. Cockburn, M. P. for Muskoka to Jas. Brown, Esq., M. P., for West Hastings who have a personal knowledge of the applicants and can vouch for their ability and integrity.

The firm fully understand the difficulties of the position and the very uncertain nature of the data forming the basis of their calculation, but think they have made provision for all contingencies and therefore ask a favorable consideration for their tender.

(Signed,)

WM. H. CARPENTER & Co.

OTTAWA Ont., 18th April, 1874.

Tender for working the western section line of transportation leading from Thunder Bay to Fort Garry, for passengers and freight during the ensuing season of navigation.

I, the undersigned, hereby offer to enter into contract to work and keep in operation the above mentioned line of transportation, during the ensuing season of navigation, on a scale sufficient to ensure the conveyance of passengers and freight over it, without delay, for the prices and sums herein stated; the two undermentioned persons being offered as security for the due fulfilment of the same.

Western Section.—North West Angle to Fort Garry.

Passengers per head with meals	\$ 8 00
Freight per ton.....	30 00
Bonus for the season.....	45,000 00

Signatures, occupations and residences of parties tendering. { (Signed,) W. FRED. BUCHANAN,
Accountant, St. Boniface, Manitoba.

Signatures, occupations and residences of securities. { (Signed,) W. J. MACAULAY,
Lumber Merchant, Winnipeg.
(Signed,) FRANCIS CLEMOW
Official Assignee, City of Ottawa.

Dated at OTTAWA the 20th day of April, 1874.

The Secretary, Department Public Works,
Ottawa.

OTTAWA, April 20th, 1874.

SIR,—In submitting the accompanying tender for working the "Western Section" of the Red River route during the ensuing season, I desire to explain myself more fully than the form of tender admits of.

With the experience of the last two seasons, a service capable of transporting over the Lake of the Woods road, during the season, 2,500 passengers and 400 tons of freight would be amply sufficient, and for the rates and bonus contained in my tender I am prepared to provide sufficient accommodation to enable me to do so. Should, however, these figures be increased, my arrangements will be such as to meet any emergency likely to arise.

Passengers will be furnished with comfortable meals, and both passengers and freight forwarded with despatch. Adult passengers will be allowed 150 lbs. baggage free. Children under 12 years of age will be charged half price and allowed 75 lbs. baggage. Children in arms free. Extra baggage will be charged \$1.50 per 100 lbs. Freight and baggage must be of convenient size, and not exceeding 400 lbs. in weight. The freight charges on light, but bulky packages, will be estimated by measurement.

The plant, horses, wagons, &c., to be handed over to the contractor by the 5th May next, and the buildings, as per schedule, on the 1st June.

Two new stations are absolutely required on this section of the route, namely, at 16 miles west of North West Angle, and at 15 miles east of St. Boniface. Increased sleeping and stable accommodation is also required at the North West Angle, and at either White Mouth or Broken Head Stations.

As this tender is only for one season, the contractor could not be expected to provide this accommodation, but I am prepared to put up suitable buildings at the following places for the undermentioned sums:—

At the North West Angle.

Immigrant Shed, 50 x 30.....	\$1,250 00
Stables, 50 x 25.....	600 00
Cook House and Latrines.....	350 00
	————— \$2,200 00

New Station, 16 Miles West of Angle.

Station House, 30 x 25.....	\$800 00
Kitchen.....	200 00
Stables and Storehouse	500 00
	————— 1,500 00

At Broken Head Station.

Immigrant Shed, 40 x 30.....	\$1,250 00
Addition to Stables.....	300 00
	————— 1,550 00

New Station, 15 Miles East of St. Boniface.

Land, 5 Acres.....	\$200 00
Station House, 30 x 25.....	800 00
Cook House and Store.....	300 00
Stables, Fences, &c.....	450 00
	————— 1,750 00
	\$7,000 00

The roadway in some places is very bad, owing to the character of the country it passes through, and the floods and rains of the last two seasons. The bad places notably are the first muskeg west of the Angle, the section between the 14th and 18th miles, the eastern part of the Cariboo muskeg, and the muskeg west of Oak Point Dépôt. The expenditure necessary on these sections would be as follows:—

Muskeg west of Angle, 3 miles.....	\$3,000 00
Between 14th and 18th miles, 3 miles.....	3,000 00
Crosslaying Eastern part of Cariboo muskeg, ½ mile.....	1,350 00
Swamp west of Oak Point, 4 miles	5,000 00
General repairs to road	5,000 00
	————— \$17,350 00

For which sum I would bind myself to keep the road in good order during the ensuing season.

The contractor should be allowed to levy a toll on the section of the road east of White Mouth River. The country carts cut the road up very badly, and the owners will never do anything towards putting them in repair.

The bridge across the Pine River near St. Boniface is a temporary and very unsafe structure. For \$2,500 I would put up a safe and substantial one.

A telegraph line is urgently required between Red River and the North West Angle. On the condition of the Government supplying the wire and insulators at Fort Garry free of cost, I would put up a line of telegraph between the above-named places, furnish instruments for five offices, and keep the line open during the season of navigation for \$8,500.

The terms of payment to be a matter of arrangement between the Department and the contractor.

Should I be successful in obtaining the contract, in addition to the securities offered, I am authorized by the Hon. Donald A. Smith, M.P., for Selkirk, to use his name as a guarantee that the terms of the contract will be carried out to the satisfaction of the Department and of the public.

I have, &c.,
(Signed,) W. FRED. BUCHANAN.

Tender for working of the Eastern Section of the line of Transportation leading from Thunder Bay to Fort Garry for Passengers and Freight during the ensuing Season of Navigation.

The undersigned hereby offer to enter into contract to work and keep in operation the above-mentioned line of transportation during the ensuing season of navigation, on a scale sufficient to ensure the conveyance of passengers and freight over it without delay, for the prices and sums herein stated, the two undermentioned persons being offered as security for the due fulfilment of the same.

Eastern Section—Prince Arthur's Landing to North-West Angle.

Passengers per head, with meals.....	\$ 15 00
Freight per ton.....	40 00
Bonus for the season.....	140,000 00

Ottawa.

OTTAWA, April 20th, 1874.

SIR,—In regard to the enclosed tender, there is another person who is to join us in the contract, but is not here, and any information that may be necessary I can give you, as I am at present in the city ; also any further security that you may require can be furnished you.

Your obedient servants,
SIFTON & Co.

The Secretary, Department of Public Works.

MANITOBA, ST. ANDREWS, March 6, 1874.

SIR,—In accordance with notice in *Toronto Globe* of 25th ult., calling for tenders for working the line of transportation from Thunder Bay to Fort Garry for the ensuing season.

We hereby offer to forward passengers and freight over the Western section extending from North-west Angle of the Lake of the Woods to Fort Garry at the following rates, viz :

- 1st. First-class passengers to be conveyed in covered stages at \$8.00 per head.
- 2nd. Emigrants to be conveyed in wagons at the rate of \$4.00 per head.
- 3rd. Children under 10 years of age of either class to be conveyed at half price.
- 4th. 50 lbs of baggage to be allowed each passenger, free, all over that amount to be charged at rate of \$4.00 per 100 lbs. if taken by stage or to be sent as freight at rates as noted below.
- 5th. Freight to be carried at the rate of \$40 per ton of 2000 lbs for ordinary rates, light and bulky freight to be charged proportionably higher rates.
- 6th. Bonus required from Government \$8,500 for the season, to be paid in monthly instalments.
- 7th. All buildings and plant of every kind, including hay, to be turned over for use of Contractors.

(Signed,) ARCHIBALD YOUNG & SONS.

F. Braun, Esq. & Co., &c.
